15. Agricultural mission to UG organized
16.Accompanied officials from Majid Al Futtaim that travelled to UG to discuss Investments
17. Meetings held to attract FDI

Variances and Challenges

1. Insufficient funds to fund labor related activities and Consular services which are part of the core mandate of the embassy. These activities require travelling by road from Abu Dhabi to the six emirates.
2. Lack of a dedicated Labor attaché to handle labor issues
3. High increase of forged documents presented for attestation
4. Reluctance of Ugandans in the UAE to register with the embassy.
5. The Embassy doesnot have its own Chancery premises and therefore incurs high costs on rent.
6. High operational costs for the rescue accommodations yet on average the embassy receives 10 distressed Ugandan domestic workers seeking assistance though the number is even higher in Dubai. The rescue accommodation requires operational funds to cater for utilities like water, electricity for cooling, lighting and cooking, welfare while at the facility to include meals, sanitary supplies and medical care. The facility also requires a full-time staff to cook, clean and manage the admission and exit of the distressed domestic workers from the facility.
7. Medical expenses It is required in UAE that staff are covered under the National Health Medical Insurance Scheme. Currently the embassy can only afford a basic package for local staff which is doesn’t provide 100% coverage.
8. Uganda Embassy in Abu Dhabi and the Consulate in Dubai experiences extremely hot conditions which increases the cost of cooling residential accommodation and offices, exposes staff to adverse health conditions arising from extreme heat and increases the cost of living
9. The Consulate requires a utility van to support the Consular services especially going to prisons, and hospitals and executing rescue operations. This can also used to facilitate transits, and airport pick ups.
10. Dubai is transit airport for most of the VVIPs, this implies they require VIP services during transit. The embassy staff are overwhelmed while facilitating these transits for entitled persons since it requires travel to Dubai.

Variances and Challenges

Variances

The variances in released and spent funds under the development budget is as a result of ongoing works . Payment is only made upon completion of an agreed level of completion as per the Contract.

Challenges

Delayed commencement of a direct flight between Entebbe and Guangzhou by Uganda Airlines. There are numerous trade and commercial connections and opportunities to be reaped from the commencement of this flight for example affordable flight costs to and from Uganda for Chinese tourists and potential investors and timely transportation of Ugandan Agricultural products like Coffee, Beef, fruits and vegetables among others which are on a very high demand

- There is are significant foreign exchange fluctuations with reduction in the value of the Turkish Lira against the dollar. This exposes the Embassy to foreign exchange losses and high prices of goods and services.
-The Embassy does not own its building for the Chancery and the Official Residence. This exposes the Embassy to the risk of landlords increasing rent prices amidst the high inflation rates that Turkiye is currently facing.
- The Embassy faces a challenge during the Ramadan and Bayram period as organizing official meetings is difficult therefore affecting the implementation of some planned activities during the Quarter.
- The Embassy faces a challenge of inadequate transport with some cars having a very high mileage and are prone to high costs of repair and maintenance costs. In addition it creates logistical challenges in the implementation of some activities.

Variances and Challenges

i. Shortage in wage for local staff
ii. Security threat from extremists/terrorists.
iii. The salinity and corrosive nature of the environment in Somalia that requires a lot of funds on maintenance costs of Mission properties.
iv. Limited data on tourism, trade and investment to support negotiations with the host country.
v. Low response of Ugandans to trade fares due to past political instabilities.
vi. Lack of harmonized trade policy frameworks.
vii. Inadequate institutional capacity to provide consular services for distressed Ugandans in countries of accreditation.
viii. Increasing tariff and non-tariff barriers against Uganda exports within Somalia.
ix. Difficulty in mobilizing the Ugandans in the Somalia Diaspora, many of whom prefer to remain covered (in Somalia).
x. Shortage of basic needs, such as the internet, making accessibility and communication very hard.
xi. Inadequate funding for most mission activities, as approximately 80% of the funds released from the Treasury are spent on fixed costs such as rent and staff salaries; thereafter, leaving very limited resources to fund planned activities.
xii. Inadequate physical, financial and human resources to cover the vast area of Somalia.
xiii. Late release of funds, which has affected the timely implementation of planned activities of the Mission to effectively execute its mandate.
xiv. Inadequate Foreign Service Allowance and Education Allowance of children of Foreign Service Officers.

Variances and Challenges

VOTE: 533 Uganda Embassy in Malaysia, Kuala Lumpur

Quarter 4

The Mission continues to face the challenge of coordination with Ministries and Agencies at Home, in following up with Expression of Interests sent by firms in Countries of Accreditation who would like to pursue business and investment interests. This also includes following up on awards of Scholarships that are never utilized.

The USD has been loosing ground against the Malaysian Ringgit, this has reduced the purchasing power of planned services. Which has also affected Home based staff Purchasing power since there allowance is paid in local currency against the USD.

The Mission is still categorized as Category B by the Ministry of Foreign Affairs despite the increase in the cost of standard of living in Malaysia post Covid. Which means that staff earn much less than their counter parts in countries with high standard of living.

Under - Staffing despite increase in workload with the roll out of Economic and Commercial Diplomacy, the Mission has a structure of HOM + 4, and yet the workload on the ground in the country of accreditation (13 states for Malaysia) and 8 other Countries of Accreditation need to be covered. This continues to stretch staff and cause fatigue.

Being very far from Uganda, the cost of Air Transport for HQ Staff to participate in Activities remains high and one of the highest expenditures in Implementation of ECD. Staff also have to meet high costs of travel should they be required to travel back home.

Performance highlights for the Quarter

1. Participated in the Pearl of Africa Tourism Expo from 21st- 24th May 2025 where the Consulate mobilized sixteen Kenyan tourism stakeholders who not only participated but also exhibited at the event. They were led by H.E Josephat Chirema Kombo, the Deputy Governor of Kwale County. They included: Akothee Safaris, Destination Diani, East Africa Wildlife Society, Kilifi County. The Consul General, Amb. Paul Mukumbya was among the panellists on “The strategic role of High Commissions and Consulates in tourism growth” where he emphasized that missions play a crucial role in marketing of destination Uganda in their areas of accreditation.
2. One market sourced for Ugandan products at the Kenya Coast. The Consulate coordinated one introductory meeting between Mr. Wasike, Group Operations Manager, Heritage Hotels limited and Agritrade Uganda on 12th June 2025 on exporting of Ugandan fruits to the Kenya Coast. It was agreed that initial discussions should focus on exportation of Ugandan pineapples and bananas with the possibility of expanding it to other products. It was also agreed that Mr. Wasike should share a price list for Heritage Hotels as the basis for further discussion on modalities for exportation. The Consulate is closely following up on this opportunity.
3. Undertook M&E of the 2024 fam trip to Uganda by Kenya tourism stakeholders. The Consulate held five meetings with Kenyan tourism stakeholders who participated in the fam trip to Uganda from 9th- 18th November 2024. They gave important feedback which can help to improve on the tourism sector in Uganda which include: reducing on the cost of air travel, addressing the issue of traffic jam in Kampala and standardizing hotel classification so that they correspond with the state of the hotels.

Performance highlights for the Quarter

The annual increment in the Environment and Natural Resources Grant has seen a growth in the locations to Local governments and therefore there has been a growth in the number of Environmental Screening of projects across the Local Governments.

Variances and Challenges

The small size of the Environment and Natural resources grant still remains a challenge in relation to the scope of the work to be done.

Performance highlights for the Quarter

Out of the 176 LGs targeted under the One Billion Grant for FY 2024/25, 113 LGs (64.2%)submitted complete performance data. The remaining 63 LGs (35.8%) either did not submit reports or submitted incomplete data. Highlights include:
1. 8,246km of Road Length Maintained, 2,430 km Spot Graveling was done, 118 no of bridges raised and 1,921 culverts installed .

Variances and Challenges

For the UGX 1 BN Road Maintenance grant, some LGs delivered significantly less than planned because of the following;

a. Frequent equipment breakdowns and limited access to spare parts
b. Inaccessibility of approved gravel sources; and
c. Prolonged rainy seasons disrupting works.
Examples: Kyenjojo DLG, Rukungiri MC, Lira City, Mpigi DLG, Tororo DLG

Other LGs did not provide reports or had ineligible reports because of the following:

a. Non-submission of performance data;
b. Leadership gaps or staffing shortages; and
c. Complete grounding of LG road units without alternative arrangements.
Examples: Butambala, Busia, etc

Generally, Weak performance in LGs regarding the use of the UGX 1BN grant was due material scarcity, long haulage distances, or community disputes over gravel source access. some Key Observed Challenges include;
1. Weather Delays: Heavy rains washed out works, hindered gravel timely compaction and led to an increase in projects' costs, where encountered;
2. Equipment Downtime: Machinery older than 15 years, slow repairs due to limited spares
and resource constraints;
3. Funding Delays: Late quarterly releases stalled mobilization;
4. Technical Gaps: Poor record-keeping, missing GPS data, unverified outputs; and
5. Coordination Weaknesses: Fragmented planning between engineering, procurement, and
finance units at LG level.
