Performance highlights for the Quarter

a) Timely and reliable intelligence collected to ensure National Security for all Ugandans.

b) Continued to detect and counter emerging External security threats.

c) Participated in activities and programs by Regional and International Organs such as the Committee of Intelligence and Security Services of Africa(CISSA), the International Conference on the Great Lakes Region (ICGLR) and the Joint Intelligence Committee (JIC Nairobi) etc.

d) Participated in the Inter-Governmental Authority on Development (IGAD), African Union Transition Mission in Somalia (ATMIS)/African Union Stabilization Support Mission in Somalia (AUSSOM), and Democratic Republic of Congo (DRC) peace keeping initiatives, The Eastern Africa Fusion and Liaison Unit (EAFLU), Nile Basin Initiative (NBI), and Northern Corridor Integration Center (NCIC) etc.

e) Supported Uganda’s Foreign Policy positions and interests.

f) Supported commercial diplomatic initiatives resulting into increased Foreign Direct Investments (FDIs).

g) ESO performed a supportive role in monitoring the activities of exported labour force, labour Companies and immigration issues.

h) ESO Continued to deploy and re-deploy Staff in Field stations, Foreign missions and Strategic areas of interest.

i) Continued to extend medical support to Staff and their immediate families at Jumbo medical facility.

j) ESO re-skilled its Staff in basic, advanced and specialised courses.

k) Provided Logistical support to Staff and their families inform of food supplies.

Variances and Challenges

a) The High-raised buildings that have overtime cropped up have dominated the area around ESO Headquarters and made it difficult to maintain Privacy and security for both staff and the facility coupled with inadequate office space for ESO staff hence the need for the construction of New ESO Headquarters.
The entire project cost is 77.125 Bn . Currently this project is at the Budget implementation stage now awaiting funds. Phase one of this project requires UGX. 31.324Bn to kick start the construction.

b) Emerging global threats such as Climate change, Pandemics, Endemics, Trans-national organized crime have strained the Organisation’s expenditure, maintenance, management and coordination of intelligence activities within the Foreign and Field Stations.

c) The technological advancements with new security threats such as Artificial Intelligence (AI),Cyber attacks among others require expensive regular ICT upgrades, for prompt detection and response.

Quarter 4

Performance highlights for the Quarter

1. Enhanced Supervision and Compliance Monitoring by conducting 14 on-site inspections. The inspections addressed issues such as non-remittance of taxes, excessive scheme administration fees, breaches in investment regulations, and delays in paying member benefits.

2. Strengthened Retirement Literacy by reaching over 1,400 individuals with key retirement topics such as the tax treatment of retirement benefits, scheme governance principles, common retirement planning mistakes, and sustainable investment options.

3. Promoted Member Empowerment with over 500 scheme members reached through targeted awareness sessions focusing on the legal and regulatory frameworks governing retirement planning. This builds a well-informed and active membership base.

4. Enhanced Capacity for 699 trustees and service providers on critical aspects such as fiduciary duties, retirement income sustainability, governance innovation, and the use of digital tools for improved scheme management.

5. Provided Legal Support to schemes and service providers through specialized legal guidance on matters such as scheme liquidation, licensing procedures, intellectual property considerations, benefit administration, and interpretation of relevant regulations.

6. Enhanced Legal Ecosystem Capacity to support scheme governance and regulatory enforcement by sensitizing over 140 advocates on the legal framework governing the retirement benefits sector.

7. Strengthened Regulatory Oversight by licensing sector players to enhance professional standards, scheme integrity, and governance within the sector.

8. Sponsored Trustee Certification for 14 trustees to undertake the Trustee Certification Programme, promoting competent and ethical leadership within schemes.

9. Secured Approval of URBRA Strategic Plan FY 2025/26 – 2029/30 to position the Authority as an effective regulator of the sector.

10. Participated in national policy advisory forums to support the strengthening of the retirement benefits sector

Variances and Challenges

Variances:
Variances in implementation and expenditure were mainly attributed to unabsorbed wage funds resulting from deferred staff recruitment due to absence of wage-related costs. Additional contributing factors include discontinuation of URBRA Board following a court ruling, rescheduling of activities by collaborating agencies, and bounced payments related to ICT services consumed.

Challenges:
URBRA continues to face funding constraints that hinder the implementation of critical sector activities, including scheme oversight, compliance monitoring, and public awareness campaigns. In addition, the Authority received additional wage allocations with no corresponding allocation for non-wage staff-related funds. This imbalance has significantly undermined operational efficiency and effectiveness

E-Risk Based Supervision System support and maintenance conducted, and system operational efficiency enhanced ? Authority internet connectivity and systems maintained to facilitate business automation. ? Authority ICT hardware maintained to facilitate operational efficiency, and service delivery.	- Software Licenses for Antivirus, stock photography and Vembu backup were renewed for another year. - Support and maintenance of the Electronic Risk-Based Supervision System (ERBSS) provided with 60% of the reported issues resolved. - Quarterly subscriptions for internet, mobile data, and voice services provided. - Backup dedicated internet onboarded to provide a failover option for the primary NBI from NITA-U. - ICT equipment, including servers, laptops, phones, desktops, printers, AC units were serviced/maintained.	Outputs achieved as planned
	- Two Proof of Concept (PoC) reports successfully developed based on prioritized user requirements gathered from departments and stakeholders. Feedback from the Legal Department informed key modifications to the complaints portal, including enhancements to the process flow and user interface. These changes aimed at improving ease of use for customers and complainants, ensuring a more intuitive and efficient experience.	Only laptops acquired—no desktops—due to the urgent need by staff to have laptops to support routine operations.
End-user digital skills and security awareness trainings conducted. Quarterly ICT briefs and updates	- Two (02) Microsoft 365 training sessions conducted to equip staff with essential skills for effectively utilizing the platform's tools. The sessions focused on enhancing communication, collaboration, and productivity across departments. - Q4 FY 2024/25 ICT brief and updates drafted and shared with management. VOTE: 163 Uganda Retirement Benefits Regulatory Authority

Quarter 4

Performance as of End of Q4	258 trustees, service providers and staff sensitized on Sustainable Investing, with a focus on the application of Environmental, Social, and Governance (ESG) principles in Retirement Benefits Schemes.
Reasons for Variations	The development of ESG Guidelines for the Retirement Benefits Sector in Uganda was postponed to prioritize demystifying ESG concepts among service providers and trustees through targeted sensitisation sessions.

7. National Council for Higher Education conducted and published a survey report on the state for higher education in Uganda.
8. National Council for Higher Education conducted and published tracer study report STEM/STTEI Masters prohgramme.
9. National Council for Higher Education published Higher Education Review Journal of the National Council for Higher Education.
10. National Council for Higher Education held a regional Annual Higher Education Conference in Mbarara city.
11. National Council for Higher Education held a regional Annual Higher Education Exhibition at Kamukuzi Grounds in Mbarara.
12. National Council for Higher Education developed 12 minimum standards for courses of study from higher institutions of learning.
13. A total of 440 foreign qualifications were equated by National Council for Higher Education.
14. A total of 120 local qualifications were recognized by National Council for Higher Education in Q4.

Variances and Challenges

1. National Council for Higher Education faced logistical challenges. National Council for Higher Education has 5 field vehicles, 2 of the vehicles are beyond the 5 years and due for disposal. This leaves NCHE with 3 vehicles to oversee 258 higher institutions of learning located through out the country.
2. There was no provision for funding for the National Council for Higher Education Infrastructural Development (Main Building). The inadequate funding negatively impact on the implementation of planned activities.
3. Limitation of the current Universities and Other Tertiary Institutions (UOTI) Act, Cap.262 which cannot allow full and quick implementation of NCHE mandate.

Performance highlights for the Quarter

a) Conducted practical item testing for 23336 candidates in 46 technical diploma (Level IV-V) papers and prepared 96 practical test item sets for May/June 2025 assessments.

b) Assessed 110 SNE (57 males & 53 females) candidates for May/June 2025 series. 91 candidates were accorded specialized assessment arrangements and support personnel for different natures of disabilities; Dyslexia, 13 Physical, 24 Visual, 16 for hearing impairment.

c) Registered and assessed 42,675 candidates in level (I-III) 18,902 and 23,773 candidates in workers PAS and modular.

d) 6,905 transcripts and 3017 certificates issued to candidates acquired full competences.

e) Deployed 1900 (Female 56%, Male 44%) assessment managers engaged in the conduct, administration and management of assessments.

f) Conducted Product and Service Exhibition assessment with 33 practitioners for 770 NDFD and NDID candidates at 17 assessment centers.

g) Mapped curricula for development and review process under UVTAB mandate, and stakeholders to be involved in consultations. And conducted curriculum consultative meetings with 214 practitioners of Construction (56), Hotel & Hospitality (64) and Livestock Production & Management (94).

h) Identified the existing program/courses, ATPs formally assessed by UBTEB and DIT.

i) Developed Roadmap to guide curriculum development.

j) UVTAB hosted UNBS to validate ISO 9001:2015 QMS in June 2025 and aligned with the TVET Act 2025, held at UVTAB Secretariat.

k) Updated database and oriented 1254 TVET Assessment professionals and managers engaged in assessment for May/Jun series and modular assessments.

l) Assessment Center construction at 99% physical progress, Regular inspections of works, meetings conducted and monitoring reports prepared.

Variances and Challenges

a) Postponement of release of November/December 2024 assessment results ultimately led to delays in other process which are tagged on results
- Like registration and enrolment of successful candidates for higher academic levels.
- Stakeholder’s feedback workshop was not conducted due to delays in other processes.

b) The absence of sector skills experts has slowed the process of developing planned barista, Mixologist (cocktails) ATPs and other curricula. Consequently, the retooling of assessors on the reviewed curricula could not start.

c) Operational policies and guidelines are undergoing development. These have to an extent affected the implementation of some activities that require such policies and guidelines in place. For instance inspection of the 9 centres for skilling the Boy and Girl child.

Variances and Challenges

Non absorption of all funds released. For instance, the University had a total variance of unspent balance of UGX 14.844Bn (4.0% of released funds). Out of this balance, UGX 14.176Bn (6.0% of released Wage) was for Salaries of: -Staff whose positions were dropped off the payroll when migrating to the Human Capital Management system; Delayed replacement of staff who leave/or retire from university service; and partly delayed process on the salary harmonization for support staff, promotion and recruitment of staff.
2) A total of UGX 13.835n for development released in the last quarter yet the procurement process is lengthy based on confirmation of funds for a number of activities and funds allocated in the quarter could not warrant procurements. The delayed release of funds especially for development which affects activity implementation.

Variances and Challenges

The major variance and challenges during Quarter 4 was the delayed release of funds. During the quarter the University received a supplementary budget which was released late, therefore most of the activities and procurements to be funded under the supplementary budget were still on-going by the end of the Quarter; these included: 1 Station Wagon Vehicle for Vice Chancellor; Procurement of furniture for FCI and ICT Equipment; Teaching and learning equipment for FCI Office and home Furniture for the Vice Chancellor's Office and Home and US's Office.
The university however had some unspent balances mainly dur to: There was unspent balance of UGX 146,122,759 on Gratuity of due to retirement of some Staff on contract employment and replaced by staff on permanent basis without Gratuity. The university also had a bounced payment of UGX 114,194500 to Sonic Furniture Construction and Technical Services for Supplied Furniture and Fittings due to a closure of the supplier account, however this was raised to the Accountant General requesting for the payment.

Other budget execution challenges in the course of the year included the transitioning from IPPS to Human Capital Management System and harmonization which resulted into delayed harmonization of due staff salaries, delayed salary payment as well as the planned staff recruitment and replacement of 9 staff which was still on going and 2 staff were yet to recruited and others were yet to access the payroll.

Variances and Challenges

A total of 16,566 students were registered for Semester two against 17792 registered for Semester One AY 2024/2025. Under the MUBS EIIC, there is an ideation process, which is fundamental to developing innovative and high-value business concepts.This often struggles due to inadequate funding. This limitation prevents access to essential resources required for conducting research, validating ideas, and creating prototypes which in turn ultimately affects the Centre’s ability in incubating innovations and thus reducing the pool of viable startups despite the various efforts like bootcamps, business plan competitions among others. Inadequate space and lack of essential equipment for prototyping, validation, testing, processing, and storage to support the incubatees. Limited internet connectivity has severely impacted the efficiency of incubation activities and restricted access to online resources. Also the challenges of insufficient Capital Development Budget as well funds for promoting staff due to the policy on promotion of Professors. Disparity is salary structure of staff with same qualification and employed by same employer. That is between teaching and non-teaching staff. Attained 50% of online teaching and participated in the NCHE Expo. Fitness programme to staff on going. Had March intake of Ordinary Diploma and Certificate programmes. Another challenge is the inappropriate PIAPs given to report performance.

• Renovation of Lecture block, Stores Unit, and Construction of the Modern Goats' Unit at Arapai Campus was completed
• Design of Auditorium complex and 3 level laboratory at Faculty of Science and Education, Nagongera campus completed and building yet to start

Variances and Challenges

. Wage shortfall and arrears. Management has written PSST about this and requested for wage bill increase
•Increased bill of graduate fellows which continuous reduce the NWRE as result of low staffing
•Inadequate budget for NWR, wage, and Infrastructure development that affect budget execution

Quarter 4

Performance highlights for the Quarter

1. A total of 6,645 students were enrolled, registered, taught and examined in FY 2024/25. Semester II exams, central marking and external assessments were successfully completed. The University received 4,903 private undergraduate applications, admitting 3,852. 112 students were admitted under Government sponsorship (78 merit, 24 district quota, 10 diploma entry) and 283 postgraduate students were admitted under private sponsorship.
2. A total of 17 academic programmes were reviewed and re-accredited by NCHE, including 12 STEM/I aligned. Additionally, 5 new STEM/I programmes were developed and accredited.
3. The Rukungiri Campus was inspected by NCHE and officially launched, set to begin operations in the 2025/2026 academic year.
4. Kabale University participated in the NCHE Higher Education Exhibition in Mbarara under the theme “Strategies, Challenges and Best Practices for AI Integration in Higher Education in Uganda.” The University also attended the International Education Expo in Bujumbura, Burundi, organized by the Embassy of Uganda in Burundi.
5. A total of 55 research outputs were collected and uploaded to the Kabale University Institutional Digital Repository (KAB-IDR).
6. KAB-REC approved 96 staff protocols, with 25 protocols pending resubmission. In total, 129 protocols were reviewed and approved: 10 PhD, 73 Master’s, 45 Undergraduate, and 1 non-academic.
7. Salaries paid on time to 515 employees, comprising 343 males & 172 females and statutory deduction remitted to relevant institutions.
8. Students from all academic units participated in community outreach and engagement activities and are currently undertaking internship, school practice, COBERS and industrial training across various institutions.

Variances and Challenges

1. Delays in releases due to misalignment with the projected cash flow plan affected the timely achievement of planned outputs.
2. Rising costs of budget inputs further hindered effective service delivery.
3. Procurement efficiency was impacted by a mismatch between procurable items and the IFMS procurement master data.
4. The Human Capital Management (HCM) payroll system consistently omitted expenditure codes for NSSF and LST, resulting in recurrent payment delays.

Variances and Challenges

Soroti University by the end of quarter four received a total of UGX. 39.125 Billion Out of approved budget of UGX. 39.128 Billion Including arrears and spent 37.237 Billion, representing 100 % of the budget released, 95.2 % of the budget spent and 95.2 % of the releases spent.

Under Development funds, the University received a total of UGX. 10.129 Billion and spent UGX. 10.128 Billion representing 100 % of the budget released, 100 % of the budget spent and 100 % of the releases spent.

For Wage category UGX. 20.768 Billion was released and UGX 19.068 Billion was spent representing 100 % of the budget released 92.0 % of the Budget spent and 91.8 % of the releases spent.

For Non-wage, UGX. 8.228 Billion was released and UGX. 8.041 Billion was spent representing 100% of the Budget released, 97.7 % of the budget spent and 97.7 % of the releases spent.

Challenges
There was a delay by Public service to give clearance leading to delays in the recruitment of staff hence returning wage and N.S.S.F.
The Non-wage funding is inadequate and this affects the implementation of some critical activities in the University.

The difference in student numbers taught is because B. of Eng. In Electrical and Electronics Engineering could not take off because the Students numbers was less and MoFPED could not release the funds. 2 Additional Technicians were recruited, 2 extra curricula developed and 1 successfully accredited due to the high demand and the need to grow the University. The difference in the Number of Research publications is due to the lengthy processes and cost involved.
