## FOREWORD

---

The Budget Framework paper for the financial year 2023/24 has been developed in accordance with the Third District Five-year Development Plans 2020/21-2024/25, National Development Plan III (2020/21-2024/25) Vision 2040, sustainable development goals and policy guidelines from the different line ministries. theme of next FY 2023/2024 budget is “Full monetization of Uganda’s Economy through Commercial Agriculture, Industrialization, Expanding and Broadening services, Digital transformation and Market Access”. This BFP for financial year 2023/24 is an extract of the second year in from the DPP III. The process of developing this plan was participatory in nature ranging from the district budget conference which was conducted on the month of October at the district headquarters. Due to the Ebola Virus Standard operating procedures, participation was limited however a number of stakeholders ranging from political leaders, technical staff, religious leaders and development partners contributed to the ideas which form this budget framework paper.

The funding for this plan is expected from different Central Government grants which include among others District Discretionary, Sector Development grants, Sector Non-wage, District unconditional grant wage and non-wage and other government transfers. More funding is expected from donors like Baylor uganda, GAVI, World health Organization, UNFPA among others both under on budget and off budget support. The development direction for the district is improving the quality of both primary and secondary education, Infrastructural Development under Roads, Water, Education, Health, timely reporting, value for money , enhancing agricultural production and environmental protection and management.

The district continues to face a number of challenges including Low staffing levels, limited wage bill, difficulty in attracting and retaining of staff in hard to reach and stay areas, disasters which have continuously destroyed facilities like, health facilities, and water sources, bridges and roads, hard terrain making costs of constructing facilities in such areas very expensive hence consuming much of the already limited resource envelope. We hope to work hard to ensure that the funds are utilized as per the stipulated guides to meet all the targets for the financial year 2023/24
