### FY 2021/22

## Quarter3

### Summary of Cumulative Receipts, disbursements and expenditure for FY 2021/22

By the end of the third quarter, a total income of ushs 9,735,223,000 had been received by the district including multi sectoral transfers to Lower Local Governments representing 83% of the quarter projected income and 21% of projected annual income i.e below the aggregate projection for the second quarter of 25% leading to a cumulative of 30,037,538,000/= representing 64% of the total annual budget i.e below the cumulative projection of 75%. When decomposed by revenue category, the percentage of the budget received was as follows: wage: 26%, non-wage recurrent: 19%, domestic development: 14% and External Financing: 152%. The aggregate out turn of wage was over by 1% of the projection for the quarter. The out turn for the non-wage recurrent was a bit below the projected value for the quarter of 25% due to less release of education funds for period under review. The Out turn for Domestic Development was far below the projection of the third Quarter of 25% mainly because funding from the Agriculture Cluster Development Project (ACDP) which is a main contributor to Domestic Development had not yet been released. Furthermore, the out turn for External Financing was far above the projection for the second Quarter of 25% because of more support from GAV and WHO to health sector to conduct massive polio and covid-19 vaccinations in the district. Of the cumulative receipts by the district, 9,735,223,000/= had been disbursed to departments and Lower Local Governments representing 100% of the funds that were realized during the quarter under review and leading to a cumulative of 30.037.538.000 = (64%). Regarding expenditure, total expenditure by the end of the quarter stood at 8,452,662,000 including expenditure under multi sectoral transfers to Lower Local Governments representing 87% of the allocation that had been made to the departments leading to a cumulative of 21,594,246,000/= representing 46%. When decomposed by revenue category, total cumulative expenditure as a percentage of the releases that were made during the quarter under review stood as follows: wage:88%, non wage recurrent: 67%, domestic development: 39% and donor development: 100%. Generally, the funds absorption for wage and external financing was good. The low funds absorption for domestic development was mainly because the procurement processes for most development projects had not yet been concluded by the end of the Quarter under review. Further more most wage balances are reflected under different departments which could not be absorbed because there is still un recruited staff of which the process is ongoing.

### **Cumulative Performance for Locally Raised Revenues**

By the end of third quarter, a total of 88,891,066/= had already been realized from locally raised revenues representing 40% of the quarter planned budget and 10% of the annual planned budget.

Generally the performance has been poor, there has been low actual revenues collected given due to poor compliance of contractors and also related covid-19 effects. However More revenues are expected given the introduction of other revenue sources. Currently the district has intensified other revenue sources like licenses, slaughter fees and other related collections, sand and query fees etc.

### **Cumulative Performance for Central Government Transfers**

By the close of quarter three, a total of 9,298,174,406/= had already been realized from Central Government Transfers representing 102% of the quarter budget and 26% of the annual planned budget.

Generally the performance was very good, All planned revenues were received as planned. Most of the planned activities were undertaken despite the fact that implementation some projects has not yet commenced due to delays in procurement process by the Centre.

### **Cumulative Performance for Other Government Transfers**

## Quarter3

By the end of third quarter, a total of 85,732,000/= had already been realized from Other Government Sources representing 3% of the quarter planned budget and 1% of the annual planned budget.

Generally the performing was very low due to failure to realize funding from Agriculture Cluster Development Programme which contributes the highest percentage in the budget.

However we expect better performance in quarter four.

### **Cumulative Performance for External Financing**

By the end of third quarter, only 261,946,000/= had been realized representing only 599% of the quarter budget and 150% of the annual budget.

Generally the performance was far good resulting from more support realized from our donors like GAV to cater for mass Polio vaccinations in the district and also to cater for Covid-19 vaccination related activities. More support is expected from UNICEF and World Vision in quarter four to handle disaster related activities in the area.
