## **Foreword**

---

The Local Government Act 1997 S.36 mandates Local Governments to prepare comprehensive and integrated plans for submission to the National Planning Authority for incorporation in the National plans. The fact is that the planning function is being strengthened nationwide and has gone along way to streamline, harmonise and guide operations within Local Governments and the central Government. Annually, each HLG produces a Budget Framework Paper giving the overview of its budgetary revenue sources and the anticipated expenditures. Herein, we give our major achievements and constraints encountered while implementing the Municipal programs. The Municipality has identified a number of strategies to address the constraints and hopefully they will be of great guidance to this Municipality. Result Oriented Management has proved to be a better management technique and key ROM areas have been highlighted in this document. This Local Government considers presentation of this BFP a great opportunity to bring our focused development and service delivery priorities to the attention of central government and other stakeholders. It has resulted from an in-depth problem identification, analysis and strategy development that focuses on addressing the local development concerns in our community as well as the National development and MDG priorities. We do appreciate the technical guidance accorded by Line Ministries to the Municipality in preparation of this document.

#### Revenue Performance in the first quarter of 2013/14

During FY 2013/14, the Local Government received a sum of UGX.10.6bn in the general fund account, cumulated from the four main sources of revenues under the LG. These included Local Revenues which performed at 66%, discretionary grants at 104%, conditional grants at 99%, Other Government transfers at (92%) and Local Development grant at 100% of the total approved budgets. Therefore providing an averagely performance of 90% of the approved budget. This can be attributed to a high performance in revenues from discretionary Government transfers which contributed (104%), Other Government transfers, specifically; funds budgeted under infrastructural Development whose funds was released as expected in fourth quarter to a tune of UGX.3,041bn and a component of capacity building was released of UGX.438.6 M during the third quarter by the responsible institution. It should be further noted that, Local Revenues did not perform as expected with some sources like Business licenses (68%) because of the assessment exercise which took off a bit late due to the lag in the procurement process (the assessment exercise was supposed to be done by a consultancy firm), while others like registration of Business among others performing at 0% of the approved budget. Overall, the direct central government transfers performed as expected averaging between 90% to 100 of the approved budget.

Of the amount that was received UGX.10, 562,581,000 was received by the Local Government the amount transferred to the departmental operational accounts was UGX.10, 562,493,000. The departments further went ahead to cumulatively spend UGX.6, 681,578,000 leaving a balance of UGX.3, 880,925,000.

The biggest unspent balance was in Engineering department which is worth UGX.3,082,312,000(USIMID ROADS) which is committed for construction of Roads (where by the contract committee is done with the evaluation exercise and the report is awaiting approval from the solicitor General ,then Administration department had a balance of UGX.198,812,000 committed for USIMID Capacity Building where by some workshops and re-tooling activities were budgeted in fourth quarter and didn't take off due to the procurement process which was done late and the payments couldn't be effected without the approval of the contracts committee ,Education department had a balance of UGX.202,071,000 which was committed for the construction of Kiyimbwe p/s whose works were still underway so the payments could not be done without certificates of completion.

#### Planned Revenues for 2014/15

In the financial year 2014/15, the Local Government's resource envelop is projected at UGX. 16,681,180,000 which has an increment of UGX 6,268.741,000 compared to the projections made in the FY 2013/14. The increase has been attributed to a rise on CONDITIONAL Government transfers which has increased from UGX.3,967,590,000 to UGX.8,878,630,000 and Other Government transfers increased from. UGX 4,536,183,000 to UGX.4,610,867,000 due to unspent balance rolled over from the previous financial year 13/14 it has been noted that the IPFS have changes as per the Fourth Budget call circular issue by MFPED for the financial year 2014/2015.

### *Medium Term Expenditure Plans*

In the Medium Term, the main focus of the Local Government will be to improve the Livelihood of its communities across sectors based on the guidance laid in the Local Government Development Plans to achieve vision for the National Development Plans. The strategies include (but not limited to): Lowering the UPE and USE school dropout rates, Improve the school passing rates, provide a better learning environment to students by construction of better classrooms and latrines, reduce child mortality rates, and improve on the reporting and accountability mechanisms in the Local Government.

### **Challenges in Implementation**

There are a number of challenges that have to be ascertained to extent affected service delivery to the community. Some of these challenges are specific to different sectors while others are crosscutting and may not be in control of the Local Government. For example, one of the main sources of revenue to Masaka Municipal Council is revenue from Taxi Parks. The change in central Government policy of management of Taxi parks and the subsequent directives from the centre led to continued wrangle in Taxi parks which greatly affected revenue from Taxi Parks and also resulted into a number of court cases where council is to lose money in form of damages and costs. Inadequate decentralization of revenue collections mandates leading to central government collecting the greatest chunk of taxes/revenue from localities/Local Governments, this results into over dependence on Central Government transfers and reduced discretion in decision making for local development. Ad hoc changes of priorities especially during implementation are too common in Local Government possibly because of inadequate attention given to evidence-based planning and budgeting. Under the health Department, the biggest challenge is when the Local Government is required to request for the medicines based on the needs of the communities. Inadequate supply of medicines and health supplies, the push system of medicines and health supplies has caused over supply of non-essential medicines and stock out of some key drugs in all units; likewise the standard kit for HC II is insufficient for the urban center compared with greater coverage. Low staffing rates in the Local Governments with a number of departments like production, Planning being run by a single officer who has to make sure all the outputs under the Sector are implemented,

### (iv) The three biggest challenges faced by the department in improving local government services

#### 1. Absolute paucity and low resource base

The structural and detailed plan over 11 years old leading to uncontrolled development and low revenue which also lowers the department allocation and in most cases the budget is not realised hence activities not accomplished in time

#### 2. Staff performance vis-à-vis development and morale

## Workplan 1a: Administration

Some key positions especially finance, planning department and divisions are unfilled leading to the gaps in the service delivery, political interference and poor staff motivation which leads to absenteeism and inadequate fund for Capacity building

some key drugs in all units; likewise the standard kit for HC II is insufficient for the urban centre compared with greater coverage

### 2. Lack of human resources

The municipality would like to upgrade some of its health units e.g. Kitabaazi HC II. However, establishing more human resources e.g. clinical officer and lab assistants in a constrained wage bill remains a challenge. Current wage IPF is less than actual.

### 3. Lack of funding for the HIV program in the municipality

The municipality has a comprehensive proposal and plan for implementing HIV activities that cannot be embraced within the routine PHC non wage budget. However, this is not funded at all deterring HIV prevention activities in the area.

### (iii) Details of Off-Budget Activities carried out by NGOs, Central Government, the Private Sector and Donors

there are no off budget activities directly linked to education department. The HIV/AIDS interventions are cross cutting and as such is difficult to quantify.

### (iv) The three biggest challenges faced by the department in improving local government services

1. n/a

n/a.

### 2. Decentralisation

Staff without work ethics, unprofessionally not bothered about organisational goals but individual ones only produce imaginary results.

### 3. Limited Resources

The unexplained budgetary cuts and the lack of initiative by Local Government to solicit for funds off budget hampers implementation of services.

### Medium Term Plans and Links to the Development Plan

In the medium term, greater efforts towards developing a strong data bank will be pursued. Annual Statistical Abstracts will be produced with technical support from UBOS to enable establishment of trends resulting from implementation of different programmes in different sectors and enabling comparability both internally and externally. Monitoring of the reviewed 5-yr municipal development plan implementation will also be enhanced. All the above align well with the intentions and strategies of the Development Plan.

### (iii) Details of Off-Budget Activities carried out by NGOs, Central Government, the Private Sector and Donors

No off budget activities yet known due to lack of donors for the Planning Unit.

### (iv) The three biggest challenges faced by the department in improving local government services

#### 1. Lack of data: Poor response in birth and deaths registration and in CIS

This makes study of key government programme impacts and trends difficult. It's due to negative attitudes among the populace and lacking political will to mobilise communities positively.

#### 2. Staff structure constraint

This allows for only one staff in Planning Unit- The Senior Planner. This leads to work without rest since there is none to delegate to and oftentimes leaving out some planning responsibilities due to overload
