Summary of Cumulative Receipts, disbursements and Expenditure for FY 2015/16

In the first quarter of FY 2015/16, the Local Government received a sum of UGX.12.81bn in the general fund account, cumulated from the six main sources of revenues under the LG. These included Local Revenues which performed at 26%, discretionary grants at 25%, conditional grants at 16%, other Government transfers at 90%, Local Development grant at 20% of the total approved budgets, therefore providing an average performance of 42% of the approved budget. There was high performance in revenues from other Government transfers of 90% due to USMID unspent balances of previous financial year which were budgeted and recognised on this vote. Conditional Government transfers performed low at 16% due to the fact that USMID funds were not received during the quarter other than the unspent balance from the previous quarter which was recognised under other Government transfers as explained above. Also, pension and gratuity for local leaders performed low at 7% which is also included here, thus leading to a low performance

Summary: Overview of Revenues and Expenditures

of 16%. Specifically, funds budgeted under infrastructural Development which were not released by the responsible institutions during the first quarter, affected the performance on this vote. It should be further noted that, some Local Revenue sources did not perform as expected with some sources like business licenses performing at 5% because of the poor season and political interferences, while others like property related duties and animal & crop husbandry levies among others performed as low as at 1% and 0% respectively of the approved budget. Overall, all direct central government transfers performed as expected averaging about 25% of the approved budget. This, together with the unspent balances brought forward from the previous financial year led to average performance of 42%.

Of the amount that was received, all the funds UGX.12,814,226,000/= received by the Local Government were transferred to the departmental operational accounts with some departments like Administration Education, and Finance performing at 30%,25%, and 22% respectively, this is because, these departments deliver largely recurrent activities while other departments like roads and engineering performed at 60% because of the USMID funds for road projects which were released in Q4 of the previous Financial year and the funds were not utilised because the projects are still in procurement process.

The departments further went ahead to cumulatively spend UGX 3,561,999,000/=leaving a balance of UGX.9,252,227,000/= which ismeant for USMID construction of roads in the municipality, completion of staff house at Nyamitanga HC III, renovation of six primary school classrooms in kamukuzi division, construction of 14 classroom block at Karama primary school in Nyakayojo Division, monitoring and evaluation and supervision of council projects all of which will be done in the following quarters.

(i) Cummulative Performance for Locally Raised Revenues

During quarter one of the financial year 2015/2016, the Municipal council received UGX 1,339,675,000 out of the UGX 5,063,161,000 that was planned for the FY. This represented a performance of 26% of the approved Budget. The bulk of these funds were collected from Land fees (700%),local service tax (25%),other fees and charges (80%), park fees (14%), Market/Gate charges (12), while other sources performed badly like animal and crop husbandry related levies,(0%), business licenses (5%) etc., Although a number of strategies have been done to educate the masses of the type and the benefit of payment of some taxes, the implementation has not yielded much because of largely political interference by the Politicians who have continuously disagreed on some sources as well as the methodology of collection. Also, during quarter 4 of the previous financial year, there was massive revenue collection enhancement activities whereby almost all businesses paid trading license. The contractors of the revenue collection expired and council had to take over the management of revenue collection. This together with the political campeigns season has deteriorated revenue collections from almost all local sources. However, we expect the trend to reverse positively especially with the procurement of new revenue contractors and good season coming ahead.

(ii) Cummulative Performance for Central Government Transfers

The LG has cumulatively received UGX. 11,474,551,000 as Central Gov't Transfers, this is in form of LDG, Conditional Grants, other Government transfers and Discretional Grants. These have averagely performed at 25% of the Approved Budget. Note that Other Government transfers of UGX 8,826,162,000/= is an unspent balness brought forward from previous financial year in respect of USMID funds. In effect, the actual Central Government transfers received in the quarter one were UGX 2,648,389,000/=

(iii) Cummulative Performance for Donor Funding

The municipality never received any funding from Donors during quarter one

The department cumulatively received UGX 9,043,740,000/= in the first quarter representing 60% and spent UGX 438,289,000/= representing 3% respectively of the approved budget (Ugx 15,061,291,000 for the department. During the quarter, the department received UGX 9,043,740,000 and spent UGX 438,289,000.Locally raised revenue (unspent balance) of ugx 400,000/= was budgted for and recognised in this year under the same vote, thus performing at 100%. Other Government transfers (unspent balance) of Ugx 7,612,807,000/= was budgeted for and recognised in this year under the same vote, thus performing at 100% also. Unconditional grants (unspent balance) of Ugx 420,000,000 was budgeted for and only Ugx 352,634,000/= recognised in this quarter which is 84% of the expected amount. Some of it had been spent in q4 of previous financial year and thus, that expenditure was matched/accrued to that year. The wage component took UGX.27.5m , UGX.238.7m for Non-wage and domestic development took UGX.171.9m. The unspent balance is mainly USMID funds for construction of Roads in the Municipality which was received towards the end of fourth quarter of the previous financial year, and is still on account due to uncompleted procurement procedures for the road contractor. The process of procuring a road contractor for cluster 4 which involved Mbarara, Kabale, Fortportal and Hoima Municipalities delayed due to technical problems that were identified in the BOQs. The BOQs were designed wrongly and they have just been completed being re-designed and the procurment process will commence soon. Due to this technical error in the BOQs, the USMID funds can not be spent and thus a bigger balance on the account of UGX 8,605,452,000/= which has been accumulating over the last 2 financial years.

Workplan 7a: Roads and Engineering

Reasons that led to the department to remain with unspent balances in section C above

The rest of funds that remain unspent (8,605,452,000) is USMID Funds meant for the Road construction in the municipality which have not been used due to delayed process of getting a road contractor because the BOQs have just been re-designed.
