# VOTE: 404 Fort Portal Hospital

Quarter 2

## Performance highlights for the Quarter

Performance has been consistently improving, with special regard to the following areas

1. Deliveries conducted at the Hospital have consistently increased 1,486 Mothers. The Live babies were 1455 giving 97 percent of the mothers had live babies.
2. Total operations were 3,345 out the major operations were 1386 representing 41 percent of all operations area major operations
3. Diagnostic services : ultrasound were 3515, CT Were 449
4. Laboratory tests were 1,895
5. Specialised OPD clinics were 4,836 covering HTN, Diabetes ,Surgical OPD, Hepatitis B clinic and Sickle Clinic Clinic and ART with 5,997 .

## Variances and Challenges

Fort Portal RRH in the FY 2025/26 has approved budget of 15.004 billion, for both Wage, Non- Wage and Retooling activities. In the period under review, cumulatively 7.722 billion released for cumulatively up to Q2. Funds spent are UGX 5,921 Billion spent. The explanations for the variances are listed below:

1. The unspent balances on wage worth UGX 1.221.390, 024 is to cater for salaries of staff whom the Entity has submitted to Health Services Commission for recruitment this FY.
2. The unspent balances on Non -Wage worth UGX 518.1202,766 are mainly funds for paying Gratuity (UGX 310M). There is Senior Consultant who needs UGX560M for his Gratuity the entity will pay in Q3 once it gets additional funds.
3. Pension worth UGX 162M for which the entity is waiting for additional funds to pay staff retiring in 2025/26 FY.
4. Other funds were for services under the procurement process.
5. The unspent balances for GOU Development is to procure Medical equipment, the process of the procurement commenced, submission made to Procurement and Disposal Unit. More funds are expected to complete this procurement

# VOTE: 405 Gulu Hospital

Quarter 2

## Performance highlights for the Quarter

The Regional Referral Hospital Successfully conducted the quarterly performance review both for the hospital and for the region
OPD attendances Exceeded the Quarterly target (13299/2500) by 53% and this was attributed to improved services in the Integrated Visits
Supportive supervision visits were conducted across the region to improve on service delivery Quarterly Board meeting, Weekly management meetings were successfully Conducted
5,503 Patient admissions handled.
3 Days Average Length of Stay expected.
85% Bed Occupancy Rate registered.
6,974 Operations were done both major and minor

## Variances and Challenges

Staff accommodation is still a challenge with less than 20% of the staff being accommodated. Lack of funding to complete the 54Unit staff houses
High utility costs (water and electricity) with limited non wage
Low staffing levels and the exit of project supported staff has caused more staff shortfalls in both the chronic and acute care clinics

# VOTE: 406 Hoima Hospital

Quarter 2

## Performance highlights for the Quarter

Budget execution was at 91.8% performance. There was some unspent balance on pesion due to delayed adjustment of the inflationary index by Ministry of Public Service
24,219 clients were seen under outpatient out of which 15,681 were specialised
The facility admitted 6,766 patients with a Bed Occupancy Rate (BOR) of 88%, with 1,703 deliveries conducted
95% Electronic Medical Records (EMR) system utilization
X-rays were not conducted due to the breakdown of the equipment
Staffing level still stands at 27.5%

## Variances and Challenges

The hospital achieved most of its performance indicators, in areas of Inpatient admissions, antenatal services, immunisation services, surgical procedures and diagnostic services.
No X-rays done due to breakdown of the machine, low performance in Family Planning due to out of stock of frequently preferred methods, there was a slight decline in outpatients seen and specialized outpatients
CHALLENGES
The Vote budget still low which affects service delivery and effective delivery of its mandate within the region
Limited space leading to congestion and flow cases; space for general wards and laboratory
Insecurity due to incomplete perimeter wall which leads to unauthorized access
Increased bills for water and electricity and cleaning expenses following new developments of CT scan, Intensive Care Unit (ICU), new oxygen plant, dialysis unit
Breakdown of X-ray machine which has not been worked on to date
Low staffing levels which stands at 27.5% caused by low wage bill yet the hospital has to functionalise new services like ICU and dialysis services and other specialities
Insecurity for the ICT equipment where there are no burglars on some units, others have weaker doors
The new oxygen plant requires a dedicated transformer which is not yet installed to date yet the old one frequently breaks down

## Performance highlights for the Quarter

8,582 Admissions, 354 deaths, 74.7% Bed occupancy Rate, 3.47 Days Average Length of stay, 2,745 ANC attendances, 7878 Immunizations, 54,088 Laboratory tests, 853 Ultrasound scans.
0.596 Bn was for Essential medicines & health supplies received from NMS. Performance review meeting was held.
2 radio talk shows were held
Community baraza was conducted at the hospital. The hospital had a disability run & hosted the World Disability Day celebrations
Renovation of ward 10, dental department and security house in Nalufenya done.
Responses to Audit Query FY 24/25 completed and Audit report prepared. Quarterly reports prepared and submitted on time. Medical Equipment maintained and repaired. Users trained on new equipment received from JICA.
Integrated support supervision and client satisfaction survey done at hospital and lower health facilities.
The hospital management board meeting took place, Board committee meetings held, top management meetings and senior management meeting held.
Held Medical and surgical camps.
The hospital continues to implement EMR Electronic medical records management system aimed at going paperless at different point of care.

## Variances and Challenges

On Wage, the hospital received 50% wage of its annual budget and managed to spend 90.8% of the released wage.
On Non-Wage, the hospital received 49% of its annual budget and spent 84.5% of the released budget. The underperformance in terms of expenditure was majorly due to delays in supplier invoicing and ongoing procurement process.
Some of the challenges in quarter two were;
The hospital was operating at the staffing level of 32% which has affected timely implementation of some Hospital activities. To address this a recruitment plan had been submitted and follow up was being done by the PHRO
ECG machine breakdown which led to low NTR collections at private wing.
Unstable power which has led to disruption in service delivery for example EMR usage.
Breakdown of the oxygen plant which led to inadequate production of oxygen and oxygen to be picked from Kayunga, Namanve

Quarter 2

## Performance highlights for the Quarter

The following are performance highlights for quarter 1. They are:
a) HOSPITAL SERVICES
1. Diagnostic Services
No X-rays were done.
1,563 Ultra-sound scans were done.
79,459 laboratory tests were done, and
203 CT-Scans were done.

2. Inpatient services
175 neonates were admitted in the NICU.
232 mothers were admitted in the gynaecology ward.
3,944 patients admitted in the wards.
70% BOR.
5.8 days was the ALOS.
1,004 major operations conducted including CS.

3. Outpatient services
19,337 patients attended to in the OPD.
13,006 patients attended to in the OPD special clinics.
497 patients referred in to the hospital.
33 patients referred out to higher level facilities in Ambulance.
4. Prevention and rehabilitation services.
1,454 ANC (all attendance) recorded in the hospital.
350 family planning contacts made.
74 screened for cervical and breast cancer
5. HIV/AIDS research, Healthcare, and Outreach Services.
966 clients tested for HIV.
9 HIV positive women screened for cervical cancer.
31 males were circumcised under VMMC program
3,512 HIV positive clients retained in care.

4. Immunization services
6,559 Static immunizations conducted.
One integrated childhood immunization done.
5. Prevention and Rehabilitation
1,454 ANC (all attendances) recorded in the hospital.
350 family planning contacts made.
517 ANC (all visits) in the hospital recorded.

# VOTE: 408 Kabale Hospital

Quarter 2

b) SUPPORT SERVICES
1. Internal Audit
One internal Audit report produced and submitted to Accounting Officer and IAG.
Internal controls developed and implemented.

2. Hospital management and support services.
363 job cards for medical equipment raised.
372 pieces of medical equipment repaired and or services.
One hospital management board meeting held.
3 top management meetings held.
One financial performance report produced and submitted to MoFPED.

3. Human Resource Management
259 staff paid salary by the 28th of every month.
59 pensioners on payroll paid by 28th.
250 staff enrolled on biometric machine.

## Variances and Challenges

A number of challenges were faced:
1) Inadequate staffing to provide the much needed care to patients. The hospital lacks certain critical cadre of staff e.g. Orthopaedic surgeons, Paediatricians, ENT and Eye specialists among others. This has increased the number of referrals out.
2) Inadequate funding for NWR, wage, and retooling. This has affected the service delivery. There is also no funding for capital development thus the hospital is unable to expand and or construct needed wards, renovate the existing ones and build the much needed staff accommodation.
3) There is limitation in the available space for patient care. Most wards were constructed in the 1930s to 1960s when the population was still very low.
4) The hospital experiences overwhelming patient numbers due to the non functionality of the referral systems. Patients prefer to come to the regional hospital not the lower facilities near them.
5) Service providers sometimes delay to supply goods, services and supplies ordered from them thus delaying expenditure of the already released funds.
6) Poor attendance to duty by some staff cause delay in service provision. Management is strengthening duty attendance mechanisms.

# VOTE: 409 Masaka Hospital

Quarter 2

## Performance highlights for the Quarter

Masaka Regional Referral Hospital recorded strong performance in Q2 across service delivery, institutional capacity, and financial management, driven by improved systems, skilled personnel, and enhanced infrastructure. Laboratory services conducted 117,901 tests, supported by accreditation, essential equipment, and a motivated technical workforce. Blood transfusions totaled 63,869 units, ensured by the regional blood bank and regular donation drives. Maternal and child health improved due to the presence of a resident gynecologist, strengthened neonatal care, and community health education through outreaches and radio programs. This resulted in 6,844 antenatal visits, 819 gynecology cases, and 969 neonates cared for, with a 6 percent reduction in neonatal mortality. Hospital mortality declined by 15 percent, from 4.4 to 3.7, reflecting improved clinical oversight and mortality audits.
Infection prevention, nutrition, and outpatient services benefited from targeted interventions. Handwashing facilities were at 90 percent of entry points, and 98 percent of children under five were assessed for malnutrition due to a new nutritionist and anthropometric equipment. OPD attendances reached 115,955, driven by community engagement. Oral health services managed 3,772 cases through collaboration with Equatorial University, while HIV services achieved 100 percent ART initiation for newly diagnosed HIV-positive mothers. Availability of specialists and advanced diagnostics, including a CT scan, enhanced service quality.
Financial and operational performance was supported by timely release of 4.05 billion UGX, achieving 80 percent wage and 90 percent non-wage absorption, and 1.2 billion UGX from the Ministry of Health enabled resumption of MCH Complex and ICU works. Utility arrears of 368 million UGX were cleared. Over 90 percent EMR–eAFYA utilization, stable commodity availability with no anti-malarial stock-outs, and an advanced anesthetic machine improved surgical efficiency.

## Variances and Challenges

As of Q2, the hospital conducted 27,014 immunisations, below target due to reliance on static services. Deliveries totaled 4,281, supported by mentorship at lower-level facilities, though late referrals led to complications in neonates , including the 284 premature babies. Medicines worth UGX 604,275,187 were procured, falling short because of low order fulfilment by the National Medical Stores. Only 609 mosquito nets were distributed due to poor ANC documentation and the eAFYA system’s inability to generate HMIS-compatible reports.Malnourished children received supplementary feeds, but cure rates remain low due to lack of a functional nutrition unit. Multiple non-integrated electronic systems, including eAFYA, ALIS, and Uganda EMR, negatively affected data quality and reporting.
The hospital, established in 1927, operates with largely old infrastructure. Its outdated sewerage system affects sanitation and increases maintenance costs. Its location along busy highways results in frequent road traffic accident cases. The absence of an Intensive Care Unit and an ageing ambulance fleet with limited fuel has increased referrals and service pressure.
Domestic arrears, particularly in utilities and property management, continue due to inadequate funding and limited non-wage budget, affecting service quality. Ongoing capital projects—including a senior staff hostel, radiology department, and UPDF oxygen plant—remain incomplete due to funding constraints, while the upcoming MCH complex may further strain resources.

# VOTE: 410 Mbale Hospital

Quarter 2

## Performance highlights for the Quarter

Salary, pension and gratuity payment
Provision of specialised and general health services
hospital cleaning and waste management
Fumigation of the hospital wards
Payment of utilities
Repair of water and sewerage system
Procurement of vehicle tyres
Diagnostic services
Dialysis services
Orientation of medical interns

## Variances and Challenges

The main variance in the implementation of quarter two performance plan was procurement of medical equipment and partial completion of surgical complex was not spent as the activities are on going.
The main challenges faced during the implementation of quarter two plan was shortage of water supply due to dry spell.
Inadequate human resource to provide timely and adequate health services to the people in the catchment area.
Dilapidated Hospital infrastructure thus high maintenance costs

# VOTE: 411 Soroti Hospital

Quarter 2

1. Diagnostic Output
51,489 laboratory test conducted of the planned 40000
1,289 Ultrasound test conducted of the planned 125
1,751 Blood transfusion administered of planned 2500.
223 CT scan conducted of planned 175 CT.
1,694 X-rays done of the planned 250

2. Immunization output.
2,357 Children immunized against diseases of planned 2500
1,273 Mothers immunized against TT of planned 1500.
27 Girls above 10 years and women of productive age immunized of planned 125.
variation :Poor uptake of message on cervical cancer especially among young ones.
3. Inpatients output:
5,190 Admission recorded of planned 5500.
10,33 Deliveries recorded of planned 1000
693 Major surgeries conducted of planned 625
28 VMMC recorded of planned 1250
Variations: Full Integration of VMMC services yet to take effect.
4. Outpatients Outputs:
11,752 Outpatients seen of planned 8750.
1,030 Surgical Outpatients seen of planned 1500.
2,658 Pediatrics Outpatients seen of planned 875.
2,945 Orthopedics cases seen of planned 1250.
Prevention and Rehabilitation Output:
2,067 ANC services seen of planned 500
435 Family planning cases recorded of planned 150.
Variation: maternal health is key priority in service delivery.
5. Implementation of JICA PROJECT
Equipment delivered and distribution and installation in process.
installation of step down dedicated hospital transformer still in progress
6. Human Resource Management
All salaries are paid by 28th day of calendar month.
HIV Mainstreaming
0 Babies born with HIV initiated into ART turned positive.
51 pregnant mother tested positive for HIV and initiated on ART.
Variation: HIV care has been integrated in main health care in anticipation of continued donor drop and all children born to HIV pregnant mothers prevented from contracting HIV.
7. Strategic plan development at 90%.
8. Servicing and maintenance of vehicle and machinery done with available resources and one ambulance repaired.
9. Indoor and Outdoor services provided.
10. 03 staff gratuity paid

# VOTE: 411 Soroti Hospital

Quarter 2

## Variances and Challenges

Low operational budget with increasing cost of utility.
JICA has completed supply and installation of equipment, generator and transformer however hospital faces task of clearing debts used for preparation of above since there was no budget and retooling was too low to meet that demand.
High utility cost with underfunded priorities
Low operation budget with no increment in last 6 years.
cost overran due to old dilapidated buildings creating high cost of maintenance. Integration of EMR still being affected by Hardware installation.
High cost of full digitalization with soaring data cost by NITA yet hospital operation budget is stagnant unable to meet its needs.
maintenance budget for the newly supplied and installed equipment threatens longevity of equipment.

Quarter 2

## Performance highlights for the Quarter

1) Management adapted EAFYA replacing Clinic Master for data digitalization. All departments except Mental Health have been transitioned to the new application working towards becoming paper less. Data management has greatly improved. However, the transition process is quite challenging. There is internet connectivity challenge and staff still have skill gaps. Also notable was delay in reporting due to challenges in system data extraction arising from power up surge that destroyed some of the computers.
2) EAFYA connectivity is unstable due to lack of power back up in the server room. Management prioritized power back up using solar batteries. The dedicated power line has greatly improved power availability. No more Power black outs, there is reduced fuel consumption and safety of medical equipment.
3) Ongoing locally sourced projects include construction of the gyne ward supported by Seed Global. Construction of the Fistula ward with support from Mbarara University. In plan is to improve on the parking area, drainage and to renovate the Eye unit in the hospital.
4) Private wing services continue running for revenue generation to supplement the hospital budget. The hospital support to lower level Health Facilities was majorly funded by partners under USAID. This very important activity has been affected by funding gaps.
5) Integration of health services has taken off with the Hospital running a chronic care clinic and greening of the hospital compound continues to be done.

## Variances and Challenges

1) Management has continued to improve on data management through digitalization and use of the EAFYA system however, staff have not yet fully adapted the system due to skill gaps and negative attitude, Key to note is that the EAFYA developers have supported the hospital on modules, reporting system and giving system support to the hospital using Desk applications.
2) Internet connectivity occasionally interferes with full implementation and functionality of EAFYA. But this was addressed through the installation of a new server. Also Paper based back up is still being maintained to avoid total loss of vital data.
3) The hospital has undertaken expansion of ICU which is ongoing in the main theater and the old laboratory building. Staffing is still a challenge after the withdrawal of funding by the USAID –USA government. However, management has continued working with volunteers and promoting service integration with various clinics working together and sharing on the existing teams
4) The first and second Medicines cycles deliveries were received but still stock outs occur due to the limited medicines budget with order fulfilment rate of 80%. This led to redistribution and emergency ordering to fill the gaps. However, the private wing pharmacy supports patients especially at late hours of the night.
5) The hospital still faces the problem of proper medicines storage space. This was addressed by having medicines distributed to the units immediately after delivery as the newly repurposed space is still being improved for storage of medicines. In plan is to construct a well-planned medicines store for the hospital.

# VOTE: 413 Mbarara Regional Hospital

Quarter 2

## Performance highlights for the Quarter

Release by end second quarter was 5.720bn representing 50% of the annual budget. Expenditure was 5.576 billion leaving 1.620bn unutilized under Department 001-HOSPITAL SERVICES and 0.478bn under Department 002 – SUPPORT SERVICES by the end of the quarter two

DIAGNOSTICS
161,157 Laboratory tests done
No x-ray was done. Installation of the new xray machine is yet to be finalized
4,774 Ultrasound scans carried out on patients
1,772 CT scans done and reports given
1,104 Renal Dialysis sessions carried out in the dialysis unit
275 ECHOs were done
241 ECGs were done
173 Endoscopies done
7,170 Blood transfusions carried out

HIV/AIDS, RESEARCH & HEALTHCARE & OUTREACHES
9,074 Clients given HIV testing services
199 HIV positives identified and linked to care
1,605 Individual HIV self-test kits distributed
777 Pregnant women with known HIV Positive status at 1st antenatal care handled
9,743 ART patients screened for TB in the semiannual reporting period
163 New and relapsed TB cases with documented HIV Positive status seen
94% Drug Resistant TB success rate registered
94% TB Treatment Success Rate registered

IMMUNIZATION
8,011 Children Immunized
9,170 Immunization contacts done

INPATIENTS
1,607 Neonates treated in the Neonatal Intensive Care Unit
133 Children treated at the Natasha Nutrition ward
19,538 Patient admissions handled
4.45 Days Average Length of Stay achieved
134 % Bed Occupancy Rate registered
7,726 Operations done

OUTPATIENTS
49,871 Patients' nutritional status assessed at OPD

# VOTE: 413 Mbarara Regional Hospital

Quarter 2

660 Clients managed in Occupational Therapy clinic
3,174 Managed in Physiotherapy and rehabilitation clinic
401 Clients attended to in the orthopaedic workshop
5,346 Patients attended to in the emergency ward
2 Ambulances used for emergencies
1,461 Referrals in attended to

PREVENTION
1,564 Adolescents attended to in their clinic
3,780 Pregnant women treated
1,025 Family Planning clients attended to
3,780 Antenatal care mothers attended to
306 Private Wing mothers seen

## Variances and Challenges

To note is that the hospital received the release on time, however, challenges still remain the same. That is;
1. High utility bills especially for water and yet there are 2 new big structures being constructed. These include a three storied neonatal intensive care unit and the call and dispatch center.
2. Low staffing levels in the hospital hence over work for the existing staff.

# VOTE: 414 Mubende Regional Referral Hospital

Quarter 2

## Performance highlights for the Quarter

1.Vote budget release was 50% translating to average vote performance.
2.Retooling did not perform well due to delay in constituting contracts committee.
3. PIAP outputs and outputs indicators were fairly performed to 80% - 100% apart from immunizations.
4.Purchase of new x-ray and ultra sound machines was not done due to no funds.
5.This Vote has the least budget allocation for non-wage re-current among all regional referral hospitals.

## Variances and Challenges

1.Inadequate budget allocation causing operational budget shortfalls e.g water,electricity ,fuel,Minor repairs and ,internet services among others.
2.Inadequate funds for digitization(Eafya) as it was not budgeted for hence affecting implementation and sustainability.
3.Incomplete infrastructure due to non allocation of capital development funds leading to dilapidated buildings and congetsions due to lack of space for provision of quality services.
4.untimely maintenance of medical equipment to inadequate funding.
5.Erratic power supply from the National grid causing blowing up of most medical equipment.

# VOTE: 415 Moroto Regional Referral Hospital

Quarter 2

## Performance highlights for the Quarter

By the end of the reporting period, 87.6% of the approved budget had been utilized despite a few challenges hindering utilization.

## Variances and Challenges

The lower-than-expected absorption was mainly attributed to delays in staff retirement, as verification of retirement documents was still ongoing, as well as delays in procurement processes

# VOTE: 417 Kiruddu National Referral Hospital

Quarter 2

## Performance highlights for the Quarter

The entity in Q2 of 2025-26 FY undertook the following interventions to improve the functionality of the Vote.
All service points are digitized up to 90%.
There was an over performance (159%) in patients treated in Nephrology ward, (163%) Endocrinology patients treated, (124%) cardiovascular patients treated. This is attributed to Increased awareness; late detection and long-term poor management.
Under Diagnostics, we had Increased (315%) Liver functional tests conducted, (209%) Renal functional tests conducted, (302%) other laboratory investigations carried out, (168%) culture and sensitivity tests conducted. This is attributed to improved machine maintenance and adequate availability of supplies.
The Burns ward performance was 163% because of increased number of referrals from other health facilities.
Attendance to duty has improved because of the biometric system.
Endoscopy examinations were above target by 156% because the Entity acquired a new Gastroscopy machine.
Fluoroscopy examinations are still low because of preference of Endoscopy by patients and Procedures of interventions also still low because the radiology team is still undergoing training.
The festive season affected numbers in receiving palliative care making us achieve only 39%, Spirometry examinations where we achieved only 32%.
Hoima RRH and Kawempe NRH are fully established for dialysis services, supported with dialysis consumables and support supervision is done quarterly in addition to the already existing dialysis satellite centers.
The Main laboratory was assessed by SANAS and retained the accreditation status.
KCCA was able to supply the Hospital with deworming tablets for children below 5 during the child days and vitamin A supplementation. The Hospital was therefore able to perform in those areas unlike the previous quarter.

## Variances and Challenges

There was a lot of patient congestion in the hospital and a lot of staff burn out on the limited human resource available in the hospital ie 38% staffing level.
Long procurement processes resulted into delayed payments to suppliers, especially under Maintenance –Machinery and Equipment, Maintenance – Transport and Equipment and Maintenance – Buildings and Structures.
The budget for nonwage recurrent is inadequate and therefore the hospital could not carry out all the required activities like adequate repair of medical equipment and other equipment on time.
Due to the stop order from USA, screening community members for TB stopped.
On Physical exercises, staff were not comfortable with doing exercises from within the hospital. There is need for a better environment and not near the patients. There is need for a better space, and this requires additional funding.
The vetting process for the retiree delayed and that’s why his gratuity could not be paid on time, as expected.
Many of the Hospital beds are broken and need to be replace with new ones but the funding for this is not available.
The hospital does not have Accounts staff to participate in the collection of NTR at the moment ,following the termination of contracts for Cashiers. This was a big challenge that might even affect our NTR performance.

## Performance highlights for the Quarter

INPATIENT SERVICES
The hospital attended to:
a) 1,208 Gyn emergency admissions
b) 5,711 Deliveries
c) 2,572 C-Sections
d) 1 3,838 Inpatient Admissions
e) 1,873 Admissions to NICU
f) 636 Paediatric Admissions

OUTPATIENT SERVICES
The hospital undertook:
a) 26,620 Outpatients seen
b) 7,818 ANC Mothers attended to
c) 1,824 Family Planning Clients attended to
d) 7,372 Nutrition clinic attendance
e) 764 Physiotherapy patients seen
f) 765 Occupational therapy patients seen
g) 7,795 child Immunizations done
h) 2,870 Tetanus immunizations done

DIAGNOSTIC SERVICES
The hospital undertook
a) 117,120 Laboratory tests done
b) 4,016 units of blood transfused
c) 59 CT scans done
d) 319 X-ray images done
e) 4,783 Ultrasound scans done

ADMINISTRATION AND SUPPORT SERVICES
The hospital undertook:
a) Quarter Two Internal Audit Report prepared and submitted to the Internal Auditor General
b) Quarter Two Budget Performance Report prepared
c) Quarter Two Monitoring and Evaluation Report prepared
d) Quarter Two Board and Top Management Report prepared
e) Quarter Two Facilities Maintenance and Management Report prepared
f) Quarter Two Equipment Maintenance and Management Report prepared
g) Quarter Two Procurement Plans and Report prepared

# VOTE: 418 Kawempe National Referral Hospital

Quarter 2

## Variances and Challenges

a) Inadequate staffing (47%)
b) High utility bills
c) No space for possible expansion
d) High frequency of equipment and machinery breakdown
e) Ageing Equipment, Plants and Machinery
f) Overwhelming numbers of patients leading to congestion
g) Late & uncoordinated/erratic referrals

## Performance highlights for the Quarter

During Q2 FY 2025/26,
Internal Audit Services
One audit report made and submitted
Human Resource management
Q2 salaries and pension paid on time
Digitization of health Information System
Digitization of patient records across all departments using the eAFYA, ALIS, UgandaEMR and eCBSS
Hospital compiled and submitted HMIS reports, including Twelve (12) HMIS 033b the weekly epidemiological surveillance reports, Six (6) Monthly reports (HMIS 108 Inpatient reports & HMIS 105 the Outpatient reports) and 2 Quarterly reports (HMIS 106a Quarterly report & HMIS 097b VHT report)
Climate Change Mitigation
Waste was well disaggregated and disposed off
Hospital Management Services
Board meeting held
12 Top management meetings held
Held Performance Review meetings
Diagnostics
Entebbe RRH conducted 858 ultra sounds, 786 X-rays compared to the target of 602 and 544 respectively
This performance was through subsidized charges to patients who seek for these services
19,748 laboratory tests done which represents 48.9% of Outpatients, and this was achieved through availability of reagents to use in running tests
Immunization Services
4,093 children immunized in the quarter
Inpatient services
Admissions were 3,804 compared to the target of 539
Bed occupancy rate improved to 102.7 % vs the target of 72%. This was due to improved documentation of discharge dates by using the eAFYA
Outpatient services
7,459specialized Outpatient attendances and 40,402 General Outpatient attendances compared to the set target of 1,632 and 14,849 respectively
This was achieved through capturing data electronically using eAFYA that has reduced on the data loss
Prevention and Treatment services
3,420 total ANC attendances, 804 family planning users compared to the set target of 1,933 and 466respectively
3,248 clients were tested for HIV,78 (2.4%)
100% (78/78) successfully linked to care
The following was also achieved during the quarter
ÛÀÜ Conducted community health programs in the region
ÛÀÜ Carried out TSS

## Variances and Challenges

# VOTE: 419 Entebbe Regional Referral Hospital

Quarter 2

Challenges

ÛÀÜ Delayed approval of procurements from the solicitor General's office

ÛÀÜ An increase in patient numbers exceeding sundries and medicines forecasted previously

ÛÀÜ Delayed servicing of Oxygen Plant

ÛÀÜ M-pox epidermic increased recurrent costs like power, water, fuel and building maintenance
