	 Annex1: Approved Budget Estimates for FY 2018-19.....	 1741

Preliminary

Introduction:

These Estimates of Revenue and Expenditure illustrate both the Recurrent and Development expenditure projections for Central Government Ministries Departments and Agencies. The first section provides summary aggregate tables of revenue and expenditure, which is then followed by details at the Vote Level broken down by cost centre (Project and Sub-Program), as explained below:

Table V1: Summary Vote Estimates by Programme and Sub-Programmes

This table provides the recurrent and development summaries by Programme and Sub-Programme for the specified Vote. This shows Programme totals and integrates recurrent and development summaries to give a comprehensive Vote overview. It also shows the summary for Votes legally allowed to retain and spend NTR.

Table V2: Summary of Vote Estimates by Item

Table V2 provides a summary of Vote estimates by item. It provides a Vote level snapshot of what the main expenditure drivers are such as staff training, workshops or travel expenses and is sub divided into 4 classes of output, which are associated with different categories of expenditure items:

The first category is ***Outputs Provided*** – These are services provided by the Vote, either internally (e.g. Ministry Support Services to the rest of the Ministry) or to an external third party (e.g. Primary health services to the public). These services are funded through the expenditures on Employee Costs and Goods and Services in the Chart of Accounts.

The second category is ***Outputs Funded*** – These are services funded by the Vote but delivered by another institution (e.g. Support to Research Institutions in Public Universities). These relate to expenditures on grants and transfers in the Chart of Accounts.

The third category is ***Capital Purchases*** - These relate to the purchase of capital assets in the Chart of Accounts. This categorisation enables a better handle on the level of fixed capital investment in the budget.

The fourth category is ***Budgeted Arrears***

Table V3: Detailed Estimates by Programme, Cost Centre, Output and Item

This table provides details for each sub programme and item under each Programme, within the defined class of output stated above. For each development project and recurrent sub- programme, the line item budget is presented by key Programme Output. These outputs are defined in the Results Oriented Management (ROM) handbook as those, which are most important in the achievement of the strategic objective for the Vote. These inadvertently contribute towards fulfilling a Vote's Mission Statement and the achievement of Sector Objectives. Examples could include *support to teachers in hard to reach areas* or *renewable energy promotion*.

Table V4: External Project Financing to Vote

This final table captures sources of external financing for each development project in the Vote.
