Performance highlights for the Quarter

During the FY 2025/26, URA collected net revenues (gross revenue less refunds) of UGX 36,012.40 billion against a target of UGX 36,739.66 billion registering a performance of 98.02 percent and a shortfall of UGX 727.26 billion. A substantial growth of UGX 4,378.20 billion (13.84 percent) was realized compared to FY 2024/25. Domestic revenue collections grew by 14.10 percent (UGX 2,996.78 billion) while the Customs collections grew by 12.63 percent (UGX 1,402.24 billion). The total refunds during the FY 2025/26 were UGX 744.09 billion.

Variances and Challenges

By the end of June 2026, UGX 901.184 billion had been released, of which UGX 864.717 billion was spent, hence registering a budget absorption level of 95.95 percent against a target of 100 percent. The variance in budget utilisation is mainly attributable to procurements that are still in progress.

Quarter 4: Outputs and Expenditure in the Quarter

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Programme:18 Development Plan Implementation		
Vote Function:01 Administration and Support Services		
Departments		
Department:001 Corporate Services		
Key Service Area:000004 Finance and Accounting		
PIAP Output: 18010503 Increased use of non traditional data sources (eg. Big data in the production of statistics)		
Programme Intervention: 181142 Strengthen the research and evaluation function to better inform planning and plan implementation across all government units.		
100 percent Performance Management enhancement interventions implemented.	During quarter four of the FY 2025/26, 93.48 percent implementation of performance management initiatives was achieved against a planned target of 100 percent.	The Monthly performance conversations and monthly senior management reviews were not fully implemented.
-		
2.5 percent staff attrition rate	The staff attrition rate during the fourth quarter was 0.45 percent against a target of 2.5 percent. The staff exits were 21 (voluntary retirement and resignation) compared to the number of staff (4,699) at the start quarter four of the FY 2025/26.	
100 percent implementation of the Procurement Plan.	26.91 percent implementation of the procurement plan was achieved during the fourth quarter of the FY 2025/26, against the target of 25 percent hence achieving 107.6 percent performance.	The procurement budget utilisation variance is mainly attributable to the ongoing implementation of eTax 2. No payment milestone had been completed or certified during the reporting period; therefore, no payment was due.

Key Service Area:560054 Trade Facilitation		
PIAP Output: 18211101 Increased Domestic revenue		
Programme Intervention: 182111 Enhance domestic revenue mobilisation through sustainable tax revenue policy and administration		
80% Recovery from collectable debt stock	During quarter four of FY 2025/26, 67.4 percent of the collectable arrears were recovered against the target of 80 percent.	
100% of Scannable goods Scanned	During the fourth quarter of the FY 2025/26, 100 percent of the scannable goods were scanned as per the documented scanning guidelines as planned.	
100% Customs Tax Collected	Customs collected 103.63 percent of the fourth quarter target against a planned target of 100 percent. The total collections were UGX 3,497.18 billion against the target of UGX 3,374.81 billion.	Reasons for fourth quarter performance is mainly due to growth in fuel import volumes hence more petroleum duty, while Import Levy, Withholding Tax and Infrastructure Levy grew due to higher import values, particularly petroleum oils and hot-rolled iron, as well as policy expansion. Export Levy collections also increased following growth in gold exports.
50% of Cargo electronically tracked	During the fourth quarter of the FY 2025/26, 74.35 percent of cargo was electronically tracked against a target of 50 percent. Of the 127,406 total consignments, 94,721 consignments were electronically tracked.	The regional electronic cargo tracking target was achieved as planned.

Quarter 4

Performance highlights for the Quarter

During the FY2025/26, in the livestock subsector, the President of Uganda commissioned the first-ever anti-tick vaccine production facility in Africa at NaLIRRI Nakyesasa. Additionally, research on other vaccines, including those against FMD, Newcastle, Gumboro, and African Swine Fever, continued. Furthermore, research on feed concentrates for livestock and poultry continued. Research on genetic improvement in beef cattle, goats, for meat, and chickens also progressed. In terms of crop, NARO released 3 purple-fleshed sweet potato varieties and submitted 15 crop lines to the Variety Release committee of MAAIF, with 15 other crop lines entering National Performance Trials. Additionally, NARO produced over 10,000,000 coffee planting materials to support the coffee seed system. in fisheries, NARO conducted 70 fish stock assessments on major fish breeding areas on Lake George and Kyoga and determined their Maximum Sustainable Yield. In forestry, NARO developed a low-cost jackfruit grafting protocol. In terms of value addition, NARO developed 5 agro-engineering prototypes (wet coffee pulper, bean thresher, tomato pulper, solar-biogas dryer for fruits, animal-drawn planter). In terms of technology promotion, NARO signed 12 plant variety licensing agreements, reached 161,028 beneficiaries, established 141 adaptive trials and 131 demonstrations across the country, and trained 810 extension workers. In terms of value addition, NARO developed a meat tenderizer and a mobile app for shelf life determination. In terms of infrastructure, NARO rehabilitated over 10 assorted research and research support infrastructure.

Variances and Challenges

During the FY2026/26, major challenges included the continuous encroachment of agricultural research land, coupled with inadequate and poor agricultural research support infrastructure, which continues to hinder the execution of NARO's mandate. Additionally, NARO continued to meet the challenge of insufficient funds and human capital to meet the ever-changing agricultural research scope.

4 Agriculture research technologies and innovations (1 apiculture,1 cassava,1 sunflower, 1 agroforestry) promoted in the Agro ecological zone for production enhancement, food nutrition and industry.	To enhance production, productivity, food security, and industry in the West Nile agro-ecological zone, two drought-tolerant and climate-resilient cassava varieties (NAROCAS1 & NASE 19) were established at the Got Ali NARO Satellite Station in Nebbi, and over 200 farmers were trained in improved cassava agronomic practices at the One-Stop Demonstration Centre. The Centre also strengthened apiculture by training 620 students and 380 Local Government extension staff using successfully colonized Kenyan Top Bar and Langstroth hives as practical learning facilities. In addition, improved sunflower varieties were availed to support oilseed production. To support agroforestry, a rapid assessment of coffee seedling demand and varietal preferences was conducted across the West Nile region, (02) coffee mother gardens (KR1–KR7&Arabica) were established to enhance quality seedling production and distribution and 16 extension workers were retooled in coffee production and management.	Targets met

PIAP Output: 01112102 Research - Extension - Farmer linkages strengthened		
Programme Intervention: 011121 Undertake and support appropriate research and genetics improvement and uptake		
6(1 biofertilizer,1 pest control,1 potato,1 onion,1 bean,1 maize) technologies promoted (including selection and packaging of the 6 research technologies for promotion – Finalize documentation, user guidelines, and dissemination materials for each technology . Stakeholder engagement and partnerships for technology promotion ,Engage extension services, farmer groups, agro-industries, and policymakers to create awareness and establish implementation partnerships)	BugiZARDI enhanced agricultural production and technology uptake by establishing parish demonstration sites at Ikulwe, Bulegeni, Buginyanya and Mbale producing 11tons of maize, 20tons of Irish potato, and 800kg of NABE16 beans for dissemination, and submitting 02 highland-adapted maize lines (CEL8&CEL9) for national variety release. Improved onion planting materials were distributed to over 100 farmers and progress was made in developing sprout-based potato seedlings. Over 1,100 farmers and youth were reached through technology dissemination events(Ikulwe field day, Food and Nutrition Security Marketplace) and trained in good agronomic practices. In addition, a Striga biocontrol package was developed and packaged through experiments in 6 districts, the biofertilizer Skeepon was validated across 12 crops and 325 commercial farmers(242 male,83 female) were trained in rice seed enterprise development. Extension workers in Mbale were retooled to strengthen agricultural advisory services.	Targets met
UGX 76985200 generated from the sale of assorted technologies and services	UGX 14,541,000 generated from the sale of assorted technologies and services	Unsold inventory of agricultural products, Underperformance by seed companies, planned Public Private Partnership projects didn’t take off as planned, disposal of assets which occurred during the reporting period

Programme Intervention: 011121 Undertake and support appropriate research and genetics improvement and uptake		
3 Agriculture research technologies (1 beans, 1 fish, 1 pasture) promoted in the zone for production enhancement, food, nutrition and support to industry.	Towards improving agricultural production and productivity, seven improved bean varieties (NABE {4, 17, 19, 15}, NAROBEAN {1, 3, 6}) and four maize varieties (Longe 10H, Bazooka, DT max, MM3) were demonstrated on 01 acre on station. Three acres of soybean multiplication fields were established on station. 01 acre of climate-smart maize (Longe 10H) for forage using 3 options (ZAI pit, ridging, non-ridging) was demonstrated in Bujenje and Masindi districts. 100,000 fish fingerlings were produced and availed to uptake pathways. 127 pasture seeds (Naronap 1 and Packchong) were produced and delivered for uptake pathways. 122 sugarcane accessions were assembled and evaluated to inform future breeding. Spacing regimes for sugarcane (NATAL 14) were developed, and one market study was conducted to determine preferences across the sugar industries. Four improved coffee varieties (KR3, 5, 6, and 7) and various climate-smart coffee production practices were demonstrated in Bunyoro Kitara Kingdom.	Performance on target

4 Agriculture research technologies comprising Potatoes (1), fish (1), diary (1), and apple (1) promoted in the zone for food, nutrition and accelerated agro-industrial growth.	Towards increasing agricultural production and productivity, 2 demonstrations of seed potato hybrids were established with 102 farmers (37 males, 65 females) trained on good agronomic management. 94MT of seed potato were produced and availed to 200 farmers. 5 mother gardens for seed potato were established in 5 districts (Kabarole, Kabale, Rubanda, Mbale and Zombo) for multiplication of seed. Additionally, 1 apple production manual guide was developed along with one apple pruning and defloration calendar to increase apple production and productivity. In terms of value addition, 3 product prototypes (Apple wine, puree brands, and concentrates) were developed to diversify farmers' incomes. 3 apple cooperatives, consisting of 320 farmers in Rukiga, Kabale, and Kween, were trained in apple farming. 1 tissue culture protocol for apple propagation was developed for multiplication of apple seed. Towards improving milk production, 4MT of assorted pastures were produced and availed to farmers.	Performance on target

Two Agricultural research technologies on soil and agro machinery developed for improved production, food, nutrition and industrial stimulation in the entire country.	Towards improving production and reduction of harvest and post-harvest handling losses, one (01) soil map of Amur project site was updated from a scale of 1:250000 to 1:500000 and a soil suitability map developed. A land use map was developed to maximize agricultural productivity, minimize agricultural degradation and address climate change. Two soil maps (Orom East Sub County in kitgum and Lobalangit Sub County in Karenga district) were updated to improve agricultural productivity and optimize environmental resource management. Development of the 1st prototype animal drawn planter for large seeded grains was initiated. The 2nd prototype of the low horsepower motorized bean thresher was designed, fabricated and ready for on-station evaluation. Improved protocols for on-station evaluation of the 2nd prototype of the wet coffee pulper have been prepared. 1st prototype of hybrid solar bio gas dryer was developed to ease drying fruits.	Performance was on target
UGX 187,500,000 generated through sale of 1250 tissue culture plantlets,20,000 coffee seedlings,2 value added products and 5 stakeholder engagements hired at NARL conference facilities	UGX 172,163,700 generated through the sale of assorted agricultural research technologies and services	Unsold inventory of agricultural products, Underperformance by seed companies, planned Public Private Partnership projects didn’t take off as planned, disposal of assets which occurred during the reporting period

250 accessions of strategic germplasm profiled for climate resilience and market traits to enhance breeding. Coffee red blister disease managed in Robusta coffee systems developed. 1 Coffee breeding information management system developed	Towards informing future coffee breeding programs, 170 Robusta coffee accessions were collected from the West Nile sub-region, specifically Koboko and Maracha districts, and profiled for caffeine and carbohydrate content. A report documenting the findings was produced and is available. In addition, 3,082 cuttings were established in the nursery for further evaluation. In addition, one(01) dataset was generated on the efficacy of seven fungicides against red blister disease. Additionally, one dataset was collected on the response of Robusta coffee hybrids to red blister disease, while another captured its socio-economic impact. Furthermore, a laboratory diagnostic protocol for red blister disease was developed based on fungal colony growth characteristics and conidial morphology to ensure the disease can be tested in scientifically sound and repeatable conditions. A phone based app to help identify coffee varieties was also developed by NaCORI.	Performance on target

UGX 115,000,000 generated through sale of 125,000 rooted tissue culture and mini-cuttings of CWD-r Robusta and improved Arabica coffee clones and 875000 rooted and unrooted starter coffee seedlings	UGX 43,487,000 generated through the sale of assorted agricultural research technologies and services	Unsold inventory of agricultural products, Underperformance by seed companies, planned Public Private Partnership projects didn't take off as planned, disposal of assets which occurred during the reporting period
One Coffee research technology (variety) high yielding and climate change resilient promoted across the country for enhanced production and productivity and enhanced incomes	Towards enhancing production, productivity and income generation, three (03) KR coffee varieties(KR8,KR9, KR10) were promoted in the Lake Victoria Crescent through production of high-quality seedlings and delivery for uptake pathways. Furthermore, NaCORI supported ZARDIs across the country to produce 730,491 ready to plant coffee seedlings for distribution to farmers and rehabilitated 17 screen houses to further enhance production of coffee seedlings. A coffee seed quality assurance lab and coffee tissue culture lab were equipped. Assorted facilities were also established including a weaning and hardening facility, a disease screening facility, drought screening facility, a greenhouse, two (02)screenhouses, and a dedicated electricity line on-station and five(05) screen houses at coffee farm innovation centers. A phone based app for coffee variety identification was also developed to boost farmer knowledge and traceability of coffee varieties for researchers.	Proper planning enabled the performance

UGX 139,250,000 generated through sale of 15 tons of maize, 7.5 tons of beans seeds, 750 seedlings of fruit trees and palm and hosting of 12 workshops and conferences	UGX 182,109,000 generated through the sale of assorted agricultural research technologies and services	Performance was due to proper planning and spillovers from Q3
(3) Agriculture research technologies (beans, horticulture (1))developed for food nutrition and industry.	Towards developing agricultural technologies for food and nutrition, Three (03) purple fleshed sweetpotato varieties (NAROSPOT 8P, 9P and 10P) were released with a yield of 19MT per hectare compared to the 9MT of the Babari local variety. 17 promising common bean lines of four market classes were evaluated in three (03) districts Hoima, Nakaseke and Lwengo. 8.2MT of bean seed were produced and disseminated to farmers to increase access to new varieties. NARO in partnership with AC-planter developed and evaluated a skeepon technology; a bio stimulant to boost fertility and increase plant tolerance to diseases across 12 technologies. The technology increases tomato yield at about 48%-55%, maize yield at 23%-28% and 5%-15% yield in soybean enhancing stable crop production. 13 technologies (2 banana lines, 4 rice lines, 3 low land wheat, 2 maize and 2 tomato varieties) were entered into National performance trials for evaluation.	Target was achieved.

2 technologies (1 feed, 1 value addition) promoted for food nutrition and industrial stimulation and increased fish exports for the country	Towards industrial stimulation and increased fish exports, a solar tent dryer was developed to improve post-harvest management of pelagic fish. An organic meat tenderizer with 40% reduction in meat hardness and 85% consumer acceptance was also developed. Fish stock assessments were carried out on 70 fish breeding areas on lake George and Kyoga which recommended a reduction in fishing effort by 25-60%, determined estimated maximum sustainable yield. This was done to ensure sustainable fishing practices and conservation of fish resources. In addition, 56 fisherfolk and their representatives from 8 districts in the Lake Victoria Crescent (Buikwe, Mayuge, and Buyende) participated in a training at Kiyindi landing site, and more than 100 farmers were trained on how to make fish feed from locally available materials such as cassava flour and mukene.	Target met
UGX 200M generated through sale of 5 tons of assorted quality feeds for farmed fish, 200,000 of assorted quality Nile tilapia and 25,000 African catfish seed	UGX 518,318,306 generated through the sale of assorted agricultural research technologies and services	Performance was due to spillovers from Q3

(1) Agriculture research technologies (1 value addition) for forestry industry support and income generation developed and promoted across the country.	Toward development and promotion of technology for income generation, 1st prototype of a hybrid solar dryer for jackfruit with biogas as a backup energy source was designed and fabricated; protocols for technical evaluation of the 1st prototype in place and over 250 farmers trained on production and value addition through outreach events like expos and agriculture shows in Bubutu, Bugobero and Bukhaweka catchments. Toward development of technology for forestry industry support, NAFORRI produced 802,700 assorted agroforestry shade tree seedlings. A comprehensive pest and disease management manual and a low-cost grafting protocol for jackfruit propagation were developed. In addition, five(05) gene banks containing 1,900 elite seed accessions were established, comprising two macadamia gene banks (600 accessions), two cashew gene banks (700 accessions), and one Hass avocado gene bank (600 accessions), to conserve elite germplasm and support future breeding programs.	Targets met.
UGX 43.125M generated from the sale of 31250 high-quality clonal eucalyptus plantlets, 1250 plants for landscaping and ornamental purposes (Roses, Hibiscus, Bougainvillea, Lillies, Bamboo) and 10,000 seedlings of various plantation species	UGX 42,703,900 generated through the sale of assorted agricultural research technologies and services	Unsold inventory of agricultural products, disposal of assets which occurred during the reporting period

UGX 57,500,000 generated from the sale of milk, cows, bulls, and embryos, tons of Napier silage, bales of hay, bags of Napier cutting, and tons of assorted forage seed-legumes	UGX 31,623,140 generated through the sale of assorted agricultural research technologies and services	Unsold inventory of agricultural products, planned Public Private Partnership projects didn't take off as planned, disposal of assets which occurred during the reporting period
1 Agriculture research technology (bio pesticides) developed and promoted for production enhancement, feed, nutrition and industrial stimulation across the country.	To mitigate aflatoxin contamination in economically important crops such as maize, sorghum, and groundnuts, NaLIRRI equipped and accredited the aflatoxin mitigation research and production facility at Namulonge. Furthermore, the facility produced 500 metric tons of Aflasafe for use in aflatoxin management. In partnership with MAAIF, NARO also conducted awareness and efficacy campaigns to promote the integrated use of Aflasafe among farmers in high-risk production areas, including Oyam, Soroti, Bugiri, Kasese, and the Lake Victoria Crescent. The mitigant reduces aflatoxin contamination significantly, with tests conducted in different regions of the country showing efficacy rates of 85-90%, making crops suitable for food as well as meeting necessary standards for commercial production and sale.	Performance on target

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 01411201 Agro-industry standards, certification and accreditation enhanced		
Programme Intervention: 014112 Strengthen compliance to product quality requirements and standards (National, Regional and International)		
3.4 million doses of antitick vaccine manufactured.	Towards combatting economic losses from tickborne diseases, Africa's first anti-tick vaccine factory was commissioned by the President at NaLIRRI in Nakyesasa and NAROVAC-ATV1 was launched. The facility acquired a license to manufacture drugs and a Certificate of Suitability of Premises for drug manufacturing. Commissioned, calibrated and GMP compliant equipment were installed and subsequently, 2.1 million doses of the drug were produced. To strengthen staff capacity, 60 staff members were trained through 33 short courses to meet national and international standards for vaccine manufacturing. Additionally,520 suspected samples of Foot and Mouth Disease (FMD) were collected from Kamuli district to produce 90 liters of SAT-1 FMD vaccine, a raw material for production of 12million doses of quadrivalent FMD vaccine sufficient for 12million heads of livestock. An early warning system for FMD was also developed to help farmers detect the disease early and implement control measures on time	The Additional 20 million doses produced were used in calibrating the vaccine facility and later disposed off.

four bacterial strains with capacity to degrade aflatoxin and impede growth of aflatoxin-producing fungi idnetified	Towards development of an aflatoxin degrading agent, six (06) bacterial strains with capacity to degrade aflatoxin and impede growth of aflatoxin-producing fungi were identified.	Target was achieved and surpassed.
Ten million anti-tick vaccine doses produced and rolled out to various stakeholder to enhance productivity of the livestock subsector.	Towards enhancement of productivity of the livestock subsector, 21 million doses of antitick vaccine produced and used for calibration of the vaccine production facility at Nakyesesa. Additionally, 8.8 million doses were produced for uptake pathways.	Performance was on target

VOTE: 142 National Agricultural Research Organization (NARO)

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1915 Institutional Development for the National Agricultural Research Organisation		
PIAP Output: 01115102 Pest, vector and disease diagnosis and control capacity enhanced		
Programme Intervention: 011151 Strengthen pest, vector, disease management and control		
One naturally attenuated ASF vaccine strain profile determined. 2. ASF antibody profile of survivor pig population determined.	Towards advancing African Swine Fever (ASF) vaccine development and disease surveillance, one (01) naturally attenuated ASF vaccine strain was profiled and the ASF antibody profile of the survivor pig population was determined.	Performance was on target.
One master seed FMD monovalent vaccine (Either O or A serotype) adapted on BHK cells, 2) Atleast 400 suspsected FMD samples collected and analysed	Towards advancing FMD vaccine development, 320 samples of suspected FMD samples were collected from Kamuli which enabled the production of 90 liters of SAT-1 FMD vaccine for shipment to Egypt.	Performance was on target.
Vaccine sanitary facility established to meet regulatory standards	Towards strengthening vaccine production quality and regulatory compliance, sanitary Standard Operating Procedures (SOPs) for the vaccine production facility were developed and approved by the National Drug Authority.	Performance was on target
PIAP Output: 01212101 Harvest, post-harvest handling and storage technologies developed and promoted		
Programme Intervention: 012121 Provide appropriate harvest, post-harvest handling and storage technologies		
• Prototype-3 motorized coffee pulper refined, and final evaluation report developed. • Prototype-2 hybrid coffee solar dryer performance evaluation completed with recommendations for commercialization. • Prototype-1 motorized bean thresher refined based on test results, and evaluation report generated.	Towards improving production and reduction of harvest and post-harvest handling losses, the 2nd prototype of the low horsepower motorized bean thresher was designed, fabricated and ready for on-station evaluation. Improved protocols for on-station evaluation of the 2nd prototype of the wet coffee pulper have been prepared. 1st prototype of hybrid solar bio gas dryer was developed to ease drying fruits.	Performance was on target

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1915 Institutional Development for the National Agricultural Research Organisation		
PIAP Output: 01212101 Harvest, post-harvest handling and storage technologies developed and promoted		
Programme Intervention: 012121 Provide appropriate harvest, post-harvest handling and storage technologies		
18 Agricultural value-added products (citrus, mango, dairy, low gluten therapeutic nutritious composite, Mexican bean weevil management technology, orange and purple fleshed sweet potato developed.	Towards enhancing value addition and post-harvest management, the proximate and mineral composition of experimental flour formulations were determined to assess their nutritional quality. Three (03) citrus related prototypes (crude essential oil prototype, jam and marmalade prototype and pectin prototype) were developed to reduce post-harvest losses by citrus farmers. One spray-dried mango powder protocept was developed alongside 1 of dehydrated slices, mango jam products and one dehydrated protocept from mango waste to enhance waste utilisation. Additionally, in an effort to manage Mexican bean weevil, three (03) varieties of the NABE series were collected from authentic local seed producers in Iganga and screened for bio-assays to assess their levels of damage by Z. subfasciatus. Three cassava varieties were tested for different confectionary products including cupcakes, doughnuts, and cookies to determine variety suitability variety for confectionary applications.	Performance was on target
PIAP Output: 01411201 Agro-industry standards, certification and accreditation enhanced		
Programme Intervention: 014112 Strengthen compliance to product quality requirements and standards (National, Regional and International)		
One Good Laboratory Practice (GLP) certificate acquired Pharmacovigilance data of 500 animals from 1regions of Uganda obtained.	Towards enhancing agricultural production and productivity, one (01) Good Laboratory Practice (GLP) was attained and Pharmacovigilance data on 620 animals from 5 districts was obtained.	Performance was on target

VOTE: 143 Uganda Bureau of Statistics (UBOS)

Quarter 4

Performance highlights for the Quarter

1. The Bureau has provided key outcome indicators required for measuring the performance of the economy i.e. Quarterly Residential Property Price Indices and Inflation, Annual Gross Domestic Product (AGDP), Quarterly Gross Domestic Product (QGDP), Monthly Consumer Price Indices, Monthly Construction Input Price Indices, Monthly Producer Price Index – Manufacturing & Utilities (PPI -M&U), Quarterly Index of Industrial Production and Quarterly Government Finance Statistics Bulletin.
2. UBOS produced and disseminated various reports in the Quarter i.e. National Population and Housing Census 2024 Community Module - Volume 6 published on 9th April 2026, Labour Market Survey Report 2025 published on 16th April 2026, National Human Resource (Manpower) Survey Report 2023/24 published on 23rd April 2026, 30th April 2026, Uganda Aquaculture Census (UAC) Report 2025 disseminated on 21st May 2026, Uganda Business Inquiry 2019/2020 disseminated on 21st May 2026, Uganda Harmonized Indicator (UHIS) Survey Reports - Wave I & Wave II (2021-2024) and Wave III 2025 and 28th May 2026, and Baseline Education Census (BEC) Report 2025.

Variances and Challenges

1. Delayed release of funds for some field trips affects data collection targets and timelines for the Surveys.
2. Weak statistics function in MDAs/LGs; Competing demands by the stakeholder’s affected prioritization of statistical activities by the Planners.
3. Unconducive work environment, limited space, broken furniture.

Quarter 4

Performance highlights for the Quarter

At the end of Q4 FY 2025/26, the Force achieved the following;
A.CRIME PREVENTION AND INVESTIGATIONS MANAGEMENT.
Registered 191,512 cases, made inquiries into 109,246 cases and took 68,058 cases to court
Established 13 additional canine units increasing coverage of canine services countrywide to 125 units in 112 districts. Performed 21,225 canine tracking's leading to arrests of 16,766 suspects.
Processed and Issued 112,872 persons with Certificates of Good Conduct.
B. EMERGENCY RESPONSE
Established 04 new fire stations bringing the total to 51 stations in 33 districts
Responded to 626 of 705 fire emergency calls and saved 539 lives, retrieved 75 bodies.
Carried out operations to enforce traffic laws and regulations countrywide, arrested 307,905 offenders and issued EPS Tickets worth GX 25,163,800,000 /=
C.TERRITORIAL POLICING
Continued implementation of Sub-County Policing Model in 2,037 (93%) out of 2,190 Sub Counties.
Provided security before, during and after the 2026 general.
Enhanced security in Karamoja sub region through joint disarmament operations; Recovered 1,007 heads of cattle out of the 1,143 reported stolen, recovered
440 Goats/Sheep out of the 374 reported stolen and recovered 82 firearms and 365 rounds of ammunition in ASTU operations.
Provided Security in 31 Refugee Settlements in 13 districts.
D. GENERAL ADMINISTRATION AND SUPPORT SERVICES
UPF embarked on the construction of 1,200 prefabricated staff accommodation housing units for police officers at Naguru and 200 Sub County Police stations (currently at 65% completion).
Continued Construction of the Crime Data Analysis Centre is currently at 80%.
Acquired 1,525 motorcycles and 284 units of vehicles and other transport equipment to facilitate the delivery of police services.
recruited, trained and passed out 9,952 (3,484) Probationer Police Constables (PPCs) to improve the police to population ratio.
Developed UPF Budget Estimates, workplans, MPS FY2026/27 and presented to relevant authorities.

Variances and Challenges

VOTE: 144 Uganda Police Force

Quarter 4

i. Emerging and sophisticated crime. Technology and syndicated crimes such as cyber, money laundering are on the increase and demand automation. UPF still has in adequate capacity in terms of Human and equipment to handle.

ii. Inadequate and poor housing facilities. 74% of our entitled staff are not housed and many are renting outside. This makes it difficult to mobilize staff for work.

iii. Inadequate Funding. Out of the required budget of UGX. 2,465.349Bn for delivery of policing services in the FY2026/27, UPF has been allocated UGX. 1,193.541Bn leaving a shortfall of UGX. 1,271.808 Bn. This underfunding affects the Force's ability to deliver its mandate and provision of critical operational inputs including feeding in operations, provision of uniforms, Fuel, fleet maintenance, stationery, Utilities crime intelligence and investigations etc.

iv. Increasing fatalities on the roads. The number of deaths due to road traffic crashes has been increasing majorly due to an unregulated boda-boda industry, poor road designs and undisciplined motorists. There is need for a multi-sectoral approach to solving this problem.

v. porous borders and influx of refugees. This presents additional policing challenges in the refugee camps.

vi. Inadequate human resource capacity Whereas efforts to increase police strength have been undertaken through recruitment of new personnel, the desired strength has not been attained due

to attrition. In addition, it is critical for the Police to have continuous skills development to enhance professionalism, command & leadership.

Quarter 4

Performance highlights for the Quarter

1. Construction of 1,528 staff houses ongoing at different levels; Completed: 1199, Final Finishes: 136, Roofed: 4, Roofing level: 54, Beam: 19, Window level: 46, Foundation: 70

2. Completed construction of 10 prisoners’ wards; Luzira Women (2), Lukaya (1), Isimba (2), Isingiro (2), Kapeeka (1), Yumbe (1) and Lwabenge (1).

3. Construction of 31 low-cost prisoners' wards, using Force on Account, is ongoing at various stages. Final finishes – 15; Roofed - 1, Roofing – 6; Beam – 2; Foundation – 7

4. Prisons production:
a. Seed Production: Produced 1,845.01MT of maize seed; 167.4MT of sunflower seed; 225MT of soybean seed.

b. Cotton production: Produced 4,051bales of cotton from 4,587acres for season 2025. Planted and managed 2,905 acres for season 2026.

c. Maize Grain: Produced 25,353MT of maize grain for prisoners’ feeding from 13,566acres.

d. Uganda Prisons Industries strengthened its partnerships with government Agencies - Generated Non-Tax Revenue worth shs 4.774bn through production of furniture

Variances and Challenges

VOTE: 145 Uganda Prisons Service

Quarter 4

a) Prisoners' population is the major cost driver of prisons budget. It exerts pressure on housing, sanitation, Medicare, feeding, uniforms, staff numbers and delivery of prisoners to courts.

b) Delay in administration of Justice: Prisoners & staff have to move a total distance of 7,474 km daily to access justice amidst high fuel prices & an old fleet leading to high costs of fuel & vehicle maintenance; Delayed production of prisoners to 271 courts hence delayed access to justice, amidst a high remand proportion of 45.9% with Capital offenders staying on remand for 17.5 months and Petty offenders for 3.0 months on average

c) Use of commitment control system amidst inadequate budget provision for basic necessities of food utilities and clothing whose consumption can't be postponed hence over commitment.

d) Provision of utilities on prepaid system amidst the inadequate budget allocation leading to requests for postpaid hence accumulation of arrears.

e) Inadequate & inappropriate physical infrastructure to enhance safety & security of offenders, staff & public; undertake rehabilitation programs; promote the rights of prisoners and separate different categories.

f) Prison Congestion: Current prisons carrying capacity is for a daily average of 23,437 prisoners while the population is 81,874 inmates (June 2026) exceeding the holding capacity by 58,437 inmates - occupancy is 349.3%.

g) Staff Accommodation: 6,637 staff not properly housed. They stay in improvised houses.

h) Security: Changing profiles of offenders with global increase in terrorism; Change in sentencing regime where imprisonment for life and long sentences like 60 years & above are awarded by courts.

i) Drought & Absence of Irrigation Infrastructure: UPS is generally dependent of rainfall yet its patterns are unreliable hence low production.

Key Service Area:000010 Leadership and Management		
PIAP Output: 16090103 Programme institutional overheads managed		
Programme Intervention: 160901 Strenghthen programme institutions for effective and efficient service delivery		
A total of 3,009 in post staff and 2,045 pensioners paid their monthly benefits. 270 prisons & barracks supplied with utilities. 1 Prisons Council & 1 Top Management activities conducted. All the staff and updated their salaries and records validated.	Average of 2,933 in post staff and 2,100 pensioners paid their monthly benefits. 270 prisons & barracks supplied with utilities. 1 Prisons Council & 2 Top Management activities conducted. Coordinated the validation of all staff onto the payroll, updated staff salaries and records in all 19 regions	The lower number of in-post staff was due to staff attrition. Increase in the number of pensioners was because those whose files were pending in previous months were verified and added and the ones who were previously deleted due to missing documents were verified and reinstated.
270 prisons, 19 regions & 38 DPCs facilitated to operate_ supplied with stationery & office equipment. Cleaning and sanitation activities conducted in all 270 prisons.	270 prisons, 19 regions & 38 DPCs facilitated to operate_ supplied with stationery & office equipment. Construction of Kitchen and energy saving stoves at Jinja (M), Jinja R, Mbarara, Nakasongola M&W, Moroto ongoing – awaiting installation of stoves; Construction materials for Luzira Women, Kampala Remand, Kitalya and Fort Portal Prisons procured; civil works ongoing.	There was change in location to Jinja (M), Jinja R, Mbarara, Nakasongola M&W due to scarcity of firewood in the new locations
Completed construction of one seed store (2,000bags) at Ibuga	Construction of a seed store (2,000bags capacity) at Lugore and two drying platforms at Lugore is ongoing	There was a change in the location for the construction of the seed store. It was originally planned for Ibuga, but that Ibuga farm was converted from a seed farm to a grain farm. As a result, the store was relocated to Lugore, where seed processing for oil seeds (sunflower seed) is carried out.
Construction of two (2) storied prisoners wards of 300 prisoners (540 square meters) at Lira completed.	Construction of four (4) storied prisoners wards of 300 prisoners (1,080 square meters) at Murchison Bay - foundation.	Construction at Lira did not take place due to insufficient release of development budget.

VOTE: 145 Uganda Prisons Service

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1813 Enhancement of Prisons Production Systems and Value Addition Project		
PIAP Output: 16111108 Improved safety and security of prisons		
Programme Intervention: 161111 Maintain modern and formidable security sector agencies, for security and emergencies		
Prisoner’s wards of 75 prisoners each constructed at Rubirizi (2), & Pece (2) completed. Clean water systems established at Lira, and Mbale.	Construction of prisoners' wards of 75 prisoners each is ongoing at Kisoro (Final finishes), and Rubirizi (Foundation). Completed sinking of deep well at Luzira Women; Sinking of well at Kampala Remand, Kitalya and Fort Portal ongoing.	Construction at Pece did not take place, and Rubirizi was similarly affected, due to the insufficient release of the development budget. The planned installation of clean water supply systems for Lira and Mbale was deferred, following a management review that redirected the project to Kampala Remand, Kitalya, and Fort Portal. The change was necessitated by acute water scarcity in these new locations, where resultant health crises underscored the urgent need for intervention.
Construction of sanitation & hygiene facilities at Kitalya Prisons Training School completed.	Completed construction of 8 bathing shelters, 2 urinals for trainers and trainees, rehabilitation of 14 stances of toilets & 2 water wells at Kitalya Training School	No variation
Construction of 0ne (01) prisoners’ ward of 75 prisoners each at Bubulo(M), Bubulo(F), Kibuku completed.	Construction of 27 low-cost male prisoners’ wards at Wakyato, Ikulwe (F), Kicheche, Nyarushanje, Mityana, Kapeeka, Lwabenge, Yumbe, Amita, Ruimi, Nakasongola, Isimba, Ndorwa, Aber, Arocha, Butuntumula, Kapeeka, Lwabenge, Maiha & Isingiro is ongoing at various stages. Completed – 10; Final finishes – 9; Roofed – 2; Roofing – 4, Foundation – 2 Construction of 9 low-cost female prisoners' wards at Lwengo (W), Buwama (W), Kaliro (W), Kabula (W), Kasaali (W), Sembabule (W), Paidha (W), Amita (W), and Ikulwe is ongoing at various stages. Final finishes – 6; Roofed – 1; Roofing level – 1, Beam level - 1	The adoption of using the internal capacity of the Engineering Gang and low cost initiatives has made the service achieve high on construction of prisoners' wards.

Quarter 4

Performance highlights for the Quarter

Inducted 84 DSC Members from 19 Districts and 32 CSC Members from 7 Cities. These included the following Districts: Madi-Okollo (4), Rukungiri (4), Lamwo (5), Nwoya (3), Kaabong (5), Busia (4), Kaberamaido (5), Pallisa (5), Budaka (4), Nabilatuk (5), Mayuge (5), Obongi (4), Lwengo (5), Amuria (5), Mubende (3), Ntungamo (5), Buikwe (5), Nakaseke (4), Terego (4).
Performance audit were carried out in 25 districts. These included: Nebbi, Pakwach, Kiryandongo, Buyende, Jinja, Kaliro, Mayuge, Namutumba, Masaka, Kalangala, Mityana, Kassanda, Hoima, Kanungu, Rukiga, Ntoroko, Dokolo, Amolatar, Nakasongola, Butebo, Sironko, Kween, Kaberamaido, Kumi, Bukedea.
Concluded 4 appeals from four Local Governments. These included: Mitooma District - appealed against appointment of Roads Inspector, Scale U5; Busia District - appealed against appointment of Principal Township Officer; Arua District - appealed against not having been given appointment letter for the post of Principal Human Resource Officer/ Secretary DSC, Scale U2; Kapchorwa District – appealed against having not been given appointment for the position of Senior Assistant Secretary/ Secretary District Land Board, Scale U3.

Twenty four (24) D/CSCs were supported in administration of aptitude tests and 24 MDAs in administration of Competence tests. The D/CSCs supported included: Koboko, Kitgum, Tororo, Abim, Katakwi, Amolator, Rubanda, Buhweju, Gulu, Kotido, Adjumani, Nwoya, Oyam, Namutumba, Jinja, Pallisa, Amuria, Kasese, Kabarole, Lyantonde, Mukono, Ntoroko, Kiruhura and Ntungamo.
And the MDAs supported included: Uganda Free Zones and Export Promotions Authority (UFZEPA), Uganda Tourism Board (UTB), Uganda National Oil Company (UNOC), Uganda National Bureau of Standards (UBOS), National Lotteries and Gaming Regulatory Board (NLGRB), Ministry of Gender, Labour & Social Development (MGLSD), Ministry of Agriculture, Animal Industries and Fisheries (MAAIF); Ministry of Public Service (MoPS), Ministry of Local Government

Variances and Challenges

VOTE: 146 Public Service Commission (PSC)

Quarter 4

At the end of the fourth quarter (Q4), FY 2025/26, the budget performance of the Public Service Commission was as follows:

Wage:
By end of Q4, Ushs 3.74 billion, representing 100 % of the approved budget for wage, was released. Of the approved budget for wage, the commission spent Ushs 3.53 billion, representing 94.0%, by end of Q3. Of the total budget released for wage, 94.2% was spent by end of Q3. The additional funding under the revised budget of Ushs. 0.143 billion was not released.

Non-Wage:
By end of Q4, Ushs 18.28 billion, representing 102% of the approved budget for non-wage, was released. Of the approved budget for non-wage, Ushs 18 billion, representing 100.4%, was spent by end of Q4. Of the total released budget for non-wage, 98.4% was spent by end of Q4. The additional expenditure is accounted for by the additional funding of Ushs. 0.355 billion for gratuity.

Arrears:
By end of Q4, Ushs. 0.11 billion, representing 43.3% of the total arrears budget, was released. Of the approved budget for arrears, Ushs. 0.11 billion, representing 43.3%, was spent by end of Q4. Of the total budget released for arrears, 100% was spent by end of Q4. Ushs. 0.15 billion was not released.

Development:
By end of Q4, Ushs 2.54 billion was released, representing 100% of the approved development budget for FY 2025/26. Of the approved development budget, Ushs 2.54 billion, representing 99.72%, was spent by end of Q4. This represented 99.7% of the released development budget.

Quarter 4

Performance highlights for the Quarter

The Commission carried out outreach to assess and strengthen the management, utilization, and revenue-sharing of mineral royalties in Uganda in order to promote accountability, improve intergovernmental collaboration,and generate evidence-based recommendations for more equitable and effective benefit sharing to support theservice delivery agenda in the country. The outreach wascarried out in 6 LGs of Kisoro, Kabale, Kasese, Wakiso,Moroto and Tororo
Technical support was provided to Local Governments tofacilitate theimplementation of the framework linking LocalEconomic Development initiatives to local revenueenhancement across 2 sub-regions in Buganda -Busoga.
This support focused on strengthening the capacity of LGs to identify, prioritize, and integrate revenue-generating LED interventionsinto their planning andbudgeting processes. Emphasis was placed on aligning localeconomic activities with sustainable revenuesources,improving revenue administration practices, andenhancing the linkage between economic growth initiativesand Own Source Revenue performance.
The engagements further enabled knowledge sharing,practical guidance on operationalizing the framework, and strengthened coordination among key stakeholders, there by contributing to improved local revenue mobilization and more resilient local economies.
A mid-term review of the implementation of agreed undertakings arising from the Conditional Grant Negotiations was successfully conducted. The review assessed progress in implementing commitments made by Programme Lead Ministries, Departments and Agencies,Local Governments, and cross-cutting institutions.
The assessment covered eight programme areas,comprising 159 agreed issues and 642 undertakings, andevaluated the status of implementation, key achievements,emerging challenges, & areas requiring further action.The findings provide an evidence base for strengthening accountability, improving intergovernmental coordination,& enhancing the effectiveness of grants.

Variances and Challenges

The funding of Local Government plans is not fully aligned with the Programme Implementation Action Plans (PIAPs). As a result, it is difficult to ensure that Strategic Plans are adequately financed in line with their priorities. This misalignment creates challenges in translating planned interventions into funded activities, thereby affecting effective implementation and the achievement of intended development outcomes.

LGFC rebranding implemented for continuity of then new look of the Commission	The Commission finalized the development of the LGFC Brand Manual following a comprehensive brand audit and consultations with key stakeholders. The process culminated in the preparation, validation, and approval of both the draft and final Brand Manual, providing standardized guidelines for the consistent application and management of the Commission's corporate identity. To strengthen institutional branding and promote a professional corporate image, the three staff members recruited during Quarter Four were provided with branded corporate wear and branded laptop bags as part of their onboarding and integration into the Commission.	
	The second and third phase of capacity building on the Electronic Documents and Records Management System (EDRMS) was successfully conducted by the Ministry of Public Service for 57 staff members. The training focused on the key features and functionalities of the system, including the configuration and setup of different user roles and access levels. This enhanced staff preparedness for the effective adoption and utilization of the EDRMS, thereby strengthening electronic records management, improving document tracking, and promoting efficient records administration within the Commission.	The Commission recruited more staff hence staff numbers changed

Pilot carried out NGOs and donor funding incentives on the basic services	Conducted a comprehensive review on the adequacy and equity of financing for UPE in Uganda, with a particular focus on the contribution of Non-Governmental Organisations to education service delivery. The review synthesized evidence from MOESs data, government policy documents, planning frameworks, commissioned studies, and 32 peer-reviewed publications to assess the effectiveness of the current education financing framework. The assessment identified significant funding inadequacies, regional disparities in resource allocation, and inefficiencies in the existing capitation grant formula. It further examined the extent & distribution of NGO support, highlighting gaps in coordination and integration within government planning and budgeting systems. The findings provide a robust evidence base to guide the Commission's empirical assessment & inform policy recommendations on equitable grant allocation, needs-based financing, strengthened accountability, & improved Service delivery in UG

Report of LGs lagging behind the national average produced	A concept Note was developed and approved. A formal meeting was held with UBOS and requested the necessary data to finalise the first stage. Delays in accessing UBOS data have delayed the finalisation of stage 1 (developing a framework). We are considering devising a new methodology if we fail to get the data. This will feed into the proposed new study on LG financing for social services under REAP II.	However, delays in obtaining the required data from UBOS have affected the timely completion of Stage I of the study, which focuses on the development of the analytical framework. To mitigate further delays, the Commission is considering alternative methodological approaches that can be adopted should the required data remain unavailable.
Capacity building provided to Local Government TPCs on budget formulation for local governments having budget issues arising from the budget analysis.		
Report produced on the mid-term review conducted on the status of implementing the agreed positions by the parties.	A mid-term review of the implementation of agreed undertakings arising from the Conditional Grant Negotiations was successfully conducted. The review assessed progress in implementing commitments made by Programme Lead Ministries, Departments and Agencies, Local Governments, and cross-cutting institutions. The assessment covered eight programme areas, comprising 159 agreed issues and 642 undertakings, and evaluated the status of implementation, key achievements, emerging challenges, and areas requiring further action. The findings provide an evidence base for strengthening accountability, improving intergovernmental coordination, and enhancing the effectiveness of conditional grant implementation. The review was successfully concluded, and a comprehensive report was prepared to inform policy decisions, future negotiations, and follow-up actions by the respective stakeholders.

Capacity building provided to Local Government TPCs on budget formulation for local governments having budget issues arising from the budget analysis.	12 LGs were supported apacity-building engagements focused on improvingbudgetformulation processes, strengthening the linkage between localrevenueprojections, sector priorities and these are the Districts of Sembabule, Lwengo, Rubanda, Masaka, Lyantonde, Masindi, Rwampara, Oyam, Mbarara, Lira, Mitooma, and Nwoya.	
Report and policy brief on the cost of delivering social services (Water and Roads).	The activity was successfully implemented in six Local Governments: Katakwi (pre-test), Kisoro, Pader, Ntungamo, Zombo, and Ntoroko, to assess Local Governments lagging behind the national average in service delivery and identify priority areas requiring intervention through the Equalization Grant. The assessment examined disparities in access to key public services, including education, health, water, roads, and administrative infrastructure, while also evaluating institutional and capacity constraints affecting effective service delivery. The findings have provided evidence-based recommendations to guide a more targeted, equitable, and transparent allocation of Equalization Grants to underserved Local Governments. The study has been successfully concluded, and the final report has been completed and is now available for informing Government policy decisions and future Equalization Grant allocations.

One Stakeholder meeting to finalize the review of the grant allocation formulae for decentralized services	An inter-agency stakeholder engagement was conducted to assess the allocation efficiency of the District Discretionary Development Equalization (DDDE) Grant and Health Grants, with particular focus on the horizontal and vertical allocation criteria and their implications for equity, fairness, and adequacy in financing decentralized service delivery. The engagement brought together key stakeholders to review the effectiveness of the current Intergovernmental Fiscal Transfer (IGFT) allocation mechanisms, identify emerging challenges, and propose options for improving resource allocation. The views and recommendations generated during the engagement will be incorporated into the forthcoming study on Local Government Financing for Social Services and will inform the subsequent review of the Intergovernmental Fiscal Transfer (IGFT) system for decentralized services under the REAP Programme.

Performance highlights for the Quarter

The Commission carried out recruitment for administrative and other staff of the Judiciary and the declared positions for Commissioner, Engineering and Technical Services, Senior Human Resource Officer, Systems Administrator, Multi Media Officer, Protocol Officer. Assistant Secretary, Assistant Systems Administrator, Court Transcriber were processed. The Disciplinary Committee held seven (7) sittings and 23 complaints were handled out and all were against Judicial Officers.The Complaints and Investigation had 154 registered complaints to be investigated and a total of 22 registered complaints against Judicial Officers; and administrative and others staff were fully investigated. The department conducted one (1) on-spot investigation at Iganga CM court.

Conducted Court Compliance Checks in twelve (12) Magisterial areas and 06 High Court Circuits, checked for compliance with legal standards and delivery of timely and quality legal service; Final Third JSC Strategic Plan 2025/2026 - 2029/2030 prepared and approved by NPA for approval; Approved JSC Budget Estimates and Workplan for FY 2026/2027 prepared; Shifted to the JSC new offices at JLOS Tower, Naguru.

01 Prison inmates' sensitisation on JSC mandate, criminal trial procedure, bail, plea bargain and prisoners' rights in Gulu was conducted; 08 radio talk shows on Anti-corruption Interventions conducted and 23 live talk shows on land justice, money lending, children's rights, domestic violence and succession laws conducted using G.O.U funding; 08 Live talk shows on land justice, money lending, children's rights, domestic violence and succession laws conducted using government airtime.; four (4) engagements for court users, Judicial officer and other staff of the Judiciary at Amuru, Lamwo, Mpigi and Bugiri Chief Magistrates Courts were conducted; 01 Sensitisation workshop of Persons with Disabilities District Councils in Arua conducted.

Variances and Challenges

1. The Commission also faces challenge of office equipment: There has been low release of funds under retooling project over the years which has limited the Commission to retool and provide appropriate office equipment to its staff.

2. The change in the Business Process for the disciplinary control function: The change has increased the turnaround time for concluding a registered complaint.

3. The Commission still faces transport challenges that affects timely activity implementation: The Commission's fleet is also past the recommended mileage and age which makes it expensive to maintain.

4. The Commission had a staffing gap majorly under the critical departments: This over works the lean staff and therefore affect delivery.

5. The Commission is not yet fully automated which affects its service delivery to the public: There is a need to fully automate all the business processes for the commission to increase efficiency and effectiveness.

Quarter 4

Performance highlights for the Quarter

NEMA’s approved budget for the financial year 2025/2026 was UGX 41.686 billion. By the close of Quarter Four, a total of UGX 38.977 billion had been released, representing 93.5% of the annual budget. Out of this, UGX 38.318 billion was spent, representing 98.3% absorption rate.
The non-tax revenue (NTR) projection for the Financial Year 2025/2026 was UGX 18.331 billion. During the year, the vote collected UGX 20.464 billion, reflecting a performance level of 112% against the annual projection.
Reviewed 1,301 Environmental and Social Impact Assessment (ESIA) documents against a quarterly target of 1,262, achieving 103.1% performance.
Reviewed 1,672 Environmental Compliance Audit reports against a target of 1,474, representing an achievement rate of 113.4%
Conducted Compliance Monitoring Inspections for 817 project sites out of the planned 936 project sites achieving 87.2%
Conducted 73 Environmental Enforcement operations
Investigated 64 out of planned 131 crimes to support prosecutions
Enforcement operations resulted in 64 criminal cases, 34 arrests and filing of 17 cases in court, successfully secured convictions in 2 cases, lost 2 cases, while 2 cases were dismissed for want of prosecution
Conducted 32 out of planned 25 Environmental Crime Intelligence Operations to support enforcement
Conducted 305 Compliance Monitoring Inspections and surveillance operations to address pollution and degradation incidences.
Conducted compliance assistance inspections for 11 entities to monitor the level of implementation of recommended CP, GE and CE initiatives.
Conducted Air Quality Monitoring across the regions of Eastern, Western, Northern and Central
Celebrated WED, IDB, NEMA @30 and organized National Environment Sustainability Awards
Conducted capacity-building trainings for 205 officials (153 males and 52 females) on natural resource management.
NEMA in partnership with MLPUD, MAAIF and Kisoro district local government conducted land use planning exercises in Kisoro.

Variances and Challenges

Limited capacity of Lead Agencies, particularly Local Governments, to effectively manage environmental resources due to inadequate staffing levels, insufficient funding, and lack of monitoring equipment.
Inadequate financial resources to support environmental management, monitoring, restoration, and enforcement interventions
Low environmental enforcement capacity arising from the inadequate number of Environmental Protection Force (EPF) personnel.
Insufficient numbers of compliance monitoring and inspection staff, which constrains effective environmental oversight and enforcement across the country.

PIAP Output: 06411301 Fragile and threatened ecosystems restored and protected (Rangelands, hilly and mountainous areas, river banks and lakeshores)

Programme Intervention: 064113 Promote sustainable biodiversity management in within and outside protected areas

01 Visibility activation and campaign conducted 01 Stakeholder engagement i.e, religious leaders, members of parliament, and CSOs on NEMA's role and mandate 01 Media relations undertaken	NEMA spotlighted Uganda’s champions of sustainability through the third edition of the National Environment Sustainability Awards 2026 under the theme “Innovation for Climate Resilience”. NEMA honored individuals and organizations driving climate-smart agriculture, biodiversity conservation, environmental journalism.	No Variation
01 Environment education activity in Education Institutions undertaken 01 Stakeholder engagement; Talk shows and campaigns on environment management undertaken	Trained 23 education institutions in the establishment of nursery beds in Adjumani and Kween Districts to promote greening initiatives in Education institutions. Held 13 media engagements on waste management, wetland degradation, deforestation, hilly & mountainous areas, WED 2026 and Climate action. Estimated number of listenership reached is about 5000 people. The media engaged include; Radio One, Next Radio, Radio Amani,Arua one FM, CBS, NBSTV and UCTV. NEMA convened a press conference to commemorate World Environment Day (WED) 2026. The event emphasized the importance of the commemoration and emphasized the shared responsibility of all citizens in addressing the pressing challenges of climate change across the country. Conducted Assessment of the state of environment management in Education institutions as a baseline for the interventions to be undertaken by NEMA and partners in Adjumani District.	No Variation

Quarter 4

Performance highlights for the Quarter

1. Collected 115,000 units of whole blood against 115,000 units planned target of whole blood through out the country
2. Issued 103,500 units of whole blood against 103,500units of whole blood to 625 health transfusing facilities in the country
3. Provided information on blood stocks in various blood banks and centres on daily basis to transfusing health facilities
4. Undertook training and capacity building of staff in appropriate clinical use of blood and blood products in selected transfusing facilities
5. Undertook planning and budgeting for blood transfusion services for all the 10 Regional Blood Banks
6. Carried out monitoring and evaluation of blood operation activities in all the10 Regional Blood Banks
7. Procured some medical equipment
8. Finalised National Blood Policy and UBTS Service Delivery Standards
9. Obtained approval of UBTS Strategic Plan for period 2026- 2030

Variances and Challenges

1. Delays in accessing pay roll by the newly recruited staff. This has led to low absorption of the wage fund
2. Frequent break down of aged blood collection vehicles
3. Reported sale of blood by hospitals
4. None release of funds for procurement of vehicles

Quarter 4

Performance highlights for the Quarter

61 performance audit reports were issued covering 1,945 contracts and valued at UGX 3.79 Tn, and undertook 20 compliance audits, covering 1,093 contracts valued at UGX 307.7 Bn.
A total of 27 bid preparatory audits
The Authority also processed 7 applications for deviations from SBDs related to concessions, share acquisitions, EPC arrangements and land acquisitions.
The Authority handled 4 accreditation applications for alternative procurement systems.
The Authority completed 20 suspension investigations, resulting in the Board suspending 12 providers from participating in public procurement and disposal processes.
PPDA developed a Framework for Standardized Unit Cost Rates for Road and Bridge Construction.
Local content assessments established that 59% of contracts by value were awarded to local providers. The Authority also undertook sector assessments in areas such as energy and steel to identify opportunities for increasing reservations for locally manufactured products and to identify constraints affecting local industry participation.
Eleven entities, representing 25% of the assessed entities, failed to comply with the requirement to reserve at least 15% of their annual procurement budgets for Special interest groups.
Open Domestic Bidding lead time reduced to 105 days, while Open International Bidding reduced to 167 days. At the same time, only 52% of procurements were subjected to open competition, only 40% of contracts by value were implemented according to market prices, only 26% were completed within cost, and payment was made on time in only 39% of contracts.
PPDA initiated the Fifth Public Procurement Integrity Survey and undertook a price survey of commonly procured items.
The Authority trained 1819 stakeholders in different aspects of public procurement including PDE staff, contracts committee members, and providers.

Variances and Challenges

Limited audit coverage. The Authority currently conducts audits on a sample and risk basis. The current audit coverage is only 35% and this position is continuously being worsened by the ever-increasing number of both central and Local Government Entities.
Old fleet of vehicles yet most of the PPDA activities are field-based. This implies that the Authority is not able to send multiple teams to the field to implement the planned activities.
Delayed payments to providers as a result of delayed receipt of funds and non-realization of expected funds disbursement among PDEs; Non implementation of the procurement plans among PDEs, partly attributed to non-realization of entity budgets;
High value projects are implemented mainly by foreign providers, leading to low proportion of contracts by value awarded to local providers;

VOTE: 154 Uganda National Bureau of Standards (UNBS)

Quarter 4

Performance highlights for the Quarter

UNBS' approved annual budget (wage, non-wage, development and arrears) is UGX138.334Bn. By the end of Q4, the Bureau had absorbed UGX 129.188Bn (96.9%) of the total UGX133.300Bn released.

The Non-Tax Revenue collected by the end of Q4 is UGX87.683Bn constituting about 78% of the targeted UGX112.2 Bn.

Product Certification:1,934 products were certified, and 12 companies were certified for management systems in Q4. By the end of Q4, a total of 11,607 product certification audits were conducted cumulatively over the four quarters which consequently resulted into certification of 6,777 products against a set target of 6,000 permits and 31 companies were certified for management systems against a set target of 40 permits respectively.

Metrology and Measurements: A total of 1,553 equipment calibrated (bringing to a cumulative total of 5,557 of the targeted 6,600 (84%) in FY 2025/2026.

A total of 282,986 trade equipment were verified in Q4 as compared to 300,266 verified during the previous quarter (bringing the cumulative number 1,120,496 – 45% of the targeted 2,500,000)

A total of 6,642 market inspections (out of the targeted 9,000) and 368,471 import consignments (out of targeted 300,000) were undertaken.

The Bureau's field operations however remain constrained by limited staff, fleet and automation of processes, as well absence of standby security force to for market inspections.

Variances and Challenges

Inadequate funds to deliver on the institution's mandate as detailed below.

Inadequate staff, fleet and standby force to support field operations especially on promotion and enforcement of standards. Absence of a standby force affects timely response to operational activities. It is anticipated that a standby security team attached to the Bureau would improve real time responses and avoid interference (especially because of political interests) that would otherwise delay or derail immediate action.

Inadequate surveillance intervention of imported goods which form the biggest percentage of the seized products. Most products slip through to the market because of the existing gaps. Surveillance through impromptu checks at the bonds or snap checks of released goods given through alerts would help in the fight against substandard imported products but is curtailed by absence of fund allocations for such preventive and enforcement interventions.

Limited scope of services provided due to inadequate specialized equipment to support testing and metrology functions. Inadequate Laboratory staff for regional laboratories

The decentralization of Bureau's services for better service delivery is constrained due to inadequate funds and staff. However, there are ongoing efforts to lobby from Government and development partners for support.

The Bureau is still undergoing automation of its processes to enhance service delivery. The Management systems certification processes are largely manual and with the increasing workload, the lack of automation has significantly affected the turnaround time for certification activities. There is inadequate equipment namely cameras, laptops, and related technology required to facilitate practical online trainings and virtual engagements.

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 01020401 Agro-processing and value addition standards developed and adhered to		
Programme Intervention: 010204 Establish and ensure compliance to requisite standards		
1500 market inspections, Follow-up inspections, Sectoral reconnaissance visits, 3 Sampling - field samples and test purchases, Intelligence and information gathering, Destruction of condemned goods	1,848 market surveillance inspections conducted against a set target of 2,250 inspections in the period under review to eliminate substandard products from the market. These inspections were conducted in different outlets including supermarkets, retail and wholesale shops, manufacturing facilities, hardware shops and distribution trucks in the Central, Eastern, Western and Northern regions of the country.	Inadequate Surveillance intervention of imported goods yet imported products still form the biggest percentage of the seized products implying a probable intervention with respect to imported products to curb these non-compliant goods. Surveillance through impromptu checks at the bonds or snap checks of released goods given through alerts would help in the fight against substandard imported products but is curtailed by absence of fund allocations for such preventive and enforcement interventions. Absence of a standby force greatly affects timely response to operational activities. It is anticipated that a standby security team attached to the Bureau would improve real time responses and avoid interference (especially as a result of political interests) that would otherwise delay or derail immediate action.

PIAP Output: 01020401 Agro-processing and value addition standards developed and adhered to

Programme Intervention: 010204 Establish and ensure compliance to requisite standards

10 Standards developed, Increased outreach & stakeholder campaigns (marketing standards) by PR department, Procure reference materials, Train 290 internal & external stakeholders, Participate in key policy meetings at regional, continental and international level (EAC, ARSO, CODEX & ISO), Participate in regional & international harmonization TC meetings (EAC, ARSO, ISO, CODEX & EASC SMC)	13 Final Draft Uganda Standards (FDUS) developed in the Agro-industrialization Programme. The standards developed were on fortified cereal products (including fortified rice, fortified beans and fortified maize to cater for nutritional deficiencies) and also standards in the sugar industry value chain for example molasses and jaggery. Participated in 3 key policy meetings at regional, continental and international levels. Participated in 38 regional harmonization Technical Committee (TC) meetings (EAC and ARSO) Participated in 24 international harmonization Technical Committee (TC) meetings (ISO,IEC and Codex Alimentarius)	3 of the standards developed were amendments to existing East Africa Standards. Lack of control of standard development processes in the East African Committee(EAC) region, where UNBS is not the secretariat.

Department:002 Imports inspection

Key Service Area:100003 Inspection of import consignments

VOTE: 154 Uganda National Bureau of Standards (UNBS)

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 04512101 Improved regulation of the manufacturing subsector/ Competitive		
Programme Intervention: 045121 Implement existing Laws and Policies that support Manufacturing (Industrial Licensing Act, Competition Law, Trade Marks Law, Consumer Protection Law.)		
75000 imports consignments inspected, 50,000 inspections for implementation of the imports statutory instrument (ICDs /Border Entry Points / Bonded Warehouses / SCT), 500 onsite supervisory performance reviews, technical support and mentorship conducted to all imports SCT stations, 1 quarterly on-site system & compliance internal reviews conducted for all up-country stations, 300 onsite supervisory performance reviews, technical support and mentorship conducted to all imports national stations, Central Imports clearance and Document Processing Center operationalized to enhance inspection performance at the ICDs and TAT, including enhancing internal controls.	99,786 imports consignments inspected against a set target of 75,000 imports consignments in the period under review. The categories inspected included; food and food products, chemical and consumer products, electrical and electronics, textiles, leather, plastics and rubber, automotive products, building material, mechanical materials and gas appliances.	The increase consignments inspected towards the close of the Financial Year is attributed to the rush of importers who were intent on exiting their consignments and paying taxes before the close of the Financial Year.

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Key Service Area:000037 Certification Services		
PIAP Output: 04411102 Expand the range of and enforce manufacturing standards, specifications, guidelines and codes of practice		
Programme Intervention: 044111 Facilitate access of manufactured goods to regional and continental markets prioritizing EAC, COMESA and AfCFTA		
Undertake 2250 certification audits, Undertake 100 system certification audits, Develop 3 certification schemes for services and personnel certification under the systems certification, Maintain and increase accreditation scopes to cover services, Mentor and coach 500 MSMEs, Enhance 3 marketing of system certification services, personnel and private security (ISO 18788), and ECO Mark Africa, 6 Laboratory recognition Audits, 10 Inter Laboratory Comparison, Support 25 MSMEs with product certification, testing and standards fees payment through a loan scheme, Development of 1 sector specific training materials for engagement, Development of 1 simplified sector codes of practice	1,934 products were certified against a set target of 1,500 products in the period under review. 12 companies certified for management systems against a set target of 10 companies. 3,667 product certification and 25 system certification audits were undertaken respectively. 34 MSMEs were visited onsite for mentorship and gap analysis by UNBS and 70 MSMEs visited UNBS and were provided with certification advisory services. 679 permits issued to micro and small enterprises.	Many applications in the Certification Information Management System (CIMS) are still pending completion of the certification process (pending payment, onsite audit, return of corrective actions or test reports for files to progress to completion. Increased demand for certification observed since start of enforcement of the Distinctive Mark. There is however a backlog of product certification audits due to inadequate resources especially for the central region teams. Lack of digitization of management systems certification processes led to delays in systems certification activities and thus failure to timely ready files for review and subsequent certification decisions.

Doors & Iron Mongery. Finishes both internal & External Balustrading to Staircases Electrical Installations Mechanical installations External works (Parking & Paved aresa, Landscaping, Storm Water Drainage, Incinerator House, Explosive Chemical Store, football Pitch) General cleaning Project Handover.	Completion rate of the Construction of Engineering Laboratory at UNBS Headquarters increased from 56% as at end of Q3 FY 2025/25 to a Completion rate of 83% as at end of Q4 FY 2025/26 representing a 27% increase.	The remaining 17% engineering laboratory completion rate at UNBS HQ will cover activities including; Paved parking; Painting and interior designing; Fixing of lifts and electrical mechanical services. The observed changes in project implementation do not represent a change in the overall project objective . Rather, they constitute necessary implementation adjustments arising from practical project realities. The original project estimated the Headquarters Engineering Laboratory at approximately UGX 25.7 billion. Following completion of detailed

	engineering designs, Bills of Quantities, updated market prices, inflationary effects and revised technical specifications, the estimated construction cost increased to approximately UGX 31.2Bn from UGX 25.7Bn. This increase arose from detailed design refinement and prevailing market conditions rather than expansion of the physical scope of works e.g. The geotechnical survey of the landscape affected the alteration of the initial design.

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Department:003 Market surveillance		
Key Service Area:190028 Market Surveillance Inspections		
PIAP Output: 07212201 Enhanced services for certification, testing, equipment calibration and verification		
Programme Intervention: 072122 Support the access and enforcement of Standards to provide decentralized services to the private sector		
6720 Routine Inspections (Metropolitan and Upcountry), Follow-up inspections, Sectoral reconnaissance visits, 3 Sampling - field samples and test purchases, Intelligence and information gathering, Destruction of condemned goods	1,848 market surveillance inspections conducted against a set target of 2,250 inspections in the period under review to eliminate substandard products from the market. These inspections were conducted in different outlets including supermarkets, retail and wholesale shops, manufacturing facilities, hardware shops and distribution trucks in the Central, Eastern, Western and Northern regions of the country.	Inadequate Surveillance intervention of imported goods yet imported products still form the biggest percentage of the seized products implying a probable intervention with respect to imported products to curb these non-compliant goods. Surveillance through impromptu checks at the bonds or snap checks of released goods given through alerts would help in the fight against substandard imported products but is curtailed by absence of fund allocations for such preventive and enforcement interventions. Absence of a standby force greatly affects timely response to operational activities. It is anticipated that a standby security team attached to the Bureau would improve real time responses and avoid interference (especially as a result of political interests) that would otherwise delay or derail immediate action.

Enhance 3 marketing of system certification services, Undertake 2250 certification audits, 2 Maintain and increase accreditation scopes to cover services, personnel and private security (ISO 18788), and ECO Mark Africa, Mentor and coach 500 MSMEs, Support 25 MSMEs with product certification, testing and standards fees payment through a loan scheme, Development of 1 sector specific training materials for engagement	1,934 products were certified against a set target of 1,500 products in the period under review. 12 companies certified for management systems against a set target of 10 companies. 3,667 product certification and 25 system certification audits were undertaken respectively. 34 MSMEs were visited onsite for mentorship and gap analysis by UNBS and 70 MSMEs visited UNBS and were provided with certification advisory services. 679 permits issued to micro and small enterprises.	Many applications in the Certification Information Management System (CIMS) are still pending completion of the certification process (pending payment, onsite audit, return of corrective actions or test reports for files to progress to completion. Increased demand for certification observed since start of enforcement of the Distinctive Mark. There is however a backlog of product certification audits due to inadequate resources especially for the central region teams. Lack of digitization of management systems certification processes led to delays in systems certification activities and thus failure to timely ready files for review and subsequent certification decisions.

Table V1.3: High Unspent Balances and Over-Expenditure in the Approved Budget (Ushs Bn)

(i) Major unspent balances		
Departments , Projects		
Programme:10 Sustainable Urbanisation and Housing		
Vote Function:01 General Administration and Support Services		
0.159	Bn Shs	Department : 001 Finance and Administration
		Reason: The unspent balance for the Commission during the Financial Year was attributed to three key factors: the absence of staff retirements within the period, changes to the terms of service for the Secretary, and pension arising from one officer's mandatory 15-year period payments elapsing during the year.
Items		
0.075	UShs	273104 Pension
		Reason: The pension balance for the Financial Year arose because one officer's mandatory 15-year period payments elapsed during the year.
0.083	UShs	273105 Gratuity
		Reason: The gratuity balance for the Commission during the Financial Year, was due to the absence of staff retirements within the period, coupled with changes to the terms of service for the Secretary.
0.193	Bn Shs	Project : 1924 Institutional Development of Uganda Land Commission
		Reason: Funds remained unspent during the Financial Year due to slight price fluctuations and possible small over-provision for the item.

Performance highlights for the Quarter

1. Government land titles: 6,680.931 hectares titled and 33 titles processed for MDAs including (Judiciary, Office of the President, ULC, National Leadership Institute, Kitante School, MAAIF, Lake Victoria Primary School Staff Houses, Nalubale Hydro Power station, Ministry of Works and Transport, Moyo Town Council, Ministry of Education and Sports (Bunyororo University), Ministry of Energy and Mineral Development. Mbarara University of Science and Technology, Ministry of Education and Sports (Kitante Hill School), Science, Technology and Innovation Secretariat, 4 ULC).
2. The Commission prepared and submitted 300 detailed reports capturing the location coordinates of physical land parcels. Each report documented the village, parish, sub county, and district information, ensuring accurate geo referencing and strengthening land administration systems.
3. Land acquisition: 11,775.09 hectares acquired and compensated from absentee landlords in Ankole, Buganda, Bunyoro, Bugisu, and Toro. Beneficiaries included Church of Uganda (Kibuga), Makerere University, and Buganda Kingdom (Kiyuni, Buwekula, Mubende).
4. Certificates of title: 2,120 certificates of title to Lawful and bonafide occupants where female were 393, 18.5%, male 1,590,75%, joint owners 127, 6%, Institutions 10, 0.5%)
5. Certificates of title: 8,744 subdivision surveys conducted for Lawful and bonafide occupants.
6. Non-Tax Revenue: UGX 6.305 billion collected nationwide.
7. Lease transactions: 870 processed of which 21% were female, 52% male, 27% companies.
8. The Commission recorded 10 court matters determined in its favor, this resulted in liability averted amounting to UGX 11.55 billion.
9. Land Inspections: 425 Inspection Reports on Government Land and 404 sensitizations conducted across the country.
10. MIS-NTR integration: System successfully linked with NIRA, URA, UBOS, and NITAU.
11. Statutory reports: All required reports prepared and submitted to authorized MDAs.

Variances and Challenges

The implementation of the workplan experienced delays due to the election period. However, following the conclusion of the elections, the Commission resumed and embarked on full implementation of the workplan. By the end of the Financial Year, all annual planned activities were successfully conducted.

VOTE: 159 External Security Organization (ESO)

Quarter 4

Performance highlights for the Quarter

(a) Timely and reliable intelligence collected to ensure National Security for all Ugandans.

(b) Detected and countered emerging external security threats and political subversive activities.

(c) Participated in activities and programs by Regional and International Organs such as the Committee of Intelligence and Security Services of Africa (CISSA), the International Conference on the Great Lakes Region (ICGLR) and the Joint Intelligence Committee (JIC-Nairobi), the Inter-Governmental Authority on Development (IGAD), African Union Support and Stabilisation Mission in Somalia (AUSSOM), and Democratic Republic of Congo (DRC) peace keeping initiatives, the Eastern Africa Fusion and Liaison Unit (EAFLU), Nile Basin Initiative (NBI), and Northern Corridor Integration Center (NCIC), among others.

(d) Supported Uganda’s Foreign Policy positions and interests.

(e) Supported diaspora activities, including commercial diplomatic initiatives, monitored exported labour force, labour exporting companies, emigration and immigration.

(f) Enhanced intelligence collection components through acquisition of classified assets.

(g) Re-skilled Staff in basic, advanced and specialised trainings both within and abroad.

(h) Continued to pay salaries and pensions to ESO Staff and pensioners, respectively.

(i) ESO continued to deploy and re-deploy Staff in Field Stations, Foreign Missions and Strategic Areas of interest.

(j) Continued to extend medical support to Staff and their immediate families at the Jumbo Medical Facility.

(k) Provided food to Staff and their immediate families.

(l) Together with sister security agencies (ISO and other stake holders), ESO developed a Human resource policy.

Variances and Challenges

VOTE: 159 External Security Organization (ESO)

Quarter 4

a. Delayed implementation of approved Strategic projects such as: Construction of the new ESO Headquarters and Institutional development of ESO projects. These projects are at implementation stage. As per the Ministry of Finance, Planning and Economic Development finalisation of the draft estimates for FY 2026/2027, Construction of the new ESO Headquarters project has received an allocation of UGX 15Bn out of the required UGX 77.125 Bn for completion of the project. Institutional development project has so far received UGX 0.316 Bn out of UGX 28.328Bn required for the entire project. These funding gaps and delays have hindered acquisition of advanced technical and transport equipment, assorted medical items, as well as maintenance of privacy and security for both Staff and the current ESO Headquarters.

b. The fast-growing technological developments, coupled with emerging security threats such as Artificial Intelligence and cyber-attacks, necessitates the use of advanced and specialised Information and Communication Technology (ICT) equipment for effective detection and response.

c. Global terrorism, trans-national organised crime such as human trafficking, smuggling and money laundering have placed increased pressure on the Organisation’s financial resources through coordination of intelligence operations across foreign, field and strategic stations.

d. Persistent conflicts with spillover effects like; high refugee influx, proliferation of small arms in the Region and the Ring states (South Sudan, Sudan,Somalia, Democratic Republic of Congo) have increased the risk of insecurity in the country.

e. The institution also grapples with medical challenges for its Staff.

Quarter 4

Performance highlights for the Quarter

1) Safeguarded sector integrity and stability through fit and proper assessments conducted for all licensed schemes and service providers, supported by onsite inspections and continuous offsite monitoring.

2) Collected UGX 134.25 million in application and license fees from sector players and remitted the full amount to the Consolidated Fund.

3) Strengthened fiduciary, governance, compliance, and investment capacities by training 729 trustees, scheme members, and service providers on strategic tax planning, benefits administration, stakeholder responsibilities, and pension fund participation in infrastructure investment.

4) Protected member savings by recovering UGX 13.12 billion in previously unremitted contributions from 24 schemes through targeted supervisory action.

5) Facilitated member protection and dispute resolution by resolving 91 complaints and facilitating benefit payments totaling UGX 145.23 million.

6) Enhanced legal compliance and protection of member rights by sensitizing 140 advocates (33 female, 107 male) on the legal framework governing the retirement benefits sector.

7) Strengthened member awareness, financial preparedness, and scheme compliance by sensitizing 605 members (267 female, 338 male) from five retirement benefits schemes on retirement planning and the applicable legal and regulatory framework.

8) Expanded retirement literacy and public awareness by reaching 405,144 individuals through webinars and social media campaigns on retirement planning and unclaimed benefits.

Variances and Challenges

Expenditure variances during the reporting period were mainly attributed to unspent gratuity funds resulting from delays in filling approved staff positions.

Programme Intervention: 071122 Implement financial literacy programs		
- 05 targeted scheme onsite inspections conducted to ensure compliance with regulatory standards. - Quarterly Contribution Return Reports compiled to guide supervisory actions and reinforce consumer protection. - One financial analysis report with specific supervisory directives compiled to reinforce compliance among schemes.	- Conducted three onsite inspections of the Liaison Umbrella Fund, the Bank of Uganda Defined Benefit Scheme, and the Bank of Uganda Pension Administration System to assess compliance with regulatory requirements, governance practices, and administrative controls. - Reviewed and analyzed 37 annual reports for schemes with December year ends, identifying governance, compliance, and financial reporting gaps. Two annual reports were rejected and trustees directed to submit re-audited reports, while 15 schemes were required to address supervisory concerns and implement corrective actions. - Enhanced monitoring of contribution remittances and protection of members' savings through quarterly analysis of contribution returns, recording total remittances of UGX 759 billion by Q3 FY 2025/26, identifying UGX 31.58 billion in unremitted contributions, and recovering UGX 13.12 billion through targeted regulatory interventions. Follow up actions ongoing to recover outstanding UGX 18.46 billion.	- Two planned inspections not conducted during the quarter due to conflicting activities and inspection scope expansion that caused delays in finalizing Bank of Uganda Defined Benefit scheme and Bank of Uganda Pension administration system inspections. - The joint inspection on Britam Umbrella scheme and unit trust between URBRA and CMA was Postponed to Qtr. 1 of the FY 26/27 to align with the two regulators' work activity schedules.
- Q4 FY2025/26 follow-up report on the implementation of supervisory directives and remedial actions from onsite inspections and offsite surveillance produced.	- Followed up on the implementation of supervisory directives and recommendations issued from previous onsite inspections and offsite surveillance reviews to assess compliance and progress on corrective actions by supervised entities. - Prepared the Q4 FY 2025/26 supervisory follow-up report, highlighting the status of implementation of regulatory directives and key residual risks, to guide further supervisory interventions and inform the FY 2026/27 supervisory plan.	The activity was implemented as planned

Quarter 4

Performance highlights for the Quarter

1. Accreditation of 600 academic programmes by National Council for Higher Education.
2. Training of 100 higher education institutional managers and owners in strategic leadership and governance.
3. Monitoring of 75 institutions of higher learning for compliance by National Council for Higher Education.
4. Training of 95 programme and institutional assessors by National Council for Higher Education.
5. National Council for Higher Education developed 11 minimum standards for academic programmes.
6. National Council for Higher Education equated 390 foreign qualification.
7. National Council for Higher Education recognized 180 local qualification.

Variances and Challenges

1. The National Council for Higher Education faces logistical challenges, as the Council has only three field vehicles to handle 258 Higher Education Institutions covered across the country.
2. Under staffing, as the Council has 74staff against the staff approved structure of 125staff which translates to 49.2%, which is below the minimum Government recommended of 65%.
3. Inadequate funding of National Council for Higher Education which has negatively affected the implementation of its mandate.
4. Limitation of the current Universities and Other Tertiary Institutions Act, Cap. 262, which has negatively affected the implementation of National Council for Higher Education mandate.

PIAP Output: 12020401 Employer-led TVET and Higher Education skilling and training enhanced.		
Programme Intervention: 122212 Equip TVET trainees and higher education graduates with 21st century knowledge and skills		
10 Applications for institutional accreditation and licencing reviewed from higher education institutions by National Council for Higher Education	10 applications from Higher Education Institutions for institutional accreditation and licencing were reviewed by National Council for Higher Education.	Variance (-3) arose because three applications were incomplete and awaited submission of required documentation; reviews were deferred to the next quarter.
25 Higher Education Institutional Managers and owners of higher education institutions trained in governance and strategic leadership.	25 Higher Education Institutional managers and owners were trained on governance and strategic planning by National Council for Higher Education.	No variance was recorded as the target was fully achieved within the reporting period.
20 higher education institutions monitored for compliance by National Council for Higher Education	17 Higher Education Institutions were monitored for compliance by National Council for Higher Education.	Variance (-1) was due to logistical and scheduling constraints that led to the deferment of monitoring visit to one institution, which has been rescheduled for the next quarter.
150 Programmes from higher education institutions accredited by National Council for Higher Education	160 academic programmes from Higher Education Institutions were accredited by National Council for Higher Education.	No variance was recorded as the target was fully achieved within the reporting period.
25 Institutional and programme assessors from higher education institutions trained by National Council for Higher Education	25 Institutional and programme assessors from Higher Education Institutions were trained by National Council for Higher Education.	The slight under performance was attributed to the inability of some nominated assessors to attend the scheduled training due to competing institutional commitments and logistical challenges.

PIAP Output: 12221101 Increase Student Participation in STEM/STEI activities and projects		
Programme Intervention: 122211 Provide early exposure to STEM/STEI to children through innovative science projects in schools and higher education institutions		
50 End Users from higher education institutions trained by National Council for Higher Education on IMIS system	30 Integrated Management Information System (IMIS) End Users from Higher Education Institutions were trained by National Council for Higher Education.	The shortfall was mainly due to delays in the rollout and operationalization of some IMIS modules, coupled with scheduling conflicts and limited availability of nominated end users from Higher Education Institutions. Consequently, some planned training sessions were postponed to allow institutions to nominate appropriate participants and ensure system readiness.

Quarter 4

Performance highlights for the Quarter

1. Construction works for Hoima City Stadium implemented and completed.
2. Construction of AkiiBua Olympic Stadium was ongoing.
3. First Phase of Kyambogo University Training for CHAN /AFCON, Muteesa II Stadium Wankulukuku rehabilitation, FUFA Kadiba Training Facilities for CHAN 2024 football competition completed.
4. LOC AFCON Secretariat office for Uganda Operationalized.
5. 80 medals in international Sports Competitions that is Gold 33, Silver 22, Bronze 25 won.
6. 2 induction trainings of NCS board members Conducted.
7. 4 Sports forums for capacity Building for the National Sports Federations and associations Conducted.
8. 45 National Sports Federations and Associations supported to implement sports activities.
9.. Assorted sports equipment’s were procured and distributed Procured and distributed.
10. Recruitment exercise for new staff for NCS Completed.
11. Registration of the National Sports Federations and Associations fast tracked.
12. construction of the 9 training facilities was Ongoing.

Variances and Challenges

Inadequate funding. NCS received slightly less than the required budget to finance the plan activities and a few planned actions were not implemented during the period under review, especially under the infrastructure projects. However, this is likely to change given the priorities of the plan as articulated in the PIAPs.

Limited and dilapidated Sports Facilities. Uganda lags behind a number of other East African Community States in terms of certified and internationally accredited sports infrastructure. This has led to some international qualifiers being played outside the country yet home advantage in sports is appreciated worldwide. viii) Inadequate provision for performance indicators in the Program-based system. This has led to ineffective annual planning, budgeting, monitoring and evaluation of government programmes.

Legal challenges. There are several legal cases in the Courts of Law in which NCS is a respondent or defendant. The suits drain and drag NCS in terms of time, human, and financial resources which would have otherwise been committed to its core mandate of sports development and promotion.

Quarter 4

Performance highlights for the Quarter

Following the successful completion of Site Acceptance Testing (SAT) for the 7.5 m S/X-Band Earth Observation Antenna System, the ISO certification process for the Ground Station at Mpoma was initiated. Activities undertaken included identification of certification requirements, development of quality management documentation, establishment of standard operating procedures, implementation of quality management processes, technical compliance assessments, and institutional readiness activities to support international accreditation.

32 Kayoola Buses made, Kiira Vehiclce Plant ISO Integrated Management System Certification acquired for ISO 9001 2015; ISO 14001 2015 and ISO 45001 2018. E-Bus Xpress Operations in GKMA Commenced. Board for E-Bus Xpress Inaugurated. Launch of EBX Student Service with Kololo SS (Over 90 Students onboarded).

Three banana fibre extraction machines were reverse-engineered, comprising one electric-powered machine and two diesel-powered machines for extracting banana fibre used in the production of hair extensions, handicrafts, floor carpets, and other value-added products.

Commissioned the Katebe Milk Processing Plant, increasing its processing capacity from 500 litres to 4,500 litres.

UGX 17,120,000 was generated from the sale of reverse-engineered products, including chaff cutters, gears, shafts, and other fabricated components.

AI operationalisation was advanced through the initiation of a flagship applied research project on AI-driven price prediction, undertaken in collaboration with the Bank of Uganda, Makerere University, and researchers from the South African banking sector. The project seeks to leverage high-performance computing and machine learning techniques to support central bank forecasting and monetary policy analysis.

A total of 18 value added banana products were commercialized. Of those, 14 were from PIBID resulting into annual sales of UGX 6 billion, doubling the targeted as per the workplan.

Variances and Challenges

VOTE: 167 Science, Technology and Innovation

Quarter 4

Land ownership challenges with Ministry of Water and Environment (NFA) have delayed the initial activities that were planned to be undertaken in Kayunga to facilitate the development of the Automotive Industrial Park. Negotiations are ongoing to solve differences

In undertaking the establishment of charging infrastructure for electric vehicles, delays in approval of framework by Solicitor General have slowed down the progress during the year.

In the aerospace programme, implementation of the marketing strategy for Uganda on regional and international platforms launch of business venture in spacecraft was affected by the lengthy timelines associated with international policy and treaty processes, including multilateral review and approval procedures for international memberships and agreements. Progress on the National Space Policy, Space Bill and Regulatory Impact Assessment was also influenced by extended inter-agency consultations and Cabinet submission processes.

Implementation of the Ground Station certification process was affected by the phased completion of the 7.5 m S/X-Band Earth Observation Antenna System, as initiation of the ISO certification process depended on successful completion of system installation, integration and Site Acceptance Testing (SAT). Following commencement of the certification process, progress remained dependent on fulfilment of ISO certification requirements, implementation of the Quality Management System (QMS), completion of documentation and compliance audits, and scheduling of external certification assessments. In addition, issuance of operational authorization by the Uganda Communications Commission (UCC), coordination of commissioning activities, and alignment of institutional procedures with international quality and operational standards affected the timeline for achieving full international certification and operationalization of the Ground Station.

An internationally certified Aerospace Design and Testing Laboratory; and Geospatial Data and Analytics Centre renovated and equipped	Delivey of the Space AIT equipment is under way. Procurement of Aerostat system for data collection are nearing completion. Renovation and modernization works for the Aerospace Design and Testing Laboratory and the National Geospatial Data and Analytics Centre continued during Q4 under Phase II refurbishment of the Mpoma Satellite Earth Station, currently at 60% cumulative physical progress as of June 2026. The Significant progress was registered in completion of structural works, internal finishes, electrical and plumbing installations, ICT infrastructure, utility services and preparation of laboratory spaces to accommodate specialized aerospace research and testing equipment. In parallel, the Bureau initiated the ISO certification process through establishment of the preliminary certification requirements, development of quality management documentation, infrastructure compliance assessments, identification of certification gaps, and engagement with the certification process.	Progress towards operationalization was affected by the phased implementation of Phase II refurbishment works, which delayed installation of specialized laboratory equipment and commencement of final certification audits. Additional challenges included procurement lead times for specialized laboratory systems, dependency on completion of building services and utilities, and the requirement to complete all infrastructure works before undertaking final ISO certification and accreditation processes.

2 Aerospace prototypes tested for scaling up	Technical evaluation, prototype refinement and implementation planning for priority aerospace innovation projects continued during Q4. Comprehensive engineering reviews, feasibility assessments, systems analysis and technical validation were undertaken for strategic aerospace innovations including the Aerostat System, eVTOL Aircraft, UAV Battery Charger Dock, Aviation Bolt and Sub-Orbital Craft concepts to strengthen their technical maturity and readiness for prototype development through proof of concept development and testing. Significant progress was registered on the Aerostat System, with the procurement process advancing to the contract approval stage and the procurement file currently under clearance by the Solicitor General prior to contract signing. This milestone represents a critical step towards acquisition of the Aerostat platform for research, testing and operational deployment. Preparatory activities for prototype testing infrastructure and implementation planning also c	The lack of an operationalisation framework for the Innovation hub as part of the Mpoma Space Centre.

Ground station Internationally Certified	Following the successful completion of Site Acceptance Testing (SAT) for the 7.5 m S/X-Band Earth Observation Antenna System, the Bureau initiated the ISO certification process for the Ground Station. Activities undertaken included identification of certification requirements, development of quality management documentation, establishment of standard operating procedures, implementation of quality management processes, technical compliance assessments, and institutional readiness activities to support international accreditation. Preparatory activities for operational commissioning and regional satellite data-sharing continued in parallel. Full ISO certification will be completed upon fulfilment of all certification requirements and successful completion of the external certification audit.	Implementation of the Ground Station certification process was affected by the phased completion of the 7.5 m S/X-Band Earth Observation Antenna System, as initiation of the ISO certification process depended on successful completion of system installation, integration and Site Acceptance Testing (SAT). Following commencement of the certification process, progress remained dependent on fulfilment of ISO certification requirements, implementation of the Quality Management System (QMS), completion of documentation and compliance audits, and scheduling of external certification assessments. In addition, issuance of operational authorization by the Uganda Communications Commission (UCC), coordination of commissioning activities, and alignment of institutional procedures with international quality and operational standards affected the timeline for achieving full

international certification and operationalization of the Ground Station.		
Marketing strategy for Uganda on regional and international platforms designed and international treaties for consideration reviewed and proposed business venture in spacecraft launched	Uganda's positioning in the regional and international aerospace sector was strengthened through continued policy engagement, international cooperation and strategic representation. Uganda's request for membership to the United Nations Committee on the Peaceful Uses of Outer Space (UNCOPUOS) was successfully considered and agreed upon during the Committee's session in Vienna in June 2026, representing a major milestone in the country's integration into the global space governance framework. The request is scheduled for consideration by the United Nations General Assembly (UNGA) for formal approval. In parallel, the Bureau continued reviewing international space treaties and cooperation instruments, advanced implementation of the National Space Policy and Strategy, and developed strategic initiatives to position Uganda as an emerging participant in the regional and international space economy. Preparatory activities for international marketing and promotion of Uganda's aerospace	Implementation was affected by the lengthy timelines associated with international policy and treaty processes, including multilateral review and approval procedures for international memberships and agreements. Progress on the National Space Policy, Space Bill and Regulatory Impact Assessment was also influenced by extended inter-agency consultations and Cabinet submission processes.
	Preparations for commencement of the Satellite Design Phase Training were finalized targeting university students participating in the Satellite Domestication Project drawn from ten (10) universities across Uganda. The training programme is intended to strengthen practical competencies in satellite systems engineering, spacecraft design, mission planning, and space systems integration among emerging aerospace talent. Additionally, one Bureau staff successfully completed specialized training in Strategic Fibre Optic Infrastructure Deployment and Regulatory Management at the Digital Bridge Institute in Abuja, Nigeria, enhancing institutional capacity in digital communications infrastructure and regulatory oversight relevant to aerospace and satellite operations.	No variation

One (1) industrial cluster formed with Innovation-Driven Enterprises (IDEs)	One Innovation-Driven Enterprises (IDE) industrial cluster, Wingloft, is currently in the product prototyping phase.	Inadequate funding to establish, operationalize, and scale group-owned Innovation-Driven Enterprises (IDEs), limiting their growth, productivity, operational efficiency, and long-term sustainability. The absence of a formal organizational structure, which constrained the effective allocation, coordination, and management of human, financial, and other institutional resources, thereby affecting the efficient implementation and scaling of IDE activities.
2 reverse engineered product launched	Two 10 HP chaff cutters were produced. Three banana fibre extraction machines were reverse-engineered, comprising one electric-powered machine and two diesel-powered machines for extracting banana fibre used in the production of hair extensions, handicrafts, floor carpets, and other value-added products. An integrated loom machine was manufactured to support the cloth-making cottage industry. Commissioned the Katebe Milk Processing Plant, increasing its processing capacity from 500 litres to 4,500 litres.	Inadequate funding and delays in the procurement of key raw materials constrained the timely production and commercialization of reverse-engineered products, including the temporary suspension of crucible production for the Medium Foundry.

Database for technology information created; a national technology plan developed; technology information for value chain in prioritized sectors disseminated	The process of procurement of leather working equipment for the MTAC Leather Facility was undertaken but the first request for quotation that was sent to the leather equipment manufacturers in China was not responded to because of the condition of payment stipulated in the bid document which is a normal PPDA requirement. Subsequently, a second request for quotation was sent to local suppliers who would purchase equipment from manufacturers and supply to STI-OP and bids were received and evaluated in June 2026. However, the procurement process could not be concluded because the best evaluated bidder had a cost that was higher than the available funds and any changes in the scope of the procurement could not be done in time before the close of the financial year.	Manufacturers of leather products located in various places in Kampala, Wakiso, Mukono and in upcountry districts are using rudimentary tools for manufacturing items like footwear and bags which will affect the strategic utilization of the MTAC Leather Facility as a common user facility for leather value addition by the various actors involved in leather manufacturing. The planned inter-ministerial meeting involving STI-OP, Ministry of Trade, Industry and Cooperative (MTIC) and Ministry of Education and Sports over the different roles of each of the three ministries in the operationalization of the MTAC leather facility has been delayed and consequently delayed the initiation of procurement of the equipment by STI-OP to be installed in the MTAC leather facility. There are no local suppliers of leather footwear making equipment and yet international suppliers of the leather working equipment

Electronics Manufacturing Facility with manufacturing capacity of 100,000 units per year operational	A Technical Committee comprising representatives from STI, EDIC, and Innovex was constituted to support the innovator, Innovex, in the procurement of the Electronics Manufacturing Line. The Committee undertook a structured evaluation of bids and prospective suppliers, assessing technical compliance, production capacity, pricing, and delivery terms. Following this rigorous evaluation process, the full production line was successfully procured, marking a significant milestone toward the establishment of the Electronics Manufacturing Facility with a target capacity of 100,000 units per year.	The project encountered several challenges during the year that affected the pace of implementation. The very high import taxes imposed on equipment for the Electronics Manufacturing Facility significantly increased procurement costs, prompting the submission of a tax exemption request to the Uganda Revenue Authority (URA). The subsequent delayed issuance of the tax exemption has in turn delayed the shipment and installation of the procured machinery, pushing back the anticipated commissioning timelines. In addition, extended manufacturing and preparation lead times from international suppliers have constrained the speed at which equipment can be delivered. Coordination during procurement was also affected by language barriers when engaging some international suppliers, which slightly slowed communication during contracting. Collectively, these challenges have

Local electronics casing and packaging line comissioned and operationalised	Following further assessment by the technical team, a strategic decision was taken to procure a Printed Circuit Board (PCB) manufacturing line as a critical component of the local electronics casing and packaging capability. To inform this procurement, benchmarking visits were undertaken to India and China, where the team evaluated leading manufacturers, reviewed operational PCB lines, and gathered insights on technology options, production workflows, and supplier capabilities. Building on these engagements, detailed technical specifications for the PCB manufacturing line were developed, defining the performance, capacity, and quality requirements to guide the subsequent procurement process. This positions the project for supplier selection and acquisition of the PCB manufacturing line in the next reporting period.	Several challenges affected the pace of implementation. Deeper technical assessment during the year revealed that the initially scoped casing and packaging line would not adequately meet local electronics manufacturing needs, necessitating a strategic pivot toward a PCB manufacturing line. This shift required additional time for benchmarking, redefinition of technical specifications, and re-engagement with suppliers, extending the overall project timeline. Coordinating international benchmarking visits to India and China also introduced logistical and scheduling complexities. In addition, the recurrent challenge of high import taxes on electronics manufacturing equipment, together with extended supplier lead times driven by global demand, continued to affect cost planning and procurement timelines for this track.

Fully equipped Local Programmable Automation Controllers (PAC) Manufcaturing facility established	Equipment was procured and shipped into the country	The project encountered several challenges during the year that affected the pace of implementation. The very high import taxes imposed on the equipment and inputs required for the PAC Manufacturing Facility significantly increased procurement costs, prompting the submission of a tax exemption request to the Uganda Revenue Authority (URA). Delays in the issuance of this exemption have in turn slowed clearance and onward movement of the procured equipment, affecting the anticipated installation and commissioning timelines. In addition, extended supplier lead times and international shipping logistics further constrained the pace of delivery. Active follow-up with URA and close coordination with suppliers and freight partners is being pursued to mitigate these delays and keep the Facility on track for operationalisation.

Programme Intervention: 133131 Support Technology Development, Transfer, Industrialization and Commercialization in the Prioritised Industrial Value Chains		
Fully equipped State-of-the-art Carbon Access Lab established	Carbon Access Lab Established and operationalised. Carbon Access Lab successfully finalized and refined its strategy framework, integrating specific market segmentation to guide its programmatic focus. A key technical milestone was the onboarding of a Designated Operational Entity (DOE) expert, who conducted initial pre-carbon assessments for Noa’s Herd Solutions Limited and Alkebulan Agri-tech UG Limited. These assessments identified necessary data for Project Design Document (PDD) development and clarified potential carbon pathways. Additionally, the lab operationalized its readiness grant process by evaluating Expressions of Interest (EOI), receiving a formal submission from Noa’s Herd Solutions Limited and preparing corresponding consultation plans.	No variation
Local Carbon Origination Platform developed	The platform was procured and deployed and is now fully operational and accessible online at pearlcarbon.africa, with Ugandan carbon projects onboarded and actively using the platform for project origination and management.	No variation

Fully equipped AI Studio established and operationalised	The AI operationalisation were advanced through the initiation of a flagship applied research project on AI-driven price prediction, undertaken in collaboration with the Bank of Uganda, Makerere University, and researchers from the South African banking sector. The project seeks to leverage high-performance computing and machine learning techniques to support central bank forecasting and monetary policy analysis. In this quarter, the project team was formally constituted and a joint working group established, bringing together technical, academic, and central banking expertise across the participating institutions. Initial coordination meetings were held to align on project scope, governance structure, data-sharing arrangements, and technical requirements, laying the groundwork for model development and utilisation of the HPC, GPU, and storage infrastructure being procured under the Bureau. Local Soverign cloud operationlised with a capacity of 1,200 TB	The cloud infrastructure is in place and user onboarding onto the platform is currently in progress.	The primary challenge encountered during the year was the denial of the tax exemption request for the cloud infrastructure hardware, which significantly delayed customs clearance and consequently the installation of the equipment. This has affected the overall project timeline and pushed back planned deployment milestones. In addition, the reliance on international procurement, pre-configuration, and shipping introduced extended lead times that further constrained the pace of implementation. Engagements with the Uganda Revenue Authority and other relevant stakeholders are ongoing to expedite clearance and enable timely installation, testing, and full commissioning of the sovereign cloud infrastructure.

4 scientists and engineers trained in Industry 4.0+ and emerging technologies and 1 hardware startups incubated through the Hardware Design & Incubation Lab	Implementation was advanced through capacity building and incubation activities, including the competitive selection of 30 innovators and startups into the AI Innovation Academy and the incubation of three mature AI health startups under Pathogen Economy Labs.	Several challenges affected the pace of implementation during the year. Access to specialised training equipment and prototyping tools required for hands-on Industry 4.0+ and emerging technology programmes remained limited, constraining the scale and depth of practical training that could be delivered. The high cost of importing specialised electronics and hardware components, together with extended supplier lead times, further affected the pace of incubation and product development for startups. In addition, attracting and retaining highly skilled instructors and mentors in emerging technology domains proved difficult given the competitive market for such expertise. Mitigation measures, including strengthening partnerships with academic and industry institutions, expanding mentor networks, and progressively upgrading laboratory and prototyping infrastructure, are being

Detailed Masterplan completed and feasibility completed	Completed the project profile for the MoFPED Project Investment Plan (PIP) with Prefeasibility study conducted and draft masterplan available for 152.2 acres of the proposed facilities within the Biosciences park now holding extensive engagements with technology suppliers (Sartorius AG, Melvin Panlytical, DLA Scientifics) to undertake the detailed Designs of the individual components of the Park.	Lack of proper definition for the technical requirements of the individual specialized facilities in the park where technology partners have been identified and design requirements for each specialized facility are ongoing
Clinical trials Completed	1)Diabetes Mellitus (DM) trial commenced 2) 28 participants enrolled for DM clinical trial on three natural medicinal products (Jena DM, Glucoplus and Glucotak) 3) 100 indigineous scientists trained on drug handling, research and development. 4) Submission of protocol ammendment for the malaria prophylaxis trial to include a second Invstigational New Drug, Jena Mal 5) Submission of Preclinical trial (safety and afficacy) studies to IACUC for 5 malaria herbal therapeutics (Chinona Honey Syrup, Bewaibo tincture, Malaraid Herbal Syrup, Maisha Herbal Syrup, Biggi Herbal Malaria Syrup, and Defmal Herbal Syrup) 6) From the in vitro platform, Sterility data for 34 products has been done, Invitro cytotoxicity has been done for 16/21 products, Antibacterial and antifungal assays were conducted for 16 out of the 21 products which passed sterility test received during the reporting period. 5/21 products (1 from CoNAT and 4 from Kabale) did not qualify for antibacterial or antifungal testing. Al	No variation

VOTE: 167 Science, Technology and Innovation

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 13313101 Vaccines, Diagnostics, Therapeutics, Medical Inputs developed		
Programme Intervention: 133131 Support Technology Development, Transfer, Industrialization and Commercialization in the Prioritised Industrial Value Chains		
	2 day Stakeholder engagement workshop held with accreditation players (UGANAS, UNBS, NDA, NBC, UNCST, among others) for development of the accreditation assessment tool and strategy for strengthening of the Uganda National Accreditation Services - UGANAS under Ministry of Trade	Lack of funds for activities delayed progress and some activities had to be pushed to next FY National Mandated body for accreditation needs more strengthening to aid in achieving the activity
National Pathogen Economy Strategy launched	Review of Input from the Pathogen Economy stakeholders input into the developed strategy for Draft 2	No variation
A database for the different players in the Traditional and Indegenous Knowledge developed	Over 70 Indigenous scientists from the profiled database taken through a 2 day training workshop on herbal medicine standadization	On track
Integration of the Model code into the Dashboad and piloting completed	Further engagements with stakeholders from different organisations e.g NITA-U , RECs , Modva ,Institutions e.t.c have been carried out to map out a clear road for pathogen data sovereignty.	Inter-Agency delays STI-OP & MoDVA. Failure of procurement with some system necessities. Failed inter agency data sharing due to protocol from the M.O.H.
Starch pharmaceutical grade tablets and syrups developed	Engagements to have the lab to be accredited and onboarded by regulators (NDA and UNBS) as a National QA/QC lab for tablets, pharmaceuticals and cosmetics	Insufficient institutional funding to advance the work

Key Service Area:000014 Administrative and Support Services

PIAP Output: 13211301 Curriculum review and development supported

Programme Intervention: 132113 Update the curriculum to support STI Industrial Human Capital Development

Curriculum review support provided	No school curriculum review and/or development was undertaken during this quarter. However, Uganda Electric Vehicle Curriculum Development Stakeholder Workshop was held in partnership with the Uganda E-Mobility Association, Enabel, and the Uganda Vocational Training and Assessment Board. The curriculum for electric motor vehicle operation is being developed to enable training of operators and mechanics.	Process of scrutinising existing curricula to identify interventions is ongoing

PIAP Output: 13311201 Inter-sectoral collaborations, engagements and programs

Programme Intervention: 133112 Establish platforms for STI collaboration

2 new markets for STI new innovative products initiated	The Made-In-Uganda outlet was established at Lugogo UMA Show ground. The outlet creates an opportunity for the innovators with new products that are not known in the market to bring them to the people. Additionally, it assists them to cut out on the cuts of publicity and space renting. When the products gain traction among the public, they can then move to establish their own spaces.	No variation

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 13311201 Inter-sectoral collaborations, engagements and programs		
Programme Intervention: 133112 Establish platforms for STI collaboration		
2 inter-sectoral engagements undertaken or facilitated	Under the Pathogen economy, engagements were undertaken to have the lab for starch pharmaceutical grade tablets to be accredited and onboarded by regulators (NDA and UNBS) as a National QA/QC lab for tablets, pharmaceuticals and cosmetics. Additionally, two day stakeholder engagement from different MDAs and private institutions such as NITA-U, RECs , MoDVA, to map out a clear road for pathogen data sovereignty model conducted. There was also review of input from the Pathogen Economy stakeholders input into the developed National Pathogen Economy strategy for Draft 2. Under Infrastructure, a Technical Committee comprising representatives from STI, EDIC, and Innovex was constituted to support the innovator, Innovex, in the procurement of the Electronics Manufacturing Line. Uganda's request for membership to the United Nations Committee on the Peaceful Uses of Outer Space (UNCOPUOS) was successfully considered and agreed upon during the Committee's session in Vienna in June 2026	No variation

Quarter 4

Performance highlights for the Quarter

The value of Uganda’s merchandise exports increased by 38.5% from USD 1.413 billion between July 2025 and june 2026 to USD10.20 billion in the period July 2025 to March 2026 driven by increased refined gold, coffee, cocoa, sugar, fish, base metal and products exports.
The key export markets include Middle East, EAC, COMESA, Asia and the European Union
2. Entebbe International Airport Free Zone completion level is at 100%
3..UFZEPA licensed 16 Free Zones as of Q4. This increased the total number of licensed free zones from 43 in June 2025 to 55 by june 2026.
4. During this period 2025/26 Free Zones generated UGX 212.52 billion as Tax revenue from Free Zones
5. In 25/26 Free Zones created 25,182 jobs
6. Local purchases amounted UGX 189.63 billion
7. Exports from Free zones between July 2025 and June 2026 amounted to USD 1.413 billion in gold, coffee, wheat, flowers and horticulture.
8. Facilitated Two (2) Free Zones to acquire financing from UDB amounting to UGX 1.9BN
9. Export Awareness, Training and Capacity building – 334 exporters/MSMEs trained /capacity building on export readiness
10 Participated in 5 international trade events and these include;World Expo 2025, Osaka, 9th Tokyo International Conference on African Development (TICAD 9), Intra-African Trade Fair 2025, Algiers, Algeria, Malaysia International Halal showcase, World Halal Summit and Expo, Turkey 2025.
11. Provided market information and customized advisory services where 157 walk-in clients were facilitated with information and counselling services,
12. export-ready companies were recommended to (MAAIF) for issuance of horticulture export permits, and 13 companies were issued exporter certificates to start exporting.
13. UFZEPA participated in the Kenya-Uganda bi-lateral negotiations to resolve outstanding tariff and non-tariff barriers inhibiting trade between Uganda and Kenya. Both parties agreed to implement the provisions as enshrined in the Customs Union Protocol

Variances and Challenges

VOTE: 168 Uganda Freezones and Export Promotion Authority

Quarter 4

1.Inadequate financing for the Authority to execute its mandate and implement all its Interventions as stipulated in the Program Implementation Action Plans (PIAPs) of the NDPIV.
2.Lack of sizeable strategic land for the establishment of Public Free Zones: The Authority’s mandate to develop public Free Zones has been constrained by the scarcity of adequately sized and contiguous land parcels.
Weak Policy and Regulatory framework on Free Zones: The Free Zones Programme in Uganda is not harmonized with the regional frameworks leading to poor implementation of the incentive regime.
3. Existence of several Single Factory Units as Export Processing Zones: constrains service delivery and limits the ability to take advantage of industrial clustering and agglomeration benefits which are inherent in well-established and planned Free Zones.
4. Limited number of operational Free Zone schemes and restricted market access: Uganda’s small number of operational Free Zone schemes has limited visibility, investment attraction, and economies of scale.
5. Inadequate Market Intelligence, Export Product development, and Profiling of supply chains limiting market penetration and sustainability.
6. Lack of an interactive and comprehensive exporter database which has continued to constrain the Authority’s ability to disseminate trade and market information to Exporters.
7. Inactive and underutilized Trade and Economic Agreements has led to underutilization of negotiated markets for Uganda’s products.
8. Low global visibility of Uganda’s Export in International market

VOTE: 169 Uganda Vocational and Technical Assessment Board

Quarter 4

Performance highlights for the Quarter

a) 31,400 (10,771 M & 20,627 F) candidates assessed for Informally Acquired Skills with 663 SNE candidates and deployed 1,096 assessors.
b) 23,949 trainees were inspected by 60 monitors from UVTAB (15F & 30M) and the World of Work (5F & 10M) in the categories of Technology (2,559F & 10,282M), Business (5,596F & 2,581M), Agriculture (6,76F & 813M) and Home Science (1,087F & 355M) in 214 assessment centres.
c) Total of 1,779 projects were inspected (1,182 Business, 362 Technology, 122 Home Science and 113 Agriculture.
d) 14,273 candidates assessed for real life projects assessment.
e) Developed 348 and 44 pretested test items.
f) 27,303 TET transcripts printed, issued 24,690 transcripts and 8,204 certificates to successful candidates. 39026 VET transcripts printed and 27,670 transcripts Issued
g) A team of 23 (17 M and 6 F) members conducted and generated individualized functional & psycho-educational profiles for all SNE candidates.
h) 57 (35 - 11F and 24M from WoW and 22 - 12F and 10M from UVTAB) participated in a validation of the SNE guidelines.
i) 4,255 for levels (I=3,748, II=404, III=78 and IV=25) assessment scripts for 13,178 candidates were marked.
j) Minister for Higher Education released results at National Skills Assessment Centre for 158,940 candidates assessed for Nov/Dec 2025 series and 27,460 (11,169F & 16,291M) end of programme.
k) 4 ATPs developed and 7 ATPs reviewed in Technology & Home Science.
l) 10 (2F & 8M) trainers oriented on ATP and CBA for 22 ambulance drivers (5F & 17M) trained as assessors and test item developers under NWSC.
m) Training guides developed for artisan, craftsman & technician levels for TET phase 1 (construction) Developed 29 (14 diploma & 15 business).
n) Competency profiling & content development for TET phase 2 (Mechanical, Electrical & ICT) of 15 new training programmes.
o) 126 (113M & 13F) heads of TVET providers had a stakeholders engagement meeting on adopting major TVET reforms.

Variances and Challenges

a) Accreditation of Assessment centres as the demand for assessment increased awaits licensing of TVET providers by the TVET Council.
b) Inadequate experts from the World of Work to ensure the employer-led TVET system.

Quarter 4

Performance highlights for the Quarter

The approved budget for FY2025/26 was UGX390.610Bn. By end of Q4, University had received UGX380.083Bn (W–221.607, NW-135.084, & Dev–UGX 23.392Bn, Ext -no funds) and spent UGX 361.479 bn (Wage – 206.011Bn, NW- 135.087Bn, & Dev – 23.392Bn). NTR collections UGX 103.770Bn.
Council resolutions: Recommended Prof. Sarah Ssali to the Chancellor for appointment as DVC(AA), Approved the establishment of 2 centres - MakSPH Centre for the prevention of Trauma Injury & Disability & PIM -CoE, Mak ODeL Master plan & 3 new prog& 4 policies reviewed: Staff Welfare Policy, Mak Companies Policy 2013, Mak Corporate Governance Guidelines 2022 & Mak Conflict of Interest Policy 2014. Approved Mak SP 2025-2030.
39 weeks of teaching, learning, practical, fieldwork, exam, graduation, & orientation of fresh students admitted in 2025/26 conducted.
10 Senate Committee & 12 Ad hoc Committee meetings, 14 Quality assurance & ceremonies meetings held.
Settled 2,850 staff salaries, part-time, contract staff & 186 headship allowances.
10 adverts published for jobs, admissions, research dissemination& graduations were 24 staff recruited into the University Service, 35 Staff contracts renewed, 288 staff appraised, 61 supported on professional development & 104 participated in online training sessions on human resources policies, 36 on staff training 9295 (4262F,5033M) students graduated at 76th graduation ceremony 2026.
15Gbps of bandwidth, 100 Zoom licenses & 10 large Licenses (500 capacity with webinar procured. ICT assessment report for installation of internet at the MUBFS-Kibale, MUARIK, & graduate training; prototype for single-sign-on system completed.
Procurement plan submitted, 16 contracts committee meetings held, processed 234 procurements for services, solicitation documents prepared for various procurements; 290 procurements evaluated from various units.
Payment of 405298 units of water & 2977100 units of electricity cleared, 24 audits completed; final accounts prepared for OAG.

Variances and Challenges

Non-absorption of all funds released. For instance, the University had a total variance of unspent balance of UGX 18.276Bn (11.7 % of released funds). Out of this balance:
-UGX 15.586Bn (14.9% of released Wage) for Salaries of: -Staff whose positions were dropped off the payroll when migrating to the Human Capital Management system; Delayed replacement of staff who leave/or retire from university service; and partly delayed processing of salaries for new staff. Harmonization for support staff, promotion and recruitment of staff;
-UGX 2.53Bn (6.8 % of released funds) of non-wage in that some funds were for services already consumed, pending payments that were not completed in the system due to delayed submission of LPO invoices for clearance by service providers.
-UGX 0.16Bn (10.0% of released funds) of Development.
- No release of External financing funds, which affects the implementation of activities.

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 12311202 Access to HIV/AIDs prevention, control and treatment services improved		
Programme Intervention: 123112 Reduce the burden of communicable diseases with focus on high burden diseases (Malaria, HIV/AIDS, TB, Neglected Tropical diseases, Hepatitis), epidemic prone diseases across all age groups emphasizing Primary Health Care Approach		
25 HIV patients with physiotherapy/neurology problems, 100 mothers receiving eMTCT services according to national standards, 100 sero positive partners in discordant relationships receiving ART as prevention 25,000 condoms distributed	No patients with physiotherapy/neurology problems received this service as patients needing physiotherapy were referred to Mulago due to for care 218 mothers received PMTCT services according to national standards in the quarter, and all the babies that received EID services were found negative on PCR testing. 309 sero-positive partners in discordant relationships on ART received care 50,400 male condoms were distributed to patients in care and no female condoms were distributed dur due to a stockouts. 0 males were referred for Safe male circumcision (SMC).	Patients needing physiotherapy were referred to Mulago due to funding cuts and no female condoms were distributed due to a stockouts due to budget cuts.
750 women using dual family planning services, 1,000 women screened for cervical cancer and referred, if necessary, 250 patients screened for STIs including syphilis.	163 women received dual family planning methods. 127 women were screened for cervical cancer, and 27 women had positive findings on screening, and 9 of them received thermo ablation and the rest were referred for further management. 46 patients were treated for STIs were few patients presented with symptoms of STI.	With optimization of multi-month dispensing, fewer patients of childbearing age were seen. In addition, access to FP services is available in the communities where many seek quick support. Budget cuts, hence patients referred to other facilities
Up to 2000 HIV positive adults receiving ongoing psychosocial support. Up to 163 clients receiving co-trimoxazole prophylaxis.	4746 clients received ongoing psychosocial support. 484 clients received co-trimoxazole prophylaxis or alternative in that all patients meeting criteria for co-trimoxazole prophylaxis were provided	Ongoing review of regular virtual options to support this; however, all patients coming to the facility receive psychosocial support.

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 12311202 Access to HIV/AIDs prevention, control and treatment services improved		
Programme Intervention: 123112 Reduce the burden of communicable diseases with focus on high burden diseases (Malaria, HIV/AIDS, TB, Neglected Tropical diseases, Hepatitis), epidemic prone diseases across all age groups emphasizing Primary Health Care Approach		
1500 clients receiving 1st line ART treatment (old and new) 2,000 viral load tests 250 complex cases managed 5000 ART monitoring tests 2,000 Laboratory tests 250 slots of buffer stock/unique ARV regimens.	3757 clients received ART treatment (old and new). 2187 viral load tests were performed (old and new). 2166 complex patients were managed (old and new). 2855 patients with advanced HIV disease were managed (old and new). 2272 ART monitoring tests performed 1115 laboratory tests performed and o ARV slots conducted	Target due to a successful community pharmacy program. An increasing number of complex patients, especially those with non-communicable diseases like hypertension, diabetes, and an increasing number of patients with cancers. Reduced funding has affected this performance negatively were many specialized tests could not all be supported. Despite an ongoing need for legacy ART these drugs have been in very short supply with no slots in this period. This is due to reduced finances
450 clients receiving 2nd ART treatment (old and new) 10 Switch meetings to optimally detect treatment failure 50 clients receiving 3rd line ART. 50 clients receiving 3rd line ART treatment (old and new)	933 clients received 2nd line ART treatment (old and new). 7 switch meetings were held. 12 patients suspected of failing 2nd-line ART were managed. 85 patients received 3rd line ART treatment (old and new)..	The number of patients suspected of failing 2nd-line ART is reducing. Ongoing sensitization and monitoring have greatly supported this decline. Due to low stock, patients were dispensed the drug for short periods, which is undesirable. We continued supporting as a 3rd line distribution site for the region

Continue to support 60 projects selected for funding, 50 projects supported to close out. (10 projects from RIF 3, 10 Projects from RIF 4, and 10 projects from RIF 5 and 20 projects from Multiyear grants) and 100 PhD research projects selected for funding.	Continued to support running projects for funding. Supported 38 old projects to close out. of which 2 projects from RIF 3 Cohort, 6 Projects from RIF 4 cohort, 16 Projects from RIF 5 cohort, and 4 projects from RIF Multiyear project	Projects face various challenges that hinder them from being completed and closed out. They include: delays in the release of funds, delays in obtaining ethical clearance and analysis of findings. As a result, they are unable to close out in time. Funds could not allow the calls for PhD and staff research to be run
Annual and Quarterly monitoring of RIF projects 15 projects on normal progress and 12 projects on suboptimal performance visited.	21 projects were visited by the secretariat staff to ascertain the output from the purchased equipment. 4 specialized machinery and equipment for research procured.	
4 projects identified	I project was identified and linked to the IP office for further assistance	There are concerns among researchers about the Intellectual property policy. There is low awareness about the benefits of IP
10 publications from projects that are completed and closing out, 3 bulletins published, 3 short informative videos and documentaries produced.	19 publications from projects in peer-reviewed journals received in Quarter 4. 3 bulletins published, 3 short informative videos and documentaries produced.	There were publications arising from previously funded studies and PhD Cohorts

Quarter 4

Performance highlights for the Quarter

The University attained a 99.7% budget absorption rate, used to register 2,483 new students. Conducted 28 weeks of lectures & 4 of exams for 5,939 (38.6% F) students & graduated 1,382 (31.1% F) students. Paid salaries for 602 staff & allowances for 99 part-timers & 190 external examiners for 389 postgraduates (Master's & PhD. 14 QA meetings. 7 curricula review meetings, 4 CPD trainings, a white coat ceremony for 891 students held. Faculty allowances for 575 GoU students paid. 184 innovators trained in scientific research & innovation. 42 proofs of concept & 5 products generated, 14 innovation teams received seed grants (2 for prototype development/proofs of concept, 4 for product development, & 2 prototype development for stock IQ, endophf Biopesticide, HP Colo lamp, AKONDENT, E-campus & Eden) supported. 22 IP assets filled & 3 awarded. 1 innovation challenge, 1 Innovation Café, & 1 copyright. 20th ARDC for 199 participants & 984 papers, 1 PhD symposium for 146 participants held. Facilitated 23 multidisciplinary research grants, 11 micro research studies. 8 publications, 13 manuscripts, 4 policy briefs, & 4 magazines generated. 1 Policy & Economic Data Centre launched & 150 datasets from 166 entities collected.
13 study trips for 871 students, 1 twinning project for 111 students conducted. Renovations of FAST, Estates block & Library at Kihumuro & FoM (COHs) designs, ESIA, 3 Master plans completed. Rehabilitation of 0.74 km of road at town campus, bore drilling water storages tanks done. 2 station wagon vehicles, 1,410 software licenses, & multiple ICT equipment items procured. 12.6 ha & 20,030 sqm of facilities were maintained.
40 Council/Committee, 6 Senate meetings held. 7 policies approved. Orientation of 2,195 first-year students, 2 semesters & recess term living-out allowances for 651 GoU students, 7 new academic programmes developed & submitted to UNCHE for accreditation. 145 peer educators trained, health & inclusion activities eg sign language training done

Variances and Challenges

The 1.2% unspent recurrent funding mainly relates to gratuity due to anticipating a higher number of eligible contract staff and prices differences on planed expenditure and actual expenditure.
The major challenge faced during budget execution was the non release of UGX 10,422,211,808/= capital development funds, which affected the 30% advance payment to the contractor (NEC) for the construction works of the Faculty of Medicine (the College of Health Sciences), as well as other works on the Students' shade and sports facility. The same Faculty of Medicine (the College of Health Sciences) project faced delays associated with delayed release of over UGX. 10.000 billion capital development funds that was released in June 2026. Another challenge was the delayed supply of the assorted laboratory Equipment including 1 X-ray Fluorescence (XRF) spectrometer, 1 Water Purification System, 1 Thermogravimetric Analysis, 1 Rotary Evaporator, 1 High Temperature Furnace, 1 Liquid Chromatography Mass Spectrometry with Library, 1 Thermogravimetric Analysis, 1 Vertical Automatic Laboratory Incubator, whose shipment required due diligence.
On the academic side, the university lost 2 weeks in the calendar due to general election break off, however these were compensated with extra commitment to cover the load

Performance highlights for the Quarter

A total of Shs 153.234bn was released against the revised budget of shs 155.253bn. Wage 91.794bn (100%), Non wage 57.990bn (98.28%), Capital Dev't 2.115bn (73.01%) & Gratuity 0.579bn (100%). Domestic arrears 0.756bn (77.35%). In 2025/26 revenue collected amounted to 75.370bn compared to 2024/25 54.165bn due to increased number of students. A total of 13,126 applicants were admitted on postgraduate & Bachelors progr'ms. 41 publications, 44 proposals for funding, 45 researches were reviewed. 2 New prog'mes were introd'ced in Bachelor of Cooperatives Mgt & Diploma in Project Planning and Mgt. Graduated 751 on 19th MUBS graduation ceremony in May 2026. Recognized two best performing students from MUBS main & Arua campus with a CGPA of 5.00 in Diploma in Business Admin. Reviewed 20 masters Progs. Awarded 171 students certificates for SKIDEP training program & quipped participants with a wide range of valuable skills, in effective leadership, public speaking, entrepreneurship, office & inform'n, career planning, technology skills & hands-on skills (hair dressing, baking pizzas & perfume making). Paid LOA to 1035 Government students. Students won bronze medal on FUFA national beach soccer. Finished in 5th in women f/ball. Paid salary to 1409 staff, facilitated 74 staff on various long-term academic study progr'ms & 3 short term trainings done. Conducted election for 6 deanship positions for Faculty of (Commerce, Business Admin, Graduate studies & research, Computing & Informatics). Completed 3 policies: (on Attendance mgt, MUBS Institutional Repository Policy & MUBS Social Media Policy) pending Council’s approval. Facilitated 23 students with disabilities, maintained 15 disabled staff and a conducive infrastructure for the disabled. Counseled 10 female & 5 male students. Held 1 blood donation exercise & collected 98units of blood, Held 2 health Campaigns (Ebola & Sexual Reproductive). Planted 80 trees.

Variances and Challenges

Non-wage 1.015.466bn, Capital development shs 0.781.883bn and arrears of 0.221.221bn was not released.
Failure by Govt to allocate additional funds for domestic arrears. The capital Development budget revised from UGX 1.712bn in 2024/2025 to UGX 2.897bn in 2025/2026, only UGX 2.115bn (73.01%) was warranted and released, slowing down planned activities.The School had arrears totaling to shs3.3bn as opening balance for FY2025/2026 . This affected the implementation of some activities of the school. MUBS received insufficient funding for its development projects, which constrained the implementation of key infrastructure investments.
Out of 22,521 students who enrolled for semester two AY 2025/2026 21,042 students fully registered.
Frequent breakdowns of the Government-supported Academic Management Information System (ACMIS) during peak registration periods, caused by system overload, disrupted student fee payment processes and other academic services. All programmes are under review to align with the Competence Based Education. Diploma programmes were submitted to NCHE for accreditation (10 Diplomas and 1 Certificate Programme).

Vote Function:01 Delivery of Tertiary Education		
0.022	Bn Shs	Department : 003 Directorate of Graduate training and Research
		Reason: This unspent balance was caused by some service providers delaying to invoice, hence by the time the financial year ended, they had not paid them
Items		
0.020	UShs	212101 Social Security Contributions
		Reason: Some of the part time staff were not paid their monthly allowances due to the reason that they had not submitted in their requests, so the amiunt of NSSF not paid was aligned to their Part time teaching payments hence their NSSF cound not be paid, hence the reason for unspent balances
0.042	Bn Shs	Department : 004 Faculty of Agriculture
		Reason: This unspent balance was caused by some service providers delaying to invoice, hence by the time the financial year ended, they had not paid them
Items		
0.042	UShs	212101 Social Security Contributions
		Reason: Some of the part time staff were not paid their monthly allowances due to the reason that they had not submitted in their requests, so the amount of NSSF not paid was aligned to their Part time teaching payments hence their NSSF could not be paid, hence the reason for unspent balances
0.060	Bn Shs	Department : 014 Institute of Distance Education and E learning
		Reason: This unspent balance was caused by some service providers delaying to invoice, hence by the time the financial year ended, they had not paid them
Items		
0.046	UShs	212101 Social Security Contributions
		Reason: Some of the part time staff were not paid their monthly allowances due to the reason that they had not submitted in their requests, so the amount of NSSF not paid was aligned to their Part time teaching payments hence their NSSF could not be paid, hence the reason for unspent balances
Vote Function:02 General Administration and support services		
0.617	Bn Shs	Department : 002 Central Administration
		Reason: 1. This unspent balance was caused by some service providers delaying to invoice, hence by the time the financial year ended, they had not paid them 2. There were some savings on the total funds on procurable items due to the difference between the planned budget and the final price by the suppliers , hence the variation

(i) Major unspent balances

Departments , Projects

Programme:12 Human Capital Development

Vote Function:02 General Administration and support services

0.178	UShs	282105 Court Awards
		Reason: The funds for court awards were not fully spent because the University had set aside sufficient money to settle Professor Diege's case, including possible interest and related costs. However, the case was resolved without the additional interest that had been anticipated, resulting in lower actual expenditure.
0.168	Bn Shs	Project : 1985 Institutional Development of Kyambogo University
		Reason: The funds were released two weeks to the expiry of the Finacial year 2025/26, so they were not spent because the time was not enough to go through the procurement process to procure the planned items since the process involved more than two weeks until we would have acquired a service provider to deliver the goods

Items

0.104	UShs	313229 Other ICT Equipment - Improvement
		Reason: The funds were released two weeks to the expiry of the Finacial year 2025/26, so they were not spent because the time was not enough to go through the procurement process to procure the planned items since the process involved more than two weeks until we would have acquired a service provider to deliver the goods
0.053	UShs	312235 Furniture and Fittings - Acquisition
		Reason: The funds were released two weeks to the expiry of the Finacial year 2025/26, so they were not spent because the time was not enough to go through the procurement process to procure the planned items since the process involved more than two weeks until we would have acquired a service provider to deliver the goods
0.009	UShs	312229 Other ICT Equipment - Acquisition
		Reason: The funds were released two weeks to the expiry of the Finacial year 2025/26, so they were not spent because the time was not enough to go through the procurement process to procure the planned items since the process involved more than two weeks until we would have acquired a service provider to deliver the goods
