## FY 2020/21

i) Revenue Performance by September FY 2019/20

#### Locally Raised Revenues

By the end of the 2nd quarter, the district had received Local Revenue amounting to Ushs 248,430,000 representing 39% of the annual Local Revenue projection for the Vote. Of these funds, Ushs 156,758,250 was Local revenue advanced to the district by the Ministry of Finance, Planning and Economic Development during the 1st Quarter and was being recovered using the actual Local Revenue receipts. Business license and market fees both performed 174%, and 762% respectively because for both there was under budgeting. However on the contrary, land fees, application fees and other fees and charges because all where linked to the lease of land of which the district is still getting clearance from the ministry of local government and ministry of finance.

#### **Central Government Transfers**

By the end of the 2nd quarter the performance of Central Government Transfers was excellent. The district had realized a cumulative out turn of 53% of the 1st half projected release from central Government Transfers i.e. above the projection for the 1st half of 50%. This excellent performance was because all development grants had been received by 66.6% of the planned annual target by the end of the 1st half. More so, 100% of the annual target for the General Public service pension arrears (Budgeting) and salary arrears (Budgeting) had been received by the end of the 1st half.

By the end of the 2nd quarter the performance of Other Government Transfers was very poor. The district had realised only 16% of the 1st half projected release from Other Government Transfers i.e. far below the projection for the 1st half of 50%. This poor performance was because all the sources of Other Government Transfers had not yielded any amount save for Support to PLE (UNEB), Uganda Road Fund (URF) and Uganda Multi-sectoral Food Security and Nutrition Project (UMFSNP) whose performance was also very at 12% because most schools which received the first disbursement of the funds had not yet accounted for the fund to warrant them receive more funds.

#### **External Financing**

By the end of the 2nd quarter, there was very good performance of External Financing. The district had realised 36% of the projected annual release from external Financing at the projection for the 1st half of 50%. This funding had been received more from United Nations Children Fund (UNICEF), Jhpiego and World GAVI.

However on the contrary other donors like Global Fund for HIV, TB & Malaria,10 % World Health Organization (WHO) 10,000,000 was 0 % Global Alliance for Vaccines and Immunization (GAVI) of the budget of shs 100,000,000 only shs 12,000,000 contributing to 12 % cumulatively and Jhpiego Corporation of the Total budget of shs 500,000,000 only shs 150,769,000 contributing 30 % was realized. for Jhpiego poor performance was because the district failed to meet the commitment of 10% cost sharing

ii) Planned Revenues for FY 2020/21

#### Locally Raised Revenues

. The district expects to collect 630,290,000/= which is a less than the current budget by 630,000 and this because in the current year there is an anticipated sale or leasing of the district land to secure funds for payment of some court awards. The biggest contributor is local service tax at 257,380,000/=, land fees also increased because all those who may not pay for their fees in this current year will pay next FY. Business license increased because the revenue team have come up with other strategies of collecting this . However other fees reduced because in the current year the precedes from the lease extension was budgeted under other fees

#### **Central Government Transfers**

## FY 2020/21

The district expects to receive 46,110,290,000 collectively as central government transfer arising from the discretionary government transfers (2,823,232,000/=) and conditional government transfers (35,351,969,000/=) and 7,935,089,000 for other government transfers. The increase is attributed to for discretionary government transfer to the increase in the provision for wage for traditional staff and increment in the wages for the education staff of 12%.

Conditional government transfers (35,351,969,000/=) This sources significantly increased because of the increase in the provision for pension for retired staff and gratuity for the same category. there was also an increment in the provision for sector non wage for the health facilities and the hospital. Under health there was an increment in the sector development grant

Other government transfers also increased because of the ACDP program under which raised by shs 5,566,829,000 from shs 1,300,000,000 to shs 6,866,829,000 that significantly raised the IPF under OGT. However, other grants will perform as this current financial year

#### **External Financing**

The district expects shs 1,635,800,000 lower than the running year by shs 1,462,922,000 this is because UNICEF the highest fund reduced the activities they are supporting in the district. however other funders have remained same
