THE REPUBLIC OF UGANDA

ANNUAL BUDGET PERFORMANCE REPORT FY 2024/25

MINISTRY OF FINANCE, PLANNING AND ECONOMIC DEVELOPMENT

OCTOBER 2025

TABLE OF CONTENTS

GLOSSARY vi
ACRONYMS ix
EXECUTIVE SUMMARY xii
CHAPTER 1: OVERALL FISCAL AND RESOURCE PERFORMANCE 1
1.1 Overview 1
1.2 Revenue and Grants 1
1.3 Financing 6
1.4 Expenses 6
1.5 Acquisition of non-financial assets 7
CHAPTER 2: OVERVIEW OF THE EXPENDITURE PERFORMANCE 8
2.1 Highlights of Overall Expenditure Performance 8
2.2 Programme Expenditure Performance 10
2.3 Central Government Expenditure 10
2.4 Local Government Transfers and Expenditure 12
CHAPTER 3: PROGRAMME PERFORMANCE 13
3.1 Agro-Industrialisation Programme 13
3.2 Mineral Development Programme 20
3.3 Sustainable Development of Petroleum Resources Programme 22
3.4 Manufacturing Programme 24
3.5 Tourism Development Programme 27
3.6 Natural Resource, Environment, Climate Change, Land and Water Resources Management Programme 31
3.7 Private Sector Development Programme 38
3.8 Sustainable Energy Development Programme 41
3.9 Integrated Transport and Infrastructure Services Programme 44
3.10 Sustainable Urbanisation and Housing Programme 47
3.11 Digital Transformation Programme 50
3.12 Human Capital Development Programme 56
3.13 Innovation, Technology Development and Transfer Programme 72
3.14 Public Sector Transformation Programme 76

3.15 Community Mobilisation and Mindset Change Programme 80
3.16 Governance and Security Programme 83
3.17 Regional Development Programme 90
3.18 Development Plan Implementation Programme 94
3.19 Administration of Justice Programme 96
3.20 Legislation, Oversight and Representation Programme 100
CHAPTER 4: STRUCTURE OF DETAILED PROGRAMME FINANCIAL AND PHYSICAL PERFORMANCE 103
CHAPTER 5: DETAILS OF VOTE FINANCIAL AND PHYSICAL PERFORMANCE

Structure of Detailed Vote Financial and Physical Performance……. .
001 Office of the President…… 255
002 State House…… 334
003 Office of the Prime Minister…… 374
004 Ministry of Defence & Veteran Affairs……... 487
005 Ministry of Public Service……... 521
006 Ministry of Foreign Affairs……. 618
007 Ministry of Justice and Constitutional Affairs…… 779
008 Ministry of Finance, Planning and Economic Development……... 896
009 Ministry of Internal Affairs……. 1240
010 Ministry of Agriculture, Animal Industry and Fisheries……. 1324
011 Ministry of Local Government…… 1546
012 Ministry of Lands, Housing & Urban Development……... 1680
013 Ministry of Education and Sports…… 1782
014 Ministry of Health……... 1996
015 Ministry of Trade, Industry and Cooperatives……. 2162
016 Ministry of Works and Transport…… 2260
017 Ministry of Energy and Mineral Development…… 2533
018 Ministry of Gender, Labour and Social Development…… 2761
019 Ministry of Water and Environment…… 2894
020 Ministry of Information, Communications, Technology and National Guidance……... 3314
021 Ministry of East African Affairs…….. 3403
022 Ministry of Tourism, Wildlife and Antiquities…… 3490
023 Ministry of Kampala Capital City and Metropolitan Affairs…….. 3568
101 Judiciary…….. 3578
102 Electoral Commission……. 3685
103 Inspectorate of Government…… 3726
104 Parliamentary Commission……. 3769
105 Law Reform Commission……... 3869
106 Uganda Human Rights Commission……... 3912

Annexes

A1.1Approved Estimates and Annual Expenditures for FY 2024/25 by Vote Function……..9598

A1.2: Annual Central Government Expenditure by Item for FY 2024/25....……9629

A1.3: Annual Central Government Expenditure by Vote Function with the Highest Unspent balances FY 2024/25……9634

A1.4: Annual Central Government Economic Items with Highest Expenditure for FY 2024/25…….9635

A1.5: Annual Local Governments Grant Releases by Programme FY 2024/25…….9636

A1.6 Virements Report for FY 2024/25……9638

GLOSSARY

Absorption: These are funds spent by MDAs as a proportion of the funds released from Central Government .

Approved Budget: This is the appropriated budget by the Parliament of the Republic of Uganda, which is normally undertaken in May of the preceding financial year.

Budget Outputs: These are strategically important services delivered by the Vote which contribute directly to the Vote's and indirectly to the Programme objectives, e.g. e-learning and innovation services, which contribute to increasing access to education and to the wider Programme objective of increasing literacy and numeracy rates.

Chart of Accounts: This is a critical element of the Public Financial Management (PFM) framework for classifying, recording and reporting information on cost plans, transactions and events in a systematic and consistent way. It plays a key role in Government fiscal planning, financial management, accountability and financial reporting frameworks.

Departments: These represent the results or sets of activities implemented by the Vote which contribute to the achievement of the Programme objectives. These are recurrent in nature, e.g. inspection of primary schools.

Expenditure: This is the actual spending by MDAs (recorded by EFT transfers) reported on the Integrated Financial Management System (IFMS).

Grants and Subsidies (Outputs Funded): These are services funded by the Vote but delivered by another institution. They relate to expenditures on grants and transfers in the chart of accounts.

Investment (Capital Purchases): These relate to purchases of capital assets in the chart of accounts.

Item: This is the lowest operational level of the budget, and represents the resources necessary to carry out activities, e.g. staff salaries, travel inland, printing and stationery.

PIAP Output Indicators: These measure the performance of budget outputs, e.g. the number of classrooms constructed.

Non-Service Delivery Spending: This represents budget allocation and expenditure on outputs, usually recurrent in nature, which contribute indirectly to the provision of key public services, e.g. administration of payrolls, which enables the delivery of education services by teachers in schools.

Percentage of Budget Released: This is the percentage of the approved budget (excluding supplementary budgets appropriated in year) that is released by Central Government .

Percentage of Budget Spent: This is the percentage of the approved budget (excluding supplementary budgets appropriated in year) that is spent by MDAs through EFT transfers.

Projects: These represent the results or set of activities implemented by the Vote which contribute to the achievement of Programme objectives. They primarily involve capital purchases and may be

financed by the Government of Uganda and/or Development Partners, e.g. rehabilitation and construction of General Hospitals.

Release: This is the Central Government transfer of funds to MDAs (including supplementary funds) from the Consolidated Fund.

Service Delivery Spending: This represents the budget allocation and expenditure on outputs which deliver key public services on behalf of the Government , e.g. classroom construction, which enables the delivery of education services.

Supplementary Budget: This is an in-year addition to an MDA's approved budget. This budget is also appropriated by Parliament during the course of the financial year.

Unspent balances: Funds that were released by Central Government but not spent by MDAs. This calculation does not include commitments (encumbrances) on the IFMS system.

Programmes: These represent a group of related services and capital investments which contribute towards a common function, e.g., agro-industrialisation.

Votes: These are institutions (Ministries, Agencies and Local Governments) which are the basis of the annual budget and appropriations made by Parliament, and the basis for accountability, e.g. Ministry of Education and Sports.

EXECUTIVE SUMMARY

INTRODUCTION

This Annual Budget Performance Report (ABPR) is prepared in line with Section 17 (1) of the Public Finance Management Act, Cap.171, and presents progress registered in the execution of the Annual Budget for FY 2024/25. The report highlights the performance of revenues and expenditure as well as an overview of performance at Programme and Vote levels across Government .

The theme of the FY 2024/25 Budget was ***"Full Monetisation of Uganda's Economy through Commercial Agriculture, Industrialisation, Expanding and Broadening Services, Digital Transformation and Market Access"***. This report provides progress registered during the financial year in execution of this theme along the key priority areas of the budget as well as at Programme and Vote levels.

The overarching goal of the fiscal strategy for FY 2024/25 and the medium term is to attain inclusive economic growth, while maintaining a stable macroeconomic environment and preserving debt sustainability. This is envisioned to be attained through continued investment in public infrastructure for inclusive growth and implementation of the Domestic Revenue Mobilisation Strategy (DRMS) which targets revenue-to-GDP growth of 0.5 percentage points every fiscal year.

To attain the required fiscal balance that ensures fiscal and debt sustainability, Government is harnessing revenue mobilisation while ensuring effective and efficient public expenditure. To this effect, Government is prioritising spending towards sectors with high investment multipliers (Agro-industrialisation, Tourism, Mineral development, and Science and technology innovation - ATMS) that are key in Government 's ten-fold growth strategy.

In FY 2024/25, Government projected to receive total revenue amounting to Shs 34,866.84 billion. On the other hand, expenditure, excluding debt refinancing and expenditure related to Local Government revenue, was planned to amount to Shs 47,390.73 billion. This would translate into a planned fiscal deficit (net borrowing) of Shs 12,523.89 billion (5.6% of GDP).

Fiscal Performance

During the course of the financial year, Government 's fiscal operations resulted in a fiscal deficit (net borrowing) of **Shs 13,079.71 billion**, which is equivalent to 5.8% of GDP. This is slightly higher than the projected deficit at the start of the financial year, mainly on account of higher expenses than in the approved budget, coupled with lower grants received in the year compared to what had been anticipated at the time of approval of the budget for the financial year.

Total expenses in FY 2024/25 were **Shs 39,114.16 billion,** which is 3.0% higher than the budget of **Shs 37,957.71 billion**, on account of the supplementary budgets issued during the financial year. Additionally, Government spent **Shs 7,400.16 billion** on acquisition of non-financial assets, bringing the total expenditure (excluding debt refinancing and AIA) by Government in FY 2024/25 **to Shs 46,514.32 billion**.

Grants Disbursements

The total grants disbursed during FY 2024/25 amounted to **Shs 1,356.00 billion**. This is against a projection of **Shs 2,884.92 billion**, implying a performance of 47%. The underperformance was wholly recorded under project support grants where only **Shs 1,238.66 billion** out of the expected **Shs 2,845.43 billion** was realised. These disbursements were primarily impacted by delays in the approval process for certain projects, despite their inclusion in the budget, as well as slower disbursements for some other projects due to low absorption.

On a positive note, budget support grants disbursement amounted to **Shs 117.34 billion**, which was almost three times higher than the **Shs 39.49 billion** that had been programmed for the financial year. This followed USAID disbursing more funds than had initially been expected during the financial year to referral hospitals, including Jinja, Mbarara, Lira, Moroto, Gulu and Mbale Hospitals. Additionally, there was a disbursement that had not been programmed for FY 2024/25 from the World Bank towards the Uganda Intergovernmental Fiscal Transfer (UgIFT) Programme.

Wage, Pension, and Gratuity

The analysis covers budget allocations, absorption trends, adjustment factors, and major policy considerations, setting a benchmark for public sector remuneration management.

Financial Highlights

Wage: The revised wage budget for FY 2024/25 was **Shs 8.17 trillion**, from **Shs 7.83 trillion**, reflecting Government ’s commitment to meet compensation for all approved public positions in Ministries, Departments and Agencies (MDAs), with notable enhancements for head teachers, deputy head teachers, and security officers. The end-of-year absorption rate reached **93.8%**, indicating high payroll efficiency. This was achieved through systematic payroll clean-up, automation (Human Capital Management System and Interpersonal Payroll System), and adherence to established wage structures.

Pension: Pension allocations totalled **Shs 1.52 trillion**. Payments were based on verified pension payrolls, considering new retirees and ongoing removal of ghost pensioners. The pension component ensured the continuation of regular monthly payments and settlement of identified arrears, supporting the welfare of retired public officers.

Gratuity: The gratuity budget was **Shs 437.643 billion**, intended for lump-sum exit packages to retiring or resigning staff. Calculations utilised the statutory formula (wage at exit, years served, multipliers), and included provisions for settling unpaid gratuity carried over from previous years.

Analytical Approach

Base Year Reference: All computations started with actual wage absorption and staffing levels at FY 2024/25 closure. These figures informed projections for the subsequent budget cycle.

Statistical Adjustments: The estimates incorporated an inflation rate forecast of 5.1%, anticipated recruitments and exits, and updates from payroll audits and Government policy changes such as further harmonisation of salary scales.

Backlog Resolution: Special attention was given to addressing pension and gratuity arrears. Verified unpaid obligations were included in the FY 2024/25 allocations to enhance fiscal discipline and staff morale.

Strategic Implications

The combined allocation for wage, pension, and gratuity reached **Shs 10.5 trillion**, representing a substantial share of Government 's recurrent expenditure. The results highlight ongoing efforts to optimise payroll management, ensure legal compliance in staff compensation, and maintain a motivated public workforce.

This performance report forms the basis for refining wage, pension, and gratuity estimates in the FY 2025/26 budget, promoting data-driven, transparent, and sustainable fiscal planning.

AGGREGATE EXPENDITURE PERFORMANCE

The overall budget released, excluding interest payments, by the end of June 2025 was **Shs 30,694.995 billion,** against the approved budget of **Shs 27,470.57 billion**. This equates to 111.7% of the approved budget. Aggregate absorption (measured by expenditure as a proportion of releases) was 99.1%.

Expenditure Performance by Category

Wage and non-wage releases performed at 100.6% and 115.9%, respectively, while GoU development releases performed at 117.0% of the approved budget. It should, however, be noted that external financing performed poorly, at 80.0% only. The low release under external financing is attributed to delayed disbursements for projects.

Spending on Contingency Fund

In line with Section 17 (1) (d) of the Public Finance Management (PFM) Act Cap. 171, in FY 2024/25, the Contingency Fund was allocated **Shs 169.00 bn** by Parliament and **Shs 75 billion** was transferred to the fund by the end of June 2025. Of this, **Shs 69.58 billion** was spent by 28th June 2025 as follows:

i. **Shs 58.44 billion** for the purchase of land to relocate persons affected by landslides, and the provision of food and non-food items for people affected by disaster in other regions.
ii. **Shs 374.24 million** for the provision of earth-moving equipment for the excavation and stabilising of the landfill after the Kiteezi disaster.

iii. **Shs 70.89 million** for the implementation of gender- and child-related activities, and the protection of affected vulnerable groups in Kiteezi.

iv. **Shs 4.92 billion** to manage the aftereffects of the Kiteezi waste fill disaster.

v. **Shs 1.08 billion** to manage security at Kiteezi.

vi. **Shs 500 million** to coordinate disaster responses at Kiteezi.

vii. **Shs 4.20 billion** for Government contribution towards commemoration of Uganda Martyrs Day, 2025.

Virement report

In line with Section 21 of the Public Finance Management Act, Cap. 171, a virement report has been prepared and is attached as Annex A1.6.

CHAPTER 1: OVERALL FISCAL AND RESOURCE PERFORMANCE

1.1 Overview

During the financial year, Government's fiscal operations resulted in a fiscal deficit (net borrowing) of **Shs 13,079.71 billion**, which is equivalent to 5.8% of GDP. This is slightly higher than the projected deficit at the start of the financial year, mainly on account of higher expenses than in the approved budget, coupled with lower grants received in the year compared to what had been anticipated at the time of approval of the budget.

Total expenses in FY 2024/25 were **Shs 39,114.16 billion**, which is 3% higher than the budget of **Shs 37,957.71 billion**, on account of the supplementary budgets issued during the financial year. Additionally, Government spent **Shs 7,400.16 billion** on the acquisition of non-financial assets, bringing the total expenditure (excluding debt refinancing and AIA) by Government in FY 2024/25 to **Shs 46,514.32 billion**.

1.2 Revenue and Grants

On the revenue front, total revenues (tax revenue, non-tax revenue and grants) amounted to **Shs 33,434.61 billion,** against the target of **Shs 34,866.84 billion**. Domestic revenue (tax and non-tax revenues) amounted to **Shs 32,078.62 billion**, surpassing the annual target by **Shs 96.69 billion**. Total grants, on the other hand, amounted to **Shs 1,356.00 billion,** against a target of **Shs 2,884.92 billion**, implying a performance of 47%. Table 1 shows the detailed fiscal operations of Government in FY 2024/25.

TABLE 1.1: FISCAL OPERATIONS IN FY 2024/25 (SHS BN)

FY2024/25	Budget	Outturn	Performance	Deviation	%age of GDP
Revenue	**34,866.84**	**33,434.61**	**95.9%**	**- 1,432.23**	**14.8%**
Taxes	29,365.79	29,870.77	101.7%	504.98	13.2%
Grants	2,884.92	1,356.00	47.0%	- 1,528.92	0.6%
Budget support	39.49	117.34	297.2%	77.85	0.1%
Project grants	2,845.43	1,238.66	43.5%	- 1,606.77	0.5%
Other revenue	2,616.14	2,207.85	84.4%	- 408.29	1.0%

Domestic Revenues

Total revenues received by Government during FY 2024/25 amounted to **Shs 33,434.61 billion,** against a target of **Shs 34,866.84 billion**, implying underperformance of 4.1%, mainly on account of grants since domestic revenues registered a surplus.

Of the total amount of revenue received in FY 2024/25, **Shs 29,870.77 billion** was tax revenue, **Shs 2,207.85 billion** was non-tax revenue, while **Shs 1,356.00 billion** was grants from development partners.

Tax Revenues

In FY 2024/25 taxes amounted to **Shs 29,870.77 billion**, against a target of **Shs 29,365.79 billion,** translating into a surplus of **Shs 504.98 billion** (1.7% above the target). This performance represents a 16.1% annual growth in tax revenue, and an improvement in tax revenue-to-GDP ratio from 12.7% in FY 2023/24 to 13.2% in FY 2024/25. This implies that the policy target of growing tax revenue by 0.5 percentage points of GDP annually was achieved.

The good performance in tax revenue collections was mainly on account of income taxes (direct domestic taxes) owing to increased profitability of firms as well as improvements in compliance. Taxes on international trade transactions also performed relatively well, posting a modest surplus, while consumption taxes registered a shortfall compared to their target for the year.

Taxes on international trade

Taxes on international trade registered a surplus of **Shs 50.55 billion**, against a target of **Shs 11,054.71 billion**. Within this tax category, import duty recorded a surplus of **Shs 256.99 billion** and export levy registered a surplus of **Shs 29.78 billion**, while the other tax heads registered shortfalls. These included Value Added Tax (VAT) on imports, petroleum duty, withholding tax, temporary road licences, and excise duty on imports. Petroleum duty was affected by the lower-than-targeted growth in fuel import volumes. Despite the growth in fuel import volumes by 9.52% (255.62 million litres) in FY 2024/25, petrol volumes fell short of the targeted volumes by 1.53% (22.55 million litres). In addition, the import of kerosene declined by 8.90 million litres in FY 2024/25 from the 50.59 million litres reported in FY 2023/24, attributed to the rise in the use of solar energy.

Indirect domestic taxes

Taxes on the consumption of goods and services (indirect domestic taxes) amounted to **Shs 7,477.15 billion**, registering a shortfall of **Shs 153.49 billion,** against a target of **Shs 7,630.64 billion**. VAT contributed **Shs 84.93 billion** to the shortfall, while the remainder (**Shs 68.56 billion**) was in excise duty.

The shortfalls registered under VAT were on account of higher-than-anticipated growth registered in exempt local sales, in addition to zero-rated sales (exports), which affected goods such as spirits/waragi, cement and sugar, as well as insurance services. High-input VAT costs also affected net VAT payable, especially from the cement, beer and soft drinks subsectors, while declines in sugar prices resulted in a decline in the value of sales, thus affecting VAT collections on sugar during the financial year.

The shortfalls in excise duty collections were mainly recorded under phone talk time as more users switched to using data, soft drinks due to a reduction in ad valorem rate on fruit juice, vegetable juice and non-alcoholic beverages from 12% to 10%, resulting in revenue foregone, spirits/waragi, which was affected by continuous unrestricted manufacture, distribution and sale of illicit spirits that frequently avoid taxes and do not adhere to legal requirements.

Direct domestic taxes

Income taxes (direct domestic taxes) amounted to **Shs 11,885.21 billion**, against a target of **Shs 11,344.43 billion**, implying a surplus of **Shs 540.78 billion**. Corporate taxes registered the highest surplus, amounting to **Shs 827.95 billion**, on account of improved business performance and increased profitability among key taxpayers in the manufacturing, financial, trade, and ICT sectors. Additionally, strengthened administrative and compliance measures such as audits, and Tax Investigations Department (TID) assessments, among others, in addition to Government honouring its commitments to pay taxes on behalf of some entities, including Oil Palm Uganda and Roofings Rolling Mills Limited, contributed to the good performance in corporate taxes.

The performance of corporate tax more than offset the shortfalls registered under the other tax heads under income tax, such as Pay as You Earn (PAYE), which registered a shortfall of **Shs 125.63 billion**. The shortfall in PAYE was attributed to reduced staff numbers in some top tax-paying private sector institutions, a decline in donor-funded NGO activity, especially due to the USAID aid freeze, which resulted in staff layoffs and lower PAYE remittances in the NGO sector, and the commencement of RAPEX, i.e., the rationalisation of agencies such as Uganda National Roads Authority (UNRA), Uganda Road Fund (URF), Uganda Coffee Development Authority (UCDA), and National Agricultural Advisory Services (NAADs), which also negatively affected PAYE collections.

Table 1.2: Details of domestic revenue performance for FY 2024/25 (Shs bn)

	FY 2024/25 TARGET	FY 2024/25 OUTTURN	DEVIATION	PERFORMANCE	GROWTH

Non-Tax Revenue (NTR)

Government projected to collect **Shs 2,616.14 billion** in the form of non-tax revenue (NTR) in FY 2024/25. However, by the end of the financial year, only **Shs 2,207.85 billion** had been realised, implying a shortfall of **Shs 408.29 billion** and a performance of 84.4%. This performance was partly due to delays in funds intended to boost revenue collections by some MDAs.

Additionally, there was less-than-anticipated demand for Government services that generate NTR, including driving permits and motor vehicle fees and penalties under the Traffic and Road Safety Act, among others.

Grants

The total grants disbursed during FY 2024/25 amounted to **Shs 1,356.00 billion**. This is against a projection of **Shs 2,884.92 billion**, implying a performance of 47.0%. The underperformance was wholly recorded under project support grants, where only **Shs 1,238.66 billion** out of the expected **Shs 2,845.43 billion** was realised. These disbursements were primarily impacted by delays in the approval process for certain projects, despite their inclusion in the budget, as well as slower disbursements for some other projects due to low absorption.

On a positive note, budget support grants disbursement amounted to **Shs 117.34 billion**, which was almost three times higher than **Shs 39.49 billion** that had been programmed for the financial year. This followed USAID disbursing more funds than had initially been expected during the financial year to referral hospitals, including Jinja, Mbarara, Lira, Moroto, Gulu and Mbale Hospitals. Additionally, there was a disbursement that had not been programmed for FY2024/25 from the World Bank towards the Uganda InterGovernment al Fiscal Transfer (UgIFT) Programme.

1.3 Financing

Government 's operations in FY 2024/25 resulted in a fiscal deficit (net borrowing) of **Shs 13,079.71 billion**. This deficit was financed through borrowing from the domestic financial markets as well as from external financiers. During the financial year, net domestic financing (incorporating changes in both liabilities and financial assets across various market segments) amounted to **Shs 11,730.48 billion**. More specifically, a total of **Shs 12,116.96 billion** was raised from the banking and non-banking sectors for fiscal purposes, that is, to finance activities in the budget.

From the external market, an equivalent of **Shs 4,264.93 billion** was disbursed, of which **Shs 3,613.35 billion** was towards specific development projects, while **Shs 651.58 billion** was for general budget support. However, Government amortised an equivalent of **Shs 3,051.06 billion** out of the outstanding external debt. As a result, the net borrowing from external sources during the financial year was **Shs 1,213.86 billion**.

1.4 Expenses

During FY 2024/25, total Government expenses amounted to **Shs 39,114.16 billion**, which was 3% higher than the budget of **Shs 37,957.71 billion**. The higher than budgeted expenses were explained by the supplementary budgets issued during the financial year to cater for the emerging needs that had not been foreseen at the time of the approved budget. As such, all the categories of expenses were above their respective budgets, except for interest payments and other expenses.

Compensation of Central Government employees amounted to **Shs 5,232.80 billion**, against a budget of **Shs 5,220.72 billion**. Of the total expenses under this category, **Shs 3,555.12 billion** was wages and salaries, which were 1.4% above its budget.

Government spent **Shs 8,971.84 billion** on the purchase of goods and services in FY 2024/25. This is 4.0% higher than initially budgeted and is on account of operational shortfalls realised during budget implementation in various MDAs, necessitating supplementary budgets to be issued.

For similar reasons, grants to Local Governments, tertiary institutions, Missions Abroad and hospitals were 6.0% above budget, having totalled **Shs 13,509.08 billion**, against a budget of **Shs 11,345.75 billion**. Of the total grants sent out, **Shs 4,641.47 billion** was wages and salaries for employees in Local Governments, Missions Abroad, hospitals and tertiary institutions.

On the other hand, interest payments were 12.6% lower than in the approved budget. This was on account of lower interest rates during the financial year than what had been projected at the start of the year, thereby requiring less interest payments on domestic debt. Additionally, external debt interest payments were lower than initially planned due to the strengthening of the Uganda shilling against the US dollar, implying that fewer shillings were required to service external debt in FY 2024/25.

1.5 Acquisition of non-financial assets

During FY 2024/25, Government spent **Shs 7,400.16 billion** on the acquisition of non-financial assets. This translates into a performance of 78.4%, against the budget of **Shs 9,433.01 billion**. The lower-than-budgeted performance was wholly on account of externally financed development projects, since spending on domestically financed projects exceeded what was initially in the approved budget.

Externally funded projects were impacted by some of the projects failing to secure all the necessary approvals in time to ensure disbursements and spending despite being included in the budget. Additionally, change of project scope from approved plans and delays in acquiring right of way (RoW) for infrastructure projects continued to influence the overall performance of projects, thereby slowing down Government ’s acquisition of non-financial assets.

CHAPTER 2: OVERVIEW OF THE EXPENDITURE PERFORMANCE

2.1 Highlights of Overall Expenditure Performance

This section reports on budget performance of the Government expenditures in terms of budget releases against the approved GoU budget for FY 2024/25, and the expenditures based on EFT transfers centrally from the Treasury and reported on by MDAs.

(i) Overall Expenditure Performance

Table 2.1 below shows the release and expenditure performance by wage, non-wage and development classifications.

Table 2.1: Overall Releases and Expenditure for FY 2024/25

		Approved Budget	Released by End Jun	Spent by End Jun	% Budget Released	% Budget Spent	% Releases Spent
Recurrent	Wage	7,934.753	7,980.593	7,841.953	100.6 %	98.8 %	98.3 %
	Non-Wage	13,633.241	15,805.849	15,709.290	115.9 %	115.2 %	99.4 %
Devt.	GoU	5,902.578	6,908.553	6,855.507	117.0 %	116.1 %	99.2 %
	Ext Fin.	9,582.942	7,667.254	3,326.988	80.0 %	34.7 %	43.4 %
GoU Total		**27,470.573**	**30,694.995**	**30,406.750**	**111.7 %**	**110.7 %**	**99.1 %**
Total GoU+Ext Fin (MTEF)		**37,053.515**	**38,362.249**	**33,733.738**	**103.5 %**	**91.0 %**	**87.9 %**
Arrears		199.931	265.456	264.792	132.8 %	132.4 %	99.7 %
Total Budget		**37,253.445**	**38,627.705**	**33,998.530**	**103.7 %**	**91.3 %**	**88.0 %**
A.I.A Total		293.898	2.210	1.723	0.8 %	0.6 %	78.0 %
Grand Total		**37,547.344**	**38,629.914**	**34,000.253**	**102.9 %**	**90.6 %**	**88.0 %**
Grand Total Budget Excluding Arrears		**37,053.515**	**38,364.458**	**33,735.461**	**103.5 %**	**91.0 %**	**87.9 %**

Excl. Interest Payments

At an aggregate level, **Shs 30,694.995 billion** of the GoU budget was released by the end of June 2025. This equates to 111.7% of the approved budget. Aggregate absorption (measured by expenditure as a proportion of releases) was 99.1%, which represents strong budget execution as at the end of the financial year.

Wage

Total wage releases performed at **Shs 7,980.593 billion** (100.6%) of the approved budget and of this, **Shs 7,841.953 billion** was spent, which represents an absorption rate of 98.3%.

Non-Wage Recurrent

Non-wage recurrent releases were recorded at **Shs 15,805.849 billion**, which equates to 115.9% of the approved budget and absorption was at 99.4%.

Domestic Development

Releases for the domestic development budget performed at **Shs 6,908.553 billion,** which equates to 117.0% of the approved budget. **Shs 6,855.507 billion** of this amount was spent, which represents absorption of 99.2%.

External Financing

The releases for external financing budget performed only at 80.0%, and 43.4 % absorption was realised.

2.2 Programme Expenditure Performance

Table 2.2: Overall GoU Releases and Expenditure by Programme for FY 2024/25

Billion Uganda Shillings	Approved Budget	Released by End Jun	Spent by End Jun	% GoU Budget Released	% GoU Budget Spent	% GoU Releases Spent
01 Agro-Industrialization	1,138.283	1,205.655	1,193.981	105.9 %	104.9 %	99.0 %

Grand Total	**27,670.503**	**30,960.451**	**30,671.542**	**111.9 %**	**110.8 %**	**99.1 %**
*Excl. Interest Payments, External Financing and AIA**						

The above table shows the total GoU releases and expenditures to all the 20 programmes. A total of 17/20 programmes received over 100% of their total budget released, which can be explained by additional supplementary expenditures during the financial year. Specifically, for Innovation, Technology Development and Transfer, the supplementary expenditure was for the STI Secretariat, and for Sustainable Urbanisation and Housing, the funds were used to cover USMID contractual obligations. On expenditure of the total released budget, Mineral Development, Administration of Justice and Legislation, Oversight and Representation Programmes performed below 100%.

2.3 Central Government Expenditure

This section reports on the performance of Central Government expenditure by categories of GoU Expenditure, External Financing and AIA.

i. Overall Central Government Releases and Expenditure

Table 2.3: Central Government Releases and Expenditure by Programme for FY 2024/25

Billion Uganda Shillings	Approved Budget	Released by End Jun	Spent by End Jun	% GoU Budget Released	% GoU Budget Spent	% GoU Releases Spent
01 Agro-Industrialization	1,786.448	1,496.095	1,009.664	83.7 %	56.5 %	67.5 %
02 Mineral Development	46.060	51.659	41.702	112.2 %	90.5 %	80.7 %

20 Legislation, Oversight And Representation	978.570	975.489	972.350	99.7 %	99.4 %	99.7 %
Grand Total	**31,598.279**	**32,887.589**	**28,257.926**	**104.1 %**	**89.4 %**	**85.9 %**
Wage	**4,582.939**	**4,592.152**	**4,453.512**	**100.2 %**	**97.2 %**	**97.0 %**
Non Wage	**12,073.221**	**14,220.460**	**14,123.902**	**117.8 %**	**117.0 %**	**99.3 %**
GoU Development	**5,250.259**	**6,258.327**	**6,205.282**	**119.2 %**	**118.2 %**	**99.2 %**
External Financing	**9,526.137**	**7,635.706**	**3,295.438**	**80.2 %**	**34.6 %**	**43.2 %**
Arrears	**165.724**	**179.938**	**179.274**	**108.6 %**	**108.2 %**	**99.6 %**
A.I.A	**0.000**	**1.005**	**0.518**	**100.5 %**	**51.8 %**	**51.6 %**
*Excl. Interest Payments and Local Governments**						

The Central Government expenditures highlight the level of budget implementation at national level. Wages performed at 100.2% of the budget, Non-Wage Recurrent was at 117.8%, GoU Development was 119.2%, while external financing and arrears accounted for 80.2% and 108.6%, respectively. On performance, the overall budget release was at 104.1% and expenditure was at 85.9%.

2.4 Local Government Transfers and Expenditure

Table 2.4: Local Governments Grant Releases by Programme for FY 2024/25

Billion Uganda Shillings	Approved Budget	Released by End Jun	% GoU Budget Released
01 Agro-Industrialization	281.098	342.854	122.0 %
05 Tourism Development	1.900	1.900	100.0 %
06 Natural Resources, Environment, Climate Change, Land And Water Management	9.112	6.025	66.1 %
07 Private Sector Development	2.972	1.116	37.5 %
09 Integrated Transport Infrastructure And Services	220.309	220.309	100.0 %
10 Sustainable Urbanisation And Housing	52.513	31.550	60.1 %
12 Human Capital Development	3,812.985	3,812.985	100.0 %
15 Community Mobilization And Mindset Change	7.640	7.640	100.0 %
17 Regional Balanced Development	1,560.535	1,317.948	84.5 %
Grand Total	**5,949.064**	**5,742.328**	**96.5 %**
Wage	**3,351.815**	**3,388.441**	**101.1 %**
Non Wage	**1,560.020**	**1,585.389**	**101.6 %**
GoU Development	**652.319**	**650.226**	**99.7 %**
External Financing	**56.805**	**31.550**	**55.5 %**
Arrears	**34.207**	**85.518**	**250.0 %**
A.I.A	**293.898**	**1.205**	**0.4 %**

The overall performance for GoU Local Government releases for FY 2024/25 was at 96.5% of the approved budget, with Wage at 101.1%, Non-Wage at 101.6% and GoU Development releases at 99.7%, while External Financing and Arrears performed at 55.5% and 250.0%.

CHAPTER 3: PROGRAMME PERFORMANCE

3.1 Agro-Industrialisation Programme

The revised programme budget, including arrears, totalled **Shs 2,231.279 billion**, comprising Government of Uganda (GoU) financing of **Shs 1,302.016 billion** (58.4%) and external financing of **Shs 929.263 billion** (41.6%). By 30th June 2025, **Shs 1,838.951 billion** was released (88.9 % of the budget), of which **Shs 1,352.518 billion** was spent (73.5% of the release). The overall programme release and expenditure performance were rated as good.

The GoU release and expenditure performance was very good, at 92.8% and 99%, respectively. In contrast, external financing performance was fair for releases (68.2 %) and poor for expenditure (25.0 %), primarily due to low preparedness to implement planned activities within the respective project management units for the Uganda Climate Smart Agricultural Transformation Project, the National Oil Palm Project and the National Oil Seeds Project.

Physical Performance

Overall programme performance

By 30th June 2025, the overall programme performance was good, although some sub-programmes underperformed. The Agriculture Financing Sub-Programme achieved very good results, while the Storage, Agro-Processing and Value Addition Sub-Programme performed poorly. Performance of the other three sub-programmes ranged from good to fair. Good performance was due to: farmers' increased access to agricultural financing; availability of donor financing and off-budget support; increased agricultural research; mechanisation and water for production; and quality and regulatory services for the coffee, fisheries, and dairy value chains.

Poor performance was due to: partial implementation by agencies that were affected by the Rationalisation of Government Agencies and Public Expenditure (RAPEX) reform; poor planning and low readiness of the Ministry of Agriculture, Animal Industry and Fisheries (MAAIF) to implement donor financed projects; land acquisition and failure to compensate Project-Affected Persons (PAPs); end of off-budget projects, including USAID funding; inadequate staffing; procurement delays and limited development funds to complete infrastructure projects.

Agricultural production and productivity

Research and technology development: Good performance was realised for the flagship projects under the National Agricultural Research Organisation (NARO). Remodelling of the commercial section of the Anti-Tick Vaccine Facility at the National Livestock Resources Research Institute (NaLIRRI) was 95% complete. Upgrading of the Research and Development wing to a mini-manufacturing facility was 70% complete. The bulk of equipment (95%) was on-site and installation was in progress. One million doses were produced and tested in farm-level trials. The vaccine was ready for commercial production.

Construction of the Aflasafe laboratory at Nakyesesa was completed and specialised equipment for inoculum production were partially installed. A total of 48 metric tonnes (8%) of bio-pesticide (Aflasafe) was produced; lower production was due to non-realisation of off-budget funding. A total of 500 MT of aflatoxin mitigate products were ordered for production. Two alternative advanced aflatoxin biocontrol management options were developed, awaiting evaluation. Improved crop varieties were released, including four potato, three millet, one banana, and three coffee varieties.

Promotion of coffee production in Northern Uganda was undertaken through a Coffee Fest held in partnership with West Nile, Acholi, Lango and Karamoja Foundation (Walk Foundation). Different research prototypes for value added products such as cosmetics for Northern Uganda and fish oil were under development. A mini tea cottage processing factory for speciality teas was installed at Rwebitaba Zonal Agricultural Research and Development Institute (ZARDI). However, poor performance was recorded at the ZARDIs due to lack of development funding and understaffing. Many technology development projects in NARO Institutes stalled with the end of off-budget funding and withdrawal of USAID financing.

Animal breeding: Fair performance was noted in the animal breeding programme by the National Animal Genetic Resources Centre and Data Bank (NAGRC&DB). A total of 10,000 Kuroiler birds were stocked at the National Poultry Development Centre in Wakiso District, of which 7,000 were mature laying stock. Their egg-laying capacity averaged 70% due to feed shortages. The two hatcheries at the centre were operationalised with a total capacity of 120,600 hatchable eggs monthly.

Modest growth of goat and cattle herds was realised, affected by disease outbreaks, inadequate and untimely feeds, and drug supply and drought. For example, the cattle herd at Rubona Stock Farm reduced from 357 animals as at 1st July 2024 to 308 by 31st June 2025. The total number of breeding bulls at the Bull Stud in Entebbe reduced from 40 animals as at 1st July 2024 to 35 animals by 31st June 2025 due to tick-borne diseases and the shortage of feeds and acaricides. Semen production at the Bull Stud was low (3,392 doses) due to lack of a semen extender, which was under procurement. Poor performance was noted in the production and dissemination of semen at 36,717 doses (49%) against the target of 75,000 doses of semen.

Semen production was lower due to the breakdown of the liquid nitrogen plan and non-delivery of artificial insemination inputs, which were under procurement. The nitrogen plant at Mbarara ZARDI was 50% operational, producing 60 litres of nitrogen per day. The total liquid nitrogen produced was 80,155.5 litres (89%), against a target of 90,000 litres.

The biosafety gate at Nshaara Ranch was completed, although reduced in size due to resource constraints. The ranch had animal feed reserves estimated at 60,000 MT. Encroachers were occupying about 8 square miles, which affected pasture availability for animals. Infrastructure development for breeding generally stalled. For example, the hostel that was completed three years ago at Rubona Stock Farm was not in use due to lack of electricity and water. The grain silos at Kasolwe Ranch were incomplete, among other challenges.

Provision of agricultural inputs: During the first half of the year, before the RAPEX reform, the Uganda Coffee Development Authority (UCDA), Cotton Development Organisation (CDO), National Agricultural Advisory Services (NAADS) and Dairy Development Authority (DDA) distributed assorted inputs to farmers. The inputs included Hass avocado and macadamia seedlings, cotton seed, pesticides, fertilisers , livestock, farm tools, spray pumps and safety gear. MAAIF procured and distributed 27 million doses of foot-and-mouth disease (FMD) vaccine to all District Local Governments (DLGs).

Pest and disease control: Construction of three Regional/Zonal Animal Disease Control Centres was progressing at various stages: Sanga in Kiruhura District (53% and on schedule); Rubona in Bunyangabo District (30% and behind schedule); and Katine in Soroti District (45% and behind schedule). The Got Apwoyo Disease Control Centre that was completed in FY 2023/24 was not operationalised except for the sections allocated to the NAGRC&DB, where animal stock was raised.

*Water for agricultural production***:** MAAIF and the Ministry of Water and Environment (MWE) continued providing water for production (WfP) to various farmers across the country. Good progress was made by MAAIF, which constructed 119 valley tanks/dams/fish ponds with an estimated 4,302,515 cubic metres of water for production in 24 districts, mostly in Karamoja, Eastern and Central Regions. To counter the death of animals in the cattle corridor due to drought, three water bowsers were deployed to serve farms in Nakasongola, Kyenjojo and Kamwenge Districts.

Under the Uganda Inter-Government al Fiscal Transfers programme (UgIFT) micro-scale irrigation component, 568 demonstrations (100%) and 4,763 (95%) small farmer irrigation systems, out of the targeted 5,000, had been installed cumulatively by 31st June 2025. It was observed that some of the established demonstration sites were not functional due to vandalism of system equipment and land grievances. The key implementation challenges were the high farmer co-funding and delayed installations.

The construction of Atari Irrigation Scheme in Bulambuli District commenced in October 2024. The overall physical performance was 31% by June 2025, including the establishment of 70% of the road network and canals. The initial earthworks at the head works/intake stalled at 5% due to unstable soil conditions. Out of the 510 properties valued, 474 properties, covering 250 acres, had been compensated to the tune of Shs 703.6 million. Based on the Supplementary Schedule 2 valuation report, 55 properties worth Shs 187.73million for 15 Project-Affected Persons (PAPs) remained unpaid. The incomplete payment of PAPs delayed the establishment of trial farms, which were later set up at Ngenge Irrigation Scheme.

Construction of Acomai Irrigation Scheme was at 91.3%, against a time progress of 100%. The sections of the dam the were completed included the head works, irrigation supply canals, drainage canals, storage reservoir, and hydro-mechanical gates. The construction was behind schedule, the late completion attributed to delays in compensation of PAPs, flooding of the

river and additional works to the original scope. The Kamenyamigo Mini-irrigation Scheme was not functional due to spillages at the gates, as well as lack of a drain channel for the last block, and the facility was yet to be handed over to the beneficiary institution (NARO).

The performance of the MWE was fair, with most sites not completed. Feasibility and design for Akisim Earth Dam (Butebo) were at 100% and 50%, respectively, delayed by stakeholder and procurement issues. Kabuyanda Dam (Isingiro) stalled at 21%; Ngenge Dam (Kween) remained at feasibility/design stage. Kasensero Dam (Mubende) was at 10%; Kikoota Reservoir (Kalungu) was 75% complete; and land acquisition was ongoing at Kyemamba Dam (Lyantonde). Procurement delays, land issues, and budget cuts were major constraints, especially affecting valley tanks in Tororo and Katakwi Districts.

Medium-scale schemes varied: Namaitsu (Bududa) at 20%; Chebombai (Bukwo) at 80%; Nakaseke at 30%; other schemes in Sebei and Bukedi at 20%; Otuke not started; and Tikalu (Wakiso) at 65%. Large schemes such as Kabuyanda (22.7%) advanced; while Unyama and Namalu stalled due to procurement delays. Feasibility studies in Kamwenge were complete; procurement was ongoing in Ntungamo and Sembabule; and Masaka was at inception.

A total of 128 sites were under construction, 190 were nearly complete and 34 had been commissioned. Support was provided to sites like Ayom Lony and Odeye. Kabasombwa (Lwampanga) was 95% complete but delayed by flooding; Nadangira (Namutumba) was non-functional; and Mpegwe (Wakiso) faced low pressure and leakages.

Valley tanks showed mixed progress: Tuura (Masindi) and Mpiti (Kaliro) were 100% complete but not handed over; Ocibi B (Amuru) was at 90%; Pawinyo (Adjumani) was at 70%; Lolikoyo (Tororo, 30,000 m^3) was at 50%; Pailekol (Katakwi, 30,000m^3) stalled; Bukedea, Sironko, and Bulambuli were at the design stage, with only Bukedea sites cleared by the National Environment Management Authority (NEMA); and Kazo and Burunga tanks (Kiruhura) were at 90% completion.

Flooding at Doho and Ngenge Irrigation Schemes blocked canals, restricting farmer access to water; while vandalism, lack of trained operators, and low water pressure affected the functionality of systems such as Nadangira and Mpegwe. Land acquisition issues affected progress of works, such as in the case of Kyemamba Dam in Lyantonde, and other sites requiring huge compensation costs. Limited technical expertise and knowledge among beneficiaries hindered the effective adoption and sustainable management of irrigation technologies.

Storage, Agro-Processing and Value Addition

The performance was poor, largely due to the rationalisation of major implementing agencies and delays in Uganda Development Corporation (UDC)'s appraisal of investment projects. The planned activities for the rationalised agencies – such as procuring and distributing milk coolers and coffee processing equipment, as well as rehabilitating milk collection centres in Kakooge, Buliisa, and Kitgum – were not implemented.

The establishment of storage, value addition and agro-processing facilities was at varying progress. The renovation of the Mbale Dairy Processing Factory (phase one) was 70% complete but behind schedule; some pieces of equipment were delivered and their installation awaited completion of civil works. The Bukedea and Wera Milk Collection Centres (MCCs) were completed but unequipped and non-operational. Through district Production and Marketing Departments, MAAIF established infrastructure to improve storage and value addition for agro-produce; however, most facilities were non-operational as of 8th August 2025.

The UDC continued to provide guidance and oversight to 10 agro-processing companies, seven of which were operational and three inactive due to raw material shortages and falling market prices for processed tea. Examples include Atiak Sugar Factory, which was not processing cane into sugar; Yumbe Fruit Factory, which had processed 170 MT of mango pulp, secured the UNBS quality mark (Q-mark), and stored the product, but was non-operational due to raw material shortages; and Mpanga Growers' Tea Factory, which was also non-operational. The UDC contracted Chimaki Agro Ltd to operate Soroti Fruit Factory, while Mutuma Commercial Agency stayed operational and secured Shs 3 billion in additional financing.

Agricultural Market Access and Competitiveness

The performance was fair and, among the monitored interventions, the initiative to strengthen enforcement and adherence to product quality requirements achieved the best results. During the review period, the Uganda National Bureau of Standards (UNBS) certified 5,703 products against a target of 6,000, and conducted 9,983 product audits and 79 system audits. MAAIF inspected and certified 8,395,451 sixty-kilogram bags for export to various global destinations. In addition, 1,497 milk handling premises and 3,003 consignments were inspected, alongside 43 enforcement exercises and 31 market surveillance activities. The Ministry also inspected and certified 36,615.3 MT of fish products for export.

Progress on equipping the National Metrology Laboratory at the UNBS headquarters in Wakiso District stood at 30%. Delays in equipment delivery and installation were attributed to the laboratory's non-readiness, specifically due to a faulty heating, ventilation, and air conditioning (HVAC) system. The construction of Nabiswera Milk Collection Centre was completed, with some equipment delivered and awaiting installation, while the renovation of the National Sanitary and Phytosanitary Laboratory at Namalere was completed and partially operational. However, accreditation of the National Dairy Analytical Laboratory to the International Organisation for Standardization (ISO) ISO-17025-2017 standard was not achieved.

To improve agricultural market infrastructure in rural and urban areas, the construction and rehabilitation of 1,035.42 km of roads under the National Oil Seeds Project was ongoing at 53% physical progress. Under the National Oil Palm Project, 30 km of farm access roads were constructed, and 16.5 km of community access roads were maintained.

Agricultural Financing

By 30th June 2025, the performance was very good. Under the Agricultural Credit Facility (ACF), 3,225 projects were financed, while 35,947 farmers insured their investments against various production risks through the Uganda Agriculture Insurance Scheme (UAIS). However, access to these services remained uneven, with the Western and Central Regions attracting more resources and beneficiaries than the Northern and Eastern Regions.

In FY 2024/25, a total of **Shs 248.79 billion** under the ACF was disbursed to 3,225 borrowers. Agro-processing and value addition accounted for the largest share of loan value at 48.4%, while primary production (land clearing, farm inputs, animal feeds, paddocking, biological assets and machinery) comprised the highest proportion of projects, at 95.4%. The Eastern Region received the largest share of total loan value (35.9%), though 78.3% of these funds went to a single agro-processor. Overall, most beneficiaries were located in the Central Region (58.8%) and Western Region (26.9%), with fewer in the Eastern (9%) and Northern (5.3%) Regions. Individual borrowers accounted for 97.9% of projects and 50.6% of total loan value. Access was lowest among youth (under 35) and senior citizens (60+), and highest among middle-aged individuals (35–59).

During the same period, 35,947 farmers benefitted from agricultural insurance subsidies. The majority were from the Western Region (18,359; 51.1%), followed by the Central (9,618; 26.7%), Northern (4,504; 12.5%), and Eastern (3,466; 9.6%) regions. The value of commodities insured followed a similar pattern, led by the Western Region (**Shs 125.196 billion**) and Central Region (**Shs 87.021 billion**). Although the Eastern Region had the smallest number of beneficiaries, it surpassed the Northern Region in insured commodity value due to high-value crops such as coffee. The Western and Central Regions led in total sum insured, reflecting investments in high-value enterprises such as poultry, cattle, and coffee.

The Parish Development Model (PDM) revolving fund performed very well in release. **Shs 1.059 trillion** was disbursed to 10,585 parish SACCOs as at 30th June 2025. However, actual disbursements to intended borrowers varied across districts in July 2025, largely due to the late release of the second tranche in June 2025. For instance, in Terego District, **Shs 2.1 billion** was disbursed to 2,100 borrowers out of the **Shs 4.2 billion** received. Implementation was hampered by several challenges, including system errors in the Parish Development Management Information System (PDMIS), inadequate technical capacity among district staff, and delays in licensing PDM SACCOs by the Microfinance Regulatory Authority (MRA).

Institutional Strengthening and Coordination

Good progress was made in streamlining and harmonising institutional roles and responsibilities under the programme through implementation of the Rationalisation of Government Agencies and Public Expenditure (RAPEX). The key functions and roles, as well as some of the staff of the former Uganda Coffee Development Authority (UCDA), Cotton Development Organisation (CDO), National Agricultural Advisory Services (NAADS) and Dairy Development Authority (DDA), were streamlined into MAAIF. The integration deepened the programme approach to planning and budgeting as all agricultural staff were working under a single spine of governance.

However, there were still challenges in implementing the RAPEX reform: The roles and responsibilities of newly created departments and recruited staff remained unclear. The District Local Governments (DLGs) lacked sufficient guidance on how to integrate or streamline these roles in their Production Departments; they lacked a budget for many of the functions in the former authorities.

Some critical roles that were in the defunct agencies did not have a home or a budget in MAAIF, such as coffee, cotton and dairy quality inspections and enforcements. Financial transactions in the Dairy Development and Production Department South Western Regional Office stalled for most of the year due to lack of MAAIF invoices, receipt books and staff identity cards. Officers lacked specific guidelines on how to implement the Dairy Industry (Amendment Act) 2024. Although by July some staff were recruited to carry out the functions of dairy development and regulation, they were yet to be posted.

The PDM played an important role in institutional strengthening of the enterprise groups and farmer groups through training and monitoring of the programme by the parish structures. The capacity of District Production Departments and Commercial Services Departments was enhanced through managing the Parish Development Management Information System (PDMIS) and joint monitoring of the programme. However, the PDMIS lacks the function of tracking the productivity data for the borrowers.

Challenges

i. Inadequate staffing for extension staff, thus weakening extension services arm.
ii. Delayed completion of valuation studies by the Uganda Development Corporation (UDC).
iii. Poor planning and low preparedness to implement infrastructure-related activities, especially under externally financed projects.
iv. Inadequate budget allocations for agriculture financing, especially under the ACF and UAIS.
v. Procurement delays, including repeated tendering due to high bid prices, impacted schemes like Unyama and Namalu, and delays in starting works for the Ngugo multi-purpose reservoir in Rwampara District.

Recommendations

i. MoFPED, the Ministry of Public Service (MoPS), MAAIF and DLGs should prioritise recruitment and equipping more extension workers.
ii. The UDC should expedite the appraisal and valuation of planned investment projects.
iii. The Project Coordination/Management Units should review and fast track implementation of project activities.
iv. MoFPED should revise the budget ceilings for ACF and UAIS for increased access by eligible farmers to agricultural financing.
v. The MWE should streamline procurement processes and address high bid price issues early to prevent repeated tendering and associated delays, particularly for large-scale schemes such as Unyama and Namalu.

3.2 Mineral Development Programme

The overall annual performance of the Mineral Development Programme for FY 2024/25, inclusive of external financing and arrears, was **Shs 46.06 billion**, of which **Shs 51.659 billion** was released and **Shs 41.702 billion** spent. The excess release was on account of drawing down the external funds under the Project for Airborne Survey.

Physical Performance

The second phase of the biometric registration showed good progress, with a total of 2,294 (1,866 males, 428 females) artisanal miners registered (76% of the target) across the country. A total of 3,217 artisanal and small-scale miners (ASMs) (2,366 males, 851 females) were also sensitised on best mining practices.

To enhance mineral production through the regulation of artisanal mining activities, MEMD was in the process of drafting regulations to enable operationalisation of the Mining and Minerals Act 2022. The Regulation and Building Substance Bill, which aims to regulate miners of building substances on a large scale, was gazetted and operationalised. The drafting of the National Content Regulations to help enforce the Mining and Minerals Act 2022 also commenced.

There was progress made towards the development of more mineral processing facilities. The Model Mineral Production Sharing Agreement (MPSA) of Kilembe Mines redevelopment was signed, and the mines were handed over to a new developer as part of ensuring sustainability of the subsector. The mining and production of phosphate fertiliser in Sukulu, Tororo, also commenced, and the development of the Wagagai Gold and Makuutu Rare Earth Projects progressed with the Rare Earth Elements (REE) appraised deposits in Bugiri, Bugweri and Mayuge Districts estimated at 640 million tonnes.

As part of licensing and regulation, 163 Mineral Dealers' Licences (MDL), 12 Goldsmith Licences (GSL), 132 Prospecting Licences (PL), 155 Exploration Licences, four (04) Small-Scale Mining Licences, seven (07) Medium-Scale Mining Licences, two (02) Mineral Refining Licences, one (01) Mineral Processing Licence, one (01) Blasting Certificate, and six (06) ICGLR Certificates were granted. A total of 10 inspectors were recruited and three inspection vans procured, with 71% of the targeted 80% of mineral exploration and production activities monitored.

MEMD also undertook further exploration and assessment of mineral potential. The Karamoja Airborne Geographical Survey Project, data acquisition for phases one and two, was completed using gravity, magnetic and radiometric techniques. Phase-three data interpretation from the magnetic, radiometric and gravity surveys was at its tail end, with the electromagnetic surveys completed. The pending activities included geochemical and geological mapping. The progress was affected by low counterpart funding to conclude the phase-three activities. The assessment of other minerals, such as uranium and gold in Buhweju, gold in Abim, iron ore in Kabale, as well as magnetic surveys for copper in Hoima and Masindi, was undertaken.

The operationalisation of the two regional centres constructed in Fort Portal and Ntungamo to aid in the analysis of collected samples from field activities commenced, and some of the staff

were recruited. Procurement of some of the equipment and furniture for the centres was also undertaken.

Under the Mineral Infrastructure Development Project, the installation of six (06) weighbridges in Bulambuli, Sironko, Katakwi and Napak Districts progressed, with designs/geotechnical investigations completed during the financial year. The procurement of land for the installation of two of the weighbridges made progress, with land in Lorengechorwa, Napak acquired and re-evaluation of in Buyaga, Bulambuli land ongoing before payment. Twelve more sites earmarked for weighbridge installations were mapped in other areas with bulk minerals (marble, pozzolana) across the country, and their lawful land owners identified. The valuation process by the Chief Government Valuer was ongoing.

Challenges

i. Low funding to the Mineral Development Programme is affecting the ability to undertake important activities such as installation of weighbridges, inspection, and acquisition of the necessary equipment/software, which are required to better regulate the sector and undertake further minerals exploration.
ii. The programme has inadequate staffing levels to undertake the time-consuming and labour- intensive mineral exploration work and, at the same time, monitor compliance by the existing licence holders.

Recommendations

i. MEMD should prioritise funding for the Mineral Development Programme so that the relevant departments are adequately equipped, staffed and facilitated to undertake further mineral exploration and regulation.
ii. The newly established Uganda National Mining Company (UNMC) should focus on attracting large-scale mining companies so that there is increased private sector investment, job creation and revenue from the mining sector.

3.3 Sustainable Development of Petroleum Resources Programme

The Sustainable Development of Petroleum Resources Programme budget for FY 2024/25 was revised to **Shs 1.006 trillion** from **Shs 835.058 billion** to cater for additional equity financing for the East African Crude Oil Pipeline (EACOP) and additional wage for the Petroleum Authority of Uganda (PAU). The release was fair, at **Shs 625.62 billion** (74.9%), with good absorption at **Shs 623.01 billion** (99.6%) by 30th June 2025.

The overall physical performance of the Sustainable Development of Petroleum Resources Programme was fair. One of the highlights during the FY 2024/25 was the conclusion of financing arrangements for EACOP with a syndicate of financial institutions. The number of Ugandans directly employed in oil and gas increased by 32% to 17,203, as compared to the previous FY 2023/24, with the overall local participation in upstream and midstream oil and gas activities at 56,770.

Physical Performance

Upstream

Under the Upstream Sub-programme, the geological and geophysical data acquisition in the Lake Kyoga basin commenced with the annual target of 100-line km achieved. The exploration of the Moroto-Kadam basin resumed after works were earlier suspended due to insecurity in the region. The third licensing round for additional prospective explored areas was pending the development of the third licensing strategy and plan, and thus no new exploration licences were granted. Poor performance was noted in the equipping of the National Data Petroleum Repository (NDPR) and the development of the integrated management systems due to a lack of funding.

Fair progress was observed in the construction of the Central Processing Facilities (CPFs) to fast-track production of the first oil. The overall construction of the CPFs progressed to 60.4% from 39.9% in the previous financial year, but was behind schedule. The development of the Tilenga and Kingfisher upstream facilities was at 57% and 69.6%, respectively. Cumulatively, a total of 148 wells (134 at Tilenga, 14 at Kingfisher) out of the targeted 189 (179 at Tilenga, 19 at Kingfisher) for first oil production had been drilled. The Resettlement Action Plan (RAP) for Kingfisher was completed, and in the Tilenga exploration area, RAP was being concluded with 99.1% of PAPs paid, while all resettlement houses had been completed and handed over.

The laying of the feeder pipeline to transport oil from the Kingfisher CPF to the export hub in Kabalega Industrial Park, Hoima, was completed, while the pipe laying for the feeder pipeline from Buliisa was ongoing, with progress at 67%. The laying and installation of flow lines from the well pads to the CPFs in Kingfisher and Tilenga was ongoing.

Regarding the Midstream Sub-programme, development of the midstream infrastructure was at various stages. The financial closure for the debt financing of EACOP was achieved in March 2025. The 40% EACOP equity contribution by the partners was also completed. However, cash calls worth USD 68 million were made available by the GoU in the first half of the financial year due to a delay in achieving financial closure for the debt financing. The EACOP construction works progressed to 64.1%, and 90% of the insulated pipes had been delivered.

The assembling and welding of the pipes progressed with over 500 km of the 1,443 km completed. The works at the six pumping stations to boost crude oil pressure and the 15 pipeline yards and main camps to aid pipe storage and staff accommodation along the EACOP route also continued.

Under refinery development, a development partner, Alpha MBM, was acquired for the debt financing worth about USD 2.8 billion (70%), and the Implementation Agreement (IA) was signed on 29th March 2025. The negotiations for the Crude Supply Agreement between the Uganda National Oil Company (UNOC) and its upstream partners (Total Energies and CNOOC) were ongoing, and the Shareholders Agreement negotiations with the partner were also anticipated to begin at the start of FY 2025/26. The second phase of the refinery equity disbursement, worth **Shs 140 billion** was released during the FY 2024/25, bringing the cumulative equity disbursements to **Shs 287.69 billion** since FY 2023/24.

Promotion of national participation and local content in oil and gas activities continued to be a priority in the oil and gas sector. More than 1,075 Ugandans were registered on the National Oil and Gas Talent Register to enhance the participation of Ugandans in oil and gas activities. The Ugandans employed directly and indirectly in the sector were 17,203 and 39,567, respectively, by the end of June 2025. This was a 32% increase between June 2024 and June 2025. Ugandan firms also benefitted from 233 (72%) of the 321 contracts awarded during the financial year.

Downstream

MEMD resumed the promotion of Liquefied Petroleum Gas (LPG) as a substitute for charcoal after it stalled during FY 2023/24 due to the low funding allocation. A total of 14,136 cylinder kits (82% of the annual target) were disseminated during FY 2024/25. MEMD monitored downstream petroleum trading operations for quality compliance, and a total of 2,078 retail outlets were inspected, and enforcement was undertaken in 822. The quality compliance levels remained high, at 99.2%, for the 81% average retail coverage inspected.

UNOC also continued importing petroleum products in line with the sole mandate as per the new Petroleum Supply Act. On average, UNOC imported 220 million litres of fuel per month for distribution on the local market during the financial year. However, no funding was provided by the GoU for restocking the Jinja Storage Facility (JST); therefore, the facility was being used for trading rather than as a strategic reserve.

Challenges

i. The delay in the works of the critical oil infrastructure, especially the central processing facility in the Tilenga area and EACOP, is jeopardising the timeline for the country's first oil production.
ii. The management of expectations regarding the benefits from the oil and gas sector remains a major challenge, especially in the project areas of the Albertine region.

Recommendations

Joint Venture Partners should commit more resources to the ongoing key projects and prevent further disruptions to the ongoing EACOP construction due to funding constraint.

3.4 Manufacturing Programme

The Programme budget for FY 2024/25, including arrears, was **Shs 318.368 billion**. This was revised upwards to **Shs 433.242 billion** on account of supplementary funding to Uganda Development Corporation (UDC). Out of the revised budget of **Shs 433.242 billion**, **Shs 276.319 billion** (86.8%) was released by the end of FY 2024/25, and **Shs 273.975 billion** (99.2%) of the released budget was spent. It should be noted that **Shs 155.562 billion** under external financing was not released.

Physical Performance

Ministry of Trade, Industry and Cooperatives (MoTIC)

At Vote level, MoTIC's approved budget amounted to **Shs 160.953 billion**, of which **Shs 274.584 billion** was released and **Shs 272.819billion** was spent by the end of the year. This represented 170.6% budget release, 169.5% budget spent, and 99.4% absorption.

UDC, a subvention under MoTIC, acquired shares in Amuru Sugar Ltd; additional shares were acquired in Abubaker Technical Services and General Supplies; conducted stakeholder engagements/discussions to acquire additional shares in East African Medical Vitals (EAMV), Mutuma Commercial Agencies Ltd (MCAL), Soroti Fruits Ltd (SOFTE), and Sanga Vet Chem; commissioned an impact evaluation for Mpanga Growers Tea Factory; conducted a feasibility study for the Potato Processing Factory in Kigezi; completed an appraisal for Biyinzika Enterprises Ltd and Masheda Foods Ltd; and undertook due diligence on/for a prospective investor in the Cocoa Factory in Bundibugyo, Fresh-Cuts Uganda Ltd, Kayonza Growers Tea Factory, Wazori Med-care Ltd (chemical factory), Delight Uganda Ltd (proposed Nwoya Fruit Factory), Microhaem Scientifics Ltd, Abyssinia Group Ltd (Iron Ore/Steel processing), Virika Pharmaceutical (Intravenous fluids), and Ngetta Tropical Holdings (Vegetable Oil Company in Lango).

MoTIC undertook 26 inspections to enforce anti-counterfeits and quality product laws; facilitated 1,600 SMEs in Business Development Services; served 320 youth through the Interactive SME Web-based System; developed Industrial Licensing Regulations, including those specific to wood-based industries to guide the Board's operations; developed and validated draft Accreditation Regulations, pending review and submission by the yet-to-be-appointed Accreditation Board; reviewed the National Trade Policy during the formulation of the Regulatory Impact Assessment (RIA) on Trade; and reviewed 7 projects and submitted them to the Development Committee (DC), pending approval.

Ministry of Justice and Constitutional Affairs (MoJCA)

At Vote level, the Ministry of Justice and Constitutional Affairs' approved budget amounted to **Shs 0.2billion**, of which **Shs 0.170 billion** was released and **Shs 0.164 billion** was spent by the end of the year. This represented 84.8% budget release, 82% budget spent, and 96.8% absorption. The following activities were implemented: principles for the Consumer Protection Bill were drafted by the First Parliamentary Counsel and submitted to the Ministry of Trade,

Industry and Cooperatives (MoTIC) for review and signature; and the Consumer Protection Bill was drafted by the First Parliamentary Counsel and submitted to MoTIC for review and signature.

Uganda National Bureau of Standards (UNBS)

At Vote level, the Uganda National Bureau of Standards' approved budget amounted to **Shs 0.588 billion**, of which **Shs 0.588 billion** was released and **Shs 0.554 billion** was spent by the end of the year. This represented 100.0% budget release, 94.2% budget spent, and 94.2% absorption. UNBS was able to achieve/implement the following: 305 plastic products certified; 185 inspection and technical guidance field visits conducted to plastic industries; four (04) standards and guidelines developed for the automotive assembly and manufacturing industry; 270 standards developed for products on the Ugandan market, pending approval and declaration as Uganda Standards by the National Standards Council (NSC); 11 value chain standards developed, mainly in agricultural value chains, including coffee, tea, cocoa, bananas, maize, cassava, beans, rice, fruits and vegetables, dairy, fish and livestock (meat) products, and oil seeds; 317 manufacturers sensitised as a result of partnerships and collaborations with various stakeholders like Trade Mark East Africa (TMEA), USAID Feed the Future, and requests from business associations and SACCOs; 5,703 products certified; 26,145 products tested; 4,028 market inspections conducted to enforce the laws on counterfeits and poor-quality products; 320,541 consignments inspected; 0.5 of the NQE award established; eight (08) functional areas accredited, representing 47% expansion of accreditation; and 559 manufacturers sensitised to the importance of certification.

Uganda Investment Authority (UIA):

At Vote level, the Uganda Investment Authority's approved budget amounted to **Shs 156.110 billion**, of which **Shs 0.548 billion** was released and **Shs 0.008 billion** was spent by the end of the year. This represented 0.4% budget release, 0.0% budget spent, and 1.5% absorption. Irrespective of the low percentage budget release under external financing, UIA implemented the following: undertook 10 investment promotion missions in India, Malaysia, Dar es Salaam, Turkey, France, UK, Burundi, India, and the AFSIC – Investing in Africa Conference; supported 36 manufacturers in attracting FDI and DDI (six (06) manufacturers in health and agro-processing were promoted for possible partnerships with a total estimated investment value of USD 180.9 million, and 30 SME women manufacturers were profiled in the Business Deal Book to boost their access to finance, of whom 10 qualified for the NSSF Hi-Innovator, each set to receive USD 20,000); organised and participated in 14 regional/international forums due to enhanced engagements with strategic partners and Government MDAs; and equipped 3 industrial parks (Kampala Industrial Business Park (KIBP) – 58%, Mbale – Lot 1 at 47% and Lot 2 at 7%, and Kapeeka – 100%) with the requisite infrastructure. However, there was a lack of funds for the ongoing industrial park infrastructure projects at Mbale and Kapeeka.

Uganda Free Zones Export Promotion Authority (UFZEPA)

At Vote level, the Uganda Free Zones Export Promotion Authority's approved budget amounted to **Shs 0.030 billion**, of which **Shs 0.000 billion** was released and **Shs 0.000 billion** was spent by the end of the year. This represented 0.0% budget release, 0.0% budget spent, and 0.0% absorption. The authority conducted 12 export readiness assessments, and total exports

increased from USD 7.818 billion in FY 2023/24 to USD 10.633 billion in FY 2024/25 as a result of the surge in the exports of gold and coffee, resulting in a 36% increase in total exports.

Challenges

1. Non-release of significant external financing, particularly for UIA, which limited industrial park development.
2. Persistent underfunding of UFZEPA, which constrained the operationalisation of Free Zones despite their potential to boost exports.
3. Inadequate financing for infrastructure in Industrial Parks, especially Mbale and Kapeeka, leading to delays in project completion.
4. Delays in approval of key regulatory frameworks such as the Accreditation Regulations and pending standards by the National Standards Council.
5. Fragmented institutional coordination across MDAs, resulting in duplication of roles and inefficiencies in delivering programme outcomes.

Recommendations

1. Ensure timely and full release of external financing to prevent the stalling of critical projects under the Programme.
2. Prioritise adequate funding for UIA and UFZEPA to support investment promotion and export diversification.
3. Ring-fence resources for industrial park infrastructure development to unlock manufacturing potential.
4. Expedite the approval process for regulatory frameworks and standards to enhance compliance and competitiveness.
5. Strengthen inter-agency coordination mechanisms to harmonise implementation, reduce duplication, and improve efficiency in achieving programme objectives.

3.5 Tourism Development Programme

TOURISM DEVELOPMENT PROGRAMME

The overall annual program performance was good. The approved budget for the programme was **Shs 297.896 billion**. The budget release under the programme for the year was **Shs 311.822 billion** and the expenditure was **Shs 302.008 billion**. The total funds spent were 96.9% of the total amount released for the year.

Physical Performance

At Vote level, the Ministry of Tourism, Wildlife and Antiquities' approved budget FY 2024/25, inclusive of arrears, amounts to **Shs.275.611 billion,** of which **Shs.289.495 billion** was released and **Shs.280.408 billion** was spent by the end of the year, and this represented 105.0% budget release, 101.7% budget spent and 96.9% absorption.

Similarly, under the Uganda Tourism Board (UTB), out of the approved budget of **Shs 16.134 billion**, **Shs 16.134 billion** was released and **Shs 15.410 billion** was spent by the end of the year. This represented 100% budget release, 95.5% budget spent and 95.5% absorption.

Through the Tourism Marketing and Promotion Sub-programme, several strategic initiatives to boost the destination's tourism visibility and international appeal at key visitor touchpoints were undertaken, and these included branding the Uganda Investment Authority (UIA) One-Stop Centre, Entebbe International Airport's terminals, lounges, aerobridges, and tourism information centre. Two gorilla sculptures were installed at the airport to enrich visitor engagement. Additionally, four Explore Uganda campaigns (Explore Rwenzori, Explore Kigezi, POATE, and Tell Your Story) organised to promote the brand and create destination visibility. UTB also executed a six-month Explore Uganda digital promotional campaign on Expedia, in partnership with the Uganda High Commission in London and the Embassy of Uganda in Washington, D.C., targeting high-value market segments in the USA, Canada, and the United Kingdom.

International campaigns included a six-month "Uniquely Yours" promotion on CNN International and a digital "Explore Uganda" campaign on Expedia, targeting key markets in the USA, UK, Canada, Europe, the Middle East, Asia, and Africa. Additionally, 10,000 branded promotional materials were distributed during domestic campaigns and expos. Uganda also maintained active participation in global tourism policy through its annual United Nations World Tourism Organisation (UNWTO) subscription, attendance at three UNWTO meetings, and four international tourism expos. MICE opportunities and packages were advertised on leading global platforms, including the Union of International Associations (UIA), International Congress and Convention Association (ICCA), and Society for Incentive Travel Excellence (SITE). Furthermore, Uganda's MICE tourism offerings were promoted and advertised on the global MICE Magazine platform to enhance visibility and market reach. Domestically, the 9th edition of the Pearl of Africa Tourism Expo 2025 was successfully held to showcase Uganda's offerings, where 250 exhibitors, 120 hosted buyers and over 4000 trade visitors participated. However, the negative publicity portraying the country as unsafe for tourists affects the brand.

With the Regulation and Skills Development Sub-programme, a total of 1,114 tourism actors were registered, against a target of 600. A total of 997 tourism enterprises were inspected, surpassing the target of 400, and enforcement campaigns were conducted to close unlicensed accommodation facilities in Kampala and Wakiso. Awareness was raised through digital and media campaigns on minimum standards and licensing procedures, while 250 standalone restaurants were profiled for registration, surpassing the target of 100, and 94 accommodation facilities were graded, against a target of 100.

In collaboration with the Directorate of Industrial Training (DIT), 203 tourist guides were assessed. Strategic engagements were held with the East African Community (EAC) Secretariat on revised classification criteria. Research initiatives included a nightlife study with the Tourism Research and Development Centre (TRDC), a visitor flow analysis in the Rwenzori Region with the Centre for the Promotion of Imports from Developing Countries (CBI), and the purchase of tourism data from MMGY Global. The Uganda Wildlife Research and Training College (UWRTC) enrolled 355 students, surpassing the planned 240, while 200 students joined the Uganda Hotel and Tourism Training Institute (UHTTI), thereby meeting the target. Additionally, the Uganda Tourism Board (UTB) Strategic Plan for FY 2025/26–2029/30 was developed to guide future sector growth. However, UTB is awaiting the enactment of regulations by the Ministry of Tourism, Wildlife and Antiquities (MoTWA) that will mandate the Board to inspect and license restaurants. However, Uganda has not yet adopted the EAC revised classification criteria and has very few certified hotel assessors.

Through the Infrastructure, Product Development and Conservation Sub-programme, significant progress was made in wildlife conservation and management, including the construction of 5,514 metres of boardwalks, against a target of 5,000 metres, and installation of 4,790 metres of metallic climbing ladders along the Rwenzori Mountain trails at high altitudes exceeded the target of 4,000 metres, significantly improving access and safety. Phase One of the construction of the Uganda Museum is at approximately 74% completion. The Uganda Wildlife Policy 2014 was revised, and annual subscriptions to key international conventions, such as the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES), the Convention on Migratory Species (CMS), the African-Eurasian Migratory Waterbird Agreement (AEWA) and the Gorilla Agreement, were paid.

Uganda participated in three major international meetings related to tourism and wildlife, and 453,212 tourists (97.9% of the target) were hosted in Wildlife Protected Areas (WPAs). Four General Management Plans were developed for key national parks, and the development of the Uganda Wildlife Authority (UWA) Strategic Plan was 30% complete. Conservation efforts included clearing 4,289 hectares (ha) of invasive species, exceeding the target of 2,300 ha, and maintaining 200.9 km of electric fence across protected areas, exceeding the target of 178 km.

Five research studies, including a scientific one (on DNA analysis of lions), and one each on socioeconomics (tourism revenue sharing), on road kills in Murchison Falls National Park (MFNP) and Kidepo National Park (KNP), and on the perception of enclave communities in

Queen Elizabeth National Park (QENP), are ongoing. These were intended to facilitate the generation of information for the management of wildlife and their habitats.

Subscriptions to the Greater Virunga Transboundary Collaboration (GVTC) and Nature Uganda were fulfilled, 63 wildlife clubs were supported in schools to promote conservation education, exceeding the target of 50 clubs, and 27,575 patrols to combat illegal wildlife activities were conducted, which was above the annual target of 13,904. However, the construction of 50 blocks of ranger accommodation and 20 blocks of waterborne toilets was not done due to lengthy procurement processes.

Six (06) meetings were held with district leaders and community members of Kyotera and Rakai Districts on human-wildlife coexistence, particularly involving hippopotamuses, problem animal management, collaborative resource management, and the effects of poaching and values of conserving and compensation regulations. All this is intended to solicit support for wildlife conservation.

Challenges

i. Lengthy procurement processes have delayed some of the planned activities.
ii. Poor infrastructure, including unreliable internet connectivity, inconsistent electricity supply in protected areas like Murchison Falls, Queen Elizabeth, and Katonga Wildlife Reserve, and the poor condition of some tourism roads, negatively impacts administrative operations, revenue collection, service delivery, and the overall visitor experience.
iii. Community hostility and engagement challenges: In regions such as Mt. Elgon, politically driven community hostility poses significant enforcement challenges. Rangers often encounter resistance, leading to injuries and, in some cases, fatalities. Issues such as illegal grazing, refusal to pay fines, and occasional attacks on tourists further strain community relations and complicate conservation efforts.
iv. The delayed implementation of the revised East African Community (EAC) Classification and Grading Criteria places Uganda at a competitive disadvantage compared to neighbouring. Out of the required 20, Uganda has approximately nine (09) certified hotel assessors, which hampers timely evaluation and licensing of accommodation facilities, with only 100 (0.02%) out of 6,000 accommodation facilities licensed.
v. Uganda's negative perception as an unsafe destination – driven by election-related violence, disease outbreaks, negative media coverage, and controversial LGBTQ+ laws – has deterred tourists and hindered international event bidding, resulting in the cancellation of major events and missed opportunities worth USD 9 million in revenues.
vi. The delay in establishing the Technical Vocational Education Training (TVET) Council has hindered the launch of new courses at UHTTI and UWRTC, as well as the formation of a Board of Governors at UHTTI.

Conclusion

Overall, the performance of the Tourism Development Programme in FY 2024/25 was commendable, with all three sub-programmes – Tourism Marketing and Promotion; Regulation and Skills Development; and Infrastructure, Product Development and Conservation – achieving substantial progress in line with planned outputs. Strategic investments in destination branding, international campaigns, hospitality regulation, conservation, and skills development contributed to enhancing Uganda's visibility and attractiveness as a tourism destination. The programme achieved strong budget absorption, reflecting effective utilisation of resources.

Recommendations

i. UWA's procurement processes should be carried out in a timelier manner in order to prevent loss of time in implementing activities.

ii. The Ministry of Works and Transport (MoWT) and the Ministry of Information and Communications Technology and National Guidance (MoICT&NG) should be facilitated to provide and upgrade the necessary infrastructure to and within the key conservation areas to provide a conducive environment for tourism. Additionally, partnerships with private sector stakeholders and Development Partners can be leveraged to co-fund infrastructure in these areas.

iii. MoTWA should expedite the adoption and implementation of the revised EAC Classification and Grading Criteria to align with regional standards and improve Uganda's tourism competitiveness. Additionally, efforts should be made to build institutional capacity by recruiting and training more certified hotel assessors to meet the minimum requirement of 20 assessors.

iv. Adequate budget allocation and targeted funding should be secured to support grading operations and infrastructure, while exploring partnerships with Development Partners and the private sector to enhance resource mobilisation and sustain quality assurance efforts in the hospitality industry.

v. MoTWA and the MoICT&NG should launch public relations (PR) and crisis campaigns to highlight Uganda's safety and tourism diversity. Engagement with international media and influencers should be intensified to promote positive narratives. Where possible, national laws should be aligned with global human rights standards affecting tourism. Security at key sites should be strengthened and high-profile events hosted to rebuild traveller confidence.

vi. The MWE, in collaboration with MoTWA, should fast-track the establishment of the TVET Council to provide the necessary regulatory and governance framework for technical and vocational training institutions to facilitate the introduction of new, industry-relevant courses and enable the formation of a functional Board of Governors at UHTTI.

3.6 Natural Resource, Environment, Climate Change, Land and Water Resources Management Programme

The programme budget for FY 2024/25, including arrears, was **Shs 479.922 billion**. This was revised upwards to **Shs 532.296 billion** on account of supplementary funding to the Ministry of Lands, Housing and Urban Development (MLHUD) under the Competitiveness and Enterprise Development Project (CEDP), non-tax revenue (NTR) under the National Environment Management Authority (NEMA) and Kampala Capital City Authority (KCCA). Out of the revised budget of **Shs 532.296 billion**, **Shs 503.893 billion** (105%) was released by the end of FY 2024/25, and only **Shs 368.087billion** (76.7%) of the released budget was spent. The poor expenditure was majorly due to low absorption of external financing, especially under the Ministry of Water and Environment (MWE), the MLHUD, and the National Forestry Authority (NFA). This was attributed to delays in the execution of contracts under various development projects.

Physical Performance

Water resources management

In FY 2024/25, significant achievements were made in water resources monitoring, regulation, and infrastructure development. The construction of five surface water monitoring stations in Nchwera, Aswa 1, Pader, Pager, and Aswa was successfully completed, supporting the collection of approximately 4,160 water, wastewater, and environmental samples annually. During this period, 849 water samples from drinking sources were tested, with an average compliance rate of 79.3%. The National Water Quality Reference Laboratory (NWQRL) reached 78% completion, and its ISO/IEC 17025:2017 accreditation was finalised and certified by SADCAS, marking a key milestone in establishing a reputable national testing facility.

Permit applications for drilling and construction totalling 616 (324 new applications and 292 renewals) generated **Shs 862.64 million**. Water quality monitoring was conducted across four regional laboratories, with the NWQRL processing 2,447 samples, including 351 samples from lakes, rivers, and water bodies for compliance assessment. In water resources monitoring, 16 surface water and two (02) groundwater stations along major rivers such as the Nile, Albert, and Kyoga were rehabilitated and made fully operational.

Over 600 permits for water abstraction, drilling, and waste discharges were assessed, resulting in **Shs 862 million** in revenue, including enforcement actions against illegal water abstractors. Stakeholder engagement involved sensitising 920 permit holders. Construction of the NWQRL in Entebbe reached 78% completion, although ongoing payment challenges persisted. Monitoring activities covered 221 industries and municipal wastewater establishments, with a compliance level of 45.4%. More than 1,050 water samples from lakes and rivers were analysed. Additionally, a new station (Rushango in Kamwenge) was established, while the Ntoroko and Hoima stations were rehabilitated.

In catchment management, 135 km of soil and water conservation structures, such as check dams and terraces, were constructed across districts. In the Awoja catchment, 5.2 km of structures, including a rock water harvesting structure and retention ponds, were built.

Community initiatives included the establishment of energy-saving stoves and planting of over 6,000 seedlings, supporting wetland restoration and sustainable land use. Furthermore, 16 surface water and two (02) groundwater stations along major rivers were rehabilitated and made operational, enhancing water monitoring efforts. Over 600 permits for water abstraction, drilling, and waste discharges were assessed, generating revenue of **Shs 862 million**, with enforcement actions taken against illegal activities. Sensitisation efforts involved 920 permit holders.

Environment and natural resources management

A major focus was the restoration and protection of critical wetlands, with efforts to demarcate, gazette, and restore over 900 km of wetland systems nationwide. Approximately 25,000 hectares of degraded wetlands were restored through community mobilisation and technical interventions. Wetland boundaries were demarcated with concrete pillars over more than 402 km in Eastern and Western Uganda, helping to prevent encroachment and illegal activities. These demarcation and restoration activities, notably in districts such as Buhweju, Bushenyi, Sheema, and Rubirizi, contributed to ecological stability and biodiversity conservation.

Support was provided for eco-entrepreneurship by promoting wetland-based enterprises that improve local livelihoods and foster sustainable resource use. Wetland encroachers received inputs for income-generating activities, including goats, cows, and beekeeping equipment, as alternative livelihoods. Under the National Forest Authority (NFA), a total of 200 million seedlings – including 5 million bamboo, 50 million indigenous, and 145 million exotic species – were supplied. Overall, 23,000 hectares of forest were established, with 3,000 hectares under the NFA and 20,000 hectares by licensees on Community Forest Reserves (CFRs). Notable activities included establishing 150 hectares in Rwoho and Bugamba, and 1,200 hectares of enrichment planting in the Muzizi Range. Restoration efforts involved freeing 8,000 hectares from encroachment and supporting natural regeneration. An additional 4,682 hectares were protected, contributing to conservation goals.

Boundary resurveying and maintenance covered 432 km of CFR boundaries, aligned with the broader target to resurvey 12,200 km. Plans for digitising 1,000 km of boundary lines were executed to improve enforcement and clarity. Additionally, 55 Forest Management Plans were prepared or revised for key CFRs such as Sango Bay, Budongo, and Rukungiri. Boundary maintenance covered 450 km across nine ranges, with 50 km maintained per range. The management protected approximately 1.198 million hectares from illegal activities, supported by patrols and surveillance.

A total of 378 hectares of mature plantations were inventoried, and 13,000 hectares were protected from fires. Seedling production exceeded 6 million, supporting reforestation efforts, with seedlings produced at Mbarara (1,027,090) and Mbale (100,000). Boundary resurvey activities included 432 km of demarcation, with 56 km of boundary planted with pillars in Rwoho and Bugamba, and 45 km in the Kyoga Range. Fuelwood plantations were established on 1,500 hectares, with weed control covering 6,235 hectares, including marking and pruning 1,404 hectares to improve forest health.

During the year, NEMA developed seven new regulations and guidelines covering areas such as ecosystem payment, noise and vibration, wetlands, lakeshores, and extended producer responsibility. The authority reviewed and finalised 862 ESIA documents and 1,427 audit reports, while processing 161 ESIA extensions. NEMA commemorated World Environment Day in Kabale under the theme "United Against Plastic Pollution", conducting 340 enforcement operations, 406 compliance inspections, and 242 baseline verification inspections. Non-compliance issues primarily involved wetland degradation, noise pollution, and sand mining across regions.

As part of enforcement and awareness efforts, NEMA attended 230 court cases, including 200 criminal and 30 civil litigations. The organisation investigated 62 environmental crimes and conducted 48 operations in Mbale. Revenue collection from NTR totalled **Shs 17.217 billion**. The 2024 National State of Environment Report and the Research Agenda 2024/25–2028/29 were launched, and the National Environment Sustainability Awards hosted. Additionally, NEMA processed 122 waste management licences, with 98 approved, 15 deferred, and 9 rejected, supporting national environmental objectives.

Water resources management

The construction of five surface water monitoring stations (Nchwera, Aswa 1, Pader, Pager, Aswa DS) was successfully completed, supporting the collection of approximately 4,160 water, wastewater, and environmental samples annually. During this period, 849 water samples from drinking sources were tested, with compliance rates averaging 79.3%. The National Water Quality Reference Laboratory (NWQRL) was 78% complete, and its ISO/IEC 17025:2017 accreditation was finalised and certified by SADCAS.

Permit applications for drilling and construction, totalling 616 (324 new and 292 renewals), generated **Shs 862.64 million**. Water quality monitoring was conducted across four regional laboratories, with the NWQRL processing 2,447 samples. Additionally, 351 samples from lakes, rivers, and water bodies were analysed for compliance. In water resources monitoring, 16 surface water and two (02) groundwater stations along major rivers like the Nile, Albert, and Kyoga were rehabilitated and made operational.

Over 600 permits for water abstraction, drilling, and waste discharges were assessed, resulting in **Shs 862 million** in revenue, including enforcement actions against illegal water abstractors. Stakeholder engagement involved sensitising 920 permit holders.

The construction of the National Water Quality Reference Laboratory in Entebbe reached 78% completion, with ongoing payment challenges. Monitoring efforts included 221 industries and municipal wastewater establishments, with a compliance level of 45.4%. Over 1,050 water samples from lakes and rivers were analysed. A new station (Rushango in Kamwenge) was established while the Ntoroko and Hoima stations were rehabilitated.

In catchment management, 135 km of soil and water conservation structures, such as check dams and terraces, were built across districts. In the Awoja catchment, 5.2 km of structures, including a rock water harvesting structure and retention ponds, were constructed. Additionally, 79.68 km of riverbanks were demarcated, and community initiatives established energy-saving stoves and planted over 6,000 seedlings, supporting wetland restoration and sustainable land use.

Environment and natural resources

A key focus was placed on the restoration and protection of critical wetlands, with efforts to demarcate, gazette, and restore over 900 kilometres of wetland systems across the country. For example, approximately 25,000 hectares of degraded wetlands were restored through community mobilisation and technical interventions. Wetland boundaries were demarcated with concrete pillars in over 402 km of wetlands in eastern and western parts of the country, helping to prevent encroachment and illegal activities. These demarcation efforts, alongside restoration activities in the districts of Buhweju, Bushenyi, Sheema and Rubirizi, contribute to ecological stability and biodiversity preservation.

Support was given for the development of eco-entrepreneurship by promoting wetland-based enterprises aimed at improving local livelihoods and fostering sustainable use of wetland resources. Wetland encroachers were given inputs for income-generating activities as alternative sources of livelihood, including goats, cows, and beekeeping equipment.

Under the NFA, a total of 200 million seedlings were supplied, including 5 million bamboo, 50 million indigenous, and 145 million exotic species. Overall, 23,000 hectares of forest were established (3,000 ha under NFA and 20,000 ha by licensees on CFRs). In Rwoho and Bugamba, 150 ha were newly established, while the Muzizi Range had 1,200 ha of enrichment planting. Restoration efforts involved freeing 8,000 ha from encroachment and implementing natural regeneration and enrichment planting. An additional 4,682 hectares were protected, contributing to conservation goals.

Resurveying and maintenance of 432 km of CFR boundaries were undertaken as part of the broader goal to resurvey 12,200 km. Boundary plans for 1,000 km were digitised to improve clarity and enforcement. Additionally, 55 Forest Management Plans were prepared or revised for key CFRs such as Sango Bay, Budongo, and Rukungiri. Boundary maintenance covered 450 km across nine ranges, with 50 km maintained per range. The management protected approximately 1.198 million hectares from illegal activities, supported by patrols and surveillance.

A total of 378 hectares of mature plantations were inventoried, and 13,000 hectares were protected from fires. Seedling production reached 6,048,620, supporting reforestation initiatives. The Mbarara plantation produced 1,027,090 seedlings, while Mbale (Kyoga Range) produced 100,000 seedlings. Boundary resurvey covered 432 km, ensuring effective delineation. A total of 56 km were planted with pillars in Rwoho and Bugamba, and an additional 45 km in the Kyoga Range. Fuelwood plantations were established on 1,500

hectares, with weed control covering 6,235 hectares, including marking and pruning 1,404 hectares to enhance forest health.

During the year, NEMA developed seven new regulations and guidelines covering areas such as ecosystem payment, noise and vibration, wetlands, lakeshores, and extended producer responsibility. The Authority also reviewed and finalised 862 ESIA documents and 1,427 audit reports, while processing 161 ESIA extensions. In addition, NEMA commemorated World Environment Day in Kabale under the theme "United Against Plastic Pollution". The organisation conducted 340 enforcement operations, 406 inspections for compliance and audits, and 242 baseline verification inspections. Non-compliance issues primarily involved wetland degradation, noise pollution, and sand mining in various regions.

As part of its enforcement and awareness efforts, NEMA undertook 230 court attendances, including 200 criminal cases and 30 civil litigation cases. For example, 62 environmental crimes were investigated and 48 crime operations were carried out in Mbale. The authority collected Shs 17.217 billion in NTR. The 2024 National State of Environment Report and the Research Agenda 2024/25 –2028/29 were launched, alongside hosting the National Environment Sustainability Awards. Additionally, NEMA processed 122 waste management licences, with 98 approved, 15 deferred for improvements, and nine (09) rejected, supporting the country's environmental management objectives.

Lands Management Sub-programme

All National Land Information System (NLIS) enhancements were developed and rolled out. A total of 142,193 search letters issued through the MZOs and portals, 60,836 land conveyances carried out for mortgages, caveats, transfers, 123, 665 land titles issued, and 780 land titles issued in fragile ecosystems (wetlands and forest reserves) cancelled. Under the land conflict mechanisms, 72 public hearings were conducted to resolve land disputes, and 1,495 land conflict cases facilitated and mediated out. Under Systematic Land Adjudication and Titling (SLAAC), 391,490 parcels were adjudicated and demarcated, and 132,652 SLAAC titles printed.

Under the National Valuation Standards and Guidelines, the databank for compensation rates was updated to promote fair compensation rates and land market, land values collection software was developed, and the Land Valuation Management Information System (LaVMIS) developed and functionalised. In addition, countrywide land market values were compiled. Compensation rates for 16 districts reviewed and approved, Draft National Valuation Standards and guidelines developed but not disseminated pending enactment of the Valuation Law.

Data for a property index for taxation and valuation purposes was compiled in collaboration with UBOS and 170 land acquisitions for Government infrastructure projects were supervised: Ministry of Water and Environment projects: 16 cases; Ministry of Energy and Mineral Development projects: 21 cases; Ministry of Works and Transport projects: 13 cases; UETCL projects: 44 cases; National Water and Sewage Cooperation projects: 12 cases; Hydro-power projects: 10 cases; Uganda Investment Authority projects: 4 cases; Ministry of Tourism,

Wildlife and Antiquities: 2 cases; UEGCL: 2 cases; UNRA: 44 cases; Ministry of Agriculture, Animal Industry and Fisheries: 1 case; and Oil Pipeline project: 1 case. 69,948 property valuations carried out and supervised; designed, developed and piloted in 6 Ministry Zonal Offices (MZOs) of Arua, Gulu, Lira, Mukono, Kibaale and Jinja. Market valuation of 335 Properties was carried out: rental premises: 138, Custodian Board Survey: 31 Cases; boarding Off: 44 Cases, probate valuation: 44 cases; asset valuation: 28 cases, rating; 1 case, Capital Gains Tax: 5 cases; terms: 240 files; general compensation: 52 cases; mortgage valuation: 4 cases; and stamp duty 69,026.

The Land Use Regulatory Framework, as well as the Land Acquisition, Resettlement, and Rehabilitation Policy developed. The National Gender Strategy for the National Land Policy disseminated in 10 DLGs in Western and Central Regions. The following were supervised, monitored and technically supported: 18 District Land Offices; 18 District Land Boards of Kabale, Kabarole, Jinja, Mbale, Lira, Tororo, Iganga, Masaka, Kalungu Mpigi, Butambala, Kayunga, Bukomansimbi, Gomba, Lwengo, Lyantonde, Luweero and Nakasenge; and 15 MZOs, i.e., Kampala (KCCA), Mukono, Mityana, Luweero, Mpigi, Wakiso, Jinja, Mbale, Tororo, Soroti, Moroto, Gulu, Kabarole, Masindi and Rukungiri

Under the Land Fund managed by the Uganda Land Commission, a total of 545 certificates of title were processed for Ministries Departments and Agencies (East African Crude Oil Pipeline (513) National Agricultural Research Organization (6), MAAIF (2), Mpigi District Local Government (1), Ministry of Health (1), Mbale Regional Hospital (1), Ministry of Education and Sports- Rwenyawira seed secondary School (1), Ministry of Defense and Veteran Affairs (1), Ministry of Finance, Planning and Economic Development (1), Uganda Police Force (10), Ministry of Energy and Mineral Development (2), National Water and Sewage Corporation (2), Fort portal City Council (1), Uganda Land Commission (3), Ministry of Water and Environment (1).

Challenges

i. Unclear land ownership and boundaries: Many land parcels lack clear titles or defined boundaries, leading to disputes and conflicts over land ownership and use.
ii. Conflicting land tenure systems and rapid population growth: The coexistence of customary, leasehold, and freehold land systems, combined with population growth, exacerbates land disputes, illegal land acquisitions, and management challenges.
iii. Illegal land titles, claims, and court injunctions: These issues delay project implementation and increase damage caused by encroachers to reserves, often worsened by unfair injunctions. There is also a rise in encroachment on urban forest reserves and wetlands by communities.
iv. Lack of necessary equipment, including air quality monitors, firefighting gear, and infrastructure.

Recommendations

i. Strengthen land titling and registration systems: The Ministry of Lands, Housing, and Urban Development (MLHUD) should accelerate the digitisation and nationwide rollout of land registration to ensure secure, transparent, and publicly accessible land titles.

ii. The MLHUD should develop and implement policies that integrate customary, leasehold, and freehold land rights, providing clarity and legal recognition for all tenure types. This will help reduce conflicts and promote sustainable land management.

iii. NEMA should increase surveillance and enforcement efforts to prevent encroachment on urban forest reserves and wetlands. It should also promote community awareness and participation in land management to foster sustainable practices and reduce land grabbing.

iv. The MWE/NEMA should invest in essential equipment such as air quality monitoring systems, firefighting gear, and infrastructure improvements in CFRs to strengthen conservation, air quality and fire management capabilities.

3.7 Private Sector Development Programme

The programme budget for FY 2024/25 was **Shs 2,046.644billion** (including arrears). Of this amount, **Shs 410.391 billion** was from external sources to various projects. By the end of FY 2024/25, **Shs 1,834.460 billion** had been released, representing 89.6% of the approved budget. The external financing released was 47.4% of the projected donor funding. The low release was attributed to agreements that were not concluded.

Physical Performance

Under the PDM financial inclusion pillar, the cumulative disbursement as at 30 June 2025 stood at **Shs 2,699 billion**. *Emyooga* seed capital utilisation stood at **Shs 76.32 billion**, benefitting 3,816 *Emyooga* SACCOs, parish-based associations, and enterprises. The total cumulative membership of SACCOs, groups, and cooperatives for FY 2024/25 was 6.4 million for all client-based institutions, with 41% women, 13% youth, and 1% people with disabilities (PWDs). A total of 7740 *Emyooga* institutions were trained, benefitting 40,784 SACCO/association leaders and 171,326 members, while six SACCOs were digitalised, against a target of 50.

During FY 2024/25, a total of 544 client projects were supported through credit financing amounting to **Shs 30.867 billion**. Of this, **Shs 23.429 billion** financed 362 projects under conventional financing, while **Shs 7.438 billion** supported 182 Sharia-compliant projects under Islamic financing. The average cost-to-income ratio for FY 2024/25 was 0.91:1, against a target of 1:1.

Under industrial park development and management, infrastructure development at the Kampala Industrial and Business Park (KIBP)-Namanve progressed rather slowly and was behind schedule, owing to the delayed acquisition of sites for the Solid Waste Treatment Plant (SWTP) and delayed commencement of the Wastewater Treatment Plant (WWTP). The overall progress was 59%, with 96% of the contract time elapsed and 68.1% of the actual contract sum certified and paid.

The construction of the Business Development Services (BDS) Centre of Excellence (CoE) at Butabika was estimated at 96% completion at the end of June 2025, against a planned progress of 100%.

The Bank of Uganda, through the Small Business Recovery Fund (SBRF), disbursed a total of **Shs 31.68 billion** to 1,100 beneficiaries through the participating financial institutions (PFIs) across the country. Opportunity Bank had the highest number of beneficiaries (721), while Finance Trust Bank and Equity Bank had the lowest number of beneficiaries, with each having four. The Central Region had the highest number of SBRF beneficiaries, with 861, and the Eastern and Northern Regions had the lowest numbers, at 77 and 61, respectively. Despite the notable improvement in uptake of the SBRF funds compared to the previous financial years, the requirement for land titles as collateral security was still hindering the uptake of the funds.

The redevelopment, retooling, and modernisation of the Uganda Wildlife Education Centre (UWEC) in Entebbe, as well as the reconstruction, expansion, and transformation of the Uganda Wildlife Research and Training Institute (UWRTI) into a centre of excellence in Kasese, were completed, and the facilities were handed over to the clients.

The civil works for Phase 1 of the Uganda Hotel Tourism and Training Institute (UHTTI) were at a 98% completion and in a defects liability period. The Phase II civil works at the training school were completed. The furniture, fittings, and related equipment for the hotel and the school were delivered and were in the final stages of installation. Civil works at the Uganda Museum, including renovation of the main building, construction of the boundary wall, stormwater management, and landscaping, had progressed to 46% completion as of the end of June 2025.

Achievement of the planned outputs under the Uganda Free Zones Authority (UFZA) and the Uganda Export Promotions Board (UEPB) was hampered by the rationalisation of the Government agencies. The two agencies were merged, and a new management structure was provided for continuity. At the time of monitoring in July 2025, the new entity – Uganda Free Zones and Export Promotions Authority (UFZEPA) – had just resumed work, and there were no tangible outputs reported by that time.

Under the capitalisation of institutions and financing schemes, a total of **Shs 34.93 billion** was disbursed during FY 2024/25 as Government capitalisation of the Agricultural Credit Facility (ACF). Additionally, **Shs 7.74 billion** was disbursed as a Government subsidy to the Uganda Agricultural Insurance Scheme, **Shs 3.064 billion** as Government capitalisation of Post Bank (U) Limited, and **Shs 80.6 billion** as Government capitalisation of Uganda Development Bank (UDB).

Support was extended to small private sector businesses to facilitate their recovery from the impacts of COVID-19. The SBRF, as one of the initiatives to increase non-commercial lending to support the private sector, exhibited an increase in uptake compared to the previous financial years, though still slow due to the collateral required.

The infrastructure-related outputs aimed at facilitating private sector growth, such as the development and servicing of industrial parks, progressed at a rather slow pace. Most of them were behind schedule, posing a risk of time and cost overruns. Apart from the KIBP-Namanve that was under construction, the other nine existing industrial parks were not serviced during the period under review.
The Private Sector Development Programme was further hampered by delayed finalisation of new structures for the agencies affected by the Government rationalisation programme, which resulted in delayed implementation under the new authority – UFZEPA.

Recommendations

i. The USADF Coordination Committee and MoFPED should urgently provide guidance on the way forward for the USADF-supported cooperatives, especially given the co-funding arrangement between the Government of Uganda and the US Government.

ii. The UIA should repackage delayed KIBP project components into a new funding phase and fast-track the completion of ongoing civil works. This will help mitigate further delays, reduce the risk of additional cost overruns, and ensure the timely realisation of intended investment benefits.

iii. The Bank of Uganda and participating financial institutions should intensify outreach and awareness campaigns about the Small Business Recovery Fund (SBRF), targeting underrepresented groups such as youth and women. Additionally, they should explore and implement alternative collateral arrangements to make the fund more accessible to a wider range of beneficiaries.

3.8 Sustainable Energy Development Programme

During FY 2024/25, the Sustainable Energy Development Programme had an approved budget of **Shs 1,211.462 billion**, inclusive of external financing and arrears, which was revised to **Shs 2,139.476 billion**, out of which **Shs 1,290.443 billion** was released and **Shs 1.095.683 billion** was spent. The released funds were 60.3% of the revised budget, while the expenditure was 84.9% of the total release, majorly on account of a supplementary budget of **Shs 463.9 billion**, to cater for the payment of the UMEME concession buyout.

Physical Performance

Under generation, the two main planned outputs under the sub-programme were the completion of works at Nyagak III HPP, and the commencement of works on the ORIO Mini-hydro Power Projects. All the construction works at Nyagak III HPP, including the evacuation line to the Nebbi substation, were completed and the power plant commissioned, adding 6.6 MW of capacity to the existing 2,048 MW.

Physical works on the ORIO Mini-hydro Power Projects commenced at the end of FY2024/25 for the four sites under Phase I. River diversion works were ongoing at Hoimo in Hoima, while work on the access roads at Igassa and Nsongye in Bunyaruguru were underway. The contractor was also mobilising to start works for Nchwera in Mitooma.

Under the Transmission Sub-programme performance, the transmission network grew to 5,200 km and 43 substations and, as a result, the grid availability had increased to 99.28%. Under the distribution network, a total of 197,390 new last-mile electricity connections were added to the grid, raising the total number of electricity customers to 2,305,296, and achieving a 60% access rate countrywide.

The notable achievement during the period was completion and commissioning of the 88.5 km Mirama-Kabale transmission line in February 2025. This had greatly reduced the power supply disruptions to the Kigezi Region and capacity to supply the planned iron ore processing in the region. Another notable achievement was the handover of the electricity distribution network from UMEME to Uganda Electricity Distribution Company Limited (UEDCL) in April 2025.

The ongoing works on the Kampala-Metropolitan Transmission Project recorded good progress during the financial year. Progress of works at the Buloba substation was at 70%, and most major equipment, transformers included, had been installed. At the Mukono substation site, overall progress was at 44%, with all equipment foundations completed and all equipment delivered to the site. Progress at the Bujagali site was at 60%, and all equipment foundations had been completed; while at the Mutundwe substation, 80% of three equipment foundations were complete.

Under the Power Supply to Industrial Parks Project (Phase II), construction works commenced at Kabalega Industrial Park on the new 132/66/33 kV substation. This will supply electricity to the planned developments at the industrial park, Kabalega Airport and the East African Crude Oil pipeline pumping station. Progress of the works was at 60%, with most of the equipment foundations completed.

The procurement for the Masaka-Mbarara 400 kV transmission project was being concluded after a long delay, and due diligence for the selected bidder was concluded, awaiting contract signature. The RAP on this project was constrained due to the low funding during the financial year. The Karuma-Tororo 400 kV transmission project and the proposed 132/33 kV Ntinda substation are to be funded using the EPC+Financing model, and the financing agreements between the EPC contractor and UETCL were yet to be finalised.

The works under the Rural Electrification and Connectivity Project progressed poorly during the financial year. The pending work on all the lines previously funded by the World Bank-IDA was still incomplete. The progress of these works was poor due to a lack of funding to clear the pending certificates for work previously done. The implementation of RAP on all these lines previously funded under ERT III was still incomplete due to low funding. Works on the stalled Kuwait-funded schemes in Rukungiri, Mitooma, Kasese, Bushenyi, and Mbarara resumed, and contractors had mobilised to commence works. The implementation of planned GOU-funded lots was postponed because of a lack of funding.

Under the Electricity Access Scale-up Project, a total of 153,292 no-pole connections had been made, and procurement of materials to undertake more connections was underway. However, the grid extensions were at the design and surveying stages. As part of financial intermediation, a total of 154,091 off-grid connections had been supported by the various participating financial institutions. To promote renewable energy, work had progressed well on the 40 solar water supply schemes being undertaken by the Ministry of Water and Environment (MWE). Most of the schemes had been completed, while completion of the remaining ones was ongoing. The solar electrification of selected schools under the Ministry of Education and Sports (MoES) had not commenced.

The performance of the Renewable Energy Development Sub-programme during the FY 2024/25 was fair and hindered by the low funding. The upgrading of the six solar mini-grids in Kasese and Rubirizi was still at the procurement stage due to funding challenges. However, the construction of twin demonstration improved institutional cookstoves in 10 selected schools was undertaken, and five hybrid solar/wind systems for pumping water were installed in Karamoja. The review of the Biomass Energy Strategy was undertaken, and new standards for biofuels and clean cooking technologies were adopted. The Clean Cooking Strategy (2023) was also updated to include performance testing, certification, and market incentives.

Performance of the Energy Efficiency and Conservation Sub-programme was poor. Most of the planned outputs and activities were not undertaken, and the procurement was deferred due to low funding for the sub-programme. The relevant standards pertaining to the Minimum Energy Performance Standards (MEPS) were identified and submitted to the relevant technical committees. The procurement process for the critical energy audit equipment was not concluded, as the contracts could not be signed due to a lack of funds. The review of existing electric vehicle (EV) charging standards was completed, and a contract to supply and install two EV charging stations at Amber House was not concluded due to lack of funding.

Challenges

The programme funding was insufficient for the implementation of the GOU-funded components. The most affected were projects under rural electrification, transmission line works and associated RAP, and activities under the Renewable and Energy Efficiency Sub-programmes.

Recommendations

MEMD should rationalise the number of ongoing projects, and new projects should not be taken on so that the funding requirements do not exceed the available resources.

3.9 Integrated Transport and Infrastructure Services Programme

In 2024/25, the overall approved budget for the Integrated Transport Infrastructure Services (ITIS) Programme was **Shs 4,968.165 billion**, out of which **Shs 4,155.980 billion** (83.7%) was released to Votes under the programme and **Shs 3,207.854 billion** (77.2%) was spent against the release. Out of the amount released, **Shs 32.392 billion** (0.01%) was released for Wage, **Shs 725.469 billion** (17.6%) for Non-Wage Recurrent, **Shs 1,767.950 billion** (42.5%) for GoU Development, **Shs 1,611.055 billion** (38.8%) for External Financing, and **Shs 19.114 billion** (0.005%) for payment of arrears.

In terms of release absorption, **Shs 31.261 billion** (96.5 %) was utilised for Wage, **Shs 724.276 billion** (99.8%) for Non-Wage Recurrent, **Shs 1,750.416 billion** (99.0%) for GoU Development, **Shs 682.793 billion** (42.4%) for External Financing, and **Shs 19.108 billion** (100%) for payment of arrears. Thus, the lowest performing budget category under the programme was External Financing on account of delays in the process of obtaining external financing for the Standard Gauge Railway (SGR). Both the GoU Development and Non-Wage categories exhibited good performance of 99.9%.

Physical Performance

Transport infrastructure and services development

The aim is to increase transport interconnectivity to promote interregional trade and reduce poverty; and optimise transport infrastructure and services investment across all modes. The performance was fair. The performance of the sub-programme was majorly affected by delayed access to the right of way (RoW) for the upgrading projects and delayed payments to service providers.

The performance of the intervention entailing the construction and upgrade of climate-proof strategic transport infrastructure was fair. The upgrade of strategic roads from gravel to bituminous surface, implemented under National Roads Construction (NRC), had 26 road development projects with a total distance of 1,383.76 km; and cumulatively 122.43 km (65.1% of the annual target) were achieved, against the annual total of 188 km. As a result, the stock of the national paved network increased by 1.9% from 6,295 km in FY 2023/24 to 6,417 km in FY 2024/25. The construction of the Lugogo-Kasozi (1km) and Lugogo-Ngoma (6.6km) approach roads were substantially completed.

The performance of the GoU-funded NRC projects was poor, with most of the contractors suspending works. The performance was majorly affected by the delayed disbursements to the MoWT. This led to delayed acquisition of the RoW and non-payment of contractors' IPCs and consultants' invoices.

Two (2) bridge structures out of the annual target of 15 (13.3% annual target) bridges were substantially completed. These were: Osu Bridge on Arua-Biliafe-Otrevu Road; and Kochi Bridge on Keri-Midigo-Kerwa Road. The progress of the other bridges whose construction was ongoing averaged 33%, while for some, the contractors had suspended works. The implementation of the bridge works was majorly affected by delayed payments to contractors and the acquisition of RoW.

The performance of the rehabilitation of the Kampala-Namanve-Mukono railway section (28 km) was good, as the works were completed (100% achieved), and the section was opened to railway operations and passenger services resumed. The Tororo-Gulu railway rehabilitation project had poor performance, at 47%, as 140 km, out of the annual target of 298 km, was achieved. This was attributed to the suspension of works for three months during the financial year as a result of delayed payments to the contractor.

The construction of new ferries for Bukungu-Kagwara-Kaberamaido (BKK) for Lake Kyoga and Lake Bunyonyi ferries in Kabale continued. Two BKK ferries for Lake Kyoga were launched into the lake at Bukungu and sea trials were completed. The progress of implementation of the Lake Bunyonyi ferry was low, at 25%. The progress was slowed down by power outages in the area due to load shedding.

Under the Transport Asset Management Sub-programme, whose main aim is to prioritise transport assets management so as to increase their life span, the performance was fair. The national roads rehabilitation of the paved network output performed fairly. A total of 147.22 km (equivalent to 59.6% of the annual target) of the national roads were rehabilitated, against an annual target of 247 km. The performance was affected by delayed payments to contractors, leading to downscaling and suspension of works. Notably, works on the Mityana-Mubende Road Project were halted due to delayed payment.

The performance of the Community Roads Improvement Project (CRIP) was poor. A total of 316 km of Community Access Roads (CARs) were rehabilitated in various districts across the country out of the planned 400 km. A total of 50.91 km of District and Community Access Roads was rehabilitated by force account. The performance of these interventions was majorly affected by the late release of funds to the implementing units.

The National and District, Urban and Community Access Roads (DUCAR) were maintained by both routine manual, mechanised (force account) means and contracts. The performance of the maintenance works for both the national and DUCAR funded by the Uganda Road Fund was fair. However, the achievement of targets was affected by late disbursements to the implementing agencies due to the RAPEX exercise. Additionally, each LG received a maintenance grant of **Shs 1.0 billion** under the MoWT. The performance of the maintenance interventions under the grant was fair. The performance of interventions under this grant in the cities and municipalities was majorly affected by lack of equipment to undertake the works in time, and, as such, the FY 2024/25 activities spilt into FY 2025/26. These Local Governments resorted to hiring equipment, which increases the unit rate of implementation. This led to scaling down of the planned scope of works.

The construction of bridges on the DUCAR network by the MoWT performed fairly, at 66%. Five bridges and two cable bridges were constructed on the DUCAR network. The performance of the intervention was greatly affected by delays in procurement, mainly due to poor planning by the implementing agency. This led to delayed commencement of some of the planned bridge works.

The performance of the Transport Regulation Sub-programme was good (78%). The MoWT achieved vehicle inspections, accreditations for air transport were received, and issuance of licences, both for road and inland water transport, was undertaken. As such, public transport safety was enhanced.

The Land Use and Transport Planning Sub-programme registered fair performance. Consequently, this greatly affected the achievement of targets under the Transport Infrastructure and Services Development Sub-programme. The MoWT undertook the acquisition of the RoW on 71 projects, including upgrading roads (45), rehabilitation (5), bridges (15), ferries/landing sites (5), and weigh stations (5); and the Standard Gauge Railway. A total of 260.2832 hectares (47%) were acquired, against the annual target of 552.5 hectares. Furthermore, a total of 242 hectares (52%) were acquired, out of the planned 464.05 hectares, for the RoW for the Standard Gauge Railway.

Challenges

i. Over-commitment of the programme budget, which results in drip financing for projects and inadequate allocations for counterpart obligations and suspension of works by some of the contracts.

ii. Lack of road maintenance units/equipment for municipalities and newly created cities. Additionally, the LGs lack supervision vehicles to enable them to oversee the implementation of works.

iii. The 10% of budget allocation to mechanical imprest is inadequate to effectively meet the equipment maintenance needs in the LGs. Additionally, the guidelines for the rehabilitation grant by the MoWT do not provide for office operations, thus constraining the district operations.

Recommendations

i. The MoWT should prioritise payment of arrears to the service providers to avoid further accumulation of interest on delayed payments.

ii. The Government of Uganda, through the MoWT, should procure road maintenance equipment for the municipalities and cities to facilitate road maintenance. Furthermore, the MoWT should plan and budget for the procurement of supervision vehicles for all the LGs.

iii. The MoWT should review the implementation guidelines for the maintenance grants aimed at enhancing the mechanical imprest allocation from 10% to 15% to enable effective maintenance and utilisation of equipment.

iv. The programme should delay commencement of new projects and prioritise completion of ongoing projects. In future, projects under the programme should be sequenced to match the funds available in the Medium-Term Expenditure Framework (MTEF).

3.10 Sustainable Urbanisation and Housing Programme

The programme budget, including arrears for FY 2024/25, was **Shs 638.476 billion**. This was revised to **Shs 663.17 billion** as a result of supplementary funding under non-wage recurrent expenditure to cater for land compensation. Out of the revised budget of **Shs 663.17 billion**, **Shs 642.152 billion** was released and **Shs 496.096 billion** was spent, implying a 77.7% absorption rate. The absorption was largely affected by the low absorption under the Greater Kampala and Metropolitan Area Urban Development Program (GKMA-UDP) due to delays procurement and implementation by some of the contractors.

Physical Performance

Physical Planning

Capacity building for implementation and enforcement of the land use regulatory and compliance frameworks was undertaken in 36 Local Governments of Soroti, Moroto, Kumi, Arua, Pakwach, Nebbi, Lyantonde, Luuka, Ngora, Luweero, Mpigi, Mityana, Hoima, Kiboga, Madi-Okollo, Zombo, Adjumani, Moyo, Maracha, Koboko, Yumbe, Bukedea, Katakwi, Amuria, Kapchorwa, Mbale, Mayuge, Bududa, Manafwa, Kibuku, Luuka, Ngora, Kalangala, Nakaseke, Luweero, Mpigi and Mityana. Compliance with Physical Development Plans was monitored and inspected in 30 urban councils of Moroto, Kumi, Pakwach, Nebbi, Lyantonde, Luuka, Ngora, Luweero, Mpigi, Mityana, Hoima, Kiboga, Madi-Okollo, Zombo, Adjumani, Moyo, Maracha, Koboko, Yumbe, Bukedea, Katakwi, Amuria, Kapchorwa, Mbale, Mayuge, Bududa, Manafwa, Kibuku, Nakaseke and Luweero.

Draft physical planning standards and guidelines were disseminated in 60 districts of Soroti, Moroto, Kumi, Arua, Pakwach, Nebbi, Masaka, Lyantonde, Kabale, Kamuli, Iganga, Njeru, Kiboga, Kibaale, Kagadi, Kaberebere, Kinoni, Wakiso, Sironko, Kayunga, Hoima, Mbarara, Ntungamo, Rukungiri, Rwashamire, Tororo, Busia, Madi-Okollo, Zombo, Adjumani, Moyo, Maracha, Koboko, Yumbe, Bukedea, Serere, Katakwi, Amuria, Kapchorwa, Mbale, Mayuge, Bududa, Manafwa, Kibuku, Luuka, Ngora, Kalangala, Nakaseke, Luweero, Mpigi and Mityana. Preparation of Physical Development Plans supervised in 12 districts of Kiboga, Kotido, Kaberamaido, Butaleja, Kabale, Wakiso, Kisoro, Kasese, Namayingo, Mayuge, Kibuku and Amudat. The guidelines for preparation and implementation of Physical Development Plans were finalised while the Physical planning Act was still under amendment.

Urban Development

Under urban development, focus was on the development and implementation of integrated physical and economic development plans in the new cities and other urban areas. Temogo Slum in Lira City was mapped and profiled, and strategies for redevelopment identified. The National Urban Policy 2017 was disseminated and reviews undertaken in five (05) urban authorities of Lukaya Touwn Council (TC), Kalungu TC, Kagologolo TC, Lwengo TC and Katovu TC. The urban solid waste management guidelines for cities were reviewed, pending approval of the National Waste Management Policy, which is to be completed by the Ministry of Local Government (MoLG), as directed by Cabinet. The engineering designs, Environment and Social Impact Assessments (ESIAs), and RAPs for new subprojects are being undertaken in 10 cities and

11 municipalities. The subprojects include approximately 90 km of roads, 20 slaughterhouses, and 3 Local Economic Development subprojects. The initial studies are complete for all subprojects. Draft designs for subprojects in Mbarara, Ntungamo, Kabale, Kasese, Fort Portal, Hoima and Mubende were completed.

Under the Ministry of Kampala Capital City and Metropolitan Affairs, the Greater Kampala Metropolitan Area (GKMA) Project was officially launched, besides the following being completed: detailed designs, environmental impact studies, and RAPs for upgrading 300 km of 126 strategic roads, eight (08) drainage channels totalling 35 km, five markets across the nine GKMA-UDP implementing entities, i.e., KCCA, the districts of Wakiso, Mpigi and Mukono, as well as their urban authorities of Mukono, Kira, Nansana, Entebbe and Makindye Ssabagabo. The civil works started for construction of 127.832 km of roads from all the nine entities. The progress of contracted civil works in Kira Municipal Council (MC) was 21.12%, civil works in Mukono MC (Lot 2 – Anthony-Kame, Kame Annex, Albert Cook-Cathedral Rise, Kame-Nabuti-Katosi Road, Admin Link, Access Road, and Link Road (8.68km)) was at 12.69%. The progress of contracted civil works in Mukono MC (Lot 3 – Nassuti-Nakabago-Ntawo, Ntawo-Bajjo-Seeta, Serado Link, and Kigunga Link (9.72km)) was at 23.26%. Thus at the end of the financial year, a total of 5.072 km of roads in Kira and Mukono MCs were at the final stages (final asphalt layer added) and could be partially opened to the public, but they lack permanent signage, pedestrian walkways, road markings, landscaping, and streetlights; and even trees had not been planted. Procurement of consultancy services for the design of over 131 km of roads was ongoing.

Surveys and Mapping

Under surveys and mapping, four (04) parish boundary maps for Tororo wasdeveloped, 20 km of international borders surveyed for Uganda-Kenya, Uganda-Rwanda, Uganda-DRC and Uganda-Tanzania. Thirty-three (33) national (inter-district) boundaries were affirmed: 10 km in Luweero, Bukasa, 8 km in Nakasongola, 5 km in Kikuube, and 10 km in Bukasa Luweero to reduce border disputes. Thirteen (13) combined blocks were separated for Busiro (Wakiso), inclusive of fieldwork, and automation of plot numbers was carried out for ranches. In addition, four (04) large -scale town/city maps were revised for Lira, Gulu, Mbarara and Fort Portal, 106 passive stations and three (03) continuously operating stations (CORS) maintained in the districts of Masaka, Fort Portal and Masindi, and 18 topographic maps revised for one (01) district (Adjumani).

Housing and Huma Settlement

Under housing development, 15 Condominium Plans were vetted, data collection for the development of the self-help Housing Manual was conducted in the districts of Kaberamaido, Lira, Kabarole, and Nakasongola, and a draft Self-Help Housing Manual developed. Phase 2 data collection on the guidelines for construction in landslide-prone areas was conducted in the Bugisu, Sebei, Ruwenzori, and Kigezi sub-regions. The Real Estate Bill was drafted and submitted to the first Parliamentary Council in MoJCA for consideration. Compliance inspections and user surveys of selected condominium properties were undertaken in the 7 cities of Soroti, Lira, Hoima, Jinja, and Fort Portal, and Mbarara, and in Kabale Urban Council. Sensitisation on condominium management was conducted in Soroti, Lira, Hoima, Jinja, Tororo, Mbale, Mbarara, and Fort Portal, ensuring the participation of women, PWDs, and youth, and Condominium Guidelines were

disseminated in seven (07) cities of Soroti, Lira, Hoima, Jinja, Fort Portal, Mbale and Mbarara. Communities in the landslide-prone areas of Rukiga and Kisoro Districts in the Kigezi sub-region sensitised and trained in resilient housing construction. One affordable housing project proposal for industrial workers was designed and developed. Land for housing projects was identified in Kapelebyong, Alebtong, Amolatar and Dokolo Districts. Technical support in the form of planning, design and construction supervision was provided to three (03) Luweero war veteran groups in Semuto, Nakaseke District. Sentisation on human settlement issues was conducted in Lira City, and a housing needs assessment carried out to guide on housing development in Kamuli Municipality. Sensitisation on condominium management was conducted in Entebbe, Kabale, Soroti, Lira, Hoima, Jinja and Fort Portal. Four (04) housing cooperatives/saving groups were supported in Apac DLG; the National Gender Strategy for the National Land Policy was disseminated in 31 DLGs in all regions in the districts of Pader, Buhweju, Mbale, Tororo, Amolatar, Dokolo, Kalaki, Lira, Lamwo, Nwoya, Maracha, Oyam, Arua, Kitgum, Omoro, Moyo, Apac, Kyotera, Rakai, Kabale, Rukunguri, Luweero, Nakasongola, Masaka, Kalungu, Mpigi, Butambala, Bukomansimbi, Gomba, Lwengo, and Lyantonde.

Regarding slum redevelopment and improved housing standards, four (04) slums in Gomba TC, Kasese MC, Amolatar MC and Lira City were mapped and profiled, and strategies for redevelopment identified. Four (04) housing cooperatives/saving groups in Apac DLG, the FBA Group and Otim Ikomwa Disability Group and Kamuli Municipality; as well as Basakilala and Nabikamba groups, comprised of women, men, PWDs and other vulnerable groups, in Kamuli Municipality were trained on housing-related matters. A housing needs assessment was conducted in four (04) hard-to-reach districts of Abim, Kotido, Nwoya, and Amuru. Master plans for institutional housing estates in 10 hard-to-reach districts of Namayingo, Mayuge, Nakapiripirit, Napak, Nabilatuk, Abim, Kotido, Mukono (Koome Island), Bugiri, and Amudat were developed.

3.11 Digital Transformation Programme

The approved budget for FY 2024/25 for the Digital Transformation Programme was revised from **Shs 285.94 billion** to **Shs 332.02 billion** to cater for increased recurrent expenditure. A total of **Shs 331.95 billion** (99.9% of the revised budget) was released, and **Shs 208.911 billion** (62.9% of the release) was spent by 30th June 2025. Poor absorption was observed under NITA-U, attributed to the slow pace of activities arising from the delayed implementation of outputs under the Government Network (GOVNET) Projects.

Physical Performance

ICT Infrastructure

By the end of the FY 2024/25, the National Backbone Infrastructure (NBI) was maintained in a fully functional state with 99.9% service uptime to the 1,464 MDA, Local Government (LGs) and Target User Group (TUG) sites connected to the network. The National Data Centre was enhanced with three additional applications hosted against a target of six, cumulatively bringing the total number of applications hosted to 308 from 100 entities.

Under the GOVNET Projects comprising the Uganda Digital Acceleration Programme (UDAP) and the NBI Phase V, most of the planned outputs were at varying levels of procurement and behind schedule. The NBI network equipment and sub-system licenses and subscriptions were effectively monitored and maintained (and these included annual fees for Solar Winds, African Network Information Centre (AFRINIC), which is the Regional Internet Registry (RIR) for Africa, and peering fees for Uganda Internet Exchange Point (UIXP)). The contract for adding new features to the digital authentication platform progressed to 50%, with 10 new features developed and deployed, and user acceptance testing completed. The construction of NBI transmission sites was ongoing in nine (09) out of the 20 sites under the Phase V Project.

The laying of at least 500 km of fibre optic cables did not commence, pending approvals from the World Bank. The extension of the NBI last-mile connectivity to cover 700 sites (MDA sites, markets, schools, tertiary institutions, and hospitals) was awaiting approvals of the project restructuring. The delayed approval of financing caused the project to start two years after it was approved by the World Bank, and the decision to transfer management of the NBI to Uganda Telecoms Limited (UTeL) during project execution was affecting timely and critical implementation approval from the World Bank.

Under data networks, special postcodes for education, health, financial institutions, and MDAs were updated in the Eastern and Northern Regions. The first and second phases of the Regulatory Impact Assessment (RIA) workshop on postal and courier services were held with stakeholders (UCC, Posta Uganda, and the Office of the President). To develop the ICT Infrastructure Spatial Data Store, the user requirements were documented, and terms of reference were prepared for the spatial data store baseline study. In addition, a consultant was engaged to undertake feasibility studies for interconnection and the digitisation programme for PWDs.

The Uganda Communications Commission (UCC) was in the process of installing equipment for extending broadband access at 51 sites out of the planned 60 public access centres, including public libraries. The establishment of computer laboratories in 60 secondary schools was ongoing and expected to be completed in October 2025, and 85 schools were provided with high-speed internet connectivity.

Under the Uganda Institute of Information and Communication Technology (UICT), maintenance and upgrade of the physical infrastructure were 95% completed, which significantly enhanced the learning and working environment. Major renovations included the boardroom, seminar room, and two student laboratories, with upgrades such as floor tiling, repainting, improved lighting, louvre replacements, and new furnishings. Additional improvements encompassed the installation of prepaid submetering, security and LED lighting, construction of an incinerator, air conditioning for the principal's office, and procurement of specialised lab furniture. Renovation works for the dining hall and walkways, as well as washroom redesigns were ongoing by July 2025.

E-services

The MoICT&NG conducted 15 hackathons and boot camps focusing on Artificial Intelligence (AI), robotics, and digital entrepreneurship. Through its support to innovation hubs, 12,513 individuals (including 1,879 from refugee and host communities) acquired practical ICT and entrepreneurial skills. The UCC trained a total of 1,963 persons out of the planned 1000 in digital skills for SMEs in the districts of Mukono (309), Wakiso (631), Kampala (266 in Makindye, 246 in Kawempe), Masaka (255), and Jinja (256). A total of 3,343 women and girls out of the planned 4,000 were trained in digital skills in various districts. Three out of the planned four pieces of forensic and cyberthreat intelligence software were acquired by June 2025.

The UCC, through its Content Development Support Programmre, supported 14 creative projects which were at various stages of development (1 animation project, 3 short films, 3 TV dramas, 5 feature films, and 2 documentaries). The 14 were selected out of a total of 118 proposals.

To roll out the e-waste management policy, stakeholder engagements with NEMA (technical and legal teams) to review the Extended Producer Responsibility (EPR) regulation in detail were undertaken. This aimed at drafting articles and obligations for all waste streams with initial emphasis on e-waste and plastic waste. Desk research on the three cyber laws was undertaken and the existing gaps were identified and documented.

To develop and deploy new Parish Development Model Information System (PDMIS) features, the MoICT&NG completed requirements collection by engaging with the PDM Secretariat and the Office of the Prime Minister for the Monitoring and Evaluation (M&E) tool that is used to collect data through the parish-by-parish PDM monitoring *barazas*. The PDMIS user manuals were delivered in the districts and municipalities across the country. Extensive

technical support was provided to the PDMIS, on the new features, critical bugs were resolved, and automated daily backups were implemented. A major data clean-up was conducted, which included collaborating with Post Bank to reverse 20,000 bounced loan approvals to allow for beneficiary edits and reapplication.

The MoICT&NG provided cybersecurity training to over 900 Parish Chiefs online and 202 users in-person in Wakiso District. NITA -U provided technical support to a total of 38 MDAs on a range of areas, including malware prevention, website defacement, and network vulnerabilities.

The uptake of e-services increased by 58%, with the major services including UGhub, the Unified Messaging and Collaboration System (UMCS), and e-doc. Six additional entities were onboarded onto the Whole-of-Government integration and data-sharing platform, bringing the total number to 151. Two entities were enrolled in the digital authentication and mobile ID solution, whereas three additional websites were developed and hosted at the National Data Centre.

Research, Innovation, and ICT Skills Development

A compendium/list of existing Business Process Outsourcing (BPO) company incentives in Uganda was developed and a situational analysis was conducted. The national BPO awareness campaign reached over 1 million Ugandans and generated over 300,000 social media impressions, with six Ugandan companies participating in a pilot offshoring project in Japan. Nine BPO centres were supported by providing subsidised internet, technical support, training, and change management towards the adoption of e-services. The procurement of a consultant to draft the incentive framework was initiated. In addition, the MoICT&NG also developed the draft certification requirements and training certification specifications for BPO companies in Uganda.

The electronic Document and Records Management System (EDRMS) was deployed and in use at the Ministry of Justice and Constitutional Affairs (MoJCA). Deployment of the EDRMS was ongoing at MoFPED, the Office of the Director of Public Prosecution (ODPP), the Ministry of Local Government (MoLG), and the Ministry of Tourism, Wildlife and Antiquities (MoTWA).

The Uganda Institute of Information and Communications Technology (UICT), with support from international bodies, trained and certified 119 ICT practitioners in the following areas: Control Objectives for Information and Related Technologies (COBIT) – 14 persons; TOGAF certification from the Open Group – 15 persons; Project Management Professional (PMP) and PRINCE2 from the Project Management Institute (PMI) /AXELOS – 20 persons; and Information Technology Infrastructure Library (ITIL) from AXELOS with support from international Certifications bodies – 70 persons.

The UICT trained 2,268 Government officers in Cybersecurity and Data Protection, Digital Leadership and Public Sector Transformation, ICT Infrastructure and Emerging Technologies,

Data Science, Analytics, and Cloud Technologies, IT Service Management, Project Governance, and Digital Literacy and General ICT Awareness. A total of 996 teachers and education practitioners were trained in integrating ICT into education.

The UICT facilitated 1,275 Government-sponsored students (922 students admitted in cohort 24/25 and 353 students admitted in cohort 23/24), while 783 private students were also admitted and trained. A total of 108 secondary schools and the Ministry of Foreign Affairs (MoFA) were engaged to roll on to the Caucus for collaborative communication. The Caucus is a meeting application developed by the UICT. However, its uptake has remained low despite the efforts of the UICT to encourage entities and other potential users to enrol in the meeting application.

Nine (9) ICT and engineering-based project innovations were successfully pre-incubated and submitted to an accelerator programme, reflecting growing capacity in applied research and entrepreneurship. These innovations include: Smart Flow (a remote-controlled irrigation system); the Solar Fish Drier (a solar-powered solution for fish preservation); Agri-Fly (a drone-based agricultural support tool); the Gas Leak Detection System; Agri Cure AI (an AI-powered crop disease detection and management system); Terra MOIST AI (a smart soil moisture monitoring and irrigation management solution); the Passenger Monitoring System for Public Transport; a Smart Attendance Management System for UICT; and the Smart Automated Poultry Drinking System. A total of five research works in ICT-related disciplines were published. The standardised guidelines for converting curricula into Augmented and Virtual Reality (AVR) content were also developed.

An addition of 26 new innovators were onboarded at the National ICT Innovation Hub, each at various stages of the innovation pipeline in FY 2024/25. Six (6) mentors and experts were onboarded during FY 2024/25 to provide targeted mentorship and advisory support to innovators. This significantly enhanced the National ICT Innovation Hub's capacity to support early-stage innovators with high-impact, sector-specific guidance. Start-ups received tailored mentorship in areas such as business development, artificial intelligence, strategic branding, mental health resilience, and climate financing. This resulted in improved commercialisation readiness, stronger founder well-being, better-aligned product strategies, and increased awareness of alternative financing opportunities. Overall, the initiative strengthened the Hub's ability to nurture innovation-led enterprises and positioned its start-ups for sustainable growth within Uganda's digital transformation agenda.

The UICT encountered challenges of inadequate infrastructure capacity and staffing to support specialised ICT training arising from the lack of ICT labs with state-of-the-art technology to unlock the value of emerging technologies in teaching and learning.

Enabling Environment

In a bid to upgrade the existing transmission sites to ensure redundancy and provision of local regional programme stream insertions, radio broadcasting, and transmission equipment were delivered in Rakai during FY 2024/25. On the other hand, the outside broadcasting van and

other simpler outside broadcasting kits for each Uganda Broadcasting Corporation (UBC) radio brand were not procured due to insufficient funds released.

To enhance compliance with the Personal Data Protection and Privacy Act, NITA-U developed a draft concept note with an implementation plan targeting Eastern and Western Uganda. This is because these regions were identified as having moderate to low registration levels. Seventeen sensitisation engagements on IT legislation were conducted to tackle consumer protection awareness.

The UCC conducted two telecom Quality of Service (QoS) nationwide compliance assessments, and two nationwide broadcaster infrastructure inspections to assess utilisation of spectrum resources as assigned, as well as compliance with broadcasting infrastructure requirements. Five (5) Frameworks were developed, namely: (a) The Framework for Satellite Communication; (b) The Mobile Network Coverage Measurement Framework; (c) Guidelines on access and use of radio frequency spectrum on a temporary basis; (d) Guidelines for access, usage and management of the national communications testbed on emerging and future technologies; and (e) Equipment Type Acceptance Certification Guidelines.

The operations of the Namanve e-waste collection and recycling centre were undertaken and recommendations for areas of improvement were highlighted to the operators.

Conclusion

The Digital Transformation (DT) Programme, led by the MoICT&NG, has made commendable progress across its four sub-programmes during the FY 2024/25. Despite several delays – particularly those linked to procurement bottlenecks and financing approvals. The programme has demonstrated tangible impact in expanding digital infrastructure, improving ICT skills, fostering innovation, and increasing e-services adoption.

The ICT Infrastructure Sub-programme ensured high network uptime and expanded data hosting capabilities, although key outputs like last-mile connectivity and fibre expansion faced delays due to external dependencies. The E-Services Sub-programme significantly enhanced digital literacy, innovation support, and cybersecurity, leading to an increase in the uptake of Government digital platforms. The Research, Innovation, and ICT Skills Development Sub-programme supported BPO development, certified over 2,000 individuals in ICT-related areas, and nurtured several promising innovations, boosting Uganda's digital entrepreneurship ecosystem. Under the Enabling Environment Sub-programme, regulatory frameworks were strengthened, regional compliance efforts expanded, and new infrastructure for broadcasting and e-waste management was either delivered or evaluated.

Overall, while certain structural (delayed procurements and issuance of no objections from the World Bank) and financial challenges persist, the DT Programme continues to play a critical role in steering Uganda towards an inclusive, innovative, and digitally empowered society.

Recommendations

i. NITA-U, the MoICT&NG and MoFPED should fast-track the implementation of the UDAP and NBI Phase V Projects, especially the decision to transfer management of the infrastructure to UTeL which is constraining investment decisions by the World Bank.

ii. The MoICT&NG, NITA-U, and the Ministry of Public Service (MoPS) should ensure that the UMCS is used in institutions where it was rolled out rather than using personal and private emails for Government business.

iii. The MoICT&NG should support the UICT in establishing the required infrastructure such as investment in modern ICT labs, recruit skilled trainers, and expand partnerships to enhance specialised ICT education and skills development.

iv. The DT Programme Working Group should increase the adoption of ICT platforms and innovations, promote user awareness, improve system usability, and support start-ups with funding and mentorship to drive platform usage and innovation commercialisation.

3.12 Human Capital Development Programme

The overall performance of the Human Capital Development Programme (HCD) was fair. Development projects performed poorly compared to the service provision in the programme. This was occasioned by inadequate releases, inadequate capacity of contractors, and delayed procurements. The overall budget performance for FY 2024/25 for the programme stands at 86.6%, with non-wage budget performing highest, at 100.5%, followed by GoU development at 99.8%, wage at 98.6%, and external financing showing the lowest absorption rate of 42.9%. The over-release is majorly premised on the additional funding in the form of supplementary budgets issued under wage, non-wage recurrent and development, mainly to facilitate staffing, capitation for the newly constructed schools, and completion of projects under the UgIFT Project, respectively.

Physical Performance

Education, sports and skills development

The sub-programme contributes to four out of six HCD Programme objectives of the Third National Development Plan (NDP III) which are to: i) improve the foundations for human capital development; ii) streamline Science, Technology, Engineering and Innovation (STEI) and Science, Technology, Engineering and Mathematics (STEM) in education; iii) promote sports, recreation, and physical education; and iv) produce an appropriate, knowledgeable, skilled and ethical labour force with strong emphasis on science and technology, Technical Vocational Education and Training (TVET) and sports.

The FY 2024/25 education budget priorities included the operationalisation of 111 seed secondary schools and the completion of 27 seed secondary schools under Phase III of the Uganda Intergovernmental Fiscal Transfers (UgIFT) Programme; the commencement of construction of 60 new secondary schools, and the expansion of 61 existing secondary schools under the Uganda Secondary Education Expansion Project (USEEP); continued support for the Lower Secondary Curriculum; and the provision of loans to 5,192 degree students and 1,125 diploma students. The Government also planned the takeover of Bunyoro and Busoga Universities to promote inclusive and equitable access to university education.

Key highlights of the sub-programme performance

Operationalisation of seed secondary schools under UgIFT – Phase II: This was partially achieved because only 44.4% of the 259 planned seed school facilities were fully completed, mainly due to delayed fund disbursements, limited contractor capacity, and weak contract management by Local Governments. Utilities and furnishing were partly in place (electricity 80%, water 75%, furniture 71%), but functionality gaps remained, with only 58% having ICT library blocks, 56% operational science laboratories, 19% using TELA, and 13% with micro-irrigation. By 30th June 2025, construction progress averaged 66%, with 115 schools completed, 121 ongoing, 17 stalled, and 7 yet to commence.

Recruitment of teachers to operationalise the seed schools under UgIFT: The Education Service Commission recruited a total of 4,473 staff for Phase 2 and 3 seed schools, with each school projected to receive 31 teaching and non-teaching staff, currently being deployed by the

MoES. However, the rapid surge in student enrolment resulting from the UgIFT interventions in some schools has placed significant pressure on existing infrastructure and staffing levels, potentially affecting the quality of education. The MoES should align staffing levels with actual manpower needs and enrolment trends to ensure effective service delivery.

Construction of secondary schools under (USEEP): The planned construction of 60 new and expansion of 61 secondary schools was not fully implemented as scheduled, mainly due to delays in World Bank approvals, slow procurement processes, and the late start of civil works. Overall project performance was at 25%, and with only six months remaining before the project's closure on 31st December 2025, implementation is significantly behind schedule. **However,** by 30th June 2025, land titles were secured for 107 of the 116 new school sites, with 100 meeting compliance standards. Civil works contracts were signed for six of the eight Batch 1 sites and handed over to contractors, while procurement for the remaining 108 sites was at various stages.

Students' Loan Scheme**:** Following the enactment of the Higher Education Students Financing (Amendment) Act 2024, the Higher Education Students Financing Board was dissolved and reconstituted as a department within the MoES. In FY 2024/25, the scheme supported 6,317 students (5,192 degree and 1,125 diploma), surpassing the target by 9.7%. This included 1,852 new entrants, of whom 42.7% were female, 57.3% male, and 29 were students with disabilities. The overperformance was attributed to a tuition cap of **Shs 7 million**, enabling wider coverage within the available budget. Loan recovery was low, with only **Shs 325 million** collected (16.25% of the projection), constrained by RAPEX-related uncertainties, staffing gaps, weak tracking systems, and ICT deficits.

Government takeover of Bunyoro and Busoga Universities: The formal Government takeover of Bunyoro and Busoga Universities was not concluded by the end of the financial year; however, key milestones were achieved to advance the process. For Bunyoro University, a Taskforce Office was established in Hoima, 200 acres of land secured (including 97 acres donated in Buhimba, Kikuube District), building designs initiated, 11 institutional policies developed, and 18 academic programmes accredited by the National Council for Higher Education (NCHE).

For Busoga University, over 150 acres of titled land were secured, some of the liabilities cleared, the staff establishment finalised with the Ministry of Public Service, and UPDF-led renovations progressed to 75% completion.

Uganda National Institute of Teacher Education (UNITE) Operationalised: The Uganda National Institute of Teacher Education (UNITE) was established on 3rd September 2024 and has commenced operations, with the first cohort of students already enrolled and reporting. The establishment of the Teacher Council was still in progress and was before parliamentary consideration and awaiting a second reading.

Continued support for the implementation of the Lower Secondary Curriculum (LSC): The pioneering cohort completed their UCE examinations in 2024, while the MoES and the National Curriculum Development Centre (NCDC) continued to train and support in-service teachers, including 2,000 science teachers under the USEEP, to integrate ICT into curriculum

delivery. However, implementation remains constrained by shortages of instructional materials, inadequate infrastructure, large class sizes, and limited ICT access in many schools. Additionally, an abridged A-Level curriculum, aligned with LSC, was reviewed and rolled out to address redundancy, outdated pedagogy, and assessment inconsistencies across 29 subjects.

The Uganda National Examinations Board (UNEB) examined a total of 1,320,400 candidates across the Primary Leaving Examination (PLE), Uganda Certificate of Education (UCE), and Uganda Advanced Certificate of Education (UACE) during the 2024 academic year. This comprised 798,763 PLE candidates, 379,620 UCE candidates, and 142,017 UACE candidates. Of these, 610,622 Primary Seven leavers and 300,849 Senior Four leavers successfully transitioned to the next level of education.

For the 2025 examination cycle, 1,406,421 candidates were registered across PLE, UCE, and UACE, surpassing the combined target of 1,285,606 candidates by 120,815 (9.4% above target). The surge was most pronounced at UACE, with registrations 41.7% above target, followed by UCE at 11.1% and PLE at 3.8%, which reflects improved retention, particularly at UCE and UACE levels.

Instructional materials: The MoES procured and distributed 334 mini-laboratory science kits to selected primary schools in 20 districts to promote pupil-led science projects. In addition, 1,380,591 P.5–P.7 textbooks were procured, exceeding the target by 101%, and distributed nationwide at a 5:1 ratio. However, shortages persist in lower primary (P.1–P.4), with the last procurement for these levels conducted six years ago.

No funds were released for the planned procurement of 2,000 metallic cabinets for textbook storage in primary schools, despite the MoES obtaining clearance from the Solicitor General and signing a three-year framework contract for fabrication and supply.

Under the Lower Secondary Curriculum, the planned procurement of 8.33 million core subject textbooks for Senior One and Senior Two was not undertaken. Instead, 5,490 science practical manuals were procured and distributed to 366 newly grant-aided seed secondary schools.

The MoES also provided funds to 20 Health Training Institutions (HTIs) to procure instructional materials; all complied except the Hoima School of Nursing, which diverted its allocation to office consumables. Additionally, an assortment of Special Needs Education (SNE) instructional materials was procured at an average of 108% of target, comprising 1,000 cartons of braille paper (125% of plan), 260 cartons of embossing paper (130%), 96 sewing machines (96%), and 99 knitting machines (99%), with the sewing machine shortfall attributed to higher market prices.

Sports: Uganda participated in the 21st Federation of East African Secondary Schools Sports Associations (FEASSA) Games held in August 2024 at Bukedea Comprehensive School and was ranked first. Preparations for the 2027 AFCON progressed with the completion of the Kyambogo University training ground and upgrades to Mutesa II Stadium (Wankulukuku), Kampala International School Uganda (KISU), and FUFA Stadium-Kadiba. Construction of the 20,000-seater Aki Bua Olympic Stadium commenced, achieving 12% physical progress against a 15% time progress. Hoima City Stadium progressed to 76.2% physical completion

by June 2025, ahead of schedule, with completion targeted for October and commissioning planned for December 2025.

Performance of infrastructure projects

Development projects under the sub-programme continue to experience both budget and time overruns, largely due to intermittent disbursements. The following section provides highlights of the progress of different projects:

i) ***Project:1803 Development and Expansion of Health Training Institutions****:* Of the five planned construction projects, only the girls' hostel at Hoima School of Nursing and Midwifery was completed (100%). The administration block at Jinja Medical Laboratory School progressed to 35%, while works at Rt. Hon. Wapakhabulo Memorial College of Nursing and Midwifery was at 10% (foundation level). Construction of staff quarters at Public Nurses College–Kyambogo and the administrative block at Mbale School of Hygiene did not commence due to inadequate funding.

ii) ***Project: 1356 Uganda National Examination Board (UNEB) Infrastructure Development Project*****:** The planned commencement of Phase 1 construction for the 10-floor e-Assessment and Digital Centre did not commence. However, funds were committed, and a Memorandum of Understanding (MoU) was signed with the Uganda People's Defence Forces (UPDF) Construction Brigade.

iii) ***1603 Retooling of Makerere University****:* Key facilities, including the Main Administration Block, Lumumba Hall, and Mary Stuart Hall, were completed and occupied. Other works remained partial, with the Graduate Studies Building at 40%, Phase II of the School of Public Health at 60%, and the MaRCCI–Kabanyolo Administration Block at 90%. Renovations for the MUARIK Dining Hall and the Centre for Continuing Education (CCE Hall) were deferred to FY 2025/26.

iv) ***Project: 1414 Support to Lira University Infrastructure Development:*** Construction of the Administration Block progressed to 82.7% physical completion but remained behind schedule. The Master Plan and geotechnical survey for Agwingiri land in Amolatar were completed.

v) ***Project: 1680 Retooling of Soroti University:*** Construction of the Anatomy Block progressed to 70.41% physical completion by July 2025, against a time progress of 84.62%.

vi) ***Project: 1418 Support to Kabale University Infrastructure Development:*** The Science Building with four laboratories and the remodelling of the three-lecture room block with offices at the main campus were completed as planned. Phase II construction of the four-story Engineering Block at Nyabikoni was at 40% physical progress, slightly behind schedule.

vii) ***Project: 1777 Mountains of the Moon University Retooling Project:*** Outstanding certificates for the construction of the Faculty of Agriculture and Environmental Science Complex were cleared. However, construction stalled due to insufficient development funding.

viii) ***Project: 1685 Retooling of Muni University:*** The Health Science Laboratory Building progressed to 88.5% completion against the 100% target, while the Administration Block Annex was 62.3% against the 95% target, both constrained by limited contractor capacity. The Mechanical Workshop surpassed its 70% target, attaining 75% as the contractor worked ahead of schedule. Renovations at the Okollo Campus were 99% complete, and the Police Office was completed.

ix) ***1835 Busitema University Infrastructure Development:*** Construction of the five-level Lecture and Laboratory Block at the Mbale Campus was 90% complete, the three-level Maritime Institute Laboratory and Lecture Block at Namasagali was at 30%, and the substructure for a three-level teaching facility at the Pallisa Campus was completed. At the Arapai Campus, renovations and new facilities, including a modern goats' unit, were completed, while the design of an auditorium complex and a three-level laboratory at the Nagongera Campus was finalised.

x) ***Project: 1797 Gulu University Infrastructure Development Project Phase II:*** Construction of the Business and Development Centre was at 35%, against a target of 54%, while the Senate Building achieved 15% physical progress, surpassing its 10% target. Funds were also transferred to the National Enterprise Corporation (NEC) for the construction of a multipurpose building at Gulu University Constituent College.

xi) ***Project: 0368 Mbarara University of Science and Technology***: Construction of the Faculty of Computing and Informatics (FCI) block was completed and handed over to the university in January 2025. However, it is not fully functional due to a lack of furniture.

xii) ***Construction of the five-storey UBTEB Assessment Centre***: The building was at 99% physical progress and had already been occupied to meet the urgent need for office accommodation.

Labour and Employment Services

The Labour and Employment Services Sub-programme contributes to the programme objective 3 of NDP III, which seeks to develop a knowledgeable, skilled, and ethical labour force, with emphasis on science, technology, Technical and Vocational Education and Training (TVET), and sports.

The sub-programme's expected outcomes include: promoting decent and productive employment; enhancing labour standards; and improving working conditions across sector

institutions. The key performance indicators include increasing the proportion of the labour force engaged in decent employment from 34.5% to 55%, and improving the ratio of science and technology graduates to arts graduates from 2:5 to 3:5.

Sub-programme performance highlights

***Assessment bodies (Uganda Health Professions Assessment Board (UHPAB), and Uganda Vocational and Technical Assessment Board (UVTAB)*:** The TVET Act 2025 established the Uganda Health Professions Assessment Board (UHPAB) (merger of Uganda Allied Health Examinations Board (UAHEB) and the Uganda Nurses and Midwives Examinations Board (UNMEB)) and Uganda Vocational and Technical Assessment Board (UVTAB) (a merger of Uganda Business and Technical Examinations Board (UBTEB) and the Directorate of Industrial Training (DIT)) as part of reforms to streamline assessment, standardise qualifications, and strengthen quality assurance.

By 30th June 2025, UHPAB assessed a total of 78,512 candidates (56,588 under UNMEB and 21,924 across 221 centres, covering 24 programmes (31 allied health and 13 nursing). UVTAB registered and assessed 42,675 candidates, including 18,902 at Levels I–III and 23,773 under the Workers PAS and modular programmes.

Construction Projects

Vocational Education (VE) Project Phase II (OFID– Phase II): As of 30 June 2025, overall physical progress was 88.8%, indicating slow implementation and continued delays. Notable progress was registered at Kilak Corner, Ogolai, and Lokopio Hills Technical Institutes, which averaged 85.5% completion, while works at Lwengo Technical Institute remained stalled at 55%.

Vocational Education and Training (VET) Project: Following two contract terminations, the project resumed under a revised scope. The newly contracted works at Amelo, Bukomero, and Bukedea Technical Institutes achieved an average physical progress of 92%, marking strong recovery despite earlier setbacks.

Business, Technical, and Vocational Education and Training Support – Phase II (BTVET II) Project: Overall progress was slow, with the Skills Development Headquarters at 32% completion. Expansion works across nine technical institutes (Kabale, Nkoko, Nalwire, Birembo, St. Kizito-Kitovu, Lutunku, Moyo, Minakulu, and Moroto) averaged 56.4% completion. Implementation continues to be constrained by the delayed procurement of training equipment and supplies and the limited release of Government counterpart funding.

Population health, safety and management

The Population Health, Safety and Management Sub-programme accounted for over 47% of the budget for the Human Capital Development Programme in FY 2024/25. The sub-programme contributes to objective four of the Third National Development Plan (NDP III), which is to improve population health, safety, and management in Uganda. It aims at ensuring Uganda has a productive population that effectively contributes to socio-economic growth, through ensuring provision of accessible and quality healthcare to all people in Uganda.

In FY 2024/25, the sub-programme had an approved budget of **Shs 4,774 billion** (including arrears and external financing). After budget execution, total expenditure was recorded at **Shs 3,956 billion,** representing an absorption rate of 82% of the approved budget.

Sub-programme physical performance highlights

The performance of the Population Health Safety and Management Sub-programme for FY 2024/25 was good, improving from the fair performance category in the previous financial year, 2023/24. This good performance was demonstrated in various categories as illustrated below:

In relation to health outcomes, maternal mortality reduced to 189 per 100,000 live births, surpassing the NDP III target of 236, and infant mortality achieved was at 36 per 1,000 live births, closely aligning with the 35.8 per 1,000 targets. Nevertheless, some targets were not met: under-five mortality stood at 52 per 1,000 live births, missing the 33/1,000 target, and neonatal mortality was at 22 per 1,000 live births, against the NDP III target of 20/1000.

The improvement in performance was, among others, attributed to substantial completion of multiyear projects during the financial year; an increase in the budget for essential medicines and health supplies; and timely access to operational funds by the National Medical Stores from MoFPED

The good-performing interventions included reducing the burden of communicable diseases with a focus on high-burden diseases (malaria, HIV/AIDS, TB, neglected tropical diseases, and hepatitis) and epidemic-prone diseases, emphasising the primary healthcare approach; reducing the burden of the HIV epidemic and its impact on the social development of communities, using the multi-sectoral approach; and preventing and controlling non-communicable diseases (NCDs) with a specific focus on cancer, cardiovascular diseases, and trauma. The fair-performing interventions, on the other hand, included improving the functionality of the health system to deliver quality and affordable preventive, promotive, curative, and palliative healthcare services; and promoting health research, innovation, and technology uptake. This good performance was attributed to timely initiation and diligent selection of contractors and suppliers, strong health surveillance systems, successful implementation and rollout of Community Health Extension Workers (CHEWs); successful rollout of the disease prevention and health promotion campaigns; and increased reliability of vaccines complemented by successful immunisation campaigns.

Conversely, the poor-performing interventions included increasing financial risk protection for health with emphasis on implementing the national health insurance scheme, as minimal strides were made in enacting the National Health Insurance Bill; and increasing access to inclusive safe water, sanitation, and hygiene, with emphasis on increasing coverage of improved toilet facilities and handwashing practices.

In relation to service delivery, the provision of services improved compared to the previous financial year, 2023/24. This was in part demonstrated by timely availability of medicines and health supplies (reduced drug stockouts); provision of more varieties of healthcare services

such as geriatric services at Mulago National Regional Referral; surpassing of planned healthcare targets for the year both in specialised and primary healthcare services. Below is some detail on the healthcare services provided at facility level in FY 2024/25.

At Mulago National Referral Hospital, service-related targets were surpassed; a total of 274,665 haematology investigations were done, compared to the target of 142,944; while a total of 14,167 conventional radiographies were done, compared to the target of 8,120. In addition, four kidney transplants were done by June 2025, and an additional four were done in July 2025, increasing the cumulative kidney transplants to nine since the commencement of this service provision in December 2023. In addition, the hospital strengthened geriatric clinics and upscaled services for the elderly. A total of 1,191 patients (780 males and 411 females) from the disadvantaged group benefitted from the waiver system. Other services, such as dialysis and endoscopy services, were provided.

The Teleradiology Centre was set up at Mulago National Referral Hospital to serve the rest of the regional and lower-level facilities through supporting the transmission and interpretation of the imaging results by experts from Mulago till the expiry of the contract between the MoH and the internet service provider in November 2024. The teleradiology services urgently need to be sustained through renewal of internet subscriptions for Mulago and the different regional referral hospitals and the activation of a framework for motivating the radiologists in Mulago National Referral Hospital to support the regional referral hospitals in a timely manner.

The Uganda Cancer Institute (UCI) inaugurated the Division of Molecular Imaging and Therapy (PET Centre) radio-pharmacy hot labs. The centre is scheduled for functionality next financial year, 2025/26. The UCI also launched state-of-the-art technologies aimed at improving molecular oncology care. The UCI provided 259 radiation therapy education sessions to patients; a total of 62,853 treatment sessions were conducted on the Linear Accelerator (LINAC) Machine; 2,745 new patients were attended to, against the targeted 2,000; and a total of 22,470 on-treatment patients were reviewed, against the targeted 2,000.

At the Uganda Heart Institute, outpatient attendances increased by 19.5% in FY 2024/2025 relative to the previous FY 2023/24; this was in part due to the increasing burden of heart diseases leading to higher demand for heart care services. The cardiac interventions performed increased from 560 to 710, i.e., open heart surgeries, closed heart surgeries, vascular surgeries, and catheterisation procedures. This was attributed to more operating days and the installation of a new cardiac catheterisation laboratory. The UHI further held three closed heart surgery camps in Mbarara, Lira, and Jinja Referral Hospitals in which 32 children benefitted, compared to the 15 from the previous financial year.

At Butabika National Referral Hospital, a total of 21,597 male and 21,692 female patients were attended to in the mental health clinics. A total of 5,066 males and 3,454 female were attended to in the Child Mental Health Clinic. A total of 38,793 males and 8,297 females were attended to in the Alcohol and Drug Clinics, while a total of 33,352 were attended to in the general Outpatient Department. Ability to attend to the patients was supported by improved availability

of medicines and health supplies arising from improvement in the medicines budget for the hospital.

At Kawempe National Referral Hospital, service provision exceeded its target for the following services: A total of 8,072 admissions to the Neonatal Intensive Care Unit (NICU), compared to 8,000; a total of 4,365 paediatric admissions, compared to 2,500; 5,869 gynaecology emergency admissions, compared to 4,000; a total of 23,210 deliveries, including 10,537 C-sections, compared to 22,000 and 10,000 C-sections; a total of 63,890 inpatient admissions, compared to 60,000.

Kiruddu National Referral Hospital (NRH) exceeded its target for the following services: 95,719 (223%) patients treated by specialists; a total of 69,084 (211%) general outpatients treated; and a total of 19,727 (116%) dialysis sessions carried out. In addition, the Kiruddu NRH support team supervised Hoima RRH in setting up a Dialysis Satellite Centre, and arrangements were made to commence dialysis in FY2025/26. Relatedly, the regional referral hospitals, general hospitals, and lower-level health facilities also provided services to the population in their respective catchments.

Infrastructure development: In relation to the functionalisation of oxygen plants, installation of transformers and other ancillary components, a total of 11 hospitals were completed, tested, and functional, while six hospitals remained incomplete. These were Masaka, Kabale, Moroto, Kapchorwa, Soroti, and Butabika National Referral Hospital. The delayed completion and commissioning of the oxygen plants was attributed to inadequate funding to support the Uganda People's Defence Forces (UPDF) to complete the installation of the transformers and other ancillary infrastructure.

The completed installation of high-capacity transformers and voltage stabilisers under global gases was at the following hospitals, i.e., Mubende, Jinja, Upper Mulago, Kawempe, Kiruddu RRH, Gulu, Fort Portal, CUFH-Naguru, Kayunga, Entebbe and Bombo General Military Hospital (GMH). Relatedly, the MoH procured a 1000 KVA transformer for Arua under UgIFT, and the UPDF was installing the stabiliser to functionalise the oxygen plant. Additionally, electrical installation was completed in Yumbe, and plans were underway to start the installation of the Pressure Swing Adsorption (PSA) oxygen plant.

The Global Fund also supported the installation of PSA oxygen plant houses in the hospitals of Lira, Mbarara, Hoima, and Mbale. These were completed, oxygen plants delivered and installed, and oxygen piped to the wards. These were already operational. It is worth noting that the Global Fund, under the COVID-19 funding component, realised additional savings that were to be prioritised to support additional piping of oxygen to a couple of hospitals, depending on the MoH prioritisation.

Construction of the regional blood banks in Soroti, Arua, and Hoima with the attendant housing units had been completed and they were in use. The Hoima Blood Bank had been commissioned, while the ones in Arua and Soroti were yet to be commissioned. Recruitment of the necessary human resources to support full operationalisation of the blood banks

remained incomplete. This was attributed in part to inefficiencies in the recruitment process and delays in appointing a new Health Service Commission Board whose term expired in November 2024.

Regarding works at the general hospitals, the first phase of rehabilitation of Busolwe General Hospital (GH) was 99%, with only the installation of the X-ray machine remaining. Phase 2 works, which included refurbishment of the existing staff houses and additional external works, an access road, a solar plant, and gas stoves, among others, were ongoing. Construction of the theatre at Kambuga GH was at 94%, while the twin 16-staff housing units were at 65%.

The construction of the theatre at Kapchorwa General Hospital was at an overall physical progress of 50%. At Kisoro General Hospital, construction of the theatre was 90% physical progress, while the work at the Isolation Unit was at 95% completion. Works at other hospitals, such as Masindi, Kambuga, Luweero, and Itojo, remained in the initial stages, while at others, such as Bugiri, Amuria, Apac, Kamwenge, Katakwi, Kitgum, and Koboko, among others, had not commenced. Most of the other contracts for the rehabilitation of general hospitals had just been signed, and works were expected to start in FY 2025/26.

Civil works for all the incinerator facilities (waste management facilities) in Fort Portal, Mbarara, Lira, Gulu, and KCCA-Mukono had attained substantial completion, with the installation of equipment in Mbarara at 95%, Lira at 99%, and KCCA-Mukono at 50%, while the installation of equipment at Gulu had not commenced. It is important to note that the incinerators require a stable power supply, yet the regions where these incinerators have been established experience power outages. Consequently, standby generators are required to support testing, commissioning, and operationalisation of the equipment. Relatedly, the Global Fund supported procurement of trucks for transportation of waste, while recruitment of personnel to support operationalisation of the equipment was ongoing.

With support from the Uganda COVID-19 Emergency Preparedness Project (UCREPP), the construction of the ICU at Hoima was completed, while the construction of the ICUs at Kabale and Arua had attained 90% physical progress. Construction of the Neonatal Intensive Care Unit (NICU) at Mbarara Regional Referral Hospital (RRH) was 75% complete. The project further supported the construction of the call and dispatch centres at Mbale RRH, Mbarara RRH, and Lira RRH. The average physical performance was 80%, against the planned progress of 100%. The call and dispatch centre of Lira was substantially complete, with equipment installation ongoing, while Mbale and Mbarara remained behind schedule. The UCREPP, in addition, supported the construction of satellite laboratories in Lira and Fort Portal, and these were completed and commissioned.

Regarding the construction of medicine stores in 26 General Hospitals (GHs) and Health Centre (HC) IVs under the Global Fund, it was ongoing at various levels. The average physical progress was estimated at 40% completion for all the sites. Pre-installation works for the 20 X-ray machines that commenced in five GHs (Bombo, Gombe, Kalisizo, Rakai, and Lyantonde) were completed, and installation of the X-ray machines was ongoing.

In relation to the construction of Health Centre IIIs or upgrade of Health Centre IIs to IIIs under the Uganda Intergovernmental Fiscal Transfers (UgIFT) Programme, a total of 344 (92%) out of the planned 373 health facilities were cumulatively completed, while 16 (4.3%) remained incomplete. A total of 13 out of the 16 had stalled at different phases due to challenges such as the limited financial capacity of contractors. Some of the stalled sites included Bwikhonge HC III in Bulambuli, Mutufu HC III in Sironko, and Kaptum HC III in Kween, among others.

In relation to the establishment of a modern heart facility in Naguru, the civil works were estimated at 11.5% physical progress, against a time progress of 25%. Earthworks and foundation works for the staff quarters and research block had been completed. At Mulago National Referral Hospital, on the other hand, construction of the 150 staff houses was estimated at 57% physical progress. At the Uganda Cancer Institute, construction of the multipurpose building stagnated at 69%, as only the agreement for additional financing was executed on 15th May 2025, and implementation was expected in the first quarter of FY2025/26.

Regarding the development of water and sanitation facilities, the progress on Rural Water Supply and Sanitation Systems (WSSs) varied across districts: Manafwa (82%), Bitsya (80%), Ala-Ora (80%), Bulangira and Nyamugasani (43% each), Nyagak (4%), Enyau (25%), and Isingiro (38.5%). The rehabilitation of Bukumi was at 10%. Sanitation facilities form part of the piped water system construction; however, works had not yet commenced in Bulangira, Kanapa, Aligoi, Opengate Kawo, Manafwa, and Bukumi due to land acquisition challenges (Manafwa) and financial constraints (in the other districts).

In rural areas, the construction of 13 solar-powered piped water systems in Rural Growth Centres (RGCs) was completed, with two sites at 80% completion. In refugee host districts, 20 solar systems reached 80% completion, while progress at the remaining 13 sites ranged from 4% to 14%. Across 22 districts where safe water coverage remained below 50%, the construction of 48 solar-powered piped systems recorded an overall progress of 69%, with 12 systems completed and 38 ongoing. New boreholes were drilled in Kassanda and Lyantonde, and 10 sanitation facility designs were finalised.

Progress on the planned 203 solar-powered rural water systems showed that 72 systems were completed, with ongoing construction at 59 sites. Additionally, 69 sites were under feasibility study, and three systems had been handed over with no works initiated yet. The overall completion rate averaged 85%. This progress was supported by 30 community engagement campaigns, which fostered community participation and ownership.

In urban areas, notable advances were made in Buikwe, Kapchorwa, Bundibugyo, Obongi, Parabong, Kamuli, Busia, and Zombo, where projects were technically commissioned and met quality standards. Systems nearing completion included those in Busia (99%), Namasale (99%), Palabek Kal (99%), Lamwo Town Council (98%), Kamuli (90%), Ngoma (90%), Arra/Dufile (96%), and Lacekocot (90%). Steady progress was also observed in Kaliro-Namungalwe (69%), Butaleja-Busolwe (86%), Budaka-Kadama-Tirinyi-Kibuku (84%),

Busaale (66%), Lobule (65%), Lunya (70%), Angangura (75%), Rhino Camp Town Council (89%), Kagera (86%), and Boroli (62%). Early-stage works included Kasawo Phase I (5%) and Kyebando-Kasimbi (5%).

Other projects are at various stages: Karago Phase 2 at 85%, Mbale WSS at 42%, Rubaya WSS at 20%, Nyakashaka Phase 01 at 4.5%, and the improvement of Ishaka Adventist Hospital WSS, which is 100% complete (including the water source and transmission line works). Additionally, Bethlehem-Nabigasa Phase 1 was at 5%, and the MWE-SW Regional Office perimeter wall and gate had reached 93%, while Bugarama-Karweru and Rwere-Kateretere remained under procurement. Work on public toilets in Mbale stalled due to poor-quality materials. The Nalukolongo, Kumi, Busia, and Koboko Faecal Sludge Treatment Plants (FSTPs) were substantially complete, while the Buliisa and Busukuma FSTPs were at 20% and 50% progress, respectively.

Health equipment: Procurement of a service provider to maintain non-Philips ultrasound scanners and X-rays in regional referral hospitals, general hosptials and HC IVs was concluded at the end of the financial year. this implies that no maintenance of the equipment was undertaken during the financial year. In addition, the hospitals with Philips equipment may continue to lack a service contract for their maintenance. Only the MRI and CT equipment recently supplied by Elsmed East Africa Limited were serviced, as they were still in the warranty period.

Human resources for health: The recruitment for FY 2024/25 by the Health Service Commission had not been finalised. The Health Service Commission was in the process of conducting oral interviews. Failure to complete fresh recruitments for FY 2024/25 was attributed to inefficiencies in the recruitment process and delays in appointing a new Health Service Commission Board whose term expired in November 2024. At the Local Government level, however, most of the Local Governments that received funds for recruitment had completed their recruitment process, especially for the upgraded health facilities.

Despite the Health Service Commission (HSC) failure to complete the recruitments initiated in FY 2024/25, the Commission completed recruitment that had been initiated in the previous financial years. As of 30th June 2025, nine recommendations were made to H.E. the President for appointment, and a total of 1,134 health workers were recruited for health institutions under the jurisdiction of the Commission. In addition, a total of 1,258 Human Resources for Health decisions were handled. The HSC also undertook support supervision in 94 District Local Governments (DLGs), six cities, one Regional Referral Hospital (RRH), 12 Central Health Institutions, and eight health centres in the Central Region. In addition, the HSC offered technical support and guidance on recruitment to 44 District Service Commissions (DSCs), namely Kamwenge, Kyenjojo, Palisa, Busia, Rwampara, Wakiso, Lyantonde, Wakiso, Namayingo, Mukono, Lyantonde, Mpigi, Butaleja, Luweero, Kumi, Kaberamaido, Wakiso, Kikuube, Bulambuli, Bugweri, Rwampara, Kitgum, Sheema, Namisindwa, Mubende, Yumbe, Hoima, Kamuli, Arua, Kazo, Kassanda, Buyende, Bugiri, Bududa, Bushenyi, Sironko, Masindi, Buikwe, Bukomansimbi, Bunyangabu, Bulambuli, Butaleja, Palisa, and Kyenjojo.

Blood transfusion services: The UBTS collected 420,000 units of blood, against a target of 481,500 units of blood, and issued 378,000 units of safe blood, against the target of 433,350 units of safe blood to health transfusing facilities in the country. Despite the 87% collection, blood transfusing facilities recorded stockouts of blood components at 50% of the transfusing facilities.

Immunisation: The Uganda National Expanded Program on Immunisation (UNEPI), in collaboration with the Global Alliance for Vaccines (GAVI) Project, successfully implemented the "Big Catchup" and undertook the Malaria Vaccine Introduction Campaign in 107 districts, achieving 100% vaccine coverage. Under the Health Strengthening Grant Phase II (HSS2) and COVID-19 Vaccine Delivery Support, the project achieved 95% diphtheria-tetanus-pertussis third dose (DPT3) and 98% diphtheria-tetanus-pertussis first dose (DPT1) coverage.

UNEPI supported immunisation improvement, achieving 98% for measles and rubella first dose (MR1) coverage and 53% for the measles and rubella second dose (MR2) coverage. The poor performance under MR2 was attributed to laxity among caregivers to seek the second dose during the second year of vaccination.

Response to malaria, HIV/AIDS, and TB: A total of 1,120,000 houses received Indoor Residual Spraying (IRS) in 20 districts registering a high burden of malaria. A total of 5,821 personnel were trained in IRS implementation in 20 districts. An estimated 97% of HIV-positive people were enrolled in Antiretroviral Therapy (ART). The MoH provided support supervision under HIV programming, hepatitis programming, and malaria intervention. A total of 142 health workers from the four border districts, including Amuru, Kyotera, Busia, and Tororo, were trained in TB management. The health facilities, in addition, efficiently offered services to the patients until March 2025. This was, however, disrupted following the suspension of the United States-supported operations. The community outreaches and other preventive activities were halted.

Epidemics responses: The sub-programme successfully detected and controlled epidemic diseases in 86 districts, including Mpox in 81 districts. Of those 81 districts, those that reported many Mpox cases included Kampala, Wakiso, Mbarara City, Masaka City, Mukono, Lyantonde, Nakasongola, Luweero, and Kyotera, with 6,862 cumulative cases and 44 cumulative deaths; a cholera outbreak in the Kiryandongo and Lamwo Districts; an anthrax outbreak controlled in the Buhweju and Sheema Districts; and two risk assessments and categorisations for public health threats that relate to landfills.

Availability of essential medicines and health supplies: Overall availability of essential medicines and health supplies, the 50 tracer medicines, was estimated at 70%. There was a marked improvement in the delivery of medicines following a deliberate effort by MoFPED to improve timely access of National Medical Stores to the operational funds to support distribution of the medicines to facilities. All the visited facilities acknowledged receipt of all the expected cycles. The cases of discrepancies were, however, observed between the quantities and values delivered compared to the cycle orders as agreed in the procurement plan between the health facilities and National Medical Stores.

Health research: Viral disease epidemics investigated. The UVRI recruited survivors of Ebola, Marburg and Mpox virus infections and processed their peripheral blood mononuclear cells (PBMCs) for cryopreservation in preparation for downstream detailed immunological analyses. The plan was to optimise assays, screen these survivors for potent neutralising antibodies against the viruses, and perform single cell sorting to isolate B cells with high specificity and assess their neutralisation potential. In addition, surveillance for ticks and mosquito vectors of viral diseases among children, both female and male, and laboratory surveillance of acute flaccid paralysis (AFP), measles and rubella among children, both female and male, were conducted.

Social Protection

During the year, the Ministry registered significant progress across its core programmes and interventions. A total of 297,724 senior citizens received regular and predictable Social Assistance Grants for Empowerment (SAGE), enhancing income security and dignity in old age. In addition, 590 older persons' enterprises were supported under the Special Enterprise Grant for Older Persons (SEGOP), reaching 3,501 beneficiaries across the country.

Under the Disability Inclusion Programme, the Ministry financed 1,317 enterprises for Persons with Disabilities (PWDs), benefitting 8,170 individuals. These interventions promoted self-employment and economic participation by PWDs in their communities.

In the area of labour and occupational safety, the Ministry registered 1,495 workplaces in compliance with the Occupational Safety and Health (OSH) Act 2006, generating Shs 1.583 billion in non-tax revenue (NTR). Additionally, 1,113 units of statutory equipment were inspected, generating a further Shs 0.605 billion in NTR and contributing to safer and more compliant work environments.

To advance inclusive economic empowerment, 1,640 women enterprises were funded, benefitting 11,796 women nationwide. Similarly, 546 youth enterprises received financial support, reaching 3,964 youth across the country and promoting entrepreneurship among young people. The Ministry also extended food and non-food assistance to 3,305 children – including those in conflict with the law, in rehabilitation centres, and abandoned or lost children in reception centres, thereby improving their welfare, rehabilitation, and protection.

To strengthen employability and skills development, 556 youth were trained in non-formal vocational, entrepreneurial, life skills, and sexual and reproductive health (SRH) programmes at the Youth Skills Centres. This intervention enhanced their capacity for self-reliance and productive engagement in the labour market.

In promoting decent work and labour standards, the Ministry inspected 167 external recruitment agencies to ensure compliance with safe labour migration regulations. Additionally, 71 Jua Kali groups in 31 Local Governments were supported with 1,182 business toolkits and equipment to boost productivity and income generation. The Ministry also carried

out 280 workplace inspections and investigations in 42 Local Governments to enforce labour laws and improve occupational safety.

To strengthen access to labour justice, the Industrial Court disposed of 335 labour dispute cases, thereby reducing the case backlog and ensuring timely resolution of employment-related grievances.

The Equal Opportunities Commission (EOC) conducted assessments of all 18 programmes and produced a comprehensive report on compliance with gender and equity (G&E) requirements for FY 2025/26. The national average compliance level for the FY 2024/25 National BFP stood at 59%, reflecting moderate progress towards mainstreaming gender and equity considerations in planning and budgeting.

The Commission validated three (3) special audits on the mainstreaming of gender and equity in 18 regional referral hospitals across Uganda. These validation exercises were conducted in collaboration with representatives from the respective hospitals, selected Members of Parliament, partner institutions and relevant stakeholders under the Private Sector Development, Human Capital Development, and Regional Development Programmes.

The Commission reviewed nine (9) laws, Bills, and policies, with reports prepared and pending submission to the respective authorities. In addition, a total of 40 guidelines were developed to guide mainstreaming of gender and equity across MDAs and Local Governments.

Challenges

i. Low pace of mobilisation and consequent execution of works by the UPDF engineering brigade, although the MoH and other institutions transferred all the funds required for execution of works.
ii. Low prioritisation of medical equipment maintenance. The votes do not sufficiently plan for operation and maintenance of medical equipment, after acquisition, and those that plan, receive a meagre allocation compared to the requirements. As a result, many facilities were left with non-functional X-ray and ultrasound scans, among other medical diagnostic equipment.
iii. Poor planning demonstrated by the initial exclusion of key components required in modern health infrastructure. At most of the health infrastructure visited, requests for scope revisions were common even for components that would be obvious in designing health infrastructure, such as piped oxygen, medical air, and vacuum air for theatres, ramps for universal access, and mosquito nets, among others**.**
iv. Inadequate staffing across all levels of care occasioned by inadequate wage and/or delays in recruitment. The inadequacy has constrained service delivery. It should also be noted that recruitment on a replacement basis creates a generational knowledge gap as the senior health consultants retire without the transfer of tacit and, in some cases, explicit knowledge.
v. Right-of-way or land acquisition challenges: These led to the stalling of project activities, especially under the development of water and sanitation systems.

vi. Inadequate technical and financial capacity of contractors: This affected timely completion of works and contributed to the use of substandard materials, especially in the development of water and sanitation supply systems.
vii. Inadequate and unpredictable financing due to budget cuts, low allocations, and delayed releases, which limited implementation and service delivery.
viii. Lack of a clear funding framework, leading to inequitable resource distribution and inefficiencies.
ix. Dilapidated infrastructure and obsolete equipment, constraining outreach, training, and citizen engagement.
x. Limited coverage and access to information, especially for vulnerable and hard-to-reach communities, reducing participation in Government programmes.
xi. Human resource and operational gaps, including staffing shortages, case backlogs, and restricted capacity-building opportunities.

Recommendations

i. The Ministry of Defence and Veteran Affairs should identify the root causes of the delayed implementation of works. This should guide the determination of a lasting solution to this constraint to project implementation.
ii. The MoH should prioritise the acquisition of maintenance contracts for all medical equipment and, where feasible, the sub-programme votes should train their biomedical engineers in maintenance skills for such key equipment to further reduce the expenditure on maintenance.
iii. The MoH, in collaboration with the sub-programme votes, should offer tailored training to the existing architects and engineers in health infrastructure design and hospital planning. In addition, MoFPED and the MoES should strengthen project preparation and planning.
iv. MoFPED and Parliament should systematically allocate resources for recruitment of human resources for HCD in a phased manner. Efforts to align the recruitment process with the budgeting process should be explored.
v. The MWE should prioritise land acquisition prior to commencement of works.
vi. The MWE and other sub-programme players should strengthen procurement management, including strict due diligence during the identification of contractors.
vii. Ensure timely and full release of funds, protect essential operational budgets, and mobilise additional resources through partnerships.
viii. Establish a transparent, performance-based funding framework, and strengthen coordination among MDAs.
ix. Rehabilitate community infrastructure and adopt digital tools to expand outreach and citizen sensitisation.
x. Increase EOC funding and enhance information access through community radios, digital media, and CSO partnerships.
xi. Address staffing and operational gaps through targeted recruitment, training, and the use of virtual platforms for efficiency.

3.13 Innovation, Technology Development and Transfer Programme

The approved budget for the programme was **Shs 346.95 billion**, which was revised upwards to **Shs 407.44 billion** on account of supplementary funding (**Shs 60 billion**) for coffee value addition by Inspire Africa. A total of **Shs 407.34 billion** was released and 99.7% of the released funds were absorbed (**Shs 406.15 billion**) by 30th June 2025.

Physical Performance

Industrial Value Chain Development Sub-programme

Five PhD and four master's scholarships were awarded in Space Science studies, one internationally certified ground station operator was trained, and seven engineers were undergoing training in satellite communication and ground station setup. Six aeronautic innovations were designed and were ready for minimum viable products development. The equipment for a space assembly, integration, and testing was procured, and one space weather-based early warning tool was developed and was undergoing testing and validation.

The pilot and efficacy studies for three vaccines (Subunit, Inactivated, and Adenovector) were undertaken. The review of vaccine clinical trial protocols for the three COVID-19 vaccine candidates remained at pre-clinical trials pending the establishment of mini–Good Manufacturing Practice (GMP) facilities for each. The multiplication of the humanised mice to support the challenge studies for the Subunit, Inactivated, and Adenovector vaccines, among others, was achieved, with over 500 mice stocked in the animal house.

The establishment of some of the GMP facilities was underway at Makerere University College of Veterinary Medicine (COVAB), whereas the development of the Good Laboratory Practice (GLP) platform and office spaces at Busitema University was completed.

The invitro studies of natural therapeutics at Uganda Virus Research Institute (UVRI) conducted safety and efficacy analysis on several natural products submitted. Two products successfully went through the trials and were ready for commercialization.

The final designs of the Biosciences Park (Pathogen Economy Industrial Park) in Nakasongola District were initiated, and the structural and architectural plans for one of the vaccines and therapeutics components of the park was at completion stage. The review of the Polymerase Chain Reaction (PCR) Diagnostics Plant designs by international collaborators was finalised and awaiting ground-breaking.

A total of 55 proposals by grantees for FY 2024/25 to support research and innovation were selected and funds disbursed during the period under review; however, none were permitted to spend by the end of June 2025.

In FY 2023/24, STI extended funding worth **Shs 720 billion** to Dei Bio Pharma to support the construction and equipment of 5 state-of-the-art structures for the production of the various

categories of human drugs and vaccines. By July 2025, the construction and equipping of the units were in advanced stage. The generic oral solid manufacturing and GLP Laboratory were 100% complete, the Nutraceutical Unit at 95%, the Syrup Unit at 95%, the Ointment Unit at 95%, and the mRNA and Inactivated Vaccine Development Unit at 85%. In addition, the company was constructing Penicillin, Cephalosporin, Hormone, Non-beta-lactam Antibiotics, and Oncology Units. Six generic drugs were being produced and distributed to the Ugandan market during the period under review.

The Banana Industrial Research and Development Centre (BIRDC) received the Q-mark for all "Tooke" brands, and the institution was recommended for ISO 22000:2018 certification by June 2025. The procurement of equipment to upscale and automate the plant to speed up processing registered slow progress.

To manage the supply chain, transport equipment (trucks) to link the plant to farmers to ease access to raw materials from collecting centres was procured. The BIRDC/PIBID reportedly generated only **Shs 4 billion**, against a target of **Shs 12 billion**, during the financial year.

The civil works for the establishment of a tertiary coffee roasting and instant coffee processing facility and installation of machinery for freeze drying and spray drying at the Africa Coffee Park was substantially completed during the year under review. Factory Acceptance Testing (FAT) and training of local staff were ongoing.

Several batches of roasted coffee were produced for product validation and generation of information for certification of both product and plant by UNBS.

STI Ecosystem Development Sub-programme

The phase 1 and 2 constructions, tooling and furnishing of the Kiira Motor Corporation (KMC) Vehicle Plant start-up facilities with a capacity of 2,500 vehicles annually was completed. The corporation completed the production of five out of the planned 10 buses, of which three were of the Kayoola EVS 12 Series, designed for mass urban transport. The remaining five buses were expected to be completed by the end of August 2025. An e-public transport system was piloted in Jinja City with seven buses using a cashless payment system.

The KMC workforce grew from 165 in July 2024 to 269 in June 2025, representing a strategic investment in human capital to support the operations. A total of 336 e-bus operators and 3 e-bus technicians were trained under the E-Bus Operator Skilling Programme. The corporation secured a pilot opportunity to supply two electric buses to the Dar es Salem Bus Rapid Transit system.

During the financial year, the civil works and machine installation for the National Science, Technology, Engineering, Innovation and Skills Enhancement Project (NSTEI-SEP) were completed for both the centres in Rwebitete and Namanve. Subsequently, the project was turned into a subvention named the Engineering Development and Innovation Centre (EDIC). The first group of 120 students from six universities were trained in engineering courses. The

25 engineers who trained in China were deployed to support the internship and skilling training during the months of June, July and August 2025.

Research and Development

The Uganda Industrial Research Institute (UIRI) developed environmentally-friendly technologies, such as a solar drier for post-harvest handling, and provided training to communities in the use of renewable energies such as briquettes and biogas. Virtue and in-house incubation were also supported in dairy, textiles, bakery, and cosmetics. UIRI also supported value addition and in-house incubation initiatives in various sectors, including dairy, textiles, bakery, and cosmetics.

In addition, UIRI continued to conduct repairs on the bakery and fruit sections at the Nakawa Incubation Centre and the renovation of the peanut butter processing plant in Lira. Twenty-two new businesses joined the UIRI incubation programme, receiving tailored technical support, thus an expanded incubation footprint.

The pilot development of diagnostic kits for cassava mosaic, potato disease, coffee wilt disease and banana bacterial wilt at Gulu University was completed.

Challenges

The programme was faced with the following challenges:

i. Late disbursement of funds and delayed issuance of permission to spend funds by the STI Secretariat delayed execution of interventions.

ii. Procurement delays arising from the absence of Procurement and Disposal Units (PDUs), and approvals from the Solicitor General.

iii. Lack of Good Manufacturing Practice facilities and GLP delayed implementation of numerous initiatives.

iv. Lack of adequate power supply and water shortage for facilities such as the Africa Coffee Park and Dei Bio Pharma limited full-scale production.

v. Slow harmonisation of the policies on intellectual property (IP) sharing rights between the innovators, host institutions, and the STI Secretariat.

vi. Stagnation of projects at pre-commercialisation stage due to approval delays and weak support systems.

vii. Limited coordination between research institutions, implementing agencies, and the private sector.

viii. Limited public engagement and awareness about STI initiatives.

ix. Delayed recruitment of staff for the EDIC and constitution of the organisational structure of PIBID.

x. Tokenism in the funding due to the many grantees despite limited resources, making it difficult to meet project targets.

Recommendations

i. The STI Secretariat should streamline fund disbursement processes to enhance timely and predictable funding to avoid delays that disrupt research and implementation timelines.

ii. Establish well-functioning Procurement and Disposal Units (PDUs) within STI institutions to ease procurement processes.

iii. Prioritise completion and operationalisation of GMP, GLP, and other critical research infrastructure.

iv. The STI Secretariat should accelerate infrastructure completion and the provision of utilities like power and water, particularly in high-demand facilities such as the Africa Coffee Park and Dei Bio Pharma.

v. The STI Secretariat should fast-track policy and legal frameworks to create a more enabling environment for innovation commercialisation.

vi. The STI Secretariat should fast-track approval and market entry of innovations that have successfully completed trials, especially in the areas of natural therapeutics, diagnostics kits, and agro-industrial products.

vii. The STI Secretariat should ensure better coordination between research institutions, implementing agencies, and the private sector to avoid duplication, improve efficiency, and foster market-driven innovations.

viii. The STI Secretariat should invest in outreach and awareness to increase public engagement and awareness about STI initiatives to build national buy-in, stimulate youth interest in STEM, and attract private sector investment.

ix. Recruitment of staff for EDIC and constitution of the organisational structure of PIBID need to be fast-tracked.

x. Prioritise and sequence funding in a phased manner for critical grantees to avoid spreading resources thin.

3.14 Public Sector Transformation Programme

By 30th June 2024, the programme demonstrated strong financial performance. The approved budget of **Shs 203.375 billion** was revised to **Shs 209.563 billion**, all of which was released, with 99.0% absorbed.

Wage and non-wage recurrent expenditures recorded near-perfect execution at 99.1% and 99.2%, respectively, ensuring uninterrupted service delivery. Government development spending reached 94.7% absorption, slightly below target due to delays in completing capital projects. Arrears of **Shs 2.962 billion** were fully cleared. Overall, the programme achieved effective budget execution, with most resources directed to sustaining core recurrent functions while development activities faced minor implementation delays.

Physical Performance

Overall output and intermediate outcome performance: In FY 2024/25, the Public Sector Transformation Programme (PSTP) registered fair output performance. Key achievements included the nationwide rollout of the Human Capital Management (HCM) system, delivery of targeted capacity-building initiatives, and improved alignment of institutional plans with the National Development Plan (NDP). However, progress was constrained by delays in implementing Client Charters, slow adoption of digital systems, and incomplete restructuring in some Ministries, Departments, and Agencies (MDAs) as well as Local Governments (LGs).

At the intermediate outcome level, performance was also fair. Significant gains were made in structural reforms, payroll and pension management efficiency, and institutional mandate alignment. Uptake of the Electronic Document and Records Management System (EDRMS) rose from 5% to 51%, payroll efficiency improved to 95%, and most MDAs and LGs paid salaries on time. However, persistent challenges limited overall results: absenteeism rose to 25%, against a target of 5%; only 70% of district private forums were functional; local revenue mobilisation stagnated at 30%; and LGs' share of the national budget stood at 14%, compared to the 25% target. The Inspectorate of Government (IG) implemented none of its recommendations, while conviction rates remained below target at 60%.

Sub-Programme Performance Highlights

Strengthening Accountability for Results Sub-Programme: This sub-programme exhibited fair performance. Client Charters were rolled out in almost all MDAs and in 70% of LGs, improving compliance with service delivery standards from 47.7% to 61%. For instance, the Ministry of Health introduced service charters in regional referral hospitals such as Gulu and Mbarara, which increased patient awareness of their rights. Similarly, in Wakiso District, the rollout of a charter led to better frontline responsiveness in service delivery points.

However, citizen satisfaction stagnated at 63.5%, against a 65% target, partly due to persistent absenteeism of health workers noted in Lira District and delays in service access in Kampala

City. Only 40% of individual work plans were aligned with institutional priorities, as seen during monitoring of LGs, where staff plans did not correspond to strategic objectives.

While anti-corruption interventions exceeded targets in complaint resolution such as Inspectorate of Government (IG) recoveries in Masaka Municipality and the successful follow-up of procurement irregularities in MoWT projects, conviction rates dropped to 50% (target 79%). Moreover, digital accountability remained weak: The Transparency, Accountability and Anti-Corruption (TAAC) system had just 11% uptake, with no progress on the ICT accountability platform piloted in MoPS. Weak enforcement, low digital integration, and underwhelming conviction outcomes constrained overall impact.

Government Structures and Systems Sub-programme showed good performance: This was the best-performing sub-programme. Under the Rationalisation of Agencies and Public Expenditure (RAPEX) reforms, 80% of restructuring activities were completed. For example, the Uganda National Roads Authority (UNRA) restructuring eliminated overlapping roles with MoWT, while rationalisation of Uganda Investment Authority (UIA) functions streamlined investment promotion.

In Local Governments, 32 staffing structures were customised exceeding targets such as in Bushenyi, Iganga, and Arua Districts, where redundant departments were merged and new community-based service structures established. Parliament enacted 38 enabling Acts to support reforms, while 60 agencies, including Uganda Tourism Board and Cotton Development Organisation, were fully rationalised.

Institutional alignment improved to 100%, employee competence alignment reached 98%, and role matching stood at 99.2% through Human Capital Management (HCM) audits. Monitoring visits in Kabarole and Mbale Districts confirmed that new job descriptions matched actual service delivery roles. In addition, access to archived materials online improved from 5% to 20% at the Uganda National Archives, benefitting districts like Soroti, where officials can now retrieve decentralisation records remotely. This strong combination of legal reforms, rationalisation, and competency alignment made this the most impactful sub-programme.

Strategic Human Resource Management Sub-programme: This sub-programme exhibited good performance. Considerable progress was made in automating HR functions. The HCM system was rolled out to 85 Votes, including MoPS, the Ministry of Education and Sports (MoES), and several District Local Governments such as Kiryandongo and Ntungamo. Payroll efficiency reached 95%, and 98% of new employees were enrolled within 30 days, as illustrated by Mityana District, where teachers recruited in FY 2024/25 accessed the payroll on time.

Over 900 officers received training in mindset change and integrity, with notable sessions held in Jinja and Gulu Districts targeting mid-level administrators. Monitoring visits confirmed efficiency gains in enrolment and leave management modules.

However, only 15% of public officers were paid according to the approved salary structure (target 50%). This was evident in universities such as Kyambogo and Makerere, where salary

compression persisted. Additionally, 59% of wage and pension funding relied on supplementary budgets, as seen in Kampala Capital City Authority (KCCA), while just 75% of staff met competence standards (target 80%). Despite automation gains, wage rigidities and competence gaps remain serious bottlenecks.

Decentralisation and Local Economic Development Sub-programme. This sub-programme presented fair performance. Positive results included alignment of all LG and MDA plans to the National Development Plan (NDP). For example, districts such as Gulu and Kitgum Districts aligned their Education and Agricultural Plans to NDP III priorities, while critical approved positions in MoLG were filled. Nonetheless, only 70% of District Private Sector Forums were functional. Monitoring in Hoima and Luweero Districts revealed inactive forums due to weak funding. The LG share of the national budget was just 14% against a 25% target, undermining service delivery. Local revenue mobilisation remained at 30% versus the 37% target, with Soroti and Masindi struggling to enforce property rates.

Critically, only 13% of local revenue was reinvested in development activities (target 43%). In Apac District, most local revenue was consumed by administrative costs, leaving little for capital projects. Staffing levels also dropped to 60% of approved positions, weakening frontline capacity, particularly in Kaberamaido District, where gaps in agricultural extension staffing were noted. These financing and staffing challenges limited local economic transformation.

Business Process Re-engineering and Information Management Sub-programme: This sub-programme achieved fair progress. Asset recovery reached Shs 5 billion from MoFPED monitoring of tax evasion cases and Shs 60 billion from IG investigations in infrastructure projects. The National Backbone Infrastructure (NBI) expanded to 90%, improving connectivity in districts such as Lira and Arua.

Migration of 53% of Government services online, including e-procurement in MoFPED and e-licensing in MoTWA, improved efficiency. National ID issuance accelerated, with outreach campaigns in Kalangala and Karamoja districts boosting coverage. Inter-MDA data sharing also improved: for example, URA integrated taxpayer data with NIRA and NSSF. Citizen satisfaction rose to 65%, as confirmed in monitoring visits to service centres in Wakiso and Mbale.

However, rural digital access remained weak in districts like Bundibugyo, system interoperability was inconsistent (e.g., between Ministry of Health and NIRA databases), and arrears management was incomplete in MoPS. The IG's recommendations were not implemented, and conviction rates was at 60% against the target of 79%. These constraints limited the overall transformative effect of digitalisation.

Challenges

i. **Misalignment between Individual and institutional plans**: Only 40% of individual work plans were aligned with institutional strategic plans, undermining accountability and performance tracking.

ii. **Inefficiencies in payroll and pension management**: Budget shortfalls for gratuity payments, unspent payroll balances of Shs 500 million to Shs 2 billion, and weak forecasting created inefficiencies in wage bill management.
iii. **Staffing gaps due to low wage ceilings**: Critical service delivery positions in remote districts remained vacant, limiting institutional effectiveness and widening regional disparities.
iv. **Delays in digital transformation rollout**: Systems such as E-LogRev stalled at procurement stage, particularly in LGs like Mbale City and Isingiro District, slowing automation and efficiency.
v. **Weak local Government financing and reinvestment**: LGs received only 14% of the national budget (target 20%) and reinvested just 13% of local revenue in development activities (target 43%), undermining local service delivery and the Parish Development Model.

Conclusion

In FY 2024/25, the PSTP delivered notable gains in restructuring Government institutions, improving HR management, and enhancing payroll efficiency. Compliance with Service Delivery Standards improved to 72%, and staff training exceeded targets. However, these reforms did not fully translate into better citizen experiences: satisfaction remained at 67% against a 70% target. Delayed digital rollouts, weak fiscal decentralisation, and poor reinvestment of local revenues constrained broader impact.

Recommendations

i. **Enforce work plan alignment**: MoPS, the OPM, and LGs should ensure 100% alignment of individual work plans with institutional strategies, tracked quarterly through the Programme Budgeting System (PBS).
ii. **Strengthen payroll forecasting**: MoFPED and MoPS should introduce a centralised payroll forecasting model, ring-fence gratuity budgets, and reallocate unused wage and pension funds quarterly.
iii. **Address staffing gaps:** MoFPED should establish a wage equalisation fund under the MTEF. MoPS should rationalise structures and prioritise recruitment of critical positions using HCM data.
iv. **Accelerate digital reforms**: NITA-U, the MoICT&NG, and MoLG should fast-track the rollout of systems like E-LogRev, using bundled deployment, with adoption monitored quarterly.
v. **Boost LG financing and reinvestment**: MoFPED should raise LG funding to 17% in FY 2025/26, while LGFC and MoLG should enforce a minimum of 25% reinvestment of local revenue in development, with sanctions for non-compliance.

3.15 Community Mobilisation and Mindset Change Programme

The Community Mobilisation and Mindset Change (CMMC) Programme was allocated a budget of **Shs 69.774 billion** for FY 2024/25. By the end of the financial year, **Shs 69.167 billion** (99%) had been released, of which **Shs 66.601 billion** (96%) was spent as of 30th June 2025. This reflects very good budget performance, with high levels of both release and absorption.

Physical Performance

Community sensitisation and empowerment

By the end of FY 2024/25, the Community Mobilisation and Mindset Change (CMMC) Programme registered good output performance but only fair progress towards intermediate outcomes. Public awareness of Government programmes exceeded the annual target, reaching 72% against 63%, driven by diverse outreach initiatives such as radio talk shows, sensitisation caravans, community theatre, parenting sessions, savings mobilisation drives, and cultural engagement activities. These interventions significantly enhanced access to information, particularly in rural areas where traditional communication channels remain influential.

However, the increased awareness did not translate into proportional behavioural change. Household participation in development initiatives stood at 8% compared to the 20% target, while empowerment of vulnerable groups reached only 6% against the 40% target, largely due to inadequate follow-up, limited mobilisation personnel, and persistent socio-cultural barriers.

Performance varied across districts. In Kiryandongo, targeted Parish Development Model (PDM) campaigns improved financial literacy; in Hoima and Iganga, enhanced SACCO mobilisation raised household savings from 14.97% to 16.36% of GDP. In Sebei, continuous sensitisation contributed to a reduction in Female Genital Mutilation (FGM) cases. In Gulu and Rukiga, citizen forums influenced local Government priorities, resulting in budget allocations for road maintenance and water service expansion. Nonetheless, these gains were uneven across the country, underscoring the need for stronger coordination, consistent follow-up, and context-specific mobilisation strategies to translate awareness into sustained community action.

The sub-programme registered good performance. The Revised National Culture Policy was rolled out to 80 Local Governments, accompanied by the promotion of artisan and cultural tourism activities in Jinja, Kabale, and Rukungiri. Parenting manuals were introduced in nine districts, including Iganga, Rukiga, and Kikuube, and used during community workshops to promote positive parenting and family cohesion.

The Ministry of ICT and National Guidance conducted 284 targeted civic and behavioural change campaigns through 75 media outlets. In Kiryandongo, local FM stations partnered with the programme to broadcast savings mobilisation messages, while mobile cinema vans in other districts raised awareness on the dangers of early marriage. The National Population Council

also reported a 25% increase in family planning uptake in Mbale and improved awareness of the demographic dividend in Mityana.

However, implementation of the 15-Household Model and operations of most Rural Training Centres (RTCs) were constrained by inadequate facilities, with only the Bunyoro RTC in Hoima ready for training delivery.

Strengthening Institutional Support

The sub-programme performance was fair, as outputs remained largely administrative and not fully aligned with NDP III transformation objectives. The Community Development Management Information System (CDMIS) remained non-functional across pilot districts, including Kikuube and Rukiga, undermining data-driven community mobilisation. Additionally, efforts to engage cultural and religious leaders lacked a structured coordination framework, resulting in fragmented and unsustained initiatives.

Civic Education and Mindset Change

The sub-programme registered commendable performance during the year, despite the partial transfer of some interventions to the Office of the President. Civic education campaigns conducted in the Rwenzori and West Nile Regions enhanced public understanding of Government programmes such as the Parish Development Model (PDM) and *Emyooga*, while targeted outreach in Nwoya increased youth SACCO registrations and sensitisation in Kabale encouraged women's groups to formalize savings schemes.

Mindset education pilots at the Islamic University in Uganda, Soroti, Lira, and Busitema Universities stimulated student-led community initiatives, including clean-up exercises, literacy drives, and agricultural demonstrations. In addition, funding amounting to Shs 30 billion was extended to 17 cultural institutions, which also supported youth-focused programmes in districts such as Rukungiri and Hoima, promoting agribusiness training, entrepreneurship, and cultural heritage preservation.

The Equal Opportunities Commission (EOC) advanced inclusive governance through nationwide media campaigns and Equal Opportunity Forums in Iganga and Kabale districts. It responded to emerging gender and equity concerns such as boy-child empowerment, women and girls in science, inclusive education for learners with special needs, and disaster response in Bugisu. The EOC also held engagements with the Inter-Religious Council of Uganda and cultural institutions of Busoga and Buganda to promote inclusion of marginalised groups, strengthen inclusive governance structures, discourage dependence and sectarianism, and advocate against land grabbing and unlawful evictions.

Challenges

i. Persistent misalignment of outputs with transformation objectives, particularly under the Institutional Support Sub-programme, resulted in limited outcome impact despite notable output delivery.
ii. Staffing gaps and inadequate retooling of Community Development Officers (CDOs) at the Local Government level constrained effective community mobilisation, especially in under-staffed districts such as Kikuube and Nwoya.
iii. Fragmented coordination among implementing agencies led to duplication of activities and inefficient resource use, as observed in overlapping mobilisation initiatives between MoICT&NG and cultural institutions in Kabale and Iganga.
iv. Low adoption and utilisation of the Community Development Management Information System (CDMIS) hindered real-time monitoring and evidence-based decision-making in districts such as Rukiga and Kiryandongo.

Conclusion

The CMMC Programme has achieved tangible successes in raising public awareness, increasing household savings mobilisation, and reducing harmful cultural practices in targeted areas. District-level examples such as budget influence in Hoima, savings growth in Rukungiri, early marriage reduction, and parenting programme demonstrate its potential when interventions are well-designed and adequately resourced. However, the programme continues to face challenges in turning awareness into sustained behavioural change and broad-based empowerment. Achieving NDP III ambitions will require investment in frontline mobilisation capacity, operationalisation of digital platforms, such as the CDMIS, and stronger coordination among implementing partners to ensure that outputs drive measurable and lasting transformation.

Recommendation

i. The Ministry of Gender, Labour and Social Development should undertake a national capacity assessment and retool Community Development Officers and parish chiefs to strengthen civic education delivery and integrating digital mobilisation tools.
ii. The Office of the Prime Minister should operationalise a National Coordination Mechanism to streamline delivery and reporting between Ministries, Departments, Agencies, Local Governments, and cultural institutions, ensuring efficient use of resources and avoiding duplication in districts such as Kabale, Iganga, and Kikuube.
iii. The National Planning Authority should enforce results-based budgeting to ensure that programme outputs directly contribute to measurable transformation outcomes, particularly in community participation and empowerment.
iv. Local Governments should be supported to deploy digital civic engagement platforms and fully operationalise the Community Development Management Information System across all districts, including Rukiga, Rukungiri, Kiryandongo, and Maracha, to enhance mobilisation, monitoring, and reporting efficiency.

3.16 Governance and Security Programme

The total budget for FY 2024/25 for the Governance and Security Programme (excluding Arrears) is **Shs.8,943.046 billion**, of which **Shs.2,329.496 billion** is for wage, **Shs.3,916.638 billion** is for non-wage recurrent, **Shs.2,409.414 billion** is for GoU development and **Shs.253.250 billion** for external financing. The programme was also allocated **Shs.73.262 billion** for arrears mainly under classified expenditure, court awards and other domestic arrears. The programme was also allocated a supplementary budget under State House, MoDVA and the Uganda Police, respectively, to cover budget shortfalls and critical obligations. By the end of June 2025, 109.7% of the overall budget was released to the programme and the funds absorption performance was at 99.20% of the released budget.

Physical Performance
Security

In FY 2024/265, MoDVA prioritised strengthening the capability and capacity of security forces, provision of logistical support to UPDF troops, improvement of welfare of UPDF officers and militants, infrastructure development, and enhancement of the production activities through the commercial arms of MoDVA/UPDF through National Enterprise Corporation (NEC). Additionally, MoDVA has continued to engage in the food and feed programme that aims at providing food security to the population.

Police presence is existent in 1,231 (56%) out of 2,190 sub-counties countrywide. Community policing has also been vital and has created a responsive citizenry. The crime rate per 100,000 persons reduced from 524 in FY 2020/21 to 476 in FY 2024/25, and this is attributed to, among other factors, the enrolled CCTV system which monitored and observed 16,663 operational and intelligence-led incidents in real time. Since its inception in 2019, the CCTV system has monitored 28,621 incidents.

A total of over 40,549 personnel were trained across the security agencies in various fields, thus enhancing the capacity and capability of the personnel to match the ever-evolving security environment, and to manage emergencies and threats. The trainings were conducted in the country and abroad in various disciplines. These include courses conducted in respect to regular staff training, recruits' mandatory training, continuous professional development, specialised courses, and finance and administration. The trainings were conducted at recognised national and specialised establishments of the UPDF, Uganda Prisons Service (UPS), and Uganda Police Force (UPF).

The Ministry of Internal Affairs (MIA) coordinated internal security efforts through conducting 94 alert inspections and 38 security assessments, and trained 15 private security organisations on counter-terrorism measures, and conducted 23 inspections of commercial explosives magazines and quarrie

Additionally, NEC has continued with the establishment of a grain storage, milling and supply grain facility at Kigumba. As at end of Quarter 4, all primary and auxiliary civil works were successfully completed, and drainage, access roads, external paving, and stormwater

management systems were finalised. Installation of all machinery and mechanical systems for grain cleaning, milling, sieving, and packaging were also completed. Test running and calibration of milling equipment were conducted to validate operational performance. A dedicated on-site fuel depot was constructed and commissioned. In addition, construction of the powerhouse was completed.

NEC UZIMA Limited produced 3,173,264.7 litres of water, against a target of 3,645,360 litres (87.1 % performance). This served Uganda Martyrs Hospital, Uganda Electricity and Transmission Company (UETCL), Parliament, Mulago Specialised Women and Neonatal Hospital, and National Identification Registration Authority (NIRA).

Formal education was provided to 53,114 soldiers' and civilians' children in UPDF schools. In these schools, 72.5% of PLE pupils scored in Division II or better, with a notable 18% year-on-year improvement in Science and Mathematics scores.

In the reporting period, MoDVA constructed 54 housing units at Bombo, Muhooti and Lugazi, and the UPDF also completed the renovation of Namboole National Stadium, which hosted the African Cup of Nations (CHAN, 2024).

Public policy management

In a bid to strengthen security monitoring systems, the Office of the President produced reports on the implementation of the Intelligence Transport Monitoring System (ITMS) Project. These meetings and reports concerned the proposed amendment of the cost of the ICT equipment; the roll-out of the project; and issues raised by KACITA in a 30th January 2025 petition.

The Government Analytical Laboratory (GAL) trained over 300 Scene of Crime Officers (SOCCOS) in different police regions to equip them with updated skills to identify, collect, and preserve evidence from crime scenes, hence minimising contamination and maximising usefulness in investigations following the GAL exhibit collection and maintenance guidelines.

Presidential initiatives

Eleven (11) model villages were supported with agricultural inputs and training, i.e., Mwanyangiri, Aketa, Apopong, Mbulamuti, Kasokwe, Bukono, Kagongi, Rwentondo, Jikwa, Lima, and Madi-Okollo. State House purchased appropriate rural technology equipment and installed biogas for five best-performing farmers in selected model villages.

Over 10,707 youth were enrolled in the Kampala Skilling Programme, and 4,201 youth completed the training.

Over 9,060 youth were enrolled in the 19 industrial hubs and 4,560 youth completed their training courses. In addition, 171 SACCOs have been formed at the administrative units of industrial hubs, 10 demonstration farms have been established at 10 industrial hubs, and silo bases have been constructed in the Mubende and Masindi hubs. The Kamumu Leather Tannery is operational.

Business Registration Services

In FY 2024/25, the URSB registered 28,408 new companies, 21,695 business names, 123,971 legal documents, 18,394 security interest notices, 1,476 local trademarks, 1,662 foreign trademarks, 1,685 foreign trademark renewals, 552 local trademark renewals, 117 copyrights, and 196 declarations of solvency. It held 75 business clinics across the country and conducted nine (9) communication and sensitisation campaigns on local radio stations.

The URSB collected NTR for FY 2024/25, totalling **Shs 71.808 billion**, representing a 9.5% increase compared to the NTR collected in FY 2023/24.

Enhanced Infrastructure and Access to Justice

By the end of June 2025, the Ministry of Justice and Constitutional Affairs (MoJCA) represented Government in 1,497 cases in courts, tribunals and commissions. Of these, 432 cases were won, saving Government **Shs 567,895 billion**, while 132 cases, worth Shs 90.379 billion, were lost. Government was defended in 22 East African Court of Justice (EACJ) matters, 267 constitutional petitions, appeals and applications, and 209 human rights cases. A total of 4,854 contracts were received for review to ascertain legality and enforceability. In addition, 606 requests for legal opinions received and responded to. Relatedly, 1,539 agreements and MOUs were received from line Ministries for review during the reporting period. A total of 42 Bills, 161 Statutory Instruments and 34 Legal Notices were drafted and returned to MDAs, and 26 Bills and 51 assented to. Finally, Acts were authorised for publication.

The Ministry of Local Government (MoLG) conducted trainings for Local Council courts and the Refugee Welfare Committees in the refugee-hosting districts, and among them were Madi-Okollo, Yumbe, Adjumani, Koboko, Lamwo, Koboko, Obongi, Terego, Kalaki, and Kabale. The trainings conducted covered all three levels, i.e., Local Council I, II, and III – the village, parish and sub-county. A total of 5,409 Local Council court members were trained.

The Uganda Law Reform Commission prepared the *7th Revised Edition of Principal Laws* (2023); developed guides on child labour, labour disputes, and succession; prepared RIA for the Community Service Act amendment; developed parole regulations; translated the Constitution of Uganda into 11 local languages and the Local Council Court Act into 20 languages; disseminated a user guide on the amended Succession Act; reviewed nine key laws, including the Succession Act, the Copyright and Neighbouring Rights Act, and the Explosives Act, among others.

The Ministry of Justice and Constitutional Affairs (MoJCA)is spearheading the development of JLOS House, which is at 95% completion. Phase 2 involves the construction of a 10-storey building that will house the police headquarters, at a cost of **Shs 77.5 billion**, and is currently 40% complete. Phase 3, which will include the construction of the High Court and a parking deck, is scheduled to begin in 2025 and be completed by the end of 2026. The Soroti Regional

Office is currently undergoing construction; the project is at 55% completion and is expected to be completed in May 2026.

MoJCA contributed towards the prevention of congestion in prisons by diverting petty offenders from custodial to non-custodial sentences. A total of 2,509 petty offenders were diverted from imprisonment through Community Service Orders Management. MoJCA issued 1199 NGO permits (594 new, 589 renewals, 8 reviews and 11 replacements), updated the NGO database (as per 30th June 2025, there were 6,955 NGOs on the Updated National NGO Register (UNNR)). To automate the NGO Bureau services, the development of a comprehensive NGO Bureau Automation plan was completed. In a bid to enhance compliance by NGOs with the regulatory framework, 783 NGOs were monitored off-site, 52 monitored on-site and 20 NGOs were inspected. Conventional travel documents numbering 6,052 were issued to deserving refugees to travel to a third country.

In the reporting period, 2,570, housing unit projects were handled; of these projects, 554 were completed, while 2,016 are ongoing. These projects will improve the quality of life of personnel, hence improving their efficiency and effectiveness at work. MoDVA constructed housing units at Bombo, Muhooti and Lugazi, while the UPF completed construction of 100 modular prefabricated housing units, 24 housing units at Kiira, and 121 housing units at selected sub-counties in the Greater Masaka Region. The UPF also embarked on the construction of 1,200 (20 blocks of 60 units each) staff housing apartments at Naguru, at 25% level of progress, and continued construction of 120 staff apartments at Entebbe and 120 staff apartments at Jinja, both of which are at 27% level of progress. The Uganda Prisons Service (UPS) Housing Project is expected to increase the proportion of staff properly housed to 50.2%. The UPS is constructing 864 staff houses, which are at different levels, and also completed the construction of the staff clinic at the Luzira complex, aimed at strengthening the staff patient referral system.

Under UPS production: a) Maize seed: Produced 1,733.29 MT of maize seed worth 10.340 billion from 1,419.3 acres; 154 MT of soya bean from 463 acres and 1,360 MT of sunflower worth 3.57 billion from 4,563 acres; b) Cotton production: Produced 2,784 bales of cotton worth Shs 4.176 billion, harvested from 5,007 acres; and c) Commercial grain: Produced 25,329 MT of maize grain for feeding prisoners worth 25.329 billion from 13,386 acres.

ODPP had a case load of 174,868 cases, including those brought forward from FY 2023/24. Of these, 151,940 were newly registered cases, processed a total of 158,693 cases, and closed the year with 16,175 still pending. The 151,940 newly registered cases countrywide during FY 2024/25 were associated with a total of 170,684 suspects (149,110 adult males, 15,694 adult females, 4,239 juvenile boys, 862 juvenile girls, and 779 PWDs of whom 646 were male PWDs and 133 female PWDs). Out of these, 95,720 cases were sanctioned for court, 42,292 cases were sent for further investigations, while 20,681 case files were closed. 334,255 cases under hearing, 33,925 convicted, 2069 acquitted, 13,786 cases dismissed, and 786 cases withdrawn.

During the FY, a total of 16,091 gender-related cases were registered. These were associated with a total of 14,359 suspects (12,681 adult males, 464 adult females, 786 juvenile boys, 265 juvenile girls, and 163 PWDs of whom 132 were males, and 31 females). Out of these, 8,091 cases were sanctioned, 3,799 newly registered cases were referred back for further investigations, 2,223 cases were committed to the High Court, and 1,978 files were closed for want of evidence.

Renovations of Resident State Attorney Offices at Amuru, Dokolo, Moyo, Pader, Hoima and Lira were completed, as well as renovation of the State Attorney's residence in Kalangala. Relatedly, the construction of the Regional Office in Moroto, Resident State Attorney Offices at Mayuge, Oyam, Amuria and Bugiri were ongoing.

The Uganda Prisons Service (UPS) completed the installation of two grain storage facilities, which can store over 3,000 MT of grain, which contributes to seed preservation and multiplication, while the Uganda People's Defence Forces (UPDF) constructed a grain milling facility.

Observance of human rights and fight against corruption promoted

Over the period, the programme recovered Shs 64.9 billion, obtained an average conviction rate of 41%, and registered an average implementation rate of 36% with regard to anti-corruption and accountability recommendations. Over the NDP III period, the average ODPP conviction rate in corruption cases was 81%. The programme's intermediate results on accountability demonstrated enhanced asset recovery by the Inspectorate of Government (IG), growing over five-fold from Shs 2.2 billion to Shs 12.2 billion at the end of NDP III.

The Uganda Human Rights Commission resolved 356 cases (155 via tribunals, 201 via ADR); retained the 'A' status by Global Alliance for National Human Rights Institutions; reviewed over 12 key Bills for Human Rights (HR) compliance; rolled out HRBA in MDAs/LGs; published five research reports on human rights concerns (e.g., defilement, statelessness, refugees); redressed 512 human rights violation victims; disseminated Chapter 4 in 38 languages; studied the status of children born of war; and conducted mass human rights awareness through media and community engagements.

During the reporting period, the UHRC registered a 65% case clearance rate and the Equal Opportunities Commission (EOC) achieved a 61% for FY 2024/25. The UHRC disposal rate was 17%, against the annual target of 4.2% for FY 2024/25. Overall, the national human rights institutions received 3,769 complaints, registered 646 complaints, and disposed of a total of 407 complaints. These accountability efforts continue to eliminate impunity, encourage positive behaviour in compliance with the Bill of Rights, and ensure that victims are duly compensated for the wrongs suffered.

Commercial justice and the environment for competitiveness

National Citizenship and Immigration Control (NCIC) maintained the e-passport system at the four (04) passport centres of Gulu, Mbarara, Jinja and Mbale, with a total of 36,644 Ugandans

accessing their passports at these regional passport centres. A total of 4,693,186 travellers, comprised of 2,331,102 arrivals and 2,362,084 departures, with 100% clearance of travellers. Conducted 1,030 snap checks, whereby 2,585 illegal immigrants were intercepted and some forwarded to courts for prosecution, and others returned to their countries. Ninety-one percent of eligible applicants were issued with passports (241,273 citizens issued with passports out of 264,905 applicants); and 100% of applicants for immigration facilities were processed for issuance (work permit – 15,004; dependent passes –7,044; student passes–15,567; certificate of residence– 629 granted).

To enhance operational efficiency, the ODPP also procured various Information and Communication Technology (ICT) equipment, which contributed to the increased usage of the Prosecutor Case Management Information System (PROCAMIS), rising from 26% in FY 2020/21 to 40%. In addition, the rollout of PROCAMIS and automated 47 offices against a target of 148, representing 32% coverage.

In terms of registration of persons, NIRA's average time to produce a National ID Card was 30 days during the reporting year, compared to the targeted 14 days. NIRA registered and assigned NINs to 723,991 citizens, against a set target of 597,168, representing 121% achievement. It issued National ID Cards to 18,394,161 citizens above 16 years of age. It registered 273,994 births, against the annual target of 300,000 births, during the reporting period. There were 21,133 and 46,553 deaths registered and notifications, respectively, during the reporting period. This improvement was attributed to increased demand for National IDs as a requirement for accessing services, together with the registration initiatives introduced by NIRA.

Disaster preparedness and refugee management

The OPM registered 89,522 refugees, including 25,937 new births. It issued 118,88 refugees with Refugee Identity Cards. It demarcated 13,255 plots for sustainable shelter for refugees. It supported 3,115 refugees for resettlement in other countries. It also supported 26,607 refugees to obtain civil (marriage registration) status. It admitted, registered and settled 63,327 new refugees (31,030 male and 32,297 female) through prima-facie procedures in Uganda. It processed 515 asylum seekers' applications for status determination by the Refugee Eligibility Committee (REC), where 420 were granted asylum, while 93 were denied asylum, 2 were deferred and two were dismissed.

Challenges

i. Increased security threats, including cattle rustling in the Karamoja region. Insecurity in Eastern Democratic Republic of the Congo (DRC). Limited cross-border collaborations at Ishasha, Bunagana, Butogota and Busanza borders with DRC due to insecurity, which led to isolated threats to security installations.

ii. There were backlogs in ID production and issuance, particularly due to the delay in the mass renewal of National IDs.

iii. Budgetary constraints and delay in approval of MoU affected the implementation of the Vote service delivery programmes.

iv. Increased prisoner population and congestion in prisons: The current prison carrying capacity should cater for a daily average of 22,419 prisoners, while the population is 79,804 inmates (end of June 2025), exceeding the holding capacity by 57,385 inmates – meaning occupancy is 356%. The increasing prisoner population puts pressure on housing, sanitation, healthcare, feeding, uniforms, staff numbers, and delivery of prisoners to courts.

v. Staff accommodation for UPF and UPS: A total of 6,962 and 31,688 staff of Prisons and Police, respectively, lack housing. Owing to gross inadequacy of accommodation facilities, many officers have been forced to stay in improvised houses and others forced to rent outside the barracks, thus making mobilisation exceedingly difficult.

vi. Delays in the administration of justice as most prisoners and staff have to move a daily average of 7,724 km across the country to access justice amidst high fuel prices and an old vehicle fleet, leading to high costs of fuel and vehicle maintenance. The delayed production of prisoners at 246 courts has delayed access to justice, with the remand proportion standing at 47.3%.

vii. Inherent creation of arrears, mainly under MoDVA, UPF, UPS and unpaid court awards arrears. This is mainly attributed to under-budgeting for key expenditure items, such as utilities, feeding, and fuel for operations, and continuous accrual of interest on the court awards.

Recommendations

i. Over the medium term, Government should prioritise the welfare of the police and other security forces; for instance, prioritise pay, feeding and housing, among others, as Government's deliberate affirmative intervention.

ii. The stock of domestic arrears accrued by most of the Votes, especially the Police, Prisons, MoJCA, and NIRA, continues to rise every year despite the efforts put in place by Government to reduce them. There is need to holistically address the issues of under-budgeting for the Votes with a view to reducing the stock of domestic arrears.

iii. There is need for improved coordination between MoJCA and MDAs in handling court cases, including adequate notices and timely filing of information and instruction of state attorneys. In addition, the sector should prioritise what will improve the position of Government in courts of law, in order to minimise losses and fines against Government.

3.17 Regional Development Programme

The programme's total budget for FY 2024/25 (excluding arrears) was Shs 1,454.197 billion, of which **Shs 457.863 billion** was wage, **Shs 685.945 billion** was non-wage recurrent, **Shs 129.068 billion** was GoU development, and **Shs 181.321 billion** was external financing. By the end of June 2025, 104.3% (**Shs 1,516.024 billion**) of the overall budget had been released to the programme and the funds absorption performance was at 93.3% of the released budget.

Physical Performance

Regional development programmes are crucial for enhancing the effectiveness of decentralisation and minimising regional imbalances and inequities. By focusing on region-specific needs and priorities, these programmes address disparities in infrastructure, education, healthcare, and economic opportunities. They strengthen local governance by empowering local authorities to develop and implement development plans, bringing services closer to the people, increasing accountability, and overall national cohesion. They foster optimal use of resources by tapping into local potential. Below are highlights of achievements under each of the four broad objectives.

Enhancing and sustaining local economic development

Under this objective, water infrastructure in six districts under the Local Economic Growth Support (LEGS) Projects was constructed, designs for 154 km of Community Access Roads (CARs) to be rehabilitated under Rural Development and Food Security in Northern Uganda (RUDSEC) was completed, and the programme supported women and youth graduates from the 19 Presidential Hubs to form SACCOs.

The programme finalised the Annual Parish Development Model (PDM) Status Report and conducted one regional engagement with LG Auditors and Planners on PDM implementation; and undertook support supervision of the LEGS Project/other development projects to assess their impact on PDM implementation in four LGs of Katakwi, Kumi, Kibuku, and Soroti (Soroti Fruit Factory); and held four regional workshops/*barazas* to evaluate the PDM implementation. Outcomes of these engagements informed the strategic direction for the effectiveness of PDM.

The programme also completed the rehabilitation of 2 km of Mahumbuli-Kabanda CARs and 5.4 km of Buheesi Mitandi CAR in Bunyangabu District; 7 km of the Rwebisengo-Kijura CAR in Ntoroko; 12.7 km of Mugusu-Kiraro CAR in Kabarole; and 3.1 km of the extension of the Harugogo-Kijura main road section.

In addition, under the programme, 25 tons of improved seed (maize, bean, soya bean, sunflower, green gram and sesame) were distributed to 20 cooperatives in the districts of Bunyangabu, Kyenjojo, Ntoroko, Alebtong, Kibuuku, Katakwi, Ntoroko and Gomba; identification of the 13 markets to be constructed in 9 districts under the RUDSEC Project was completed; and technical support supervision and inspection to ascertain the functionality of Agro-Processing Facilities (APFs) in 18 LGs were undertaken.

Enhancing local revenue generation

Eleven (11) urban councils of Busia MC, Palisa TC, Kaliro TC, Nansana MC, Kira MC, Lugazi MC, Apac MC, Tororo MC, Sheema MC, Buganikerere and Kanara TC were supported in preparing annual financial statements with detailed information on sources of locally raised revenue. This aimed at improving transparency and accountability for local revenues.

Local Government Finance Commission (LGFC) facilitated conditional grant negotiations between Local Governments (LGs) and nine Line Ministries for FY 2025/26. A total of 172 issues were deliberated upon across sectors including Education, Health, Works, Water, Agriculture, Gender, Lands, Trade, and Tourism. From these discussions, 542 undertakings were agreed upon among the negotiating parties, i.e., Line Ministries, Local Governments, and cross-cutting MDAs. It was established during the Midterm Review that 368 undertakings (68%) were implemented, and 174 undertakings (32%) remained unimplemented due to various constraints. The review informed the planning and negotiation framework for FY 2026/27 and highlighted the need for strengthened coordination and resource alignment to improve the implementation of agreed actions. The key issues identified included administrative barriers (e.g., town council creation, land lease bans), uncollected royalties (e.g., forestry and minerals), and low budget allocations. As part of its strategic efforts to support Local Governments in enhancing their own-source revenues, the LGFC focused on deepening understanding and building capacity around Local Economic Development (LED) as a tool for sustainable local revenue enhancement. The engagements also highlighted the need for counsellor induction, better collaboration between technical and political leaders, and the development of a policy brief to inform Government on LED implementation challenges and opportunities. These were carried out in 12 LGs.

Six (6) Local Governments, including Kiryandongo, Luuka, Butaleja, Oyam, Sheema, and Kyotera, were engaged in awareness sessions on key legal provisions for local revenue enforcement to enhance compliance and strengthen enforcement capacity.

Strengthening affirmative action in lagging regions and refugee-hosting communities

The programme held consultative meetings to update and develop a National Risk Atlas, conducted two (2) quarterly coordination meetings with the United Nations High Commissioner for Refugees (UNHCR) and the Department of Refugees on the reduced funding from donors for refugees' response programmes, and conducted one (1) quarterly monitoring/supervision of the implementation of the presidential directive on the resettlement of people at high risk in the Elgon Region.

During the period under review, the programme produced three (3) monthly national disaster monitoring, early warning and disaster reports, which informed the next action plans for disaster management and presented the Draft NDPM Bill principles to Cabinet for the second reading.

Identification and registration of 256 households at risk of landslides in the Elgon sub-region were facilitated, and 7,209 households were supported (out of which 70% are women and

children) with 183,000 kg of maize flour and 90,000 kg of beans for relief distribution. Under the programme, 90,000 kg of maize flour and 39,000 kg of beans were distributed in Bulambuli District, and a security and retaining wall constructed around the 4-acre Namanve Relief Stores land.

Also, 515 asylum seekers application for status determination by Refugee Eligibility Committee (REC) were processed, where 420 were granted asylum while 93 were denied asylum, two were deferred and two dismissed. Furthermore, 63,327 new refugees (31,030 male and 32,297 female) were admitted, registered and settled through prima-facie procedures in Uganda, and eviction of the non-compliant migrant cattle keepers in Northern Uganda commenced.

Strengthening policy, legal, institutional coordination, and regulatory frameworks
Under this objective, the Fourth National Development Plan (NDP IV) was finalised, launched by H.E. the President, and technical support was provided to all MDAs and LGs to prepare their development plans. By end of the reporting period, 63 MDAs and 134 LGs had submitted their plans for review and certification. Out of the submitted plans, 22 MDA and 24 LG plans were certified.

The programme supported the preparation of 16 pre-feasibility and feasibility studies. Out of the 16, eight feasibilities studies were completed, two were at feasibility stage, three were at prefeasibility, and another three were at concept level.

Population profiles for 17 Local Governments developed, and guidelines for physical planning appeals and change of land use prepared and reviewed. Additionally, the programme held the 14th NDPF on Leveraging Culture and Creative Arts Industry for employment and domestic revenue mobilisation in Uganda.

During the period under review, continuous desk reviews and follow-ups for technical support and guidance were provided to 10 cities and 28 municipalities to develop ordinances and by-laws on waste management, and Law Committees formed for each Local Government; five District Service Commissions (DSCs) were supported with the functionality of their District Service Commissions. New DSCs were also inducted into their roles; and Public Procurement Compliance inspections were conducted in selected Local Governments.

Eleven (11) Internal Audit Units were trained in internal control procedures and systems in 11 urban councils. Investigations into mismanagement of local revenues were conducted in five urban councils of Buganikerere TC, Kanara TC, Tororo MC, Makindye Ssabagabo MC, and Bunamwaya Division. In Makindye Ssabagabo, the kangaroo bank accounts that were negligently not closed by municipal staff were closed as a result of the investigation, and the funds that were held in the irregular accounts were transferred to the general collection account.

Technical support and guidance on Human Resource Policies, Plans and Regulations were undertaken in numerous District Local Governments.

Conflicts and disputes between elected and appointed officials were resolved in 2 Local Governments of Hoima City and Kapchorwa District through facilitating structured mediation processes, identifying and addressing underlying causes of tension . The mediation sessions involved inclusive dialogue and joint problem-solving forums which aimed at reducing administrative friction, improving communication channels, and strengthening teamwork.

Four (4) Cabinet Memos were prepared on: i) Gazetting of 9 Town Councils to host district headquarters; ii) Remuneration of LG political leaders; iii) Amendment of the LG Act, Cap. 138; iv) Operationalisation of Tororo City, Mukuju, Mulanda and Kisoko Districts; preparation of two Policy Briefs on decentralisation and the amendment of the LG Act, Cap. 138.

Challenges

Numerous conflicts between political leaders and technical staff in Local Governments persisted; and understaffing in Local Governments has not yet been addressed.

Recommendation

The programme should continuously undertake the induction of Local Government Councils to ensure countrywide coverage; and undertake a study to establish staffing gaps in Local Governments to devise mechanisms of recruitment in a phased manner to fill critical positions.

3.18 Development Plan Implementation Programme

The programme approved budget for FY 2024/25 was **Shs 36,138.042 billion**. Of this amount, **Shs 6.654 billion** was from external sources to various projects. Of the total programme budget, **Shs 34,589.16 billion** was earmarked for interest payments, while **Shs 1,548.88 billion** was allocated to MDAs.

Physical Performance

Budget preparation, execution and monitoring

Under the objective of strengthening capacity for development planning, the percentage of the budget released against originally approved budget was 106%, out of a target of 100%, which is attributed to supplementary budgets. The supplementary budget expenditure as a percentage of the initial approved budget was 9.1, against a target of <3, budget alignment and compliance with the NDP was 65.1%, against a target of 100%. The Budget Speech for FY 2025/26 was drafted and delivered on the floor of Parliament on Thursday 12th June 2025, in line with the statutory deadlines. A Press release on the budget performance and expenditure limits was held quarterly, and the Budget was uploaded on the MoFPED website. These interventions translated into a transparency index of 90%, against a target of 90%.

Under the outcome of increased budget self-sufficiency, the revenue-to-GDP ratio was 14.2, against a target of 15.43, domestic revenue as a percentage of GDP was 13.2, against a target of 13.8, the national budget compliance with gender and equity was 68%, against a target of 90, and the percentage of internal audit recommendations implemented was 63.5, against a target of 100%.

Under effective public investment management, the share of PIP projects implemented on time was 67%, against a target of 100% because of the slow procurement process, while the share of PIP projects implemented within the approved budget was 78%, against a target of 90%.

Under sustainable economic growth and stability, the GDP growth rate was 6.3, against a target of 7.2, the nominal debt-to-GDP ratio was 51.3, against a target of 46.7, and the external resource envelope as a percentage of the national budget was 18.5%, against a target of 12%.

Development planning

NDP IV was finalised, launched by H.E. the President of the Republic of Uganda and disseminated. The NPA provided technical support to all MDAs and Local Governments to prepare their development plans, held the 14th NDPF on Leveraging Culture and the Creative Arts Industry for employment and domestic revenue mobilisation in Uganda, and contracted ROKO Construction Company to commence the construction of Planning House.

Revenue collection and administration

During FY 2024/25, URA collected net revenues (gross revenue less refunds) of **Shs 31,634.03 billion**, against a target of **Shs 31,369.16 billion**, registering a performance of 100.84%. A

substantial growth of **Shs 4,332.81 billion** (15.87%) was realised, compared to FY 2023/24. Domestic revenue collections grew by 15.60%, while customs collections grew by 16.24%.

Enforcement and compliance in the gaming industry culminated in a tax revenue of **Shs 306.171 billion** and non-tax revenue of **Shs 8.791 billion**. Three regional centres were opened to be operational during the first quarter of FY 2025/2026. This is aimed at scaling up the Board's services to contribute towards domestic revenue collection for the country. Compliance visits have been conducted to protect the population from exploitation and tax evasion by the gaming operators. The National Central Electronic Monitoring System (NCEMS) has been implemented and operationalised, and is assisting the Board and the entire Government in tracking and regulating gaming activities, enforcing standards and safeguarding Ugandans from exploitation and the adverse effects of gambling. The Gaming Fees Act of 2024 was formulated, it gazetted and came into force on 8th November 2024. In addition, the Complaints Handling Manual and the Compliance Enforcement Policy were developed and approved.

Research, evaluation and statistics

The National Population and Housing Census 2024 County and Sub-county Profiles were finalised and disseminated. The Uganda National Household Survey 2023/2024 Report was also finalised and disseminated. Preparations of the Uganda Aquaculture Census 2025 was commenced and data collection was successfully carried out in May and June 2025. The 2025 Baseline Education Census (BEC) was commenced, and the maiden Civil Registration and Vital Statistics Report was produced. Four rounds of data collection of the Quarterly Labour Market Survey was completed. The Central Government tables and bulletin for Government Finance Statistics (GFS) 2023/24 were produced. The harmonised Consumer Price Index (CPI) quarterly report was compiled and submitted to the East African Community (EAC) and COMESA. The National Standards Indicator online dissemination platform was developed and updated. The preliminary GDP for FY 2024/25 was released. Routine statistical index surveys were conducted, including the Monthly Consumer Price Index (CPI) Survey; the Monthly Producer Price Index Survey for Manufacturing and Utilities (PPI-M&U); the Quarterly Producer Price Index Survey for Hotels and Restaurants (PPI-H&R); the Monthly Construction Input Price Index (CIPI) Survey; the Quarterly Import Price Index Survey; the Residential Property Price Survey; and the Index of Production (IOP) Survey. The Census of Business Establishment Report was finalised; and so was the Annual Agriculture Survey 2021/22 Report.

3.19 Administration of Justice Programme

The approved budget for the Administration of Justice Programme for FY 2024/25 was **Shs 481.517 billion**, which was an increase of 11.35% from the **Shs 432.445 billion** in FY 2023/24. The increment was mainly attributed to additional funding for operations of the Judiciary. By the end of FY2024/25, **Shs 480.61billion** (99.77% of the approved budget) had been released, of which 96.63% was spent. The non-absorption of 3.37% of the programme released budget was as a result of the pending recruitment of staff, delayed submission of required documents by pensioners, and the pending submission of certificates of completion for ongoing construction works.

A total of 100% of the recurrent budget was released by the end of June 2025, and 99.8% was spent. The low absorption for wage was attributed to the pending recruitment of additional staff and salary enhancement for non-judicial officers under the Judiciary which Cabinet did not approve. On the other hand, there was high performance of the non-wage recurrent budget as the absorption was 99.8% of the released funds.

Physical Performance

The construction of the Supreme Court and Court of Appeal buildings were completed and commissioned by H.E, the President in April 2024. The construction of other courts was as follows:

i. Soroti High Court was at 85%, Rukungiri was completed and handed over, and Tororo High Court was at roofing stage by end of June 2025'
ii. Construction of Chief Magistrate's Courts was as follows: Alebtong was at 65%, Lyantonde was at 80% stage, and Budaka was completed and handed over.
iii. Construction of Magistrate Grade I Courts was as follows: Abim was at 65% completion, Patongo was completed and handed over, and Karenga G1 Court building at 95% completion.
iv. Draft regulations governing the Judicial Service approved and development of the draft Regulations governing the operations of the Judicial Training Institute are in progress.
v. Draft Regulations under the AJA 2020 governing the operations of the Judicial Training Institute were developed and passed. Draft Constitution (Creation of Court of Appeal Circuits) (Practice) Directions, 2025, developed under the framework of the AJA 2020, were considered by the Judicial Council and the Administration of the Judiciary (Judiciary Service) Regulations, 2025 was considered and passed.
vi. Draft of the Judiciary Service Human Resource Policies, Procedures and Manual is in place, pending approval by the Human Capital Development, Gender and Equity Mainstreaming Committee.
vii. The Electronic Court Case Management Information System (ECCMIS) rolled out to 18 Court Stations (Criminal Division, Family Division, ICD, Jinja HCT, Buganda Road CM, Standards, Utilities and Wildlife CM, Makindye CM, Nakawa CM, Natete/Rubaga CM, LDC CM, Entebbe CM Court, Nabweru CM Court, Kira CM Court, and Luweero CM Court, Jinja CM Court, Bugembe G1, Kakira G1 and Kagoma G1).

Civil and Criminal Justice

The Administration of Justice institutions disposed of 260,307 cases as follows: Judiciary (259,331), Judicial Service Commission (117), Tax Appeals Tribunal (266) and Industrial Court (593), against the annual target of 250,780 cases of various categories.

The Uganda Police Force registered a total of 208,364 cases, submitted to the ODPP 110,020 cases, took to court 67,790 cases (8,200 convictions, 46 acquittals and 298 dismissals) and closed FY 2025/2024 with 59,265 pending cases under inquiry.

There was also steady growth in case filing over the last three financial years due to improved sensitisation on court services, expansion of administration of justice service points, especially magistrate's courts, and automation of court filing processes through ECCMIS.

The ODPP had a case load of 174,868, of which 151,940 were newly registered cases. A total of 158,693 cases were processed and 16,175 were pending by the close of FY2024/25. Of the newly registered cases, 95,720 were sanctioned for court, 42,292 were sent for further investigations, while 20,681 case files closed. Under hearing were 334,255 cases, 33,925 cases were convicted, 2,069 acquitted, 13,786 dismissed, and 786 withdrawn.

The Judicial Service Commission Disciplinary Committee considered 232 complaints, of which 216 were against Judicial Officers and 16 against other staff of the Judiciary. A total of 117 complaints were disposed of, out of which two (2) Judicial Officers and seven (7) other staff of the Judiciary were dismissed from service, two (2) retired in the public interest and one (1) handed a severe reprimand. In addition, two (2) compensation orders were issued, while 103 complaints were closed.

The ODPP issued 86 administrative sanctions against public officials charged with violating the Corrupt Practices Act, surpassing the annual target of 80.

Legal Education, Training and Research

The Law Development Centre Legal Aid Clinic (LDC-LAC) handled a total of 15,447 (412 cases handled by students and 15,035 cases by advocates in the respective LDC-LAC stations across the country), through legal advice, counselling, court representation, coaching for self-representation, and Alternative Dispute Resolution (ADR). A total of 706 clients were persons with special needs.

The LDC-LAC also provided legal and counselling services to 489 children (377 boys and 112 girls) in conflict with the law. Child offenders from various police stations were also diverted from the formal justice system to the communities, with 833 child offenders (623 boys and 210 girls) benefitting. All cases were successfully diverted with no cases ongoing.

Between FY 2020/21 and FY 2023/24, the total population in remand homes ranged from 972 to 1,737. In FY 2024/25, the numbers rose to 5,426 juveniles, representing the highest recorded during the NDP III period. This increase was more evident in the remand homes at

Naguru (1,169), Fort Portal (628), Gulu (588), Arua (351), and the Kampiringisa National Rehabilitation Centre (1,363).

The Judicial Service Commission conducted 38 anti-corruption radio talk shows, six (6) anti-corruption *barazas* and nine (9) anti-corruption workshops for Local Governments to educate the public and duty-bearers about their legal rights, the negative impact of corruption, and the available channels for lodging complaints.

The handling and prosecution of appeals and miscellaneous applications in corruption and money laundering cases resulted in a conviction rate of 90%, with cash recoveries amounting to Shs 4.94 billion.

Challenges

i. Gaps in the existing legal framework. The Tax Appeals Tribunal (TAT) Act does not provide for small claims. Tax appeals below Shs 200 million account for close to 50% of applications at TAT. These matters required rapid resolution, which was not supported under the existing framework.

ii. Slow acceptance of e-justice, especially by lawyers. The rollout of the Electronic Court Case Management Information System (ECCMIS) still faces resistance by some advocates, hence limiting its use.

iii. Inadequate capacity of some of the administration of justice institutions/actors. The prosecutor-to-case ration was at 1:369; the detective-to-case ration ratio stood at 1:43, against the globally recommended ration of 1:2; and the Industrial Court had only two justices out of the recommended five (5). The heavy workload due to inadequate staffing affected the speed of case management and disposal. In addition, inadequate equipment and limited tools constrained the institutions' ability to execute their mandates. Relatedly, the capacity of Local Council Courts was still low, resulting in failure to meet the quorum in some courts, limited facilitation and dismissal support supervision.

iv. A high prison population growth rate. The prison population continues to grow, resulting in severe congestion. The designed carrying capacity of Uganda's prisons was 22,419 prisoners, yet, as of June 2025, the prison population stood at 79,804, exceeding the capacity by 57,385 inmates at 355.9%.

v. There are inadequacies in equipment/tools required by the institutions to undertake the interventions; for example, the Judicial Service Commission still faces transport challenges that affects timely activity implementation. The Commission's fleet is also past the recommended mileage and age, which makes it expensive to maintain, and the Uganda Police Force (UPF) has limited investigation equipment. In addition, there is limited capacity to handle specialised cases relating to the environment, climate change, and trafficking of persons, among others.

vi. High case backlog due to delays in concluding cases remains one of the main impediments to access to justice. The inefficiencies in the system are as a result of

understaffing of justice actors, intermittent absence of duty-bearers at service delivery points, weak coordination among justice actors, and a weak inspection function, among others.

vii. Overstay on remand. Capital offenders spent an average of 17.3 months on remand, while non-capital offenders on average spent 2.5 months. Prisoners committed to the High Court spent an average of 23.5 months, and there was no defined mandatory maximum remand period, which significantly contributed to prison congestion.

viii. Misalignment of criminal justice agencies. The location of courts and prisons often led to prison staff and prisoners moving long distances, incurring high expenditure on fuel and vehicle maintenance, causing delays in the production of prisoners to court.

Recommendations

i. Scale up stakeholder sensitisation and awareness of the new innovations in the administration of justice, such as ECCMIS, to enhance uptake.
ii. The Judiciary should fast-track recruitment of more Judicial Officers and non-judicial officers to reduce the case backlog and improve on the case disposal rate. There is also need to recruit critical human resource, that is State Attorneys for ODPP, staff of the Industrial Court and staff of the Judicial Service Commission.
iii. Rollout of Management Information Systems. Expand the coverage of the automated business processes across the programme to improve efficiency and effectiveness. Further integrate relevant systems that are already running, for example PROCAMIS under the Office of the Director of Public Prosecutions, and ECCMIS under the Judiciary.
iv. Strengthen collaboration among criminal justice actors to reduce the remand population through improved coordination and regular information sharing among programme institutions.
v. Fast-track the establishment of virtual courts linking prisons and courts in the use and application of non-custodial sentencing.
vi. Create juvenile-centred court spaces in remand homes to enable judicial officers to attend to juvenile matters on the premises of remand homes.

3.20 Legislation, Oversight and Representation Programme

The budget for the programme is largely comprised of Vote 104 – Parliamentary Commission, that constitutes 98.9% of all programme allocations, i.e. **Shs 977.786 billion** for Parliamentary Commission, Vote 011 – Ministry of Local Government, comprising 0.01% (**Shs 0.170 billion**), Vote – 007 Ministry of Justice and Constitutional Affairs, comprising 0.032% (**Shs 0.317 billion**), and the Law Reform Commission, constituting 0.03% (**Shs 0.296 billion**).

The budget for the Legislation, Oversight and Representation Programme increased over the past four years, between FY 2021/22 and FY 2024/25, by 17.20%, from **Shs 834.943 billion** to **Shs 978.570 billion**. This is summarised in the table below.

Table 3.1: Legislation, Oversight and Representation Budget from FY 2021/22 to FY 2024/25 (Shs Bn)

Budget Category	FY 2021/22	FY 2022/23	FY 2023/24	FY 2024/25	%age Change
Wage	108.257	112.636	117.047	117.047	8.119%
Non-Wage	550.995	734.932	761.215	813.310	47.61%
Gou Development	175.691	67.491	67.491	48.211	72.55%
Total Budget	**834.943**	**915.059**	**945.754**	**978.570**	**17.20%**

Source: BOT and IFMS

From the above table it can be seen that:

i. The Wage budget increase of **Shs 117.047 billion** was to cater for the expanded structure of Parliament that led to a rise in the number of Members of the 11th Parliament following the creation of new administrative units and the recruitment of additional staff.

ii. The Non-Wage budget increase from FY 2021/22 to FY 2024/25 was largely on account of the attendant allowances and statutory costs, such as legislative emoluments, that increased by 15.82% to **Shs.414.294 billion** from FY 2021/22 to FY 2024/25, arising from the increase in the number of Members of Parliament (MPs), increase in medical insurance for MPs by 52.2% to **Shs.23.154 billion**, increase in travel abroad by 288% to **Shs 81.787 billion**, increase in travel inland by 56.3% to **Shs 16.995 billion**, and recurring operational expenses.

iii. The Capital Development budget increment in FY 2021/22 was on account of the one-off expenditure of **Shs 116 billion** to cover the motor vehicle grant for Members of the 11th Parliament.

Physical Performance

Legislation

During the period under review, 35 Bills were passed by Parliament out of 40 Bills that were planned in FY 2024/25, representing a performance of 87.5%. Some of the Bills passed include the Appropriation Bill 2024, and the Higher Education Students Financing (Amendment) Bill 2024, among others.

There has been progress in reducing the turnaround time for the enactment of legislation, as evidenced by an increase in the percentage of Bills processed by Parliamentary Committees within 45 days, to 76% in FY 2024/25 from 64% in FY 2023/24. Parliament held 75 plenary sittings against 109 planned sittings, while Committees held 1,588 meetings, against the planned 1,600 meetings.

Additionally, the first Regional Parliament Sitting held in Gulu from 28th to 30th August 2024 aimed at "taking Parliament to the people" was an initiative rooted to consider the unique challenges faced by each region.

Improved citizen engagement is also observed from Parliament's active live broadcasts of plenary sessions through CCTV and social media platforms like YouTube. There has been an increase in social media presence like subscriptions, followings and views on YouTube, X (Twitter) and Instagram, which has supported the sharing and publication of key information and updates about parliamentary business. This practice has enabled a number of stakeholders and the general public to submit their views to Parliament.

Parliamentary Bill tracking system developed and maintained: There was continuous maintenance of the system on the Parliament website whose purpose is to record the Bills at First Reading/Committee, Bills at Second Reading, Bills at Third Reading, Bills at Presentation/waiting assent, Bills assented to by the President and Bills withdrawn. The system also enables one to export information in Excel and PDF formats for further usage.

Local Government Council proceedings system designed: Terms of Reference (ToR) were drafted for the design, documentation and costing of the Requirements for the Local Government Council Proceedings Recording System (LG HANSARD).

Oversight, budget scrutiny and appropriation

The targeted proportion of budgets that were aligned to the NDP III and compliant with gender and equity requirements were recorded at 70% and 1%, respectively. However, there was no data to assess the proportion of parliamentary recommendations on the accountability that were implemented. The survey on the Service Delivery Index was not conducted due to limited financial resources.

Representation

The proportion of women's representation in Parliament is recorded at 34%, as compared to the desired rate of 35%. In addition, to further enhance women's participation in policy formulation, the Parliament of Uganda successfully held the 2nd Women's Parliament on 3rd March 2025 to reinforce the efforts made in addressing gender issues in Uganda. A total of 30 resolutions were made.

The Parliament of Uganda effectively participated in various international conferences, such as the International Commonwealth Inter-Parliamentary Conferences, including the Pan-African Parliament, the East African Legislative Assembly (EALA), the Forum of African Speakers and Presidents of Legislatures, in which the Rt. Hon. Speaker Anita Among was

elected Vice Chairperson, and ACP-EU, in which the Rt. Hon. Deputy Speaker was elected the President. Other engagements included:

i. The 67th Commonwealth Parliamentary Conference in Sydney, Wales, Australia, and Meeting of the OIC in Geneva.
ii. The 2nd General Assembly Meeting of the Conference of Speakers (CoSPAL) in Ghana, and the 82nd Executive Committee of APU in N'djamena, Chad.
iii. The Rome-Italy Meeting of Members of the EU Parliament on OACPS-PA funding matters.
iv. The 10th IPU Youth Conference Yerevan-Armenia, and the IPU Meeting in Morocco.

The average attendance of plenary sittings was recorded at 302 members, against the planned 330 members. This was supported by the continuous maintenance of the biometric system. Attendance of members at Committee meetings is recorded at 87%. Records show that the attendance of MPs in Local Government (LG) Council meetings is 67%, which represents two (2) MPs attending LG Council meetings, against the planned target of three (3). It is noted that the installation of an automated system to track attendance in Committees has not been done due to financial resource constraints.

Institutional capacity

New chamber of Parliament: The overall progress of work on the construction of the Chamber Project, including procurement, stood at 69% by 30th June 2025. However, the physical construction works for the proposed new chamber was recorded at 45%, as compared to 44% in FY 2023/24, reflecting a percentage increase of 1%. This is attributed to the contractor's poor cash flow, which has led to the slow progress of work, especially on the activities on the critical path. This further constrained the furnishing of the new chamber, which was expected at the end of this FY 2024/25.

Capacity of MPs and staff of Parliament built: Parliament conducted two (2) group trainings for Local Councils, and seven (7) group trainings for staff of Parliament, against the planned 22 trainings under the Capacity Building Programme in the Department of Corporate Planning and Strategy. The low performance was attributed to inadequate funding to expand the scope of Local Council exposure visits and Parliamentary Service staff training.

Challenges

i. Low response of the public to the Bill consultation process due to limited public awareness of the legislative processes of Parliament and the importance of public participation in the processes.
ii. Delayed submission of information on parliamentary processes by MDAs.
iii. Limited skills set in Bills analysis, budget scrutiny, public policy analysis, and petroleum and debt analysis.
iv. Slow progress on the construction of the new chamber currently at 45% physical completion rate. This has further constrained space for plenary sittings, committee meetings, offices, library, gymnasium equipment and wellness activities, among others.
v. Lack of integrated data generation systems, which affects programme assessment.
vi. Inadequate funding for programme interventions.

CHAPTER 4: STRUCTURE OF DETAILED PROGRAMME FINANCIAL AND PHYSICAL PERFORMANCE

This section provides an overview of programme budget performance, setting out overall programme releases and expenditures, and providing highlights of outlays to sub-sub-programmes and expenditure items.

It firstly provides an overview of programme expenditures and releases. It then provides highlights of Central Government expenditure performance by sub-sub-programme and output and a summary of Local Government grant release performance (for programmes where applicable).

Programme: Agro-Industrialization

SUMMARY OF PROGRAMME PERFORMANCE

Table P1: Overall of Programme Expenditures

		Approved Budget	Revised Budget	Released by End Jun	Spent by End Jun	% Budget Released	% Budget Spent	% Releases Spent
Recurrent	Wage	234.852	241.035	263.595	256.470	112.2 %	109.2 %	97.3 %

Table P3: Intermediate Outcomes Indicators

Sub-Programme Name:	**Strengthening Accountability**			
Intermediate Outcome Indicators:	Increased awareness about public services			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
Level of client satisfaction with the client feedback mechanism	2020/21	57%	77%	77%
Intermediate Outcome Indicators:	Reduced incidences of infollution			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
% of information published that comply with the media quality management standards.	2020/21	60%	100%	80%
Sub-Programme Name:	**Government Structures and Systems**			
Intermediate Outcome Indicators:	Improved Efficiency of Service delivery structures and systems of government			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
% of MDAs & LGs with structures aligned to their mandate and the National Development Plan	2020/21	70%	100%	100%
% of structures void of overlaps and duplications	2020/21	50%	100%	100%
Level of satisfaction of clients with the re-engineered systems' turnaround time	2020/21	50%	70%	100%
Sub-Programme Name:	**Human Resource Management**			
Intermediate Outcome Indicators:	Improved affordability and sustainability of the pension scheme			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
Percentage of retirees accessing retirement benefits on the due date	2020/21	70%	95%	90%
Percentage reduction in accumulated pension and gratuity arrears	2020/21	65%	85%	80%
Intermediate Outcome Indicators:	Improved alignment of employees' competences and qualifications with job roles			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
Percentage age of Public officers whose Qualification and competences are aligned to their jobs	2020/21	80%	98%	80%
Intermediate Outcome Indicators:	Improved compliance to recruitment guidelines by service commissions			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
Level of compliance to recruitment guidelines by service commissions	2020/21	90%	100%	80%

Programme: Public Sector Transformation

Sub-Programme Name:	**Human Resource Management**			
Intermediate Outcome Indicators:	Improved effectiveness of performance and work place dispute management systems			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
Level of client satisfaction with the client feedback mechanism	2020/21	65%	77%	80%
Percentage of employee grievances resulting into industrial action	2020/21	0%	0%	0%
Percentage of Organizations achieving	2020/21	60%	85%	60%
Percentage reduction in absenteeism rate in the Public Service	2020/21	10%	5%	34.4%
Intermediate Outcome Indicators:	Improved efficiency and effectiveness in Payroll management in the Public Service			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
% of employees earning salary according to their salary scales	2020/21	100%	100%	90%
% of MDAs & LGs paying salary and pension by 28th	2020/21	80%	100%	90%
% of Public Officers receiving salary according to the approved pay plan	2020/21	70%	100%	80%
% of retired staff accessing the pension payroll within 30 days after	2020/21	70%	100%	80%
% of staff accessing payroll within 30 days after assumption of duty	2020/21	100%	100%	90%
% reduction in MDAs and LGs requesting for wage, gratuity and	2020/21	5%	0%	0%
Intermediate Outcome Indicators:	Improved efficiency and effectiveness of the decentralised recruitment function			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
% of LGs with fully constituted service commissions	2020/21	60%	70%	60%
Intermediate Outcome Indicators:	Improved Quality of service delivered and compliance to service delivery standards			
	Performance Targets			
Indicators	**Base Year**	**Base Line**	**FY2024/25**	**Actual By End Jun**
Level of compliance with SDS in MDAs and LGs	2020/21	60%	70%	65%
Level of satisfaction by the service beneficiaries	2020/21	60%	70%	65%

Table P2: Programme Outcome Indicators

Programme Outcome	Improved legal framework for implementation of national development priorities			
Programme Objectives contributed to by the Intermediate Outcome Increase effectiveness and efficiency in the enactment of legislation for improved democracy and good governance.				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Proportion of laws enacted against planned	2021	90%	100%	88%
Programme Outcome	Efficient allocation and utilization of public resources			
Programme Objectives contributed to by the Intermediate Outcome Strengthen oversight, budget scrutiny and appropriation.				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Budget alignment to NDP (%)	2018/19	60%	85%	69.6%
Compliance to gender and equity requirements, %	2018/19	55	92%	91%
Proportion of Parliamentary recommendations on the budget implemented	2018/19	0%	80%	50%
Programme Outcome	Improved compliance with accountability rules and regulations			
Programme Objectives contributed to by the Intermediate Outcome Strengthen oversight, budget scrutiny and appropriation.				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Proportion of Parliamentary recommendations on accountability implemented	2018/19	0%	100%	31%
Proportions of LGs with unqualified audit opinions (%)	2018/19	92%	90%	94%
Proportions of MDAs with unqualified audit opinions (%)	2020/21	100%	90%	97%
Programme Outcome	Improved oversight over the Executive on its commitments			
Programme Objectives contributed to by the Intermediate Outcome Strengthen oversight, budget scrutiny and appropriation.				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Service delivery index	2020/21	57%	65%	50%

Programme: Legislation, Oversight And Representation

Programme Outcome	Improved representation by elected leaders			
Programme Objectives contributed to by the Intermediate Outcome				
Strengthen representation at local, regional and international level				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
No. of Parliamentary regional/international bodies[1] with Ugandan representatives	2018/19	12	12	12
Proportion of representatives aged between 18-35 years in Parliament	2018/19	0%	11%	9%
Proportion of women representatives in Parliament	2018/19	35%	34%	34%
Programme Outcome	Improved Member participation in Parliamentary and LG Council business			
Programme Objectives contributed to by the Intermediate Outcome				
Strengthen representation at local, regional and international level				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Attendance rate (%) of LG Council meetings	2018/19	95%	95%	90%
Attendance rates (%) of Parliamentary Committees	2018/19	70%	72%	71%
Attendance rates (%) of Parliamentary sessions by MPs	2018/19	40%	60%	80%
Programme Outcome	Effective and efficient transaction of Parliamentary and LG Council business			
Programme Objectives contributed to by the Intermediate Outcome				
Strengthen the institutional capacity of Parliament and Local Government Councils to independently undertake their constitutional mandates effectively and efficiently				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Citizen satisfaction index	NA	NA	NA	
Local Council citizen score card	2018/19	40%	50%	50%
Proportion of parliamentary business processed in time	2018/19	50%	65%	62%
Proportion of Parliamentary processes automated	2018/19	5%	50%	25%
Programme Outcome	Improved legal framework for supporting National development			
Programme Objectives contributed to by the Intermediate Outcome				
To increase effectiveness and efficiency in legislative processes				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Percentage of laws enacted against bills presented	NA	NA	NA	

Programme: Legislation, Oversight And Representation

Programme Outcome	Effective and efficient allocation and utilization of public resources			
Programme Objectives contributed to by the Intermediate Outcome To strengthen oversight and budget alignment to the NDP				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Proportion of Parliamentary recommendations on the Budget implemented	NA	NA	NA	
Programme Outcome	Improved representation by elected leaders			
Programme Objectives contributed to by the Intermediate Outcome Improved representation by elected leaders				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Perception of people's views refleted in the decisions of Parliament as measured by Citizens scorecard	NA	NA	NA	
Programme Outcome	Improved effectiveness and efficiency of the programme			
Programme Objectives contributed to by the Intermediate Outcome To strengthen institutional capacity for Legislation, oversight and representation				
Programme Outcome Indicators	**Performance Targets**			
	Base Year	**Base Line**	**FY2024/25**	**Actual By End Jun**
Proportion of programme results achieved (%)	NA	NA	NA

Performance highlights for the Quarter

In the period under review, the following performance highlights were undertaken
Supported the H.E the President to confer medals and h to 111 outstanding performers in the civilian, military, police and prison fields during the 02 investiture ceremonies held i.e. International Labour Day 1st May 2025 in Nakapiripiriti District and Heroes Day 9th June 2025 in Lyatonde District.
Conducted 01 mobilization exercises in Lira, Lira DLG, Alebtong, Apac, Apac and Kwania Districts in Lango and 01 monitoring exercise on service delivery in the Bunyoro Sub region Bulisa, Kikuube, Masindi, Hoima City.
Monitored the implementation of 10 Cabinet Decisions under Minutes: 14 (CT 2021), 18 (CT 2021), 28 (CT 2021), 34 (CT 2021), 86 (CT 2021) & 113 (CT 2021), 98 (CT 2021), 108 (CT 2021), 136 (CT 2021), 154 (CT 2021) and 224 (CT 2021).
Prepared 04 Policy Briefs on strengthening Land Acquisition Processes and Tracking the Balaalo Question in Northern and Eastern Uganda.
Reviewed 43 sets of Submissions to the Cabinet of which 57% met the minimum standards of Regulatory Best Practices.
Facilitated the consideration and discussion of 180 Cabinet Memoranda by Cabinet and issued 6,543 Cabinet Extracts MDAs for action to be taken.
Facilitated the consideration and discussion of 05 draft policies at the PS meeting i.e. communications policy and Branding Guidelines and fleet management systems for Government Vehicles.
Prepared and produced 01 inclusive inspection reports on service delivery in Acholi sub region Agago and 01 stakeholder holder engagement report with MoJCA on compensation of land Plot 14 28 Nsambya that UNRA used to pass the road fly over.
Prepared and submitted the Office of the President Strategic Plan 2025/26 2029 30 to NPA and received the Certificate of Approval.
Started the End term assessment of the status implementation of the Manifesto Commitments for 2021 2026

Variances and Challenges

The following challenges were faced during Q 4
Delays by MDA to submit their status performance reports on the implementation of the 23 Presidential Guidelines as well as Manifesto Commitments performance reports. This made it difficult to produce the required reports on time.

Low adherence to the set standards for preparing and developing Cabinet Submissions. The Office is gate keeper to Cabinet Submissions and therefore observed that some submissions are not well thought, lack RIA and Certificates of Financial Inclusion; this compromises the quality of Cabinet Submissions and delays their eventual implementation.

Interference in the operations of the RDCs at City and District level by some government officials who undermine the autonomy of the Office of the RDC and at times frustrated the conduct of their daily work and roles and responsibilities.

Programme Intervention: 180406 Operationalise the High-Level Public Policy Management Executive Forum (Apex Platform);

01 Manifesto accountability week held and a report produced.	01 Manifesto Accountability week held and a report produced and disseminated. Manifesto Accountability Week of 2024 was officially launched by the Rt. Hon. Prime Minister on the 15th November and completed on the 5th December 2024. Preliminary findings indicate that 35% of the manifesto targets are achieved, 49% are on track and 16% is not yet implemented. The findings reawakened stakeholders to their different roles towards ensuring complete implementation of the commitments. The Unit undertook an End-Term Evaluation of the Manifesto 2021 – 2026 to assess Government's performance in delivering on its stated promises as the current political term concludes. By the Mid - August, we plan to have the report ready.

VOTE: 001 Office of the President

Table 4.3: Vote Crosscutting Issues

i) Gender and Equity

Objective:	To promote a gender-responsive justice system and support the realization of human rights, including strengthening the capacity of personnel in G&E mainstreaming matters and adopting the G&E guidelines to promote social cohesion and policy reforms.
Issue of Concern:	Inadequate knowledge and skills needed to mainstream gender and equity.
Planned Interventions:	Undertake trainings on gender and equity issues.
Budget Allocation (Billion):	0.000
Performance Indicators:	Number of capacity-building exercises undertaken on gender and equity
Actual Expenditure By End Q4	
Performance as of End of Q4	01 capacity building workshop conducted
Reasons for Variations	None registered

ii) HIV/AIDS

Objective:	Increase support and awareness campaigns on HIV/AIDS in order to popularize HIV/AIDS prevention measures, reduce infectious rates as well as susceptibility and vulnerability to HIV/AIDS across the Country
Issue of Concern:	HIV/AIDS Prevention and management
Planned Interventions:	Conduct HIV/AIDS sensitization workshops and health camps for staff
Budget Allocation (Billion):	0.000
Performance Indicators:	04 HIV/AIDS sensitization workshops and campaigns conducted
Actual Expenditure By End Q4	
Performance as of End of Q4	01 sensitization workshop conducted
Reasons for Variations	None registered

iii) Environment

Objective:	To ensure a better environment, to not only minimize the potential negative environmental impacts but also identify and support measures for pro-active environmental improvements.
Issue of Concern:	Ineffective policies and regulatory frameworks on preservation of the environment
Planned Interventions:	Develop new and review existing policies and regulatory frameworks on the preservation of the environment
Budget Allocation (Billion):	0.000
Performance Indicators:	Number of policy briefs produced Number of Policies developed and reviewed
Actual Expenditure By End Q4	
Performance as of End of Q4	146 briefs submitted by RDCs on the state of environment across the Country
Reasons for Variations	None registered

Quarter 4

Performance highlights for the Quarter

State House ensured seamless execution of Presidential duties by providing comprehensive logistical support, prioritizing the safety and well-being of H.E the President, VP, and their immediate families.

H.E the President and VP spearheaded nationwide mass mobilization drives, engaging leaders and citizens in the pursuit of poverty alleviation, peace, and sustainable development. H.E implored people to embrace government poverty alleviation programs like PDM to improve their livelihoods by joining the money economy.

H.E the President and VP continued with their efforts to promote regional and international relations through attendance of regional and international meetings, hosting Heads of State, receiving credentials from various envoys. Key among these was the hosting of the Regional Oversight Mechanism (ROM) of the peace, security& cooperation (PSC) for the Democratic Republic of Congo.

The Principals undertook promotion of trade, tourism and investment through mobilization of both local and foreign investors, commissioned investment facilities including a fruit factory in Yumbe, Royal Milk factory, Spiro Motorcycles, Lukonge Cotton factory, Abyssinia & Direct Reduced Iron(DRI) plant at Tembo steel factories and Hotel Classic in Kakumiro district.

Efforts to boost Government effectiveness through Presidential Initiatives were undertaken successfully. 18 on going public infrastructure works were inspected some of which were road rehabilitation projections in the country. 205 Anti Corruption cases were investigated, forwarded to the DPP and Ugx. 354,826,477/= was recovered. 122 health facilities in 12 districts were inspected, conducted 11 community dialogues, 10 radio talk shows and 05 articles in print media.

As part of poverty alleviation programs, 48 model villages were supported with agricultural, farm inputs and training. A total of 5,187 households benefited.

School fees for 3,257 students under State House sponsorship program were settled.

Variances and Challenges

State House faced emerging issues of classified nature that necessitated a classified expenditure supplementary;

Additionally, the vote received a supplementary budget under wage arising out of new recruitments originally not taken care of.

VOTE: 002 State House

Table 4.3: Vote Crosscutting Issues

i) Gender and Equity

Objective:	To promote inclusiveness in wealth and job creation
Issue of Concern:	Unemployment among the youth
Planned Interventions:	Train youth in vocational skills
Budget Allocation (Billion):	60.000
Performance Indicators:	Number of youth trained in vocational skills
Actual Expenditure By End Q4	60
Performance as of End of Q4	8761
Reasons for Variations	None

ii) HIV/AIDS

Objective:	To contribute to the fight against HIV/AIDS
Issue of Concern:	Limited access to information and med-care by public servants
Planned Interventions:	Carry out in house HIV/AIDS sensitization programs Undertake voluntary testing and counselling sessions to staff Provide medical support to those in need
Budget Allocation (Billion):	0.270
Performance Indicators:	Number of staff reached
Actual Expenditure By End Q4	0.27
Performance as of End of Q4	Distributed 706 HIV-self testing Kits to staff, provided medical care support to 32 staff living with HIV, developed and distributed customized HIV/AIDS and TB notebooks to 112 staff members, conducted health awareness workshops on HIV/AIDS,TB, and cervical cancer and 347 staff attended, 130 tested for HIV, 187 for TB, 28 for cervical cancer, followed up with 2 staff members living with HIV, initiated development of State House HIV/AIDS workplace policy, commemorated Candle Light day and world TB& Leprosy day.
Reasons for Variations	

iii) Environment

Objective:	To contribute to national environment preservation efforts
Issue of Concern:	Environmental degradation due to human activity
Planned Interventions:	Facilitate and support H.E the President and Vice President in their campaigns against environmental degradation
Budget Allocation (Billion):	0.100
Performance Indicators:	Number of hubs targeted for tree planting
Actual Expenditure By End Q4	0.1
Performance as of End of Q4	Tress were planted in 02 hubs.
Reasons for Variations	

iv) Covid

VOTE: 003 Office of the Prime Minister

Quarter 4

Performance highlights for the Quarter

The Office of the Prime Minister through the Institutional Coordination Framework structure (TICC & PCC) handled 60 issues affecting service delivery e.g. the construction of one Government Offices at Bwebajja, the Scaling Up Nutrition –Academia and Research Institutions Network, Biosafety Bill Principles, the Standard Gauge Railway, the High Hydrogen levels in Lake Albert, Kiteezi Landfill Reclamation, etc. The Vote coordinated the government business in Parliament where 35 Bills were presented to Parliament for first reading and 11 Bill was passed into Law, made 66 Ministerial statements, adopted 37 Committee reports etc. The Rt. Hon. Prime Minister responded to 459 Questions during Prime Ministers time. OPM conducted Government performance assessment for FY 2023/24 & produced the National Annual Performance Report (NAPR); fast-tracked the performance of Externally Funded Projects (Loans & Grants) and 10 NDP-III programmes: HCD, RBD, G&S, ITIS, AGI, Manufacturing, PST, SUH, NRECCLWM & ITDT. The Vote revised the Principles for the National Disaster Preparedness & Management Bill; conducted 39 preparedness & needs assessments. The Vote supported opening of 7Km access road & demarcated 572 plots of land in Bunambutye for resettlement of landslide affected people. OPM also supported 41,481 households with relief food & non-food items across the country. The Vote received, registered & settled 179,416 new refugees, processed 24,420 asylum seeker applications (21,795 granted asylum, 2,281 rejected, 43 deferred and 311 dismissed.). The OPM supported vulnerable persons with 14000 Hoes to enhance agricultural production, 50 micro-projects of vulnerable groups in Bunyoro & vulnerable groups & institutions with 7,415 iron sheets. OPM completed 80% of renovations works at Gulu Regional Office, supported 120 Victims of past counter insurgency operations in Teso. OPM organized 2 cross border peacebuilding initiatives to promote peaceful coexistence in Karamoja sub-region.

Variances and Challenges

In FY2024/25, Vote 003: Office of the Prime Minister received Ushs. 122.84 Bn (118.6%) of the approved Budget Ushs. 103.55 Bn. The release includes supplementary budget of Ushs 19.28 BN (o/w shs. 6.649 from GoU and 12.635 External financing for DRDIP). The overall expenditure was at 95% of the release. The GoU component performed at 106% (Ushs 110.04Bn) and 98% of the release was spent, while external financing performed at 100%, and 72% of the release was spent. There was delay in submission of the required documents by service providers and the re-purposing for the 11th African Regional Forum on Sustainable Development (ARFSD-11) held at Speke Resort Munyonyo from April 9 to April 11, 2025 affected implementation of planned outputs.

Quarter 4

Performance highlights for the Quarter

Uganda’s overall security posture remains stable and resilient despite the presence of evolving and multifaceted threats. The Uganda People’s Defence Forces (UPDF), in coordination with Defence Intelligence and Security (DIS), continues to demonstrate firm control over the country’s security landscape, executing effective intelligence-led and joint-force operations to preempt, detect, and neutralize both internal and external threats.
National Security Outlook
The internal security environment has remained relatively peaceful; however, it is continuously tested by emerging non-traditional threats. Key concerns include the proliferation of Improvised Explosive Devices (IEDs), increased armed criminality in urban centers, organized infrastructure vandalism, radical political activities, and the circulation of illicit small arms. These have necessitated enhanced surveillance, community engagement, and strategic deployment of security assets.

General Crime and Infrastructure Vandalism
The country has witnessed isolated but serious crime incidents including armed robberies, murders, and deliberate sabotage of public infrastructure such as electric pylons and transmission lines. The Kampala Metropolitan Area, Masaka, and Mbarara remain hotspots for urban criminality. Notably, Mayuge District experienced public unrest due to delayed utility restoration. In response, security forces arrested over 130 suspects, recovered 34 illegal firearms, and intensified patrols and intelligence-led crackdowns.

Karamoja continues to pose border security challenges, primarily through cattle rustling, cross-border livestock theft, and increasingly, human trafficking. Between January and July 2025, 232 rustling incidents were recorded, with over 2,500 animals stolen. 110 Eritrean nationals were rescued from traffickers in Moroto. In response, 77 illegal firearms, 845 rounds of ammunition, and over 1,700 head of livestock were recovered. Joint operations along porous borders are ongoing

Variances and Challenges

1. Delays in file verification due to family beneficiary wrangles hence slowed payments for survivors and backlog cases.

2. Incomplete full veterans profiling

3. No compensation for injured veterans due to pending administrative guidelines under UPDF Amendment Act 2025

4. Un released funds for planned activities

Budget Output:460141 UPDF production Services

VOTE: 004 Ministry of Defence

Quarter 4

Annual Planned Outputs	Cumulative Outputs Achieved by End of Quarter
PIAP Output: 16070510 Productive activities of the UPDF enhanced	
Programme Intervention: 160705 Improve the capacity and capability of the Security Sector through training and equipping personnel.	
1. NEC capitalized 2. Food and Feed security programme implemented	(1) The subsidiary planned to continue the establishment of a grain storage, milling and supply grain facility at Kigumba. As at end of Q4, the following were achieved; • All primary and auxiliary civil works successfully completed in line with the approved engineering designs and specifications. Final snagging and remedial works were executed to correct minor defects identified during inspection. Drainage, access roads, external paving, and stormwater management systems were finalized. • Completed installation of all machinery and mechanical systems for grain cleaning, milling, sieving, and packaging. Test running and calibration of milling equipment conducted to validate operational performance. • A dedicated on-site fuel depot was constructed and commissioned to ensure an uninterrupted fuel supply for both production and power generation units. • Construction of the powerhouse completed. Full installation of electrical systems and distribution panels was executed.
1. UACC capitalized	1. Engaged in a joint venture with Alpha MBM Aviation 2. Completed flight simulator training for crew and engineers. 3. Undertook refresher training in safety management system, dangerous goods, crew resource management, human factors, air cargo sales and marketing, technical stores and air cargo mail and security.

Quarter 4

Performance highlights for the Quarter

Performance
In the FY 2024/25, the Ministry registered a moderately satisfactory overall performance, with 88 percent (166 out of 188 outputs) fully achieved, 3 percent (6 outputs) moderate performance, and 9 percent (16 outputs) not achieved.
Notably, five departments; Public Service Inspection, Records and information management, Research and Standards, Performance Management, and Policy and Planning achieved 100 performance of their planned outputs, reflecting satisfactory performance and effective implementation capacity.
Similarly, seven departments, Compensation, Human Resource Management Systems, Institutional Assessment, Human Resource Development, Human Resource Policies and Procedures, Civil Service College , Finance and Administration attained performance ranging between 75% to 99% achievement, indicating moderately satisfactory.

Highlights
Rationalization of sixty (60) Agencies and their new structures approved and communicated for implementation:
Electronic Document and Records Management System (EDRMS) rolled out and operationalized in 10 MDAs and 4 LGs.
Human Resource Audit carried out in 2 votes
Compliance Inspections undertaken in 34 votes to assess compliance to Service Delivery Standards.
Records management systems set up in 7 votes
Schemes of Service for 9 Cadres developed and Circular Standing Instructions guiding the implementation of the respective schemes issued
The Draft 5-year Capacity Building Plan for nuclear energy Company and facilities in Uganda developed
Wage, pension and gratuity budget estimates from all MDAs and LGs prepared and submitted to MoFPED
Pre-reform activities for Public Service Pension Scheme conducted.
BSC implementation was supported in 17 votes
Heads of HR meeting held
HCM rollout completed in 100 votes in Phase 3
A Center for Public Policy Research & Innovation established under Research, Innovations and Policy Advisory Division at CSCU

Variances and Challenges

Variances
1. Some Outputs are demand driven for example Education and information tours of NRCA, serving clients at NRCA, building Capacity of members of Consultative Committees and customization of structures.
2. Received Support from Development Partners (ENABEL, UNCIEF and UNDP) in developing and uploading 6 Digital content for the existing CSCU curricula and training public officers in gender-based violence responsiveness .
3. Virtual and Online trainings thus reaching out to many stakeholders.

Challenges
i. Shortfalls in the Pension and Gratuity Budget: The Ministry experienced funding gaps in the pension and gratuity budget, which affected the clearance of gratuity bills for retiring staff. As a result, only 98% of eligible retirees were paid during the financial year, leaving some pending claims
ii. Delayed approvals for some of Ministry initiatives: Some Ministry initiatives faced delays in approval by relevant authorities hence hindering timely implementation of planned reforms. These include: Appointment of members to the Public Service Commission Council, Approval of the HR Analytics Curriculum, Establishment of the National Emoluments Review Board.
iii. Limited Funding for some planned activities: Inadequate financial resources constrained the full execution of some key activities, including: Establishment of the Kampala Regional Uganda Service Centre, Development of staff wellness facilities, Procurement of ICT equipment and completion of Regulatory Impact Assessments (RIAs)
iv. Delayed Operationalization of Cities: this delayed the Ministry to support the cities to customize the structures.

Table 4.3: Vote Crosscutting Issues

i) Gender and Equity

Objective:	To strengthen gender and equity representation in human resource training
Issue of Concern:	Mainstreaming Gender and Equity issues in the Training Curriculum Low documentation of G&E SDS and low level of compliance to the few in existence
Planned Interventions:	50 Public officers trained in mainstreaming cross cutting issues including gender, equity, climate change, HIV and TB Support documentation of standards for Gender and Equity and Compliance Inspections undertaken in 16 MDAs and 48 LGs to assess complianc
Budget Allocation (Billion):	0.450
Performance Indicators:	No. of officers trained in mainstreaming cross cutting issues including gender, equity, climate change, HIV&TB(50) No. of MDAs and LGs inspected for compliance to SDS(16 MDAs and 48)
Actual Expenditure By End Q4	
Performance as of End of Q4	
Reasons for Variations	
Objective:	To foster accountability for results across Government and responsiveness to citizens needs in the public service performance management system.
Issue of Concern:	Limited access to Pension and related information by public officers and elderly persons and pensioners in LGs
Planned Interventions:	3SUCs established and operationalised, HCM rolled out to 100 Votes (50 phase 3 sites and additional 50 Votes in phase 4), Technical & Functional Support to 20 MDAs and 160 LGs on Wage, Pension & Gratuity provided, Technical support to SUCS
Budget Allocation (Billion):	3.786
Performance Indicators:	No. of service Uganda centers established and operationalized by location-3 No. Entities where HCM has been rolled out and Go-live launched-100 No. of MDAs and LGs supported on Wage, Pension and Gratuity-20 MDAs and 160 LGs, No. of SUCS supported-5
Actual Expenditure By End Q4	
Performance as of End of Q4	
Reasons for Variations	
Objective:	To strengthen the institutional framework for mainstreaming gender and equity in Ministry initiatives
Issue of Concern:	Low integration of Gender Based Violence in performance management, Inadequate preparation of staff for retirement , Selective enhancement of staff salaries, Unfair work conditions and treatment at the workplace
Planned Interventions:	Training to mainstream Gender in performance management undertaken in 10 LGs and 4 MDAs, 5Pre & post retirement engagements for pensioners andofficers conducted,National Emoluments Review Body operationalized,100% of Grievances and complaints handled
Budget Allocation (Billion):	1.300
Performance Indicators:	No. of MDAs and LGs trained to mainstream Gender concerns in performance management(10LGs,4MDAs),No of Pre & post retirement engagements for pensioners & public officers conducted(5),National Emoluments Review Body operationalized(1), % of Grievances(100%
Actual Expenditure By End Q4	
Performance as of End of Q4	
Reasons for Variations	

VOTE: 005 Ministry of Public Service

Quarter 4

ii) HIV/AIDS

Objective:	To increase awareness in HIV&AIDS concerns
Issue of Concern:	Unhealthy lifestyle resulting into various diseases , Loss of productivity and Man hours, Marginalizing HIV affected officers at the work place
Planned Interventions:	Health week in the Ministry organized to cater for testing, counselling, guidance on HIV&AIDS and other health issues, Weekly Wellness activities coordinated, Incorporate work related HIV and TB concerns in the management of employee productivity
Budget Allocation (Billion):	0.140
Performance Indicators:	Number of health weeks organized-2 , Weekly Wellness activities coordinated.-48,Number of issues identified and incorporated-4
Actual Expenditure By End Q4	
Performance as of End of Q4	
Reasons for Variations	
Objective:	To reduce cases of new HIV&AIDS infection due to extra marital and cross generation sex
Issue of Concern:	High risk of HIV&AIDS infection due to cross extra marital and cross generation sex
Planned Interventions:	Ensuring availability of condoms in all places of convenience Review the Ministry HIV&AIDS policy
Budget Allocation (Billion):	0.070
Performance Indicators:	Condom stock out rate - 0%, Ministry HIV&AIDS policy in place -1
Actual Expenditure By End Q4	
Performance as of End of Q4	
Reasons for Variations	

iii) Environment

Objective:	To Strengthen the institutional framework for mainstreaming environmental and climate change concerns in the Ministry
Issue of Concern:	Inadequate knowledge about mainstreaming of environment and climate change concerns in Ministry initiatives, Increased stock and e-waste, Inspection of environment and climate change is not adequately provided for in the inspection tools
Planned Interventions:	Ministry climate change committee constituted and operationalized, Curriculum for institutionalizing climate change interventions developed, EDRMS rolled out and operationalized in in 10 MDAs and 8 LGs.E-inspection tool rolled out in 8 MDAs and 8 LGs
Budget Allocation (Billion):	0.370
Performance Indicators:	Environment and climate change committee and minutes in place-1, Curriculum for institutionalizing climate change interventions in place-1, No. of MDAs and LGs where EDRMS has been rolled out-10MDAs, 8LGs,No. of MDAs and LGs where E-inspection tool-16

Quarter 4

Performance highlights for the Quarter

Facilitated 01 foreign visit of H.E the President with protocol services to South Sudan and hosted 04 Presidents of Somalia, Burundi, South Sudan and former President of Ethiopia
Signed an agreement on ongoing programmes with funding from Germany amounting to Euros 44,875,000 to fund Climate Resilience and Water Infrastructure for refugees and host communities in northern Uganda; Strengthening Governance and Civil Society, Strengthening the socio-economic participation of refugees and the host population, Promotion of women-led Businesses, Strengthening rural development in northern Uganda and Promotion of Renewable Energy
Coordinated 04 investment promotion engagements; Uganda-Turkey investment promotion, Uganda – Japan Trade and Investment, Pearl of African Business forum and expo in Kuala and UK-East Africa Trade and Investment Forum in London
Coordinated 7 foreign, investment delegation's visits which include among others; a delegation from Germany interested in investment in renewable energy, Malaysian delegation interested in exploring oil and gas collaboration, UAE interested in exploring investment opportunities in Uganda, etc
Sourced 04 capacity building opportunities in the area of enhancement of production and value addition, i.e. University of German and MUST in developing herbal medicine, medical team from the United States who conducted surgical operations for esophageal cancer, training of Uganda scientist in outer space technology by the UN Institute of training and research
Provided oversight supervision on implementation of Economic and Commercial Diplomacy to 04 Missions; Malaysia, Türkiye, China and Japan
Initiated, negotiated and concluded 04 protocols with regional bodies and partnerships (Tripartite COMESA-EAC-SADC and AfCFTA)
Certified 3,246 documents for foreign use. (1,918 Males, 1,328 Females) collecting Non Tax Revenue worth UGX 64,920,000
Handled 132 cases of Ugandans in distress and facilitated 55 remains of deceased Ugandans to return

Variances and Challenges

The Ministry's budget performance by end of the Financial Year stood at 105.4%, this was due to the supplementary budget allocations of Ugx. 1.051Billion to cater for Person to holder emoluments for the two Ambassadors (Amb. James William Kinobe and Amb. John Crysistom Alintuma Nsambu) and the retooling project funds amounting to Ugx.0.488Billion.
The budget expenditure performance stood at 102.2% and this over performance is attributed to the wage and retooling which performed at 116% and 117.7% respectively due to the two supplementary allocations.
The release expenditure performance was 97.0%, the under absorption was mainly due to the low absorption of external funds, gratuity and delayed initiation of procurement requests by departments mainly for ICT equipment and stationery.

Challenges
i. The Ministry is heavily underfunded.
ii. Inadequate staffing in the area of economic and commercial diplomacy and legal services.
iii. Difficulty in implementation of bilateral MoUs.
iv. Lack of incentives to attract the diaspora to invest in Uganda.
v. Slow response from other MDA's which negatively impacts on our output.
vi. Accumulated arrears to contributions to international organizations which may hinder the Ministry and the country from benefits associated with these organizations.
vii. Increased human trafficking activities by Ugandans that could taint the image of the country.
viii. Unstable / tabulate region. (Fragile situation in DRC, Burundi, South Sudan and Somalia.
ix. Increasing and persistent Tariff and Non-Tariff Barriers.

Quarter 4

Performance highlights for the Quarter

MOJCA is mandated “To provide legal advice and legal services as well as supporting the machinery that provides the legal framework for good governance”." To carry out this mandate, the Ministry had an approved budget of UGX 140.668Bn and a revised budget of UGX 175.323. During the reporting period, the Ministry received a total of UGX 164.650Bn and spent UGX 161.519Bn categorised as: Wage- UGX 13.895Bn, NWR- UGX 114.956Bn, Development- GUX 32.668 and Arrears- UGX 0.047Bn. The funds supported the implementation of planned activities as follows:
Cumulatively, Government represented in 1,497 cases in Courts, Tribunals and Commissions. 432 cases won saving Government UGX. 567,895Bn, while 132 cases were lost worth UGX 90.379Bn. Defended Government in 22 EACJ matters, 267 Constitutional Petitions, Appeals and Applications and 209 human rights cases.

A total of 4,854 contracts received for review to ascertain legality and enforceability. 606 requests for Legal Opinions received and responded to. Relatedly 1,539 Agreements and MOUs were received from Line Ministries for review during the reporting period.
A total of 42 Bills, 161 Statutory Instruments and 34 Legal Notices were drafted and returned to MDAs and 26 Bills and 51 Assented to Acts were authorised for publication.
on regulation of the legal profession, 25 ordinary disciplinary committee sittings held during which 245 cases were handled and 44 disposed of.
11 Law Council Meetings to consider applications for placement, applications for eligibility, applications for generic names and other policy matters of the Legal Profession held.
1,588 Advocates chambers inspected out of which 1,476(93%) were approved and issued with certificates of approval of chambers.

On Administrator General services, 5,494 new files for clients opened, 404 family mediations held, 395 Estates inspected, 108 land Searches, lodging and removal of caveats conducted,3,914 Certificates of no objection issued and 81 land transfers made.

Variances and Challenges

i. Low Staffing levels at Regional Offices due to lean staffing structure. With the expansion of the Judiciary, this has created a challenge of attending to many High Courts let alone the distances to be travelled. The number of Courts i.e. GI, Chief Magistrate ang High Court is far too more than the number of staff in MoJCA, that has more or less remained at the same level. This is stretching the staff; for example, some Regional Offices cover up to 25 Districts with only 1 functioning vehicle with an average of 5 State attorneys in the Region and some districts are as far as 280Km.
ii. Inadequate vehicles for court attendance, field work related to discharge of Administrator General Duties.
iii. Limited budget to cater for cattle compensations and court awards. The Ministry had an outstanding liability of UGX 482.63Bn at the start of the FY 2024/25. However UGX 23.21Bn has so far been released making it hard for the Ministry to allocate the released against the stated liability.
iv. Some MDAs still make incomplete submissions making it impossible to complete review of the contract without referring it back to the MDA for additional Documents. This does not only make it a lengthy process but also wastes resources to review the same document twice or more times.

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 16050109 Operations of Regional Offices facilitated		
Programme Intervention: 160501 Develop appropriate infrastructure for legislation, security, justice, law and order		
Attended 41 Court cases. Reviewed and advised on 14 contracts. Resolved 14 family disputes. Drafted 5 Byelaws.	Moroto Regional Office: DLAS: Received and rendered 15 requests for legal opinions, 6 requests for contract clearance were registered. 6 contracts were cleared for signing. DCL: Registered 5 cases, concluded 11 cases. Admin Gen: Opened 7 files for estates, and issued 4 certificates of no objection.	Increased awareness of our services
Attended 20 court and defended backlog cases. Resolved 10 family disputes through mediation and arbitrations. Inspected 10 estates of deceased persons. Reviewed and advised on 20 contracts.	Soroti Regional Office: DLAS: Received 12 requests for legal opinions and rendered were all responded to. 21 Draft Contracts submitted for legal (technical) guidance and were all cleared within 14 days. DCL: Registered 8 new cases, cause listed 180 cases, received 10 hearing notices, made 294 appearances, concluded 2 cases while 375 cases are still pending. 01 case worthy UGX 95M was won while 01 case worthy UGX 25m was lost. 29 mediations were handled while 11 are still pending. During the quarter, no new Human rights cases were registered. However, 6 human rights cases were concluded and all won saving Government UGX 600m, while 257 are still pending Administrator General: Opened 15 new files for estates, held 20 family mediations, inspected 15 estates and issued 22 certificates of no objection.	After UHRC carrying out investigations, it was found out that the complaints were baseless and or the complainants were not interested in the claims. There was no siting by Human Rights Tribunal to hear human rights complaints. Also, there are pending Human Rights Decisions before Uganda Human Rights Tribunal. Few attorneys with a lot of civil litigation cases in court and therefore unable to conduct all the planed mediations. High court has been in a criminal session and when High court is conducting a Criminal session, Civil cases are not cause listed. secondly, most of the cases are in high court which has been in a criminal session.
Attended 20 court and defended backlog cases. Resolved 10 family disputes through mediation and arbitrations. Inspected 10 estates of deceased persons. Reviewed and advised on 20 contracts.
