#### **Challenges in Implementation**

### FY 2020/21

The district faces the following challenges: Low participation in planning and budgeting by the community, inadequate skilled personnel to handle planning at lower local Governments, lack of ready markets for the agricultural produce, lack of value addition to the agricultural produce leading to lower prices, the migratory nature of the population of the people of Kalangala leading to YLP recovery funds very hard o achieve, lack of remand hoe for juvenile, insufficient revenue to facilitate activities of the council, the allocation formaular used by government to allocate funds to districts does not favor kalangala since it considers land area instead of surface area yet kalangala is full of water only 4% of the total kalangala area is land the rest is water mass., Hard to reach allowance is given to staff in the island sub counties only and those at the district and town council are ignored - it should be noted that staff at district risk more because it is these staffs who deliver services, carry out monitoring in these islands hence risking their lives even more, High costs of service delivery, Lack of tax education, closure of landing sites due to illegal fishing, very high mobility of the people we serve, hard to reach population, inadequate wage release for education department and inadequate staff for agricultural extension
