CONFIRMATION OF PROGRAMME FOR RESULTS EXPENDITURE FRAMEWORK

Reference is made to your letter EPD 192/335/01 dated 4th April 2017, expressing concerns regarding the MTEF from FY 2018/19 to FY 2021/22 for World Bank funding. Specifically, your concern was that the proposed folding in of the Transitional Development grant would threaten smooth implementation of the Presidential Pledges.

Currently, the Ministry of Education and Sports (MoES) has a formula-based education development grant for Primary and Secondary schools of Ush 32.bn (FY 2017/18) excluding a Transitional Development grant of Ush 14.14bn (of which Ushs 4.6bn is for Presidential pledges). It should be noted that the provision for Presidential pledges has been for Primary and Secondary Education over years, and the balance of Ush 9.54 billion for Secondary Development. Funds for tertiary institutions have never been decentralised.

In response to the Ministry of Education and Sports' concerns on the Programme for Results (PfR) proposal, a series of meetings were held between the Ministry of Finance, Planning and Economic Development, the Ministry of Education and Sports' Technical staff to reach an agreed position. Two options were discussed. Under option 1, all current and future Presidential pledges should be handled by Local Governments directly, using the formula-based education development grant. Your has provided this Ministry with a list of unhonoured Presidential pledges as of April 2017, which includes primary school pledges worth Ush 5.02bn and secondary school pledges worth Ush 23.1bn outstanding (see Annex 1 for a LG level summary and Annex 2 for the detailed list). With the additional proposal under the Programme for Results, the formula-based development grant would increase from Ush 32.5bn in FY 2017/18 to Ush 104.1bn by FY 2021/22, providing more than enough resources for all Primary and Secondary school pledges to be handled by Local Governments using their grant allocations (see Annex 3 for a comparison of resources under the Programme for Results and costs for outstanding primary and secondary school pledges).

Under <u>option 2</u>, it is proposed that the MTEF for FY 2018/19 for the World Bank funding be revised to **Ush 28.28bn** to incorporate a one-off funding for the Transitional Development grant, specifically to clear all unhonoured Primary and Secondary school Presidential pledges, before the Transitional Development grant is fully folded into the formula-based development grant in FY 2019/20. Under

this option, any Presidential pledges made after April 2017 and not captured in Annex 2 shall be decentralized and handled by Local Governments directly, funded from Local Government budgets allocated under the formula-based conditional education development grant.

For both options, it would need to be specified in the Ministry of Education and Sports budget guidelines that Local Governments need to budget for these future pledges as a first priority. You will further need to request the Office of the President to include the respective Local Government administration in future communication about future made pledges. On average, resources distributed under the formula-based development grant will more than triple under the programme for results, so more than enough resources to fulfil Presidential pledges will be available.

In line with the decentralization reform, this Ministry recommends option 1 to achieve greater equity in development resource allocation in the FY 2018/19 and over the project period, and greater local ownership in the implementation of the outstanding Presidential pledges.

The purpose of this communication therefore is to request you to confirm your Ministry agreement to this solution formally by **Friday**, **April 28**th **2017**. Any further delay has the consequence of failing the Government's negotiation with the World Bank.
