## Performance highlights for the Quarter

During the first half FY 2025/26, URA collected net revenues (gross revenue less refunds) of UGX 16,476.05 billion against a target of UGX 17,511.59 billion registering a performance of 94.09 percent. A substantial growth of UGX 1,227.06 billion (8.05 percent) was realized compared to first half of FY 2024/25. The total refunds during the period July to December were UGX 367.17 billion. In addition, Domestic revenue collections grew by 7.55 percent while the Customs collections grew by 8.84 percent.

## Variances and Challenges

By end December 2025, UGX 456.193 billion had been released of which UGX 411.044 billion was spent hence registering a budget absorption level of 90.10 percent against a target of UGX 100 percent. The variance in budget utilization is accounted for in ongoing procurements.

Quarter 2

## Performance highlights for the Quarter

During the first half of FY 2025/2026, NARO recorded significant achievements in variety development, pest and disease control, seed production, invasive species management, technology transfer, and research infrastructure.

In crop variety development, six elite yam clones were secured, 153 sugarcane germplasm accessions conserved, and 10,000 hot pepper accessions maintained for virus screening and disease assessment. For value addition, nine tomato breeding lines were evaluated and confirmed suitable for processing into juice, paste, and powder.

In livestock and poultry health, 200 Newcastle vaccine samples were analyzed, identifying 10 Gumboro and 13 Newcastle virus samples. Gumboro diagnostic protocols were finalized. NARO produced 90 liters of monovalent FMD vaccine, supporting delivery of 3,000,000 quadrivalent FMD doses to Uganda, and produced 800,000 anti-tick vaccine doses.

To improve honey quality, an SHB trap and two lure blends were developed. Invasive weeds (Parthenium and Kalimaba) were controlled across major land and water bodies using 12,425 weevils.

To reduce the seed demand gap, NARO produced 53,477 fish seed, 89 MT of crop seed, and 644,278 coffee seedlings. Under technology transfer, 25,000 farmers were trained, 28 parish demo sites established, four FSCs equipped, and eight partnerships formed. Thirty-four technologies were promoted to over 3,000 stakeholders.

For infrastructure and land management, boundaries for 1,894.832 ha across seven PARIs were opened, GMP certification of the vaccine facility was achieved, and key research facilities were upgraded or completed. NARO generated UGX 3.29 billion through various investment ventures thereby strengthening resource mobilisation initiatives

## Variances and Challenges

During the first half of FY 2025/2026, NARO faced financial, operational, institutional, and logistical challenges that constrained timely achievement of planned outputs and delivery of research, innovation, and extension services to stakeholders.

Inadequate release of funds disrupted procurement, field operations, research trials, and technology dissemination, delaying outputs, weakening partnerships, and limiting scaling of innovations.

Inadequate staffing, at about 61% of the approved establishment, created critical gaps in research, technical, and management functions, increasing workloads, limiting multidisciplinary research, weakening oversight, and reducing responsiveness to emerging agricultural challenges.

Inadequate research infrastructure, including outdated laboratories, irrigation systems, ICT, power supply, and staff housing, reduced research efficiency, analytical capacity, data management, climate-resilient research, and staff retention.

Encroachment on research land threatened long-term experiments, germplasm conservation, data integrity, and national agricultural assets, diverting resources from core research and discouraging long-term investment.

An aging vehicle fleet caused frequent breakdowns, high maintenance costs, reduced staff mobility, delayed field supervision and outreach, diverted research funds, and slowed delivery of research and extension services.

| 6(1 potato,1 onion, 1 bean,1 soy bean, 1 goat, 1 biofertilizer technologies promoted (including selection and packaging of the 6 research technologies for promotion – Finalize documentation, user guidelines, and dissemination materials for each technology . Stakeholder engagement and partnerships for technology promotion ,Engage extension services, farmer groups, agro-industries, and policymakers to create awareness and establish implementation partnerships) | Towards improving production and productivity with in the zone, draft user manuals for potato, bean, soybean, goat and fertilizer technologies were developed. To support seed multiplication in south eastern agro-ecological zone, a total of 13 acres (06 cassava, 07 maize) were established at Ikulwe. Additionally, one (01) Banana demonstration site covering 3 acres established at Bulegeni. 35.4 acres of coffee maintained at Buginyanya. In addition, two coffee demonstration plots were successfully established in Iganga and Namutumba districts to showcase improved coffee production practices. To support clonal coffee production, a total of 20,000 clonal coffee seedlings were cloned (KR1 – KR7). To enhance rice production, eight (08) the Musomesa Field School (MFS) groups were conducted across Doho 1 and Doho 2, reaching 240 farmers. One-acre pasture fields of Sugar Napier and Pakchong were established to support improved fodder production in Mayuge. | Performance on target |
| UGX 39875000 (15000 monosex tilapia,625 banana,1250 suckers,1000 bags of cassava,12500 Arabica,6250 KR robusta coffee seedling) produced | UGX 50,186,200 was generated through the sale of 600 banana, 15000 tilapia, 1255 suckers, 1500 cassava bags, 12700 arabica, 6000 KR robusta coffee seedlings produced | Performance on target as production was favored by good climatic conditions |

| Climate change mitigation strategies Integrated into agricultural research to develop one (01) research products for reduced methene emission and climate change resilience. | During Quarter 2, NARO integrated climate change mitigation strategies into agricultural research, and developed one (01) biochar-based soil amendment and one (01) organic waste management research product at the National Crops Resources Research Institute (NaCRRI), Namulonge. Developed through thermal conversion of agro-research residues under low-oxygen conditions to produce a stable, carbon-rich bio product suitable for soil application. The technology reduces methane emissions by preventing anaerobic decomposition of organic residues and improves soil moisture retention, fertility, and overall soil health. | Performance on track |

| 2 technological packages for climate change adaptation delivered along uptake pathways. | During the Q2, NARO delivered two (02) physical climate change adaptation technological packages along established uptake pathways to enhance agricultural resilience. The first package comprised of four (04) drought-tolerant, early maturing and high yielding crop varieties, including two (02) improved bean varieties (NABE 15, NABE 17), and two (02) maize varieties (Longe 10H, Longe 11) developed at the National Crops Resources Research Institute (NaCRRI). Additionally, one (01) early-maturing (80-90 days) and high yielding (1500-2500kg/ha) cowpea varieties (SECOW 4W, 5T) was developed at the National Semi-Arid Resources Research Institute (NaSARRI), Serere and delivered to communities for uptake. These technologies were delivered with supporting agronomic recommendations, demonstration trials, and seed multiplication pathways to facilitate farmer uptake, scaling, and sustained climate change. | Performance on track |

| Five Agricultural research technologies on agro-machinery, conservation and 3 value addition developed for improved production, food, nutrition and industrial stimulation in the entire country. | Towards enhancing agricultural production and productivity, progress on development of two (02) agro-machinery equipment (1st prototype of animal drawn planter for large seeded grains and 1st prototype of commercial-grade bean thresher) was recorded. Towards ensuring optimisation, one (01) land capability map for Amuru project site was developed. Additionally, draft water management guidelines using AquaCrop for different stakeholders were developed. Furthermore, a Solar powered irrigation system design layout was developed to enhance agricultural production and productivity. Towards development of value-added products for food, feed and industry, one (01) protocol for hot press oil extraction from citrus peels and seeds was developed. Furthermore, one millet-legume-oil seed-pumpkin composite flour is still under development. Additionally, three citrus varieties were characterized for product development (juice yield, total soluble solids, titratable acidity, vitamin C) | Performance on target |

| Installation and calibration of laboratory equipment Completion of the wall structure, plastering, and landscaping for NARO gardens.Structural repairs, roofing, and reinforcement work. Construction of the first 300m of the wall (brickwork, reinforcement, and security features). Foundation laying, slab casting, and structural framework completion. | For effective agricultural research, innovation, and service delivery, NARO completed the perimeter wall structure for NARO gardens. Additionally, procurement for the laboratory equipment was initiated. | Performance was on track |
| • Installation of dedicated internet infrastructure (fiber-optic/ wireless broadband) completed. • Initial system configuration, security setup, and testing conducted. | Towards strengthening research quality, institutional efficiency, and national agricultural innovation, procurement for a dedicated internet infrastructure (fiber-optic/wireless broadband) was initiated | Performance on track |

| Training sessions conducted for 10 PARIs on best practices in coffee seedling production. Four vaccine staff production capacity strengthened and and stable ICT and electricity | Towards enhancing coffee production and productivity with in the country, NARO conducted training for 320 staff in nursery management, pest and disease management, agronomy and agroforestry. In a bid to improve productivity with in the vaccine facility, 10 scientists were trained in Good Laboratory Practices (GLP) and Current Good Manufacturing Practices (cGMP) compliance system. Additionally, installation of a stable power line was completed for enhanced productivity | Performance on track |

| Continue and support development of 18 Agricultural value-added products (citrus, mango, dairy, low gluten therapeutic nutritious composite, Mexican bean weevil management technology, orange and purple fleshed sweet potato. | Towards development of products for food and industry, three citrus varieties were characterized for product development (juice yield, total soluble solids, titratable acidity, vitamin C). Additionally, One protocol for hot press oil extraction from citrus peels and seeds was developed. Three bean varieties (NABE series) varieties were collected from authentic local seed producers in Iganga for Screening. Botanicals (Tobacco, Tagetes, Tephrosia) were assembled and being processed for use in biosaays. One method for production of puree tested on both orange and purple fleshed sweet potato was developed. Two methods of drying cassava and sweet potato tested (Rapid dehydration vs modified solar drying) were evaluated. | Performance on track |
| **PIAP Output: 01411201 Agro-industry standards, certification and accreditation enhanced** | | |
| **Programme Intervention: 014112 Strengthen compliance to product quality requirements and standards (National, Regional and International)** | | |
| One vaccine production system established and perfected for excellent vaccine production Pharmacovigilance data of 500 animals from 1regions of Uganda obtained. | During Q2, the Vaccine production facility was certified with cGMP . Additionally. Pharmacovigilance data of 400 animals from western region was obtained to ensure the safety, effectiveness, regulatory compliance, and farmer acceptance of anti-tick vaccines, while supporting their sustainable integration into livestock health management systems. | Performance on track |

|---|---|
| Twenty-three(23)Agriculture research technologies (2 wheat, 2 barley, 2 forage, 3 biofertilizers, 2 coffee, 1 pest control, 2 potato, 2 onions, 2 beans, 2 maize, 1 goats and 2 soy bean) promoted in the zone for food nutrition and industry. | Towards improving production and productivity with in the zone, draft user manuals for potato, bean, soybean, goat and fertilizer technologies were developed. To support seed multiplication in south eastern agro-ecological zone, a total of 13 acres (06 cassava, 07 maize) were established at Ikulwe. Additionally, one (01) Banana demonstration site covering 3 acres established at Bulegeni. 35.4 acres of coffee maintained at Buginyanya. In addition, two coffee demonstration plots were successfully established in Iganga and Namutumba districts to showcase improved coffee production practices. To support clonal coffee production, a total of 20,000 clonal coffee seedlings were cloned (KR1 – KR7). To enhance rice production, eight (08) the Musomesa Field School (MFS) groups were conducted across Doho 1 and Doho 2, reaching 240 farmers. One-acre pasture fields of Sugar Napier and Pakchong were established to support improved fodder production in Mayuge. |
| UGX 159,500,000 generated through 60,000 monosex tilapia produced, 2500 banana bunches, 5000 suckers, 4,000 bags of cassava cuttings produced, 50,000 quality Arabica and 25,000 KR robusta coffee seedlings produced | UGX 50,186,200 was generated through the sale of 600 banana, 15000 tilapia, 1255 suckers, 1500 cassava bags, 12700 arabica, 6000 KR robusta coffee seedlings produced |

| Climate change mitigation strategies Integrated into agricultural research to develop 4 research products for reduced methene emission and climate change resilience. | During Quarter 2, NARO integrated climate change mitigation strategies into agricultural research, and developed one (01) biochar-based soil amendment and one (01) organic waste management research product at the National Crops Resources Research Institute (NaCRRI), Namulonge. Developed through thermal conversion of agro- research residues under low-oxygen conditions to produce a stable, carbon-rich bio product suitable for soil application. The technology reduces methane emissions by preventing anaerobic decomposition of organic residues and improves soil moisture retention, fertility, and overall soil health. |

| 8 technological packages for climate change adaptation delivered along uptake pathways. | During the Q2, NARO delivered two (02) physical climate change adaptation technological packages along established uptake pathways to enhance agricultural resilience. The first package comprised of four (04) drought-tolerant, early maturing and high yielding crop varieties, including two (02) improved bean varieties (NABE 15, NABE 17), and two (02) maize varieties (Longe 10H, Longe 11) developed at the National Crops Resources Research Institute (NaCRRI). Additionally, one (01) early-maturing (80-90 days) and high yielding (1500-2500kg/ha) cowpea varieties (SECOW 4W, 5T) was developed at the National Semi-Arid Resources Research Institute (NaSARRI), Serere and delivered to communities for uptake. These technologies were delivered with supporting agronomic recommendations, demonstration trials, and seed multiplication pathways to facilitate farmer uptake, scaling, and sustained climate change. |

| Fifteen (15) Agricultural research technologies (2 soils , 2 agro-machinery, 2 conservation, 7 value addition and 2 bio control) developed for improved production, food, nutrition and industrial stimulation in the entire country. | Towards enhancing agricultural production and productivity, progress on development of two (02) agro-machinery equipment (1st prototype of animal drawn planter for large seeded grains and 1st prototype of commercial-grade bean thresher) was recorded. Towards ensuring optimisation, one (01) land capability map for Amuru project site was developed. Additionally, draft water management guidelines using AquaCrop for different stakeholders were developed. Furthermore, a Solar powered irrigation system design layout was developed to enhance agricultural production and productivity. Towards development of value-added products for food, feed and industry, one (01) protocol for hot press oil extraction from citrus peels and seeds was developed. Furthermore, one millet-legume-oil seed-pumpkin composite flour is still under development. Additionally, three citrus varieties were characterized for product development (juice yield, total soluble solids, titratable acidity, vitamin C) |
| UGX 750,000,000 generated through sale of 5,000 tissue culture plantlets, 80,000 coffee seedlings, 8 value added products and organising 20 stakeholder engagements at NARL conference facilities | UGX 187,496,500 was generated through sale of 1250 tissue culture plantlets,20,000 coffee seedlings,2 value added products and 5 stakeholder engagements hired at NARL conference facilities |

# VOTE: 143 Uganda Bureau of Statistics (UBOS)

Quarter 2

## Performance highlights for the Quarter

1. UBOS successfully conducted the data collection of the Baseline Education Census across all districts in Uganda fully covering the Preprimary schools, Primary schools, Secondary schools and Vocational institutions.
2. The Bureau has provided key outcome indicators required for measuring the performance of the economy i.e. Annual Gross Domestic Product (AGDP), Quarterly Gross Domestic Product (QGDP)
3. UBOS produced the report on the Rapid Assessment on the flooding incidence in the greater Kampala metropolitan area (GKMA).
4. The Bureau produced the Specialized Municipal Solid Waste Survey report from undertaking a specialized study in four cities; Gulu, Fort Portal, Soroti and Masaka using the Waste Wise Cities Tool (WaCT) Methodology.
5. The Bureau continued with the implementation of the Uganda Harmonized Integrated Survey (UHIS) integrating the activities of Uganda National Panel Survey (UNPS) and the Annual Agricultural Survey (AAS).
6. UBOS produced and disseminated weekly and monthly reports for the consumer price index. The Quarterly Harmonized CPI (HCPI) tables for the EAC and COMESA datasets were compiled and submitted to the regional bodies.
7. On strengthening compilation of statistics from administrative data in the NSS, UBOS conducted training of District statistics committee members, Community Development Officers (CDOs) and Parish Chiefs on Community Information System Management.
8. Provide methodology support to NSS stakeholders in Statistical Production.
9. UBOS completed and disseminated the Uganda National Household Survey 2023-2024 report

## Variances and Challenges

1. Delayed release of funds for some field trips affects data collection targets and timelines for BEC
2. Weak statistics function in MDAs/LGs; Competing demands by the stakeholder’s affected prioritization of statistical activities by the Planners.
3. Unconducive work environment, limited space, broken furniture.

## Performance highlights for the Quarter

CRIME PREVENTION AND INVESTIGATIONS MANAGEMENT

Registered 100,090 cases, made inquiries into 57,385 cases and took 34,978 cases to court

Performed 10,432 canine tracking's leading to arrests of 8,460 suspects of whom 2,968 persons were taken to court having recovered 3,580 exhibits. Opened 07 canine units.

Issued 58,114 persons with Certificates of Good Conduct.

Continued with Firearm Fingerprinting (UPS 100%, UPF 99% including PSOs and privately held firearms have been registered in the IBIS database)

Supported crime investigations and special operations with CCTV evidence, 742 CCTV cases handled, 230 cases Investigated

TERRITORIAL POLICING

Policed the General election processes.

Enhanced security in Karamoja sub region through joint disarmament operations
Recovered 538 heads of cattle out of the 510 reported stolen.

Provided Security for Refugee Settlements.

EMERGENCY RESPONSE & SPECIALIZED POLICING

Responded to 294 of 337 fire emergency calls and saved 400 lives 100F retrieved 43 bodies 15 F.

Carried out operations to enforce traffic laws and regulations throughout the country, arrested 164,848 traffic offenders and issued Tickets worth UGX 13,360,220,000 /= out to the offenders.

GENERAL ADMINISTRATION

Embarked on construction of 1,200 housing units (20 blocks of 60 units each).
Commenced construction of 70 standard sub county police stations along with attendant accommodation overall percentage progress is at 15%

Continued construction of the Data crime analysis centre at CID Headquarters in Kibuli.

Continued training of 10,006(3,507F) newly recruited Probationer Police Constables (PPCs)
Recruited and trained 99,106 Election SPCs..

# VOTE: 144 Uganda Police Force

Quarter 2

Trained 9,800 (3,031F) officers on various General Career courses.
Opened and operationalized 18 new Police health centers
Attended to 349,043 (M: 153,182; F: 195,861) patients at 116 Police Health centers
Successfully launched and disseminated the UPF Strategic policing plan 2025/26 - 2029/30 "

## Variances and Challenges

1. Budget shortfalls which affects
i. Feeding in operations
ii. Crime Intelligence and Investigations.
iii. Uniforms including warm clothing.
iv. Operations of the fleet (Vehicles, Boats and Aircrafts)
v. Provision of utilities
vi. Skills development
vii. Provision of staff housing and office space
viii. Implementation of the Sub County Policing Model
ix. Accumulation of Arrears

2. Influx of refugees due to intermittent instability/conflict in the neighboring countries

3. High Attrition Levels. The high attrition rate of about 1,000 officers annually vis-a-viz the number recruited results in no net growth in police strength.

4. Human resource capacity gaps, inadequate manpower to be able to deploy effectively in all subcounties.
5. Increasing fatalities on roads. The number of deaths due to road traffic crashes has been increasing majorly due to an unregulated boda-boda industry, poor road designs and indisciplined motorists. There is need for a multi-sectoral approach to solving this problem.

6. Management of sophisticated crime. The advancement of technology has led to emergence of complex and sophisticated crimes such as cybercrime, money laundering, terrorism & terrorism financing, corruption for which the Force needs to be prepared. Effective management of these crimes requires specialized training, acquisition of modern technology, strategic partnerships among others.

7. Youth bulge. The youth in Uganda account for (18-30 years) 23.5% of the population. According to the UBOS, 48.8% of the Youth (18-30 years) are unemployed. Some of these unemployed youth have been taken advantage recruited in criminal activities.

# VOTE: 145 Uganda Prisons Service

Quarter 2

## Performance highlights for the Quarter

1. Construction of 734 staff houses ongoing at different levels; Completed: 113, Final Finishes: 358, Roofing level: 138, Window level: 30, Foundation: 95

2. Completed construction of storied ward at Luzira women prison with a holding capacity of 122 prisoners (440 sq metres).

3. Construction of 39 low-cost male prisoners' wards, using Force on Account, is ongoing at various stages. Completed – 5; Final finishes – 9; Roofing – 8; Foundation – 17

4. Construction of 8 low-cost female prisoners' wards, using Force on Account, is ongoing at various stages. Final finishes – 3; Roofing – 5

5. Prisons production:
a. Maize Seed: 1,535.97MT of maize seed worth 6.586bn from 1,202 acres

b. Cotton production: 4,587 acres of cotton with so far 1,266.44bales worth shs.1.140bn already harvested.

c. Maize Grain: Produced 18.061MT of maize grain for prisoners’ feeding worth 18.061bn from 11,882acres.

d. Uganda Prisons Industries strengthened its partnerships with government Agencies - Generated Non-Tax Revenue worth shs 2.659bn through production of furniture

## Variances and Challenges

# VOTE: 145 Uganda Prisons Service

Quarter 2

a) Prisoners' population is the major cost driver of prisons budget. It exerts pressure on housing, sanitation, Medicare, feeding, uniforms, staff numbers and delivery of prisoners to courts.

b) Delay in administration of Justice: Prisoners & staff have to move a total of 7,474 km daily to access justice amidst high fuel prices & an old fleet leading to high costs of fuel & vehicle maintenance; Delayed production of prisoners to 280 courts hence delayed access to justice, amidst a high remand proportion of 45.9%

c) Use of commitment control system amidst inadequate budget provision for basic necessities of food utilities and clothing whose consumption can't be postponed hence over commitment

d) Provision of utilities on prepaid system amidst the inadequate budget allocation leading to requests for postpaid hence accumulation of arrears

e) Inadequate & inappropriate physical infrastructure to enhance safety & security of offenders, staff & public; undertake rehabilitation programs; promote the rights of prisoners and separate different categories

f) Prison Congestion: Current prisons carrying capacity is for a daily average of 23,184 prisoners while the population is 78,936 inmates (Q2) exceeding the holding capacity by 55,752 inmates - occupancy is 340.5%

g) Staff Accommodation: 6,987 staff not properly housed. They stay in improvised houses.

h) Security: Changing profiles of offenders with global increase in terrorism; Change in sentencing regime -imprisonment for life; 60 years & above

i) Drought & Absence of Irrigation Infrastructure: UPS is generally dependent of rainfall yet its patterns are unreliable hence low production

j) Overstay on Remand: Capital offenders – 17.4 months; Petty offenders – 2.9 months on average

Quarter 2

## Performance highlights for the Quarter

In Q2, approved 89 Members of DSCs from 40 Districts as follows: Rubanda (5), Amuru (1), Iganga (1), Namayingo (2), Buliisa (2), Kakumiro (1), Buvuma (1), Bundibugyo (2), Yumbe (3), Rubirizi (1), Sheema (2), Mitooma (3), Rwampara (5), Kitagwenda (4), Oyam (3), Kikuube, (2), Luuka (4), Arua (1), Kagadi (4), Maracha (2), Lyantonde (4), Bugiri (2), Kalaki (3), Koboko (4), Isingiro (1), Manafwa (1), Buhweju (2), Katakwi (2), Amudat (3), Adjumani (2), Kalangala (1), Mpigi (1), Abim (1), Bududa (2), Bugweri (4), Kitgum (2), Namutumba (1), Omoro (1), Kween (1), Kyegegwa (2).

The commission held a two (2) days D/CSCs stakeholders' conference for 21 Local Governments from Lango and Acholi Sub Regions from 11th to 12th December, 2025.

In Q2, two (2) Appeals from 2 Districts were concluded as follows:
a) Apac, - appeal against appointment of Senior Inspector of Schools in Apac Municipal Council, Scale U3.
b) Omoro, - appeal against promotion to Principal Assistant Scretary, Scale U2.

A total of 279 applicants under RAPEX were absorbed in the respecive ministries in Q2.

In Q2, a validation exercise of the data collected online from 31 Local Governments that indicated their readiness to adopt the Online Recruitment and Appeals Management Information System (ORAMIS) was conducted.

In Q2, four (4) D/CSCs and five (5) MDAs were supported, The D/CSCs included Nebbi, Kanungu, Madi Okollo and Kakumiro. The MDAs included: Uganda Bureau of Statistics (UBOS), Local Government Finance Commission (LGFC), Uganda National Oil Company (UNOC), Ministry of Energy & Mineral Development (MEMD), Presidential Initiative on Banana Industrial Development (PIBID).

In Q2, capacity of departmental staff enhanced in Trainer of Trainees Workshop in readiness to train Members of PSC and the Board Secretaries for eventual pilot to the stakeholders.

## Variances and Challenges

# VOTE: 146 Public Service Commission (PSC)

Quarter 2

At the end of the second quarter (Q2), FY 2025/26, the budget performance of the commission was as follows:

Wage:
By end of Q2, Ushs 1.871 billion, representing 50% of the approved budget for wage, was released. Of the approved budget for wage, the commission spent Ushs 1.615 billion, representing 43%, by end of Q2. Of the total released budget for wage, 86.3% was spent by end of Q2.

Non-Wage:
By end of Q2, Ushs 9.815 billion, representing 55% of the approved budget for non-wage was released. Of the approved budget for non-wage, Ushs 7.748 billion, representing 43.2%, was spent by end of Q2. Of the total released budget for non-wage, 78.9% was spent by end of Q2.

Development:
By end of Q2, Ushs 1.178 billion was released, representing 46.4% of the approved development budget for FY 2025/26. Of the approved development budget, Ushs 0.811 billion, representing 31.9%, was spent by end of Q2. This represented 68.8% of the released development budget.

Quarter 2

## Performance highlights for the Quarter

Outreach activity was conducted in the LGS of Kapchorwa, Kween, Masindi, Nwoya, Kasese and Kanungu, to strengthen their capacity to effectively manage, account for, and optimize revenue from wildlife royalties in support of improved service delivery financing. The outreach focused on the following key areas: i. Assessing the current status of wildlife royalty disbursement, utilization, and accountability at the LG level. ii. Examining the flow of funds from the UWA to LGs, including planning, budgeting, and reporting processes. iii. Supporting LGs to estimate expected wildlife royalties based on their wildlife potential and historical revenue benchmarks. iv. Facilitating dialogue between LGs and UWA to enhance the accountability and disbursement framework for wildlife royalties. v. Generating evidence-based recommendations to inform national policy dialogue and strengthen fiscal decentralization reforms related to natural resources

In line with the LR enhancement objective, a follow-up activity on LED was conducted in Nebbi District LG and Arua City Council. The engagement reviewed issues raised during the Regional LED Workshop held in Arua and supported the development of actionable interventions to strengthen the linkage between LED initiatives and sustainable local revenue generation.

Action research was conducted to identify and assess potential sources of local revenue as part of the Commission’s efforts to strengthen local revenue mobilisation. The research covered a total of 30 Local Governments namely Jinja, Mbale, Soroti, Lira, Gulu, Masaka, Arua, Mbarara, Fort Portal, and Hoima. Municipal Councils, including Nebbi, Apac, Sheema, Kumi, Bugiri, Kotido, Mityana, Kasese, Kira, and Mukono. The half-year findings provide critical insights into emerging and under exploited revenue sources, administrative and policy constraints, and good practices, and will inform targeted policy recommendations and interventions to enhance the fiscal sustainability of LGs.

## Variances and Challenges

Low budget releases of 33% percent of the approved annual development budget was released in Quarter two which constrained the execution of key planned

activities

| Quarterly and annual grants transfers for all 176 LGs analyzed. | The Commission analyzed the budgets of 112 Local Governments to assess their compliance with key legal and regulatory requirements. The analysis focused on two critical aspects: Budget Credibility – Establishing whether each Local Government's budget is balanced in accordance with the Public Finance Management Act.<br>Revenue Transparency – Verifying that the budgets reflect all expected revenues, both locally collected and transfers from the central government. |
| National Budget for FY 2025/26 analyzed | The National Budget for FY 2025/26 was analysed to assess the allocation of resources to Local Governments, with particular focus on sectoral distribution, grant composition, and alignment with the approved policy priorities. The analysis examined trends in wage, non-wage recurrent, and development expenditures; assessed the equity and adequacy of intergovernmental fiscal transfers; and reviewed consistency with national planning frameworks, including the approved programmes and sub-programmes. The findings informed evidence-based recommendations aimed at strengthening fairness, efficiency, and effectiveness in the allocation of resources to Local Governments. |
| Annual Statistical Abstract produced with comprehensive and inclusive data on all local government finances. This abstract serves as a key resource for evidence-based decision-making, ensuring equity and fairness resource allocation. | The preparation of the Annual Statistical Abstract was commenced, incorporating comprehensive and inclusive data on all aspects of Local Government finances. The Abstract consolidates key fiscal statistics covering revenue performance, intergovernmental fiscal transfers, expenditure patterns, sectoral allocations, and financing trends across all Local Governments. It provides disaggregated analysis by Local Government type and region, enabling comparative assessment of performance and identification of disparities. The Statistical Abstract serves as a key evidence base for policy analysis, planning, monitoring, and decision-making, and will support ongoing reforms in grant allocation, local revenue enhancement, and fiscal decentralisation. |

| Action research conducted on two major potential sources of local revenue markets and property rates/land-based revenues to promote inclusive and equitable resource mobilization for improved service delivery. | Action research was conducted to identify and assess potential sources of local revenue as part of the Commission's efforts to strengthen local revenue mobilisation. The research covered a total of 30 Local Governments namely Jinja, Mbale, Soroti, Lira, Gulu, Masaka, Arua, Mbarara, Fort Portal, and Hoima Municipal Councils, including Nebbi, Apac, Sheema, Kumi, Bugiri, Kotido, Mityana, Kasese, Kira, and Mukono. The half-year findings provide critical insights into emerging and under-exploited revenue sources, administrative and policy constraints, and good practices, and will inform targeted policy recommendations and interventions to enhance the fiscal sustainability of Local Governments. |
| Support provided to 40 LGs in the implementation of legal provisions for local revenues. | Technical support was provided to LGs on the amended legal provisions governing major local revenue sources. During the reporting period, 6 LG—Manafwa, Bugweri, Butambala, Rukiga, Kole, and Gulu—were supported through targeted engagements. The amended legal provisions were disseminated to the respective Local Governments to enhance compliance, interpretation, and effective implementation. In addition, a draft technical report documenting the process, key issues, and recommendations has been prepared. |
| Action research conducted on the utilization of local revenue for improved, inclusive, and equitable service delivery in 25 selected LGs to enhance inclusive and equitable service delivery, ensuring that resources benefit all community member | The activity on the assessment of local revenue utilisation was commenced, with data collection and analysis currently underway. The findings from this exercise will inform a comprehensive report, which is scheduled to be finalised in the third quarter. |

| 2 regional stakeholder engagements for technical officers and Elected leaders on local revenue issues organized. to ensure promotion of inclusivity, equity, and fairness by ensuring diverse perspectives are considered in LR management. | A regional stakeholder engagement was conducted involving both technical and political leaders to address key local revenue issues. The engagement brought together Local Governments from Kabale, Rukungiri, Rubanda, Rukiga, and Kanungu. The regional stakeholder meeting was held in the Kigezi Region at White Horse Inn, Kabale, on 6th November 2025.<br><br>The engagement provided a platform for sharing experiences and best practices in local revenue mobilisation and generation. It also strengthened the capacity of participating Local Governments to develop and implement Local Revenue Enhancement Plans, while encouraging the adoption and scaling up of proven best practices. A draft report documenting the proceedings, key issues, and recommendations has been produced. |

# VOTE: 148 Judicial Service Commission (JSC)

Quarter 2

## Performance highlights for the Quarter

The Commission placed one (1) Recruitment advert for the declared vacant positions for Chief Justice, recommended to the Appointing Authority the candidates for the position of Principal Judge, Chief Registrar and Registrar (3). Appointed Deputy Registrar (6), Chief Magistrate (6), and Magistrate Grade I (6). The Disciplinary Committee held eleven (11) Sittings where 99 complaints were handled out of which 92 were against Judicial Officers and 7 against administrative and other staff of the Judiciary service. During Q2 FY 2025/2026, The Complaints and Investigation received 61 registered complaints to be investigated and a total of 17 registered complaints against Judicial Officers; and administrative and others staff were fully investigated. Concluded the special forensic investigation against two (2) Judicial Officers of the lower bench. Conducted Court Compliance Checks in: 02 High Court Divisions that is Commercial Court and Land Division, 04 High Court Circuit of Wakiso, Gulu, Lugazi and Jinja, and 09 Magisterial areas of Ibanda, Kamwenge, Wakiso, Nakaseke, Gulu, Jinja, Lugazi and the Supreme Court. One (1) Anti-corruption workshop in Fort portal City conducted; two (2) Anti-Corruption Barazas in Bushenyi and Budaka districts conducted; 12 radio talk shows on Anti-Corruption Interventions carried out; JSC participated in 16 Days of Activism against Gender Based Violence in Koboko district; Final Third JSC Strategic Plan 2025/2026 - 2029/2030 prepared and submitted to Commission for approval; JSC Service Delivery Standards developed and submitted to the Commission for consideration; Conducted fifteen (15) radio and four (4) TV talk shows using government airtime; nine (9) radio talk shows using GoU funding; four(six (6) engagements for court users, other staff of the Judiciary at Koboko, Moyo, Moroto and Abim Courts were conducted; undertook Two(2) Prison in-mates sensitizations in Kakumiro Prison and Soroti Prison.

## Variances and Challenges

1. The Commission also faces challenge of office equipment. There has been low release of funds under retooling project over the years which has limited the Commission to retool and provide appropriate office equipment to it's staff.
2. The Commission still faces transport challenges that affects timely activity implementation. The Commission's fleet is also past the recommended mileage and age which makes it expensive to maintain.
3.The Commission had a staffing gap majorly under the critical departments. This over works the lean staff and therefore affect delivery.
4. The Commission is not yet fully automated which affects its service delivery to the public. There is a need to fully automate all the business processes for the commission to increase efficiency and effectiveness.
5. The Change in the Business Process under disciplinary contraol function has increased the turnaround time for cocluding a registered complaints.

# VOTE: 150 National Environment Management Authority (NEMA)

Quarter 2

## Performance highlights for the Quarter

• By Quarter Two, a total of UGX 20.088 Billion had been released, of which UGX 13.515 Billion was released in the second quarter. Of the total released funds, 60.5% (UGX 12.163 Billion) had been spent.
• During the quarter, UGX 4.204 Billion in Non-Tax Revenue (NTR) was collected, representing 92% of the projected quarterly target of UGX 4.58 Billion.
• Drafted Guideline for preparation of the National State of the Environment Report (NSOER) and held consultations to review ESIA guidelines .
• Reviewed and processed 1,082 ESIA documents.
• Reviewed and processed 1,075 Audit documents.
• Conducted 209 Environmental Compliance and Audit Inspections across various sectors.
• Conducted 110 enforcement operations.
• Conducted 182 Baseline Verification Inspections.
• Provided 11 Compliance Assistance in Manufacturing Companies in Njeru
• Reviewed and processed 21 Waste Management Licenses.
• Prosecuted 19 cases, of which 08 were concluded and 11 are ongoing in court.
• Handled 44 civil Litigation Matters, with one case concluded.
• Developed 1,065 maps to support ESIA reviews.
• Conducted an end-of-year staff learning and reflection meeting.

## Variances and Challenges

Delayed release of funds limiting timely implementation of planned outputs.
Inadequate logistical support for enforcement and monitoring.
Inadequate public awareness on environmental regulations and compliance obligations due to limited budget for awareness.
Rising pressure on natural resources, especially wetlands and urban ecosystems.
