#### Summary of Workplan Revenues and Expenditure by Source

By Close of Q2, The Roads and Engineering department had cumulatively received funding worth 290,685,000 translating into 43% and 64% against the planned annual and quarterly expenditures of which 100% of the quarterly wage was received to pay staff in the department. 50% of the planned quarterly multisectoral transfers were received to operationalise activities at the Divisions including solid waste management and only 99% of the planned Quarterly URF funds amounting to 96,298,000 were realized for Q2 to maintain the community access roads, culvert installation, and stone pitching along market street and all the planned quarterly DDEG was realized at both the municipal and Divisions to pay retention for solar street lighting and procurement of more solar street lights by divisions, However it wasnt fully spent and thus pushed to the subsequent Quarter for all pending procurement process is concluded and contract awarded to the successful contractor However by close of the quarter, the department had cumulatively spent only 153,322,000 translating into 23% and 66% against the planned annual and quarterly expenditure, of which only all the salaries were paid to staff as planned and only 21% was non wage spent including the multisectoral transfers to divisions. The department didnt spend DDEG awaiting finalization of the procurement process and awarding of contracts to the qualified contractors

#### Reasons for unspent balances on the bank account

The department cumulatively remained with 137,363,000 as un spent balances representing 47% of the expenditure budget, INCLUDING 93,529,000 and 41,684,000 as un absorbed URF and DDEG respectively arising from delayed procurement process and finalization thus push to the subsequent quarter (Q3). There was delayed release of URF which affected planning for the road maintenance, However the funds will be utilized in the subsequent quarters Additionally apparently the roads condition assessment and feasibility studies to assess roads network which require attention before works starts thus funds were not utilized as planned, Unspent DDEG (41,684,000) meant for procurement of solar street lighting By LLG in Divisions and payment of retention for the contractor for previous installation of solar street lights were pushed to Q2 awaiting finalization of Procurement process. LLG s (Division) remained with funds

#### Highlights of physical performance by end of the quarter

| Reasons for over/under performance:                    | By Close of Q2, The Out put had cumulatively performed at 1566% against the planned annual exp. The over and above cumulative expenditure resulted from the supplementary of Covid-19 emergenthe municipal health office in responding and mitigating covid 19 spread. Thus the Public Health Out put performing overly as planned. This over and above expenditure was due to supplementary from Ministry of Health as facilitation of Health task forces in mitigating the spread of COVID-19 |  |              |  |  |  |

Reasons for over/under performance:

By close of Q2, The Operation of District Roads Office Out put had cumulatively performed at 39% against the Planned annual expenditure, The relative under cumulative expenditure resulted from low performance of LRR as a source of funding to this output thus some activities in the works department were not funded
