

PROPOSED STRUCTURE OF THE VOTE BFP

Vote Budget Framework Paper FY 2021/22

VOTE: 790 Kapchorwa Municipal Council

V1: VOTE OVERVIEW

The Budget Framework paper for the financial year 2021/20 has been developed in accordance with the Third Municipal Five-year Development Plans 2020/21-2024/25, National Development Plan III (2020/21-2024/25) Vision 2040, sustainable development goals and policy guidelines from the different line ministries. It is important to that as the country transitions to the development planning approach, the Municipal Budget framework paper for financial year 2021/2022 is aligned to the program-based approach. This BFP for financial year 2021/22 is an extract of the second year in from the MPP III. The process of developing this plan was participatory in nature ranging from the Municipal budget conference which was conducted on the month of November at the Noah's hotel Kapchorwa. Due to the COVID -19 Standard operating procedures, participation was limited however a number of stakeholders ranging from political leaders, technical staff, religious leaders and development partners contributed to the ideas which form this budget framework paper.

The funding for this plan is expected from different Central Government grants which include among others Discretionary Development grant, Sector Development grants, Sector Non-wage, Municipal unconditional grant wage and non-wage and other government transfers. More funding is expected from donors like UNICEF Uganda, GAVI, World health Organization, among others both under on budget and off budget support. The development direction for the Municipality is improving the quality of both primary and secondary education, Infrastructural Development under Roads, Education, Health, enhancing agricultural production and environmental protection and management.

The Municipal continues to face a number of challenges including Low staffing levels, limited wage bill, difficulty in attracting and retaining of staff in hard to reach and stay areas, disasters which have continuously destroyed facilities like, health facilities, and water sources, bridges and roads, hard terrain making costs of constructing facilities in such areas very expensive hence consuming much of the already limited resource envelope. We hope to work hard to ensure that the funds are utilized as per the stipulated guides to meet all the targets for the financial year 2021/22

V2: PAST VOTE PERFORMANCE AND MEDIUM-TERM PLANS

Performance for Previous Year FY2019/20 (Y-1)

The Municipal received a total of shillings 7,857,217,000 out of the approved budget of 7,684,807,000 which is represented by 102 % of the annual approved budget. This shows above target performance mainly attributed to receipt of supplementary funding for gratuity. On the other hand, some sources performed below target during the financial year. Other Government Transfers (80%) is due to less receipt of Uganda Road fund compared to what was planned. Locally raised revenue (6%) performed poorly due to the COVID pandemic which affected markets and other sources in the third and the fourth quarters. A total of 7,875,217,000 was disbursed to the departments which is 102% of the budget released. The departments in total spent shillings 7,567,599,000 which 98% of the total quarterly releases and 102% of the annual budget spent. Reasons for below target performance is attributed to delayed works in kaplelko Health center III coupled with poor weather conditions which affected the implementation of capital. Under Wage, some staff especially under health sector were not paid attributed to delay in recruitment which affected their timely access to the Payroll. It cannot go without mentioned, that the COVID-19 pandemic and the subsequent lock-down affected implementation of some activities in the municipal. The municipal administration is however committed to ensure that the absorption capacity of funds is improved in the subsequent financial year and uncompleted projects are completed and operationalized.

Performance as of BFP FY2020/21 (Y0)

The Municipal received a total of shillings 4,148,486,000 out of the approved budget of 8,296,972,000 which is represented by 50 % of the annual approved budget. The municipal administration is however committed to ensure that the absorption capacity of funds is improved in the subsequent financial year and uncompleted projects are completed and operationalized
