Stakeholder engagement of Project affected persons and communities undertaken Engineering Design review undertaken	• The project was to be implemented using the EPC+ F financing model with QG-Konstruktion AB as the contractor and financing from Swedish Export Credit Agency. The project is currently delayed at the procurement stage. • The commercial contract with the Developer (QGMI) was signed on 7th January 2022 and effectiveness was tagged to conclusion of the loan negotiations facilitated by the Developer. • The developer requested that a price adjustment clause be included and the contract price amended ahead of submission to cabinet and parliament for loan approval. • On 3rd May 2024, the Solicitor general agreed that the contractor is entitled to a price adjustment and requested UETCL to ascertain the claim from the contractor on price increase and if found true, revert back to SG for further guidance given the absence of the price adjustment clause. • UETCL undertook the exercise and determined the contractor's price was unreasonable thus has written to MoFPED on 25th February 2025	• Delayed financing means the project will not be completed as scheduled, leading to deemed energy payments to Kikagati Hydro Power Plant

Stakeholder engagement of Project affected persons and communities undertaken Engineering Design review undertaken Procurement Process for the EPC Contractor undertaken Negotiation and approval processes for the Project external financing coordinated	• The Project was packaged for development under the EPC +F model with an MOU signed with Kalpataru Power Transmission Sweden AB to undertake Feasibility Studies. It is currently at procurement stage. • The feasibility Study, ESIA and the RAP study are complete. • The Final RAP report was reviewed and approved by the CGV in late December 2024. • The EPC contractor submitted a bid that was cleared by the UETCL Contracts Committee and UETCL wrote to MoFPED regarding the same. • A commercial contract was signed on 26th March 2025 and a letter to the Ministry was submitted forwarding the signed commercial contract to facilitate finalization of the financing arrangements.	• Outstanding legacy RAP issues along the Lira – Opuyo – Tororo transmission line project have created a negative perception of UETCL in the project areas

Communities provided free right-of-way.	Delay by the funder to complete payments for Umeme suppliers and contractors. Failure by Chapa to submit the missing drawings.
Achieve 20% advance payment disbursement		Unavailability of funds to undertake the project
Achieve 100% implementation of last mile connections Quarterly Monitoring and supervision connections	A total of 39,701 connections were made by Umeme, UEDCL, KIS and WENRECO. Inception reports for verification of connections under 3 contracts were completed for Umeme, UEDCL and small SPs. A total of 4,074 connections were submitted to the IVA for verification under TBEA & GOU funding from KRECS, KIL and KIS.	There was no field monitoring of connections during the quarter due to unavailability of funds for facilitation

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1828 Rural Electrification and Connectivity Project		
PIAP Output: 08110401 Expanded distribution network		
Programme Intervention: 080106 Expand and rehabilitate the distribution network including rural and hard-to-reach areas (grid expansion and densification, last mile connections, evacuation of small generation plants, quality of supply projects)		
Achieve 4 Quarterly monitoring activities for the Service Territories	Carried out inspection of faulty transformers in Tororo and Ntungamo under Umeme Limited to determine materials requirements for supply restoration.	Lack of facilitation to undertake monitoring in the other service territories.
Achieve 100% contract signature for supplies and works Achieve 20% advance payment disbursement	Factory acceptance test for the load break switches was completed at the manufacturer's factory.	There was no FAT for autoreclosers at the manufacturer's factory since it was a different location and was not catered for in the contract.
100% Procurement of Contractors for implementation of GoU Phase III under 10 Lots		Intervention abandoned due to lack of funds
Testing and operationalization of an On-line Electricity Application System	Contract signed in March 2025; At preparation of the Systems Requirements Specifications (SRS) Document – Stage 2	
100% Design Review and update of Feasibility Study completed in 2017 for UREAP II.	Feasibility Studies completed in Mar 2025. ESIAs and SEP disclosed on MEMD and AfDB websites.	
	Contracts awarded for 4 lots; Pre-feasibility for lot 1 completed; Lot 1 at detailed feasibility stage; lots 2,3 and 4 at pre-feasibility stage	
20% completion of Feasibility study for Electrification of all health centers in Uganda		Intervention abandoned due to lack of funds
	Negotiated contract cleared by SG pending signature of the PS.	Delayed responses from the Funder
	Contract awarded and Execution of actual classroom training has been slated for 13th to 27th July 2025	Delayed release of funds from the Funder
	EOI approved by CC awaiting no objection from AFD and thereafter publication of EOI	
	Draft TORs submitted to USAID and AFD; AFD confirmed partial funding of Euros 600,000; awaiting further feedback from the above potential funders. Draft TORs and budget estimates for the consultancy services developed and under internal review	Full Funding not yet committed
20% procurement of consultancy services to implement viable projects under French funding	Detailed feasibility studies ongoing (field activities completed) and study envisaged to close in Dec 2025.	Delayed deployment from the consultant
100% Stakeholder Engagement Activities and Survey of Community Applications Conducted	100% stakeholder engagement activities conducted	
	First draft under internal review

PIAP Output: 08020501 Increased deployment of new renewable energy solutions		
Programme Intervention: 080205 Promote use of new renewable energy solutions (solar water heating, solar drying, solar cookers, wind water pumping solutions, solar water pumping solutions)		
Finalise installation of demonstration solar street lighting and Collect data for scale-up	• ninety One (91) Solar Street Lighting system installed and monitored in Mitiyana, Bugiri, Kumi, Alebtong,	
Hold a management committee for the solar systems and further monitor the performance	Steering committee meeting on the governance of the 4MW solar project at Busitema Held The operation of the 4MW solar project at Busitema was monitored	
Carrying out further research on ethanol production and stove-making	• Outreach awareness campaigns on clean cooking held in the Nine (9) districts of Arua, Kabale Municipality, Ssembabule, Lira, Masindi, Mukono, Luwero, Nebbi and Kikuube;	
A radio, TV talk shows two meetings with key stakeholders (NGOs, Private sector companies, Associations)	• Outreach awareness campaigns on clean cooking held in the Nine (9) districts of Arua, Kabale Municipality, Ssembabule, Lira, Masindi, Mukono, Luwero, Nebbi and Kikuube;	
Monitoring of works and sensitisation of beneficiaries	• 65 tubular bio digester installed, monitored and assessed. • Construction of twin Demonstration Improved Institutional Cook Stoves in 10 selected schools. The sites included, Rwantsinga High School Mbarara District, Nyakasura School, Kabarole District, St. Michael High School Rugazi, Rubirizi District, Bukedi College, Kachonga Butaleja District, Mother Kevin Senior Secondary School Jinja City, Riverside College Tirinyi (RCT) Seed Secondary School Kibuku District, Luwero Senior Secondary School Luwero District, Bombo Army Senior Secondary School, Bulo Parents Senior Secondary School, Butambala District and St. Andrew Kaggwa's Senior Secondary School Luwero District.	
Stakeholder engagement and monitoring of the production and utilisation of biofuels	• Biofuels Program Rollout - Stakeholder Engagement For Production And Blending Readiness.	
	feasibility studies for Manafwa Mini Hydro (4.8 MW) in Manafwa, Kyenjoki Mini Hydro (3.5 MW) in Bundibugyo, Bujuku Pico Hydro (30 kW) in Kasese, and Namayiba Pico Hydro (10 kW) in Mbale were completed or advanced. Two pico-hydro schemes—Bujuku and Namayiba—were piloted to support community-level productive use. Project development continues to be supported through public-private partnerships, concessional financing, and technical assistance from development partners including GET.FiT, UECCC, GIZ, EnDev, and ElectriFI.	insufficient funding

A bench-marking activities on green hydrogen, biofuels, and ethanol for cooking and other emerging RE technologies in collaboration with research institutions	MEMD conducted benchmarking activities on green hydrogen, biofuels, ethanol for cooking, and emerging renewable energy technologies in collaboration with Makerere University, UNDP, Clean Cooking Alliance, NARO, and other regional and international institutions. Site visits, regional study tours, and technical exchanges were conducted in South Africa, Kenya, Tanzania, and virtually with Brazil. The activities informed the development of a draft Green Hydrogen Roadmap, a biofuels infrastructure development framework, and ethanol fuel standard recommendations. Field assessments for ethanol cooking adoption were also completed in Mukono and Jinja, supporting clean cooking policy integration.	
- Build capacity in mini grid development and Monitoring	• Upgrade Kanyegaramire and Kyamugarura mini-grids in Kyenjojo district in progress; • Operational Mini-grids in Various Regions of Uganda Monitored and Evaluated; • 150 Mini-grids under GET Access Uganda Project packed for development; • EPC Contract for construction of Power distribution network for Lake Victoria Access Project commenced; • Retention for Construction of low voltage off grid power distribution networks in various regions of Uganda under Lots 1, 2 and 3; Procurement Reference No. REA/ WRKS/18-19/00174

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Programme:02 Mineral Development	
SubProgramme:01 Mineral exploration, development and value addition	
Sub SubProgramme:01 Mineral Exploration, Development & Value Addition	
Departments	
Department:001 Geological Survey Department	
Budget Output:060003 Mineral exploration and development	
PIAP Output: 02020301 Mineral reserves established	
Programme Intervention: 020203 Undertake a detailed exploration and quantification of minerals and geothermal resources in the country	
Develop professional standards and necessary legislations Work towards establishment of Geo-scientist Registration Board	Following the stakeholder consultative on the Earth Scientists Registration Board Bill 2024 meeting from 18th to 20th March 2025 I. Received comments and views from stake holders II. Submitted comments from to the Fist Parliamentary council to be incorporated in the Draft. III. Submitted a paper on of the bill to Cabinet IV. Submitted a letter requesting for certificate of compliance to the Ministry of Finance, Planning and and economic development
Undertaken mineral exploration and evaluation to pre-feasibility stage and package the prospects for investment; Upgrade and maintain a comprehensive geological and mineral information system; Domesticate mineral classification system;	Carried out geological mapping of Katara Uranium Prospect in Buhwej District; Assessment of status of iron ore deposits in SW Uganda in progress; Assessment of gold mineral potential of gold rush reported in Abim District Geological mapping over mineral targets and sensitization of communities in regional offices in progress. Mineral targets covered are: Gold in Chepkararat, Amudat District; Bushiribu carbonatites in Bududa District; Gold in Reakishana and Rwenge sheets in Buwheju District; Iron ores in Rusorooza area in Kabale District. Carried out ground and magnetic surveys over Nickle, Chromium Iron Potential occurrence in Kasongoire, Masindi, Hoima. Carried out ground and magnetic surveys over Nabukalu Geophysical Anomaly.
Fully operationalize the exploration unit. Deploy staff and equipment in mineral resources evaluation programs. Evaluate key mineral resources	Exploration unit in place comprising of geologists, geochemists and geophysicists; Staff deployed in exploration for gold, iron ore, uranium and 3Ts; Maintained and serviced the rig and other equipment’s in the exploration unit. Procured and received 13 Laptops, 15 Desktops, 7 Printers and plotter to strengthen and implement exploration and Departmental activities A Memorandum of Understanding between the Government of Uganda represented by the Ministry of Energy and mineral Development and the Government of Slovenia was signed to implement PANAFGEO+ activities. The Geological Surveys of Uganda and Slovenia are implementing Agencies

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
AIA	0.000
Budget Output:060004 Mineral Laboratories and Research	
PIAP Output: 02040901 Increased private sector investment along minerals value chain	
Programme Intervention: 020409 Undertake PPPs to invest in mineral value addition;	
ISO/IEC 17025 accreditation and requirements maintained (proficiency testing (PT) schemes and two inter-laboratory conformity testing carried out	i) Printed and posted policy statements on Impartiality, Confidentiality, and Complaint, as well as the Certificate of Registration of Work Place (Occupational Safety and Health) for the Geological Survey and Mineral Laboratory issued by the Ministry of Gender Labor and Social Development, in all the three main laboratories. ii) Laboratory staff participated in internal audit in accordance to ISO/IEC 17025. iii) Reviewed and drafted additional documentation required by ISO/IEC 17025:2017, and these included: Standard operating procedure (SOP) for performing inter-laboratory comparison tests, SOP for checking weighing balances, SOP for checking ovens/ furnaces, Laboratory Waste Management Plan, GSML Calibration Plan, Equipment Logbook, Equipment Inventory, and Analyst Workbook. iv) Provided feedback to First Parliamentary Council on a Draft of the Mining and Minerals (Geological Survey and Mineral Laboratory) Regulations, 2025 which were received from the Attorney General's Chambers
Laboratory consumables (chemicals, reagents, CRMs, standards, gases and equipment accessories) purchased	i) Contract for supply of standards for the AAS, ICP-OES, Ion chromatography; certified reference materials for the carbon sulfur analyzer and XRF; and chemicals and reagents by M/s. Creative Laboratory Uganda Limited worth UGX 985,245,000 is underway. ii) Local purchase order was issued to M/s. LabX and it supplied acids under contract of ref. no. MEMD/SUPLS/2023-2024/00029. iii) Conducted a market survey of laboratory gases to inform the procurement of laboratory gases where the bid price was higher than the estimate. Following the survey, the market price was found to be higher than the estimate of UGX 100 million by UGX 5 M to UGX 17 M. However, the procurement was not concluded

Four (4) Temperature Gradient Holes (TGH) drilled at Kibiro Geothermal Prospect and surface studies completed.	Two (2) temperature gradient holes (TGH) drilled at Panyimur geothermal prospect from the 28th of July to the 6th of August 2024. The National Environment Management Authority conducted public consultations in Hoima District on the 25th to the 26th of July 2024. The siting and designing of the four (4) TGHs to be drilled at Kibiro Geothermal Prospect were commenced. Letters of no-objection acquired from Hoima District and the Bunyoro Kingdom. Stakeholder engagement (kibiro local community and the Bunyoro Kitara Kingdom) undertaken. Conceptual model for Panyimur geothermal prospect presented by Dr. Peter Omenda (Consultant) to the GRD staff on 13th June 2025. Shallow temperature surveys around Kabuga geothermal site (Kasese) undertaken.	
Twenty four (24) Temperature Gradient Holes (TGH) at Kibiro and Panyimur geothermal prospects logged.	Sixteen (16) drilled TGH were successfully logged using a data logger (HOBO U12) and water level temperature meter(Solinst WLT 201) at Panyimur and Kibiro geothermal prospects. Handover of temporarily used land during the drilling of TGH at panyimur to the original land owners undertaken. Geothermal hosting communities in Hoima and Pakwach sensitization about national and local content undertaken.

Prefeasibility study for the Karungu geothermal area for direct uses conducted.	Stakeholders' consultations were conducted within the Karungu Geothermal area in Rubanda District. Geochemical and hydrological studies were also conducted at Okidi geothermal area in Amuru District. Karungu geochemical results processed and interpreted. GRMF-African Union Commission HEAT Application re-submitted and accepted. Karungu geological mapping report was also produced. Geophysical survey using the Magnetic method was conducted at the Okidi Geothermal prospect from 5th to 20th May 2025. Geological mapping of the Okidi geothermal site undertaken.
A comprehensive geothermal information system developed.	Procurement of a supplier/consultant to develop the geothermal database management system done. Development of the Geochemical Schema of the geothermal database done. Drafting of the Geothermal Development Plan is ongoing. 11th International Conference of the African Association of Women in Geoscience Conference participated in.
Environmental and Social Impact Assessment (ESIA) for drilling of exploration wells at Kibiro and TGH at Karungu completed.	The National Environment Management Authority (NEMA) conducted public/community consultations in Hoima District on the 25th to the 26th of July 2024, prior to NEMA approval. Letter of no objection obtained from Hoima District and the Bunyoro Kitara Kingdom. An addendum including maps showing the proposed drilling area, drilling camp location and the demarcation of salt gardens at Kibiro was submitted to NEMA as requested.
Geothermal licensed areas inspected and monitored.	Buranga and Panyigoro geothermal areas were inspected and monitored. M/s Yavuz Investment Limited geothermal exploration license for Kibiro area granted.

100% mineral license applications received reviewed. Due diligence and Surface right verification on 100% mineral rights and mining license applications received undertaken. 1,500 Stakeholders sensitized on licensing requirements.	163 Mineral Dealers' Licences (MDL), 12 Goldsmith Licences (GSL),132 Prospecting Licences (PL), 155 Exploration Licences,,04 Small Scale Mining Licence, 07 Medium Scale Mining Licences, 02 Mineral Refining Licences 01 Mineral Processing Licenses, 01 Blasting certificate and 06 ICGLR certificates were granted. 1884 Stakeholders sensitized on licensing requirements at the Arua ASM workshop and during inspections. PMPU leaders, District leaders across the country sensitized on the licensing requirements and legal framework.
2,000 male and 1,000 female ASMs sensitized and trained on best-practice mining, climate change mitigation measures, climate change adaptation, and mainstreaming cross-cutting issues (gender and equity; EITI; HSE; prevention of HIV/AIDS, etc.)	2366 male and 851 female Artisanal and Small Scale Miners sensitized and trained on best-practice mining, climate change mitigation measures, climate change adaptation, and mainstreaming cross-cutting issues (gender and equity; EITI; HSE; prevention of HIV/AIDS, etc during ASM workshops, inspections and sensitization.
Personal Protective Equipment (PPEs) procured for 20 staff. 1 staff trained in mining specialized course and in-house training conducted. 20 staff trained on cross-cutting issues i.e. EITI, HSE, gender & equal opportunities mainstreaming, and HIV/AIDS.	Personal Protective Equipment (PPEs) were distributed to 30 staff of the Mines Department. 29 staff trained on cross-cutting issues i.e. EITI, HSE, gender & equal opportunities mainstreaming, and HIV/AIDS. One staff is currently undertaking a PHD in Exerter University. 30 staff were trained in gender mainstreaming
The (1) National Mining Cadastre and Registry System (MCRS) updated and maintained.	The National Mining Cadastre and Registry System (MCRS) updated and maintained. a total of Two hundred and twenty one (221) online users were registered on the system
Mineral smuggling and money laundering controlled through senistizing 1,000 miners and mineral license holders. 100% active mineral rights performance reviewed & Non- compliance notices issued. 80% of defaulters published.	2759 miners and mineral dealer license holders sensitized in West Nile and during inspections and ASM registration on mineral smuggling and money laundering controlled. 41 Non- compliance notices issued. 100% of defaulters published newspaper.
Two (2) Regulations to enforce the Mining and Minerals Act, 2022 developed for the mineral sector. two (2) workshops for creating awareness on mining legislation, and mainstreaming cross-cutting issues (EITI, gender, equal opportunities, HIV/ AIDS, etc).	Consultations made at 2 workshops (Arua and Entebbe) on ASM regulations and the Building substance bill. Regulation was gazetted and it is operational. Drafting of the National Content Regulations to help enforce the Mining and Minerals Act, 2022 commenced . One Workshop organized to sensitize PMPU officers on the legal regime and gender mainstreaming
Monthly mineral statistics compiled and disseminated on a quarterly basis(data on investment into mineral sector, value and volume of steel, fertilizer and other mineral imports and exports) .	Mineral production statistics for different minerals were compiled monthly and disseminated to UBOS and other stakeholders
Collaboration with at least two (2) international organizations strengthened.	The department continued in its collaboration with ICGLR Secretariat in efforts of mineral certification. Staff undertook training in database management

Project:1542 Airborne Geophysical Survey and Geological Mapping of Karamoja

Budget Output:060003 Mineral exploration and development

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1542 Airborne Geophysical Survey and Geological Mapping of Karamoja	
PIAP Output: 02020301 Mineral reserves established	
Programme Intervention: 020203 Undertake a detailed exploration and quantification of minerals and geothermal resources in the country	
Discovered mineral targets National maps and mineral target reports	The Karamoja region and Lamwo surveys were completed and data grid of 20% added to data grid of 80% to make 100% national coverage of magnetic and radiometric data sets. The National Maps (Geophysical maps on magnetic field for magnetic minerals, radiometric maps for energy radiation minerals) were completed and compiled. The national gravity map for heavy minerals and electromagnetic map for electrical minerals are were completed with data gaps of 80% and new project for gravimetric and electromagnetic surveys to fill the 80% data gap was submitted to the MoFPED. The Aerial Surveys of Karamoja region and Lamwo (magnetic, radiometric, gravity and electromagnetic data) is 100% completed. All the data sets (geophysical geological and geochemical) have been verified in the databases and field maps approved by Quality controller and client.
Data analysis and interpretation completed	All the geological, geophysical, geochemical and natural resource base maps of Karamoja and Lamwo developed and data integrated and mineral targets identified. All the mineral targets identified in Lamwo and Karamoja region complied in mineral prospectively maps. All the atlases are updated in the database at the Ministry of Energy and Mineral Development. All the maps and atlases reviewed and were edited for final production approved and atlases complied. All geochemical statistically significant elements maps have been compiled to enable further exploitation and development in all the project zones in Karamoja region and Lamwo.
Geochemical and geological sample preparation for analysis, EM survey data interpretation Reports and maps Mineral assessment reports on targets	Geophysical Atlas of Karamoja Geophysical Atlas of Lamwo Geological Atlas of Karamoja Geological Atlas of Lamwo Geochemical Atlas of Karamoja Geochemical Atlas of Lamwo National Geophysical Map of Uganda Geological Survey Strategy of Uganda

Project:1542 Airborne Geophysical Survey and Geological Mapping of Karamoja	
PIAP Output: 02020301 Mineral reserves established	
Programme Intervention: 020203 Undertake a detailed exploration and quantification of minerals and geothermal resources in the country	
Geochemical and geological sample preparation for analysis, EM survey data interpretation Reports and maps Mineral assessment reports on targets	Geological Survey Strategy of Uganda developed to support mineral resources assessment. This project was approved by the Government of Uganda in the year 2019/20. The financing arrangement between the Government of Uganda and that of Spain was concluded by signing agreements on 8th April, 2020, and the effective date of disbursement was 29th, June 2020. Due to Covid-19 pandemic, the counterpart payment of 15% approved under financing agreements was not release to pay counterpart until 2021. Therefore, the project commencement date eventually became effective on 21st April 2021. From the project effective the commencement date above to date, this report accounts for the project progress and challenges. The project objective is to complete the remaining 20% of the Country that is Karamoja Region and Lamwo to add to 80% of the Country which had been completed between 2004 and 2014. The project achievements completed acquisition processing and interpretation and compiled atlases

Project:1773 Mineral Regulation Infrastructure Project

Budget Output:060006 Mining Management

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1773 Mineral Regulation Infrastructure Project	
PIAP Output: 02050901 Safe working conditions in the mining industry and a protected environment	
Programme Intervention: 020509 Strengthen capacity to monitor, inspect and enforce health, safety and environmental provisions;	
Land for the installation of 2 weigh bridges procured	Procurement of Napak Land completed. Awaiting re-evalaution report of Bulambuli land from the CGV before payment
Ntungamo and Fort Portal Mineral beneficiation centers equipped with essential machinery and equipment, staffed and operationalised	Continued care and maintenance of Ntungamo and Fort Portal Mineral beneficiation centers as we await availability of funds for supplier to deliver the assorted mineral beneficiation equipment. ASMs in Isingiro and Ntungamo were sensitized on mineral beneficiation
Geotechnical studies and design of 4 weigh bridge installation sites undertaken	Geotechnical studies and design of the Busia Beneficiation site supervised and monitored. Geotechnical studies and design and Terms of Reference for the installation of weigh bridges in Bulambuli and Napak were completed as we await availability of funds for Installation next financial year
Specialized section vans with finger printing and GPS technology procured	Three (3) inspection vans were supplied and are to aid in inspection and monitoring operations of the mineral sector. Training continued in mineral traceability for inspectors and other stakeholders
Contractor to undertake civil works for the databank for mineral statistics procured	Designs for the databank were submitted to the Entebbe Municipal Council for approval as we await availability of funds to commence construction
Contract Staff for the Mineral Regulation Infrastructure Project recruited	The project had recruited a number of staff; inspectors of mines, Mining Lawyer, Accountant, Procurement officer, National Content Officer, IT officer, Chemist. Most of these have been absorbed under P&P Recruitment process for replacements and more staff is ongoing e.g. inspectors of mines, weighbridge attendants, drivers, etc.

Cumulative Expenditures made by the End of the Quarter to Deliver Cumulative Outputs *UShs Thousand*

Project:1833 Support Uganda Mineral-based Industrialisation Project (SUMIP)

Budget Output:060003 Mineral exploration and development

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1833 Support Uganda Mineral-based Industrialisation Project (SUMIP)	
PIAP Output: 02020301 Mineral reserves established	
Programme Intervention: 020203 Undertake a detailed exploration and quantification of minerals and geothermal resources in the country	
Geochemical survey equipment procured and 25% of regional geochemical data acquired	procured sample storage container 40 m long for sample storage !0, 0000 sample bags, 20 back packs, 10 color chats, 5 gold panning kits, 10 shovels, 20 plastic storage boxes, 50 portable XRF film, 2 sealing machines 20 Geologic hammer 10 Digital camera 10 Handheld Geographical Positioning System (GPS) 50 Geological note books 20 Geologic compass 5 Geologic sledge hammer 20 Measuring tapes (5m) 5 Measuring tapes (150m) 20 Geological handlenses 20 Geological Magnetic pen secured by bank payment guarantee and part of sample bags already delivered
Geochemical survey equipment procured and 25% of regional geochemical data acquired	Sensitisation for geochemical survey of sheets 59/1, 59/2/, 59/4, 60/1 and 60/2 conducted. Geochemical survey of sheets 59/1 Geochemical survey of sheets 59/2 Geochemical survey of sheets 59/4 Geochemical survey of sheets 60/2 conducted Preparation of samples from trenching and pitting in Boma and Lwensakala uranium prospects. Analysis of samples
EPC procured Sample preparation equipment procured	procured a contractor(ministry of works) to carry out site investigations and design sample storage facility. produced preliminary designs of structure.
High resolution and detailed geological, geochemical and geophysical exploration data of anomalies for mineral targets acquired	specifications for geological and geochemical soft ware prepared awaiting availability of funds
High resolution and detailed geological, geochemical and geophysical exploration data of anomalies for mineral targets acquired	specifications for geophysics soft ware and field equipment prepared awaiting availability of funds.

VOTE: 017 Ministry of Energy and Mineral Development

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1833 Support Uganda Mineral-based Industrialisation Project (SUMIP)	
PIAP Output: 02020301 Mineral reserves established	
Programme Intervention: 020203 Undertake a detailed exploration and quantification of minerals and geothermal resources in the country	
Mineral deposits evaluated (quantified), classified and promoted	Q2 1. Detailed geological prospecting and geochemical survey of Kirwa wolfram mine. 2. Reconnaissance prospecting of Manganese deposits in Kyenjojo District. 3. Reconnaissance investigations of uranium prospects. 4. Geophysics survey of Nyaituma iron ore in Hoima. 5. Collecting environmental baseline data for Kilwa. 6. Update of mineral occurrence map by Geodata Division. Q3 4. Geological mapping of Mugabuzi iron ore prospect 5. Sorting of samples under the project 6. Gravity survey for Ferro-Manganese anomaly in Rubona Fortportal 7. Geoscientific data compilation and integration to produce base maps Q4 6. Radiometric and Magnetic Survey for Uranium exploration to be conducted in Rugyeyo Sub-county, Kanungu District 7. Sorting of geochemical samples under SUMIP 8. Detailed Geological mapping of Katara uranium prospect 9. Geoscientific database for uranium targets in Uganda. 10. Radiometric and Magnetic Survey for Uranium exploration to in Rugyeyo Sub-county, Kanungu District
State-of-the-art national geological specimen repository constructed	
Bank of Certified Reference Materials (CRMs) for different mineral matrixes and geological materials of the country established	collected a total of 10 samples from sheets for certified reference materials prepared the samples for analysis by different analytical methods and laboratories.
Capacity building undertaken in specialized fields of Geosciences and specimen management	Q2 1. Training geochemistry team in geochemical sampling techniques in Kiboga 2. Training geology team in Geological prospecting in Kiboga. 3. Training geophysics team in calibration of spectrometers. 4. Training in documentation in the laboratory necessary for ISO certification. Q3 5. Training of staff in field preparation and report writing Q4 6. Training technical staff in GIS to enhance data collection, integration and interpretation. 7. Training on performance management for staff under SUMIP

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
PIAP Output: 03060501 Conflicting policies, laws and regulations harmonized	
Programme Intervention: 030605 Review, update relevant policies, and harmonize conflicting laws and regulations;	
1. Review, update and formulate laws, regulations, policy, strategy and guidelines. 1.1) National Petroleum Policy (NPP) development Completed. 1.2) NPP Implementation Plan developed. 1.3) NPP M&E framework developed.	i) No stakeholder consultative engagements on the draft NPP were conducted during the quarter. ii) The final draft of the National Petroleum Policy was compiled and submitted to the Cabinet Secretariat and the Ministry of Finance, Planning, and Economic Development.
1.4) NPP Strategic Environment Assessment Conducted. 1.5) Petroleum (Exploration, Development and Production) Act, 2013 Updated. 1.6) Decommissioning and Fiscal Metering regulations developed. 1.7) Decommissioning strategy implemented and monitored	The Strategic Environmental Assessment was finalized.
1.8) Ten (10) standards and codes for upstream petroleum developed. 1.9) Implementation of Decommissioning and Fiscal Metering regulations Monitored.	i) The department continued participating with the Uganda National Bureau of Standards (UNBS) TC118 committee on metering to further discuss ISO standards for Upstream Petroleum during the quarter. ii) Training suppliers on the various standards and codes for upstream petroleum to be conducted once the development of the standards and codes has been finalized.
2. Undertake licensing rounds and award licenses to the successful bidders 2.1) Speculative surveys' Promotional Framework developed . 2.2) Petroleum Data packaged and attendant data sales regulations prepared for the 3rd - Licensing Round.	i) The development of the speculative surveys promotional framework was deferred to a later time. ii) The department prepared comprehensive data packages for the areas which are not licensed. These areas, including the data packages were promoted to investors some of whom had been at the 11th East African Petroleum Conference and Exhibition 2025 (EAPCE25) in Tanzania. The 3rd Licensing round announcement is earmarked during Quarter 3 of FY2025/26. iii) The Department’s Nominee to the Steering Committee of the 11th EAPCE participated in the wrap-up and final meeting of the 11th EAPCE from 16th to 18th June 2025 in Dar es Salaam, Tanzania

VOTE: 017 Ministry of Energy and Mineral Development

PIAP Output: 03060501 Conflicting policies, laws and regulations harmonized	
Programme Intervention: 030605 Review, update relevant policies, and harmonize conflicting laws and regulations;	
2.3) Preparations for the 11th East African Petroleum Conference (EAPCE 25) undertaken. 2.4) Access of Petroleum investment information by Investors Enhanced. 2.5) Promotion of the country's petroleum potential in international conferences undertaken.	i) The department represented the Ministry at the Uganda - Malaysia Business Forum held in Kuala Lumpur, Malaysia where oil and gas investment opportunities in Uganda were showcased to potential investors. The Department also participated at the inaugural National Science Summit (NSS), which took place from 15th to 20th June 2025 at the Kololo Ceremonial Grounds. ii) The Department represented the Ministry at the 8th Edition of the Africa Energies Summit from the 13th to 15th May 2025 in London, United Kingdom. Promotional materials including a presentation on investment opportunities in Uganda’s oil and gas sector were presented to investors. In addition, the Department had a one-to-one engagement with 10 potential investors where opportunities within the sector was presented during the quarter.

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
PIAP Output: 03030201 Upstream facilities for Tilenga and Kingfisher projects constructed	
Programme Intervention: 030302 Construct the Central Processing Facilities (CPFs) for Tilenga and Kingfisher projects;	
3. Supervision of Tilenga and Kingfisher projects . 3.1) Development of Kingfisher and Tilenga projects supervised. 3.2) 05% of the remaining Kingfisher and Tilenga projects (RAP, Development and Production activities) supervised.	i) Participated in well-site geological analysis in Tilenga and Kingfisher where drill cuttings from the development wells were analysed to assess reservoir quality. Ten reports were produced and submitted. ii) Re-assessment of the economic values of the Tilenga and Kingfisher reservoirs was not undertaken. iii) The final draft of the Annual Resources Report for 2024 was compiled and submitted . iv) Packaging of the acquired data on the upside fields was postponed. v) The Department continued participating in Resettlement Action Plan (RAP) implementation activities for the Tilenga project. vi) Continued reviewing CNOOC’s proposal for new data acquisition strategy aimed at de-risking the northern extension of KFDA North. vii) The department continued to attach technical officers to the Kingfisher and Tilenga project operations to build capacity in Central Processing Facilities, Development drilling of wells, waste management and general infrastructure development activities.
3.3) First Oil developments in the Kingfisher and Tilenga projects monitored. 3.4) 08 Field development Reports pertaining to Tilenga and KFDA reviewed and the relevant aspects updated.	i) A representative from the Department represented the Minister at a panel discussion at the 8th Edition of the Africa Energies Summit where the country’s hydrocarbon potential was showcased. ii) Held two meetings regarding the proposed drilling sequence in the Tilenga project operated by TotalEnergies EP Uganda Ltd which was requested to submit the revised Field Development Plans.
3.2) Stakeholder engagements undertaken.	i) The Ministry continued social and mainstream media engagements updating the public on the developments in the oil and gas sector through its various platforms. ii)The Department coordinated a field visit for the Petroleum Upstream Regulatory Authority (PURA) and the Zanzibar Petroleum Regulatory Authority (ZPRA) to the Albertine Graben from 18th to 20th June 2025.

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
PIAP Output: 03030201 Upstream facilities for Tilenga and Kingfisher projects constructed	
Programme Intervention: 030302 Construct the Central Processing Facilities (CPFs) for Tilenga and Kingfisher projects;	
4. Implementation of the National Content Policy. 4.1) Local Content Development Fund Act developed.	i)The Department engaged players in the oil and gas operational areas, including UPIK, North of Nile – Tangi camp, Tilenga Project Areas, Bugungu Camp, The Assessment and Skill Center (Hoima), Luwero Industry Waste Management, Kingfisher and EACOP project areas from 25th to 30th May 2025. The Department further participated in the Supplier engagement workshop to discuss the sustainable partnership and collaboration with local suppliers in Uganda's Oil and Gas sector. ii)Continued to coordinate and participate in the formulation of the Local Content Development Fund for the Oil and Gas sector. The principles for the enactment of the Local Content Development Fund were approved by the Cabinet Secretariat. The draft Bill is currently pending at the office of the Attorney General, awaiting presentation to the First Parliamentary Council for approval.
4.2) Two international oil and gas accreditations localised.	i) The survey of potential local partners in accreditation has been postponed till after international accreditation bodies have been engaged. ii) Launching of domiciled accreditation bodies was postponed pending engagement with international accreditation bodies.
4.3) Value addition and marketing strategy for goods and services developed	i) The department invited bids for the procurement of consultancy services for the development of the value addition and marketing strategy for goods and services in the oil and gas sector during the quarter. However, no service providers responded to the invitation. ii) Media engagements on awareness for the value addition strategy for goods and services to be undertaken after the consultant has developed the strategy.
4.4) Workforce skills development strategy and plan updated.	NA
4.5) Agricultural development strategy of farmers along the EACOP developed. 4.6) Transfer and operationalization of the Industrial Enhancement Centre to Government undertaken.	i)Activities towards the development of the Agricultural Development Strategy were postponed pending the procurement of the consultant.

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1611 Petroleum Exploration and Promotion of Frontier Basins	
PIAP Output: 03030501 New exploration activities undertaken	
Programme Intervention: 030305 Undertake further exploration and ventures of the Albertine Graben	
1. GGG Data Acquisition in Frontier Basins. 1.1) Complete data acquisition in the Moroto-Kadam basin;. (100 line km of geophysical data and 100 sq. km of geological mapping).	i) Data acquisition in the Moroto -Kadam basin to be continued during the next Financial Year 2025/26 pending improvement of security in the area. ii) Procurement of specialized upstream laboratory equipment was postponed due to insufficient funds. iii) Basic maintenance of specialized upstream laboratory equipment was undertaken. iv) All Upstream field vehicles were well serviced and maintained. v) Sensitizations on petroleum exploration in Moroto Kadam were undertaken. vi) Implementation of the Moroto – Kadam SEA recommendations were postponed. vii) Procurement of specialized upstream ICT software was not undertaken pending harmonization with Schlumberger on a few outstanding issues. viii) Eight desktop computers and six laptops were procured. ix) All technical staff in the department were retained. One staff member continued to undertake long-term training leading to the acquisition of a Masters degree in Petroleum Geoscience at Aberdeen University.
1.4) Static, Dynamic, and economic models for three (3) fields under Tilenga and one (1) field under Kingfisher development projects updated.	i) The Department held two meetings regarding the proposed drilling sequence in the Tilenga project operated by TotalEnergies EP Uganda Ltd which was requested to submit the revised Field Development Plans. ii) The Department responded to data request for actuals and projections of Non-Tax Revenues to be used in the compilation of the Semi-Annual Financial Statement of the Petroleum Fund using data from the updated Petroleum Sector Economic Model.

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1611 Petroleum Exploration and Promotion of Frontier Basins	
PIAP Output: 03030501 New exploration activities undertaken	
Programme Intervention: 030305 Undertake further exploration and ventures of the Albertine Graben	
1.2) Commence data acquisition in Lake Kyoga basin; (100 line km of geophysical data plus 100 sq. km of geological mapping). 1.3) Ten (10) field development Reports and the relevant aspects updated.	i) The Department continued undertaking desktop studies on the Geological, Geophysical and Geochemical studies of the Kyoga basin. The department also undertook detailed geological, geochemical and geophysical surveys in the Kyoga basin as part of the efforts to establish the basin's hydrocarbon potential. 133 -line kms of geophysical data and 120 sq-km of geological and geochemical data were acquired. ii) Installation of specialized upstream laboratory equipment was not undertaken as their procurement is yet to be done. iii) The Department continued with pre-survey engagements with communities in the unexplored part of the Kyoga basin. iv) All off-road vehicles were serviced and well maintained. The Department also procured two (02) specialised field vehicles. v) Procurement of motorvehicle replacement tyres was centralized. vi)Procurement of specialized upstream ICT software such as Petrel was not undertaken pending harmonization Schlumberger.
2. Undertake basin Analysis and resource assessment. 2.1) Basin analysis and petroleum systems modeling and characterization undertaken. 2.2) The country Annual Petroleum Resource compiled. 2.3) Reviewed 10 Updated FDPs , PRRs and RMPs	i) The Department continued to undertake Geochemical analyses and evaluations of source rock analysis of the Lake Edward - George Basin. Currently, over 60 suspected source rock samples from the Ngaji and Kanywataba have been analyzed using the HAWK analyzer as part of screening analyses to guide on the further analyses to be undertaken. The outcome will be core in the promotion of the basin to potential investors so that further exploration can be undertaken in the basin to discover hydrocarbon accumulations. ii) The field excursion to the Lake Edward – George Basin was postponed. iv) The Department compiled and submitted the final Annual Resources Report for the Calendar Year 2024 to top management for approval.

SubProgramme:02 Midstream

Sub SubProgramme:04 Petroleum Exploration, Development, Production, Value Addition and Distribution and Petroleum Products

Departments

Department:004 Midstream Petroleum Department

Budget Output:000039 Policies, Regulations and Standards

PIAP Output: 03060101 EITI Medium term workplan implemented

Programme Intervention: 030601 Complete the relevant oil and gas project commercial agreements

Policy and regulatory framework for midstream strengthened through development of; Regulations, Policies, Standards and codes	Final validation workshop on the Tariff, Metering and Decommissioning Regulations held with key stakeholders in relevant MDAs and in the industry from 14th - 18th April 2025. Final internal drafting is ongoing in preparation for gazettement within Q1 of FY 2025/26. Amendment of the midstream General Regulation on the minimum storage capacity for midstream facilities finalized. The flexibility was incorporated for purposes of investment promotion. Amendment of the Midstream Act to include the form for application of approval of a transfer of interest in a Midstream licence finalized.

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
PIAP Output: 03060101 EITI Medium term workplan implemented	
Programme Intervention: 030601 Complete the relevant oil and gas project commercial agreements	
Midstream projects monitored and progress reports for quarterly, mid-year, and annual performance produced.	Midstream Projects that include; the products pipeline, the EACOP, the Refinery, the TZ-UG products pipeline and the TZ-UG natural gas pipeline monitored and reports produced.
Applications for licenses for midstream petroleum operations reviewed and issued in accordance with the law. Supervision of activities of midstream licensees undertaken in accordance with the law.	Continued to finalize the development of the legal framework for LPG as part of the fulfilment of the condition (i) of the licence issued to CNOOC for the construction of the KFDA gas conversion facility. The completion of this framework will also facilitate the conclusion of licensing of TEPU for the construction of the Tilenga LPG gas conversion facility.

PIAP Output: 08030201 Approvals for construction of a nuclear power plant finalized	
Programme Intervention: 080302 Seek approvals for construction of a nuclear power generation plant	
Atomic Energy Bill finalized.	-Technical consultations within the Ministry of Justice and Constitutional Affairs and other stakeholders conducted. -A cabinet paper to support the Bill submission developed and ready. -Internal stakeholder meeting with the Atomic Energy Council concluded.
Project Affected Persons (PAPs) for Buyende Nuclear Power Project engaged.	- Over 340 PAPs engaged in the 18 affected villages.
Contribution to IAEA and AFRA made	Funds for IAEA and AFRA transferred.
IAEA Technical Cooperation Programme Implemented.	- Five (5) IAEA projects supported and monitored under the current CPF project cycle periods. - Fifteen (10) from different MDAs supported to undertake short and long term professional technical training courses under the IAEA platform.
Nuclear fuel resources exploration and evaluation undertaken.	- Consultations on the establishment of the National Nuclear Fuel Resources Analytical Laboratory were undertaken at Government Analytical Laboratory, UNBS, MoWT, UIRI, Kyambogo University, Busitema University, Busoga University and Mbarara University of Science and Technology. - Reconnaissance exploration through the Rwenzori terrane in Southwestern Uganda during the IAEA Expert Mission on Uranium System Prospectivity Analysis for Uganda was conducted from 14th – 22nd February 2025. Six (06) Uranium occurrences were identified. - Nuclear fuel supply strategy implemented and disseminated.
Feasibility studies and ESIA for Center for Nuclear Science and Technology (CNST) undertaken.	- The CNST project inception report, developed, reviewed and approved. - Kick off technical meetings with INVAP and the subcontractors conducted in Soroti University. - Functional Specifications Document for the CNST project complex developed and reviewed. - The CNST complex strategic plan developed and reviewed. - Subcontractors to support INVAP undertake the Site Evaluation Activities for the CNST project site onboarded and commenced. - Detail technical design studies for the project commenced.
Prefeasibility studies for gamma irradiator facility undertaken.	- Data collected and Project concept and Profile for the Gamma Irradiator Facility project prepared and presented to Ministry of Finance Development Committee. - Procurement for the prefeasibility studies for the GIF project commenced.
Preparation of a local content strategy for the nuclear industry completed.	- Human resource development plan for nuclear power plants prepared. - TORs for preparing a national database of potential industrial players in the nuclear industry prepared. - Benchmarking visit to Hoima oil fields conducted.
Preliminary activities for establishment of a Centralized Spent Fuel and Radioactive Waste Management Facility undertaken.	- Geological assessment of the potential site for the National Centralized Radioactive Waste Management Facilities in Buyende District undertaken and the siting report updated

Project RAP Study updated and review of technical designed finalized	• The project was to be implemented using the EPC+ F financing model with QG-Konstruktion AB as the contractor and financing from Swedish Export Credit Agency. The project is currently delayed at the procurement stage. • The commercial contract with the Developer (QGMI) was signed on 7th January 2022 and effectiveness was tagged to conclusion of the loan negotiations facilitated by the Developer. • The developer requested that a price adjustment clause be included and the contract price amended ahead of submission to cabinet and parliament for loan approval. • On 3rd May 2024, the Solicitor general agreed that the contractor is entitled to a price adjustment and requested UETCL to ascertain the claim from the contractor on price increase and if found true, revert back to SG for further guidance given the absence of the price adjustment clause. • UETCL undertook the exercise and determined the contractor's price was unreasonable thus has written to MoFPED on 25th February 2025

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
AIA	0.000
SubProgramme:03 Renewable Energy Development	
Sub SubProgramme:02 Energy Planning, Management & Infrastructure Dev't	
Departments	
Department:004 Renewable Energy Department	
Budget Output:240010 Renewable Energy Technology Development	
PIAP Output: 08020501 Increased deployment of new renewable energy solutions	
Programme Intervention: 080205 Promote use of new renewable energy solutions (solar water heating, solar drying, solar cookers, wind water pumping solutions, solar water pumping solutions)	
Solar street lighting promoted in the upcountry town councils	ninety One (91) Solar Street Lighting system installed and monitored in Mitiyana, Bugiri, Kumi, Alebtong,
4MW solar plant at Busitema operationalized	Steering committee meeting on the governance of the 4MW solar project at Busitema Held The operation of the 4MW solar project at Busitema was monitored
Ethanol for cooking promoted	• Outreach awareness campaigns on clean cooking held in the Nine (9) districts of Arua, Kabale Municipality, Ssembabule, Lira, Masindi, Mukono, Luwero, Nebbi and Kikuube;
Awareness created for the Renewable Energy Technologies	• Outreach awareness campaigns on clean cooking held in the Nine (9) districts of Arua, Kabale Municipality, Ssembabule, Lira, Masindi, Mukono, Luwero, Nebbi and Kikuube;
Demonstrational Renewable Energy systems established including (Biogas, Cookstoves and solar systems)	• 65 tubular bio digester installed, monitored and assessed. • Construction of twin Demonstration Improved Institutional Cook Stoves in 10 selected schools. The sites included, Rwantsinga High School Mbarara District, Nyakasura School, Kabarole District, St. Michael High School Rugazi, Rubirizi District, Bukedi College, Kachonga Butaleja District, Mother Kevin Senior Secondary School Jinja City, Riverside College Tirinyi (RCT) Seed Secondary School Kibuku District, Luwero Senior Secondary School Luwero District, Bombo Army Senior Secondary School, Bulo Parents Senior Secondary School, Butambala District and St. Andrew Kaggwa's Senior Secondary School Luwero District.
Petrol blended with Biofuels at 1% blend	• Biofuels Program Rollout - Stakeholder Engagement For Production And Blending Readiness.
Mini and Pico hydro resources developed	feasibility studies for Manafwa Mini Hydro (4.8 MW) in Manafwa, Kyenjoki Mini Hydro (3.5 MW) in Bundibugyo, Bujuku Pico Hydro (30 kW) in Kasese, and Namayiba Pico Hydro (10 kW) in Mbale were completed or advanced. Two pico-hydro schemes—Bujuku and Namayiba—were piloted to support community-level productive use. Project development continues to be supported through public-private partnerships, concessional financing, and technical assistance from development partners including GET.FiT, UECCC, GIZ, EnDev, and ElectriFI.

VOTE: 017 Ministry of Energy and Mineral Development

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
PIAP Output: 08020501 Increased deployment of new renewable energy solutions	
Programme Intervention: 080205 Promote use of new renewable energy solutions (solar water heating, solar drying, solar cookers, wind water pumping solutions, solar water pumping solutions)	
Wind energy technologies promoted	• 5 (Five) hybrid solar/wind systems (2kw) for water pumping installed and monitored in Karamoja
Standards, guideline, strategies on renewable energy (solar PV, solar water heaters,bio energy technologies) technologies reviewed and updated	echnical standards for Solar PV systems have been reviewed by UNBS and MEMD, aligned with IEC and EAC standards. New installer certification and quality assurance schemes are under rollout. Solar water heating standards have been reviewed and aligned with new building codes under development. A strategy to integrate SWH in public infrastructure is ongoing. The Biomass Energy Strategy is under review, with new standards for biofuels and clean cooking technologies being adopted. The draft National Clean Cooking Strategy (2023) has been updated to include performance testing, certification, and market incentives.
A frame work for net metering operationalized	senstisation conducted and monitor the works and performance for the company issued with a liecence as well as the exsiting net metering systems
Market-Based Promotion of Productive Use Renewable Energy Systems in Uganda	a strategy for promotion of productive use of solar energy in Uganda was developed and Support communities with potential for grow with demonstration solar systems was done
Capacity building conducted for Renewable Energy	• 275 electricians trained in repair and maintenance of electric cooking solutions (electric pressure cookers, induction cookers and infrared cookers
Monitoring of the performance of the installed Renewable Energy systems supported by the Ministry and other actors	• Monitoring And Consultative Engagements On Operation And Maintenance Of Waste To Energy Equipment In Cities Of Jinja, Kcca And Mukono Municipal Council
Research and development in the new emerging renewable technologies conducted	MEMD conducted benchmarking activities on green hydrogen, biofuels, ethanol for cooking, and emerging renewable energy technologies in collaboration with Makerere University, UNDP, Clean Cooking Alliance, NARO, and other regional and international institutions. Site visits, regional study tours, and technical exchanges were conducted in South Africa, Kenya, Tanzania, and virtually with Brazil. The activities informed the development of a draft Green Hydrogen Roadmap, a biofuels infrastructure development framework, and ethanol fuel standard recommendations. Field assessments for ethanol cooking adoption were also completed in Mukono and Jinja, supporting clean cooking policy integration.

Minimum Energy Performance Standards for selected appliances enforced.	Concluded engagement with the Uganda National Bureau of Standards (UNBS) on the development of Minimum Energy Performance Standards (MEPS) for Electric Vehicle Supply Equipment (EVSE), Personal Computers, Televisions, Electric Fans and Distribution Transformers. In this regard, relevant standards pertaining to each proposed MEPS have been identified and assigned to the relevant technical committees.
Adoption of Energy Efficient cooking technologies promoted.	Consultations undertaken in collaboration with UNBS as the development of MEPS for Electric cooking appliances progressed. Final draft standards for Electric cooking appliances, including standards for Electric Pressure Cookers (EPCs), Electromagnetic Induction cookers and infrared cookers are in place.
1. Adoption of energy efficient technologies among the different energy consuming sectors of the economy promoted.	- Preparations for Energy and Minerals Week 2025 initiated with documentation of concept. - Appraisal of energy efficiency measures for eight public institutions and three industrial parks undertaken. - Certified Energy Manager Training conducted at Forest cottages Bukoto on 23rd - 27th June 2025, and evaluation of Certified Energy Manager Training conducted.
Electric mobility promoted.	Tailored training on electric mobility conducted from June 4-5 at Four Points by Sheraton. The training covered Introduction to EVs, Battery as core component, Energy System Impact, and Regulation & Case Studies. This training was part of the process of developing a regulatory framework for EV charging for Uganda. The Department also disseminated information about EV charging during the National Science Week from June 15 – 20, 2025 at Kololo Independence Grounds through exhibition.

Quarter 4

Performance highlights for the Quarter

The approved budget of the Ministry under GoU funding for FY2024/2025 is Shs208.859Billion. By end Q4, the Ministry realized a total release of Shs222.351Billion representing 106.5% of its approved Budget. Further, the Ministry spent a total Shs219.970Billion by end Q4 representing 98.9% of the release. Additionally, the key performance achieved in the FY are as follows:
-Regular and predicable Social Assistance Grants for Empowerment provided to 297,724 Senior Citizens.
-1,495 workplaces registered in line with OSH Act, 2006. Shs1.583Bn collected in NTR.
-1,113 statutory equipment inspected in line with the requirement of OSH Act, 2006. Shs0.605Bn generated in NTR.
-International Women's Day 2025 commemorated on 8th March at Bukwiri Church of Uganda Primary School, Butemba Town Council, Kyakwanzi District under the theme: "Accelerate Action for Gender Equality". The national celebrations were presided over by H.E the President of the Republic of Uganda, Gen. Yoweri Kaguta Museveni.
-1,640 women enterprises funded benefitting 11,796 women across the country.
-546 youth enterprises funded benefitting 3,964 youth across the country.
-3,305 children in conflict with law in Remand Homes and children in rehabilitation centre and children abandoned/lost in reception centre provided food and non-food items.
-556 youth provided with non formal vocational, entrepreneurial and life skills and SRH at Youth Skills Centres.
-1,317 Persons with Disabilities enterprises funded benefitting 8,170 Persons with Disabilities across the country.
-590 Older Persons enterprises funded benefiting 3,501 Older Persons countrywide.
-167 External Recruitment Agencies inspected on compliance with safe labour migration standards.
-71 Jua kali groups provided with 1,182 business toolkits and equipment in
31 LGs.
-280 workplaces inspected and investigated on compliance with labour laws
and standards in 42 LGs.
-335 cases of Labour disputes disposed of at the Industrial Court to reduce
case backlog

Variances and Challenges

The Ministry not withstanding the key achievements registered, a number of challenges during the quarter are as follows;
i. Limited prioritizing of social issues in programming.
ii. Limited coverage of Social Protection: Most of the social protection interventions cover only the formal sector, thereby, leaving out the informal sector.
iii. Dilapidated Community infrastructure and Equipment (rural training centers, community learning centers, and obsolete broadcasting equipment) to support the sensitization, empowerment and training of citizens for increased demand and uptake of government services.
iv. Unilateral/Blanket Policy on Budget cuts and suppression of seemingly “consumptive items”.
v. Overwhelming demand for the existing Government Programmes that supports the vulnerable groups (women, youth, elderly, Persons with Disabilities, children) amidst dwindling financing levels.
vi. Insufficient releases of funds that makes it difficult to realize planned outputs.
vii. Freeze on budgeting for Travel abroad, this hampered negotiation and signing of bi-lateral labour agreement for professional jobs.
viii. Limited prioritization of Community Mobilisation function, this service is heavily segmented across MDAs escalating duplication of efforts leading to poor service delivery at LG level.
ix. Weak juvenile justice system: The system for diversion of petty juvenile offenders from justice system is weak. As a result, the number of children in conflict and contact with the law is increasing leading to congestion and poor welfare services.

Table 4.3: Vote Crosscutting Issues

i) Gender and Equity

Objective:	To enhance prevention and response to Gender Based Violence in infrastructure projects
Issue of Concern:	1. Inadequate inclusion of Gender and equity issues in workplans and budgets, 2. Increased cases of Gender based violence
Planned Interventions:	Capacity building of stakeholders on GBV prevention and response measures
Budget Allocation (Billion):	0.030
Performance Indicators:	Number of MDAs/LG complying with Gender mainstreaming guidelines
Actual Expenditure By End Q4	0.03
Performance as of End of Q4	Capacity building of stakeholders on Gender Mainstreaming Guidelines conducted
Reasons for Variations	Target met

ii) HIV/AIDS

Objective:	To mainstream the National HIV Policy in workplaces
Issue of Concern:	Limited mainstreaming of the National HIV/AIDS Policy in the world of work
Planned Interventions:	1. Capacity building of stakeholders on mainstreaming the National HIV/AIDS Policy in the world of work 2. Promote Community-based mindset change & behavioral change strategies for HIV/AIDS awareness, prevention
Budget Allocation (Billion):	0.050
Performance Indicators:	Number of MDAs mainstreaming HIV/AIDS in the world of work
Actual Expenditure By End Q4	0.05
Performance as of End of Q4	i. Commemoration of the International AIDS Day conducted, ii. HIV/AIDS Committee operationalised, iii. Condoms procured and distributed, iv. Draft Workplace HIV/AIDs Policy developed.
Reasons for Variations	Target met

iii) Environment

Objective:	To enhance community protection of the environment for improved improved livelihood
Issue of Concern:	Environmental degradation by the communities
Planned Interventions:	In partnership with NEMA, Local Governments and other Civil Society Organizations, communities will be mobilized on sustainable use of natural resources and the environment shall be given prominence in our Community mobilization and empowerment programmes
Budget Allocation (Billion):	0.030
Performance Indicators:	Workplace kept in safe and clean environment
Actual Expenditure By End Q4	0.03
Performance as of End of Q4	0.03
Reasons for Variations	Green Skills needs assessment in the manufacturing and construction sector conducted in LGs

iv) Covid

Quarter 4

Performance highlights for the Quarter

Water for Production
Completed 224 solar powered irrigation Schemes. Kabuyanda dam at 21%. Kabuyanda off farm irrigation network at 22.7%. Completed of 23km distribution network, installation of pipe fittings,valves and construction of inspection chambers at Mabira dam. Completed rehabilitation of Kawomeri and Arechek dams. Kikoota surface water reservoir at 75%. Rehabilitation of Kyanamura Valley Tank at 10%. The medium Scale Irrigation scheme to 30%. Completed drilling 2 production wells in Nakaseke, Wakiso.
Rural Water Supply Sanitation
28 Solar Powered PWSSS completed in Kakumiro(6),Buyende(2),Rakai (2),Kyankwanzi(2),Buliisa(2),Mityana(2),Agago(4),Yumbe(2), Kaabong(2), Amudat(3), Bulambuli(1),Kagadi and Bitsya WSS at 80%, Nyamugasani GFS at 39% and 47% in 2 lots. Isingiro PWS 38.5%. refugee settlements Adjumani 14%, Yumbe 8.52, Lamwo 4%
Urban Water Supply and Sanitation
Construction of PWSS in Rhino Camp (89%), Arra/Dufile (96%), Palabek Kal (99%), Lamwo TC (99%), Lacekocot (98%) and Angangura (75%) and refugee settlements of Lobule (64.6%) and Boroli (62%). Construction of 4 institutional toilets in Arra/Dufile (93%) and Rhino Camp TC (48%). Construction of 3 blocks institutional toilets in Pajule Health Centre IV substantially complete (99%). Installation of 6 solar packages have substantially been completed in Loputuk- Moroto, Bubango, Ogyakal, Napumpum, Itojo, Rugaaga.
Natural Resources Environment Climate Change Land Water Management
5 Surface water stations (Nchwera, Aswa 1, Pager, and Pager, and Aswa DS) have been completed. 4,160 Water, wastewater and environmental samples analysed in NWQRL and 4 regional laboratories (NWQRL 2,447 samples, Fort Portal 370 samples, Lira 511 samples, Mbale 392 samples and Mbarara 440 samples. 849 water samples from drinking water sources were collected and analysed for compliance to potable water standards. 76 stations have been monitored for compliance to ambient water quality. 351 ambient water samples were collected.

Variances and Challenges

• Land acquisition issues due to delayed payments and compensation of PAPs.
• Lack of funds to carry out planned activities.
• Delayed procurement and delivery of imported plant equipment due to cash flow constraints limited the smooth execution of works.
• Heavy rains causing flooding at the construction sites and inaccessible road to the sites especially in hilly areas.
• Increasing population growth
• Aging water infrastructure
• Vandalism of water systems

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1559 Drought Resilience in Karamoja Sub-Region Project		
PIAP Output: 01040414 New multi-purpose water development schemes constructed.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
Constructed two (02) multi-purpose surface water reservoirs of Komrat and Akurawayon in the Districts of Nakapiripirit and Amudat respectively constructed to 100% completion using MWE equipment units increasing on water provision for livestock.	Construction of One (01) multi-purpose surface water reservoir of Akurawayon in the District of Amudat using MWE equipment units increasing on water provision for livestock has not yet commenced	Funds available after the budget cut are not sufficient to allow for the commencement of construction
Water for Production (WfP) investments in Karamoja Sub-region supervised and monitored complying to specifications.	Preliminary works were such land acquisition monitored in preparation for the constructions that are coming up	Most of the constructions have not yet commenced meaning the supervision of specifications of the investments could not be done.
Six (6) surface water storage reservoirs constructed to 50% cumulative progress in the Districts of Kotido, Kaabong, Amudat and Nakapiripirit. These will provide water for multi-purpose uses after completion.	Construction has not commenced.	Delays in the design review process, securing of consents and approval of environmental project briefs.
Drilled twelve (12) Boreholes to 100% ccompletion under the Drought Resilience Project in Karamoja Sub-region providing water for multi-purpose uses.	Construction of Twelve (12) production well based mini water supply systems in the Districts of Kotido, Kaabong, Amudat and Nakapiripirit has not yet commenced.	Due to the delays in securing the free, prior and informed consents and environmental briefs the works couldn't start.
Improved road spots for Drought Resilience Project in Karamoja Sub-region to 100% completion.	Improvement of Road spots for Drought Resilience Project in Karamoja Sub-region has not yet commenced.	These works will be done together with the Dam construction
Two (2) multi-purpose earth dams designed to 80% progress in the Districts of Kotido and Amudat.	Draft detailed dam designs presented.	Because of the delays in gaining access to the sites to undertake the topographic and geotechnical investigations, compounded by a protracted review process.
Six (6) surface water reservoirs designed to 100% completion in the Districts of Kotido, Kaabong, Amudat and Nakapiripirit.	Design of Six (6) surface water reservoirs in the Districts of Kotido, Kaabong, Amudat and Nakapiripirit is at 80% progress (Draft designs submitted).	There were delays in the design review process that slowed down the start of the assignment.
	Construction of Eight (08) mini-Water supply systems in the Districts of Kotido, Kaabong, Amudat and Nakapiripirit under the two (2) clusters has not yet commenced	Due to delays in securing the free, prior and informed consents and environmental briefs
	Taxes not paid	No work completed so no taxes paid

Project:1661 Irrigation For Climate Resilience Project Profile		
Budget Output:000003 Facilities and Equipment Management		
PIAP Output: 011104b02 Sustainable management institutions for effective utilization of the Irrigation schemes and water for production facilities established		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
	Environmental and Social Management Plan (ESMP) Activities for Kabuyanda and Matanda Irrigation Schemes in the districts of Isingiro and Kanungu respectively successfully implemented.	Output achieved as planned

VOTE: 019 Ministry of Water and Environment

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1661 Irrigation For Climate Resilience Project Profile		
PIAP Output: 011104b02 Sustainable management institutions for effective utilization of the Irrigation schemes and water for production facilities established		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
	The implementation of micro catchment measures for Kabuyanda and Matanda commenced with the identification of responsible stakeholders and potential hotspots that require restoration and other catchment measures to be implemented. Supervision of the Contractors' Environmental and Social Management Plans (CSEMP) for Rwoho forest reserve carried out	Output is on track
	The restored 1,000 hectares (ha) of Rwoho Central Forest Reserve in Isingiro District were protected and maintained.	Output achieved as planned
	In Kabuyanda, 3,734 farmers trained in Farmer Field School methodology (1,788 male, 1,946 female). Lead Framers were selected, and 133 farmer field school groups formed. A total of 4,005 farmers registered using the Irritrack App. In Olweny, 70 farmers trained in Farmer Field School methodology (48 male, 22 female) through 16 farmer field schools. In Agoro, 149 farmers trained in Farmer Field School methodology (84 male, 65 female) through 26 farmer field schools.	Achievement of Output is on track
	Value Chain Analysis for agricultural commodities like tomatoes, onions, green peppers, cabbage, coffee, beans, bananas, and maize was conducted for Kabuyanda, Matanda, Olweny, and Agoro irrigation schemes. A rapid market analysis was done for banana, bean, maize, coffee, and horticulture value chains. Suppliers of tools, agro-processing equipment, and machinery in Isingiro and Kanungu districts were profiled. Existing farmer organisations were profiled, and detailed reports on their capacity needs were produced.	Output achievement is on track
	The irrigation management model for Kabuyanda Irrigation Scheme is still under review.	The review is being done between Ministry Agriculture and Ministry of Water And Environment however a common position is yet to be agreed upon.
	The E-Voucher system I s fully developed and popularisation and roll out is ongoing	No major variation from the plan

VOTE: 019 Ministry of Water and Environment

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1661 Irrigation For Climate Resilience Project Profile		
PIAP Output: 011104b02 Sustainable management institutions for effective utilization of the Irrigation schemes and water for production facilities established		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
	Specific baseline data have been completed for the Kabuyanda irrigation scheme. Baseline studies are currently underway for the Matanda irrigation scheme.	Due to budgetary constraints, the baselines for the Agoro, Olweny, and Amagoro will be developed in-house. This decision was made after careful consideration, as it was not feasible to engage the consultant to cover all the schemes.
	Regional/international trainings for project team and or stake holders were all conducted	Output achieved as planned
	Marketing groups in Kabuyanda project area in Isingiro have been trained	The training of the other marketing groups is scheduled to commence as the schemes progress further.
	Business development and agro input dealers identified in the different project areas.	Output achieved as planned
	All ongoing projects were monitored and supervised to ensure compliance to specifications and accountability.	Output achieved as planned
	Review meetings with the identified farmers from the respective irrigation schemes in Isingiro, Kanungu, Lamwo, Lira, Lamwo and Tororo were conducted	Output achieved as planned
	Existing productive Alliances fully supported	Achieved as planned

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1661 Irrigation For Climate Resilience Project Profile		
PIAP Output: 01040404 Dams and valley tanks for livestock watering constructed.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
	Construction of the network within the block is not yet commenced.	Construction Works within the block will commence once the network to the block is completed.
PIAP Output: 01040414 New multi-purpose water development schemes constructed.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
	Kabuyanda dam in Isingiro District has been constructed to 21% completion	slow mobilization of pipes and equipment to site by the contractor and sections of the pipeline where work has been hampered by compensation related encumbrances causing works to stop at these sections.
	Kabuyanda off farm irrigation network in Isingiro District has been constructed to 22.7% completion	The prolonged compensation process at the start of the project affected progress.
	The Design of the Kabuyanda Off Farm Irrigation Net Work with in the Block in Isingiro District was completed	Output achieved as planned
	Scheme Roads, Scheme Buildings and Sanitation Facilities for Kabuyanda Irrigation Scheme in Isingiro District have been designed to 100%	Output achieved as planned
	Commenced the procurement of the contractor to implement the construction of Scheme Facilities, Scheme Roads and 60 No. of Sanitation Facilities with in Kabuyanda Command area in Isingiro District	Delayed completion of the design process for the scheme roads and sanitation facilities affected the commencement of the procurement thus construction too delayed.
	Finalised the technical Evaluation of Matanda Dam	Long approval processes for the engineering Design for the Dam slowed down commencement of the procurement.
	Stake holder engagement activities for communities and farmers around the Kabuyanda and Matanda Irrigation Schemes Infrastructure in Isingiro and Kanungu Districts respectively conducted.	Output achieved as planned
	Sensitisation off the community members and farmers on HIV/AIDS and Covid 19 done in the project area for Kabuyanda and Matanda Irrigation Schemes in the Districts of Isingiro and Kanungu respectively	Output is on track

VOTE: 019 Ministry of Water and Environment

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1661 Irrigation For Climate Resilience Project Profile		
PIAP Output: 01040414 New multi-purpose water development schemes constructed.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
	Gender Based Violence /Violence Against Children (GBV/ VAC) activities in kabuyanda and Matanda Irrigation Schemes in the Districts of Isingiro and Kanungu were implemented	Achieved as planned
	Construction supervision conducted for Kabuyanda Dam and the Network	Output achieved as planned
	Construction supervision not done	Construction of matanda dam in Kanungu district has not yet commenced
	Supervision of Implementation for Environmental and Social Safe guards Implementation for Kabuyanda and Matanda Irrigation Schemes in Isingiro and Kanungu Districts	Output achieved as planned
	Evaluation of for the consultancy services for the design of Amagoro irrigation scheme completed awaiting contract signing	Long approval of the Environment and Social impact report affected the start of the design process.
	Preparatory Activities conducted in line with designing and construction of the Farmer Led Irrigation Systems in the Seven (07) Districts of Rukungiri, Kanungu, Isingiro, Tororo Wakiso, Mpigi and Mukono.	Due to the collaborative nature of the implementation with the Ministry of Agriculture, there were certain details regarding the modalities that required clarification. These details have since been resolved.
	Contract signed for the feasibility study works to be conducted for Enengo Irrigation scheme covering Rukungiri and Kanungu Districts	Due to the long approval processes with the funder, there was a delay in getting the final approval to commence procurement
	Environmental audits for construction of Kabuyanda Irrigation Scheme is being conducted	Output achieved as planned
	In Matanda irrigation Scheme a total of 782 project affected persons along the Dam and main pipeline area assessed and so far 345 project affected persons specifically around the dam area have been compensated fully. In Kabuyanda irrigation scheme, a total of 1,549 project Affected persons have been fully paid along the Dam area, main pipeline and along the network.	In Matanda, the ministry was carrying out Compensation Validation and verification of project affected persons for the Secondary and Tertiary pipelines in 34 villages. It was also investigating alternative routes for the access roads to be submerged by the dam.

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1787 Water for Production Regional Centre-West Phase II		
PIAP Output: 01040414 New multi-purpose water development schemes constructed.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
Kyemamba dam in Lyantonde District constructed to 20% cumulative progress. This will increase on water for multi-purpose uses after completion.	Land acquisition for the dam is ongoing	Construction of Kyemamba dam in Lyantonde District has not commenced due to challenges in land aquisition
Ngugo water scheme phase II in Rwampara District constructed to 100% completion providing water for multi-purpose uses.	Commencement instructions issued to the contractor	There were delays encountered in the procurement process that delayed the contracting process.
Two (2) Surface water reservoirs constructed to 100% completion in the Districts of Ntungamo and Sembabule using Ministry Equipment providing water for multi-purpose uses.	Construction of the surface reservoirs has not commenced	Framework contracts for the construction of these surface water reservoirs is not yet signed.
Feasibility studies of Two (2) medium Scale Irrigation Schemes undertaken and designed One (1) medium Scale Irrigation Scheme in the Districts of Kamwenge and Ntoroko up to 50% progress.	Preliminary studies conducted for the Medium Scale irrigation scheme in Ntoroko conducted however, the site identified failed the the test	Due to flooding, the proposed site failed the preliminary tests and so a new site is being identified
Three (3) multi-purpose earth dams designed up to 80% progress in the Districts of Kiruhura, Ntungamo and Sembabule.	Procurement of the design consultant has been initiated	Slow approval processes as the contracts committee term expired.
Construction of Kyemamba multi-purpose dam in Lyantonde District supervised and monitored and the contractor was complying to specifications.	Construction of Kyemamba dam in Lyantonde District has not yet commenced	Land acquisition process for the dam, facility infrastructure and watering amenities is being fnalized.
	Land secured for the construction of valley tanks	achieved as planned
	Disclosure of Central Governmnet Values to the project affected persons is ongoing	Lengthy Central Government Valuers processes
Serviced, maintained and undertook minor repairs of Earth moving Equipment in the Western Region.	4 excavators, 1 tipper, 1 wheel loader, 1 tractor and 2 bulldozers were serviced and maintained undertaken.	Output achieved as planned
Distribution pipe network extended up to 60% cumulative progress from Kyenshama dam in Mbarara and Kiruhura Districts.	Completed the construction of 23km distribution network, installation of pipe fittings and valves and construction of inspection chambers at mabira dam in Kiruhura district	Output achievement is on track
	Functionality supported for Mabira dam in Mbarara district, Nyamihanga Solar powered Irrigation Scheme in Rukiga district, Mukunguru valley tank in Kazo District, Mubuku II Irrigation scheme in Kasese District and Rwengaaju Irrigation Scheme in Kabarole District through replacements of damaged solar panels, pump controllers and solar pumps, desilting of intake weirs and replacement of damaged pipes and fittings	Output Achieved as planned

Project:1788 Water for Production Regional Centre - North Phase II

Budget Output:000003 Facilities and Equipment Management

PIAP Output: 01040416 Sustainable management institutions for effective utilization of Dams and valley tanks established.

Programme Intervention: 010404 Increase access and use of water for agricultural production

Implementation support offered for sustainable management of multi-purpose Water for Production (WfP) facilities in Northern region (trained, built capacity and formed management committees for completed and ongoing multi-purpose WfP facilities) to 100% progress.	Provided implementation support for sustainable management of Odeye, Opwach, and Apitopat solar-powered irrigation systems, as well as Tochi, Olwenyi, and Wadelai Irrigation schemes in Oyam, Lira, and Pakwach Districts, respectively. (Trained farmers on system operation and maintenance, as well as good agronomic practices. Built the capacity of Irrigation water user Associations, Cooperatives, block leaders, and the Grievance Redress Committee (GRC). Restructured the leadership of block leaders. Recruited tractor operators. Sensitised farmers on sustainable management practices and engaged landlords on tenancy agreements with farmers.) Additionally, elected tractor management committees.	Output Achived as planned
Support to private Irrigation system operators offered to operate, maintain and manage off-farm infrastructure for Olweny, Tochi ,Wadelai and Agoro irrigation schemes in the Districts of Lira, Oyam, Pakwach and Lamwo respectively to 100% progress.	Private Irrigation system operators were supported to undertake operation, maintenance and management of the off-farm infrastructure for Olweny, Tochi and Wadelai irrigation schemes in the Districts of Lira, Oyam and Pakwach respectively.	Support to Private Irrigation system operators for Agoro irrigation scheme in Lamwo District is pending completion of outstanding works for hydraulic improvement

Feasibility study undertaken and completed detailed design of One (1) multi-purpose dam in Northern Uganda to 100% progress.	Procurement for Feasibility study and detailed design of One (1) multi-purpose dam in Northern Uganda is at evaluation stage.	Delayed releases affected commencement of prefeasibility studies that also delayed procurement initiation.
PIAP Output: 01040414 New multi-purpose water development schemes constructed.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
One (1) medium scale Irrigation scheme constructed to 25% progress in Otuke District. This will increase on crop production after completion.	Procurement for Construction of One (1) medium scale Irrigation scheme in Otuke District is at solicitation stage.	The procurement was above UGX 800 million threshold and hence required approval from the Accounting Officer to proceed. This action was delayed.
One (01) surface reservoir of capacity 20,000m3 constructed to 100% completion in Amuru District providing water for multi-purposes.	Construction of two (02) surface water reservoirs of capacity 10,000m3 each in Amuru District and Adjumani Districts respectively is at 98% and 95% cumulative progress. This will provide water for multi-purpose uses after completion.	An alternative proposal was to construct two surface reservoirs of 10,000 cubic meters each instead of a single reservoir of 20,000 cubic meters.
An office block at the Water for Production Regional Centre - North Equipment Yard constructed to 30% progress.	Technical design report for the Construction of an office block at the Water for Production Regional Centre - North Equipment Yard has been submitted and approved.	Delay in technical design and acquisition of land title affected initiation of procurement for construction works
Completed feasibility study and detailed design of One (1) medium scale irrigation scheme in Northern region.	Procurement for Feasibility study and detailed design of One (1) medium scale irrigation scheme is at evaluation stage	Delayed releases affected commencement of prefeasibility studies that also delayed procurement initiation
	Pre feasibility studies for design of One multipurpose reservoir have been completed and designs have commenced.	There was a delay in release of funds and this affected the commencement of the procurement

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1788 Water for Production Regional Centre - North Phase II		
PIAP Output: 01040414 New multi-purpose water development schemes constructed.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
Ongoing and completed Water for Production (WfP) Projects supervised and monitored complying to specifications and ensuring they are functional.	Feasibility study and detailed design of One (1) multi-purpose dam in Yumbe District has not yet been undertaken.	Procurement to undertake feasibility study and detailed design of One (1) multi-purpose dam in Yumbe District is still ongoing (Evaluation stage).
Sited and drilled Two (2) production wells to 100% completion for commercial farmers in the Northern region.	Eight (8) production wells sited and drilled for commercial farmers at Ajan in Omoro District, Gwendiya in Omoro District, Opida in Omoro District, Okida in Kitgum District, Lamogi in Kitgum District, Abole in Omoro District, Biacici in Arua District and Amwa village in Oyam District.	The procurement plan was amended to have more sites drilled for commercial farmers
Functionality support fully offered to Water for Production (WfP) facilities in Acholi, Lango and West Nile Sub-regions.	Functionality support offered to Seven (07) Solar Powered Irrigation Sites of Owameri, Ayom Lony, Odeye, Andibo, Opwach, Asada and Girigiri in the Districts of Alebtong, Omoro Dokolo, Pakwach, Omoro, Zombo and Arua respectively.	Functionality achieved as planned

Project:1789 Water for Production Regional Centre - East Phase II

Budget Output:000003 Facilities and Equipment Management

VOTE: 019 Ministry of Water and Environment

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1789 Water for Production Regional Centre - East Phase II		
PIAP Output: 01040416 Sustainable management institutions for effective utilization of Dams and valley tanks established.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
Functionality of Water for Production (WfP) facilities in Eastern Region supported.	Carried out Trainings for five (5) Farm management committees formed in Puwa, Bunakhaima, Amukurat, Kabos and Owii. Carried out final technical inspection for Five (5) scheme and handed them over to the beneficiaries (Lolikoyo in Tororo, Amukurat in Ngora, Matata in Bukedea, Namadope in Luuka, Butambala in Kaliro and Bunakhaima in Manafwa District) Conducted four (4) Stakeholders engagement meetings for Mpiti Valley tank in Kaliro, Namale and Natoto sites in Kibuku district. Documentation of Success stories on completed sites (Aleles in Soroti, Chembobai in Bukwo, Cheptui in Kapchorwa, Limoto in Pallisa district) Beneficiary farmer mapping of Nankusi, Chembobai Extension, Puwa, Matata, Amukurat, Cheptui sites. Collection of Water User Fees and follow up on farm sales and management committee progress.	Output achieved as planned
Irrigation system operators supported to operate, maintain and manage the off-farm infrastructure for Doho I, Doho II, Ngenge and Sipi irrigation schemes.	Doho 1 Stakeholders meeting to change management model to Farmer based model was held Quarterly review meeting of Doho 2 with stakeholders from Butaleja District was conducted. Acquisition of land for the construction of Wapala Office block Conducted Landlords meeting in Ngenge Scheme. Conducted Block leaders' elections for the 47 blocks in Ngenge Scheme. Carried out a leadership Training for Block leaders in Ngenge scheme Conducted Election of IUWA in Ngenge Scheme Validation and disclosure of Project Affected Persons values at Sipi. Formed grievance committees for SIPI Compensation of Project Affected Persons with houses at the Intake area was done. Conducted Sensitization meetings of Project Affected Persons who were relocating their homes.	Achieved as planned
Pre-construction activities implemented at planned Water for Production (WfP) facilities (Earth dams and medium scale Irrigation schemes).	Carried out Four (4) community entry meetings for the new sites to be constructed (Kalait and Awuyo in Tororo District, Ajoli in Amuria district and Pailekol in Katakwi District. Handed over Two (2) sites for construction to the contractor (Kalait and Awuyo sites in Tororo district)	Achieved as planned

PIAP Output: 01040402 Multi-purpose water development schemes including valley dams, valley tanks developed		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
Spare parts for maintenance of Earth moving equipment procured.	Spare parts for maintenance of Earth moving equipment were not procured.	Procurement system delays (System freezing) affected the procurement process
Two (02) medium scale Irrigation schemes constructed to 20% cumulative progress in Sebei and Bukedi Sub-regions. These will increase on crop production after completion.	One (1) medium scale irrigation scheme of Namaitsu in Bududa District constructed to 90% cumulative progress Chembobai construction works currently ongoing at 5%	Namaitsu Scheme completion was prioritised and works are near completion.

VOTE: 019 Ministry of Water and Environment

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1789 Water for Production Regional Centre - East Phase II		
PIAP Output: 01040402 Multi-purpose water development schemes including valley dams, valley tanks developed		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
Feasibility studies and detailed engineering designs of Two (02) medium scale irrigation schemes undertaken in Sebei and Bukedi Sub-regions to completion.	Feasibility studies and detailed engineering designs completed for Namaitsu and Cheptui irrigation schemes in Bududa and Kapchwora Districts respectively.	No variation from the plan.
PIAP Output: 01040414 New multi-purpose water development schemes constructed.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
Two (2) surface storage reservoirs constructed to completion in the Districts of Buyende and Kapelebyong increasing on water provision for multi-purpose uses.	One (1) valley tank of Mpiti in Kaliro District constructed to 100% cumulative progress. Engineering Design studies completed for One (1) valley tank of Awelu in Amuria District.	Completion of one valley tank was considered than having two constructed half way. Construction of Amuria Valley tank to be done since studies are complete.
Feasibility studies and detailed engineering designs undertaken for Two (2) multi-purpose earth dams in Busoga and Teso Sub-regions to completion.	Feasibility studies and detailed engineering designs for One (1) multi-purpose earth dam in the District of Butebo is at 40 % completion stage	No major variation from the plan.
Scheme offices constructed to 70% cumulative progress for Wapala Irrigation scheme in Butaleja District.	Ground breaking for the construction was done. Delivery of hardware materials for the site construction is ongoing. Construction started with foundation works at 5%	Delayed acquisition of land slowed down the speed of work
	Acquisition of land in was done Nankusi in Mbale, Angorom, Agururu in Tororo, Matata in Bukedea and Puwa, Bunakhaima in Manafwa.	Output achieved as planned

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1790 Water for Production Regional Centre - Karamoja		
Budget Output:000003 Facilities and Equipment Management		
PIAP Output: 01040416 Sustainable management institutions for effective utilization of Dams and valley tanks established.		
Programme Intervention: 010404 Increase access and use of water for agricultural production		
Support for sustainable management of multi-purpose WfP facilities fully implemented in the Districts of Moroto, Kotido, Napak, Kaabong, Karenga, Nakapiripiri, Nabilatuk, Amudat and Abim (trained, built capacity and formed management committees).	Stakeholder engagement meetings were held for implementation support for sustainable management of multi-purpose WfP facilities in the Districts of Moroto, Kaabong, Abim and Nabilatuk (trained and built capacity).	Output achieved as planned
Success stories, lessons and emerging issues at established selected Water for Production (WfP) facilities in Karamoja Sub-region fully documented.	Success stories and lessons not documented	Delayed commencement of the procurement du eco delayed release of the funds
Water source protection measures in the immediate catchments of the multi-purpose WfP facilities (dams and valley tanks) in the Districts of Moroto, Kotido, Napak, Kaabong, Karenga, Nakapiripirit, Nabiltak, Amudat and Abim fully implemented.	Water source protection plan for Longoromit dam in Kaabong prepared and water source protection committee established.	The preliminary activities were delayed due to delayed releases of funds. Consequently, the procurement of the consultant to implement the Source Protection Plans for the other facilities has also been delayed.
	Two (2) laptops, a printer, a desktop, a shredder and a air blower were procured.	A shift in priorities, with the decision to purchase additional equipment rather than a third laptop, resulted in the achievement of planned outputs.
	Supplies were not procured.	The procurement was deferred to the following year when the regional centre moves to the Ministry's regional office which is still under construction
	Irrigation Water User Committees at Loteteleit, Puno, Akado-Kulo and Arechek were revitalized and trained.	Output achieved as planned

Budget Output:000017 Infrastructure Development and Management

PIAP Output: 01040402 Dams and valley tanks for livestock watering constructed

Programme Intervention: 010404 Increase access and use of water for agricultural production

Specialized machinery and Earth moving equipment repaired and maintained.	All 3 sets of Specialized machinery and Earth moving equipment repaired and maintained.	Output achieved as planned

PIAP Output: 01040414 New multi-purpose water development schemes constructed.

Programme Intervention: 010404 Increase access and use of water for agricultural production

Eighteen (18) surface water reservoirs rehabilitated to 100% completion in the Districts of Moroto, Kotido, Napak, Kaabong, Karenga, Nakapiripirit, Nabiltak, Amudat and Abim improving on their functionality.	Works commenced on one valley tank in Karenga district.	Delays by the districts to submit their priority sites for rehabilitation
Sited and drilled One (1) production well to 100% completion in Karamoja Sub-region providing water for multi-purpose uses.	Siting of boreholes at Kawomeri and Kobebe dams was carried out.	Due to limited funding to complete the drilling, the option was to site another source for future use
Kailong dam desilted in Kotido District to 50% cumulative progress. This will improve on its functionality after completion.	Opening of 30Km access road to the Longor multi purpose dam done.	De-silting activity of Longor multi purpose dam not yet commenced conducted due to poor access road network

Programme Intervention: 010404 Increase access and use of water for agricultural production

Undertook geotechnical investigations for Four (4) surface water reservoirs in the Central Region Districts of Kiboga, Masaka, Luweero and Gomba to 100% completion.	Geotechnical investigations for Three (3) surface water reservoirs in the districts of Kiboga, Masaka and Gomba are ongoing	delayed released of funds affected the speed of implementation.
Specialised machinery and earth moving equipment repaired and maintained.	Earth moving Equipment Maintained	Achieved as planned
Ongoing works monitored and supervised complying to specifications.	Construction works of Solar Powered Irrigation projects were monitored and supervised under the SPWSISP in the districts of Wakiso, Mpigi, Masaka, Mityana, Lwengo, Butambala, Kayunga, Gomba, Nakasongola, Luwero, Mubende and Kasanda	Achieved as planned

PIAP Output: 01040402 Dams and valley tanks for livestock watering constructed

Programme Intervention: 010404 Increase access and use of water for agricultural production

Five (5) surface water reservoirs constructed to 100% completion in the Districts of Nakasongola, Masindi, Kalungu, Nakaseke and Kiryandongo providing water for multi-purpose uses.	Completed the construction of Tuura Valley Tank in Masindi District.. Kikoota surface water reservoir in Kalungu District was constructed to 75% completion.	Preliminary studies for Nakaseke were yet to be completed thus construction could not commence
Undertook improvement works on completed Solar Powered Irrigation schemes in the Districts of Wakiso, Kiboga, Kyankwanzi and Mpigi to 100% completion.	Improvement works undertaken on One (1) Solar Powered Irrigation Scheme in the District of Mpigi. construction works for Tikalu solar powered irrigation system -Wakiso district is at 65% completion.	Due to insufficient funds, the improvement works on the other schemes could not be carried out

PIAP Output: 01040414 New multi-purpose water development schemes constructed.

Programme Intervention: 010404 Increase access and use of water for agricultural production

Rehabilitated surface water reservoirs to 100% completion in the Cattle Corridor Districts of Nakasongola, Kiboga and Mubende improving on their functionality and increasing water provision for multi-purpose uses.	Rehabilitation of Kyanamura Valley Tank in Kiryandongo District is at 10% progress.	The funds available could not handle the other planned sites.

Budget Output:140021 Ecosystems Restoration and Protection		
PIAP Output: 06020305 Restoration of critical wetlands; Demarcate, gazette and restore 900 Kms of wetlands; Gazette 6 critical Wetlands.		
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:		
25Ha of degraded mountain ecosystems restored. 25Km of natural water bodies and reservoirs, riverbanks, and Lakeshores surveyed and demarcated. 50 ha of degraded river banks and lakeshores restored and maintained.		
Mobilization and intensive sensitization of all stakeholders on wetland restoration conducted; Restoration teams constituted; 1,800 ha of degraded wetlands restored. Post restoration surveillance and monitoring conducted.	In Q4, 1,507 hectares of wetlands were restored in Kaliro, Ngora, and Ntungamo districts. Restoration teams were constituted to lead site-level activities, and sensitisation efforts were carried out to engage communities on the importance of wetland conservation and sustainable use. Post-restoration monitoring was conducted across key wetlands in Eastern and Southwestern Uganda including; Lumbuye, Okoboi-Galilaya, Mpologoma, Kitoikawonon, Lake Lemwa, Lwengwe-Kyabwaato, Nyamirembe, Ikona, and Ruhezamyenda-Mulindi to assess ecological recovery, boundary integrity, and long-term sustainability.	Off budget (GCF, NGOs, LGs) support was significant for this higher achievement.
PIAP Output: 06030615 Conserved and degraded wetlands demarcated and gazetted		
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:		
	Not planned for this quarter.	Budgetary constraint

Project:1520 Building Resilient Communities, Wetland Ecosystems and Associated Catchments in Uganda		
PIAP Output: 06030617 2000 Ha of degraded riverbanks and lakeshores restored and maintained		
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:		
Rangeland ecosytem management action plans developed and implemented in 5 sleceted local government (Luwero, nakaseke, kibogo , kanywanzi and Karamoja region)		
Green parks/protected belts gazetted in Cities/Towns		
Mobilization and stakeholder enagement in preparation for demarcation conducted, Rapid assessment to support demarcation conducted. 100Km of conserved and degraded wetlands demarcated with pillars and live markers in the GCF districts. Post demarcation monitoring conducted.	A total of 26km of wetland boundary was demarcated along the Budomero-Bulumba-Lumbuye stretch in Kaliro District to enhance protection and prevent encroachment. Post-demarcation monitoring and rapid assessments were conducted in multiple wetlands across Eastern and Southwestern Uganda to evaluate boundary integrity, assess ecological conditions, and identify areas requiring follow-up action. Key sites included Lake Lemwa, Kitoikawonon, Okoboi-Galilaya, Mpologoma, Nyamirembe, and Ruhezamyenda-Mulindi. Sensitisation activities were carried out alongside these efforts, engaging local communities, leaders, and stakeholders to raise awareness on wetland conservation, promote compliance, and strengthen community stewardship of restored and demarcated wetland areas.	Off budget(GCF, NGOs and LGs) support was significant for this higher achievement

PIAP Output: 06020301 Improve coordination, regulation and monitoring of environment management at both central and local government levels		
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:		
	Not planned for this quarter	The activity was achieved hence no variation.
Quarterly monitoring of Project interventions conducted. 50 Local Governments and Urban Councils technically backstopped and coordinated; Technical back stopping, supervision and monitoring undertaken in the four regions.	The Monitoring and Evaluation exercise for Phase I of the National Wetland Restoration Project was conducted and showed that while restoration and demarcation efforts were launched nationwide with support from local governments and communities, progress was hindered by logistical delays and late funding. Many districts lacked proper documentation, and field verification revealed discrepancies between reported and actual results. Weak maintenance and enforcement mechanisms also raised concerns about the long-term sustainability of restored wetlands.supported 11 districts through coordination, supervision, and technical backstopping. Key activities included wetland demarcation in Mpigi, planning in Wakiso, and monitoring conservation efforts in Nakaseke, Buikwe, Mukono, and Luwero. Notable initiatives involved reviewing the Wise Use Model, distributing bicycles, and restoring the Sezibwa Wetland with community involvement. The 4 regions were back stopped, monitored & supervised.	This activity was successfully implemented hence no variation.
Environment Impact Assessments and Audits undertaken for the four projects that are near or inside wetlands.	During the reporting period, the Wetlands Management Department conducted several environmental reviews and stakeholder engagements across multiple districts. These included ESIA reviews for a plywood plant in Mubende, a 20 MW solar plant in Madi-Okollo (restricted to dry land), and project briefs for the Kagera MAR pilot and a solar-powered irrigation system in Butambala. Stakeholder consultations led to the rejection of a peat mining project in Isingiro due to environmental concerns. Meanwhile, the MASDAR solar project in Bulambuli is under review with MoLHUD, and the Cumulative Impact Assessment for the Kingfisher Development Area is ongoing.	There was no variation.

	A targeted training session was conducted for WMD staff in the Central Region on the use of the National Wetlands Information System (NWIS). The training focused specifically on data entry procedures to ensure accurate and timely input of wetlands-related information into the system. The training activities involved hands-on demonstrations of NWIS interface and functionalities, guided practice sessions on entering site-specific restoration and demarcation data, Q&A and troubleshooting to address user challenges and clarify system features. And as a result, 100% of participating staff successfully completed the training, there was Increased confidence and competence in using NWIS for routine data entry and Improved understanding of the role of NWIS in national wetlands monitoring and reporting among the trainees.	Budgetary Constraint hinderered achievement of planned targets.
	Country wide mapping did not take place and National wetlands 2025 dataset was not generated. 9 district wetland maps were produced to support Compliance assistance, monitoring and enforcement.	Budgetary constraint
	Fact sheets were neither produced nor translated and disseminated for 12 Ramsar sites. 11 district local governments of Nakaseke, Mpigi, Nakasongola, Wakiso, Lira, Oyam, Gulu, Kitgum, Pallisa, Kibuku and Busia were technically backstopped and coordinated. Conducted various coordination, inspection, and supervision activities in Mpigi District. These included technical backstopping for the demarcation of the Makanaga Wetland in Luwala Parish. In Wakiso District, the Wetlands Management Department (WMD) team supervised and backstopped district-led initiatives for example plans to develop a Wetland Management Plan for Mabamba.	Budgetary constraint.

Programme Intervention: 060302 Increase investment in value addition to environment and natural resources products and services.		
	A total of 5,284.6 hectares of degraded wetlands were ecologically restored across Uganda. Central, 1,652.6 ha were restored; Kyakatebe (103 ha), Semuto (274 ha), Nakampwaki, Lwera (241 ha), Ssembabule (161 ha), Wamala (81 ha), Lubigi (20 ha), Kilidubu (4.2 ha), Nambiriga (3 ha), Kobobo (2.4 ha), upper Katonga (113 ha across Gomba, Kalungu, Mpigi, and Bukomansimbi), Mayanja (300 ha in Mpigi and Wakiso), and Sezibwa (350 ha in Buikwe).Northern, 300 ha were restored in Torchi Arocha wetland in Oyam. Western restoration of 1,559 ha, including Mpanga (200 ha in Kitagwenda), Magombe (300 ha in Kamwenge), Rwambu (480 ha in Kitagwenda), Kyerenga (400 ha in Kyenjojo), Bunyangabu (60 ha), Kyakatwanga Kyabaganda (84 ha in Kyegegwa), Nyakisi (10 ha), Rukonge (15 ha in Kabonero), and Nyakabale (10 ha in Bunyangabu). In the Eastern, 1,773 ha were restored, covering Malaba-Kibimba (119 ha), Nawanjovu (610 ha in Butaleja), Kyere (435), Omunyai (40) in Serere, and Namuwo (209 ha in Bugweri).	The planned target was successfully met, with a slight overachievement resulting from the effective restoration efforts led by the Wetlands Management Department, complemented by off-budget support from NGOs and District Local Governments.

150 proposed and existing developments near or in wetland areas monitored, inspected and regulated for compliance. Assorted oils, lubricants and vehicle tyres procured.	Conducted intensive inspections in Kole District, Lira City, Wakiso, and Mukono to address wetland degradation and enforce compliance. In Kole and Lira, rice cultivation and illegal sand mining were major threats, leading to legal action, police bonds, and impoundment of vehicles. In Wakiso and Mukono, violations included vegetation burning, marrum dumping, and unauthorized construction, resulting in arrests, vehicle impoundments, and halted activities. Enforcement efforts were swift and ongoing, underscoring the department's commitment to protecting wetland ecosystems and upholding environmental regulations. Funds for Assorted oils, lubricants and vehicle tyres were not provided for during quarter four.	There was minimal variation from the procurement of Assorted oils, lubricants and vehicle tyres during the last quarter because of the budgetary constraint, however other planned targets were achieved.

Budget Output:140024 International Water Resources Management		
PIAP Output: 06010110 Joint Transboundary catchment investment projects prepared		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
Investment Plans for fragile sections of Trans-boundary rivers Semliki, Kagera and Sio systems undertaken to 40%.	Investment Plans for fragile sections of Trans-boundary Rivers of Semliki, Kagera and Sio systems undertaken to 40% progress. Additionally, the meeting for the update of the Nile Hydropower optimization and flow management tool held.	Data collection is still ongoing and will be concluded in the next FY 2025/26.
4No. Strategic Trans-boundary infrastructure rehabilitated/ Monitored.	Four (4) Strategic Trans-boundary infrastructure (stations) rehabilitated and monitored (Butiaba on Lake Albert, Bweramule on River Semliki, Laropi on River Albert Nile and Panyango on River Albert Nile).	Achieved as planned.
Feasibility Studies & Detailed designs for Angololo MPP conducted to 100%	Feasibility studies and detailed designs completed to 100% for the Angololo MPP and Project Bilateral Agreement was signed between Uganda and Kenya paving way for resource mobilization for its implementation.	Achieved as planned.
PBS Mapping undertaken; Preparation of the work plan and budget for FY2025/26 carried out.	Feasibility study for the Southeast of Luzira Sub catchment area (SOLCA) High Priority Investment completed to 100%.	No major variance in planned outputs.

VOTE: 019 Ministry of Water and Environment

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1302 Support for Hydro-Power Devt and Operations on River Nile		
PIAP Output: 06010110 Joint Transboundary catchment investment projects prepared		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
AMCOW-WASSMO WASH data collected, validated & disseminated.	Data collection for the AMCOW-WASSMO and AIP-PIDA Scorecard reports is ongoing.	Validation and dissemination of AMCOW-WASSMO WASH data is pending completion of the data collection exercise.
Coordination & supervision of the groundwater project for the Mt. Elgon & Kagera transboundary aquifers undertaken	Coordinated and supervised the groundwater project for the Mt. Elgon and Kagera transboundary aquifers.	Implemented as planned.
MOUs for Angololo and Nyimur MPP signed.	Bilateral Agreement for the Angololo Water Resources Development and Management Project (AWRMDP) has been negotiated and signed.	Nyimur MPP stakeholder engagements are ongoing.
Surveillance & Mapping of flooding areas on 3No. trans-boundary river systems conducted.	Surveillance and Mapping of flooding areas on Three (3) trans-boundary River systems (Unyama, Nyamugasani and Nyamwamba) was conducted to enable the development of the early warning system and flood management strategies.	Surveillance and mapping of more flooding areas is still ongoing.
Annual Subscription to international Organizations (NBI, AMCOW) effected.	Part payments for Annual Subscriptions to NBI and AMCOW effected.	Funds released were not enough to fully effect these payments.
2No. Statutory governance & Technical foras for the management of trans-boundary water systems effectively participated in and well-coordinated.	Four (04) Statutory governance and Technical foras for the management of trans-boundary water systems effectively participated in and well-coordinated (NBI (02), AMCOW (01) and NELSAP (01)).	Achieved as planned.
Department well managed & administered.	Department activities well managed and administered.	No variance in planned outputs.
The Nile Basin Heads of States summit coordinated and hosted.	The Nile Basin Heads of States summit coordinated (10 preparatory meetings organized for hosting the 2nd Heads of States Summit for the Nile Basin).	The Summit will be held after consultative meetings with the 4 non ratifying member Countries on the CFA.

Project:1662 Water Management Zones Project Phase 2

Budget Output:000017 Infrastructure Development and Management

PIAP Output: 06010105 Degraded water catchments protected and restored through implementation of catchment management measures

Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level

15 small water harvesting structures constructed e.g check dams, percolation pits, gully plugs etc (3 KWMZ, 5 VWMZ & 7 UNWMZ)	-	Not undertaken to insufficient funds
Ha of degraded forests restored (5 AWMZ, 4 KWMZ)	50 hectares of degraded forests have been restored (40 hectares in Ibanda District (Mpanga catchment) and 10 hectares in Kasese District (Nyamugasani catchment)).	Implementation was undertaken as planned.
28km of soil and water management structures constructed (e.g infilitration trenches, contours, terraces etc)(5 KVWMZ, 20 VWMZ & 3 UNWMZ).	0.2 Km of soil and water conservation structures that is Trenches and 03 voluminous retention ponds were established in Kelim1 village Katakwi District in Awoja catchment.	Construction of more soil and water management structures is still ongoing.
15 small water harvesting structures constructed e.g check dams, percolation pits, gully plugs etc (3 KWMZ, 5 VWMZ & 7 UNWMZ)	Mobilization of tools for undertaking construction of water harvesting structures has been completed.	Output not achieved due to planned mobilization of tools.
1 Private tree nursery supported to produce seedlings	-	The output has not been achieved due to limited funding

VOTE: 019 Ministry of Water and Environment

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1662 Water Management Zones Project Phase 2		
PIAP Output: 06010105 Degraded water catchments protected and restored through implementation of catchment management measures		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
9.5Ha of degraded wetlands restored	20.1Km of Arukor-Ojonai wetland were demarcated with pillars across 8 villages of Apungure, Moruakwei, Otingai, Agurut, Aguyaguya, Middle East, Odebei and Odoon Center all in Apeduru Sub-county in Amuria District.	Implementation of the activity started in the previous reporting period and was completed during Q4.
19km of degraded river banks demarcated and planted with pillars (5km AWMZ, 5 KWMZ, 5 VWMZ & 8 UNWMZ)	53.68Km river bank buffer zones demarcated using live markers along river Sironko in Sironko District (Mpologoma catchment).	The implementation of the activity was carried forward from the previous reporting period.
20Ha of degraded river bank buffer zones restored.	-	The activity was not undertaken due to insufficient funds.
PIAP Output: 06010106 Demonstration centers for demonstration of innovative catchment management measures established;Degraded water catchments protected and restored through implementation of catchment management measures		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
28km of soil and water management structures constructed (e.g infilitration trenches, contours, terraces etc)(5 KVWMZ, 20 VWMZ & 3 UNWMZ).	0.2 Km of soil and water conservation structures that is Trenches and 03 voluminous retention ponds were established in Kelim1 village Katakwi District in Awoja catchment.	No major variance in planned outputs.
01 Private tree nursery supported to produce seedlings	-	Not undertaken due to limited funds
10Ha of degraded wetlands restored (5ha AWMZ, 5 KWMZ, 5 UNWMZ, & 5 VWMZ).	20.1Km of Arukor-Ojonai wetland were demarcated with pillars across 8 villages of Apungure, Moruakwei, Otingai, Agurut, Aguyaguya, Middle East, Odebei and Odoon Center all in Apeduru Sub-county in Amuria District;	Implementation of the activity started in the previous reporting period and was completed during Q4.
19km of degraded river banks demarcated and planted with pillars (5km AWMZ, 5 KWMZ, 5 VWMZ & 8 UNWMZ).	53.68Km river bank buffer zones demarcated using live markers along river Sironko in Sironko District (Mpologoma catchment).	The implementation of the activity was carried forward from the previous reporting period.
20Ha of degraded river bank buffer zones restored.(5 KWMZ, 5 VWMZ & 15 UNWMZ)		
9 Ha of degraded forests restored (5 AWMZ, 4 KWMZ).	50 hectares of degraded forests have been restored (40 hectares in Ibanda District (Mpanga catchment) and 10 hectares in Kasese District (Nyamugasani catchment)).	The activity was implemented with Off-budget support from Conrad N Hilton foundation.
PIAP Output: 06010109 Increased water storage capacity to meet water resources use requirements		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
The National Water Resources strategy disseminated.	-	Not undertaken due to limited resources.

VOTE: 019 Ministry of Water and Environment

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1662 Water Management Zones Project Phase 2		
PIAP Output: 06010115 Operational optimal Surface Water & Ground Water monitoring network in established.		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
3 priority actions implemented to 20% in the Albertine Graben	-	The activities have not been implemented due limited funding

Expenditures incurred in the Quarter to deliver outputs *UShs Thousand*

Item		Spent
225204 Monitoring and Supervision of capital work		49,890.000
227001 Travel inland		80,035.782
227004 Fuel, Lubricants and Oils		16,028.625
313142 Flood barriers - Improvement		313,974.239

Budget Output:140022 Integrated Catchment based Infrastructure		
PIAP Output: 06010103 National Water Quality Monitoring infrastructure & networks upgraded and functional.		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
178 water resources monitoring stations(63 AWMZ, 58 KWMZ, 42 VWMZ) operated and maintained and Honoria for gauge readers paid; ADCP measurements for review of rating curves (4No. Sites) in VWMZ undertaken.	175 water resources monitoring stations (Albert Water Management Zone (63), Kyoga Water Management Zone (59), Upper Nile Water Management Zone (29) and Victoria Water Management Zone (24) have been operated and maintained. Good quality data was collected from these stations and is used for research by academia, determining the interactions between surface and groundwater, monitoring water levels, decision-making; 01 ground monitoring station has been rehabilitated 03 surface water stations have been constructed at R. Rufuha in Ntungamo, R.Kyarwera in Sheema, R.Nyakambu. Honoria for three months from April, May, June for has been paid to gauge readers.	No major variation.
03 water resources assessments undertaken on selected rivers	02 water resources assessments undertaken on River Semliki and River-Rwizi in Rwampara District.	No major variation

VOTE: 019 Ministry of Water and Environment

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1662 Water Management Zones Project Phase 2		
PIAP Output: 06010103 National Water Quality Monitoring infrastructure & networks upgraded and functional.		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
4 Regional water quality laboratories operated and maintained (1 AWMZ, 1 KWMZ, 1 VWMZ, & 1 UNWMZ); 330 drinking water and waste water samples collected and analyzed.	Four (04) Regional water quality laboratories (Albert Water Management Zone (01), Kyoga Water Management Zone (01), Upper Nile Water Management Zone (01) and Victoria Water Management Zone (01) have been operated and maintained; 412 Client samples were received and analyzed and Non-Tax Revenue (NTR) of UGX 37,906,000 was collected.	More samples were collected and analysed because of increased awareness and demand.
PIAP Output: 06010105 Degraded water catchments protected and restored through implementation of catchment management measures		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
168 water abstraction and waste water discharge permit holders monitored for compliance to permit conditions (30 AWMZ, 50 KWMZ,50 VWMZ, 37 UNWMZ).	202 water abstraction and waste water discharge permit holders monitored for compliance to permit conditions in the Districts of Kamwenge, Kasese, Kyenjojo, Masindi, Rukungiri and Ibanda.	Monitoring water abstraction and waste water discharge permit holders for compliance to permit conditions is a continuous process.
PIAP Output: 06010109 Increased water storage capacity to meet water resources use requirements		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
28 water permit appliations (10 AWMZ, 5 KWMZ, & 10 UNWMZ) assessed and recommended for issuance; 80 Illegal water abstractors and waste water dischargers identified and sensitized to acquire permits (30 KWMZ, 50 VWMZ).	11 water permit applications assessed and recommended for issuance. Additionally, 35 Illegal water abstractors and waste water dischargers identified and sensitized to acquire permits.	Assessments are dependent on applications for the period.
PIAP Output: 061101a02 Water management measures implemented in priority sub-catchments		
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level		
One (01) Coordination and project meeting held; Contract staff salaries Paid; One (01) quarterly meeting; One (01) quarterly progress report prepared; One (01) QA and supervision trip undertaken.	One (01) Coordination and project meeting has held; Contract staff salaries have been Paid; One (01) quarterly meeting has been held; One (01) quarterly progress report has prepared; One (01) Quality Assurance and supervision trip has been undertaken to Albert Water Management Zones.	Achieved as planned.
Procurement of a service provider completed.	Assessment and data collection for Rwimi Sub-catchment has been undertaken.	Activity has been affected by budgetary constraints. The assessments have been supported by Off budget support from Common Grounds.
1 CMC operationalised (1 UNWMZ - Aswa II)	One (01) Catchment Management Committee reconstituted for Mpologoma catchment; One (01) training for stakeholders in catchment management Conducted in Mpanga catchment	Achieved as planned.

VOTE: 019 Ministry of Water and Environment

An annual performance assessment report of all water authorities compiled and shared with different stakeholders.	Annual performance review of all Water Authorirties conducted. The Annaul regulators report compiled and disseminated to all stakeholders.	This activity was implemented as planned.
Pro-poor policy and strategy reviewed and a new policy and strategy developed to facilitate equitable access to water supply and sanitation services	Revisions were made on the implementation approach to review the pro-poor Policy and strategy and develop a new policy and strategy. A National taskforce was constituted to conduct the review internally and the process is still ongoing.	This activity is still ongoing due to a change in the implementation approach and inadequate resources released.
Tariff Policy and tariff setting guidelines approved and operationalized. Tariffs approved and compiliance monitoring undertaken. Tariff Indexation by NWSC also reviewed and recommendations made.	Compliance monitoring of approved tariffs for all Water Authorities conducted. The tariff policy is awaiting discussion with the Minister of Water and Environment before submission to the cabinet for approaval.	This activity was partially implemented. The tariff policy is awaiting discussion with the Minister of Water and Environment before sumission for approaval by the carbinet.
Atleast 10 water supply areas gazetted to either Regional Umbrella Water Authorities or NWSC.	5 districts local governments were selected in the different regions to be gazetted as Water Authorities and Pregazette visits conducted. in 2 district local government in each region to pillot the operationalisation of the O&M Framework for rural Water	This activity was implemented as planned.
A regulation information management system (REMIS) for both water supply and sanitation developed and operationalized	The regulation information management system (REMIS) handedover to WURD and operationalised	This activity was implemented as planned.
Appropriate tools and standards for onsite sanitation solutions developed and compliance enforcement undertaken	Appropriate tools and standards for onsite sanitation solutions not developed and compliance enforcement not undertaken	This activity was not implemented as planned due to Inadequate funding

Construction of Water meter testing and calibration station in Entebbe completed, installations made and operationalised. Contract award for construction of Water meter testing and calibration station in Mbale.	Contract awarded for the construction of the meter testing and calibration station in Mbale, and the construction commenced	The construction of the carlibration station in Mbale is ongoing.
Finalise upscale of digitised mapping for gazetted water supply systems in 30 towns (15 North & 15 Southwest) up to 100%	A rapid assessment of the Infrastructure Asset Management concluded. The assessment report prepared and submitted to WURD. However, the Development of the Infrastructure Assert Management framework is on a standstill due to inadequate funding	The IAM framework was not developed, and the Digitised mapping of assets for the gazetted water supply systems in 30 towns was not conducted due to inadequate funding
Undertake GIS mapping of Water Supply Areas under Umbrella Water Authorities.	Training for Water Utilities Regulation Staff on the tools and instruments for GIS mapping including software application for digitized area gazette maps conducted.	This activity was implemented as planned.
Technicians to operate Water meter testing and calibration stations trained and inducted	Training and induction of Technicians to operate the Water meter testing and calibration stations conducted	This activity was implemented as planned.
Routine quarterly regional monitoring and supervision of meter calibration and testing stations in Entebbe conducted, reports compiled and shared with stakeholders.	Monitoring and supervision of the operation of the meter calibration station in Entebbe undertaken. Monitoring reports compiled and shared with stakeholders.	This activity was implemented as planned.

Project:1559 Drought Resilience in Karamoja Sub-Region Project

Budget Output:000003 Facilities and Equipment Management

PIAP Output: 011104b02 Sustainable management institutions for effective utilization of the Irrigation schemes and water for production facilities established

Programme Intervention: 010404 Increase access and use of water for agricultural production

Planning, design and supervison services implemented for the Drought Resilience project in Karamoja Sub-region.	Planning, design and supervision of Drought Resilience Project in Karamoja Sub-region is at investment phase (50% progress).
Conducted Socio-economic baseline survey for Drought Resilience project in Karamoja Sub-region.	The draft inception reports and preliminary findings report were submitted for Socio-economic baseline survey for Drought Resilience project in Karamoja Sub-region.
Social Compliance Audit undertaken for Drought Resilience project in Karamoja Sub-region.	Draft inception, first and second quarter reports submitted.
Livestock and rangeland management services offered for Drought Resilience project in Karamoja Sub-region.	Validation of proposed infrastructure undertaken. Capacity needs assessment for community animal health workers conducted Designs and tender documents submitted.
Operation and Maintenance (O&M) support offered for the established Water for Production (WfP) infrastructure under Drought Resilience project for Karamoja Sub-region.	Draft Operation and maintenance strategy submitted. Costed pilot measures and plan prepared.
Water catchment measures implemented for the constructed Water for Production (WfP) infrastructure under the Drought Resilience Project for Karamoja Sub-region.	Water source protection committees established and trained. Draft inception and thematic reports and draft water source protection plans submitted.
Free Prior Informed Consent (FPIC) implemented for Drought Resilience Project in Karamoja Sub-region.	Project site identification and disclosure reports have been submitted. Grievance redress committees have been established and trained. Free, Prior, and Informed Consents have been obtained for the dams, boreholes, and valley tanks.
Environment and Social Impact Assessement (ESIA) and Livelihood Restoration Plan (LRP) conducted, surveyed land, mapped and determined project boundaries for Water for Production (WfP) sites and bufferzones.	The inception, scoping, and baseline survey reports and ToRs have been approved for the Environment and Social Impact Assessment (ESIA). The inception report and valuation methodology have been submitted, and sites have been temporarily demarcated under the Livelihood Restoration Plan (LRP) reports for Water for Production (WfP) sites and buffer zones.

Project:1661 Irrigation For Climate Resilience Project Profile

Budget Output:000003 Facilities and Equipment Management

PIAP Output: 011104b02 Sustainable management institutions for effective utilization of the Irrigation schemes and water for production facilities established

Programme Intervention: 010404 Increase access and use of water for agricultural production

Environmental and Social Management Plan (ESMP) Activities for Kabuyanda and Matanda Irrigation Schemes in the districts of Isingiro and Kanungu respectively successfully implemented.	Environmental and Social Management Plan (ESMP) Activities for Kabuyanda and Matanda Irrigation Schemes in the districts of Isingiro and Kanungu respectively successfully implemented.
Catchment Management measures from the Micro Catchment Management Plans (Kabuyanda and Matanda) and Rwoho Community Development Action Plan implemented by the beneficiary communities.	The implementation of micro catchment measures for Kabuyanda and Matanda commenced with the identification of responsible stakeholders and potential hotspots that require restoration and other catchment measures to be implemented. Supervision of the Contractors' Environmental and Social Management Plans (CSEMP) for Rwoho forest reserve carried out
The restored 1,000 hectares (ha) of Rwoho Central Forest Reserve in Isingiro District protected and maintained.	The restored 1,000 hectares (ha) of Rwoho Central Forest Reserve in Isingiro District were protected and maintained.
Agricultural Extension services to improve production and productivity in Kabuyanda, Olweny and Agoro Irrigation Schemes in the districts of Isingiro, Lira and Lamwo provided.	In Kabuyanda, 3,734 farmers trained in Farmer Field School methodology (1,788 male, 1,946 female). Lead Framers were selected, and 133 farmer field school groups formed. A total of 4,005 farmers registered using the Irritrack App. In Olweny, 70 farmers trained in Farmer Field School methodology (48 male, 22 female) through 16 farmer field schools. In Agoro, 149 farmers trained in Farmer Field School
Value Chain developed in Kabuyanda, Matanda, Olweny and Agoro Irrigation Schemes in the Districts of Isingiro, Kanungu, Lira and Lamwo respectively.	Value Chain Analysis for agricultural commodities like tomatoes, onions, green peppers, cabbage, coffee, beans, bananas, and maize was conducted for Kabuyanda, Matanda, Olweny, and Agoro irrigation schemes. A rapid market analysis was done for banana, bean, maize, coffee, and horticulture value chains. Suppliers of tools, agro-processing equipment, and machinery in Isingiro and Kanungu districts were profiled. Existing farmer organisations were profiled, and detailed reports on their capacity needs were produced.
An Irrigation Management Model for Kabuyanda Irrigation Scheme in Isingiro District developed to completion and established for sustainable use of the scheme.	The irrigation management model for Kabuyanda Irrigation Scheme is still under review.
An e Voucher Management System to aid in the registration of farmers and input dealers as well as monitor the distribution of these in puts in the project area developed and established.	The E-Voucher system I s fully developed and popularisation and roll out is ongoing
Existing cooperatives in Olweny and Agoro Irrigation Schemes in the Districts of Lira and Lamwo trained and strengthened.	NA
Data collected and scheme specific Baselines conducted in the selected schemes of Kabuyanda, Matanda, Agoro, Olweny and Amagoro in the Districts of Isingiro, Kanungu, Lamwo, Lira and Tororo.	Specific baseline data have been completed for the Kabuyanda irrigation scheme. Baseline studies are currently underway for the Matanda irrigation scheme.

Budget Output:000017 Infrastructure Development and Management

PIAP Output: 01040414 New multi-purpose water development schemes constructed.

Programme Intervention: 010404 Increase access and use of water for agricultural production

Kyemamba dam in Lyantonde District constructed to 8.5% progress. This will increase on water for multi-purpose uses after completion.	Land acquisition for the dam is ongoing
Ngugo water scheme phase II in Rwampara District constructed to 22% cumulative progress. This will provide water for multi-purpose uses after completion.	Commencement instructions issued to the contractor
Two (2) Surface water reservoirs constructed to 50% progress in the Districts of Ntungamo and Sembabule using Ministry Equipment. These will provide water for multi-purpose uses.	Construction of the surface reservoirs has not commenced
Feasibility study undertaken and designed One (1) medium Scale Irrigation Scheme in the District of Ntoroko up to 43% progress.	Preliminary studies conducted for the Medium Scale irrigation scheme in Ntoroko conducted however, the site identified failed the the test
Two (2) multi-purpose earth dams designed upto 30% progress in the Districts of Ntungamo and Sembabule.	Procurement of the design consultant has been initiated
Construction of Kyemamba multi-purpose dam in Lyantonde District supervised and monitored and the contractor was complying to specifications.	Construction of Kyemamba dam in Lyantonde District has not yet commenced
Land for facility development secured and land owners compensated for construction of Water for Production (WfP) facilities in Western Region.	Land secured for the construction of valley tanks

VOTE: 019 Ministry of Water and Environment

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1787 Water for Production Regional Centre-West Phase II	
PIAP Output: 01040414 New multi-purpose water development schemes constructed.	
Programme Intervention: 010404 Increase access and use of water for agricultural production	
Project Affected Persons (PAPs) compensated for Kiyumbakimu bulk water facility in Rakai District.	Disclosure of Central Governmnet Values to the project affected persons is ongoing
Serviced, maintained and undertook minor repairs of Earth moving Equipment in the Western Region.	7 excavators, 4 Bulldozers, 1 wheel loader, 1 backhoe, 1 tractor, 1 tipper, 2 Bulldozers, 3 excavators were serviced and maintained.
Distribution pipe network extended up to 15% progress for Kyenshama and Mabira dams in the Districts of Mbarara and Kiruhura. This will enhance their utilization after completion.	Completed the construction of 23km distribution network, installation of pipe fittings and valves and construction of inspection chambers at mabira dam in Kiruhura district
Functionality of Water for Production Infrastructure and facilities supported.	Functionality supported for Mabira dam in Mbarara district, Nyamihanga Solar powered Irrigation Scheme in Rukiga district, Mukunguru valley tank in Kazo District, Mubuku II Irrigation scheme in Kasese District and Rwengaaju Irrigation Scheme in Kabarole District through replacements of damaged solar panels, pump controllers and solar pumps, desilting of intake weirs and replacement of damaged pipes and fittings

Cumulative Expenditures made by the End of the Quarter to Deliver Cumulative Outputs *UShs Thousand*

Project:1788 Water for Production Regional Centre - North Phase II

Budget Output:000003 Facilities and Equipment Management

VOTE: 019 Ministry of Water and Environment

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1788 Water for Production Regional Centre - North Phase II	
PIAP Output: 01040416 Sustainable management institutions for effective utilization of Dams and valley tanks established.	
Programme Intervention: 010404 Increase access and use of water for agricultural production	
Implementation support offered for sustainable management of multi-purpose Water for Production (WfP) facilities in Northern region (trained, built capacity and formed management committees for completed and ongoing multi-purpose WfP facilities).	Provided implementation support for sustainable management of Odeye, Opwach, and Apitopat solar-powered irrigation systems, as well as Tochi, Olwenyi, and Wadelai Irrigation schemes in Oyam, Lira, and Pakwach Districts, respectively. (Trained farmers on system operation and maintenance, as well as good agronomic practices. Built the capacity of Irrigation water user Associations, Cooperatives, block leaders, and the Grievance Redress Committee (GRC). Restructured the leadership of block leaders. Recruited tractor operators. Sensitised farmers on sustainable management practices and engaged landlords on tenancy agreements with farmers.) Additionally, elected tractor management committees.
Support to private Irrigation system operators offered to operate, maintain and manage off-farm infrastructure for Olweny, Tochi ,Wadelai and Agoro irrigation schemes in the Districts of Lira, Oyam, Pakwach and Lamwo respectively.	Private Irrigation system operators were supported to undertake operation, maintenance and management of the off-farm infrastructure for Olweny, Tochi and Wadelai irrigation schemes in the Districts of Lira, Oyam and Pakwach respectively.
Success stories, lessons and emerging issues at established selected Water for Production (WfP) facilities in the Northern Region documented.	Success stories, lessons and emerging issues were documented for Apitopat, Opwach, Akworo, Abudama and Acimi Solar Powered Irrigation Schemes as well as Wadelai ,Olwenyi, and Tochi irrigation schemes Scheme in Apac, Omoro, Kitgum, Apac,Pakwach, Lira and Oyam Districts respectively.
Water source protection measures in the immediate catchment of the multi-purpose Water for Production (WfP) facilities implemented.	Water Source protection measures were conducted for Ocibi-B and Pawinyo valley tanks, Apitopat, Akwerali, Aluka and Oryamai valley tanks in the Districts of Amuru, Adjumani, Otuke, Amolatar, Zombo, Pader and Amolatar respectively.
Infrastructure management services for completed Water for Production (WfP) facilities in Lango, Acholi and West Nile Sub-regions offered.	Infrastructure management services offered for completed Water for Production (WfP) facilities of Andibo, Girigiri and Asada in the districts of Packwach, Arua and Zombo
Specialized machinery and equipment used in construction of multi-purpose water surface reservoirs maintained.	Six sets of equipment (6. Excavators and 6. Bull dozers) were maintained, along with an excess of 1. excavator, 2. Tipper trucks, 1. Water bowser truck, and 1. Low bed truck.

Budget Output:000017 Infrastructure Development and Management

PIAP Output: 01040402 Multi-purpose water development schemes including valley dams, valley tanks developed

Programme Intervention: 010404 Increase access and use of water for agricultural production

Feasibility study and detailed design of One (1) multi-purpose dam in Northern Uganda undertaken to completion.	Procurement for Feasibility study and detailed design of One (1) multi-purpose dam in Northern Uganda is at evaluation stage.

PIAP Output: 01040414 New multi-purpose water development schemes constructed.

Programme Intervention: 010404 Increase access and use of water for agricultural production

One (1) medium scale Irrigation scheme constructed to 10% progress in Otuke District. This will increase on crop production after completion.	Procurement for Construction of One (1) medium scale Irrigation scheme in Otuke District is at solicitation stage.
One (01) surface reservoir of capacity 20,000m3 constructed in Amuru District providing water for multi-purpose uses.	Construction of two (02) surface water reservoirs of capacity 10,000m3 each in Amuru District and Adjumani Districts respectively is at 98% and 95% cumulative progress. This will provide water for multi-purpose uses after completion.
An office block at the Water for Production Regional Centre - North Equipment Yard constructed to 30% cumulative progress.	Technical design report for the Construction of an office block at the Water for Production Regional Centre - North Equipment Yard has been submitted and approved.
Feasibility study and detailed design of One (1) Medium scale irrigation scheme undertaken in Northern region.	Procurement for Feasibility study and detailed design of One (1) medium scale irrigation scheme is at evaluation stage
One (1) multi-purpose water reservoir designed in the District of Lamwo.	Pre feasibility studies for design of One multipurpose reservoir have been completed and designs have commenced.
Feasibility study and detailed design of One (1) multi-purpose dam in Yumbe District undertaken.	Feasibility study and detailed design of One (1) multi-purpose dam in Yumbe District has not yet been undertaken.

Project:1789 Water for Production Regional Centre - East Phase II

Budget Output:000003 Facilities and Equipment Management

VOTE: 019 Ministry of Water and Environment

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1789 Water for Production Regional Centre - East Phase II	
PIAP Output: 01040416 Sustainable management institutions for effective utilization of Dams and valley tanks established.	
Programme Intervention: 010404 Increase access and use of water for agricultural production	
Functionality of Water for Production (WfP) facilities in Eastern Region supported.	Carried out Trainings for five (5) Farm management committees formed in Puwa, Bunakhaima, Amukurat, Kabos and Owii. Carried out final technical inspection for Five (5) scheme and handed them over to the beneficiaries (Lolikoyo in Tororo, Amukurat in Ngora, Matata in Bukedea, Namadope in Luuka, Butambala in Kaliro and Bunakhaima in Manafwa District) Conducted four (4) Stakeholders engagement meetings for Mpiti Valley tank in Kaliro, Namale and Natoto sites in Kibuku district. Documentation of Success stories on completed sites (Aleles in Soroti, Chembobai in Bukwo, Cheptui in Kapchorwa, Limoto in Pallisa district) Beneficiary farmer mapping of Nankusi, Chembobai Extension, Puwa, Matata, Amukurat, Cheptui sites. Collection of Water User Fees and follow up on farm sales and management committee progress.
Irrigation system operators supported to operate, maintain and manage the off-farm infrastructure for Doho I, Doho II, Ngenge and Sipi irrigation schemes.	Doho 1 Stakeholders meeting to change management model to Farmer based model was held Quarterly review meeting of Doho 2 with stakeholders from Butaleja District was conducted. Acquisition of land for the construction of Wapala Office block Conducted Landlords meeting in Ngenge Scheme. Conducted Block leaders' elections for the 47 blocks in Ngenge Scheme. Carried out a leadership Training for Block leaders in Ngenge scheme Conducted Election of IUWA in Ngenge Scheme Validation and disclosure of Project Affected Persons values at Sipi. Formed grievance committees for SIPI Compensation of Project Affected Persons with houses at the Intake area was done. Conducted Sensitization meetings of Project Affected Persons who were relocating their homes.
Pre-construction activities implemented at planned Water for Production (WfP) facilities (Earth dams and medium scale Irrigation schemes).	Carried out Four (4) community entry meetings for the new sites to be constructed (Kalait and Awuyo in Tororo District, Ajoli in Amuria district and Pailekol in Katakwi District. Handed over Two (2) sites for construction to the contractor (Kalait and Awuyo sites in Tororo district)
Trees and pasture planted along the buffer zones of Water for Production (WfP) facilities hence protecting and managing the catchment.	Procurement for supply of Tree seedlings is still at Evaluation

PIAP Output: 01040416 Sustainable management institutions for effective utilization of Dams and valley tanks established.	
Programme Intervention: 010404 Increase access and use of water for agricultural production	
Offered Implementation support for sustainable management of multi-purpose Water for Production (WfP) facilities in Central region (trained, built capacity and formed management committees for completed and ongoing multi-purpose WfP facilities).	Social economic impact assessment studies conducted for 7 sites where construction of water for production facilities is to be done in the districts of Butambala, Masaka and Kalungu
Success stories, lessons and emerging issues at established selected Water for Production (WfP) facilities in the Central and Bunyoro Sub-regions documented.	Procurement of consultant to document success stories, lessons and emerging issues at established selected Water for Production (WfP) facilities to be initiated at the end of Q4
Irrigation System Operators supported for Two (2) completed Solar Powered Irrigation Schemes in Central and Bunyoro Sub-regions.	Procurement of irrigation system operators to support farmers in sustainable management and O&M was halted
Water source protection measures in the immediate catchments of the multi-purpose Water for Production (WfP) facilities in Central and Bunyoro Sub-regions implemented.	Terms of Reference (ToRs) for the consultancy to conduct water source protection measures in the immediate catchment have been prepared
Furniture, AC, Shelves, curtains for the Water for Production Central Regional office procured and supplied.	Office furniture was procured
Five (5) Laptops procured and supplied.	Five laptop computers were procured
Appropriate visual aids (IEC) materials of Water for Production facilities designed, produced and disseminated..	Design, production and dissemination of appropriate visual aids (IEC) materials of Water for Production facilities has not yet commenced.

Budget Output:000017 Infrastructure Development and Management

PIAP Output: 01040402 Multi-purpose water development schemes including valley dams, valley tanks developed

Programme Intervention: 010404 Increase access and use of water for agricultural production

Geotechnical investigations undertaken for Three (3) surface water reservoirs in the Central Region Districts of Kiboga, Masaka and Gomba to 100% completion.	Geotechnical investigations for Three (3) surface water reservoirs in the districts of Kiboga, Masaka and Gomba are ongoing
Specialised machinery and earth moving equipment repaired and maintained.	Earth moving Equipment Maintained-
Ongoing works monitored and supervised complying to specifications.	Construction works of Solar Powered Irrigation projects were monitored and supervised under the SPWSISP in the districts of Wakiso, Mpigi, Masaka, Mityana, Lwengo, Butambala, Kayunga, Gomba, Nakasongola, Luwero, Mubende and Kasanda

PIAP Output: 01040402 Dams and valley tanks for livestock watering constructed

Programme Intervention: 010404 Increase access and use of water for agricultural production

Two (2) surface water reservoirs constructed to 60% completion in the Districts of Kalungu and Nakaseke. These will provide water for livestock after completion.	Completed the construction of Tuura Valley Tank in Masindi District.. Kikoota surface water reservoir in Kalungu District was constructed to 75% completion.
Improvement works undertaken on completed Solar Powered Irrigation schemes in the Districts of Kyankwanzi, Kalangala and Mpigi.	Improvement works undertaken on One (1) Solar Powered Irrigation Scheme in the District of Mpigi. construction works for Tikalu solar powered irrigation system -Wakiso district is at 65% completion.

PIAP Output: 01040414 New multi-purpose water development schemes constructed.

Programme Intervention: 010404 Increase access and use of water for agricultural production

Surface water reservoirs rehabilitated in the Cattle Corridor Districts of Nakasongola and Gomba to 50% cumulative progres. This will improve on their functionality.	Rehabilitation of Kyanamura Valley Tank in Kiryandongo District is at 10% progress.
One (1) medium Scale Irrigation scheme constructed to 30% cumulative progress in the District of Nakaseke. This will increase on crop production after completion.	The medium Scale Irrigation scheme in Nakaseke District has been constructed to 30% completion.

VOTE: 019 Ministry of Water and Environment

Compliance of National Programmes and projects to environmental laws and standards (Oil, Gas, Mining among others) strengthened through technical backstopping and monitoring environment and social safeguards and EIA reviews ..	Conducted compliance monitoring for 11 National Projects to ensure adherence to environmental laws and standards. These projects include; IFPA-CD, EbA, ICRP, Nexus Green, Building Resilient Wetlands and Communities, SACRIAC, GCF project on National Wetlands and Catchment areas to restore catchments, Solar-Powered Irrigation and Water Supply Project, Nsamizi Institute Water Project, and Pandemic Preparedness and Response Project (PREPARE). Conducted trainings to operationalize Grievance Redress Committees for the Restoration of Wetlands and Associated Catchments project in the districts of Kaliro, Namutumba, Kibuku, Budaka and Butaleja. Supported Local Governments to prepare Environment and Social Management Plans (ESMPs) under the Building Resilient Communities, wetland ecosystems and associated catchments projects in the 24 project districts. Compliance monitoring was conducted for oil and gas activities in Hoima, Bulisa, Nwoya, and Kikube districts.
A robust Environmental assessment, monitoring and surveillance plan operational in cities/municipalities and country wide.	Developed ToRs for robust environmental assessment, monitoring and surveillance for cities. Reviewed 12 Project briefs and ESIAs for the following projects; 4 Project briefs for valley tanks and boreholes under the Drought Resilience Project for Karamoja (KDR). Project Brief for the proposed establishment of fish farming project in Kikube district. ESIA for the proposed JTUG Fuel Filling Station to be located in Kikube district. Project Brief for the proposed solar powered water supply project in Nwoya district. Project Brief for the proposed solar powered irrigation system and water supply in Kabasanda parish, Butambala district Project Brief for the proposed design of Kagera Mar pilot project and monitoring system. ESIA for the proposed Ekibira eco lodge in Mpuga subcounty, Kanungu district. ESIA for the proposed redevelopment of Tabebuia SPA and Safari Resort. Project Brief for the reconstruction of five (5) failed bridges on the National Road network under design and build.

5-year National Environment Action Plan developed (NEAP). Strategy for management of chemicals developed." Cleaner production initiatives in industries promoted for resource use and efficiency. Conditional grant for ENR management at LGs established.	Prepared draft National Strategy for the Sound Management of Chemicals. Prepared draft National Guidelines for the sound management of Chemicals. Developed draft National Guidelines for conducting risk assessment and reduction for hazardous industrial and consumer chemicals. Supported the development of the National one health microbiology equipment harmonization and standardization plan. A concept on partnering to develop One Health research and training resources (RETRACE-OH) was submitted to the Applied Global Health Research Board and passed the first-phase criterion. Draft National Action Plan for the sound Management of chemicals updated.
Bankable project proposals targeting global environmental funds developed.	Prepared 2 concepts i.e.; Nature-Based Solutions that Support resilient, connected Ugandan Ecosystems and enhancing sound management of chemicals in schools and tertiary institutions. In collaboration with NEMA, prepared and submitted to the Global framework on Chemicals one project proposal on Strengthening sound management of chemicals in Secondary schools. Supported the preparation of the Environment and Natural Resources component for a project proposal on Water Security for Livelihoods Transformation.

Enforcement and control of field inspections, Investigations, prosecutions, Community policing and Special operations to support districts, targeting the most affected wetlands conducted; Subsistence allowance paid to EPPU.	During the reporting period, the Wetlands Management Department together with EPPU conducted 40 field inspections that led to 27 registered wetland degradation cases and intensified enforcement across multiple districts. Legal action was taken against individual offenders and groups, including 35 evictees from Lubigi Wetland. Operations in Wakiso, Kampala, and Jinja resulted in 29 arrests, 20 signed compliance agreements, 3 improvement notices, 7 police summons, and 4 court submissions. Twelve trucks were impounded and 42 assorted tools recovered. In addition, 62 community policing engagements were held to raise awareness, and 30 wetland restoration activities were successfully implemented to rehabilitate degraded areas. These efforts reflect strengthened enforcement and community outreach to protect Uganda's wetland ecosystems. Subsistence allowance to EPPU was paid.
The Ramsar Center for Eastern Africa Supported. Patrols (routine/ post-restoration) and compliance monitoring conducted. Bonafide occupants in designated wetlands mobilized and sensitized in preparation for compensation.	NA

24 Local Governments technically backstopped ans coordinated Quarterly monitoring of Project interventions conducted. Environment Impact Assessments and Audits undertaken for the four projects that are near or inside wetlands	All the 24 GCF Local Governments were technically backstopped and coordinated. They include; Rubirizi, Rukungiri, Kisoro, Buhweju, Mitooma, Sheema, Ntungamo, Bushenyi, Kabale, Rukiga, Rubanda, and Kanungu in south western region and Ngora Butaleja, Butebo, Kibuku, Namutumba, Pallisa, Tororo, Kumi, Kaliro, Bukedea, Mbale and Budaka in Eastern region.

PIAP Output: 06020303 Mobilize stakeholders and develop and implement costed management plans.

Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:

24 Local Governments technically backstopped ans coordinated Quarterly monitoring of Project interventions conducted. Environment Impact Assessments and Audits undertaken for the four projects that are near or inside wetlands	Project interventions were monitored across 18 districts, with compliance inspections conducted in Rubirizi, Mbarara City, Mbarara District, Masindi District, Fort Portal, and Rukiga, totaling 20 inspections and 3 EIA audits for wetland-based projects in Masoli, Sanga, and Namawojolo. Surveillance of 9 wetland systems was carried out in Waiga, Kabalye, Nyangahya, Nyakatoogo, Kiiryana, and Kiirasa. Structured field visits in South Western Uganda assessed wetland restoration and demarcation, supported by visual and geospatial data, stakeholder consultations, and feedback collection. Positive trends in vegetation regrowth and community awareness were noted, though encroachment issues remain. Additionally, an environmental and social impact assessment was conducted for a proposed Ecotourism Lodge in Kisoro District, highlighting its potential for sustainable development and community empowerment through strong mitigation and monitoring strategies

Project:1520 Building Resilient Communities, Wetland Ecosystems and Associated Catchments in Uganda	
External Financing	0.000
Arrears	0.000
AIA	0.000
Budget Output:140020 Advocacy, sensitization and information management	
PIAP Output: 06020301 Improve coordination, regulation and monitoring of environment management at both central and local government levels	
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:	
30% of wetland resource users and other stake holders in the project areas sensitized. 2 pilot primary schools enrolled to participate in awareness programmes (Mpologoma and Rwizi Wetland Systems)	Sensitization activities on wetland conservation were conducted across the 24 GCF project districts, reaching a broad range of stakeholders and resource users. Key initiatives included a national dialogue on wetlands management held at Protea Hotel, 11 radio talk shows, 1 TV talk show, and a newspaper supplement. A total of 3,046 IEC materials—such as T-shirts, banners, calendars, brochures, posters, and 3D models—were produced and disseminated within the project area. Additionally, 3,600 stakeholders were sensitized during World Wetlands Day celebrations in Rubirizi District. These efforts significantly enhanced public awareness and stakeholder engagement in wetland protection. However, no pilot primary schools were enrolled in awareness programmes under the Mpologoma and Rwizi Wetland Systems.
PIAP Output: 06030203 Protection and restoration of strategic fragile ecosystems undertaken	
Programme Intervention: 060302 Increase investment in value addition to environment and natural resources products and services.	
30% of wetland resource users and other stake holders in the project areas sensitized. 4 pilot primary schools enrolled to participate in awareness programmes (Mpologoma, Rwizi Wetland Systems)	NA
At least 5 conservation days commemorated 24 Local Government staff trained in report writing for restoration and demarcation	3 key conservation days were commemorated during the reporting period, significantly enhancing public awareness and stakeholder engagement. The World Wetlands Day 2025 event in Rubirizi District attracted 3,600 participants (3,000 in-person and 600 online) and featured exhibitions, restoration demonstrations, and stakeholder speeches, promoting community-led wetland conservation. The department also actively participated in UWEK 2025 through a well-attended exhibition booth and two side events focused on peatlands conservation and water resources management, boosting visibility among government, civil society, and private sector actors. Additionally, the department joined World Environment Day celebrations on June 5th in Kabale District at Kigezi High School Primary Playground.

PIAP Output: 06030203 Protection and restoration of strategic fragile ecosystems undertaken	
Programme Intervention: 060302 Increase investment in value addition to environment and natural resources products and services.	
100 District technical staff trained on wetland assessment, inventory, planning and management WMD staff and district local governments trained on application and utilization of the National Wetlands Information System(NWIS) in the 24 GCF districts.	A total of 67 staff, comprising 37 from the Wetlands Management Department (WMD) and 30 from district local governments, were trained in the application and utilization of the National Wetlands Information System (NWIS) across Eastern, and Mbarara regional centers. The training covered key areas including NWIS navigation and data management, data analysis and interpretation, wetlands mapping, spatial planning, and reporting and documentation. These capacity-building efforts are expected to enhance staff efficiency in managing wetland data, improve analytical capabilities, and support more effective conservation planning and resource allocation. Training of district technical staff on wetland assessment, inventory, planning and management was not conducted.
Revised wetland atlas produced using high resolution UAV/drone images from the Greater Kampala metropolitan areas of Kampala, Mukono, Wakiso and Mpigi. 2 exchange visits conducted	The revised Wetland Atlas for the Greater Kampala Metropolitan Areas of Kampala, Mukono, Wakiso and Mpigi was not produced, and consequently, it was not disseminated. No exchange visit was conducted this financial year.
PIAP Output: 06030204 Effective engagement and participation in Multilateral Environmental Agreements (MEAs) and Protocols	
Programme Intervention: 060302 Increase investment in value addition to environment and natural resources products and services.	
Revised wetland atlas produced using high resolution UAV/drone images from the Greater Kampala metropolitan areas of Kampala, Mukono, Wakiso and Mpigi. 1 exchange visits conducted	The revised Wetland Atlas for the Greater Kampala Metropolitan Areas of Kampala, Mukono, Wakiso and Mpigi was not produced, and consequently, it was not disseminated.
PIAP Output: 06030613 Targeted stakeholders sensitized in sustainable natural resource management	
Programme Intervention: 060301 Increase awareness on sustainable use and management of environment and natural resources;	
At least 5 conservation days commemorated 2 learning exchange visits conducted. Staff from 10 Local Governments trained in report writing for restoration and demarcation in South Western and Eastern Uganda.	3 key conservation days were commemorated during the reporting period, significantly enhancing public awareness and stakeholder engagement. The World Wetlands Day 2025 event in Rubirizi District attracted 3,600 participants (3,000 in-person and 600 online) and featured exhibitions, restoration demonstrations, and stakeholder speeches, promoting community-led wetland conservation. Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1520 Building Resilient Communities, Wetland Ecosystems and Associated Catchments in Uganda	
PIAP Output: 06020305 Restoration of critical wetlands; Demarcate, gazette and restore 900 Kms of wetlands; Gazette 6 critical Wetlands.	
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:	
44Ha of degraded mountain ecosystems restored; 44Km of natural water bodies and reservoirs, Riverbanks, and Lake-shores surveyed and demarcated. 112 ha of degraded river banks and lake-shores restored and maintained.	NA
3,024 Ha of degraded wetlands restored in selected wetlands in Eastern and Western Uganda.	A total of 9,165.92 hectares of degraded wetlands were restored across Eastern and Western Uganda during the financial year, targeting critical ecosystems in districts such as Buhweju, Bushenyi, Kabale, Kisoro, Pallisa, Butebo, Bukedea, Namutumba, Kaliro, Tororo, Ngora, Budaka, Kibuku, Kumi, and Mbale. Restoration sites included Kanunka, Kandekye, Nyombe, Mpologoma-Naigombwa, Komirya-Akol, and Lumbuye-Nabikoli wetlands. Post-restoration surveillance was conducted in wetlands like Limoto, Lake Lemwa, Kitoikawonon, Okoboi-Galilaya, Nyamirembe, and Ruhezamyenda-Mulindi to monitor ecological recovery and boundary integrity. Alongside restoration, sensitisation efforts were carried out to engage local communities, raise awareness on wetland conservation, and promote sustainable use practices, contributing to improved stewardship and reduced encroachment.
PIAP Output: 06030615 Conserved and degraded wetlands demarcated and gazetted	
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:	
2 Framework Management Plans reviewed and implementation Committees for Awoja and Namatala re-activiated. Ramsar site management committees reactivated Bisina and Opeta in Eastern Uganda	Framework Management Plans were not reviewed and implementation Committees for Awoja and Namatala were not re-activated this financial year. Ramsar site management committees were not reactivated for Bisina and Opeta in Eastern Uganda.
A bankable project proposal to update the National Wetland Inventory developed.	1 bankable project proposal for replacer project was developed.
PIAP Output: 06030617 2000 Ha of degraded riverbanks and lakeshores restored and maintained	
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:	
Range-land ecosystem management action plans developed and implemented in 2 selected Local Governments (Luwero, Kiboga ,).	NA
Development of a programme for establishment of green belts and urban rivers in the cities of Soroti, Mbale, Gulu, Jinja, Lira, Fortportal, Mbarara, Arua, and Masaka.	NA

Project:1520 Building Resilient Communities, Wetland Ecosystems and Associated Catchments in Uganda	
PIAP Output: 06030617 2000 Ha of degraded riverbanks and lakeshores restored and maintained	
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:	
168Km of conserved and degraded wetlands demarcated with pillars and live markers in the GCF districts (where pillars are). 560 branded concrete pillars procured.	A total of 402.72 km of wetland boundaries were demarcated across GCF-supported districts in Eastern and Western Uganda to strengthen wetland protection and support restoration efforts. Major sites included Kandekye, Nyombe, Mpologoma-Naigombwa, Komirya-Akol, Budomero-Bulumba, and Lumbuye-Nabikoli. Two rapid assessments were conducted in Muzizi-Kabarole and Awoja-Ngora to evaluate wetland degradation. Post-demarcation monitoring was carried out to verify boundary integrity and assess ecological recovery. Sensitisation campaigns engaged communities and stakeholders to promote awareness, compliance, and sustainable wetland management.
2 Wetland based enterprises for improved community livelihoods promoted under the NWRP. Site suitability assessment to establish community projects in Lumbuye (Kaliro) conducted.	Site suitability assessment was conducted to support establishment of wise use facilities at Kaliro. Wetland based enterprises for improved community livelihoods was not supported under the NWRP in this reporting period.

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1697 National Wetlands Restoration Project	
Budget Output:000014 Administrative and Support Services	
PIAP Output: 06020301 Improve coordination, regulation and monitoring of environment management at both central and local government levels	
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:	
4 Regional Technical Support Units functional. Environment and Natural Resources Issues Papers prepared and presented at Local Government budget workshops.	The 4 TSUs were equipped with office running imprest.
Subscription fees for AMCEN, RAMSAR, IUCN, UNEP paid; Office operations facilitated; Utilities for the Wetlands Management Department paid (Water and electricity);	Office operations were facilitated including utilities for the wetlands management department were paid (water and electricity) in all the four quarters.
Conduct project evaluation (Develop TOR, procure consultant, conduct stakeholder engagements, review and prepare report, print and disseminate end term project report)	Project evaluation for the National Wetlands Restoration project was undertaken. Evaluation report review was done and edited and final copy was presented.
Quarterly monitoring of Project interventions conducted. 50 Local Governments and Urban Councils technically backstopped and coordinated; Technical back stopping, supervision and monitoring undertaken in the four regions.	Wetlands Management Department (WMD) conducted monitoring, supervision, and technical backstopping across four regions, supporting 41 Local Governments and Urban Councils, with focused efforts in 11 districts including Mpigi, Wakiso, and Nakaseke. Activities included wetland demarcation, restoration, and planning, such as the Makanaga Wetland in Mpigi and Mabamba in Wakiso, alongside community engagement and mobility support in Nakaseke. Restoration efforts in wetlands like Sezibwa, Mpanga, and Awoja showed visible ecological improvements and reduced encroachment. However, a Phase I assessment revealed delays due to logistical challenges and late funding, incomplete documentation, discrepancies between reported and verified outputs, and weak enforcement mechanisms, raising concerns about long-term sustainability ahead of Phase II.
Environment Impact Assessments and Audits undertaken for the four projects that are near or inside wetlands.	In the last quarter, the Wetlands Management Department carried out a comprehensive review of environmental assessments and stakeholder engagements across several districts, including evaluations of three Environmental Impact Assessments (EIAs) and one environmental audit report, with feedback submitted to NEMA. Reviews also covered project briefs for the Kagera MAR pilot, a solar-powered irrigation system in Butambala, and an ESIA for a 20 MW solar plant in Madi-Okollo, where operations were limited to dry land. The department assessed a proposed plywood plant in Mubende and held consultations on a peat mining project in Isingiro, which was rejected twice over environmental concerns. The MASDAR solar project in Bulambuli is still under review with MoLHUD, and the Cumulative Impact Assessment for the Kingfisher Development Area remains ongoing.

50 District technical staff trained on wetland assessment, inventory, planning and management; WMD staff and district DLG staff trained on application and utilization of the National Wetlands Information System(NWIS) in Central and Northern Uganda	Capacity-building efforts focused on enhancing technical skills among Wetlands Management Department (WMD) staff and district officers. A total of 23 personnel were trained on wetland mapping using automated aerial vehicles (drones) to support the upgrading and maintenance of the National Wetlands Information System (NWIS). Targeted training sessions were conducted for WMD staff in the Central Region, emphasizing accurate data entry into NWIS. The training included hands-on demonstrations, guided practice, and troubleshooting, resulting in 100% successful completion. Participants reported increased confidence and competence in using NWIS for routine data entry, along with improved understanding of its role in national wetlands monitoring and reporting.
Wetlands mapped across the country and the National wetlands 2025 dataset generated. 55 district wetland maps along Muzizi, Lumbuye and Awoja ground trothed and produced	Country wide mapping did not take place and National wetlands 2025 dataset was not generated. A total of 44 district wetland maps were produced; 35 district wetland maps along the Muzizi, Lumbuye, and Awoja systems were ground-truthed to validate spatial data and enhance accuracy. Additional 9 district wetland maps were produced to aid in regulatory compliance and strengthen field-level monitoring and enforcement of wetland protection measures. These mapping efforts contributed significantly to the operationalization of the National Wetlands Information System.

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1697 National Wetlands Restoration Project	
PIAP Output: 06020301 Improve coordination, regulation and monitoring of environment management at both central and local government levels	
Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:	
Fact sheets produced, translated and disseminated for 12 Ramsar sites. 50 Local Governments and 15 Urban Councils technically backstopped and coordinated	WMD Conducted technical backstopping of 41 Local Governments and Urban Councils, with focused support provided to 11 districts including Nakaseke, Mpigi, Nakasongola, Wakiso, Lira, Oyam, Gulu, Kitgum, Pallisa, Kibuku, and Busia. Key activities included inspection and supervision in Mpigi District, notably the demarcation of Makanaga Wetland in Luwala Parish, and support to Wakiso District's initiative to develop a Wetland Management Plan for Mabamba. In Nakaseke, the Wise Use Model along Mayanja Kato Wetland was reviewed, and bicycles were distributed to field-level stakeholders to enhance mobility and engagement. Additional monitoring in Buikwe, Mukono, and Luwero focused on restoration of the Sezibwa Wetland, emphasizing ecological rehabilitation and community participation.
5 Activities in the CEPA implemented through conducting 8-Radio talk shows, 8 Barazas,4 Webiners (in East, West, Central and Poject target beneficiaries and other stake holders sensitized on wetland conservation	Wetlands Management Department intensified public awareness and community sensitization efforts to promote wetland conservation. Media outreach included 8 radio talk shows, 1 TV show, and a newspaper pullout for World Wetlands Day in Rubirizi, followed by 3 additional radio shows in Eastern Uganda under the CEPA framework. Community sensitization targeted beneficiaries and stakeholders across districts, with activities in Rubirizi, Pader, Kole, Lira, Wakiso, Mukono, and Kampala, and an expanded outreach through meetings in Lira, Oyam, Butalejja, Bulambuli, Sironko, Bukedea, Mukono, and Mpigi. These initiatives boosted public engagement, encouraged responsible wetland use, and strengthened stakeholder participation.
8 primary schools participating in awareness programmes (Mayanja, Tochi, Awoja and Muzizi Wetland Systems) enrolled.	0 primary schools participating in awareness programmes (Mayanja, Tochi, Awoja and Muzizi Wetland Systems) were enrolled.
Wetland management institutions at National, District and community levels strengthened.	200 Wetland system supervisors (National), Parish chiefs (District), Community wetland management committees (Community level) in 13 districts strengthened by supporting them with mobility solutions (200 Bicycles).
PIAP Output: 06030203 Protection and restoration of strategic fragile ecosystems undertaken	
Programme Intervention: 060302 Increase investment in value addition to environment and natural resources products and services.	
Atleast 5 conservation days commemorated including World Wetlands Day commomerated 2025, National and regional conservation events attended (WED, UWEK, Wildlife day, World Food Day etc)	2 conservation days/events commemorated (World Environment Day and Central Reginal commemoration of World Wetlands Day 2025, organized by Wakiso DLG

Budget Output:140021 Ecosystems Restoration and Protection

PIAP Output: 06020305 Restoration of critical wetlands; Demarcate, gazette and restore 900 Kms of wetlands; Gazette 6 critical Wetlands.

Programme Intervention: 060203 Strengthen conservation, restoration of forests, wetlands and water catchments and hilly and mountainous areas:

900 Km of conserved and degraded wetland systems demarcated Awoja (Soroti), Lumbuye (Mayuge and Jinja), Mpanga (Kitagwenda, Ibanda, Kamwenge, Kyenjojo, Kabarole, Fort Portal City), Ishasha (Kanungu dictrict). 2,000 branded concrete pillars procured	A total of 437 km of wetland boundaries were demarcated across Uganda, including Lubigi, Nabakazi, Bimbye, Muziizi-Hondwa, Fortportal, Mugunu, Kamutebe, Rymarebe Katanda, Kyerenga, Kamwene Mpanga, Kahuge Mpanga, Kagasha, Mpanga Gorge, Kyarutanga Kanuka, Ruhanga, Nyakabaale, Komucwezi, Kagoro, Nyamambuka, Awoja, Malaba-Siteko, Nambigirwa, Makanaga, Semagimbi, Namayumba, Mayanja Kato, Torchi–Arocha, Okelo Moto Akuri, and Aswa wetlands. Mobilization and rapid assessments were conducted in Northern and Central Uganda, with sensitization meetings in Mpigi, Wakiso, and Kagadi to support demarcation of Makanaga, Mayanja Kato, and Muziizi-Hondwa. Ground-truthing and mapping were done for Mayanja Kato, Semagimbi, Mabamba, and Makanaga to guide boundary definition.
Site suitability assessment to establish community projects in Muzizi (Buwheju, Kibale, Kyegegwa and Kagadi); and Lumbuye (Kaliro, Iganga, Mayuge). Change analysis undertaken and status of demarcated and restored wetlands documented.	Suitability assessment along Muzizi in Kyegegwa district to establish community projects was conducted.
Designation of selected wetlands as Ramsar sites finalized (L.Wamala and Kaku-Kiyanja). Wetland management plans developed for 5 restored wetlands.	Central Regional team participated in the development of Makanaga Wetland Management Plan in Mpigi and Mabamba Wetland Management Plan in Wakiso districts.
Wetland inventory for the districts of, Bunyanga Pader and Agago completed.	Wetland inventory for the districts of, Bunyanga, Pader and Agago were not completed.
2 wetlands management plans implemented in Sezibwa and Lumbuye Wetland systems.	For the update of the Mabamba Wetland Management Plan, 3 sensitization meetings were conducted specifically in Wakiso District. Additionally, 2 stakeholder meetings on the wise use of Sezibwa Wetland were conducted in Ntunda and Nagojje Sub-Counties, Mukono District.

150 proposed and existing developments near or in wetland areas monitored, inspected and regulated for compliance. Assorted oils, lubricants and vehicle tyres procured.	Wetland inspection and enforcement activities intensified across multiple districts to address widespread degradation and promote compliance. Inspections revealed significant threats from rice cultivation and soil backfilling, leading to nine restoration orders and support from the Environmental Protection Police Unit (EPPU), including field operations in Budaka and compliance assistance in Mbale. Targeted enforcement in Kole, Lira, Wakiso, and Mukono addressed illegal sand mining, vegetation burning, marrum dumping, and unauthorized construction. These actions resulted in arrests, vehicle impoundments, police bonds, and halted activities, reflecting the department's sustained commitment to wetland protection and regulatory enforcement.

PIAP Output: 06010117 Operational Water information systems at the central level and in the 4 Water Management Zones	
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level	
Hydrological decision support system for improved water resources management & early warning information piloted in two catchments	Surface water stations along the Nile have been surveyed at different sections i.e Packwach, Sio, Mbulamuti and Lalopi which has facilitated the update of datums; Quality control of hydrometeorological data has been undertaken upto 50%; Characterisation of Aswa and Manafwa catchments is still ongoing; Survey of Manafwa river cross section was carried out
1 State of water resources report prepared	ToRs for preparation of the Water resources have been prepared; Inception meeting for the preparation of the state of water resources report has been held; 100% of the status of the water resources report has been completed and the Report produced
Equipment (Batteries, solar panels, data downloading cables, simcards, steel tapes & water level divers & dippers) supplied & installed at 10 Surface water and 10 groundwater stations	
Hydrological Equipment Management and Maintenance System (HEMMS) developed and operated	-

Budget Output:140024 International Water Resources Management

PIAP Output: 06010110 Joint Transboundary catchment investment projects prepared

Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level

Investment Plans for fragile sections of Trans-boundary rivers Semliki, Kagera and Sio systems undertaken 70%.	Investment Plans for fragile sections of Trans-boundary Rivers of Semliki, Kagera and Sio systems undertaken to 40% progress. Additionally, the meeting for the update of the Nile Hydropower optimization and flow management tool held.
15 No. Strategic Trans-boundary stations/ infrastructure rehabilitated & Monitored.	Fifteen (15) Strategic Trans-boundary infrastructure (stations) rehabilitated and monitored (Jinja Pier on Lake Victoria, Kampala-Masaka on River Katonga, Luhalali near Bunadet on River Sio, Mulukula-Kyotera on River Bukora, Bugondo Pier on Lake Kyoga, Mbulamuti on River Victoria Nile, Jinja-Tororo on River Malaba, Masindi Port on River Kyoga Nile, Paraa on River Kyoga Nile, Katwe on Lake Edward, Butiaba on Lake Albert, Bweramule on River Semliki, Laropi on River Albert Nile, Panyango on River Albert Nile and Nsongezi on River Kagera).
Feasibility Studies & Detailed designs for Angololo MPP conducted.	Feasibility studies and detailed designs completed to 100% for the Angololo MPP and Project Bilateral Agreement was signed between Uganda and Kenya paving way for resource mobilization for its implementation.
Feasibility studies for the Trans-boundary Development project for financing undertaken.	Feasibility study for the Southeast of Luzira Sub catchment area (SOLCA) High Priority Investment completed to 100%.
AMCOW-WASSMO WASH data collected, validated & disseminated; The Nile Basin Heads of States summit coordinated and hosted.	Data collection for the AMCOW-WASSMO and AIP-PIDA Scorecard reports is ongoing.
The groundwater project for the Mt. Elgon & Kagera transboundary aquifers coordinated & supervised .	Coordinated and supervised the groundwater project for the Mt. Elgon and Kagera transboundary aquifers.
MoU's for Nyimur & Angololo projects Bilateral Agreement established for their joint implementation .	Bilateral Agreement for the Angololo Water Resources Development and Management Project (AWRMDP) has been negotiated and signed.
Surveillance & Mapping of flooding areas on 5No. trans-boundary river systems conducted.	Surveillance and Mapping of flooding areas on Three (3) trans-boundary River systems (Unyama, Nyamugasani and Nyamwamba) was conducted to enable the development of the early warning system and flood management strategies.

Project:1662 Water Management Zones Project Phase 2

Budget Output:000017 Infrastructure Development and Management

PIAP Output: 06010105 Degraded water catchments protected and restored through implementation of catchment management measures

Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level

62 small water harvesting and flood control structures constructed e.g check dams, percolation pits, gully plugs etc (15 Northern, 15 Eastern, 15 Western and 17 Central)	15 percolation/infiltration pits have been set up on demo plots in Pakwach, Nebbi, Kitagwenda and Kasese Districts.
22ha of degraded forest restored (5ha Northern, 5ha Eastern, 5ha Western and 7ha Central region).	60 hectares of degraded forests have been restored (40 hectares in Ibanda District (Mpanga catchment) and 20 hectares in Kasese District (Nyamugasani catchment)).
135km of soil and water management structures constructed (33km in central, 34km in Western, 33km in Eastern and 35km Northern Uganda)	43.2 kms of soil and water management structures (soil bunds, tree lines, grasses and percolation pits/infiltration trenches, contours and terraces) have been constructed in Kamwenge, Kitagwenda, Kasese, Ntungamo, Buhweju, Kasese and Katakwi Districts.
62 small water harvesting and flood control structures constructed e.g check dams, percolation pits, gully plugs etc (15 Northern, 15 Eastern, 15 Western and 17 Central)	15 percolation/infiltration pits have been set up on demo plots in Pakwach, Nebbi, Kitagwenda and Kasese Districts.
03 Private tree nursery supported to produce seedlings in the western region.	04 private tree nursery supported through purchase of tree seedlings to raise income and continue operating (Restore Ecosystem Company) located Mbarara and Rwanyapamzi in Rwampara District 25,002 tree seedlings were supplied and planted (bamboo, grevilia, Melicia, Oranges, mangoes, avocado, caliandra, napier grass). The tree seedlings were planted in areas around K, Prunus Africana, Grevillea, Robusta, fruit trees (guavas & jackfruits), Neemakigani in Rwampara District and Bishop Stuart in Mbarara District.
29ha of degraded Wetlands restored (10ha Northern, 5ha Eastern, 9ha Western and 5ha Central region)..	67.1Ha of the degraded wetlands were restored in Kamwenge, Kyenjojo, Kibaale, Kakumiro and Amuria districts.
63km of degraded river banks demarcated and planted with pillars (15km Northern, 15km Eastern, 15km Western and 13km Central region).	79.68kms (11km Ayila Abongo River in Jupageta Upper and Madi upper in Payera Parish in Nebbi district, 10km in Kagadi district, 05km in Kamwenge district AND 53.68km on River Sironko in Sironko district) have been planted with teak tree seedlings and pillars respectively.
75Ha of degraded river bank buffer zones restored (20ha Northern, 20ha Eastern, 15ha Western and 25ha Central region)..	1km of degraded Riverbank in Ruharo (Rwizi river bank) has restored through bamboo planting; 4.9Ha of river bank buffer zones have been protected to facilitate gradual natural regeneration along downstream sections of Kiko river in Victoria Nile catchment.

PIAP Output: 06010106 Demonstration centers for demonstration of innovative catchment management measures established;Degraded water catchments protected and restored through implementation of catchment management measures

Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level

VOTE: 019 Ministry of Water and Environment

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
Project:1761 Strengthening Drought Resilience for Smaller household farmers and the Pastoralists in the IGAD region (DRESS-EA Project)	
PIAP Output: 06010105 Degraded water catchments protected and restored through implementation of catchment management measures	
Programme Intervention: 060101 Improve coordination, planning, regulation and monitoring of water resources at catchment level	
300,000 tree seedlings supplied to 4 sites for planting to improve groundwater recharge. 20 tones of drought resistant crop varieties distributed to 300 farmers.	1,050 seedlings were supplied and planted during water source protection in Lotisan, Kokorio, and Kaloutom. Four (04) sites have been selected (Lorengedwat, Ngolereit, Lotisan, and Kokorio) for expansion of tree planting to improve groundwater recharge for existing boreholes; Tree nurseries to be supported in the raising of seedlings have been selected in Napak, Ngoleriet Sub County; Concept note has been prepared for the community to be engaged in tree planting; Procurement has been initiated for for supply of 2 tons of drought tolerant crops varieties.
4 joint quarterly National and Catchment stakeholder meetings on EW information utilization held. 3 measures of soil and water conservation promoted in 2 micro-catchments.	Site selection for setting up soil and water conservation structures has been undertaken in Napak district through community meetings; One (01) meeting held for the dissemination of SOND forecasts at sub national level in Moroto.
Establish 10 Silage storage banks and 10 hay units for pastoralists. Supply and install 10 Hydroponic units for pastoralists.	Designs for hydroponic units and silage units to be set up in Napak and Moroto districts have been completed; Sites and beneficiaries have been selected in Moroto (Nakonyen), and Napak (Matany); Procurement for the construction of a community scale (500 trays) hydroponic unit and silage tank in Moroto, Tapac Sub County is ongoing; Re-tendering of the work is ongoing. Procurement documents have been finalized.
8 zero grazing housing units for demonstration established	Nine (09) Beneficiary Groups in Moroto, Napak, and Nabilatuk have been selected to benefit from the supply of drought tolerant goats.

Programme Intervention: 12030107 Increase access to inclusive safe water, sanitation and hygiene (WASH) with emphasis on increasing coverage of improved toilet facilities and handwashing practices

Periodic performance assessment and benchmarking reports for all water authorities produced and shared with stakeholders including annual regulators report	Performance data for all Water Authorities validated. Annual performance review of all Water Authorirties conducted and the Annaul regulators report compiled and disseminated to all stakeholders.
Pro-poor policy and strategy reviewed and a new policy and strategy developed to facilitate equitable access to water supply and sanitation services	Revisions were made on the implementation approach to review the pro-poor Policy and strategy and develop a new policy and strategy. A National taskforce was constituted to conduct the review internally and the process is still ongoing.
Tariff Policy and tariff setting guidelines operationalized. Tariff proposals from all water authorities Tariff proposals from all water authorities reviewed and approved. Tariff Indexation by NWSC also reviewed and recommendations made.	The Tariff policy presented to the Top Water Policy Committee which recommended the need to discuss all the policy details with the Minister of Water and Environment before submission to Cabinet for approaval. Water Tariffs from all Water Authorities reviewed and Approved by the Minister. Compliance monitoring of approved tariffs conducted.
Towns gazetted to water authorities including area gazette maps compiled and published in the National Gazettee	Water Supply Area gazette requests from 10 districts/towns were reviewed and Gazette instruments prepared for publication in the National gazette. 5 districts local governments were selected in the different regions to be gazetted as Water Authorities and Pregazette visits conducted. in 2 district local government in each region to pillot the operationalisation of the O&M Framework for rural Water
A regulation information management system (REMIS) for both water supply and sanitation developed and operationalized	Baseline data collected and entered in to the regulation information management system (REMIS). The system handedover to WURD and operationalized.
Appropriate tools and standards for onsite sanitation solutions developed and compliance enforcement undertaken	Sanitation MOU reveiwed and findings shared with stakeholders to inform the Urban sanitation policy formulation.
Guidelines for non-revenue water management for water authorities developed and operationalized	NA

Quarter 4

Table 4.3: Vote Crosscutting Issues

i) Gender and Equity

Objective:	Improve opportunities for men, women, children and other disadvantaged groups to access of water, sanitation and environment resources/ facilities and to participate in their management through construction of a water source per village, training of water user committees and female hand pump mechanics to be able to construct and maintain their water sources
Issue of Concern:	Distance, time and Inequality in access to safe water and sanitation facilities
Planned Interventions:	Public water kiosks constructed in towns and targeting slum areas. Sanitation facilities constructed in schools with stances separated for girls, boys, teachers and access ramps for the disabled. Economic empowerment of women and youth
Budget Allocation (Billion):	0.200
Performance Indicators:	Number of water kiosks constructed. Number of gender sensitive sanitation facilities constructed in schools with incinerators Number of women and youth empowered
Actual Expenditure By End Q4	0.2
Performance as of End of Q4	Gender based violence awareness activities carried out in kabuyanda and Matanda Irrigation schemes.
Reasons for Variations	
Objective:	To develop policies, guidelines and strategies to operationalized gender in programme planning, implementation, monitoring and evaluation
Issue of Concern:	The lack of clear and elaborate polices, strategies and guidelines, impedes gender equity and women empowerment and exacerbates Gender Based Violence
Planned Interventions:	Develop gender mainstreaming implementation manuals Gender mainstreaming capacity building trainings
Budget Allocation (Billion):	0.500
Performance Indicators:	Number of gender mainstreaming manuals printed Number of trainings conducted
Actual Expenditure By End Q4	0.5
Performance as of End of Q4	12 Gender mainstreaming was undertaken through ongoing project monitoring in towns of Kakingol, Iriiri, Lorengcora. Finalised the national gender and climate change strategy.
Reasons for Variations	Achieved as planned

ii) HIV/AIDS

Objective:	Provision of healthy services and lifestyle among employees in the Ministry of Water and Environment
Issue of Concern:	limited access to medical services at the work place including Medicare for staff living with HIV/AIDS
Planned Interventions:	improve supplies of drugs and kits for staff carryout health awareness campaigns including wealth week Integrate HIV/AIDS in the new and revised hygiene and sanitation sensitization and training manuals. Commemorations of the worlds AIDS day
Budget Allocation (Billion):	0.500

VOTE: 019 Ministry of Water and Environment

Quarter 4

Performance Indicators:	Number of staff trained Number of HIV/IEC materials printed Number of condoms and dispensers procured Sanitation guidelines with HIV/AIDS messages Number of staff trained
Actual Expenditure By End Q4	0.5
Performance as of End of Q4	Trainings on HIV carried out in various water system locations egBulangira WSS, Isingiro and others
Reasons for Variations	Achieved as planned
Objective:	To strengthen coordination for HIV/AIDS mainstreaming in the sector programmes
Issue of Concern:	Lack of clear strategies to streamline HIV in sector programmes
Planned Interventions:	hold quarterly coordination meetings carryout monitoring filed visits to all regional facilities print and distribute HIV/AIDS mainstreaming guidelines carryout research on the impact of HIV programs in the Vote
Budget Allocation (Billion):	0.175
Performance Indicators:	Number of quarterly meetings held Number of filed visits conducted Number of guidelines printed
Actual Expenditure By End Q4	0.175
Performance as of End of Q4	Meetings have been held to educate people on HIV AIDS. Awareness campaigns conducted in refugee settlements of Lobule and Boroli.
Reasons for Variations	Achieved as planned

iii) Environment

Objective:	Prioritization and implementation of catchment management planning and source protection plans in all construction projects
Issue of Concern:	Lack of a clear occupational health strategy to address occupational hazzards to the employees
Planned Interventions:	Develop a water and environment occupational health strategy
Budget Allocation (Billion):	0.300
Performance Indicators:	Strategy Prepared
Actual Expenditure By End Q4	
Performance as of End of Q4	
Reasons for Variations	

iv) Covid

Quarter 4

Performance highlights for the Quarter

The Ministry achieved and in some cases significantly exceeded its targets in several high-impact areas, particularly in flagship government projects and innovation.

Parish Development Model (PDM) Support:
Extensive technical support was provided to the PDMIS, including deploying new features, resolving critical bugs, and implementing automated daily backups.

A major data cleanup was conducted, which included collaborating with Post Bank to reverse 20,000 bounced loan approvals to allow for beneficiary edits and reapplication.

Cybersecurity training was provided to over 900 Parish Chiefs online and 202 users in-person in Wakiso District.

Innovation, Skills Development, and BPO:
The Ministry far surpassed its target of organizing one hackathon by conducting 15 hackathons and boot camps focusing on AI, robotics, and digital entrepreneurship.

Through its support to innovation hubs, 12,513 individuals (including 1,879 from refugee and host communities) acquired practical ICT and entrepreneurial skills.

The national BPO awareness campaign reached over 1 million Ugandans and generated over 300,000 social media impressions, with 6 Ugandan companies participating in a pilot offshoring project in Japan.

Communication and National Guidance:
The Ministry significantly overachieved in public education, undertaking 661 media programmes against an annual target of 480.

22 mini-documentaries and 29 digital content pieces were produced and broadcast to highlight government success stories in areas like regional innovation and agro-industrialisation

Variances and Challenges

Despite the high financial absorption, the Ministry faced significant challenges in achieving several key programmatic targets.

Major Underperformance on Key Indicators:
E-Services Development: There was a critical shortfall in the development of e-services, with only 4 rolled out against an annual target of 69.

Data Sharing Platform: The target for institutional use of the data sharing platform was missed, with only 11 institutions utilising it against a plan of 60.

Civic Education: Only 4 National Civic Education programmes were conducted against an annual target of 25.

Programme Intervention: 110105 Mainstream ICT in all sectors of the economy and digitize service delivery		
Conduct performance audits to evaluate the efficiency and impact of internet services, and Network Operations Centre	Conducted a comprehensive performance audit of internet services and the NOC-Network Operations Centre, which revealed inefficiencies in bandwidth utilization, occasional service downtime, delayed incident resolution, and gaps between actual service delivery and SLAs. The audit provided actionable recommendations to improve internet reliability, enhance NOC responsiveness, optimize resource allocation, and strengthen overall network performance across the Ministry. Report and recommendations made to the NOC Management team on areas for capacity enhancements from the system users.	Achieved
operations of the regional e-waste collection and recycling centers monitored	Monitored the operations of one regional e-waste collection and recycling centre. Fort portal assessing its capacity, infrastructure, safety compliance, and waste handling practices. The exercise revealed strengths in waste sorting and temporary storage but identified gaps in record-keeping, protective gear availability, and public sensitization. Recommendations were provided to enhance operational efficiency, staff safety, and community engagement in e-waste disposal.	On track
Stakeholder engagements to obtain consensus on the proposed recommendations undertaken	Conducted stakeholder engagements NITA-U, MOLG, UCC, MoES and Ministry of Lands to share and validate recommendations arising from the identified gaps in the three cyber laws—Computer Misuse Act, Electronic Transactions Act, and Electronic Signatures Act. The engagements provided a platform for policy dialogue, legal analysis, and consensus-building, resulting in stakeholder-informed recommendations aimed at strengthening the legal framework for cybersecurity, digital transactions, and electronic communications in Uganda.	Target Archived
Engagements for Dissemination of the strategy for local manufacturing for ICT devices with the relevant players held.	Conducted stakeholder with key public and private sector actors including MoTIC, DPP, MoTWA and MoLG to review and validate inputs into the Draft Strategy for local manufacturing of ICT devices. The consultative process gathered critical feedback on policy incentives, infrastructure needs, quality assurance, and market entry support, necessary for the successful development of a comprehensive draft strategy aimed at promoting sustainable local ICT device manufacturing in Uganda	The dissemination process could not be carried out because the strategy is still being developed.

Budget Output:300014 Support to UICT

PIAP Output: 11020301 Specialized training programmes conducted at UICT

Programme Intervention: 110203 Develop ICT centres of excellence and vocational institutions

3 capacity building sessions on the usage of industry best practices conducted.	(05) targeted capacity-building and knowledge-transfer sessions were conducted to empower innovators at (03)government-supported regional innovation hubs located at Kabale, Soroti, and Muni Universities. In addition, (02) universities; Gulu University and Busitema University, were successfully onboarded Outcome; The intervention contributed to the regional decentralization of innovation and entrepreneurship development, creating a pipeline of tech-driven solutions and job creators across multiple regions. It strengthened Uganda's innovation ecosystem by bridging academia and industry, promoting technology-led inclusive growth, and laying a foundation for long-term contribution to GDP through start-up development, local value addition, and digital sector expansion.	Additional support was received from UJ-Connect, Cisco Networking Academy, EdTech private training providers, and local innovation hubs under the partnerships coordinated by the Ministry of ICT and National Guidance (MoICT&NG)

PIAP Output: 11330203 Privately owned innovation hubs supported

Department:002 E-Services

Budget Output:390010 Re-engineering of Management Systems

PIAP Output: 144501b01 Institutional management functions automated through e-Services

Programme Intervention: 140203 Reengineer public service delivery business processes

Technical support provided to 5 MDAs and 10 LGs to adopt ICT institutional policies.	System and infrastructure mapping was conducted in the districts of Butebo, Kibuku, Bududa, Sironko, Kapchorwa, Pallisa, Butaleja, Mbale City, Budaka, and Bugiri to identify gaps in ICT institutionalization and assess the support required to strengthen the functionality and sustainability of digital systems used within these districts. Engaged all Central Government Information Technology Officers (ITOs) to communicate their expected roles in driving the Digital Transformation Roadmap, with a strong emphasis on their strategic responsibilities in supporting ICT institutionalization both at the central level and within districts. The engagement served to align ITO efforts with national digital priorities and reinforced their critical role in strengthening ICT structures and systems across government.	Target achieved

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
PIAP Output: 11010501 Public and Private institutions supported to review, re-engineer their processes, automate and deliver services online	
Programme Intervention: 110105 Mainstream ICT in all sectors of the economy and digitize service delivery	
Performance audits to evaluate the efficiency of existing information sharing frameworks and systems conducted	UGPass Assessment: Evaluated with the Network Operations Centre (NOC); found low adoption due to limited awareness, technical skills, and poor e-gov integration. Considered shifting to a government-owned PKI digital signature model. UG-Bus Platform Review: Worked with NOC UG-Bus team to analyze platform performance, transaction volumes, and which MDAs are contributing apps vs. consuming data. UMCS Platform Evaluation: Assessed UMCS performance and issues via engagement with NITA-U and feedback from four MDAs (MoLG, MoPS, PSC, MoICT&NG). Delivered recommendations to enhance user capacity. Internet & NOC Audit: Conducted a network performance audit; identified inefficiencies in bandwidth use, occasional downtime, delayed incident handling, and SLA shortfalls. Proposed improvements for reliability, responsiveness, and performance.
Roll out the e-waste management Policy	E-waste Monitoring: Assessed functionality and compliance of a medical e-waste recycling plant in Mbarara District Western Uganda set up by MoH. Policy Engagements: Held consultations with NEMA's technical and legal teams to review and revise the Extended Producer Responsibility (EPR) regulations, focusing on e-waste and plastic waste. Multi-Stakeholder Dialogue: Engaged MoWE, MoLG, MoFPED, NEMA, and UCC to share and review the proposed EPR regulations. Discussed UCC's pilot project for e-waste collection in Kampala and Mukono, with practical recommendations anticipated. Policy Implementation Planning: Participated in validation of the draft budget for the national e-waste policy's implementation action plan. URA Engagement: Developed stipulations with URA on the proposed financing mechanism for EPR. Capacity Study: Conducted a study on strengthening operations and capacity at the main e-waste collection center. Assessment for the collection center in Fort portal.

Programme Intervention: 110203 Develop ICT centres of excellence and vocational institutions

Capacity Building on the usage of industry-best practices conducted	(17) capacity-building sessions were conducted knowledge-transfer sessions were conducted to empower innovator, including 8 focused on industry-based practices in AI, data management, ICT, digital literacy, and entrepreneurship, and business readiness. These sessions equipped trainers, educators, youth, women, and students with practical, market-aligned skills, enhancing innovation, employability, and start-up competitiveness—ultimately contributing to inclusive growth in Uganda's digital economy.

PIAP Output: 11330203 Privately owned innovation hubs supported

Programme Intervention: 110402 Develop Innovation and incubation Centres

Digital skilling and entrepreneurship training for innovators in private owned hubs conducted.	78 targeted digital skilling and entrepreneurship training sessions were delivered, focusing on nurturing innovation and inclusion. These included specialized AI masterclasses, business development workshops, women-in-tech mentorship programs, and ICDL certification courses tailored for refugees. As a result, over 12,513 individuals including 1,879 from refugee and host communities acquired practical ICT and entrepreneurial skills. This initiative significantly enhanced local innovation capacity, empowered underrepresented groups, and contributed to inclusive digital transformation, thereby strengthening Uganda's innovation ecosystem and supporting the country's transition toward a knowledge-based economy.

Table 4.3: Vote Crosscutting Issues

i) Gender and Equity

Objective:	To prioritize participation in ICT capacity building activities for women and differently abled persons.
Issue of Concern:	Limited participation of women and PWDs in ICT Capacity building activities
Planned Interventions:	Mainstream equal opportunities during activity implementation under the programme.
Budget Allocation (Billion):	0.015
Performance Indicators:	Number of sensitization activities on equal opportunities under the program. Number of women and PWDS participating in ICT capacity building activities
Actual Expenditure By End Q4	0.015
Performance as of End of Q4	Conducted two sensitisation workshops on integration of gender issues in ICT Pprogrammes. 0ver 100 women and 54 PWDS attended the workshops
Reasons for Variations	Targets acahieved

ii) HIV/AIDS

Objective:	To support HIV/AIDS awareness campaigns
Issue of Concern:	Inadequate sensitization activities on HIV/AIDS awareness
Planned Interventions:	Conducting sensitization workshops for Ministry staff and the UICT community Conducting health camps with free testing and Counselling Condom distribution in washrooms.
Budget Allocation (Billion):	0.008
Performance Indicators:	Number of HIV/AIDS awareness sensitization activities undertaken; Three sensitization sessions undertaken;
Actual Expenditure By End Q4	0.0075
Performance as of End of Q4	Conducted one sensitisation workshop for the ministry staff and affiliated agencies; Condoms were distributed in all the washrooms at the ministry; Ahealth camp was conducted at the Nakawa Hub for all the ministry staff
Reasons for Variations	Targets fully achaived

iii) Environment

Objective:	To reduce harmful e-waste to the environment
Issue of Concern:	Increased e-waste dumping
Planned Interventions:	Coordination and monitoring of key stakeholders in the implementation of the e-waste policy Operationalisation of recycling and collection centers for electronic waste. Sensitization carried out on proper disposal of equipment
Budget Allocation (Billion):	0.015
Performance Indicators:	Number of regional e-waste collection and handling centres established;
Actual Expenditure By End Q4	0.015

VOTE: 020 Ministry of ICT and National Guidance

Quarter 4

Performance as of End of Q4	undertook rigorous e-waste management campaigns and sensitisation on proper disposal of ICT equipment; coordinated monitoring of the implementation of e-waste policy in particular with Ministry of health
Reasons for Variations	Regional e-waste collection and handling centres not established as the process to approval of the structures took long

iv) Covid

Quarter 4

Performance highlights for the Quarter

Budget Performance:

By close of Quarter 4, Ministry had a revised Budget of UGX 41.236bN away from the approved Budget of UGX 40.916bN. UGX 41.066 was released by the close of the Quarter out of which UGX 40.934Bn was spent out by the end of the Quarter. the revised budget was higher than the approved budget mainly because of the Approved supplementary wage funding to close the wage funding gap experienced. By the close of the quarter, the absoption level was 100% with almost all released funds spent out save for a few funds that was left unspent for various reasons.

Physical Performance Highlights:
By close of Q4, the Ministry coordinated & participated in; the 24th Ordinary Summit of Heads of State; 8 preparatory meetings on EAC tariff offer for the AfCFTA, EAPCE'25, NTBs, Trade, Custom, Investment & 2 EALA sessions; 15 EAC sectoral council engagements Extraordinary Session of Senior Officials on LVFO, 24th Ordinary Summit, 54th Extra Ordinary, 45th SCTIFI & 45th Council of Ministers; 10 National consultative meetings on Elimination of NTBs, EAC Climate Change Policy & Strategy, EAC Blue Economy Strategy & Action Plan Pandemic Policy Framework & Other Health Instruments, & Trade in Services; 35 Regional meetings across the various departments; followed on EAC commitments to ensure compliance with CMP, EAC decisions & directives; 9 stakeholder engagements on EAC Social Protection Policy, Migration Policy, Diaspora policy, 25 border sensitization engagements & women in cross border trade; Conducted 6 media engagements, cleared 100% remittances towards EAC organs & institutions, assented to the Presidential directive on National and Regional efforts on Karamoja Development; 1 training on the compilation of Government Finance Statistics & Public Debt Statistics; successfully coordinated participation in 24th EAC MSMEs Trade Fair in Juba; Celebrated EAC at 25 at hotel Af; signed an MOU on Resource Sharing Agreement, Launched the ENSURE Project & Kiswahili Promotion

Variances and Challenges

Budget Variances:
-During Budget execution of FY 2024-25, Ministry requested for a supplementary funding to cater for a salary deficit that was experienced when the Ministry's wage bill was reduced in consideration of the Special audit verification report on wage. It should be noted that the Audit report did not take into consideration the three officers who were not on the payroll at the time of the Special Audit Exercise as a result of deferment of the Nomenclature of the staff position in the current Staff structure. Issuance of the wage supplementary therefore resulted into the Revision of the Budget.
-Equally out of the Revised budget of UGX 41.236bN only UGX 41.066Bn was released by closed of Quarter 4 and out of the Total release UGX 41.066 was spent out

Budget Execution Challenges:
The ministry experienced the following execution challenges;-
i. Non convinement of some planned EAC regional engagementsby the EAC Secretariat. The Secretariat experienced serious financial constraints during execution of FY 2024-25 budget resulting into postponement and cancellation of some regional engagements.
ii. under release of funds especially in Quarter one that resulted into slow pace of implementation of planned activities.
iii. Ministry continues to face the challenge of non participation of relevant MDA's in most of the regional engagements. this compromises the National negotiations.
iv. Introduction of some administrative reforms for example the introduction of EFRIS tax policy resulted into under expenditure of some funds .(Postage and Courier)
