

Vote Budget Framework Paper FY 2021/22

VOTE:[554] TORORO DISTRICT LOCAL GOVERNMENT

V1: VOTE OVERVIEW

Foreword

Tororo District annually prepares an integrated Budget Framework Paper covering all the sectors that were decentralised. By law all Local Governments are supposed to hold a Budget Conference where various issues are debated on, and Development Plans for the Local Governments are made. It is this requirement, which has prompted Tororo District to develop a comprehensive Budget Framework Paper for the financial year 2021/2022.

This Budget Framework Paper emphasises on the revenue position of the district and allocation of the scarce resources most of them to areas of priority as guided by the central government priority areas

This Budget Framework Paper therefore is going to provide the direction that the district will take in order to improve upon the well-being of the people of Tororo within the coming financial years focusing mainly on the following areas; Increase access to social services, Improve on the economic infrastructure, Increase house hold incomes, Increase skilled manpower, Reduce environmental degradation and use the natural resource base sustainability, Improve on the level of Functional Adult Literacy

Copies of the Budget Framework Paper will be forwarded to the Ministry of Finance, Planning and Economic Development, Ministry of Local Government and Local government Finance Commission so that the views of Tororo district are reflected in the National Budget Framework Paper

I am therefore, happy to present to this Budget Framework Paper with the view that it will be implemented so as to improve on the standards of living of the people of Tororo.

Imukutet Stella Echiria
AG DISTRICT CHAIRPERSON
TORORO DISTRICT LOCAL COUNCIL

Community Mobilization and Mindset Change

1. To promote decent employment opportunities and labour productivity
2. To enhance effective participation of communities in the development process.
3. To improve the wellbeing of vulnerable, marginalized and excluded groups.
4. To address gender inequality in the Development process.
5. To improve performance of social development institutions to coordinate, implement and evaluate social development initiatives at all levels

Development Plan Implementation

1. Minimize revenue arrears by realistic budgeting and contracting bailiffs
2. To minimize expense arrears and ensure all creditors are paid within a year.
3. Link service delivery to tax payment
4. Emphasize equity and fairness in taxes
5. To pay Staff salaries to staff of the Planning dept
6. To prepare and share quarterly reports and Performance Contracts using the Pbs
7. To procure small office equipment and furniture. (printer)
8. To hold a Budget conference
9. Conduct mid-term review of the 5 year Development Plan (20/21 to 2024/2025)
10. To guide all lower local councils in development Planning
11. To hold of 12 Technical Planning Committee meetings

10. Conducting of 5 Career development and trainings for Councilors and staff on cross-cutting issues.
11. Implementation of Council decisions
12. Ensure the functionality of Boards and Commission through conducting their meetings

Efficiency of Vote Budget Allocations

1. The efficiency of Vote budget allocations will take into consideration interventions and strategies that will reduce on unit costs of works, goods and services while maximizing benefits/results of each intervention and strategy.
2. It will also consider consolidating resources by avoiding unnecessary spread of interventions based on real needs of the community and not otherwise.
3. Some interventions will be jointly done to maximize time and limited resources such as human resource and vehicles.
4. Collaborate with women groups, cultural institutions and volunteers to achieve the set targets and also reduce the cost of restoration this will ensure functionality of decentralized environment management.
5. The district plans to use force on account implementation strategy to carry out most of the works and to some extent contracting. The force account mechanism is preferable because it's less costly.
6. Limit the contract award of numerous small projects and consolidate them into one project. All projects in one site should be awarded to one contractor. This will save the time associated to the long procurement cycle
7. Integrated implementation of activities, quarterly joint integrated monitoring visits will be conducted covering all the programme areas as opposed to each programme area carrying out their own monitoring activities.
8. Strengthen the coordination function in the district. Collaborate with development partners, private sector and other government departments to achieve the intended outputs and results. This will lead to the avoidance of duplication of resources

Human Capital Development and Social Protection

i) **Gender and Equity**

Issue of Concern : In Tororo, the most common violence on children include; child marriage(defilement), a child abuse and neglect, child labor, 49 domestic violence at 72% Gender based violence survey 2018, and trafficking in person.
Planned Interventions:
<ul style="list-style-type: none"> ◆ Community mobilization and emphasize change that begin with an individual as a model. ◆ Collecting and analysing gender disintegrated data and making decisions on gender strategic needs and wants ◆ Advocacy with cultural and religious institutions and other stakeholders on exosystems, mesosystems and chronosystems on social norm change ◆ Use of mass media on behavior risk engagement and communication ◆ Monitoring and evaluation on integration and mainstreaming on gender and children priority interventions in every aspects of development
Budget Allocation (Billion) : 0.01

iii) HIV/AIDS

<p>Issue of Concern : HIV/AIDS is still prevalent in the district, and the commonest mode of transmission is through Hetero sexual relationship. It is now evident, that the second commonest route of transmission is from an HIV infected mother to her unborn baby. Transmission through blood products and infected unsterile materials is however not yet well documented, but there is growing evidence that this could be happening in the formal Health care set up.</p> <p>Due to its geographical location, there are many high risks population who include commercial sex workers especially in Malaba border town, long distance truck drivers, and street children, cross border traders, factory workers and bar maids.</p>
<p>Planned Interventions</p> <ul style="list-style-type: none"> ◆ Procurement of ARVs and other drugs for treatment of OIs. ◆ Care and treatment services at both community and facility levels ◆ Training of health providers in the provision of comprehensive ART services. ◆ Support and expand provision of palliative care in the district. ◆ Strengthening VCT and PMTCT to ensure that this prevention and treatment services are readily accessible throughout the district. ◆ Approaches to behavior change communication (BCC) will emphasize all three elements of the ABC approach to prevention, e.g. abstinence, being faithful and condom use, while also improving access to condoms throughout the district. ◆ system and guidelines for linking or networking all these new care initiatives will be developed to ensure they meet their full potential in the district response.

iV). Covid 19

<p>Issue of Concern : Women, the elderly, adolescents, youth and children, persons with disabilities, indigenous populations, refugees, migrants, and minorities experience the highest degree of socio-economic marginalization. Marginalized people become even more vulnerable in emergencies. This is due to factors such as their lack to access to effective surveillance and early- warning systems, and health services. The COVID-19 outbreak is predicted to have significant impacts on various sectors.</p> <p>Planned Interventions:</p> <ul style="list-style-type: none"> • Mobilize all sectors and communities to ensure that every sector of government and society takes ownership of and participates in the response and in preventing cases through hand hygiene, respiratory etiquette and individual- level physical distancing. • Control sporadic cases and clusters and prevent community transmission by rapidly finding and isolating all cases, providing them with appropriate care and tracing, quarantining, and support all contacts. • Suppress community transmission through context-appropriate infection prevention and control measures, population level physical distancing measures, and appropriate and proportionate restrictions on non-essential domestic and international travel. • Reduce mortality by providing appropriate clinical care for those affected by COVID-19, ensuring the continuity of essential health and social services, and protecting frontline workers and vulnerable populations. • Develop safe and effective vaccines and therapeutics that can be delivered at scale and that are accessible based on need.
Budget Allocation (Billion) : 0.8

V) Family Planning

<p>Issue of Concern: Lack of access to quality obstetric facilities, unsafe abortion facilities and post abortion care, and family planning policies still remain a challenge in health facilities. Women's ability to determine if, when, the number and spacing of children requires decision making and negotiation capacity that is ultimately predicated upon gender equality and empowerment. Unfortunately men rare attend the facilities or outreach services where they can get information to enable them make informed decisions with their wives. Issues of management of side effects by service providers still pause a challenge to the uptake of FP services. The Family Planning Costed Implementation Plan (FP CIP) in place but no funding for implementation of several activities.</p> <p>Planned Interventions</p> <ul style="list-style-type: none"> ◆ Ensuring universal access to family planning, safe abortion, maternal, newborn and child health care, with special attention to the needs of under-served and vulnerable groups.

<ul style="list-style-type: none"> ◆ Women, men and community at large participate in all RSH programmes through community dialogues, outreaches etc. ◆ Integration of sexual, reproductive, maternal, newborn and child health services, including HIV prevention and treatment in the existing programs. ◆ Facilitating the respect, protection and fulfillment of the human rights of women, men, adolescents, newborn and children. ◆ Respecting the basic values of choice, dignity, diversity and equality. Addressing gender and cultural sensitivity ◆ Lobby with IPs to support the implementation of some activities in FP CIP ◆ Mentorship and supervision of service providers.

Community Mobilization and Mindset Change Gender and Equity

Issue of Concern : In Tororo District Gender inequalities and violence is manifested through the life circle of women children and men in various forms and is accepted as a normal part of what is to be done especially on women and girls. The census data of 2014(UBOS) indicates prevalence rates of physical violence at 69%, with 40% rate of sexual violence. Prevalence on violence against children includes sexual violence and Gender based violence. Allocation of resources is not equitably implemented as the winner takes it all principal is used instead using the vulnerability index to guide resources allocation by councilors. The implication is that areas with weak representation continue to have their priorities unmet, level of poverty and vulnerability increase and as such classes are created consequently, of the poor and the rich, and violation of the disadvantaged rights is done with impunity for” the haves” against the “have nots” especially women and girl children who cultural not entitled to own customary assets and properties.
Planned Interventions
Dissemination of laws, social norm change, quality response to survivors, date management for decision making and strengthening women movements
Budget Allocation (Billion) : 0.256

HIV/AIDS

Issue of Concern : HIV/AIDs scourge has left many child headed families after parents who are responsible have died, widows are left helpless and their late spouses properties and assets deprived of them. The pandemic places a high burden of cost of treatment on families with those infected and reduced the workforce in families and community after those infected die. The prevalence in Tororo District is 5.3% slightly below the national average of 6.1% but all the same, most of the girl children have migrated to urban areas specially in boarder town and centres like Malaba Town, Osukuru corner, Mukuju centre and engaged themselves in illicit commercial sex due to the high levels of poverty (35% UBOS 2020). The boy and girls left in rural areas, some of whom have engaged in cross trans-generational sex. The implication is that poverty levels have escalated, deaths are on the rise to HIV/AIDs and production has been highly affected due to limited workforce as so the need for intervention to mitigate or eliminate HIV/AIDs
Planned Interventions
Social mobilization, risk management and Psychosocial support on prevention and positive living of HIV/AIDs for the community and referral pathways for survivors of defilement and rape
Budget Allocation (Billion) : 0.0001

Environment

Issue of Concern : Environment has been encroached on by deliberate human activities and surroundings have barely any tree cover (9% UBOS 2014). Wetlands are being destroyed and this affects bio-diversity. Women and children move long distances in search of fuel for cooking and sometimes water for cattle and household usage. This exposes young girls and women to abuse in form of defilement and rape and dangerous predator's attack such as snake bites and being eaten by crocodiles. As though this is not enough, domestic violence has of recent increased due to disagreements on ownership, access, control and usage of land, trees and wetland space between men and women which has even resulted into deaths.
Planned Interventions:
Social mobilization on importance of afforestation, sustainable use of wetlands, ownership, access, use of natural resources
Budget Allocation (Billion) : 0.0001

Covid 19

Issue of Concern : COVID-19 pandemic has affected the livelihoods and socioeconomic lifestyles of communities in Tororo District. The lockdown strategy that led to closure of schools and other workplaces, reduced family earnings and incomes and exposed school going children to illicit activities and associations. The repercussion was that Gender violence cases sky rocked like never before in the history of Tororo. 640 cases were recorded between February and June and of these defilement cases were 95 cases, making Tororo District the sixth ranked in Uganda on defilement. The implication is that teenage pregnancies are high, child marriages have increased and girl child's chances to live her full potential highly hampered.
Planned Interventions:
Social mobilization, risk management and Psychosocial support on prevention and positive living of COVID19 for the community and referral pathways for survivors of defilement and rape
Budget Allocation (Billion) : 0.0001
