Part A outlines the core performance requirements against which my performance as an Accounting Officer will be assessed, in two areas:

Preamble: Accounting Officers are held accountable and are expected to oversee the implementation and delivery of physical outputs of all projects and programs regardless of their stage and/or status. An Accounting Officer's performance in the planning and implementation of five priority Programmes and projects will be assessed.

Central Government Accounting Officers must identify and specify five priority programmes (recurrent) or major infrastructure projects (capital development) for their individual Votes and list them at the beginning of this Performance Contract. The top 5 projects, whether projects or programs, should be the ones that contribute significantly to the achievement of sectoral or national goals. They should be selected on the basis of their size and/or policy priority.

It is critically important for AOs to track the performance of these Projects/programmes and ensure they are managed effectively. For each priority Programme or Project, Accounting Officers will be assessed on performance in the following areas:

2.1 Alignment of plans with Policy: The alignment of priority Programmes and Projects workplans with vote, sectoral and national strategies (NDP).
