EXECUTIVE SUMMARY xiii

CHAPTER 1: OVERALL FISCAL AND RESOURCE PERFORMANCE 1

1.1 Overview 1
1.2 Revenue and Grants 1
1.3 Financing 6
1.4 Expenditure 6
1.5 Acquisition of non-financial assets 6
1.6 Compliance with the Charter for Fiscal Responsibility 7

CHAPTER 2: OVERVIEW OF EXPENDITURE PERFORMANCE 9

2.1 Highlights of Overall Expenditure Performance 9
2.2 Programme Expenditure Performance 11
2.3 Central Government Expenditure 11
2.4 Local Government Transfers and Expenditure 13

CHAPTER 3: PROGRAMME PHYSICAL AND FINANCIAL PERFORMANCE 14

3.1 Agro-Industrialisation Programme 14
3.2 Manufacturing 24
3.3 Tourism Development 28
3.4 Natural Resources, Environment, Climate Change, Land and Water 32
3.5 Private Sector Development 38
3.6 Sustainable Energy Development 40
3.7 Integrated Transport Infrastructure and Services 44
3.8 Sustainable Urbanisation and Housing 49
3.9 Digital Transformation 54
3.10 Human Capital Development 58
3.11 Innovation, Technology Development and Transfer 84
3.12 Public Sector Transformation 88
3.13 Governance and Security 89
3.14 Regional Balanced Development 91

Table of Contents

3.15 Development Plan Implementation 92
3.16 Administration of Justice 93
3.17 Legislation, Oversight and Representation 95
3.18 Sustainable Extractives Industry Development 98
CHAPTER 4: STRUCTURE OF DETAILED VOTE FINANCIAL AND PHYSICAL PERFORMANCE 103

Programme Financial Performance

Agro-Industrialization 104
Manufacturing 109
Tourism Development 114
Natural Resources, Environment, Climate Change, Land and Water..... 120
Private Sector Development 124
Sustainable Energy Development..... 129
Integrated Transport Infrastructure and Services..... 133
Sustainable Urbanisation and Housing 139
Digital Transformation..... 144
Human Capital Development..... 149
Innovation, Technology Development and Transfer..... 155
Public Sector Transformation 159
Governance and Security 164
Regional Balanced Development..... 171
Development Plan Implementation 176
Administration of Justice..... 182
Legislation, Oversight and Representation..... 187
Sustainable Extractives Industry Development..... 191

Vote Financial and Physical Performance

GLOSSARY

Absorption: These are funds spent by MDAs as a proportion of the funds released from Central Government.

Approved Budget: This is the appropriated budget by the Parliament of the Republic of Uganda, which is normally undertaken in May of the preceding financial year.

Chart of Accounts: This is a critical element of the Public Financial Management (PFM) framework for classifying, recording and reporting information on cost plans, transactions and events in a systematic and consistent way. It plays a key role in Government fiscal planning, financial management, accountability and financial reporting frameworks.

Departments: These are administrative units within the institution that implement activities.

Expenditure: This is the actual spending by an MDAs (recorded by EFT transfers) reported on the Integrated Financial Management System (IFMS).

Grants and Subsidies (Outputs Funded): These are services funded by the Vote but delivered by another institution. They relate to expenditures on grants and transfers in the chart of accounts.

Investment (Capital Purchases): These relate to purchases of capital assets in the chart of accounts.

Item: This is the lowest operational level of the budget, and represents the resources necessary to carry out activities, e.g. staff salaries, travel inland, printing and stationery.

Key Service Area: This is a service delivered by a department or Project within the Vote

Percentage of Budget Released: This is the percentage of the approved budget (excluding supplementary budgets appropriated in year) that is released by Central Government.

Percentage of Budget Spent: This is the percentage of the approved budget (excluding supplementary budgets appropriated in year) that is spent by MDAs through EFT transfers.

PIAP Output Indicators: These measure the performance of key service areas, e.g. the number of classrooms constructed.

Projects: These represent the results or set of activities implemented by the Vote which contribute to the achievement of Programme objectives. They primarily involve capital purchases and may be financed by the Government of Uganda and/or Development Partners, e.g. rehabilitation and construction of General Hospitals.

Release: This is the Central Government transfer of funds to MDAs (including supplementary funds) from the Consolidated Fund.

Supplementary Budget: This is an in-year addition to an MDA's approved budget. This budget is also appropriated by Parliament during the course of the financial year.

Unspent balances: Funds that were released by Central Government but not spent by MDAs. This calculation does not include commitments (encumbrances) on the IFMS system.

Programmes: These represent a group of related services and capital investments which contribute towards a common function, e.g., agro-industrialisation.

Votes: These are institutions (Ministries, Agencies and Local Governments) which are the basis of the annual budget and appropriations made by Parliament, and the basis for accountability, e.g. Ministry of Education and Sports.

UWA	Uganda Wildlife Authority
ZARDI	Zonal Agricultural Research and Development Institute

EXECUTIVE SUMMARY

This Annual Budget Performance Report (ABPR) is prepared in line with Section 17 (1) of the Public Finance Management Act, Cap.171, and presents performance registered in the execution of the Annual Budget for FY 2025/26. The report highlights the performance of revenues and expenditure as well as an overview of performance at Programme and Vote levels across Government.

The theme of the FY 2025/26 Budget was ***"Full Monetization of Uganda's Economy through Commercial Agriculture, Industrialization, Expanding and Broadening Social Services, Digital Transformation and Market Access"***. This report provides outcome registered at the end of FY 2025/26 in execution of the budget along the key priority areas at Programme and Vote levels.

FY 2025/26 represented a significant year in Uganda's economic transformation agenda, being the first year of implementation of the Fourth National Development Plan (NDP IV) and the Government's flagship Ten-fold Growth Strategy, which targets expansion of the economy to USD 500 billion by 2040. The fiscal strategy during the year focused on accelerating the transition to a higher, sustainable and inclusive growth trajectory by unlocking new drivers of economic activity, strengthening existing productive sectors and catalysing investment. Accordingly, public resources were strategically aligned to interventions with the greatest potential to drive economic transformation, expand employment opportunities and enhance productivity. These priorities guided the preparation and execution of the FY 2025/26 approved budget.

Debt and Revenue Performance

FY 2025/26 was the final year of the second Charter for Fiscal Responsibility. Fiscal policy therefore had to balance financing of the Ten-Fold Growth Strategy against the need to bring the deficit and public debt within the objectives of the charter.

At the end of FY 2025/26, Uganda's total public debt stood at 54.0 percent of GDP, compared to 50.9 percent in June 2025. Domestic revenue collections during FY 2025/26 amounted to **Shs. 36,991.01 billion**, equivalent to 14.8 percent of GDP compared to **Shs. 35,642.46 billion** by end of June 2025. In FY 2025/26, Government recorded a fiscal deficit of **Shs. 14,993.81 billion**, equivalent to 6.0 percent of GDP compared to **Shs. 13,079.71 billion** by end of June 2025.

Grant Performance

During FY 2025/26, grants from development partners amounted to **Shs. 994.39 billion**, posting a 36.2 percent performance rate against the **Shs. 2,746.61 billion** for the year. This performance was mainly on account of poor performance for project support grants. Of the total funds received, **Shs 53.56 billion** was budget support while **Shs. 940.84 billion** was project support grants. Project support disbursements continue to be affected by delays in execution of certain projects, which in turn leads to delays in release of funds by these development partners. On the other hand, budget support grants surpassed the programmed target on account of money received from the World Bank towards supporting the Intergovernmental Fiscal Transfers program (UgIFT).

Expenditure Performance

The total expenditure amounted to **Shs. 41,357.22 billion** compared to **Shs. 39,114.16 billion** by end of June 2025. Spending priorities continued to be in the sectors with the largest growth multipliers such as Agro-industrialisation, tourism, minerals including oil and gas, and science, technology and innovation (ATMS) and enablers, as set out in the Budget Strategy. As at end June 2026, expenditure on the priorities under the ATMS and enablers amounted to **Shs 39,506.57 billion** representing 92.03% of the approved allocation.

Out of the total expenditure, 20% amounting to **Shs. 8,445.50 billion** was spent on wage, 46% amounting to **Shs. 19,031.50 billion** was spent on non-wage, 30% amounting to **Shs. 12,469.936 billion** was spent on development, 3% amounting to **Shs. 1081.61 billion** was spent on arrears and 1% amounting to **Shs. 328.667 billion** was spent on Local Revenue transfers to Local Governments.

Spending from the Contingency Fund

In FY 2025/26, **Shs 169 billion** was allocated to the Contingency Fund. Out of this, a total of **Shs 35 billion** was transferred to the fund by end June 2026 of which **Shs. 34.51 billion** was spent as follows:

i. **Shs. 4.36 billion** towards the compensation of persons affected by Kiteezi garbage slide;
ii. **Shs. 20.16 billion** towards Ebola Virus response activities under Ministry of Health;
iii. **Shs. 3.2 billion** towards classified expenditure under State House; and
iv. **Shs. 6.8 billion** towards containing Ebola Virus in Democratic Republic of Congo.

Virement report

In line with Section 17 (1) (e) of the Public Finance Management Act Cap.171, a virements report has been prepared and is attached as Annex A1.6.

Overall performance of NDP IV Results

In FY 2025/26, 27.8 percent indicators of the NDP IV goal were fully achieved while 44.4 percent were partially achieved. In particular:

i. Real GDP growth rate increased to 6.4 percent in FY 2025/26 compared to 6.1 percent in the previous year, though it fell short of the NDP IV target of 7 percent;
ii. Income per capita increased to **USD 1,420**, though still below the NDP IV target of USD 1,571. Relative to the previous year baseline of **USD 1,154**, the indicator increased by **USD 266** (23.1 percent);
iii. Poverty reduction outpaced expectations, resulting from gains in agriculture and targeted social support programmes. The national poverty rate fell to 16.1 percent compared to the NDP IV target of 16.1 percent, from 16.9 percent baseline;
iv. Income Inequality measured by Gini Coefficient improved to 0.382 from 0.41 baseline, outperforming the target of 0.40. This indicates a meaningful improvement in the distribution of income, reflecting gains in lower quintiles from PDM;
v. The actual Average monthly nominal household income **Shs 590,378** and actual Adjusted Net Savings **Shs 520,070 billion** are substantially above both target and baseline. Average

monthly nominal household income being at **Shs 590,378**, above the target of **Shs 261,941** and the baseline of **Shs 190,000**. Adjusted net savings were reported at **Shs 520,070** billion, against a target of **Shs 52,007 billion** and a baseline of **Shs 36,281 billion**;

vi. Labor productivity in the agricultural sector increased substantially to **USD 8,272** above the NDP IV target of **USD 1,257** from a baseline of **USD 1,048** in FY 2023/24. Nonetheless, Labor productivity in the Industrial and Services remained below target at **USD 12,934** and **USD 4,121** compared to the NDP IV target of **USD 32,733** and **USD 16,648** respectively. The increase in agricultural labour productivity is attributed to improved adoption of better-quality seeds, PDM, and favourable weather that increased agriculture GDP to 26.2 percent against a target of 25 percent;

vii. The proportion of households in subsistence economy was sustained at 33.1 percent. despite attaining a 92 percent disbursement of PDM funds during the FY 2025/26, access to markets and value addition remained a challenge. The persistence climate shocks limited graduation of new households to commercial agriculture.

The detailed programme level performance is presented in chapter 3 of this report.

CHAPTER 1: OVERALL FISCAL AND RESOURCE PERFORMANCE

1.1 Overview

The government fiscal operation in FY 2025/26 resulted in a fiscal deficit (Net borrowing) of **Shs. 14,993.81 billion**, equivalent to 6.0 percent of GDP. This was **Shs. 1,573.53 billion** lower than the planned of **Shs. 16,567.34 billion** at the start of the financial year, mainly on account of lower than planned spending on acquisition of non-financial assets during the year.

Revenue collections during the financial year amounted to **Shs. 37,985.40 billion** (tax, non-tax and grants), posting a **Shs. 1,988.45 billion** shortfall against the **Shs. 39,973.85 billion** target for the year. Of the total collections, **Shs. 34,049.87 billion** was tax, **Shs. 2,941.14 billion** was non-tax while **Shs. 994.39 billion** was grants received from development partners.

1.2 Revenue and Grants

Total revenues received in FY 2025/26 amounted to **Shs. 37,985.40 billion**, representing 95.0 percent of the **Shs. 39,973.85 billion** target for the year, mainly on account of shortfalls registered under project grants which fell short by **Shs. 1,988.45 billion**.

Going forward, domestic revenue mobilization will be placed at the centre of budget formulation by broadening the tax base using data and technology to curb revenue leakage, improving compliance and mobilizing complementary financing especially non-tax revenue. The mobilized resources will be prioritized to ATMS, their enablers, and essential public services. Government will move from chasing non-compliance after it occurs to using technology and integrated data to prevent revenue leakage and make compliance easier for honest taxpayers.

Table 1.1: Fiscal Operations in FY 2025/26 (Shs Billion.)

FY2025/26	Budget FY 2025/26	Outturn FY 2025/26	PERFORMANCE	DEVIATION	% of GDP
Revenue (including grants)	**39,973.85**	**37,985.40**	**95.0%**	**(1,988.45)**	**15.2%**

Tax revenue

Tax revenue collections amounted to **Shs. 34,049.87 billion**, achieving a 99.9 percent performance against the **Shs. 34,051.43 billion** target. This represented 14.0 percent growth compared to the previous financial year (FY 2024/25).

This performance was mainly driven by the strong performance registered by direct domestic taxes, which more than offset the shortfalls registered under the indirect domestic and international trade tax heads.

Direct domestic revenue (Taxes on Income, Profits, and Gains)

Direct domestic taxes, generated **Shs. 13,550.28 billion** exceeding their target of **Shs. 13,154.57 billion** by **Shs. 395.72 billion** thereby registering a growth of 14.0 percent compared to the previous year. The higher than anticipated performance was mainly driven by corporate income tax, which exceeded its target of **Shs. 3,160.34 billion** by **Shs. 642 billion**, supported by increased activity and profitability in the mining, petroleum and manufacturing sectors, as well as Government payments of tax on behalf of key entities. Other notable contributors included the Import Declaration Levy and Withholding Tax, particularly from higher dividend payments by MTN Uganda, Nile Breweries and Plascon.

Despite the surplus in direct domestic taxes, Pay as You Earn (PAYE) fell short by **Shs. 174.80 billion**, at **Shs. 5,815.75 billion** against a target of **Shs. 5,990.56 billion**. This was on account of large employers laying off staff, including contractors affected by the descoping of the Tilenga project, closure of some firms and lay off of workers by NGOs after USAID-funded projects were halted. Rental income tax also fell **Shs. 100.00 billion** short, affected by tenant exits and prolonged vacancies.

Indirect domestic taxes (Taxes on Goods and Services)

Indirect domestic taxes collections were lower than anticipated by **Shs. 220.29 billion** against the target of **Shs. 8,848.19 billion** on account of both Excise Duty and Value Added Tax (VAT) falling short of their respective targets by **Shs. 178.50 billion** and **Shs. 41.80 billion** over this period.

The underperformance in Excise duty was mainly due to shortfalls recorded in telecommunications, beverages and financial services. Phone talk time and international calls continued to lose ground to data-based calling applications, lower voice tariffs and voice bundles, and were further affected by the disruption of airtime sales and SIM card registration during the election period.

Similarly, the shortfall recorded under VAT was largely attributed to lower than planned performances under the Manufacturing sector as cement producers claimed higher input VAT, a fall in sugar prices and a two months' closure of Kinyara Sugar Limited for routine maintenance works.

Taxes on International Trade

Taxes on international trade amounted to **Shs. 12,507.50 billion**, posting **Shs. 311.12 billion** below the target of **Shs. 12,818.62 billion** for the year. The shortfall was largely on account of lower than anticipated performance recorded for: VAT on imports due to lower values of vatable imports such as ferrous scrap, polymers, cement, industrial sugar and woven fabrics; excise duty on imports due to a decline in the value of excisable imports; and import duty mainly due to lower palm oil and industrial sugar imports among others over this period.

However, the infrastructure levy exceeded its target by **Shs.223.58 billion** following the expansion of its scope and the newly introduced 1.0 percent import declaration levy which raised **Shs.258.17 billion** against a target of **Shs.79.00 billion**. Similarly, Petroleum duty was **Shs.10.61 billion** above

target, as fuel import volumes grew and importers brought forward purchases ahead of the July 2026 rate increase.

Overall, compared to the previous financial year, taxes on international trade grew by 12.6 percent, reflected by a significant increase in import values, particularly from the gold trade, although the composition of imports limited the associated revenue gains, since 72.4 percent of imports entered under the zero-percent tariff band.

Non-Tax Revenue (Other Revenue)

Other revenue collections amounted to **Shs. 2,408.54 billion**, posting a 75.8 percent performance against the **Shs. 3,175.81 billion** target. The shortfall was mainly attributed to lower than targeted collections from motor vehicle fees, land transfer fees, driving permit fees and passport fees, among other revenue sources. However, during the year, government received **Shs. 532.60 billion** from operations in the market.

Table 1.2: Detailed breakdown of domestic revenue collections FY 2025/26 (Shs. billion)

	Cumulative Target 25/26	Cumulative Outturns 25/26	Deviation	Performance	% change 25/26 VS 24/25

1.3 Financing

Fiscal operations in FY 2025/26 resulted in net borrowing of **Shs. 14,993.81 billion** (6.0 percent of GDP), lower than the planned **Shs. 16,567.34 billion**. The financing of the fiscal deficit was mainly through domestic sources, complemented by external financing.

Net domestic financing amounted to **Shs. 12,128.33 billion**, exceeding the planned amount by **Shs. 1,239.98 billion**. The higher-than-planned domestic financing was largely driven by non-bank borrowing of **Shs. 14,887.00 billion**, which exceeded the target by **Shs. 9,184.95 billion**.

External financing stood at **Shs. 7,106.99 billion**, comprising **Shs. 2,902.23 billion** in disbursements for specific development projects and **Shs. 4,204.76 billion** in general budget support. After accounting for external debt amortisation of **Shs. 3,390.43 billion**, net external borrowing stood at **Shs. 3,716.56 billion**, equivalent to 65.4 percent of the planned **Shs. 5,678.99 billion**.

1.4 Expenditure

Total expenditure amounted to **Shs. 43,954.86 billion** against the budget of **Shs. 44,382.93 billion**, representing 99.0 percent budget execution. This was largely on account of under execution in compensation of employees, interest payments, social benefits, other expense and clearance of arrears.

Compensation of employees amounted to **Shs. 5,996.93 billion**, representing 97.7 percent of the budget, mainly due to lower expenses on allowances and other employee costs

Similarly, interest payments amounted to **Shs. 10,735.91 billion**, representing 94.7 percent of the budget and an under-execution of **Shs. 596.82 billion**. The under-execution was concentrated in external interest, which came in at **Shs. 1,367.69 billion** (73.8 percent of budget), while domestic interest was broadly on target at **Shs. 9,368.22 billion** (98.8 percent).

On the other hand, Grants amounted to **Shs. 12,813.09 billion**, equivalent to 102.7 percent of the budget (**Shs. 332.11 billion** above plan), largely due to transfers to local government and other transfers especially to Uganda National Airline for purchase of aircrafts. Similarly, purchase of goods and services amounted to **Shs. 10,519.11 billion**, exceeding the budget by **Shs. 666.52 billion** (6.8 percent) mainly due to transfers to purchase essential medical health supplies to Health Centre three's (HC III) and also to issuance of national identification.

1.5 Acquisition of non-financial assets

During FY 2025/26, spending on acquisition of non-financial assets amounted to **Shs. 9,024.36 billion**, representing 74.2 percent of the programmed **Shs. 12,158.26 billion**. This performance was mainly on account of the lower than planned performance for externally financed development projects.

Net acquisition of non-financial assets amounted to **Shs. 9,024.36 billion**, representing 74.2 percent of the programmed **Shs. 12,158.26 billion**. The lower performance was spread across fixed assets

(**Shs. 8,302.29 billion**, 78.9 percent of plan) and non-produced assets (**Shs. 722.07 billion**, 44.2 percent). This reflects subdued inflows of project grants and loans, pointing to slow absorption of external project financing.

1.6 Compliance with the Charter for Fiscal Responsibility

The Charter for Fiscal Responsibility (CFR) presents Government's strategy for operating a fiscal policy which is consistent with sustainable fiscal balances and the maintenance of prudent and sustainable levels of public debt over the medium term.

FY 2025/26 was the last financial of implementing the Charter for Fiscal Responsibility (FY 2021/22 – FY 2025/26). Government was expected to have met all the targets in the Charter during this financial year. However, five out of the eight fiscal rules in Charter were met in FY 2025/26 while three were missed as indicated below:

i. **Public debt:** The Charter objective was to maintain total public debt at not more than 50 percent of GDP. At the end of FY 2025/26, Uganda's total public debt is projected at 54.0 percent of GDP. This was therefore above the Charter threshold by 4.0 percentage points.

ii. **Domestic interest payments to total revenues:** The Charter objective was to maintain domestic debt interest payments at not more than 12.5 percent of total revenues, excluding grants. At end of FY 2025/26, the ratio of domestic debt interest payments to total revenue is projected to rise to 25.3 percent, which was above the Charter ceiling of 12.5 percent.

iii. **Overall Fiscal Balance including grants:** The Charter objective was to maintain the overall fiscal balance, including grants, to a deficit at no more than 3.0 percent of GDP. In FY 2025/26, Government recorded a fiscal deficit of **Shs. 14,993.81 billion**, equivalent to 6.0 percent of GDP. The outturn was therefore above the Charter threshold by 3.0 percentage points.

iv. **Non-oil revenue to GDP:** The Charter objective was to maintain non-oil revenue at above 15.9 percent of GDP. Domestic revenue collections during FY 2025/26 amounted to **Shs. 36,991.01 billion**, equivalent to 14.8 percent of GDP. This indicates that revenue performance remained below the Charter objective.

v. **Nominal Publicly guaranteed debt to non-oil GDP:** This rule was met throughout the charter period. The ratio of publicly guaranteed debt to non-oil GDP is currently below 0.1 percent compared to the Charter target of less than 5 percent.

vi. **Growth rate in recurrent spending/GDP ratio:** the charter threshold was to be less than or matched by the growth rate of domestic revenue. Revenue/GDP registered 0.7 percentage points growth and Recurrent Spending/GDP registered 0.3 percentage points growth and therefore the target was met.

vii. **Government borrowing from the Bank of Uganda:** Government's operations with the Bank of Uganda were done in accordance with the relevant laws, including the Public Finance Management (PFM) Act, Cap 171; and,

viii. **Petroleum Revenue Utilisation:** As per the Charter, a maximum of Oil revenue worth 0.8% of the preceding year's estimated non-oil GDP outturn shall be transferred to the Consolidated Fund for budget operations. There was not enough money in the petroleum fund to activate this rule.

Overall, the FY 2025/26 outturn indicates that the fiscal objectives relating to public debt, domestic interest payments, the overall fiscal balance and revenue performance were not achieved. Public debt increased to **Shs. 135.18 trillion** by June 2026, with the increase principally driven by domestic borrowing to meet financing requirements arising from lower than programmed revenues.

Government operations during the financial year resulted in operational rules of the Charter for Fiscal Responsibility being met in its final year of implementation. However, challenges associated with constrained fiscal space as well as rising debt service obligations meant that the anchor targets on public debt as well as the fiscal deficit were not achieved.

Domestic revenue expansion met its incremental growth target by registering a 0.7 percentage point increase (rising from 14.1% to 14.8% of GDP), recurrent expenditure growth stayed well-aligned within domestic resource limits, and statutory boundaries regarding both central bank financing and publicly guaranteed debt obligations were fully respected.

Public debt as a percent of GDP was above 50 percent while the fiscal deficit was also above the targeted 3 percent of GDP. This was partly due to the emerging global economic shocks and uncertainties that had spill-over effects on the domestic economy, making the desired fiscal consolidation difficult to harness in FY 2025/26.

Remedial measures have been taken as Government developed the successor Charter which was recently approved by Parliament to ensure that fiscal targets in the Charter are met to provide a strong foundation for macroeconomic stability and debt sustainability.

CHAPTER 2: OVERVIEW OF EXPENDITURE PERFORMANCE

2.1 Highlights of Overall Expenditure Performance

This section reports on budget performance of the Government expenditures in terms of budget releases against the approved GoU budget for at the end of FY 2025/26 and the expenditures based on EFT transfers centrally from the Treasury and reported on by MDAs.

Overall Expenditure Performance

Table 2.1 below shows the release and expenditure performance by wage, non-wage and development classifications.

Table 2.1: Overall Releases and Expenditure for FY 2025/26

		Approved Budget	Released by End Jun	Spent by End Jun	% Budget Released	% Budget Spent	% Releases Spent
Recurrent	Wage	8,577.973	8,588.667	8,445.503	100.1 %	98.5 %	98.3 %
	Non-Wage	16,113.932	18,746.296	19,031.502	116.3 %	118.1 %	101.5 %

Excl. Interest Payments

Source: MoFPED

At an aggregate level, **Shs 36,296.677 billion** of the GoU budget was released by the end of June 2026. This equates to 114.8 percent of the approved budget released. Aggregate absorption (measured by expenditure as a proportion of releases) was 100.2 percent as at the end of the year.

Wage

Total wage releases performed at **Shs 8,588.667 billion** (100.1 percent) of the approved budget and of this, **Shs 8,445.503 billion** was spent, which represents an absorption rate of 98.3 percent.

Non-Wage Recurrent

Non-wage recurrent releases were recorded at **Shs 18,746.296 billion**, which equates to 116.3 percent of the approved budget and absorption was at 101.5 percent.

Domestic Development

Releases for the domestic development budget performed at **Shs. 8,961.714 billion**, which equates to 129.6 percent of the approved budget. **Shs 8,886.931 billion** of this amount was spent, which represents absorption of 99.2 percent.

External Financing

The releases for external financing budget performed only at 73.2 percent and 43.2 percent absorption was realized. Overall, challenges remain with performance of external financing.

In order to improve this performance, Government will undertake: a portfolio clean-up; accelerate land acquisition, procurement and counterpart funding for viable projects; restructure or cancel persistently non-performing loans; and refrain from contracting new loans for projects that have not met minimum readiness requirements.

Government adopted a framework for tracking the implementation and performance of public investments in FY 2025/26 to strengthen their oversight and ensure timely implementation. This framework required all MDAs to adopt standardized tools and practices such as Earned Value Management, Performance Based Contracts, Project Implementation Units and certification of project managers to ensure they effectively manage public investment projects.

In addition, Government has developed a reform to centralize management of counterpart funding requirements by Office of the Accountant General. This will enable fulfilment of GoU obligations in the financing agreements that will trigger disbursement of externally funded projects.

2.2 Programme Expenditure Performance

Table 2.2: Overall GoU Releases and Expenditure by Programme for FY 2025/26

Billion Uganda Shillings	Approved Budget	Released by End Jun	Spent by End Jun	% GoU Budget Released	% GoU Budget Spent	% GoU Releases Spent

Source: MoFPED

The annual performance for GoU Local Government releases for FY 2025/26 was at 101 percent of the approved budget, with Wage at 100 percent, Non-Wage at 99.2 percent and GoU Development releases at 111.5 percent, while Arrears performed at 100 percent.

CHAPTER 3: PROGRAMME PHYSICAL AND FINANCIAL PERFORMANCE

3.1 Agro-Industrialisation Programme

I. Financial Performance

The revised Programme budget for FY 2025/26 excluding Agricultural financing was **Shs. 2,014.887 billion**, comprised of Government of Uganda (GoU) financing of **Shs. 1,197.064 billion**, external financing of **Shs. 753.863 billion** and arrears of **Shs. 63.960 billion**. By 30th June 2026, **Shs. 1,961.864 billion** (97.34% of the revised programme budget) was released, and **Shs. 1,676.955 billion** (85.5% of the release) was spent. The fair absorption of released funds was majorly attributed to challenges of low readiness to implement externally funded project activities and weak contract management.

By the end of FY 2025/26, the Programme received supplementary funding totalling **Shs 137.655 billion**. The supplementary funding was provided to address critical emerging needs and outstanding obligations, including **Shs 17.10 billion** for settlement of outstanding obligations to Dott Services Ltd; **Shs 14.022 billion** for land acquisition for oil palm development in Buvuma and Sango Bay; **Shs 6.11 billion** for the cotton lint buffer stock in favour of Fine Spinners; **Shs 14.91 billion** for settlement of the consent judgment relating to tea seedling suppliers in Ankole and Kigezi; **Shs 4.18 billion** for arrears relating to apple seedlings**; Shs 7.01 billion** for terminal benefits for former staff of rationalised agencies; **Shs 20.00 billion** for provision of hand hoes to households; funding for compensation of tea seedling suppliers in Buhweju; **Shs 3.88 billion** for operationalisation of the Kapeeka Farm Service Centre; and **Shs 20.00 billion** for operationalisation of the anti-tick vaccine research and production facility.

II. Physical Performance

a) Intermediate Outcome Performance

The programme outcome performance was good with four out of the six outcome indicator targets achieved;

i. The percentage change in yield of priority agricultural commodities increased from 3.4% in 2023 to 3.6% against the set target of 3.5%;
ii. Postharvest losses for priority agricultural commodities decreased from 16% in 2023 to 13.4% against the set target of 14%;
iii. The share of agricultural imports to total imports also decreased from 13% in 2023 to 11.3% against the targeted 11.52%;
iv. The share value of agricultural exports increased from 35% in 2023 to 38.5% against a target of 42%.

The good performance was attributed to:

i. Current and previous government investments in inputs, water for production, agricultural mechanization and farmer financing windows like PDM, ACF and external funds;
ii. Increase in support to value-chain actors with post-harvest equipment;
iii. The moderate performance was largely due to a drop in coffee prices and an increase in the export value of mineral exports, especially gold over the review period.

However, key performance gaps still remain with regard to: reduction in prevalence of livestock vectors and diseases, increasing the volume and value of manufactured agro exports, and increasing access to water for production.

b) Programme output performance

Multiplication and distribution of quality seed and inputs

There was strengthening of quality assurance systems, expanding seed multiplication, and improving access to agricultural inputs. Improvements were recorded in access to seed and breeding materials for priority commodities, including coffee, cotton, animal breeds, and assorted inputs. Implementation was constrained by delays in procurement, incomplete or non-functional infrastructure, inadequate staffing and operational capacity, and limited farmer access to and uptake of inputs and technologies.

Significant strides were registered in coffee planting material distribution, with 14.18 million Robusta seedlings supplied to 30,948 farmers and 10.25 million Arabica seedlings supplied to 18,747 farmers. A total of 181,935 banana suckers and 188,239 shade trees for intercropping with coffee were distributed, representing 18.2% and 75.3% achievement against targets of 1,000,000 suckers and 250,000 trees, respectively. Relatedly, the MAAIF certified 1,065 coffee nurseries and trained 1,671 nursery operators. The MAAIF also supplied 1,050 MT of cotton planting seed to 2,000 farming households.

The NAGRC&DB supported cattle breeding through provision of 115,193 semen doses and 106,741 litres of liquid nitrogen; and training and equipping of 124 Artificial Insemination (AI) technicians. Additionally, 185 Kasolwe Brown goats, 134 pigs and 50,000 chicks were distributed in Busoga region to support livestock multiplication.

About 34 MT of foundation and first-generation cotton seed, 839 MT of fuzzy cottonseed and 1,050 MT of cotton planting seed were supplied following training of 2,000 farming households and more than 1,000 seed growers. A total of 89,913 bags of 25 kg fertilizer were acquired and distributed to coffee farmers across the coffee-growing regions, representing 79.9% of the planned 112,500 bags.

Increased access to appropriate agricultural mechanization and farm power

Expansion of access to agricultural mechanisation and farm power through the Labour-Saving Technologies for Agricultural Mechanisation (ALST) Project and the Uganda Climate Smart Agricultural Transformation Project (UCSATP) was realised. A total of 4,328 acres of farm land (100%) were cleared against a target of 2,187 acres, while 236 km of farm access and market-linkage roads were opened and rehabilitated against a target of 266 km.

Under the ALST Project, 300 single axle tractors were distributed against a target of 200. In addition, 400 tractors and matching implements were procured, although only 24 had been distributed by the end of the reporting period. The procurement of 1,500 walking tractors; heavy earth moving equipment and spare parts and motorised chaff cutters was not concluded during the reporting period. The development of Regional and Zonal Agricultural Mechanisation Centres progressed at varying levels, with Bungokho at 78%, Kigumba 70%, Buwama 65%, Agwata 50%, Sanga 40%, and Namungalwe 5% completion. Namalere was functional, while Nabuin remained at the land acquisition stage.

Implementation was constrained by inadequate funding, procurement delays, court injunctions, land encroachment, inadequate staffing, ageing machinery, equipment breakdowns and delays in acquiring specialised spare parts, which affected the timely completion and operationalisation of mechanisation activities.

Strengthened agricultural extension system

During FY 2025/26, extension services were accessed for priority commodities under the PDM programme. Digitalisation and capacity building continued to support agricultural extension service delivery, with progress in livestock information management, extension worker training, private service provider registration and farmer mobilisation.

Examples of operational digital platforms included: E-Diary, E-Knowledge Management, E-Weather Advisory, Outbreaks and Crises and E-Profile. The Integrated Livestock Management Information System (ILMIS) was also operationalised, including the rollout of a multi-enterprise census tool and distribution of 7,000 ear tags to Government farms and ranches by the National Animal Genetic Resources Centre and Data Bank (NAGRC&DB). However, the E-Grievance Redress Mechanism remained non-operational, and access to reliable sub-county-level weather information remained limited.

Access to extension services by farmers was constrained by persistent staffing shortages (44.8% in post), inadequate logistical facilitation (53% of staff in post had motorcycles), gaps in digital services, inadequate funding for monitoring and supervision of PDM implementation, and the absence of an approved National Agricultural Extension Strategy.

Staffing levels were low in several districts, including Bunyangabu (45.2%), Gomba (21.4%), Hoima (58.1%), Kakumiro (28.8%), Arua (40.4%), Yumbe (55.2%), Gulu (42.6%), Sembabule (27.8%), Serere (50.9%), Kikuube (40.5%) and Mbale (44.4%), among others. These staffing gaps further constrained the delivery of timely and specialised agricultural extension services.

Research and genetics improvement and uptake

Construction of the Anti-Tick Vaccine Facility at the National Livestock Resources Research Institute (NaLIRRI) was completed (100%) and launched by H.E the President. The facility received three certificates: i) General Certificate for Suitability of Premise to Manufacture Drugs; ii) Licence to Manufacture Drugs; and iii) Certificate to Export Drugs.

Experimental screen houses were established at Zonal Agricultural Research and Development Institutes (ZARDIs) for coffee seedling multiplication, including at Mbarara ZARDI (2), Rwebitaba ZARDI (1) in Kabarole district; Ngetta ZARDI (4) in Lira district; and Abi ZARDI (2).

A total of 2.1 million doses (70%) of injectable anti-tick vaccines out of the targeted 3 million doses were produced and submitted to the National Drugs Authority (NDA) for approval to use on the Ugandan market. One oral anti-tick vaccines prototype was developed and lab-tested. Ninety litres of Foot and Mouth (FMD) Antigen were developed and used to produce 12 million doses of vaccine that were delivered to the Ugandan market.

In the area of technology generation and promotion, three purple-fleshed sweet potato varieties were released. Evaluation of technologies for food nutrition and industry continued for 6 yam clones, 5 Banana lines, 17 promising common bean lines of four market classes, 4 rice lines – 2 SUPA-like and 2 BASMATI-like, fall armyworm-tolerant maize hybrids, 2 tomato lines and 3 candidate wheat lines for various performance traits.

Development of cosmetics prototypes of shea butter lotion, cream, jam, lip balm and wine stalled at 70% progress at Ngetta ZARDI in Lira district due to inadequate funding and lack of appropriate laboratories for product stabilisation and standardisation. The physiochemical properties of nine (09) NARO tomato breeding lines were evaluated. Results confirmed that these tomato varieties were suitable for value addition.

Good progress was made in research and breeding of improved goats at NARO Maruzi in Apac district with the Red Kalahari goats crossed with the small East Africa (EA) goats and Mubende goats to improve meat productivity. Forty-five Kalahari-small East Africa goats and 103 Kalahari-Mubende first generation crosses (FI) were produced, with higher birth weights. The NAGRC&DB stock farms and ranches (Rubona, Ruhengyere, Lusenke and Sanga) were restocked with 371 Friesian and jersey in calf heifers; and 40 Ankole cattle for Nshaara ranch. Forty (40) jersey bulls, 185 Kasolwe brown goats, 134 pigs, 50,000 chicks and 67,139kgs of Napier were distributed to farmers.

Increased access to and use of water for agricultural production

The performance of construction and operationalization of water for agricultural production infrastructure under the Ministry of Water and Environment (MWE) and MAAIF was fair, although it varied across the schemes.

Construction of Kabuyanda Multipurpose Earth Dam in Isingiro district stalled at 21.6% physical progress whereas off-farm infrastructure was at 90%; Sipi Irrigation Scheme in Bulambuli District reached 31.2% against a target of 37.5%; Atari Irrigation Scheme in Kween district was at 45% Unyama Irrigation Scheme in Amuru and Gulu districts and Namalu Irrigation Scheme in Nakapiripirit district were at material and workforce mobilization. The site for Matanda Irrigation Scheme in Kanungu district was handed over to the contractor in March 2026.

Physical progress for the expansion the following medium-scale irrigation schemes; Kirema in Nakaseke District, Ngugo Phase II in Rwampara district, Chembombai in Bukwo District and Namaitsu in Bududa District was at 40%. A total of 70 small-scale solar-powered irrigation systems

were completed during the financial year under the Development of Solar Powered Irrigation and Water Supply Systems project. However, some systems such as Nadangira in Wakiso District and Lukunyu in Gomba district experienced functionality challenges due to damaged irrigation components and system breakdowns.

The Kikoota surface water reservoir in Kalungu district and Pawinyo Valley Tank in Adjumani district were completed and functional. RShsere Valley Tank in Kiruhura district reached 95% cumulative progress, but experienced functionality challenges due to vandalism. Kiryampungura Valley Tank in Kiryandongo district was rehabilitated. Three production wells were successfully sited and drilled in Nakaseke and Bukomansimbi Districts, while another production well in Agago District was sited and drilled. Functionality support was provided to 15 water for production facilities including Kikoota, Pawinyo and RShsere valley tanks, among others. The MAAIF constructed 67 valley dams and tanks in various districts.

Strengthen pest, vector, disease management and control

A total of 4,457 samples were tested for major animal diseases, with passive surveillance undertaken in approximately 30 districts. An anthrax outbreak in Kiruhura District was investigated, while surveillance was intensified in cattle-corridor and border districts. Plant health capacity was strengthened through training of 350 extension workers in digital pest and disease diagnostic tools and 216 plant doctors under UCSATP.

The MAAIF distributed 20,000 litres of 5% Deltamethrin, monitored 6,600 tsetse traps, and trained 2,478 farmers in tsetse and trypanosomiasis control. In Buvuma district, Integrated Pest Management was promoted through Farmer Field Schools and Agro-Ecosystem Analysis, with support provided on pest identification, management and safe agrochemical use.

The NARO developed and rolled out the NAROVAC-ATV1 anti-tick vaccine, with trials conducted on more than 100 cattle and 60 staff trained in vaccine production and quality assurance. for a total of 520 FMD suspected samples were collected in Kamuli district and used to produce 90 litres of SAT-1 vaccine, supporting development of local vaccine production capacity.

A total of 72 million doses of livestock vaccines were distributed against a target of 88 million, representing 81.8% achievement. Field monitoring in Sembabule, Gomba and Lira districts confirmed utilisation of vaccines against priority diseases. Gomba district vaccinated approximately 120,000 cattle against FMD, 80,000 against LSD and 90,000 against PPR livestock diseases, with farmers contributing Shs 8,000 per FMD dose under the cost-sharing arrangement. However, vaccine availability remained below reported farmer demand, while cost-sharing requirements and implementation challenges affected access and vaccination coverage. The Foot and Mouth Disease (FMD) cost-recovery scheme was rolled out in 146 districts, although farmer onboarding and payment delays, uneven system integration and preference for free vaccines slowed implementation.

Disease-control infrastructure progressed unevenly, with the Sanga Regional Animal Disease Control Centre at 89% completion, Katine at 65% and Rubona at 75%. The Apwoyo Animal Disease Control

Centre, completed in FY 2023/24, remained non-operational. Hybrid solar-electric vaccine cold-chain systems were operationalised in 53 districts, while 93 districts remained without adequate containerised cold-chain systems. Field monitoring found the Mubende cold room operational at approximately 70% of its storage capacity. The remaining infrastructure and logistical gaps continued to constrain vaccine storage, diagnostic services and timely outbreak response.

Fisheries Sub-sector and Aquaculture Development

There was substantial progress made in restocking water bodies, expanding aquaculture infrastructure, strengthening fisheries resource management, improving quality assurance, and enhancing regulatory enforcement. However, implementation was constrained by inadequate funding, procurement delays, pending regulatory clearances, e-GP technical challenges, delays in vessel licensing, and inadequate financing for joint Monitoring, Control and Surveillance (MCS) operations with the Democratic Republic of Congo (DRC).

Restocking and support to fish farmers were among the key achievements. Six smaller water bodies in the Eastern Region were assessed for suitability for restocking, while Lake Mulehe and Lake Chahafi in Kisoro District were restocked with 3.9 million and 1,031,619 pure-line Nile tilapia fingerlings, respectively. Under UCSATP, one of the four ponds at Bulindi ZARDI in Kibaire Ward, Hoima District, was restocked with 500 fingerlings against a capacity of 720, while all nine ponds at Ngetta ZARDI in Ngetta Sub-county, Lira District, were restocked with 400 fingerlings each. Rehabilitation of the nine ponds at Ngetta ZARDI was also completed.

Aquaculture infrastructure was further strengthened under the ALST Project, with one of the five planned aquaculture centres at Namasale Landing Site in Amolatar district reaching 90% completion. In addition, 43 of the 200 planned fish ponds were completed and equipped in Katakwi, Bukedea, Pallisa, Soroti and Luweero districts, including installation of pipework and drainage systems. Under UCSATP, engineering designs and specifications for the rehabilitation and equipping of the Aquaculture Research and Development Centre at Kajjansi, including the analytical nutrition laboratory and brood stock facilities, were developed and approved. The procurement of the contractor to undertake the rehabilitation was approved by the World Bank STEP system. Assessments for the rehabilitation and equipping of ten Central Fish Markets were also undertaken to inform the preparation of structural designs and specifications.

Quality assurance, registration, licensing and enforcement were undertaken across the fisheries value chain. A total of 20 hatcheries were inspected and certified, 35 cage farms were inspected and licensed, and five fish feed mills and factories were inspected and issued permits. Across Lakes Victoria, Albert, Edward, George and Kyoga, minor water bodies and fish markets, 61,933 fisheries value chain operators were registered and 9,025 licensed, generating Shs 1.03 billion in Non-Tax Revenue. A total of 864 MCS enforcement operations were conducted, resulting in the impounding of 324,708 pieces of illegal fishing gear. In addition, 6,599 fish and fishery product consignments were inspected and certified at designated Border Inspection Points, while seven fish and fish maw processing establishments were certified and approved by GACC to export wild aquatic products to China.

Improve harvesting, post-harvest handling and storage

Although Government, prioritized harvesting, post-harvest handling and storage during the review period, the overall performance of the objective was fair at 59.4%. The output performance was poor at 37.5%, largely due to delays in procurement and completion of infrastructure. Despite these implementation challenges, the planned outcome target for reducing post-harvest losses of priority agricultural commodities was achieved, largely attributed to contributions from farmers and private sector actors.

Procurement of meat processing equipment had reached contract award stage, while laboratory equipment procurement was deferred pending completion of disease control centres. Physical progress on selected disease control centres varied with the Western Ugandan regional disease control centre at 92%, Rubona at 75% and Katine at 65%, although the related civil works contracts had expired. Technical site assessments for the proposed Land Border Export Inspection facility at Entebbe were also undertaken.

In contrast, provision of appropriate harvest and post-harvest technologies performed very well, with 903 frontline extension workers and value chain actors trained in recommended practices. The MAAIF also conducted compliance and standards related activities where 856 agro-input shops were inspected, resulting in the confiscation of 17,411.9 kg of counterfeit and substandard agro-inputs. Relatedly the Uganda National Bureau of Standards (UNBS) conducted 6,642 market surveillance inspections and developed 41 Final Draft Uganda Standards for agro-industrial products.

Develop, Operationalise and Optimise Value Addition Infrastructure

Coffee value addition performed very well with 98 pieces of value addition equipment procured and distributed to farmers across the 10 coffee growing regions. The coffee value addition equipment included; coffee hullers, pulpers, wet mills and solar dryers. In the dairy subsector, 1,736 farmers were trained in improved dairy production practices, although procurement of milking equipment and establishment of production demonstrations had only reached contract award stage by the end of the reporting period.

The Nilezilla Limited processed 200 MT of mango puree, Bukona Agro-Processors procured and processed 11,000 MT of cassava and maize and exported ethanol worth USD 84,107, while its ethanol-petrol blending operations expanded significantly. Fine Spinners Uganda Limited invested in modern machinery expected to increase production throughput by 40%, whereas Mpanga Tea Growers Factory resumed operations partially.

Increase Market Access and Competitiveness of Agricultural Products in Domestic and International Markets

There was increased promotion and export of coffee and strengthened quality assurance systems for agricultural and animal products. The country exported 8,111,951 bags of 60 kg of coffee, demonstrating increased penetration of international markets. Market access for fish and fishery products was also strengthened through licensing and registration of fisheries operators, quality

assurance training, laboratory improvements, and inspections and certifications of fish consignments destined for regional and international markets.

In a bid to promote competitiveness of animal products, the MAAIF through the department for Animal Health procured 53.6 million doses of FMD vaccine and operationalised 53 hybrid solar-electric district cold-chain systems. The NARO Aflasafe facility at Namulonge produced 500 MT of aflasafe to control aflatoxin contamination in cereals. The planned roll out of the livestock identification and traceability system by MAAIF did not take place.

The construction and equipping of the National Metrology Laboratory (NML) at the Uganda National Bureau of Standards (UNBS) was at 98% and 65% respectively. Fair performance in equipping the laboratory was due to delays in completion of Heating, Ventilation and Air Conditioning (HVAC). Relatedly a consultant was procured by MAAIF to aid the accreditation of the National Dairy Analytical Laboratory. Physical progress on rehabilitation of market access roads (Batch A, 1,035.42km) in the 81 National Oil Seeds project districts was at 98%.

The National Phytosanitary Laboratory at Namalere was rehabilitated and equipped, while 2,150 agro-input dealers and seed multipliers from 69 Local Governments were trained and certified. A total of 47,000 livestock compliance certificates were issued against a target of 50,000. However, fertiliser analysis remained suspended pending approval of SOPs and accreditation. The National Seed Testing Laboratory remained non-operational, while the planned provision of irrigation equipment to 200 farmer groups had not commenced.

Increase access to Agricultural Finance and Insurance

There was substantial progress under the intervention through financing mobilised through the Agricultural Credit Facility (ACF), investments by Uganda Development Corporation (UDC) and Agricultural Insurance Consortium to support agricultural production, agro-processing and value addition. By 30th June 2026, Shs 51.32 billion had been disbursed to 1,295 ACF beneficiaries.

The Agricultural Credit Facility (ACF) registered progress in expanding access to agricultural finance and supporting productive investments and value addition. However, access remained uneven across gender, regions and age groups, with women, youth and beneficiaries in the Northern region accounting for a relatively small share of beneficiaries (85% of the total). Most beneficiaries accessed relatively small loans (85%), while larger financing supported investments in agro-processing and value addition, demonstrating the potential of the ACF to promote agricultural commercialisation. Overall, the intervention improved access to agricultural finance, but greater focus is required to enhance inclusiveness and reach underserved groups and regions.

The UDC investments also contributed to domestic value chains, with investee companies procuring over 5,000 metric tonnes of locally sourced agricultural raw materials, for example Bukona Agro Processors alone procured 11,000 tonnes of maize and cassava during FY 2025/26, partly used for

ethanol production. However, some UDC investee companies operated below capacity due to liquidity constraints, ageing machinery and infrastructure, and climate-related production challenges.

The Agricultural Insurance Scheme recorded growth, insuring 82,173 farmers with a total sum insured of Shs 977.69 billion and premiums of Shs 14.98 billion in FY 2025/26. However, coverage remained uneven and insufficiently inclusive, with 96% of farmers concentrated in Multi-Peril Crop Insurance and nearly half (48.8%) located in the Western region. Uptake in the Northern and Eastern regions remained low.

Strengthening farmer organizations and cooperatives ecosystems

There was strengthening of farmer organizations, cooperatives and agricultural value-chain coordination, through policy and strategic planning, supervision of agricultural development projects, mobilisation of development financing, and coordination of coffee, tea and cocoa stakeholder platforms.
As at 30th June 2026, the Parish Development Model (PDM), financial inclusion performed strongly in terms of fund release and SACCO capitalisation. By June 2026, Shs 1.0966 trillion had been released and Shs 1.094 trillion disbursed to 10,589 parish SACCOs, supporting approximately 3.776 million households. However, the effectiveness of these investments was constrained by the late release of the second tranche, diversion of funds to household consumption, inadequate extension staffing, very low loan repayment, and weaknesses in the PDMIS beneficiary verification system.

On the other hand, during FY 2025/26, UCSATP and NOSP performed well in strengthening farmer organisations, particularly through mobilisation, capacity building and enterprise support. UCSATP mobilised and trained 13,215 farmer groups, while NOSP engaged nine private service providers to mentor 120,000 farmers across 4,600 groups on production, business and social issues. Overall, the projects enhanced farmers' organisational capacity, access to enterprise support and participation in agricultural markets.

Improving policy, legal and institutional framework in agro-industry

Government strengthened policy, legal, governance and institutional systems to support agro-industrialisation, with progress in policy implementation, financial accountability, institutional governance and coordination across MAAIF, NARO and related projects.

Achievements included dissemination of Agro-Industrialisation Conditional Grant Guidelines to 135 Local Governments, preparation of financial and audit reports, monitoring of contracts in 60 Local Governments, and development of disposal plans. Policy development advanced through the Urban Agriculture Policy (not yet finalised), support to the Oil Palm Policy, and preparation of two policy briefs. NARO strengthened institutional systems with new HR guidelines, a draft Agricultural Research Scientists Emeritus Policy, revised Intellectual Property Management Guidelines, financial and disposal plans, and the National Agricultural Research Laboratories (NARL) repositioning proposal. Overall, governance, accountability and policy systems were enhanced, but delays in finalizing reforms and incomplete operationalization of frameworks constrained full consolidation. Sustained financing, adequate institutional capacity, timely completion of pending reforms and

stronger follow-up are required to translate these gains into effective and sustainable agro-industrial development.

Challenges

i. Weak contract management and procurement delays by implementing agencies affected timely implementation of planned activities
ii. Low readiness to implement externally financed projects, due to encumbered project land, inadequate counterpart funding, and other unmet conditions necessary for successful project implementation.
iii. Inadequate staffing and facilitation of extension staff
iv. Inadequate funding for operations and maintenance for completed projects
v. Encroachment on government land for infrastructure development, coupled with vandalism of equipment and machinery at completed project sites.

Recommendations

i. There should be better strengthening of contract management especially for infrastructure projects and procurement of agricultural inputs to match delivery and distribution with planting seasons
ii. MoFPED should ensure all prerequisite condition for project implementation are fulfilled before approval of external funding.
iii. The MAAIF should prioritise resource allocation towards recruitment, facilitation and retooling of extension workers.
iv. The MAAIF should allocate funds to Operation and Maintenance of completed facilities and ensure stakeholder engagement to strengthen project ownership by beneficiaries at completion.

3.2 Manufacturing

I. Financial Performance

The Programme budget for FY 2025/26 inclusive of arrears and external financing amounts was **Shs.314.356 billion** of which **Shs. 307.589 billion** was released and **Shs. 303.807 billion** spent representing 97.8% budget release, 96.6% budget spent and 98.8% absorption. During this period, a total supplementay expenditure of **Shs. 85.9billion** was given to the Programme as part of UDC capitalisation.

II. Physical Performance

a) Intermediate Outcome Performance

The programme outcome performance was good with four out of the five outcome indicator targets achieved;

i. There was an improved in the value of manufactured goods produced 16.4% in FY 2023/24 to 20.3% against a set target of 18.4%;
ii. The production capacity utilisation of industries increased from 30% in FY 2023/24 to 44.5% against a set target of 35%;
iii. The ratio of high value manufactured products to total manufactured products increased from 4.1 in FY 2023/24 to 6 against a target of 5; and
iv. The percentage of existing regulations implemented and/or enforced increased from 40% in FY 2023/24 to 100% against a target of 40%.

The good performance was attributed to:

i. The development and dissemination of warehouses to facilitate improvement on quality and standards of traded agricultural commodities ;
ii. The inspection of cooperatives for compliance and sustainability prospects; and
iii. The sensitization and training of coopeartives in quality assurance.

However, key performance gaps still remain with regard to: amount of CO_2 emissions from industrial processes and product use, manufacturing value added as a percentage of GDP, proportion of direct formal manufacturing jobs created and growth in credit financing for manufacturers.

b) Programme output performance

Industrial and Technological Development

Shs 48.4 billion was released for projects, with Shs 47.9 billion disbursed to Horyal and Shs 10.5 billion for Abubaker Technical Services and General Supplies.

To strengthen cooperatives and promote Skills Development

Ten cooperatives were trained in Quality assurance in the coffee value chain hence linked to Turkey market through ADL Group (Anti-Defamation League) and these included among others; Masaka

cooperative Union, Kibinge Cooperative Union, Banyankole Kweterana Cooperative Union, Bushika ACE,Malongo ACE, Ankole CPU, Kigezi Coffee growers Union, Buuka Women Multipurpose Cooperative Society.

Compliance audit and inspection was carried out in 11 cooperatives from 11 districts and theses Nwoya Pamin Owot Livestock Cooperative Society Ltd, Nwoya District,Agali Farmers' Cooperative Society, Lira District ,Oyam Agro Processing Cooperative Society Ltd, Oyam District ,Labongo Akwang Agro Processing Cooperative Society, Kitgum District ,Bunambutye Area Cooperative Enterprise Ltd, Bulambuli District,Malandu Area Cooperative Enterprise, Bududa District, Rubanda Kiiza savings and credit cooperative society Ltd, Rubanda District,Plants and Health Cooperative Society ltd, Kwania District.

75 Cooperative leaders and stakeholders in the Elgon region were mobilized, profiled and engaged to finance/support the manufacturing sector and regional meetings were conducted to enhance/establish the readiness of 75 Cooperatives for the implementation of CRMIS and promotion of Manufacturing.

44 Cooperatives (Sugarcane, Maize, rice and seed oil) were inspected for compliance and sustainability prospects in the districts of Masindi, Iganga, Mayunge, Butaleja, Namutumba, Pallisa Dokolo, Apac and Lira and 8 Cooperatives audited. In addition, 75 Cooperatives were involved in the coffee and dairy value chains were mobilized, profiled and supported, in the districts of Gomba, Mbarara, Bushenyi, Mitooma and Rubirizi Districts.

The Warehouse Receipt System Authority also undertook the following activities; Quality control tools and SOPs were developed and disseminated to 24 warehouses to facilitate improvement on quality and standards of traded agricultural commodities. One (01) national warehouse and transactions database was maintained and updated as well as eight warehouse facilities inspected.

Trade Development and Enabling Environment.

All the institutional meetings at the AfCFTA attended in Accra, Cairo and Abuja, Nigeria. These included, Committee of Trade in Services, Dispute Settlement Body, the sub-committee on rules of origin, Committee on Trade in Goods, Sectoral Council on Trade Facilitation and customs, NIC focal persons, Committee on IPR, Committee on Digital Trade, Committee on Investment, Committee of Senior Trade Officials and the Council of Ministers.

10 manufacturers were trained in preferential market access requirements, 2 meetings conducted on Mutual Recognition Agreements (MRAs) between Uganda and Kenya, and harmonising the EAC.

The Programme also held 1 JTC between Uganda and Kenya, NTBs were reduced, such as a reduction in the time taken to clear trucks, and the removal of unnecessary roadblocks. The sectoral council meeting was held from 19th to 25th November 2025 in Nairobi, Kenya. Several NTBs were resolved during the Uganda-Kenya Joint Permanent Commission (JPC) in Q1-Several NTBs were resolved during the Uganda-Kenya Joint Permanent Commission (JPC)-One engagement was conducted between Uganda and the DRC.

6 Cases of anti-competitive business practices and agreements assessed and determined (Involving Hisense Company and UJIA, carrots and Irish potatoes in Mbale and Busia, motor cycle spare parts by Beyond (U) Ltd, imported fruits and Vegetables from Kenya in Kampala markets).

The Programme also conducted a Market analysis in 4 selected sub-sector products (medical products, packaged and mineral drinking water, fast-food chains and rice sub-sector) to establish the market structure in terms of manufacturers, distributors, importers and exporters and also identify the Competition and Consumer Protection dynamics.

In a bid to strengthen Value Chain actors, the Programme undertook the following activities; one hundred sixty (160) Tobacco farmer leaders sensitized on the Tobacco sub-sector, highlighting their rights, obligations and prohibited actions under the Tobacco (Control & Marketing) Act, measures put in place by Government to eliminate non-payment and exploitation of farmers by some Tobacco Sponsoring Companies and the need to form Tobacco farmers Cooperatives in their respective areas (80 Tobacco farmer leaders in Bunyoro region, 40 Tobacco farmer leaders in Northern region and 40 Tobacco farmer leaders in West Nile.

Stakeholder views incorporated into the RIA for review of the Tobacco (Control & Marketing) Act, 1967 in consultation with 28 stakeholders. Engaged 28 relevant Stakeholder in review of the draft Principles for review of Tobacco (Control & Marketing) Act, 1967, which is to be submitted to Cabinet for Consideration.

60 Tobacco stores verified for licensing and marketing activities assessed in the Tobacco growing Districts in Bunyoro, West Nile and Northern regions and no illegal markets were found. Tobacco purchases and payment status assessment conducted in Bunyoro and West Nile regions to ensure all Tobacco grown is bought and all farmers are paid, where Nesco was found to have outstanding payments in parts of Bunyoro and Global Leaf had not purchased some Tobacco in Koboko District.

3 Engagements with grain traders in Northern, Eastern and Southern regions, respectively on the new Grain Certification requirements, with DCOs and District Agricultural Officers tasked to disseminate the requirements to ensure compliance amongst stakeholders.

Challenges.

The Ebola outbreak in the Democratic Republic of Congo (DRC) triggered travel advisories against Uganda, resulting in the cancellation of planned market activation campaigns in North America and Asia. The advisories also led to travel cancellations from key source markets, negatively impacting tourism arrivals, tourism business revenues, and potential foreign exchange earnings for the economy

Recommendations

i. The Manufacturing Programme Working Group and MoFPED should review the recurrent Medium-Term Expenditure Framework (MTEF) for Ministry of Trade, Industry and cooperatives to enable it implement its planned interventions in the PIAP and fill the critical vacant posts.

ii. Continues engagement with East African Community and COMSA member states to address trade barriers that continue to affect Uganda goods.
iii. Continuous training of MSMEs in business formalisation.
iv. Increase facilitation for District Commercial Officers to implement their activities and monitor Government programmes at the district level.
v. The Manufacturing Programme Working Group and MoFPED should review the recurrent Medium-Term Expenditure Framework (MTEF) for the MoTIC and UNBS to fill the critical vacant posts.
vi. All agencies under this programme should fully embrace the programmatic mode of planning, budgeting and execution

3.3 Tourism Development

I. Financial Performance

The Programme budget for FY 2025/26 inclusive of arrears amounts to Shs. 429.194 billion of which Shs. 435.307 billion was released by the end of June, 2026 and Shs. 428.092 billion spent representing 101.4% budget release, 99.7% budget spent and 98.3% absorption. The release above the approved budget is attributed to a supplementary budget of Shs. 6.0 billion towards financing Uganda Martyr's Day Celebrations.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Achieved the annual foreign exchange earnings target of USD 1.62 billion which increased from USD 1.025 billion in FY 23/24;
ii. Achieved the tourist arrivals target of 1.58 million which increased from 1.27 m in FY 2023/24;
iii. Strengthened conservation of wildlife with notable increase in the population of antelopes from 179,102 to 289,513 and Mountain Gorillas from 440 to 459. Nonetheless, the population of Elephants and lions reduced;
iv. The percentage of enterprises complying to Tourism Service Standards increased to 74% against a target of 56%.

However, key performance gaps still remain with regard to:

i. Addressing human wildlife conflicts;
ii. Sustaining resilience of the programme to regional and global shocks e.g Ebola; and
iii. Protection of heritage sites.

b) Programme output performance

Tourism Infrastructure and Construction

The Programme maintained and protected 32 heritage sites i.e. 18 sites in Luweero triangle, Wadelai, Patiko, Nyero Rock Paintings, Barlonyo, Mugaba Palace, Kapir, Kokoro, Bigo Byamugyenyi, Dolwe Island, Mukongoro, Kibiro, Fort Luba and Mutanda Caves). Land procured at Kayabwe Equator point for the development of visitor facilities.

Completed works on the suspended glass bridge, sanitary facilities, restaurant facilities, reception area, observatory deck and the docking decks at the Source of the Nile-Jinja. Resting shelters constructed at four strategic locations namely Mahoma and Omumadala, Bigo, and Kayijongo. All PA roads, trails and tracks maintained (1,118km of trails, tracks and roads were maintained across Pas; QENP-76km, SNP-140km, KNP - 200km, BINP-462 km, KVNP-35km, TSWR – 25km, MGNP – 180km).

One tourist camp at Nyabitaba developed with additional structures for VIP. The Programme also constructed 74.26km of the electric fence in; QENP- 16.26km, MFNP- 30km and KVNP-28km. 1000 metres of metallic Climbing Ladders established along the tourist trails of Rwenzori mountains. Tourism support infrastructure in PAs including, resting shelters, viewing points maintained (01 campsite, 05 Bandas, gates, 10 signage, 1543m of ladders ,18 bridges 1,705m of board walks as well as four airstrips in Kabwoya WR, MFNP, QENP, and TSWR).

Wildlife Conservation, Museum and Cultural heritage and Education Services

Five individuals in the process of establishing wildlife ranches and farms across various regions were supported. These included one crocodile farm in Mubende, two ostrich farms in Nyowa and Alebtong, one reptile (monitor lizard) farm in Kasese, and a cane rat farm in Lira. Project proposals for each venture were developed, and the developers are currently undertaking Environmental Impact Assessments (EIAs) as part of the approval process. 48 community conservation education awareness campaigns conducted in and around PAs including 226 radio talk shows, 678 school outreaches, 17 tv programs and 15 mobile van awareness campaigns.

Five ground and aerial wildlife surveys conducted (Gorilla and Chimpanzee census in BINP, ground-based mammal census in SNP, Kibale National Park Medium and Large Mammal Survey, Katonga Wildlife Reserve Camera Trap Survey). The Programme through MTWA successfully organized the 1st National Biodiversity and Conservation Research Symposium, bringing together researchers and conservation practitioners to promote evidence-based wildlife management.

Technical supervision and monitoring of 12 museums conducted (Uganda National Museum, Kabale, Moroto and Soroti regional museums, Uganda Railway Museum in Jinja City, Kigulu community Museum in Iganga district, Ateker Community Museum in Soroti City and Kara Tunga Tours private collector of antiques in Moroto). 4 museums-galleries and artifacts (Uganda National Museum, Kabale, Moroto and Soroti) maintained (curation, repairs, security, cleaning, utilities).

100% of UHTTI students trained (650 Apprentices and 550 Conventional UHTTI students). 1 international certification for HTTC obtained (27 staff members and 06 industry experts trained and certified as hospitality expert trainers by the American Hotel and Education Lodging College) HTTC Institutional standards (5 curricula for barista & bartending, cook, receptionist, site tourist guide, coffee farm guide) for Practical Training and Assessment developed.

Tourism Promotion and Marketing

Brand awareness of Destination Uganda conducted with a media campaign that included BBC, KTN, Citizen TV, Daily Nation on Magical Kenya Expo in Kenya to publicise destination Uganda. Held 10th Edition of The Pearl of Africa Tourism Expo at Speke Resort Convention Centre. Secured CAF AFCON 2027 marketing rights to facilitate destination promotion of the global event as a host destination ahead of AFCON 2027 tournaments.

Disseminated tourism information through media coverage of domestic tourism marketing and quality assurance campaigns across print, digital, and broadcast platforms to enhance awareness of Uganda’s tourism offerings, promote domestic and international tourism products, and highlight

standards compliance, registration requirements, responsible tourism, and sustainability practices. Secured destination promotion campaign on Brussels Airlines' onboard entertainment platform, featuring the Hidden Uganda documentary to enhance Uganda's international destination visibility. Undertook partner airline engagement for destination promotion with Turkish Airlines. Renewed advertising partnerships with leading airlines including Uganda Airlines, Etihad, Brussels Airlines and Emirates Airlines. Secured destination promotion campaign on Brussels Airlines' onboard entertainment platform, featuring the Hidden Uganda documentary to enhance Uganda's international destination visibility.

Developed user generated content for adventure tourism experiences and attractions in the Rwenzori region in partnership with international influencers and content creators from the UK, USA and South Africa- Promotional content generated for cultural tourism attractions and experiences on offer in Uganda. Developed content for "Name a Rhino" campaign and adventure experiences in Jinja in collaboration with regional influencer and content creator "Crazy Kennar" for the Kenyan source market. Sustained the “Ki Uganda Kinyuma” user-generated content campaign to position citizens as destination ambassadors and amplify authentic Ugandan tourism experiences. Placed “Explore Uganda” TV commercial on CNN airing in the North American, Canadian and European source market.

Trained 431 public and private sector stakeholders on the effective destination marketing strategies of the National Marketing Strategy 2024/25-2027/28, sustainable tourism marketing and adaptability in sustainable practices, in collaboration with the Centre for Promotion of Imports from Developing Countries (CBI) and Enabel.

Challenges:

i. Human Wildlife Conflicts, Invasive species, encroachment in conservation areas and increased intensity of problem animals.
ii. Invasive Species: A number of areas are clogged with invasive species such as dichrostachys cineria that require conscious effort to manage.
iii. Land conflicts and encroachment of the cultural heritage sites such as Nyero, Bweyorere Capital site, Ntusi and Kasonko.
iv. The Ebola outbreak in the Democratic Republic of Congo (DRC) triggered travel advisories against Uganda, resulting in the cancellation of planned market activation campaigns in North America and Asia. The advisories also led to travel cancellations from key source markets, negatively impacting tourism arrivals, tourism business revenues, and potential foreign exchange earnings for the economy.

Mitigation measures

i. Undertake electric fencing in the key hotspots for Human Wildlife Conflict.
ii. UWA together with UWRTC is undertaking targeted research on how to eradicate invasive species within PAs as well as producing and using charcoal briquettes made from invasive plant species as a sustainable, clean energy source and livelihood alternative

iii. The Programme is undertaking phased titling of cultural and heritage sites across the country in collaboration with MoLHUD & LGs.

iv. Ministry of Tourism is working closely with Missions Abroad under the ECD framework to combat negative advisories and improve the country's image in the international space.

3.4 Natural Resources, Environment, Climate Change, Land and Water

I. Financial performance

The Programme had an approved budget of Shs. 433.038 billion, which was revised upward to Shs. 455.833 billion following supplementary funding of Shs. 22.795billion. The supplementary included Shs. 2.754 billion for Project 1417 – Farm Income Enhancement and Forestry Conservation Programme Phase II and Shs. 7.540 billion on for Project 1613 – Investing in Forests and Protected Areas for Climate-Smart Development, under the external development budget. In addition, Shs. 12.501 billion in supplementary non-wage recurrent funding was provided under MWE to support various institutional operational and administrative requirements.

By 30th June 2026, the Programme had received total releases of Shs 434.068 billion, equivalent to 100.2% of the approved budget and 95.2% of the revised budget. Of the total amount released, Shs 362.639 billion was spent, representing an overall absorption rate of 83.5%.

Overall, the Programme recorded strong release and moderate absorption performance, although Shs 93.19 billion remained unspent, mainly due to MWE's pending pensioner payments and unsuccessful electronic funds transfers, while NFA's release performance was affected by its rationalization and merger with MWE; this highlights the need to strengthen expenditure planning, payment processing and timely utilization of released funds.

II. Physical performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Proportion of total adult population with secure tenure rights to land, with legally recognized documentation increased from 5.7% in FY 2023/24 to 6.7% against a target of 6.2%;
ii. 77% of the population has access to safely managed drinking water. Nonetheless this was below the NDP target of 79%;
iii. The compliance of potable water to standards increased from 63% in FY 2023/24 to 74.9% against a target of 68%;
iv. Level of accuracy of meteorological information improved from 75% in FY 2023/24 to 77%, against a target of 76%;
v. 81% of ESIA certificate holders complied with ESIA conditions against a target of 73%.

However, key performance gaps still remain with regard to: reducing greenhouse gas emissions, restoration of degraded forests and wetlands, and improving the turnaround time for processing of land titles.

b) Programme output performance

Objective 1: To ensure availability of adequate and reliable water for different uses

Pollution Control and Laboratory Management

MWE tested 289 industrial wastewater samples; 49.5% achieved compliant discharge standards. Nine (9) unique industries fully adopted Resource Efficiency and Cleaner Production (RECP) technologies. The network successfully operated 268 monitoring stations (exceeding the target of 152) alongside 4 operational regional laboratories located in Mbarara, Fort Portal, Mbale, and Lira. The National Water Quality Reference Laboratory (NWQRL) successfully retained its international ISO/IEC 17025:2017 quality accreditation. However, physical expansion of its new facility stalled at 64.7% completion due to Shs 1.83 billion in unpaid certificates and interest fees.

National and Transboundary water resources monitoring stations established, operated and modernized:

MWE processed 332 new water permits, 202 renewals, and supervised compliance tracking for 1,338 existing permit holders. Out of 21 Water Source Protection Plans reviewed, 11 were formally approved. Hydrological data tracking was maintained across major transboundary channels, including the Katonga, Sio, Bukora, Victoria Nile, Malaba, Kyoga Nile, and Semliki Rivers, as well as Lake Edward and Lake Albert. Five (5) new groundwater monitoring stations were deployed within the Kagera Aquifer.

Early Warning and Catchment Restoration

Flood early warning assessments were finalized across 6 sub-catchments within the Upper, Middle, and Lower regions of Manafwa and Mpologoma. Cross-section modeling surveys were executed on the Manafwa River, alongside the Lubigi and Kinawataka wetland channels. Engineering designs for flood mitigation infrastructure were progressed for River Nyamwamba.

A total of 296.4 km of degraded riverbanks were physically demarcated, restoring 2,791 hectares of buffer zones and implementing 26 km of soil conservation structures. Under broader frameworks, over 3,400 hectares of degraded catchments were restored. This included 500 hectares of standard wetlands, 147 hectares of forest land, 200 hectares within the Bimbye wetland, and 5.9 km of shared riverbanks along Rivers Tokwe and Humya. Alternative livelihood support was provided to 2,425 project-affected persons.

Objective 2: To reduce emissions and vulnerability from the effects of extreme weather events, climate change and disasters

Meteorological Infrastructure and Signal Accuracy

Network expansion failed to meet its targets, deploying only 18 out of 203 planned weather stations. Maintenance was restricted to keeping existing infrastructure active, including 90 automatic stations, 38 manual stations, 131 rain gauges, and 3 weather radars. General weather forecast accuracy reached 77%. Dissemination included 3 seasonal climate outlooks, 9 monthly updates, and crucial aviation safety services (consisting of 2,553 Terminal Aerodrome Forecasts and 65,700 Meteorological Aerodrome Reports).

Climate Change Mainstreaming and Disaster Capacity

Climate Resilience & Infrastructure Performance: Successfully applied risk screening to Least Developed Countries Initiative for Effective Adaptation and Resilience (LIFE-AR) investments in Kibaale and Kalungu, generated climate-hazard profiles in Pakwach and Pader, drafted local climate action plans Kitagwenda and Kamwenge, and trained six Karamoja local governments in risk assessment. However, budget gaps halted the construction of four District Emergency Coordination and Operations Centres (DECOCs) and the primary Incident Command Centre.

Food and non-food relief items reached 59,071 individuals (11,814 households), falling well short of the ambitious 500,000 target. Redevelopment of national relief stores in Namanve faced significant delays. Cash transfers successfully resettled 163 displaced households. Concurrently, 417 families were relocated to the Giriki resettlement site in Kween District, though field monitoring noted severe deficits in schools, healthcare, and electricity. Physical planning remained incomplete for the Muhokya resettlement site in Kasese.

Objective 3: Protect, restore and add value to forests and wetlands

Increase forest and wetland cover for socio-economic and ecological benefits

Forest reserve protection activities slowed due to NFA rationalization disruptions. Despite this, 3,025.8 hectares of degraded landscapes were restored with 1.21 million seedlings planted. Farmers added 2,935 hectares of private woodlots and 21,034 hectares of agroforestry systems, backed by the distribution of 6.4 million seedlings.

The National Tree Seed Centre gathered 5.1 tonnes of tree seed, beating its 3.27-tonne target. Urban forestry efforts added 7,526 trees within Kampala.

Commercial plantation forestry restored 16,579.2 hectares using over 6.65 million seedlings across 19 refugee-hosting districts in Western and Northern Uganda. Nursery assessments were targeted specifically inside the Sipi, Unyama, and Namalu catchments.

Wetland Protection and Boundary Demarcation

Surveyors demarcated 604.7 km of wetland boundaries, significantly exceeding the 400 km fiscal target. The Mayanja Wetland Framework Management Plan (covering 92,000 hectares) was completed, and compilation of the Mpologoma plan was initiated.

A total of 2,885.55 hectares of degraded wetlands were successfully recovered across several critical systems, including, Nakiyanja (8 ha) and Lwajjali (20 ha), Awoja (150 ha) and Lumbuye (40 ha), Mpanga (30 ha) and Nyamahungu (40.67 ha), Murro and Kityedo (30 ha - noted issues with agricultural re-encroachment), Kijubya (500 ha) and Karuruma (1,500 ha)

Mapping assessments were updated for prominent international Ramsar sites: Lake George, Murchison Falls Delta, Sango Bay-Musambwa, and Lake Bisina. Feasibility profiles for new wetland

ecotourism hubs were drafted for Lubigi and Nakayiba, with community dialogues focused around the Nabweru Sewage Plant.

Objective 4: To ensure a clean, healthy and productive environment

Circular Economy and Waste Systems

NEMA conducted 43 specialized green technology compliance inspections. Waste separation and recycling training was provided to 50 households in Mukono District. KCCA successfully gazetted and licensed a new 230-acre regional waste site in Mpigi District. However, master plan approvals and Environmental and Social Impact Assessments (ESIAs) faced administrative delays, slowing down immediate site infrastructure development.

Ecosystem Safeguards and Pollution Enforcement

190 km of vulnerable river banks and lakeshores were physically marked out. The planned restoration of 50 hectares along the river Nile buffer zone failed to launch due to late budget releases. NEMA audited 6,412 compliance documents, reviewed 3,183 ESIA reports, conducted 2,203 field inspections, and completed 516 enforcement operations. KCCA carried out 1,142 targeted noise pollution inspections and audited 60 industrial sites across the divisions of Kampala City.

Objective 5: To strengthen integrated land use management

Undertake land tenure security enhancement programmes

The intervention aims to strengthen land tenure security by improving land administration, surveying, registration, valuation, and management systems, while securing and effectively managing Government land for development.

Land Management and Valuation Infrastructure Enhanced

A total of 49 District Land Boards and District Land Offices were trained, while 329,467 property valuations were completed. The Land Valuation Management Information System was operationalized in six Ministry Zonal Offices.

Land Surveys and Registration Programmes Implemented A total of 133 blue pages were converted, whereas 5,070 survey and registration grievances were resolved by the end of the FY. The National Atlas was revised, parish maps were produced for Butaleja district and 160 thematic maps revised for Oyam, Omoro, Budaka, Butaleja, Pallisa and Kibuku. A Regional Tourist Map for Lake Mburo National Park was revised and produced. In addition, 15 km of the Uganda-Kenya and 5km of Kabong-Kotido boundaries were surveyed and affirmed.

No achievements were made under Land Bank Establishment towards identifying, acquiring, documenting or managing strategically located land for government programmes and future public investments. Under the Government Land Management, a total of 6,680.931 hectares of government land was titled, 870 lease transactions were processed, and 257 government-land grievances addressed.

Objective 6: Strengthening policy, legal, regulatory and coordination frameworks

Legal and policy framework to aid disaster preparedness and response strengthened: The National Disaster Preparedness and Management Bill progressed, with draft principles presented to Cabinet and revised in line with guidance to remove the proposed Commission; consultations with Ministers were ongoing.

Disaster Risk Management Coordination strengthened: Implementation included 116 disaster and hazard risk assessments, updates to hazard and vulnerability profiles, production of 12 United Nations Information and Early Warning System (UNIEWS) bulletins, and development of multi-hazard and drought anticipatory action protocols. The Disaster Information Management System was operationalised, the National Disaster Risk Management Plan implemented, and five Disaster Risk Management (DRM) platform meetings held. However, procurement of two emergency response vehicles and Disaster Risk Reduction (DRR) and Peace Day activities were not achieved due to budget constraints.

Challenges

i. Underspending: Despite a 95.2% budget release, Shs 93.19 billion (21.4%) went unspent due to administrative delays, pending pensioner verification, and failed Electronic Funds Transfers.
ii. Poor PBS Reporting: Reporting across programme MDAs was misaligned, featuring duplicated activities, missing indicator data, and irrelevant outputs. This hampered performance tracking and the accurate assessment of programme objectives.
iii. Delayed Staff Recruitment: Key leadership roles at MWE including Assistant Commissioners for Natural Forest Management, Plantation Forest Management, and Research, Standards and Innovations remained vacant following the rationalisation of NFA and UNMA, creating operational and oversight gaps.
iv. Encroachment and Re-entry: Continued encroachment into demarcated and restored wetlands and riverbank buffer zones undermined restoration efforts, weakened fragile ecosystems, and compromised the sustainability of gains.
v. Weak Enforcement Capacity: Inadequate Environment Protection Force/Police personnel and limited transport constrained the enforcement of environmental laws and the protection of restored ecosystems.

Recommendations

i. **Improved Expenditure Management:** MWE should strengthen planning, expedite payments and EFTs, and resolve administrative bottlenecks like pensioner verification to improve fund absorption.
ii. **Enhanced PBS Reporting:** Programme MDAs should improve reporting quality assurance by aligning activities with output indicators, eliminating duplications, and tracking all planned metrics consistently.
iii. **Staff Recruitment:** MoPS and MWE should expedite recruiting critical leadership such as Assistant Commissioners for Natural Forest Management, Plantation Forest Management,

and Research, Standards and Innovations to bridge gaps from the rationalisation of NFA and UNMA.

iv. **Restoration Monitoring:** MWE, NEMA, and Local Governments should enhance post-restoration monitoring, regular surveillance, and community engagement to prevent re-encroachment and protect gains.

v. **Enforcement Capacity:** MoPS, MWE, and NEMA should expedite deploying Environment Protection Force/Police personnel and provide necessary transport and equipment to strengthen environmental law enforcement.

Conclusion

The Natural Resources, Environment, Climate Change, Land and Water Management Programme achieved fair overall performance in FY 2025/26, highlighted by successes in water resources management, wetland boundary demarcation, and climate information dissemination. However, performance fell short in expanding weather observation and disaster infrastructure, forest reserve management, natural capital accounting, land banking, and green certification.

Looking ahead, ecosystem restoration gains remain vulnerable to ongoing encroachment and weak enforcement capacity. To secure these gains, the Programme must strengthen expenditure management, expedite critical recruitment, enhance inter-agency coordination, and rigorously enforce post-restoration monitoring.

3.5 Private Sector Development

I. Financial Performance

The PSD Programme approved budget for FY 2025/26 was **Shs. 2,711.651 billion** (including arrears). Of this amount, **Shs. 368.059 billion** was from external sources to various projects. By the end of the FY, **Shs. 2,197.462 billion** had been released, representing 81.0 % of the approved budget. The external financing released was 50.6% of the projected donor funding. The low release of was attributed to agreements that were not yet concluded.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Value of exports increased from USD 7.9m in FY 2023/24 to USD 18m against a target of USD 8.3m;
ii. Access to affordable financing stands at 81% against a target of 82%.

The good performance was attributed to:

i. Capitalization of all 10,589 PDM SACCOs and other wealth creation initiatives;
ii. Improvement in business process for certification of export products for standards;
iii. Provision of business development services to MSMEs and cooperatives; and
iv. Completion of the Entebbe International Airport Free Zone.

However, key performance gaps still remain with regard to: lowering the cost of private sector credit, enhancing survival and growth of MSMEs and improving the Strategic positioning of the country to access key markets.

b) Programme output performance

The Enterprise Uganda provided Business Development Services (BDS) to 21,729 MSMEs and Cooperatives against a target of 20,000 MSMEs. The services included entrepreneurship, business and mindset training, training for PDM beneficiaries, training under the Tenfold Growth Strategy, follow-up and mentorship for households to boost growth, formalization and competitiveness. The construction of the BDS Centre of Excellence (CoE) was finalized, at 100 % completion rate. It is operated by Enterprise Uganda and serves as the primary national headquarters for standardizing, coordinating, and elevating business support services.

By the end of FY 2025/26 all 10,589 PDM SACCOs had received the allocated Shs.100 million each for capitalization. In abid to increase access to short term finance, Shs 94.867Billion seed capital was disbursed to 4743 Emyooga SACCOs in both grant financing and technical capacity. Throughout the FY, Government coordinated and facilitated the capitalization of GoU-owned financial institutions, strategic development finance institutions, and financial support schemes through assessment of capitalization needs, engagement with beneficiary institutions, processing of approvals, and monitoring of disbursements to ensure timely and appropriate release of funds. Capitalization support

was provided to institutions such as Uganda Development Bank (UDB) and Pearl Bank to strengthen their capacity to provide affordable and long-term financing to priority sectors including agriculture, industry, infrastructure, and private sector development.

The Uganda National Bureau of Standards (UNBS) constructed the Engineering Laboratory at the UNBS Headquarters which stood at 83% completion rate as at 30th June 2026. Land acquisition in Mbarara was successful with preparatory activities underway for construction of the Mbarara Regional Laboratory and offices in FY2026/27. Under market surveillance, 6,642 inspections were conducted against a set target of 9,000 to eliminate substandard products from the market. These inspections were conducted in different outlets including supermarkets, retail and wholesale shops, manufacturing facilities, hardware shops and distribution trucks in the all regions of the country. Under development of standards, 27 Final Draft Uganda Standards were approved under the Private Sector Development (PSD) Programme to guide manufacturers and traders on how to produce and trade in quality products. Under certification services, 6,777 products were certified against a set target of 6,000 products in the period under review, 11,607 product certification audits were undertaken, 3,357 MSMEs were visited onsite for mentorship and gap while 380 MSMEs visited UNBS and were provided with certification advisory services. Promotion of standards was conducted in schools in Wakiso and Mukono districts. 31,307 product samples were tested (out of the 32,741 samples received) against a set target of 30,000 samples. These samples were received and tested in the Chemistry, Microbiology, Petroleum Electrical, and Materials Engineering laboratories at the head office and in the regional laboratories in Mbale (Eastern region), Mbarara (Western region) and Gulu (Northern region).

Under Free Zones and Export Promotion, the value of Uganda's merchandise exports increased by 38.5% from USD 1.413 billion between July 2025 and June 2026 to USD 10.20 billion in the period July 2025 to March 2026 driven by increased refined gold, coffee, cocoa, sugar, fish, base metal and products exports. The key export markets include Middle East, EAC, COMESA, Asia and the European Union. The Entebbe International Airport Free Zone completion level was at 100%. UFZEPA licensed 16 Free Zones. This increased the total number of licensed free zones from 43 in June 2025 to 55 by june 2026. During this period 2025/26 Free Zones generated Shs 212.52 billion as Tax revenue from Free Zones. In 25/26 Free Zones created 25,182 jobs. Exports from Free zones between July 2025 and June 2026 amounted to USD 1.413 billion in gold, coffee, wheat, flowers and horticulture.

Under Investment Promotion and Business Development the Uganda Investment Authority (UIA) licensed 33 companies with a cumulative investment value of USD 74.5 million, expected to create 3,912 jobs across the agro-manufacturing, value addition, commercial farming, post-harvest support, and fish production and processing subsectors, covering activities such as cotton and tea processing, dairy, sweet potato and banana processing, animal feed production, cornflakes, vegetable oil, animal feed manufacturing, and aquaculture. Under the development and maintenance of industrial parks, a total of 33km of road infrastructure was developed and maintained at Liao Shen Kapeeka Industrial Park, a waste water pipe network and waste water system was constructed 20.15 km of road network and 34 km of water supply, sewage and waste water treatment was constructed at the Mbale Industrial Park. The cumulative physical progress for the Kampala Industrial and Business Park (KIBP) was 62.3%, up from the 58% in April 2025, against the revised planned progress of 84%.

3.6 Sustainable Energy Development

I. Financial Performance

The Sustainable Energy Development (SED) Programme had an approved budget of Shs 1,034.9billion, revised to Shs 1,248.4 billion on account of supplementary funding of Shs 213.5 By the end of Q4 FY 2025/26, Shs 1,053.611 billion (101.025% of the approved budget) had been released, but only Shs 498.025 billion was spent, equivalent to 48.1% of the approved budget and 47.3% of releases. The low overall absorption was due to low absorption of external financing under the Ministry of Energy and Mineral Development, with the expenditure of Shs 106.8 billion of the budgeted Shs 660.5 billion, representing 16.2% absorption, compared with 99.8% absorption of GoU releases.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Access to electricity increased from 58% in FY 2023/24 to 62%;
ii. Achieved the target of households with access to electricity off grid at 40% from 38%;
iii. Achieved the target of households with access to electricity off grid at 40% from 38% in FY 2023/24;
iv. Installed generation increased from 2,047 MW in FY 2023/24 to 2,118 MW; and
v. Distribution losses reduced from 25.7% in FY 2023/24 to 18.4%.

The good performance was attributed to: implementation of the Electricity Access Scale-up Project, increased eligible last-mile connections, Results-based financing for off-grid solar connections, clean-cooking solutions and productive-use technologies.

However, key performance gaps still remain with regard to: increasing generation capacity to meet the Ten-Fold industrial demand, increasing access to and adoption to clean cooking and renewable energy, access to affordable financing for the required investment in generation, transmission and distribution.

b) Programme output performance

The overall performance of the programme was fair. The scope covered the following programme objectives namely:

Accelerate the development and diversification of sustainable energy.

Most of the generation projects remained at preparatory or feasibility stages. Rehabilitation of Kiira–Nalubaale had not commenced, although the constructability study was completed.

The proposed 10 MWp floating solar system at Isimba and conversion of Namanve Thermal Power Plant to alternative fuels were still at preliminary. The development of Buyende Nuclear Power Plant remained at the stakeholder-sensitisation stage, while feasibility studies advanced for Kiba, Ayago and Oriang hydropower projects.

The ORIO mini-hydropower project construction is at the four Phase I sites reaching about 40%. The Hydropower Master Plan, Maziba HPP rehabilitation and national hydropower resource assessment remained preparatory due to inadequate funding.

Develop and modernise energy supply systems

Under the Kampala Metropolitan Transmission System Improvement Project, Buloba (Maya) and Bujagali substations were fully completed and handed over to UETCL for operation and maintenance. Mutundwe Substation had reached 98.45%, with civil and electromechanical works substantially complete, while the remaining activities mainly involved final cabling, testing and commissioning.

Works at Kawaala Substation were less advanced at 77.5%, with equipment manufacture and delivery completed and civil works at 85%, but electromechanical erection remained at only 5%. The temporary mobile substation at Kawaala had been commissioned and was providing power supply during the upgrade works.

A total of 20.5km of 132kV transmission lines had been reconductored under the Kampala Metropolitan Transmission System Improvement Project. A 2km of the 11km Namanve–Kampala North line, where reconductoring works were still ongoing.

Most major works on the Kabaale Industrial Park Substation Project, including installation of the 33kV capacitor bank, 33kV switchgear, 132kV GIS and 132kV outdoor equipment, were completed. Works on the Masaka-Mbarara transmission project had not commenced. The procurement for the works had advanced, and clearance was being awaited from the Solicitor General and UETCL Board before contract signature

Enhance productive and efficient use of energy

Under the Electricity Access Scale-up Project (EASP), substantial progress was made expanding access to electricity and modern energy services. A total of 612,757 grid, mini-grid and off-grid connections were made, representing 39% of the revised target of 1,571,500 connections.

Under grid connectivity, 199,914 cumulative eligible last-mile connections were recorded, including 79,023 connections implemented by UEDCL, while preliminary surveys and designs for grid expansion in refugee-hosting districts, non-refugee areas and five industrial parks were completed.

Progress on solar electrification of schools and health centres under the EASP remained limited by June 2026. The Ministry of Education and Sports had procured three contractors to electrify 45 secondary schools, and the required electrical and solar materials had been shipped from China, although installation had not yet been completed. The Ministry of Health identified 172 facilities and completed bid evaluation for three lots.

Strengthen governance, coordination and innovation for energy security and sustainable development.

A strong progress in planning and preparatory activities than in physical implementation. No regulation or standard was completed but work on the Atomic Energy Bill continued, and a draft bill was submitted to Cabinet. A Technical Officer trained in Energy Law to facilitate the drafting of sustainable Energy Development Bill.

Conceptual designs and environmental studies for the Centre for Nuclear Science and Technology were completed, but none of the planned support facilities or laboratories was constructed. Nuclear safety activities were undertaken; however, construction of regulatory laboratories and the central radioactive-waste facility had not commenced.

Energy planning and monitoring improved through preparation of the MEMD Strategic Plan, quarterly performance reports, a draft Integrated Energy Resources Master Plan and energy-investment plans.

Strengthen Energy Investment Promotion and mobilization

Three loan/Grant Financing Agreements were signed namely;

i. Uganda Bio-Gas and Electric Cooking Project worth USD 112.27 million on 4th November, 2025;
ii. The South-Sudan Uganda Power interconnection project worth USD 124.7B million on 18th November, 2025; and
iii. The Construction of 400kV Karuma-Tororo Transmission Line worth USD 402. 99 million on 29th December, 2025.

Strengthen the energy policy and regulatory framework

Training on tax revenue analysis was undertaken to strengthen revenue projections and analysis. Technical reviews of MoUs for textile companies benefiting from energy subsidies were conducted in line with the subsidy's framework, alongside an assessment of the socioeconomic benefits of the Government's energy subsidy regime. Proposed amendments are being finalised, while tax laws were reviewed and amendments submitted to Parliament. Tax proposals and the FY2026/27 tax amendment bills were subsequently developed and approved by Parliament.

Challenges

i. Land acquisition and compensation processes remained lengthy and costly. Project Affected Persons frequently contested valuation rates, while inadequate funding for compensation further delayed project implementation;
ii. Vandalism of transmission infrastructure and other energy installations remained a major challenge. It caused damage to infrastructure, disrupted service delivery, poor electricity reliability, and increased project implementation and maintenance costs; and
iii. Funding for energy infrastructure investments remained inadequate. This, together with delayed release of funds, slowed project implementation and contributed to the accumulation of unpaid obligations for contractors undertaking works.

Recommendations

i. The project implementing MDAs should strengthen stakeholder engagement with Project Affected Persons. The MoFPED should ensure timely provision of adequate compensation funds, while the CGVs office should regularly update and clearly communicate valuation rates to reduce disputes and implementation delays.
ii. Programme MDAs (MEMD, ERA, UETCL and UEDCL) should strengthen surveillance and security around energy infrastructure, intensify community sensitisation on the

impacts of vandalism, and enhance enforcement of laws against vandalism. Local leaders and communities should also be actively involved in protecting energy infrastructure.

iii. The MoFPED should provide adequate and predictable funding for ongoing energy infrastructure projects. The implementing agencies MDAs should prioritise completion of existing commitments, and improved cash-flow planning should also be adopted to minimise implementation delays and the accumulation of unpaid obligations.

3.7 Integrated Transport Infrastructure and Services

I. Financial performance

In 2025/26, the overall Approved Budget for the Integrated Transport Infrastructure Services (ITIS) programme was Shs 6,602.052 Billion (inclusive Shs 218.456 Billion for arrears). The ITIS programme budget increased by Shs 2,392.456 Billion to Shs 8,994.508 Billion (inclusive of arrears) through supplementary funding for aircraft purchase; additional financing for road upgrade, maintenance, land acquisition and design, review and supervision of ongoing works of the Standard Gauge Railway (SGR).

During the FY 2025/26, Shs 5,461.633 Billion representing 82.7% was released to Votes under the programme and Shs. 4,473.749 Billion (67.8%) was spent against the release. The low release was on account external financing catergory given that the Limited Notice to Proceed for the construction of the Standard Gauge Railway line was still ongoing.

Out of the amount released, Shs. 53.266 Billion (0.98%) was released for Wage, Shs. 1,387.079 Billion (25.4%) for Non-Wage Recurrent, Shs. 2,152.628 Billion (39.4%) for GoU Development, Shs. 1,750.011 Billion (32.04%) for External Financing and Shs. 118.649 Billion (2.2%) for Arrears. In terms of release absorption, the lowest performing budget category under the programme was External Financing registering an absorption rate of 44.3%. Both the GoU Development and Non-Wage Recurrent categories exhibited relatively good performance of 99.8% and 99.9% respectively.

II. Physical performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Upgraded 172.64 km-equivalent of national roads against 200.93 km planned. Rehabilitated 178.62 km-equivalent against 136 km planned;

ii. Rehabilitated 95.63 km of community access roads against 180 km planned and sealed 30.1 km of low-volume roads against 20 km planned;

iii. Average Travel time from Malaba – Kampala for rail-cargo reduced from 4 days in FY 2023/24 to 2.4 days on account of improvement in investments in MGR;

iv. Road density by area (paved DUCAR) (km/1000sq km) increased from 8.6 in FY 2023/24 to 20.34 against a target of 11.96; and

v. Volume of air passenger traffic increased from 1.9 million in FY 2023/24 to 2.48 million against a target of 2 million. This was on account of sustained investment in Uganda Airlines and Entebbe International Airport.

However, key performance gaps still remain with regard to: land acquisition for infrastructure development, fast-tracking of completion of ongoing projects, maintenance of transport

infrastructure, reducing unit costs and finding affordable sustainable financing to address the large infrastructure deficit.

b) Programme output performance

Construction Standards and Quality Assurance

Out of the planned audit of 100 Building Committees, 102 Building Committees were audited including 11 Cities, 31 Municipalities, 55 Districts, and 5 Town Councils, providing an important mechanism for assessing compliance with building control requirements, identifying institutional and operational gaps, and strengthening the effectiveness of building control functions in Local Governments.

As a way of improving building standards, 34 sanctioned investigations were completed out of the target of 48 representing 73.91% performance.

Under rehabilitation and expansion of regional materials laboratories the following progress was registered 64% physical progress was completed for the Kireka laboratory and 97% physical progress was registered for Hoima Regional Laboratory. In addition, research was carried out for three (3) alternative construction technologies out of the plan of five (5).

District, Urban and Community Access Roads (DUCAR)

During the FY 2025/26, three (3) disability and pedestrian-friendly bridges were completed and commissioned, these include: Aleles bridge in Pallisa, Karujumba in Kasese and Bugibuni - Bunadasa in Sironko. Other bridges on the DUCAR network performed at varying physical progress levels with construction of Bikongozo bridge in Rukungiri at 5%, Tajar in Bulambuli at 15%, Nyahuka – Mirambi in Bundibudgyo at 55% and Ncwera in Mitooma at 20%. and the metallic ladder in inaccessible hilly rural area in Mt. Elgon at 100%.

The Ministry of Works & Transport also undertook construction of three (3) disability and pedestrian friendly Swamp Crossings using Force Account Mechanism and cumulatively performed as follows: Haibale in Kakumiro at 20%, Kiyanja in Ntoroko at 25%, Amodo in Dokolo at 5%. Other pedestrian friendly Swamp Crossings were completed at 100% and these include: Osudan-Abarila swamp crossing; Funguwe Muwafu swamp crossing in Tororo and Kadokolene in Budaka and Kwapa Box Culvert in Tororo at 80% completion level.

The performance for improvement of community access roads was good, ,95.63km out of the planned annual target of 180km were rehabilitated. Similarly, district road rehabilitation registered good performance with 232.22km opened against the annual target of 92km, 243.271km graded against the annual target of 92km and 121.09km gravelled against the annual target of 82km. In addition, 30.1km of low volume roads in districts were sealed out of the annual taget of 20km.

The Local Governments (LGs) received both the ‘Uganda Road Fund (URF)’ (94% budget release) and the ‘one billion Road Maintenance Grant’ (100% budget release) for maintenance of their road

network. The performance of the maintenance interventions under the grant and URF was good at 82.4% and 85.2%, respectively.

Mechanical Equipment, Plant and Ferry Services

The average availability for road equipment in districts and zonal centres was 47.5% against the annual plan of 40% for districts and zonal centres.

On the implementation of the directive by H.E the President on installation of digital number plates, 2,969 government vehicles were re-registered and installed with digital number plates and 7,350 government vehicles inspected representing 37.1% and 73.5% of annual targets of 8,000 vehicles and 10,000 vehicles respectively.

Regarding ferry operations by contracted ferry service providers, 5,200 ferry trips made between Bukakata - Luuku ferry crossing by the ferries operated by Kalangala Infrastructure Services (KIS), 692 ferry trips made between Nakiwogo-Kyamuswa-Lutoboka ferry crossing and 416. ferry trips made between Nakiwogo-Kyamuswa-Mwena ferry crossing performing at 100%, 96% and 100% of the planned targets of 5,200, 720 and 416 ferry trips respectively. In addition, the Ministry of Works & Transport also undertook routine servicing of fifteen (15) ferries that link national roads at strategic locations where the national roads cross major water bodies.

Additionally, to enhance transport safety on inland water bodies, five regional maritime Search-and-Rescue centres at Masese, Kaazi, Zengebe, Kaiso and Panyimur were operationalised and nine rescue/firefighting boats delivered.

The ferry services improvement project achieved 10% of construction for Lake Bunyonyi ferries, out of the annual target of 20%.

Multimodal Transport Regulation

In regard to Marine safety, sixteen (16) Aids to Navigation (AToNs) and six (6) weather bouys were inspected and monitored against the annual target of 20 inspections. In addition, twenty-two (22) landing sites and ports and, twenty (20) conventional ships inspected for compliance to inland water transport laws and international conventions against the annual targets of twenty-four (24) landing sites and twelve (12) ships respectively. The Ministry of Works & Transport also inspected 441 boats, registered 191 boats and licensed 240 boats out of annual targets of 500 boats, 200 boats and 400 boats respectively.

For railway transport and air transport safety, four (4) rail safety inspections undertaken in line with the annual target of 4 inspections and thirteen (13) compliance inspections of up-country aerodromes higher than the planned target of 12 inspections.

Under road safety and transport regulation, 28,016 PSVs were inspected for road worthiness and purpose of use and 26,940 PSVs were licenced against an annual target of 35,000 PSVs. In addition, 938 Bus operators' licences were issued of the planned annual target of 1,000 buses. The Ministry also carried out twelve (12) road safety inspections in line with the planned annual target of twelve

(12) inspections representing 100%. During the period, 317,863 driving licences were also issued against the annual plan of 320,000 and replacement of 293,512 vehicle registration plates for smart digital number plates higher than the planned annual target of 160,000 replacements.

Rail, Air and Inland Water Transport

Ministry of Works & Transport maintained 13 aerodromes: Arua, Gulu, Pakuba, Masindi, Lira, Kidepo, Moroto, Soroti, Tororo, Jinja, Mbarara, Kasese, and Kisoro.

The Uganda Airlines purchased additional maintenance tools and consumables and an Auxiliary Power Unit, undertook an engine change for CRJ 900 Aircraft, and made payments to service providers for critical requirements including insurance, jet fuel and airport dues. In addition, Phase I of the Entebbe International Airport Rehabilitation was completed.

In regards to the construction of Bukasa Port, the construction reached 85% cumulative progress on the swamp removal and reclamation works, against a 100% target. For Kabalega International Airport, 85% of construction works for the security search park and access road to KIA were completed.

For Railway Transport infrastructure, the Tororo-Gulu railway rehabilitation project had attained cumulative progress of 75%, against a target of 100%. On the other hand, the Limited Notice to Proceed for the construction of the Standard Gauge Railway line was still ongoing.

National Roads Maintenance & Construction

The performance of the national roads maintenance implemented through the upcountry stations was undertaken. The MoWT maintained a total of 4,954.42 km of paved and 13,478.44km of unpaved roads through use of Labour Based Contracts (LBC) against a target of 5,254.70km and 13,779.6km respectively. 1,285.31km of paved roads and 3,951km of unpaved roads through routine mechanised maintenance.

The performance of the upgrade of strategic roads from gravel to bituminous surface implemented under the National Roads Construction (NRC) was fair. The intervention had 26 road development projects with a total distance of 1,383.76km; and cumulatively 172.64km equivalents were upgraded to paved bituminous standards against the annual target of 200.93km. In addition, 178.62km equivalents were rehabilitated against a target of 136 km equivalents.

The performance of National Roads Construction (NRC) was fair at 56%. MoWT constructed a total of 172.64km-equivalent (84.2%) of National Roads, compared with an annual target of 200.93 km. The Moroto-Lokitanyala road (42 km) was substantially completed, increasing the total stock of paved national roads to 6,348.7 km, up from 6,206.6 km in FY2024/25. The main factors affecting performance were delays in contractor payments, particularly for IPCs on GoU-funded NRC projects, which led to suspension of civil works; and delayed acquisition of the right of way.

Under the construction of bridges, emergency Reconstruction of Katonga Bridge achieved 55% cumulative physical progress was attained in FY 2025/26 resulting into overall, 82% cumulative physical progress since the start of the project. In addition, emergency Reconstruction of Ssezibwa Bridge attained 52.23% cumulative physical progress this FY 2025/26 resulting into 71.23% cumulative physical progress was attained since the start of the project.

The construction of bridges on the national road network performed fairly at 59.5%. Three bridges: Osu Bridge, Kyanya Bridge, and Apaa Bridge, were substantially completed against a target of 14. The Bridge structures, for majority of the planned bridges for completion, were complete while construction of approach roads remained pending due to delays in acquiring land for their right of way. For most of the bridges, delays in IPC payments and RoW acquisition affected progress. The contractors suspended civil works on most bridge sites.

To preserve the road asset, MoWT implemented axle load limits across the paved national road network using ten weighbridges, lowering overloaded vehicles to 4%. Additional efforts involved safeguarding road reserves and infrastructure.

Challenges

i. Over commitment of the Program Budget which results in drip financing for projects and inadequate allocations for counterpart obligations and suspension of works by some of the contracts.
ii. Weak programmatic planning evidenced by continued poor allocation of resources by sector.
iii. Lack of road maintenance units/equipment for municipalities and newly created cities. Additionally, the LGs lack supervision vehicles to enable them to oversee the implementation of works.
iv. Inadequate funding for equipment maintenance in the LGs: The 10% budget allocation for equipment maintenance at the LGs is low compared to the annual equipment demands. This results into poor upkeep of equipment and hence low equipment availability. This limits maintenance capacity and increases dependence on hired equipment when LGs' equipment fails.

Recommendations

i. The MoWT should prioritise allocation of resources to ongoing projects and payment of arrears to the service providers to avoid further accumulation of interest on delayed payments. The MoWT should sequence investments to ensure that Right of Way is acquired upfront.
ii. The Program should delay commencement of new projects and prioritize completion of on-going projects. In future, projects under the Program should be sequenced to match the funds available in Medium Term Expenditure Framework.
iii. The Programme Working Group of ITIS should strengthen the coordination of the Technical Working Group to ensure planning and implementation follows the programmatic approach.
iv. The MoWT/Programme Working Group (PWG) should prioritize investments to water transport and fast-track the implementation of the railway sub-sector projects including the construction of the Standard Gauge Railway and the rehabilitation of meter gauge line.

3.8 Sustainable Urbanisation and Housing

The Sustainable Urbanization and Housing Programme (SUHP) is central in the realization of the NDP IV Objective four (4) of building and maintaining strategic Sustainable infrastructure in transport, housing, energy, water, industry and ICT through SUHP's theme of leveraging Urbanization for Socio-economic Transformation.

I. Financial Performance

In FY 2025/26, the programme approved budget was **Shs. 1,637.579 Billion** against the NDP IV requirement of **Shs. 3,557.043 Billion** implying that programme could only finance 46% of its PIAP activities. The program was allocated **Shs 1,637.579 Billion**, with the majority share of **Shs. 1,191.761 billion** (72.78 %) going to the Ministry of Kampala Capital City and Metropolitan Affairs, while the Ministry of Local Government and Kampala Capital City Authority (KCCA) received the smallest share of 0.03% each

During FY 2025/26 the program recorded a budget performance of 102.2% and an absorption rate of 53.0% as shown in table 3 below. The high-budget performance is attributed to a supplementary budget of Shs. 108.88 bn that was provided to Uganda Land Commission for Land acquisition.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. There was an increase in the mortgage to GDP ratio from 0.54 in FY 2023/24 to 0.88 against a target of 0.7. this went a long way in achieving increased housing stock; and
ii. There was an increase in the proportion of urban roads paved from 8% in FY 2023/24 to 8.18% against a target of 8.

b) Programme output performance

The overall Programme Performance for Year 1 NDP IV stands at 60% implying that 56 out of 94 indicators were achieved. Of the 56 indicators achieved, 2 were at outcome level, 3 at intermediate outcome level, and 51 at output level.

The above performance has resulted into the following:

i. The Programme positioned job creation and economic empowerment at the center of transformation through strategic investments in urban roads, markets, drainage systems, non-motorized transport infrastructure, and Local Economic Development (LED) facilities. By end of FY 2025/26, the Programme had already generated approximately 5,164 jobs for men and women.
ii. The ongoing urban road infrastructure investments under the Programme are already yielding measurable improvements in urban mobility, connectivity, and travel efficiency across the Greater Kampala Metropolitan Area and other urban areas. As a result of the upgraded and tarmacked urban road network under the Programme, travel time within the GKMA and other cities has improved reflecting enhanced traffic flow, reduced congestion, and improved accessibility along strategic urban corridors. The reduction in travel time has

significant socio-economic and productivity benefits, reduced traffic delays are lowering vehicle operating and maintenance costs, reducing fuel consumption, minimizing wear and tear on vehicles, and improving road safety, reducing transaction costs and improving competitiveness. The enhanced transport network is expected to stimulate investment, accelerate urban economic activity, support tourism and trade, increase productivity among workers and businesses, and improve overall quality of life for residents within the urban areas.

iii. The Programme's emphasis on physical planning and urban management through the preparation and implementation of detailed physical development plans, road naming systems, digital inventories, and integrated urban growth frameworks has greatly strengthened and improved the overall outlook of the Cities and Municipalities. It has improved orderly urban development, enhanced land use management, strengthened property identification and revenue administration, and promoted coordinated metropolitan planning. The development of climate-resilient detailed plans, urban corridor plans, and growth centre frameworks in entities such as Wakiso District Local Government, Nansana Municipal Council, Entebbe Municipal Council, Kira Municipal Council, and Kampala Capital City Authority is enhancing urban resilience, improving infrastructure planning, supporting efficient service delivery, and reducing unplanned settlements and land conflicts.

Programme Performance per sub-programme:

Housing sub-programme

During FY 2025/26 under the Housing sub-programme, the programme achieved the following:

i. In February 2026, the President assented to three key pieces of legislation aimed at strengthening regulation in Uganda's construction, housing finance and valuation sectors. These included: Building Control (Amendment) Act, 2025, the Mortgage Refinance Institutions Act, 2025, and the Valuation Act, 2025. The new laws introduce tougher penalties for illegal construction and non-compliance with approved building standards, a move expected to enhance safety and accountability in the country's rapidly expanding urban areas. Under the Mortgage Refinance Institutions Act, 2025, the Bank of Uganda is empowered to regulate mortgage refinance institutions, a step intended to strengthen oversight of the housing finance sector and improve access to long-term financing for homeowners. Finally, the Valuation Act, 2025 provides for the establishment of the Institute of Certified Valuers to oversee professional standards, registration and regulation of Valuers in Uganda.

ii. Meetings held to review stakeholder comments on the 3rd draft of the Real Estate Bill. Consolidated comments submitted to MoJCA for further improvement of the Bill.

iii. National Housing and Construction Company revised and updated the Company strategy with a target of delivering at least 4,000 housing units annually by 2028, the majority of which are intended for the mass affordable market segments. Additionally, the company has diversified operations aiming at being the national developer and government contractor on all housing and construction related services across the country. Two regional offices have so far been operationalized.

iv. Government supported interventions of incremental Housing through the "Zimba Mpola Mpola" (build slowly) initiative that allows individuals to build in stages with financial support from Housing Finance Bank (HFB).

v. The government held the 7th NBS Housing Baraza in November 2025 with a theme "*A Home for Every Ugandan*" to address the entire housing ecosystem and it encouraged Housing Finance Bank to provide better financing models.

vi. Housing Finance Bank introduced green financing supported by government initiatives aimed at encouraging environmentally friendly housing, and reducing long-term costs for homeowners.

vii. 6 slums in 4 Cities of Soroti, Masaka, Hoima and Moroto profiled i.e Mukunde, Kitaka, Block A in Nyendo Mukungwe Division, Kamuswahili and Kikinjagi The draft profile on the slum upgrade project for Masaka City prepared

viii. 8 slum communities i.e., in Layibi and Olwiyo in Gulu city, Namatala and Namakwekwe slum communities in Mbale city, Nyamityobora and Katete slum communities in Mbarara City and Kiryatete and Busisi slum communities in Hoima City sensitized on savings Groups/ SACCOS's.

ix. Detailed designs and cost estimates for institutional housing for Public Servants for 6 hard to reach districts of Kalaki, Kapelabyong, Amuria, Yumbe, Nwoya, and Pader developed.

x. Sensitization and dissemination of materials on green, resilient, low-cost housing designs and construction conducted in Maracha and Moyo

xi. 184 Local Governments are currently using BIMS in the country.

xii. Eight (08) local governments of Kyenjojo DLG, Kyegegwa DLG, Amuru DLG, Oyam DLG, Mbarara DLG, Bushenyi-ishaka, Municipal, Lyantonde DLG and Bungongi TC trained in the use of BIMS.

Urbanization and Physical Planning subprogramme

Under the Urbanization and physical planning sub-programme, the Programme achieved the following:

i. Through the Ministry of Kampala Capital City and Metropolitan Affairs, the Greater Kampala Metropolitan Area Integrated Urban Development Master Plan (GKMA-IUDMP) was developed and recommended for approval by Cabinet on 24th July, 2025. The Master Plan will guide all developments in the Greater Kampala Metropolitan Area.

ii. Government has strengthened metropolitan physical planning and urban management in GKMA through preparation and approval of several detailed physical development plans across the nine implementing entities. Wakiso District Local Government finalized detailed plans for Bulaga and implemented street naming and signage installation across 53 roads, while Nansana Municipal Council prepared climate-resilient detailed plans for Wamala-Katooke, Nabweru North and South, and Kazo Central, alongside a digital road inventory system. Entebbe Municipal Council completed a detailed physical plan for Central Ward and pegged Kiwafu and Ssebugwawo roads, whereas Kira Municipal Council implemented municipality-wide road naming, house numbering, and prepared a detailed plan for Kimwanyi Ward. Makindye Ssabagabo Municipal Council developed a detailed plan for Mutungo Ward and processed municipal land titles, while Mukono District Local

Government and Mpigi District Local Government advanced district physical development plans and detailed growth centre plans. Additionally, Mukono Municipal Council prepared corridor development plans for roads under construction, and Kampala Capital City Authority finalized the Greater Kampala Urban Growth Area Plan and the Busega–Kyengera Detailed Plan to guide integrated metropolitan urbanization and infrastructure development.

iii. A total of 28 PDPs for districts (11 PDPs of Arua, Kamwenge, Isingiro, Lamwo, Kiryandongo, Moyo, Obongi, Yumbe, Terego, Madi-Okollo and Adjumani), Municipalities (4 PDPs of Mukono, Mityana, Masindi and Lugazi) and Town Councils (13 PDPs of Udumi, Nkoma-Nkatalyeba, Isingiro, Lamwo, Bweyale, Moyo, Barakala, Inde, Adjumani, Obongi, Matete, Leju, and Kasambya) were developed and approved by the Board.

iv. Under the Greater Kampala Metropolitan Area Urban Development Program, major road infrastructure works are progressing across all nine implementing entities, significantly improving urban mobility and connectivity within the metropolitan region.

v. Therefore, a total of 8 roads totalling to 32.4Kms of tarmac roads and 48.6kms of walkways have already been completed under the GKMA-UDP.

vi. A total of 191.3kms of roads across all nine implementing entities of GKMA are contracted out of which 124.8 km in Batch 1A and 66.5 km in Batch 1B.

vii. Additionally, 8.2Kms of drainage channels under GKMA-UDP are under construction including the Kaliddubi Channel measuring approximately 3.2kms. In regards to installation of street lights, a total of approximately **1,021** streetlights have been installed. Lastly, 70.1 ha of green space has been created and 40,243 trees planted (target 26,000).

viii. Completed the design and manufacture of all the 190 signage units for installation of road signage in Kampala. 20 new roads named; Ssbugule Sekyaya Close, Sempala Close, Shazia Damani Close, Shazana Damani Lane, Kabowa-Nsubuga, Azaan Close, Levor Energy, Ohoora, Kyazike Pricilla Close, Kasule Muhammad, Turker Dungu, Jimmy M. Kyeyune Close, Alex Kafureka Close, Kawaala Heights, Tom Mubiru Close, Gittoes, Shaban Dansani Road, Shazmin Fauzia Road, Bwambale Chris Lane, & Kyambadde Roads.

ix. Construction of 3 GKMA markets (Mpigi central Market in Mpigi District, Wakiso Town Council Market, Kawuku Market in Wakiso Ditrict) has commenced; and a contract for Ggaba market is yet to be signed for construction.

x. Inception reports and draft feasibility studies and ESIA produced for 7 markets of Kireka, Entebbe fish market, USAFI market, Ggaba Market, Kame Valley Market, and Nansana Main market.

xi. Draft detailed designs for seven markets of Kireka Market, Kame valley Market, Bulaga, Usafi and Ggaba Market produced

xii. Rolled out the GKMA GIS system in the 9 implementing entities with 5 user accounts created in each entity for data verification.

xiii. The draft Solid Waste Management Strategy for GKMA has been produced

xiv. Engagements held with 8 Municipalities of Bushenyi – Ishaka, Rukungiri, Ntungamo, Mityana, Mubende, Busia, Lugazi and Njeru and 6 Town Councils of Bwizibwera, Kagarama, Kitwe, Nyakyera Luwero, Bbanda, Busunju, Kasambya on how to develop and implement investment profiles.

Challenges

i. Low levels of Physical Planning across the country;
ii. Inadequate city laws; and
iii. Inadequate budget provision towards the Sustainable Urbanisation and Housing

Recommendations

i. Fast tracking review of the Physical Planning Act;
ii. Mass sensitization of communities;
iii. Adoption of Fit-For-Purpose strategies like Rapid Physical Planning Assessment;
iv. Programme needs to ensure that all physical plans developed are climate-proofed and capture the necessary environmental and social safeguards;
v. Fast track development and implementation of the Cities Law;
vi. Development and implementation of projects and programs; and
vii. Prioritizations of interventions under the objectives

3.9 Digital Transformation

I. Financial Performance

The overall Approved budget for the Digital Transformation Program was Shs 492.136 billion (inclusive of Arrears) of which Shs 23.437 Billion for Wage, Shs 120.638 Billion for Non-Wage Recurrent, Shs 40.590 Billion for GoU Development, Shs 197.083 Billion for External Financing and Shs 110.389 Billion for Arrears. During the FY, the sector received a Supplementary Budget of Shs 226.434 Billion, of which Shs 185.289 Billion to support the Government Network (GOVNET) Project and Shs 41.145 Billion for provision of internet services (Shs 21.966 Billion) and acquisition of the Electronic Government Procurement (e-GP) (Shs 19.179 Billion). This implies that the revised budget under the two budget categories stood at Shs 382.372 Billion and Shs 161.783 Billion respectively bringing the total revised budget for the Programme to Shs 718.571 Billion. By the end of the FY, Shs 718.442 Billion representing 146% of the budget was released to the Programme and the overall absorption rate stood at 61.7%.

The lowest performing budget category under the programme was External Financing at 28.8% on account of the restructuring of Uganda Digital Acceleration Project (UDAP) by the World Bank under NITA-U. Both the GoU Development and Non-Wage Recurrent categories exhibited good performance of 99.9% and 99.2%.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. The National broadband coverage with minimum speed of 8 Mbps increased from 55% in FY2023/24 to 65% against a target of 58%;
ii. Average turnaround time for Government e-services (transfer of land ownership) reduced from 10 days in FY 2023/24 to 9 days; and
iii. Digital TV Free to Air coverage by parish increased from 25% in FY 2023/24 to 40%.

b) Programme output performance

The Programme registered mixed performance toward the Programme Outputs and intermediate outcomes of expanded digital connectivity, improved digital public service delivery, and enhanced digital inclusion, with strong progress under the National Backbone Infrastructure Phase V (NBI-PV) and slower than planned implementation under Uganda Digital Acceleration Project (UDAP).

ICT Infrastructure

The National Data Center on boarded one additional application bringing the total number to three hundred nine (309) applications and systems from one hundred (100) entities. The service uptime for the National Data Centre (NDC) facility was maintained at 97% for these critical applications with preventive maintenance successfully conducted and as a result, no major service interruptions were experienced.

The Draft of the National Artificial Intelligence (AI) and Emerging Technologies Strategy which establishes Uganda's strategic vision, priority AI application areas, governance and regulatory considerations, implementation framework, and capacity development priorities was developed.

National Backbone Infrastructure

During the year, the National Backbone Infrastructure (NBI) was extended by an additional 986.8 kilometers of fiber optic cable along Twenty-four (24) NBI routes across the country, cumulatively growing the existing NBI network to 5,373.8km. An additional eight hundred forty-four (844) concrete poles were installed in this financial year, bringing the total number of poles to 16,379 along twenty-four (24) NBI routes across the country while network upgrades increased transmission capacity from 40 Gbps to 100 Gbps, improving reliability and service availability.

An additional eighteen (18) last mile sites were connected to the NBI bringing the total number of sites connected this financial year to one hundred five (105). Cumulatively, over the years one thousand six hundred eighty-two (1,682) MDA/DLG and other target user group sites have been connected to the NBI. The ICT infrastructure that supported the 2025 African Nations Championship (CHAN) was provided, maintaining 99.98% service uptime, demonstrating the resilience and reliability of Government's digital infrastructure.

The NBI Transport Network Equipment was delivered and installed at 30 existing transmission stations with power systems' upgrade completed in all the 30 sites to accommodate the upgraded equipment.

To facilitate the expansion of the public Wi-Fi coverage through the NBI Phase 5 project, a total of seventy (70) potential Wi-Fi hotspots in strategic areas were surveyed across different regions of the country, including Central, Eastern, Western, and Northern.

Overall, UDAP performance during the year was significantly behind schedule, due to the project restructuring efforts. Therefore, the performance under this section are mainly under the National Backbone Infrastructure Phase V (NBI-PV) project.

E-Government services

Five (05) Government entities were supported to automate their business processes through the development of six (06) digital e-service platforms contributing to improved operational efficiency and enhanced public service delivery. The Whole-of-Government Integration Platform (UGhub) processed 44,940,333 transactions during the financial year, increasing cumulative transactions to 230,752,404, while Government entities connected to the platform continued to expand.

In addition, the Government SMS Gateway processed 96,600,974 messages, the IT Service Desk resolved 5516 tickets representing 97.7% of the 5,646 support tickets received, and further progress was made in expanding UGPass, Government websites and digital support services. A total of Eleven (11) new websites were developed. Two entities were on boarded on the Unified Messaging and Collaboration System (UMCS), bringing the total number of entities on boarded to One Hundred Sixty-six (166) in the financial year.

To support automation of government process, two (2) e-services were developed, including the Registration and Licensing of Industries System, the Animal Movement and Aquaculture Systems under the Ministry of Agriculture, Animal Industry and Fisheries. In addition, six (6) Application Programming Interfaces (APIs) were developed to enable integration through UGHub, in a bid to exchange data with National Identification and Registration Authority (NIRA), Uganda Revenue Authority (URA), and Uganda Registration Services Bureau (URSB).

Cybersecurity and Regulatory Compliance

To strengthen compliance with ICT laws and standards, two hundred (200) IT Service Providers were certified, two hundred eighty-seven (287) inspections and Twenty (20) compliance assessments were conducted in addition to 30 sensitization engagements.

To protect digital data, computer systems and networks from threats, forty-one (41) cybersecurity awareness sessions were conducted, one hundred ten (110) cybersecurity advisories were issued, and Thirty (30) Government entities were provided technical cybersecurity support.

Research, Innovation and ICT skills Development

Eight (8) Business Process Outsourcing (BPO) centres were supported through provision of subsidized internet, and technical support to strengthen the Uganda's digital economy. To further roll out this support, two (02) additional BPO companies including; SLS Solutions and YAko Hub were identified and surveyed.

4,900 Secondary and TVET teachers, students, professionals and other stakeholders were trained in STEMI using Augmented Virtual and Mixed Reality. These included: 400 participants during the ICT Symposium on Persons with Disabilities, 2,500 teachers and students reached at King's College Budo, St. Augustine Secondary School and Kampala University, 2,000 participants engaged during the UMA Exhibition in Jinja.

Challenges

i. Lack of Applications Programming Interfaces (APIs) for some MDA systems continues to hinder integration into the Integration and Data Sharing Platform (UGhub).
ii. Fiber Damages.
iii. National Data Centre services recurring infrastructure-related incidents, Power blackouts at Statistics House following the damage to the power supply line to the Data Center.

Recommendations

i. Continue engaging MDAs to plan for the Application Programming Interfaces (APIs) for their respective systems for ease of integration onto the platform to share data.
ii. Establish protected infrastructure corridors to safeguard critical assets, prioritizing underground cable deployments to reduce exposure to environmental and human risks.
iii. There should be Continued preventive and corrective maintenance to ensure stability of critical systems, while 24/7 operational coverage enabled to ensure rapid incident

handling and minimized service disruptions. Enhance power backup services to protect Data Center equipment.

3.10 Human Capital Development

I. Financial Performance

The Human Capital Development Programme had an approved budget allocation of **Shs. 12,120.359 billion** for FY 2025/26. Of this amount, **Shs. 11,697.160 billion**, representing 97% of the approved budget, was released. By the end of the reporting period, **Shs. 10,614.330 billion**, equivalent to 91% of the released funds, had been spent. This translates into an overall absorption rate of 88% of the approved budget.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Neo-natal mortality Rate (per 1000) was maintained at 22;
ii. Increased the modern contraceptive prevalence rate from 29.5% to 33% against a target of 29.5%;
iii. Attempted suicide rate per 100,000 population reduced from 80 in FY 2023/24 to 53 against a target of 79;
iv. Number of new HIV infections per 1,000 susceptible population reduced from 1.23 in FY 2024/24 to 0.71 against a target of 1;
v. Population with access to safe water increased from 70% in FY 2023/24 to 74% against a target of 71%;
vi. Basic sanitation coverage (improved toilet) increased from 44% in FY 2023/24 to 48% against a target of 45%;
vii. Sustained free education under UPE, USE and Universal Post O-level education and training;

The performance was attributed to: Government continued investment in curative and preventive healthcare, improvement of health, education and sanitation infrastructure. However, key performance gaps still remain with regard to:

viii. Reducing infant, under five and maternal mortality rates;
ix. Reducing mortality attributed to communicable diseases;
x. Improving functionality and standards of education and health facilities;
xi. Addressing drop-out rates.

b) Programme output performance

Education, Sports and Skills Development Sub-Programme

The FY 2025/26 Budget prioritised expanding access to education, improving the quality of teaching and learning, strengthening education sector accountability, and addressing infrastructure gaps. Emphasis was placed on sustaining free education under Universal Primary Education (UPE), Universal Secondary Education (USE) and Universal Post O Level Education and Training (UPOLET), as well as providing sponsorships and student loans for higher education.

Infrastructure development remained a major priority, including the construction of 116 new seed secondary schools and expansion of 61 existing secondary schools, completion of the Skills Development Headquarters, rehabilitation of 120 traditional secondary schools and 31 Special Needs Education primary schools, the renovation and expansion of teaching and accommodation facilities in public universities. The Budget also provided for recruitment of additional teaching and non-teaching staff under the UgIFT Programme, and provision of textbooks and instructional materials aimed at improving the textbook to student ratio from 1:5 to 1:3.

Other priorities included the operationalisation of Bunyoro and Busoga Universities, implementation of key reforms under the TVET Act, including operationalisation of the TVET Council and assessment boards, and completion of stadia and training facilities in preparation for AFCON 2027.

Key Performance Highlights

i. Sustaining free education under Universal Primary Education (UPE), Universal Secondary Education (USE) and Universal Post O Level Education and Training (UPOLET):

Government sustained free education through capitation releases totalling Shs. 381.63 billion, of which Shs. 209.13 billion was allocated to UPE and Shs. 172.50 billion to USE and UPOLET. The timely release of funds supported continuity of school operations. However, the capitation provision remained inadequate to meet essential school requirements, including instructional materials, utilities, minor repairs and other recurrent costs, constraining service delivery and increasing the financial burden on schools and households.

ii. Higher education student financing:

Following RAPEX, student loan functions were mainstreamed into the MoES under the Higher Education Students Financing Secretariat. Performance was good, with 5,481 students supported against a target of 4,900 (111.9%), 2,048 new beneficiaries awarded loans against 1,500 planned (136.5%), and Shs. 22.235 billion disbursed against Shs. 20.906 billion planned (106.4%). However, financing remained inadequate, with only 2,048 of the 4,564 eligible applicants (44.9%) receiving loans. A total of UShs.686.9 million was recovered from 523(357 M and 166 F) beneficiaries during FY 2025/26.

iii. Construction of 116 new secondary schools and expansion of 61 existing secondary schools under Uganda Secondary Education Expansion Project (USEEP):

The project scope was revised from 116 to 90 new schools and from 61 to 52 schools earmarked for expansion, owing to cost escalation arising from the six-year delay between appraisal and commencement of works. By July 2026, civil works had been completed at two schools and commenced at 28 new schools. Land titles had been secured for 89 of the 90 new school sites, while 41 contracts had been signed for school expansion works. Overall project implementation stood at 28%, remaining behind schedule. Of the total project cost of USD 150 million, USD 79 million (52.7%) had been disbursed, but only USD 32.8 million (21.9%) had been absorbed, underscoring slow implementation and low utilisation of available funds.

Implementation was constrained by weak pre-construction preparation, including incomplete surveys, unresolved designs, site relocations and inadequate geotechnical assessments. Sequential Solicitor General clearances, World Bank no-objections and contract approvals further delayed project implementation.

iv. Completion of the Skills Development Headquarters:

Construction progress was at 75% by end of July 20226, with structural works on the two office towers, conference hall and parking deck substantially completed. Ongoing works included electro-mechanical installations, partitioning and finishes. Progress was constrained by delays in the release of Government of Uganda counterpart funding. The project was behind schedule and could not be completed by the approved contract deadline of 31st July 2026.

v. Rehabilitation of 120 traditional secondary schools and 31 Special Needs Education primary schools:

Civil works did not commence during FY 2025/26, although substantial preparatory activities were completed under the Uganda Learning Acceleration and Enhancement Programme (ULEARN). Topographical and geotechnical surveys, site layouts, designs, specifications and Bills of Quantities were completed for the 120 traditional secondary schools and identified special and inclusive schools. Delayed fulfilment of programme effectiveness conditions constrained commencement of the planned rehabilitation and other ULEARN interventions.

vi. Recruitment of teaching and non-teaching staff:

A total of 3,277 personnel were recruited for secondary schools against the annual target of 3,000 (109.2%), including 2,219 males and 1,058 females. Recruitment was partly on a replacement basis, but largely supported operationalisation of 43 completed UgIFT Seed Secondary Schools. Recruitment for secondary schools in the Western and Central regions was completed, while the Eastern and Northern regions were ongoing by end of the FY.

vii. Curriculum reforms at Basic Education Level:

The National Curriculum Development Centre (NCDC) made good progress in curriculum development and review across upper secondary, primary, and Early Childhood Care and Education levels. At upper secondary (Advanced) level, assessment and implementation guidelines were developed for all 37 subjects, and sample assessment guidelines were pretested across the country. In addition, 582 master trainers were trained in Project Based Learning and time utilisation. To support implementation, 18,000 copies of the Project Based Learning guidelines and 6,000 copies of the time utilisation guidelines were distributed.

At primary level, P.1–P.3 syllabus materials were developed and validated for rollout in FY 2026/27, while 965 teachers were trained on the P.4 Kiswahili curriculum. At Early Childhood Care and Education (ECCE) level, the National Pre-Primary Curriculum and accompanying resource books were piloted in 100 pre-schools, with 300 teachers oriented and learning materials distributed.

viii. Provision of textbooks and instructional materials:

At primary level, procurement of the planned 4.35 million P.1–P.7 instructional materials were not completed by end of FY, while 3,341 metallic cabinets were procured against 3,000 planned (111.4%). Of the planned 634 mini-laboratory sets, 619 (97.6%) were procured, and 104 primary teachers trained in their use and management. However, some schools visited had not put the mini-laboratories to use, pending teacher training. The Special Needs Education materials were procured and distributed as planned. At secondary level, 164,119 science laboratory manuals and 60,737 textbooks for eight core subjects were procured, with English and Mathematics textbooks distributed to Government secondary schools. Despite the increased provision, textbook availability remained below the national target of 1:3 especially at primary level.

ix. Operationalisation of Busoga and Bunyoro Universities:

The planned operationalisation of the two universities was not achieved during FY 2025/26, however, Government continued to support preparatory activities. For Busoga University, renovation works at the Iganga main campus were completed, while renovation works at the Bugiri campus had not yet commenced. Full operationalisation was delayed pending clearance by the National Council for Higher Education (NCHE).

For Bunyoro University, preparatory activities towards operationalisation included securing and titling 39.765 hectares of land at Buhimba East in Kikuube District. The Physical and Master Plan was completed and approved, while architectural, structural, mechanical and electrical designs and Bills of Quantities for the initial four university buildings were completed. The UPDF Engineering Brigade was selected to undertake construction, although the Memorandum of Understanding had not been signed by end of FY. Of the 18 academic programmes submitted to the NCHE, four were aligned to the Competence Based Education and Training framework and submitted for accreditation.

x. Operationalisation of the Uganda National Institute of Teacher Education (UNITE):

UNITE was operational across its five campuses of Muni, Unyama, Kaliro, Mubende and Kabale. A total of 141 staff were recruited including 54 academic, 54 administrative and 33 support staff. The Institute taught and examined 3,144 students, of whom 671 were pre-service and 2,473 in-service students enrolled through 23 Core Primary Teachers Colleges. In addition, 886 teacher educators received continuous professional development. However, attainment of vote status remained pending at the end of the financial year.

xi. Technical and Vocational Education and Training (TVET) reforms and TVET Assessment Bodies:

Implementation of the TVET Act, 2025 progressed with establishment of the TVET Council and operationalisation of two assessment boards. The Uganda Health Professionals Assessment Board (UHPAB) was formed from the merger of the Uganda Allied Health Examinations Board (UAHEB) and the Uganda Nurses and Midwives Examinations Board (UNMEB). The Uganda Vocational Training Assessment Board (UVTAB) was formed from the merger of the Directorate of Industrial Training (DIT) and the Uganda Business and Technical Examinations Board (UBTEB).

Collectively, the two Boards assessed 327,045 candidates during FY 2025/26, with UHPAB assessing 189,499 and UVTAB 137,546 candidates. However, implementation remained constrained by transition related staffing processes and inadequate resources for accreditation and full rollout of competence-based assessment reforms including curriculum review.

xii. The Uganda National Examinations Board (UNEB):

The UNEB assessed 1.40 million candidates in the 2025 national examinations, including 807,313 Primary Leaving Examination (PLE), 429,949 Uganda Certificate of Education (UCE) and 165,172 Uganda Advanced Certificate of Education (UACE) candidates. Of these, 4,892 candidates with disabilities received special assessment arrangements. By 30th June 2026, an additional 1.61 million candidates had provisionally registered for the 2026 examinations: 915,614 for PLE, 490,817 for UCE and 199,070 for UACE.

xiii. Completion of stadia and training facilities in preparation for AFCON 2027:

Implementation was behind the pace required to assure timely readiness for AFCON 2027. Phase II expansion and upgrading of Mandela National Stadium, Namboole, the main competition venue, was at 45% physical progress under a one-year implementation period. By July 2026, 88% of the total project cost had been released to the UPDF Engineering Brigade. Hoima City Stadium was completed but awaited CAF certification, while Akii Bua Olympic Stadium was at 63% physical progress against 68% planned. Kyambogo University Training Facility was ahead of schedule at 72%, while Makerere University was at 48%. Progress at Pece War Memorial, Hoima Booma, King George Masindi, Lira University and Gulu University ranged from only 3% to 15%, despite about 30% of implementation time having elapsed. Sir Tito Winyi and FUFA Kadiba were still at pre construction stage. Overall, completion before AFCON 2027 remains possible, but delays across the main stadium and several training facilities present a high schedule risk and leave limited time for completion and CAF certification.

xiv. The renovation and expansion of teaching and housing facilities in public universities:

Overall performance was mixed. Several facilities were nearing completion, while many approved outputs either did not commence or were behind schedule. Implementation was mainly constrained by inadequate and unpredictable financing, outstanding obligations from predecessor projects, and limited contractor capacity.

Performance of other infrastructure projects

a. ***Project 1856: Uganda National Examination Board Infrastructure Project II:*** Phase I construction of the 14-floor e-Assessment and Digital Centre was at 16.9% against 30% planned by June 2026. Despite high financial absorption of 96.9%, physical progress was below target, partly due to the front-loaded advance payment to the UPDF Engineers Brigade.

b. ***Project 1432: Vocational Education (VE) (OFID – Phase II):*** The project closed in December 2025 at 98% physical performance, with civil works completed and handed over at all eight Technical Institutes: Nawanyago, Basoga Nsadhu Memorial, Ogolai, Kilak Corner, Sasiira, Buhimba, Lokopio Hills and Lwengo. However, the facilities were not fully

operational for practical skills training because workshop equipment had not been procured. An additional Shs. 4.373 billion was required to procure the equipment and fully operationalise the workshops.

c. ***Project 1433: Business, Technical, and Vocational Education and Training Support Project - Phase II:*** Overall progress was 75% against 90% of elapsed implementation time, leaving the project behind schedule. Expansion works across nine Technical Institutes averaged 83.1%, though progress at Nkoko, Nalwire, and Birembo Technical Institutes was behind schedule due to weak capacity of the contractor. Implementation was further constrained by low release of GoU counterpart funding, with only Shs. 3.48 billion released against Shs. 14.85 billion planned for FY 2025/26.

d. ***Project 1803: Development and Expansion of Health Training Institutions:*** Construction at Rt. Hon. Wapakhabulo Memorial College of Nursing and Midwifery progressed to 40%, while the Administration Block at Jinja Medical Laboratory School has stalled at 35% since FY 2024/25. Construction and rehabilitation work at Public Health Nurses College, Kyambogo; Mbale School of Hygiene; Butabika School of Psychiatric Nursing; and Butabika School of Psychiatric Clinical Officers did not commence due to inadequate funding.

e. ***Project 1792: Uganda Business and Technical Examinations Board Infrastructure Development:*** The UVTAB Assessment Centre was completed and commissioned on 9th January 2026. The facility was furnished and equipped with auditorium seats, office furniture, ICT and communication equipment, including CCTV, LAN equipment, printers, projectors and cameras, supporting its operationalisation.

f. ***Project 1852: Development and Improvement of Special Needs Education II:*** Implementation was at start-up stage. Preparatory activities for works at St. Philomena Budadiri Girls School, Wakiso Secondary School for the Deaf, and Salama School for the Blind were completed and the sites handed over to the UPDF Engineering Brigade for implementation. Works at Kireka Home for Children with Mental Handicap had not commenced, as the institution was being considered for support under the ULEARN Project.

g. ***Project 1858: Development of Primary Schools Project:*** No funds were released under this project, and as a result, civil works for the planned construction and renovation of the 90 selected primary schools had not yet commenced. The procurement and distribution of 585 science laboratory kits to 140 primary schools had not been initiated.

h. ***Project 1853: Uganda Smart Education Project:*** The Uganda Smart Education Project progressed through needs assessments and the delivery of smart learning infrastructure to four beneficiary public universities, Kyambogo, Soroti, Mbarara, and UNITE, to determine institutional requirements for smart learning infrastructure. By the end of June 2026, all the Smart Learning Infrastructure for the 4 Public Universities of Kyambogo, Soroti, Mbarara, and UNITE was delivered.

i. ***Project 1797: Gulu University Infrastructure Development Project, Phase II:*** The Business and Development Centre and Senate Building were at 58.5% and 60% physical progress, respectively. Renovation of the Institute of Peace and Strategic Studies Building was completed, while designs for the Faculty of Agriculture Building extension were finalised. Implementation was behind schedule due to inadequate and uneven funding.

j. ***Project 1836: Makerere University Business School Infrastructure Development Project:*** Implementation remained at the preparatory stage, with consultancy services for the Education Complex awarded and feasibility studies and structural designs completed. However, construction had not commenced because funds were not available to procure the contractor. Overall physical performance therefore remained at 0%, due to significant financing gaps.

k. ***Project 1814: Kyambogo University Infrastructure Project – Phase II:*** Performance was below planned target. Of the planned 1.6 km road upgrade from Kabaka's Gate to the Main Gate, works had progressed on only 1.3 kms. Asbestos removal, disposal, re-roofing and renovation were completed on three of the 10 planned houses (30%).

l. ***Project 1857: Lira University Infrastructure Project II:*** Although the Main Administration Block under predecessor Project 1414 progressed to 93.04% completion, the three approved outputs under Project 1857 had not commenced. The FY 2025/26 release of Shs. 2.72 billion was fully utilised on the carry-over Administration Block. Consequently, the Teaching Hospital expansion, modern library, and lecture theatres and laboratories remained unfunded.

m. ***Project 1917: Soroti University Infrastructure Development Project II:*** The Anatomy Laboratory Block was 97% complete and under the Defect's Liability Period, while support infrastructure, including the Main Gate and security facilities, was at 95%. However, progress largely reflected carry-over works from the predecessor project, while five major outputs under Project II had not commenced.

n. ***Project 1988: Institutional Development of Kabale University:*** Construction of the Faculty of Engineering, Technology, Applied Design and Fine Art Phase III continued during the year. Against the planned completion of the phase, only the roof structure of the four-storey building was completed by year end.

o. ***Project 1846: Mountains of the Moon University (MMU) Infrastructure Development:*** Implementation was slow due to inadequate funding. Works on the Faculty of Agriculture and Environmental Sciences resumed in July after a two-year stall, with physical progress at 15%, while the remaining six approved outputs had not commenced.

p. ***Project 1987: Institutional Development of Muni University:*** The multi-purpose Health Science Laboratory Building was at 90% completion against a 100% target, while the Administration Block Annex was at 67.5% against a 95% target. Progress was constrained by limited contractor capacity. In addition, the Mechanical Workshop, which was outside the approved project scope, was at 82.27% physical completion.

q. Project 1835: Busitema University Infrastructure Development Project II: Progress varied across campuses. Phase IV works on the five-level Lecture and Laboratory Block at Mbale Campus were at 85% completion, therefore the planned completion of the Mbale Teaching Complex was not achieved by year end. The Maritime Institute Laboratory and Lecture Block at Namasagali was 80% completion. Teaching facilities at Pallisa and Arapai were at 30%, the 500-seat Lecture Hall at Nagongera at 15%.

r. ***Project 1983: Institutional Development of Mbarara University:*** Renovation works at the Faculty of Applied Science and Technology, the Estates Buildings, and the Library Block; road rehabilitation; water infrastructure at the Town and Kihumuro campuses; and graduation grounds works were completed. Mbarara University's College of Health Sciences designs (Phases 1–3) are complete, with Phase 1 approved and construction at 1%.

Gender and Social Protection Sub Programme

The performance of the Gender and Social Protection subprogramme was fair (56%) in FY 2025/26. Nonetheless, overall financial absorption was limited because external funds were underutilised. Of the Shs.103.774 billion allocated under external financing, only Shs.38.040 billion (36.6%) was effectively utilised to enhance growth and productivity opportunities for women's enterprises. This performance was mainly due to delays in approving the World Bank Grant Agreement.

Interventions involving direct, measurable services performed well, whereas those requiring institutional reform, approvals, infrastructure development, or multi-agency coordination fell short of planned targets. Many policy, regulatory, and institutional outputs remained at stages such as draft, review, negotiation, or approval. For example, the National Social Capital Growth Strategy, National Equity Guidelines for Natural Resources-dependent and surrounding Communities, National Family Policy, Uganda National Parenting Program, and the Human Rights Mainstreaming Strategy were all in draft, awaiting approval; the Social Impact Assessment and Accountability Bill was reviewed but not finalised; and the National Arts Council and the Male Engagement Strategy were not implemented.

Furthermore, the evidence of outcome performance was limited, mainly focusing on output results and offering little insight into long-term changes in beneficiaries' welfare, economic empowerment, workplace safety, social inclusion, and access to justice.

Key Performance Highlights

i) Reduce Vulnerability, Gender Inequality and Inequity

To address vulnerability, gender inequality, and inequity, the subprogramme continued targeted interventions, making progress in strengthening gender and equity compliance and supporting vulnerable groups. However, gaps remained, especially in operationalising Gender-Based Violence response services. Gender and Equity Compliance assessments were completed for all 18 planned Programme Implementation Action Plans, with compliance slightly increasing from 68% in FY2024/25 to 70% in FY2025/26. Despite this progress, the 30% non-compliance rate indicates that gender and equity considerations are not yet fully institutionalised.

The scale-up of Gender-Based Violence (GBV) prevention, response, and referral was fair. The response efforts performed well, with 5,508 cases reported (93.8% of the target) and 3,442 vulnerable individuals receiving psychosocial support, reaching 86% of the annual goal. The Ministry inspected 12 of the planned 21 GBV shelters, achieving about 57%. However, a significant gap remains between regulatory oversight and service sustainability. While inspections aimed to verify compliance with shelter standards, many shelters were non-operational due to insufficient operational funding. By August 2026, all GBV shelters in the Eastern Region had closed. For example, Kamuli shelter had been inactive for nearly three years, Jinja's shelter closed in May 2026 and could only provide day counselling, and Namutumba had fully shut down. These closures have limited survivors' access to protection, temporary shelter, psychosocial support, referral services, and other critical response mechanisms.

Holistic social care and support were provided to vulnerable groups, including children in rehabilitation centres and remand homes. This support encompassed food, non-food items (training), access to justice, and resettlement. A total of 4,602 children received food and training materials, surpassing the target of 2,531.

Additionally, 234 children were rescued from the streets, discharged from remand homes, and supported through social reintegration mechanisms, exceeding the target of 200. Nonetheless, ongoing deficiencies in basic accommodation facilities limited the quality of care in remand homes. The centres lacked enough mattresses, blankets, bed sheets, and beds because of prolonged supply gaps from the ministry. This shortfall poses a significant risk to delivering dignified and appropriate care to juveniles. It suggests that, despite meeting programme outputs, critical infrastructure and resource constraints threaten the sustainability and effectiveness of rehabilitation efforts.

The expansion of livelihood growth and economic empowerment programmes for youth, women, older persons, persons with disabilities, and ethnic minorities yielded mixed outcomes. Support for older persons exceeded expectations, with 318,649 eligible individuals across 146 districts and cities, surpassing the target of 316,000. Youth training at Youth Skills Centres also exceeded the goal, benefiting 1,418 individuals against a target of 640 (222%).

However, only 5,442 youth participated in livelihood programmes out of a target of 7,840 (69%), and support for persons with disabilities reached 14,237 against a target of 22,120 (64%). Some grants were received as late as May 2026, even though districts had submitted as early as December 2025. For the Social Assistance Grant for Empowerment, Q4 payments were incomplete by August 2026, with districts such as Namutumba, Kamuli making their final payments in January 2026.

ii) To mobilize communities for increased participation in National Development

The subprogramme performed well in community mobilisation, adult learning, and empowering cultural and creative practitioners, although important institutional and family-support gaps persisted. It carried out community mobilisation and trained 225 Community Duty Bearers as planned. However, sensitization on business formalization reached only 50 beneficiaries, despite a nominal target of one, making the indicator difficult to interpret in relation to planned programme ambition and actual coverage.

Civic Education and Adult learning were done. The Integrated Community Learning for Wealth Creation model was implemented in all 176 targeted local governments, while 10,594 households benefited from Village Savings and Loan Associations and investment clubs. Adult learning and community education exceeded the target by 20%, reaching 3,600 participants against 3,000, while 11 Community Learning Centres were made functional against five planned, representing 220% achievement. However, the failure to establish the national qualification framework for adult learning and community education suggests that outputs were not matched by progress in developing the institutional framework needed to standardise and sustain these interventions.

The culture and creative industries intervention significantly exceeded its targets, with 5,795 beneficiaries accessing credit, compared with a target of 850, equivalent to 682% achievement. Copyright registration achieved its target, while 16 of 17 traditional institutions received support to promote indigenous knowledge and skills. In contrast, the intervention to strengthen family structures and protect children from domestic violence, deprivation, abuse and child labour recorded no progress. Neither the planned family support group nor the three planned training programmes for family support practitioners and para-social workers were implemented. This represents a critical implementation gap, particularly given the intervention's role in preventing household-level vulnerabilities and protecting children.

Key Challenges

i. **Delayed financing and low absorption;** Only 36.6% of external funds were utilised, mainly due to delays in approving the World Bank Grant Agreement. Delayed disbursement of livelihood grants also affected implementation.
ii. **Weak operationalisation and sustainability of services**; several Gender Based Violence shelters were non- functional due to inadequate operational financing, while child protection facilities faced shortages of basic accommodation supplies.

Recommendations

i. The Ministry of Gender, Labour and Social Development (MGLSD) should expedite approval and release of funds by strengthening coordination with the World Bank to ensure timely approvals. In addition, it should introduce early warning mechanisms to identify and resolve financing bottlenecks before they affect implementation.
ii. The Ministry of Gender, Labour and Social Development (MGLSD) should prioritize the provision of predictable operational funding and the reinforcement of service sustainability to guarantee the reopening of non-functional Gender-Based Violence (GBV) shelters and to address critical infrastructure and supply deficiencies in child protection facilities.

Conclusion

The subprogramme should transition from mainly focusing on outputs to emphasizing results and sustainability. It is important to ensure that completed interventions continue to function, reinforce institutional reforms, and show clear, measurable improvements in the welfare and economic empowerment of vulnerable groups.

The Labour and Employment Sub-Programme

During FY 2025/26, the performance of the Labour and Employment Services function under the Ministry of Gender, Labour and Social Development was fair (54%), with stronger performance in labour inspection, occupational safety and health, employment promotion, sensitisation and enterprise support, but weaker performance in some institutional development, labour relations and infrastructure-related outputs. Below are the key performance highlights by the NDP IV objective.

Key Performance Highlights

i. To promote decent work and productive employment

The subprogramme continued to promote decent work and productive employment through five key interventions: strengthening compliance with labour standards and rights; developing and implementing programmes for job-rich growth; creating a functional labour market; improving occupational safety and health management; and fostering labour productivity, research, innovation, and technology adoption.

ii. **Compliance with labour standards and rights was enhanced**.

Stakeholder sensitisation surpassed expectations, reaching 590 workers, employers, training institutions, and recruitment agencies, compared to a target of 330. The Labour and Industrial Relations Department also sensitised 300 stakeholders, exceeding the goal of 200. Additionally, the Department revised or developed three policies, laws, regulations, guidelines, and standards related to labour, employment, and Occupational Safety and Health (OSH) as scheduled. Furthermore, 355,488 vulnerable and special groups were reported in employment, slightly surpassing the annual target of 354,164.

Some regulatory outputs were not fully implemented because senior management had not yet approved the draft regulations. The Ministry inspected 57 labour unions, exceeding the target of 50, but only reviewed and registered 14 (70%) collective bargaining agreements out of the planned 20. This indicates that although compliance monitoring and awareness efforts were effective, advancement in certain key industrial relations processes fell short of expectations.

iii. **Job-rich growth initiatives were developed and implemented, but significant gaps were identified in institutional and infrastructure outputs.**

Through the labour externalisation programme, 36,612 people were employed against a target of 36,000 (102%). All four planned awareness campaigns on safe labour migration were carried out. Additionally, 348 private recruitment agencies and labour training centres were licensed and compliant, exceeding the target of 100 (348%). Support was provided to 12,921 Micro, Small, and Medium Enterprises with access to finance, capacity building, and markets, far exceeding the goal of 2,000 (646%).

However, only one of four bilateral labour agreements and MoUs was signed (25%), one of two labour attachés was deployed (50%), and three of seven common-user facilities were established or upgraded (43%). These gaps are significant as bilateral agreements and labour attachés are key for

protecting migrant workers, regulating recruitment, and coordinating with destination countries. Slower progress in establishing common-user production facilities under the GROW project also affects the development of employment support infrastructure.

iv. **The Ministry implemented Occupational Safety and Health management.**

The Ministry reported 1,009 workplaces with OSH systems against a target of 1,000, while 450 workplaces reported occupational injuries and diseases against a target of 400. Workplace inspections also exceeded targets, with 1,009 workplaces inspected for compliance with OSH standards. In chemical safety, 166 workplaces handling toxic chemicals were inspected against a target of 120, while 1,844 stakeholders were trained in safe chemical handling, substantially exceeding the planned target.

The Ministry also assessed exposure to hazardous gases at 410 mining sites, exceeding the target of 100. Regulatory and enforcement outputs included environmental and social impact assessments and audits, occupational accident investigations, reviews of building plans, and inspections and certification of statutory equipment. However, the reported outputs do not fully demonstrate whether the interventions reduced workplace accidents, occupational diseases, or other labour-related risks.

v. **Labour productivity, research, innovation, and technology implementation were pursued.**

Capacity-building initiatives included training 88 Labour Officers in labour inspection reporting, inspection tools, and industrial relations; instructing 57 General Secretaries of labour unions on their duties and obligations; and educating 2,197 Community Development Officers on labour rights, social dialogue, and worker representation structures. These activities aimed to strengthen the institutional and personnel capacities involved in labour administration and industrial relations.

Despite these capacity-building achievements, the planned establishment and operationalisation of the National Productivity Centre were not achieved. This is a significant strategic gap, as the centre was intended to provide an institutional basis for productivity research, innovation and technology uptake. This contrasts relatively strong short-term capacity-building activities with limited progress in establishing longer-term institutional mechanisms to improve national labour productivity.

Key Challenge

Weak institutional capacity and delays in policy, labour relations, and productivity mechanisms were evident. This was reflected in delays in senior management approvals of regulations and guidelines. These challenges limit the Ministry’s capacity to institutionalise improvements in labour productivity, safeguard migrant workers' rights, and strengthen labour relations.

Recommendation

The Ministry of Gender, Labour and Social Development should strengthen institutional coordination and establish time-bound approval processes for regulations, bilateral agreements and other strategic instruments, with clear responsibility assigned to relevant departments and senior management.

Conclusion

The Labour and Employment Services sub-programme registered fair performance during FY, with achievements noted in labour inspection, occupational safety and health, and employment promotion. Moving forward, the Ministry ought to prioritise resolving implementation bottlenecks. Furthermore, the Ministry should focus on turning routine activities into sustainable institutional reforms that deliver measurable improvements in decent work, worker protection, productivity, and employment outcomes.

Population Health, Safety and Management Sub-Programme Summary

The Subprogram interventions mainly contribute to Objectives 1, 3 and 9 of the Human Capital Development Programme which are: (i) improve the foundations of human capital development; (ii) improve population health, safety and management, including access to safe water, sanitation and hygiene services; and (iii) strengthen the policy, legal, institutional coordination and regulatory frameworks for Human Capital Development.

The objectives seek to reduce under-five, maternal and neonatal mortality; reduce under-five stunting, population growth, and total fertility; reduce mortality from non-communicable and high-risk communicable diseases; reduce teenage pregnancy; improve access to safe water, sanitation, and hygiene; and increase universal health coverage.

Performance Highlights

Overall performance under Population Health, Safety and Management was good in FY2025/26, although results varied across interventions. Good performance was recorded in the following:

i. Communicable-disease control,
ii. Immunisation,
iii. Maternal and new-born health,
iv. Specialised referral care,
v. Health research,
vi. Equipment maintenance, and
vii. Selected water and sanitation investments.

However, performance was weaker in major development projects, laboratory and diagnostic systems, community-level service delivery, financial risk protection, and human resources for health.

i. **Maternal and newborn outcomes improved**:

The institutional maternal mortality ratio declined to 65 deaths per 100,000 deliveries against a target of 78, while institutional perinatal mortality was 15.4 deaths per 1,000 births against a target of 17. Four neonatal units were operationalised, and 580 health workers were mentored against a target of 500. However, the adolescent birth rate remained high at 106 per 1,000 girls aged 15–19; only 59% of HC IVs were fully functional for blood transfusion and Caesarean sections against a target of 64%; and only 61.6% of perinatal deaths were reviewed against a target of 66%.

ii. **Specialised facilities remained highly utilised**:

145% bed occupancy at the Uganda Cancer Institute, 50,842 admissions at the 200-bed Kawempe National Referral Hospital, and 17,447 specialised inpatients at Mulago Specialized Women and Neonatal Hospital.

iii. **Communicable disease control and immunisation generally performed well**:

Knowledge of three HIV-prevention methods reached 91%; Anti-retroviral Therapy (ART) retention at 12 months was 84%; 96% of Human Immune Virus (HIV)-positive pregnant women were initiated on ART; and malaria interventions included distribution of 15.7 million long-lasting insecticide-treated nets. Immunisation achieved 96% of planned targets, with 98% of sub-counties having at least one facility with a functional Expanded Programme on Immunization (EPI) refrigerator and 95% of static facilities conducting outreach. Transport constraints, vaccine hesitancy and commodity gaps nevertheless limited access in some areas.

iv. **National Medical Stores achieved 91% order fulfilment and 91% availability of essential medicines and health supplies at central warehouses, exceeding the 90% target**:

However, availability at lower-level facilities averaged only 62%. Electronic medical-record and logistics systems strengthened reporting and accountability, but incomplete rollout, weak forecasting and inappropriate medicine use reduced their effectiveness. Human-resource performance was mixed: 1,189 health workers were recruited, and all 1,794 medical interns were facilitated, yet only 34% of approved public-health posts were filled.

v. **Infrastructure results were mixed**.

Retooling and equipment maintenance performed relatively well, including restoration of 31 X-ray and 88 ultrasound machines, while the 100-bed Mbarara Regional Referral Hospital (RRH) neonatal unit reached 98% completion. Several large projects remained behind schedule because of inadequate or delayed financing, weak planning, procurement and contract management, slow contractor mobilisation, land-acquisition constraints, and failure to coordinate civil works with equipment delivery. Water, Sanitation, and Hygiene (WASH) investments expanded access through 148 completed solar-powered water-supply systems, 9,437 new water connections, rehabilitation of 72 town systems, and completion of five faecal-sludge management facilities. Nevertheless, some water and sanitation works remained delayed by procurement, approvals, compensation and contractor-capacity constraints. The details by intervention are discussed hereafter.

Detailed performance as per the NDP IV PIAP interventions.

i. Reduce the burden of communicable diseases, focusing on malaria, HIV/AIDS, tuberculosis, neglected tropical diseases, hepatitis and epidemic-prone diseases across all age groups through a Primary Health Care approach:

Treatment and control interventions generally performed well (75%), supported by facility-based service delivery and partner programmes.

As of 30th June 2026, knowledge of three Human Immune Virus (HIV)-prevention methods was reported at 91%, meeting the annual target. Anti Retro-Therapy (ART) retention at 12 months reached 84%; 96% of HIV-positive pregnant women were initiated on ART; and 86% of HIV-exposed infants

received a second Deoxyribonucleic Acid, (DNA)/ Polymerase Chain Reaction (PCR) test within nine months. Tuber Closis (TB) treatment coverage and treatment success were 91% and 86%, respectively, meeting their annual targets. The proportion of leprosy cases with Grade 2 disability was 9%.

The malaria programme made substantial progress through the distribution of over 15.7 million long-lasting insecticide-treated mosquito nets (61% of the national target), implementation of Seasonal Malaria Chemoprevention (SMC) in Karamoja, Indoor Residual Spraying (IRS) in high-burden districts, and preparations for the rollout of the Multiple First-Line Treatment (MFT) policy.

By 30th June 2026, the Global Fund Programme Management Unit had submitted the funding application for the 2027–2029 grant cycle, with the successor grant expected to commence on 1st January 2027, subject to approval by the Global Fund. The new grant is intended to ensure continuity of HIV, tuberculosis, and malaria interventions while building on the achievements and lessons from the current grant cycle.

ii. Promote disability-friendly health services, including physical accessibility and appropriate equipment:

By the end of June 2026, 4857 assistive devices had been distributed against an annual target of 1,500, while 149 health workers had been trained in disability-friendly service delivery against the target of 150. However, only 20% of National and Regional Referral Hospitals had assistive-technology workshops and 60% of general hospitals had functional rehabilitation-care units, against targets of 30% for each indicator.

Most of the health infrastructure monitored had ramps enabling access to the facilities for people living disabilities and others had provisions for assisted bath. At Kawempe National referral hospital procured birthing stools to support mothers especially those with limited leg function.

iii. Strengthen population planning and development along the life cycle approach including civil registration, vital statistics and national population data bank:

Institutional planning and health information management structures necessary for population planning were in place, progress in strengthening civil registration and vital statistics (CRVS) linkages, comprehensive population data management, and life-cycle-responsive planning however remains limited. There is urgent need to strengthen inter-sectoral collaboration on CRVS and population data systems to improve performance in subsequent periods.

Vital to note however was that the health information and data systems, were functional with facilities using the District Health Information Software 2(DHIS2) for reporting. In addition, the performance management system was operational at all levels of care. The intermittent availability of the internet including low bandwidth however effectively affected the full optimisation of the digital system.

iv. Improve the functionality of the health system to deliver quality and affordable preventive, promotive, curative, and palliative healthcare services.

As of 30th June 2026, significant infrastructure achievements included completion of the Katakwi General Hospital theatre, while the theatre and staff housing at Kambuga General Hospital reached 98% and 97.5%, respectively. The staff houses and theatres were operational; however, the sluice

units installed at Kambuga and Itojo General Hospitals were not made of pure stainless steel, potentially compromising basic infection prevention and control standards.

Rehabilitation works for general hospitals reached about 86% at Kasana- Luwero, 85% at Itojo and 60% at Masindi, while the Masaka RRH radiology block and Kapchorwa General Hospital theatre reached 70%% and 72%, respectively. The first phase of Lira Regional Blood Bank was completed to roofing level, although the overall project remained at 60%.

Fourteen oxygen plants were installed and tested, while four additional Pressure Swing Adsorption (PSA) plants at Lira, Mbarara, Hoima and Mbale were completed and awaited commissioning. Civil works and equipment installation for five regional incinerators were near substantial completion. Twenty-four of the 26 medicine stores were completed, with 14 commissioned, while all 20 sites for digital X-ray machines were prepared and equipment installation commenced.

The digital X-ray units however were delivered with films that expired before installation, resulting in financial loss. This was attributed to poor planning, as the equipment and films arrived before the sites were ready, for installation. Maintenance interventions however restored the functionality of 31 X-ray machines, 88 ultrasound machines and critical-care equipment in 14 regional referral hospitals regions.

Performance was constrained by inadequate funding, delayed release of funds and slow implementation by the UPDF Engineers Brigade, which left some sites stalled or unstarted. Delayed procurement of air-conditioning units also affected operationalisation of digital X-ray machines.

Establishment of the modern heart facility at Naguru continued during FY2025/26. The latest monitoring assessment indicated that civil works had reached 62% completion against a planned progress of 68%. Regarding the equipping of the facility, the Uganda Heart Institute (UHI) Board approved the Standard Bidding Documents, and a request for a No Objection had been submitted to the funders. No Objections had been received from Arab Bank for Economic Development in Africa (BADEA) and Organization of the Petroleum Exporting Countries (OPEC) Fund, while a response from Saudi Fund for Development (SFD) was still pending.

At Mulago National Referral Hospital, construction of 150 staff-housing units was at 51% completion by the end of June 2026, against a planned 70%. Of the 150 planned units, only 68 units (Block C) were at the finishing stage, with 60% physical progress, while Block D was at 30%, and Block E had not commenced. The delays were mainly attributed to the re-channelling of stormwater and the redesign of the foundation from a strip to a raft foundation due to unforeseen ground conditions.

Remodelling works of Upper Mulago completed: Works on the remodelling and rehabilitation of Upper Mulago had commenced and had achieved 10% physical progress. The ongoing activities included plumbing works, renovation and remodelling of the Biomedical Engineering Workshop, and rehabilitation of various wards with outstanding works.

Regarding the African Development Bank (AfDB)-supported Uganda Cancer Institute project, As of 30th June 2026, overall physical progress was at 71%. The Uganda Cancer Institute (UCI) fulfilled the disbursement conditions on 10th November 2025 and subsequently submitted a request to the Bank for the first loan disbursement under the additional financing. The disbursements and expenditures remained minimal and mainly covered operational expenses and staff salaries. Preparatory activities for procuring the civil works contractor were still ongoing.

Regarding establishment of centres of excellence for cancer care, one Centre of Excellence had been established. Regional Cancer Centres in Northern, Western, Eastern, and West Nile regions were operational at one centre each, but overall expansion of centres of excellence remained below plan. Only Northern centre was expanded and functional while physical progress across the three project sites was at preparatory activities.

At the Mbale Regional Oncology Centre, the site was handed over to the contractor on 1st June 2026, and site hoarding, mobilisation, and establishment works had commenced. The project is being executed under a turnkey contract, where the contractor is responsible for delivering a fully operational facility within 10 months.

In Karamoja region, rehabilitation and expansion work at the facilities under upgrade from HC II to HC III and from HCII to HCIV were ongoing and at various completion levels. Works at Amudat were at 50.3% against 100% scheduled performance, Works in Moroto were at 89% completion levels while works in Napak were at 54%b completion status. It was noted that works in Amudat and Napak were greatly behind schedule. Works in Napak were unsatisfactory as the contractor (M/S BULMARK ASSOCIATES LTD) was non response in correcting defects identified by stakeholders and was using un qualified masons.

Regarding emergency and referral services, all three planned regional call and dispatch centres were substantially completed and 780 first responders had been trained by the end of June 2026. Pre-hospital emergency services supported 7,650 patients using an operational fleet of 262 road and 14 boat ambulances. No standard Intensive Care Unit was constructed at a Regional Referral Hospital during the reporting period.

Blood collection and availability: By the end of June 2026, 1.69 million potential donors had been mobilised and 348,319 units of whole blood collected against an annual target of 460,000 units. Three blood-promotion campaigns and three technical-supervision exercises were undertaken.

Under Human Resource Management, 1,189 health workers were recruited against a target of 1,200. 1,435 Human Resource for Health decisions were made, exceeding the target, and 9,342 USG-supported staff were validated nationwide. Support supervision was conducted across 12 Regional Referral Hospitals, 77 District Local Governments, and 2 cities However, the process was delayed by late recruitment requests, delayed approvals from the Ministry of Public Service, and breakdown of the Electronic Recruitment System (ERS).

The Health Service Commission also strengthened recruitment processes by monitoring ERS hubs, developing an ERS mobile application, and completing phase one of the e-Recruitment system redesign and upgrade. Additional office space was acquired, vehicles, and ICT equipment were procured to improve operations. Nevertheless, significant human resource gaps remain, with staffing levels at only 40%, while remote areas continue to face difficulties in attracting and retaining certain health worker cadres.

In addition, the MoH reviewed and updated the staff training and professional development guidelines, conducted a midterm review of the Human Resources for Health Strategic Plan, developed eLearning SOPs, and undertook a benchmarking visit to Nairobi to strengthen tele-mentorship and innovative capacity building. Health facilities also continued to train staff to address specific needs and improve service delivery, although inadequate training budgets remain a challenge. Despite these

financial limitations, the new guidelines and SOPs have established standardized processes for workforce development and digital learning, supporting consistent, high-quality training and effective implementation of the Ministry of Health eLearning platform.

As of 30th June 2026, all 1,794 planned medical interns were facilitated, and 505 Senior House Officers were verified for attendance by the end of June 2026. Training in human-rights-based approaches and ethical conduct exceeded the annual plan. Nevertheless, only 34% of approved public-health posts were filled against a target of 85%, continuing to constrain service delivery.

In addition, a total of 386 health workers were trained in the human-rights-based approach and ethical conduct against 200 planned, Quality of surgical care mentorship was conducted for surgeons in HC IVs, General Hospitals, RRHs and NRHs to improve post-surgery outcomes. Client charters for MoH, RRHs and NRHs reviewed and monitored alongside service delivery standards. The Governance, Standards, Policy and Regulation (GOSPOR) technical working group meetings at MoH were conducted monthly. However, adherence to the turnaround time in service provision was affected by poor staffing levels at all levels of care.

v. Prevent and control non-communicable diseases, focusing on cancer, cardiovascular, genetic, renal, endocrine, mental-health, trauma, and malnutrition conditions across all age groups

As of 30th June 2026, specialised facilities continued to record high demand for instance. At the Uganda Cancer Institute (UCI), bed occupancy reached 145% and outpatient attendance reached 12,845 by the end of June 2026, demonstrating pressure on oncology services. In addition, the UCI conducted 260 days of cancer awareness and screening clinics, reaching 9,617 clients, and completed breast, colorectal and prostate cancer early-detection guidelines. Community prevention was strong, with 20 school cancer-prevention programmes and 15 VHT training sessions conducted.

The Uganda Heart Institute continued to provide advanced cardiovascular care. The latest verified return recorded 146 open-heart surgeries,142 closed-heart surgeries, 69 vascular surgeries and 468 catheterisation procedures, alongside 30093 outpatient attendances, 2508 critical-care admissions and 1909 general-ward admissions.

Heart-disease prevention activities also performed relatively well. UHI conducted 11 of 16 planned support-supervision visits, all 3 planned closed-heart surgery camps were conducted, 70 awareness camps/talks against 42 planned conducted. However, only 50% of MDAs had non communicable disease prevention and control workplace policies against the 100% target. Construction of the Uganda heart Institute facility had achieved 62% physical completion against the target of 68%. Overall, the quality of civil works was satisfactory.

Kiruddu National Referral Hospital sustained renal, liver-function, nutrition, and dialysis services. The latest verified return recorded 112,521 renal-function tests, 18,850 liver-function tests and specialised nutrition support for 60 burns patients. Dialysis consumables were also supplied to Lira, Mbale, Mbarara and Hoima Regional Referral Hospitals and Kawempe National Referral Hospital.

Butabika National Referral Mental Hospital continued to provide outpatient and inpatient mental-health services. The latest verified return recorded 8,563 admissions, 50,681mental-health clinic attendances, 61,985 laboratory investigations and 2,370 radiology investigations.

Mulago National Referral Hospital delivered high volumes of tertiary and specialised services. By the end of June 2026, it had recorded 101,174 specialised outpatient visits, 28699 tertiary inpatients, 12,282 dialysis sessions and 891 super-specialised surgical interventions. The hospital conducted 171,974 haematology investigations, 955,925 clinical-chemistry tests and 13,755 hormonal assays, and transfused 190,95 units of blood.

Kawempe National Referral Hospital continued to face high demand for paediatric, neonatal, and maternal services. By 30th June 2026, the facility had 3,614 paediatric admissions, 7,566 NICU admissions, 35995 children immunised, 506335 laboratory tests, 5,527 gynaecological emergency admissions and 10,299 caesarean sections.

Regional Referral Hospitals sustained service delivery in diagnostics, outpatient care, maternal health, HIV services, and digital health. Nevertheless, financial absorption and implementation of development projects remained uneven, largely because of procurement delays, funding constraints, and inadequate capacity of contractors.

vi. Improve maternal, neonatal, child and adolescent health services at all levels of care:

The overall performance of the intervention was good. The adolescent birth rate was 106 births per 1,000 women aged 15–19 years. The institutional maternal mortality ratio was 65 deaths per 100,000 deliveries, surpassing the target of 78.

Fully functional HC IVs offering blood transfusion and Caesarean sections reached 59%, against the 64% target. Institutional perinatal mortality was15.4 deaths per 1,000 births, surpassing the target of 17. Perinatal deaths reviewed reached 61.6% against 66%, while NRHs and RRHs with functional neonatal intensive care units achieved 21%, exceeding the 20% target. General hospitals with functional Level II newborn care units reached 36%, surpassing the 33% target.

The results were mainly attributed to improved antenatal care, enabling early detection and management of complications such as hypertension, anaemia, and infections. Under the World Bank-funded Uganda COVID-19 Response and Emergency Preparedness Project (UCREPP), construction of the neonatal intensive care unit at Mbarara Regional Referral Hospital reached 98% completion. In the Kampala Metropolitan Area, the antenatal and maternal–neonatal referral system reduced unnecessary referrals by strengthening the capacity of lower-level facilities to manage cases locally.

Continuous mentorship, assessments, supervision, and training of health workers supported the identification and resolution of service-delivery gaps. Maternal and Perinatal Death Surveillance and Response (MPDSR) systems helped facilities identify causes of maternal and newborn deaths and implement preventive measures. Kawempe National Referral Hospital and Mulago Specialized Women and Neonatal Hospital also introduced dialysis services, with two beds and one bed, respectively.

On-site refresher mentorship and child-survival spot checks were conducted, including in four Regional Referral Hospitals (RRHs) with high under-five mortality. Overall, 580 health workers were mentored against a target of 500 across eight health regions: Lango, Acholi, West Nile, Teso, Karamoja, Bukedi, Kampala and North-Central. Neonatal care units were operationalised at Lira, Masaka, and Fort Portal RRHs, alongside a Level II newborn care unit at Iganga General Hospital, expanding specialist newborn care across the northern, southern-central, western, and eastern regions.

Kawempe National Referral Hospital exceeded several clinical targets, supported by improved service delivery, high patient turnout, and strengthened community outreach. The hospital admitted 50,842 inpatients, achieving 101.7% of its 50,000 target despite having only 200 beds. Outpatient attendance reached 115,466 (144% of target), while gynaecological emergency admissions reached 5,527 (138%). The hospital also managed 7,566 NICU and 3,614 paediatric admissions and provided family planning and antenatal care services to 7,873 and 30,612 clients, respectively.

Mulago Specialized Women and Neonatal Hospital attended to 17,447 specialised inpatients, achieving 136.3% of its target. Cases covered ICU, NICU, HDU, maternal–foetal medicine, postnatal care, gynaecological oncology, benign gynaecology, reproductive endocrinology and infertility, and uro-gynaecology services. The hospital also managed 8,881 emergencies, conducted 3,816 deliveries (115.6% of target), and performed 3,453 surgeries (123.3%).

Outpatient attendance reached 49,774, representing 94.9% of the target, including 15,624 antenatal and 8,377 gynaecology clinic visits. Diagnostic imaging reached 18,245 examinations (107.6% of target), although limited funding for equipment maintenance remained a challenge. Under retooling, the hospital procured and installed specialised medical equipment, ICT equipment and software, and hospital furniture and fittings.

vii. Improve curative, palliative, rehabilitative and geriatric care services

By 30 June 2026, intervention performance was good, with most annual targets achieved. A total of 486 medical laboratories were inspected for compliance, 265 registered and 686 licences issued. Integrated support supervision was conducted in over 20 health facilities, while the approved Hepatitis B and C Guidelines and the 2025 National Infection Prevention and Control (IPC) Guidelines were disseminated across 11 regions. The second edition of the National IPC Guidelines was also launched in Masaka, Fort Portal, Entebbe, Gulu, Arua and Hoima. Progress was made towards developing the National Congenital Anomalies Strategic Framework and establishing a national healthcare-associated infection surveillance system.

Partner-supported interventions strengthened emergency preparedness and specialised care. Over 300 frontline health workers were trained in Ebola preparedness, 223 obstetric fistula repairs were conducted, and 14,082 people were screened for sickle cell disease across nine districts. In addition, 1,176 community health workers were trained in eye-health screening in Mbale, Budaka, Kaliro, Kasese and Luwero. A disability prevention and rehabilitation awareness campaign and four national-level trainings on disability-inclusive healthcare, basic rehabilitation and early-childhood disability interventions were also conducted.

Overall, coordination, oversight and access to specialised services improved, although staffing, financing, infrastructure, and implementation constraints persisted.

Referral-system support and assessments continued at National and Regional Referral Hospitals and selected lower-level facilities. Progress was also registered in assistive-device distribution and disability-friendly service training.

Performance remained weak for several laboratory and diagnostic-system indicators. No health workers at Community Hospitals or HC IVs were trained in sonography, no planned standard or

guideline was completed, and the annual PBS indicator for hospital laboratories attaining ISO accreditation recorded no achievement by the end of June 2026.

Promote health research, innovation, and technology uptake, including improvement of traditional medicines: Health-innovation structures remained functional and new medical technologies were adopted. The Uganda Cancer Institute operationalised its national cancer-registry system and three regional registries in Gulu, Mbarara and Mayuge.

The Uganda Cancer Institute reported 24 peer-reviewed research papers by the end of June 2026 against a target of five and confirmed development of its health-research agenda. It also implemented 31 research projects and produced 15 research reports. Digital health procurements and registry development continued in other institutions.

viii. Increase access to immunisation against childhood diseases:

Overall performance was rated good, with 96% of planned targets achieved by the end of FY2025/26. As of June 2026, a total of 27,234 health workers were trained in immunisation practices, far exceeding the target of 1,500. Measles–rubella second-dose coverage reached 68% against 60%, while 76% of children under one year were fully immunised against the 85% target. Malaria fourth-dose coverage reached 20% against 30%, partly because implementation began in the second half of the financial year. Under-five deworming coverage was 76%, slightly below the 80% target.

Cold-chain and outreach capacity improved, with 98% of sub-counties having at least one facility with a functional EPI refrigerator against the 90% target. Similarly, 95% of static EPI facilities conducted outreach activities against 90%. Integrated Child Health Days were also supported nationwide, and monitoring visits found no vaccine stockouts during the year.

Transport remained a major constraint to outreach services. Facilities such as Bujubuli HC IV, Burama HC II and Rwenkiri HC III relied on limited motorcycles, hired boda bodas or partner vehicles. Improved transport, stronger community mobilisation, and accelerated rollout of newer vaccines are required to close the remaining coverage gaps.

ix. Increase community ownership, access, and utilisation of health promotion, environmental health and community health services, including for persons with disabilities.

Community Health Extension Workers (CHEWs) were rolled out in nearly 71 districts during FY2025/26, with training and orientation completed in 38 districts and ongoing in 33 districts. At least 20% of parishes had two or more functional CHEWs, while all health facilities at HC III level and above provided integrated management of acute malnutrition. The National Communication Strategy and Calendar were developed, 30% of households had improved sanitation facilities, and health and nutrition promotion, education interventions, and efforts to build a climate-resilient health system were scaled up. However, the rollout of the integrated community health services package across all villages performed moderately during the period under review.

The Social and Behavioural Change Communication (SBCC) Strategy 2026–2031 was developed, produced and disseminated to stakeholders. The Ministry of Health conducted technical support supervision, monitoring, evaluation and mentorship of District Health Educators and Assistant Health Educators on health promotion and disease prevention services in 80 districts across South, Western

and Eastern Uganda. Five community awareness campaigns on tuberculosis were conducted, while urban immunisation activities were implemented in 13 cities.

The Ministry of Health also conducted community dialogues on disease prevention and control in Kotido, Kabongo and Moroto districts. These interventions contributed to strengthening community health promotion, disease prevention, nutrition services, sanitation, immunisation and resilience of the health system, although gaps remained in the full rollout of integrated community health service.

x. Promote health research, innovation, and technology uptake, including improvement of traditional medicine.

As of 30th June 2026, there was commendable progress in digital-health technology through enhancement and customisation of Uganda's eAFYA - the Electronic Medical Records system. Additional modules covering service areas were developed as planned, strengthening the platform for digital patient information and service management. The roll out had been decentralized up to the HCIII level like in Moroto district

The health innovations working group was operationalized, adopting new medical technologies. In addition, developing the health research agenda for the Uganda cancer institute was ongoing. The cancer registry was also strengthened. '*CanReg'* was fully installed and operational at UCI with about 82,000 records, while regional registry development progressed. UCI also supported oncology training, and collaborative research projects with 35 research papers peer reviewed.

Relatedly, twenty-eight research publications on heart disease in peer reviewed journals were published by the Uganda Heart Institute (UHI) and eight research studies by UHI staff were facilitated. Three research training sessions were conducted and thirty-two research protocols reviewed.

The Uganda Virus Research Institute (UVRI) carried out four rounds of surveillance for tick and mosquito vectors, responded to viral disease outbreaks and conducted four influenza-surveillance activities. Laboratory investigations reached 11,917 against 6,000 planned, Acute Flaccid Paralysis, measles and rubella surveillance was maintained, four seasonal profiles of arboviral and malaria vectors were completed, and four regions were screened for bacterial endosymbionts.

xi. Increase financial risk protection for health with emphasis on implementing the national health insurance scheme and scaling up community-based insurance and health cooperatives.

The intervention registered poor performance, with comparatively good performance achieved in the generation of non-tax revenue from occupational safety and health services. One proposal was finance under the financial risk protection. However, the planned development of the Health Financing Strategy was not achieved, and no substantive progress was registered towards the establishment of the Social Health Insurance Scheme. To support investment planning and resource mobilisation, two project proposals were approved, two received partial approvals and one approved to pre-feasibility stage.by the Development Committee.

xii. Increase access to sexual and Reproductive Health (SRH) information and services

By 30th June 2026, the intervention registered very good performance, demonstrating strong implementation performance. The Couple Years of Protection (CYP) reached 3,891,178, slightly below target, while the prevalence of anaemia among pregnant women was 12% against a target of 17%, indicating good performance. Abortion-related obstetric and gyneacological admissions stood at 8.5%, also reflecting progress given. Facility-level performance was strongest at Mbarara Regional Referral Hospital, which recorded favorable maternal and HIV-related outcomes and exceeded its target for orienting adolescent and youth peer educators.

Naguru Regional Referral Hospital also demonstrated positive results, particularly in reducing HIV positivity among pregnant women attending ANC to 0.3% against a target of 2%, while demand for adolescent and youth sexual and reproductive services exceeded the target by 1,034 clients.

Despite the overall strong performance, key gaps persisted across some indicators and facilities. The prevalence of positive syphilis serology among pregnant women remained above the desired level, while HIV positivity among pregnant women attending ANC was still high. Hoima Regional Referral Hospital recorded high abortion-related admissions of 17.4**% against 5%**. implementation was affected by the Ebola outbreak. Overall, the results demonstrate substantial progress but underscore the need for targeted technical support, strengthened prevention and treatment of HIV and syphilis, enhanced adolescent and youth demand creation, and focused performance improvement at underperforming facilities.

Rural Water Supply and Sanitation Sub-Sub Program

In FY 2025/26, the Ministry of Water and Environment (MWE) contributed to the Human Capital Development Programme through the Rural Water Supply and Sanitation Sub-Sub Programme, Urban Water Supply and Sanitation Sub-Sub Programme, and the Urban Water Utility Regulation Department. The contribution is implemented mainly through development projects aimed at expanding access to safe water and improving sanitation services, including Project 1193 – Kampala Water–Lake Victoria Water and Sanitation Project, Project 1438 – Water Service Acceleration Project (SCAP 100%), and Project 1524 – Water and Sanitation Development Facility–East Phase II, among others.

The key achievements included progress in the design of various water supply projects, with different levels of completion. These included Kimbugu-Rwakaraba (80%), Kagamba–Kacheera (80%), Mpumudde-Lyakajjura (50%), Nyabisirira (40%), Kihomporo (50%), Rwigho-Kinyamagana WSS (10%), Bethlehem-Nabigasa (100%), and Kabura-Mwizi (100%). In addition, Environmental Impact Assessment (EIA) reports were prepared for 05 Urban Centres, namely Kabura-Mwizi, Nyakashaka, Bukinda, Rubaya and Karago**.**

Construction works also registered varying levels of progress across the projects. Karago Phase-II and the MWE-SW Regional Office Perimeter Wall and Gate were completed at 100%, while Rubaya WSS reached 42%**,** Nyakashaka WSS 4%**,** and Bethlehem–Nabigasa Phase 01 5%**.** Construction of the Isingiro Water Supply System in Isingiro District progressed to 80%, while two piped water supply systems, including Mbunga Nyakazinga GFS (Kasese) and Mpunga (Kanungu)**,** reached 30% completion. Other projects recorded progress of Ala Ora Water Supply System (60%), Nankondo

RGC WSS (95%), Bitsya WSS (93%), Nyamugasani Gravity Flow Scheme (97%), and Isingiro Piped WSS (70%)**.**

Overall, 15 Water Supply and Sanitation (WSS) systems were completed, while several others were at advanced stages of implementation. These included Gaspa and Nyakabaale RGCs WSS at 95% and Mutundwa RGC WSS at 94% in Kiryandongo District; Gulinya and Arinyapi RGCs WSS in Adjumani District at 98%; Lobe and Lomunga RGCs WSS at 95% and Goboro RGC WSS at 85% in Yumbe District; Akoro, Pangila and Padible West RGCs WSS in Lamwo District at 76%; and Laropi and Lefori RGCs WSS in Moyo District at 33%**.**

Conclusion

Overall performance under the Population Health, Safety and Management sub-programme was good in FY 2025/26, with notable gains in communicable-disease control, immunisation, maternal and newborn health, specialised referral services, health research, medical-equipment maintenance, and selected water, sanitation and hygiene investments.

The institutional maternal mortality ratio improved to 65 deaths per 100,000 deliveries against a target of 78, while institutional perinatal mortality declined to 15.4 deaths per 1,000 births against a target of 17. Immunisation achieved 96 per cent of planned targets, and National Medical Stores attained 91 per cent order fulfilment and central-warehouse availability. Access to WASH services also expanded through completion of 148 solar-powered water-supply systems, 9,437 new water connections, rehabilitation of 72 town water-supply systems, and completion of five faecal-sludge management facilities.

Despite these achievements, performance remained uneven and important service-delivery gaps persisted. Availability of essential medicines at lower-level facilities averaged only 62 per cent, while only 34 per cent of approved public-health posts were filled. The adolescent birth rate remained high at 106 births per 1,000 girls aged 15-19, and only 59 per cent of HC IVs were fully functional to provide blood transfusion and Caesarean-section services. Financial risk protection, laboratory and diagnostic systems, and some community-level services performed below expectation. Specialised facilities continued to operate under heavy demand, while several development projects experienced delays, cost pressures, quality defects, incomplete equipment installation, and weak operational readiness. Sustaining the gains achieved will require improved planning, budgeting, procurement and contract management across implementing agencies.

Urban Water Supply and Sanitation Sub-Sub Program

Under Urban Water Supply and Sanitation Sub-Sub Programme, key achievements included improvement of hygiene and sanitation practices in 9 towns, namely Manafwa TC, Kanapa, Bukumi, Bulangira, Nasutani, Nakabira, Mukura, Kidera and Aturtur, through sanitation and hygiene training. Land was also acquired for a toilet facility for Manafwa WSS, a water office for Bulangira WSS under GoU, and a booster station at Gadumire Primary School under the World Bank project.

Progress was also registered in the design and construction of various water supply and sanitation infrastructure. Designs reached different levels of completion, including Kimbugu-Rwakaraba (80%), Kagamba–Kacheera (80%), Mpumudde-Lyakajjura (50%), Nyabisirira (40%), Kihomporo (50%), Rwigho-Kinyamagana WSS (10%), Bethlehem-Nabigasa (100%), and Kabura-Mwizi (100%).

Construction works included Manafwa TC (88%), Busaale (95%), Bulangira (58%), Karago Phase-II (100%), Rubaya WSS (42%), Nyakashaka WSS (04%), Bethlehem–Nabigasa Phase 01 (05%), and MWE-SW Regional Office Perimeter Wall and Gate (100%).

Sanitation infrastructure also recorded progress, including construction of public toilets in Manafwa TC at 20%, while Karago Phase-II and the MWE-SW Regional Office Perimeter Wall and Gate were completed at 100%. In addition, 09 public water-borne/institutional VIPs were implemented at different levels, including Bukuku Primary School (100%), Kinyansano Girls High School (95%), Water-borne toilet for Rubaya Water Office (100%), and facilities at 03 Primary Schools in Nyakashaka—Nyakashaka P/S, Kyakuhanda P/S and Kiramira Cope P/S—at 20% completion.

Urban Water Utility Regulation Department

Under the Urban Water Utility Regulation Department, routine operational monitoring was conducted for the Manafwa, Nasutani, Bulangira and Kaproron Water Supply Systems (WSS) to assess their performance and service delivery. In addition, 9 site meetings were conducted in Budaka covering Budaka, Kadama, Tirinyi and Kibuku WSS under the World Bank project. Construction works for Manafwa TC and Bulangira were completed.

Environmental Impact Assessments (EIAs) were also undertaken for 12 town projects, including Rubaya, Karago, Nyakashaka, Kimbugu-Rwakaraba, Kagamba-Kacheera, Bethlehem-Nabigasa, Kabura-Mwizi, Mpumudde-Lyakajura, Kihomporo, Bukinda, and Rwigho-Kinyamagana. (20%).

Key challenges of the Human Capital Development program

i. Weak planning, procurement and contract management: Poor procurement and budgeting, fragmented implementation, delayed approvals and design reviews, weak contract management, inadequate contractor capacity, cash-flow constraints, and non-compliance with technical specifications slowed project implementation and affected budget credibility.
ii. Delays in construction and project execution: Slow mobilisation by the UPDF Engineering Brigade and contractors, partial equipment installation, and delays in works contributed to slow progress on several infrastructure projects.
iii. Land acquisition and compensation challenges: Delays in land acquisition, high compensation costs, and inadequate funding for Project-Affected Persons disrupted implementation schedules and delayed the start of some construction works.
iv. Weak health system and operational readiness: Stock-outs of essential medicines and immunization commodities, inaccurate forecasting, shortages of health management tools and personnel, vaccine hesitancy, inadequate infrastructure.

Key recommendations

i. The Ministry of Health (MoH) and implementing agencies should review and improve planning, and procurement management, to integrate complementary project components, strengthen contractor supervision and quality assurance, enforce contract timelines, and ensure timely certification and payment to accelerate delivery and achieve value for money.

ii. The Ministry of Health, National Medical Stores, and other health institutions should improve forecasting and supply chain management for essential commodities.

iii. The Ministry of Water and Environment (MWE) should prioritize and timely budget for land acquisition and compensation, and engage local governments, land boards, and affected communities early to facilitate timely access to project sites and reduce implementation delays.

iv. The Ministry of Water and Environment (MWE) Project Management Teams should develop and implement time-bound recovery plans for delayed projects, strengthen contractor performance monitoring, and ensure timely approvals, certification, payments, and completion of works.

3.11 Innovation, Technology Development and Transfer

The Innovation, Technology Development, and Transfer (ITDT) Programme seeks to increase the application of appropriate technology in the production and service delivery processes. The programme has three sub-programs, namely: Research and Development; Science, Technology and Innovation (STI) Ecosystem Development, and Industrial Value Chain Development.

During the period under review, the programme activities were executed through Vote 167: STI - Secretariat and Vote 110: Uganda Industrial Research Institute (UIRI). There are three subventions under the programme namely: Banana Industrial Research and Development Centre (BIRDC), Kiira Motors Corporation (KMC), and Uganda National Council for Science and Technology (UNCST).

I. Financial Performance

The total approved budget of the ITDT Programme in FY 2025/26 excluding Arrears is **Shs. 388.552billion**, of which **Shs 15.465Billion** is for Wage, **Shs 329.176 Billion** is for Non-Wage Recurrent, **Shs 43.891 Billion** is for GOU Development. The Programme was also allocated **Shs.0.032Billion** for arrears, bringing the total approved budget to **Shs. 388.585 billion**.

By 30th June,2026 a total of **Shs 386.474 billion** (99.5%) was released, and **Shs 383.595 billion** (98.7%) had been expended.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Proportion of innovators with access to advanced technologies and scientific equipment increased from 10% in FY 2023/24 to 30% against a target of 20%;
ii. There was increase in number of technology development capabilities acquired through development, transfer, adoption or adaption; and
iii. The number of vehicle parts, components and systems localised increased from 10 in FY 2023/24 to 16 against a target of 15.

This performance was attributed to Government continued investment in STI.

However, key performance gaps still remain with regard to: commercialization of STI products, enforcement of intellectual property rights, sustainable graduation of innovators from incubation centres.

b) Programme output performance

Industrial Value Chain Development Sub-programme

The sub-programme aims at increasing the development, transfer and adoption of appropriate technologies and innovations, as well as the development of requisite Science, Technology, Engineering and Innovation (STEI) infrastructure. The sub-programme performance is presented below:

Aerospace and space science, aerospace products and services were developed and domesticated, while the Aerospace Innovation Hub was operationalised. The refurbishment of the Mpoma facility progressed to 60% physical completion. Ground Station equipment installation and Site Acceptance Testing were completed, and the process of obtaining ISO certification was initiated.

Under technology development and industrial value chain development, products were developed, including chaff cutters, banana-fibre extraction machines, an integrated loom and other fabricated components. The capacity of the Katebe Milk Processing Plant was increased from 500 litres to 4,500 litres.

In the automotive and e-mobility subsector, two vehicle models were developed, while 10 vehicle parts, components and systems were localised. Five e-mobility solutions were developed against a target of three. The Kiira Vehicle Plant produced 53 buses, while the E-Bus Xpress continued operations in Kampala, Jinja and Iganga.

Under Industry 4.0 and related technologies, 10 technologies were developed against a target of 10. The electronics manufacturing line was procured, while cloud infrastructure development progressed to hardware delivery and security testing. A total of 10 hardware products were designed and prototyped, and more than 100 students and innovators were trained.

Three infrastructure innovations were developed. These included a locally developed solar water pumping technology, while development work continued on water filtration and mineral-processing technologies.

STI delivered 78 precision tools and components and produced 229 industrial components. The products included gears, shafts, moulds, machine components and other engineering products for industrial use.

Under the Pathogen Economy interventions, the artificial intelligence and health technology development were strengthened through the incubation of three AI health start-ups focusing on cervical cancer screening, tuberculosis screening and the development of an AI health dataset repository.

UIRI designed six spindles, seven liners and 10 insulation materials, contributing to the development of locally produced alternatives for industrial applications. Overall, 25 reverse-engineered products were reported to be available on the market.

UIRI provided engineering and value-addition training to 881 youth cumulatively against an annual target of 460. In addition, 318 informal artisans were trained in engineering skills to improve their technical capacity, efficiency and ability to produce competitive products.

UIRI developed six yoghurt products, all of which were commercialised. In meat processing, six products were developed, of which one was commercialised. Bakery research also incorporated mealworm and cricket-based protein into composite flours to promote alternative sources of protein and value addition.

UIRI analysed 500 products through its microbiology, chemistry and textile laboratories for quality assurance. The Institute also undertook demand-driven research in dairy and bakery processing, resulting in the development of value-added products such as cheese.

UIRI supported 25 incubates in bakery, fruit, meat and dairy processing, resulting in products such as yoghurt, fruit juice and bread. The Nakawa Incubation Centre was also expanded to provide additional space for enterprise development.

STI Ecosystem Development Sub-programme

The sub-programme aims at strengthening the Science, Technology and Innovation ecosystem through technology acquisition and transfer, research, innovation, capacity building and commercialisation of locally developed technologies. The sub-programme performance is presented hereunder:

Under technology acquisition and transfer, 16 technologies were developed and diffused through Technology and Innovation and Research Awareness interventions. In addition, 25 reverse-engineered products were brought to market, including six spindles, seven liners and 10 insulation materials. Four materials research facilities were also fully operationalised.

Strategic project implementation progressed through the advancement of the Agrikbot Smart Autonomous Agricultural Monitoring System, development of smart irrigation technologies and continued implementation of the Advanced Utility Vehicle (AUV) project. Green energy solutions, including mini-grid and off-grid systems, were deployed for island mining operations.

Under health technology development, 10 sunscreen lotion prototypes were developed to support the prevention of skin cancer among albino communities. The prototypes are awaiting authorisation from the National Drug Authority (NDA) for full commercialisation.

A total of 881 youth, 318 informal artisans, and 210 heavy machinery operators were trained in industrial and technical skills. In addition, 70 training programmes on traditional and indigenous knowledge were conducted to promote the preservation and application of indigenous technologies and practices.

In-house incubation support was provided to 102 incubatees across the dairy, meat, fruit, bakery and engineering sectors. The incubation programme was further supported through the upscaling of physical infrastructure at the Nakawa Incubation Centre.

Challenges

i. Delays in resolving land ownership and related administrative issues, affecting the timely commencement of planned activities in industrial parks.
ii. Delays in obtaining the necessary legal, regulatory, and institutional approvals for implementation.

iii. Lengthy policy, treaty, membership, inter-agency consultation, and Cabinet approval processes, affecting the timely implementation of strategic initiatives.
iv. Inadequate funding to fully operationalize planned production, apprenticeship, training, and other institutional programmes.
v. Limited entrepreneurial and business development skills required to effectively support enterprise development and incubation initiatives.
vi. Inadequate funding for the acquisition of priority technologies, equipment, tooling, and other operational requirements.

Recommendations

i. The STI Secretariat should timely authorise grantees to spend the funds disbursed to facilitate the timely achievement of the set objectives.

ii. The STI and host institutions should review the policies on the sharing of proceeds from the Intellectual Property to adequately consider the individual innovator as opposed to only the STI and host institutions.

iii. The STI Secretariat together with the Public Service Commission should expedite the recruitment of staff for the EdiC to support the project achieve the project's objectives.

3.12 Public Sector Transformation

I. Financial Performance

In FY 2025/26, the Programme's approved budget of **Shs 288.53 billion** was revised to **Shs 296.57 billion**. By 30th June 2026, **Shs 270.13 billion** (93.6%) had been released, of which **Shs 267.28 billion** (98.9%) was spent, reflecting strong absorption of released resources.

II. Physical Performance

Implementation registered progress across the Programme's key reform areas. Accountability and performance management were strengthened through investigation of 1,312 Ombudsman complaints, which resulted in payment of Shs 2.35 billion in employment-related benefits to complainants, while the Balanced Scorecard was rolled out across MDAs, Local Governments and other institutions. Government structures were rationalised, with structures for 9 Ministries, 26 Agencies and 57 Local Governments finalised. Human resource management reforms also advanced through expansion of the Human Capital Management system, support to 264 Local Governments, and piloting of electronic recruitment in 15 districts and 5 cities.

Progress was also made in decentralisation and digital transformation. Local Governments received support in budgeting, local economic development, revenue mobilisation and Parish Development Model implementation. Government entities continued to automate and re-engineer business processes, while the UGHub and UGPass platforms expanded interoperability and secure data exchange across institutions. Service Uganda Centres also progressed, with the Kampala centre completed, Mbarara substantially completed and works continuing in Gulu.

Despite these achievements, Programme performance was constrained by funding and staffing gaps, limited technical capacity, weak interoperability, procurement delays and inadequate follow-up on reform actions. Going forward, priority should be placed on filling critical staffing gaps; strengthening integrated digital systems and interoperability; improving follow-up and accountability for inspection and performance recommendations; building capacity in MDAs and Local Governments; and strengthening Local Government own-source revenue mobilisation and fiscal capacity.

3.13 Governance and Security

I. Financial Performance

In FY 2025/26, the Programme had an approved budget of **Shs 9.91 trillion**, excluding arrears, comprising Shs 2.51 trillion for wage, Shs 4.80 trillion for non-wage recurrent expenditure, Shs 2.33 trillion for GoU development and Shs 264.46 billion in external financing. An additional Shs 468.22 billion was provided for arrears, while supplementary funding was also provided to several Programme institutions during the year.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Continued to strengthen capacity of security agencies to maintain law, order and respond to security threats;
ii. 95% of Districts have a one-stop front line JLOS service point from 94% in FY 2023/24;
iii. Disposal rate of cases at Local Council Courts increased to 30% from 25% in FY 2023/24;
iv. Prevalence of corruption in the public sector reduced to 72% from 87% in FY 2023/24;
v. Percentage of citizens participating in electoral processes increased to 86% from 71% in FY 2023/24.

The performance was attributed to: government's continued investment in peace and security.

However, key performance gaps still remain with regard to: strengthening security and investigative capabilities, reducing prison congestion and the remand population, improving staff accommodation and welfare, strengthening anti-corruption and accountability systems.

b) Programme output performance

The country remained generally secure during the year, while security agencies continued operations against terrorism, cross-border insecurity and other emerging threats. In Karamoja, joint security operations resulted in recovery of firearms, ammunition and stolen livestock. Capacity of the security forces was also strengthened through recruitment, training, equipment acquisition, infrastructure development and improvements in welfare and health services.

Progress was registered in public policy management, disaster response and refugee management. Government deployed the e-Cabinet system, supported 59,071 people affected by disasters with food and non-food relief, and advanced resettlement of communities affected by landslides. Uganda also received and settled 104,104 new refugees, bringing the total refugee population reported under the Programme to about 2.03 million, while refugee-hosting Local Governments were supported to integrate refugee priorities into their development plans.

Accountability, legal and law-enforcement institutions also registered notable outputs. The Inspectorate of Government concluded high-profile and general corruption investigations and recovered Shs 2.96 billion; the Ministry of Justice reviewed 8,394 contracts and successfully defended Government in cases reported to have saved Shs 57.49 billion; while the ODPP prosecuted 203,546 cases, exceeding its annual target. Police strengthened crime detection, emergency response, infrastructure and mobility, while business registration and intellectual property services were expanded.

Despite these achievements, the Programme continued to face significant operational pressures, including increasingly sophisticated crime, inadequate staffing and operational resources, refugee influxes, housing shortages for security personnel and severe prison congestion. The average prisoner population stood at 81,874 against an authorised capacity of 23,437, equivalent to an occupancy rate of 349.3%.

Going forward, priority should be placed on strengthening security and investigative capabilities, reducing prison congestion and the remand population, improving staff accommodation and welfare, strengthening anti-corruption and accountability systems, and enhancing institutional capacity to manage refugee, disaster and emerging security pressures.

3.14 Regional Balanced Development

I. Financial Performance

In FY 2025/26, the Programme had an approved budget of Shs 264.57 billion, excluding arrears. By 30th June 2026, Shs 245.40 billion, equivalent to 92.8% of the approved budget, had been released. Absorption stood at 77% of funds released, indicating that implementation did not keep pace with the availability of resources.

II. Physical Performance

Implementation registered progress in local economic infrastructure. Under the National Oil Seed Project, 991.62 km of roads were substantively completed against a target of 1,034 km, representing 95.9% performance, across 68 of the 81 participating Local Governments. The RUDSEC Project provided design and construction supervision for 464.1 km of roads. Thirteen markets progressed to the design, environmental assessment and procurement stages, while eight water schemes reached 95% completion.

Local economic development and revenue mobilisation were also supported. Local Economic Development and Investment Committees in 20 Local Governments were trained in PDM implementation, economic profiling and market linkages, while 10 District Local Governments received support in local revenue mobilisation. Capacity for property-rate administration and digital revenue management was strengthened in 21 Local Governments.

Affirmative-action interventions provided livelihood, housing, education and veteran support across Bunyoro, Busoga, Luwero-Rwenzori, Northern Uganda and Teso. These included support to youth, women and vulnerable groups, construction and rehabilitation of school facilities, and payment of a one-off gratuity to 5,925 civilian veterans. Draft Regional Development Plans were prepared for Bukedi and Acholi. The Balanced Scorecard was also cascaded to one city, eight Municipal Councils and 31 District Local Governments.

Programme performance was constrained by limited capacity for results-based planning and reporting, weak institutionalisation of the Programme coordination function and low absorption of released funds. Going forward, priority should be placed on strengthening Programme coordination and performance reporting, accelerating implementation of infrastructure projects, improving Local Government revenue mobilisation, and linking affirmative-action interventions to measurable changes in household incomes, employment and regional economic performance.

3.15 Development Plan Implementation

I. Financial Performance

In FY 2025/26, the Programme had an approved budget of about **Shs 29.6 trillion**, of which Treasury Operations accounted for approximately 93%. By year-end, **Shs 27.99 trillion**, equivalent to 94.8% of the approved GoU budget, had been released.

Debt service remained the largest expenditure component under the Programme. Treasury Operations reported **Shs 28.09 trillion** released and paid by June 2026, representing 94% performance against its approved provision. Financing costs increased from Shs 8.47 trillion to Shs 11.20 trillion, reflecting higher borrowing costs, increased external loan disbursements and growth in the stock of domestic securities. Low absorption of externally financed projects, however, remained a major constraint attributed to procurement delays, prolonged loan approval processes, counterpart funding limitations and environmental and social safeguard requirements.

Domestic revenue performance remained strong but below target. URA collected **Shs 36.01 trillion** against a target of Shs 36.74 trillion, equivalent to 98.0% performance, while collections grew by 13.8% over FY 2024/25. UBOS also continued production and dissemination of key national economic and social statistics, including GDP, inflation, industrial production, labour market and population statistics.

II. Physical Performance

Budget preparation and execution activities were undertaken within the statutory timelines, including preparation of the Budget Strategy, Budget Speech, budget execution circulars and the FY 2026/27 Appropriation Bill. Government also monitored wage, pension and gratuity requirements during execution, with supplementary provisions made to address identified shortfalls.

Challenges

i. Procurement delays;
ii. Prolonged loan approval processes; and
iii. Counterpart funding limitations

Recommendation

Going forward, priority should be placed on improving implementation and absorption of externally financed projects, strengthening revenue mobilisation and compliance, maintaining prudent debt and cash management, and strengthening statistical capacity across MDAs and Local Governments.

3.16 Administration of Justice

The Administration of Justice Programme contributes to NDP IV Objective 5 by strengthening people-centred justice delivery, improving justice business processes, combating corruption, and strengthening the legal and institutional framework for effective administration of justice.

I. Financial Performance

In FY 2025/26, the Programme had an approved budget of **Shs 609.99 billion**, representing a 26.7% increase from FY 2024/25, largely due to the inclusion of additional justice institutions and functions. By the end of June 2026, 98.7% of the recurrent budget had been released and 98.6% spent, while absorption of the development budget was lower at 71.5%, mainly due to delays in submission of certificates for completed works.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. Criminal Investigation system effectiveness index increased 0.31 in FY 2023/24 to 0.33;
ii. Level of public trust in the Justice system increased from 71% in FY 2023/24 to 85.7%;
iii. Percentage of cases completed within two (2) years after filing increased from 59% in FY 2023/24 to 82%.

This performance was attributed to: Expansion of court infrastructure and operationalization of new courts, supported by increased recruitment, and implementation of alternative dispute resolution.

However, key performance gaps still remain with regard to: addressing case backlog, further reducing turnaround time for cases, and fast-tracking integration of digital justice systems for increased efficiency.

b) Programme output performance

Programme performance improved in several key areas. Courts disposed of 271,433 cases, a 4.3% increase from FY 2024/25, supported by recruitment of judicial officers, operationalisation of new courts, increased use of Alternative Dispute Resolution and improved supervision. The case backlog declined from 27.36% in FY 2023/24 to 25.91% in FY 2025/26. Expansion of justice infrastructure also continued, including construction of High Courts, Chief Magistrates Courts and regional Courts of Appeal, while several court facilities were completed during the year.

Access to justice was further supported through legal aid and justice outreach interventions. Legal aid clinics handled 18,329 cases, while clerkship students deployed in hard-to-reach districts handled 942 legal aid cases. Recruitment processes for judicial and non-judicial staff also progressed during the year.

Notwithstanding this progress, the Programme continued to face significant constraints, including persistent case backlog, severe congestion in prisons and remand homes, inadequate staffing and institutional capacity, high costs of accessing justice, slow automation and interoperability of justice

systems, under-resourced Local Council Courts, and delays in enactment of critical justice legislation. The prison population stood at 81,874 inmates against a designed capacity of 23,437, underscoring the pressure on the justice chain.

Priority going forward should be placed on accelerating recruitment and court infrastructure development; expanding Alternative Dispute Resolution; integrating digital case management systems across the justice chain; strengthening Local Council Courts and legal aid; reducing prison congestion; and completing outstanding legal and institutional reforms required to improve access, efficiency and accountability in the administration of justice.

3.17 Legislation, Oversight and Representation

The Legislation, Oversight and Representation Programme (LOR) is one of the 18 priority programmes of the NDP IV. The Programme was designed to play a key role in ensuring realization of the NDP IV goal of increasing household incomes and improving the quality of lives of Ugandans. The Programme aims to strengthen the role of the Legislature in promoting Constitutional Democracy and Good Governance in Uganda.

I. Financial Performance

The total approved budget is **Shs. 1,030.256 billion**, and largely comprised of Vote 104 - Parliamentary Commission that constitutes 99% of all programme allocations i.e. **Shs. 1,029.472 billion,** Vote-011 - Ministry of Local Government comprising of 0.02% (**Shs. 0.170 billion**), Vote - 007 Ministry of Justice and Constitutional Affairs (**Shs. 0.317 billion**), and Vote- 105-Law Reform Commission constituting 0.03% (**Shs. 0.296 billion**). The budget for the Legislation, Oversight and Representation (LOR) Programme increased over the past four years by **12.59%** between FY 2022/23 and FY 2025/26, from **Shs. 915.059 billion** to **Shs. 1,030.256 billion**.

By the end of FY2025/26, **Shs. 1,023.034 billion** had been released, representing 99.3% of the approved GoU budget. This includes; Vote 011, Ministry of Local Government amounting to **Shs. 0.170 billion**, Vote - 007 Ministry of Justice and Constitutional Affairs (**Shs. 0.317 billion**), and Vote 104, Parliamentary Commission amounting to **Shs. 1,022 billion** in terms of budget allocations.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. 86% of bills presented were enacted into laws from 62.5% in FY 2023/24;
ii. Proportion of Parliamentary recommendations on the Budget implemented improved from 55% in FY 2023/24 to 60.5%;
iii. Held 1,582 committee meetings against 1,600 planned and conducted 122 oversight field visits against 150 planned;
iv. Attendance rate for Members of Parliament increased from 60% in FY 2023/24 to 62%;
v. Proportion of MDAs with unqualified audit opinions increased from 90% in FY 2023/24 to 97%.

This performance was attributed to: increased functionality of committees and adoption of e-service in legislation processes.

However, key performance gaps still remain with regard to: provision of adequate infrastructure and further enhancing the institutional capacity for legislation.

b) Programme output performance

The 11th Parliament commenced business for the 5th Session on 7th June, 2025 with the delivery of the State of the Nation address and the Budget Speech by H.E the President. This was followed by designation of Members to Sectoral and standing Committees in accordance with Rule 156(1) of the

Rules of Procedure of Parliament of Uganda to enable Parliament commence business for the ensuing year.

In view of the above, the following activities were delivered during the period the FY 2025/26.

i. Eighteen (18) Bills were passed against the 25 Bills presented during the period. These Bills include The Building Control (Amendment) Bill, 2025, The Valuation Bill, 2024 and The Mortgage Refinance Institutions Bill, 2025.
ii. 1,582 committee meetings, which are open to the public were held against the planned 1,600 for the year.
iii. Twenty-Two (22) Committee reports were debated and adopted including Report of the Committee on Government Assurances and Implementation on the status of implementation of the assurance to upgrade, rehabilitate, construct and equip health facilities in Local Governments; and install CT scans, oxygen plants and ICU equipment in all Regional Referral Hospitals')
iv. 122 Committee oversight field visits were carried out against the planned 150
v. 107 questions were responded to by the Executive to address the concerns of the citizenry.
vi. Twelve (12) Ministerial and other Statements on various sectoral issues were presented and debated in Parliament
vii. Fifty-Eight (58) resolutions on various motions passed.
viii. In spite of the slow progress of works on the new Chamber, The Commission achieved up to 53.4% physical progress on the project
ix. Parliament Participated in various International Commonwealth Inter-Parliamentary Conferences including Pan African Parliament, EALA, and ACPEU and the 15th East African Community (EAC) Inter-Parliamentary Games to further enhance regional cooperation among participating countries.

Challenges

i. The Performance of Parliament for FY 2025/26 was substantially affected by the electioneering processes and mandatory preparatory activities for the 12th Parliament including the swearing in ceremony
ii. Inadequate Committee and Office Space for Members of Parliament as a result of slow progress of the Construction project of the new Chamber
iii. Delayed and/or inadequate responses from the Cabinet/MDAs to the Questions and concerns raised by Members during plenary and Committee meetings.
iv. Lack of developed integrated data generation systems which caused delays in production of performance monitoring reports
v. Low response of the public during bill consultation process
vi. Inadequate ICT equipment and services to effectively and efficiently support business processing in Parliament and ease access to information by various stakeholders
vii. Lack of modern and integrated ICT tool to ease Monitoring and Evaluation processes

Recommendations

i. The Programme should fast track the development of an automated tracking system for attendance of councillors so that there is information during the subsequent reporting period.

i. The Programme should develop and implement systems to monitor budget implementation and compliance.

ii. The Programme should enhance facilitation of Committees to always reach out to communities affected by the bills before the House

3.18 Sustainable Extractives Industry Development

I. Financial Performance

The Sustainable Extractive Industry Development (SEID) Programme budget for FY 2025/26 was Shs 958.87 billion, of which Shs 935.2 billion (106.6%) was released and Shs 276.94 billion (31.6%) was expended by 30th June 2026. Whereas the GOU funding release was good at 76% (Shs 67.26 billion), the external financing was poor, with Shs 653.39 released and non was spent. The low performance of the external financing was due to the delays in financial closure, disbursement and physical works for the budgeted oil refinery development.

II. Physical Performance

a) Intermediate Outcome Performance

There was notable improvement in the performance of the programme. In particular:

i. The revenue earned from extractives increased to **Shs. 200.96 billion** from **Shs. 184 billion** in FY 2023/24;
ii. The value of investment in processing of mineral resources increased from **Shs. 200 billion** in FY 2023/24 to **Shs. 431 billion** against the target of **Shs. 375 billion;**
iii. The proportion of Ugandans employed in the minerals industry increased from 94.1% in FY 2023/24 to 96.1% against a target 95%;

The performance was attributed to:

i. The current investments in the oil and gas industry;
ii. Continued investment in mineral exploration.

However, key performance gaps still remain with regard to: quantification of mineral deposits, value addition and processing, and formalization of the artisanal miners.

b) Programme output performance

The overall programme annual physical performance for FY 2025/26 was fair. The ongoing oil and gas activities generated Shs 200.96 billion in revenue while revenue from mineral licenses was Shs 26.8 billion. Under the various programme objectives, progress continued towards mineral exploration, processing and commercial oil production;

Increased sustainable exploration and quantification of extractives:

Geological and geophysical data acquisition for discovery of additional petroleum resources in the Lake Kyoga basin continued while survey in the Moroto Kadam basin stalled during the reporting period. The third licensing round for additional prospective explored areas had also not commenced, and thus no new exploration licences were granted.

The Ministry of Energy and Mineral Development (MEMD) also undertook the exploration and assessment of additional mineral potential. Assessments of minerals, such as uranium and gold in

Buhweju, gold in Abim, iron ore in Kabale, as well as magnetic surveys for copper in Hoima and Masindi were undertaken.

To boost mineral production, better regulation, organisation, and biometric registration of Artisanal and Small-Scale Miners (ASMs) was undertaken. A total of 3,243 ASMs (2,179 males and 1,064 females) were registered in Buhweju, Mubende, Namayingo and Rubanda districts. A total of 1,020 ASMs were also sensitised on licensing requirements and best mining practices.

Installation of the planned weighbridges in Bulambuli and Napak districts remained at the design and geotechnical investigation stage, despite completion of contractor procurement and payment of advances. In addition, twelve potential weighbridge sites were mapped in mineral-rich areas across the country, including marble and pozzolana zones. Land for proposed sites in Mpigi and Ntungamo was subsequently identified and was undergoing valuation.

Increased sustainable production and commercialization of the extractives:

This objective aims at achieving increased production of the explored petroleum and mineral resources. Under petroleum development, fair progress was observed in the construction of the upstream oil processing and production facilities to fast-track first oil production.

The overall construction of the Upstream facilities progressed to 73.6% from 60.4% in FY 2024/25. The development of Tilenga and Kingfisher upstream facilities was at 72% and 78%, respectively. A total of 109 more wells were drilled (101 at Tilenga, 8 at Kingfisher) during this financial year.

Cumulatively, a total of 257 out of the targeted 189 wells for first oil production had been drilled by 30th June 2026 (Tilenga – 235/170 and Kingfisher 22/19). Most of the flow lines to transport crude oil from the well pads to the Central Processing Facilities (CPFs) were completed. However, works for the surface oil production facilities at the well pads and Central Processing Facilities (CPFs) in Kingfisher and Tilenga to refine oil produced were ongoing but behind schedule. The Resettlement Action Plan (RAP) for Kingfisher was completed, and in the Tilenga exploration area, the RAP was in the final stages, with all resettlement houses completed and handed over.

The laying of the feeder pipeline to transport crude oil from the Kingfisher CPF to the export hub in Kabalega Industrial Park, Hoima, was completed, while the pipe laying for the feeder pipeline from the Tilenga CPF in Buliisa was underway.

The development of the East African Crude Oil Pipeline (EACOP) to transport crude oil reached 87.8% against a planned 93.7% overall progress, with engineering designs at 98%, procurement at 95.9% and construction at 81% by 30th June 2026. Additionally, by the end of August 2026, all pipe laying works had been completed for the 1,443-kilometre stretch of EACOP route from Hoima to Tanga in Tanzania.

Installation of Main Line Block Valves (MLBVs) and electrical and instrumentation stations, among others, along the EACOP route was being undertaken. Works at the six pumping stations designed to boost crude oil pressure, as well as the 15 pipeline yards along the EACOP route, also continued. For

the two Pumping Stations (PS) monitored in Hoima (PS1) and Ssembabule (PS2), works were at 86% and 88% by August 2026.

The Uganda National Oil Company (UNOC) continued importing petroleum products in line with its sole mandate as per the new Petroleum Supply Act, 2023. Cumulatively, the fuel stock levels at the Jinja Storage Terminal (JST) stood at 2.706 million litres, with average monthly stocking having improved to 240 million litres by June 2026 from 220 million litres in FY 2024/25. However, the Jinja Storage Facility (JST) was being used for trading rather than as a strategic reserve due to constraints in funding the stocking of the facility. The development and management of the JST was incorporated into the Petroleum Product Supply Agreement signed with the trading partner. The UNOC was also in the process of securing a joint partner for the development of Kampala Storage Terminal.

As part of scaling up mineral production, there was progress made towards the development of mineral processing facilities. The Model Mineral Production Sharing Agreement (MPSA) for Kilembe Mines redevelopment was signed, and the mines were handed over to the developer. The production of phosphate fertiliser in Sukulu, Tororo continued, and the development of the Wagagai Gold and Makuutu Rare Earth projects progressed, with the Rare Earth Elements (REE) appraised deposits in Bugiri, Bugweri and Mayuge Districts, estimated at 640 million tonnes.

Increased investment in extractives value addition:

Under this objective, the aim is to develop the Kabalega Industrial Park, oil refinery and the refined products pipeline. Under refinery development, a development partner, Alpha MBM, which was acquired for debt financing worth about USD 2.8 billion (70%), continued with the Front-End Engineering Designs (FEEDs) for the refinery and the storage terminal. Overall progress of FEED was at 15%, and the Environmental and Social Impact Assessment was also underway. The construction of the products pipeline as part of the refinery project had also not commenced and the RAP progress was at 80%.

UNOC also secured USD 320 million partial financing for the Refinery over five years as part of the approved financing facility. This is in addition to the Shs 287.69 billion released to UNOC by the Ministry of Finance, Planning and Economic Development (MoFPED). This was for Refinery early project activities between FY 2023/24 and FY 2024/25 as part of the refinery equity disbursements. The development of Kabalega Industrial Development Project was in the early stages with works for 86km of access roads within the park just commenced.

To boost investment in the mineral sector, interventions geared toward the establishment of mineral centres and markets were undertaken. The operationalisation of two new regional centres constructed in Fort Portal and Ntungamo had commenced, with new staff recruited and some equipment procured. Architectural designs for two more centres in Busia and Moroto were also being concluded, with a Busia mineral market incorporated. Land for a mineral market in Kassanda was identified, and valuation was yet to be undertaken by the Chief Government Valuer (CGV).

Enhanced human and local enterprise capacity to participate and develop extractives industry:

Promotion of National participation and local content in oil and gas activities continued to be a priority in the oil and gas sector. More than 876 Ugandan talents were registered on the National Oil and Gas Talent Register (NOGTR) to enhance the participation of Ugandans in oil and gas activities. A total of 2,277 Ugandan companies were also registered on the National Supplier Database (NSD), bringing the cumulative total to 2,688.

The overall direct employment in the oil and gas industry stood at 22,234, of which 18,958 (85%) were Ugandans, and 7,128 of these were from the local communities. Ugandan firms also benefited from Tier-1 contracts worth USD 8.75 million awarded during the reporting period, bringing the total value of contracts awarded to Ugandans to USD 82 million out of USD 203.73 million (40%).

However, the Local Content Development Fund, which aims to boost the financial capacity of local firms in the oil and gas sector, particularly during the current ongoing development and later operational phases, was not yet operational, and a draft Bill was developed and still process for the clearance of certificate of Financial Implications.

Strengthened governance, coordination and innovation for the extractives industry:

To enhance mineral production through the regulation of artisanal mining activities, the MEMD was in the process of drafting regulations to enable operationalisation of the Mining and Minerals Act 2022. The Regulation and Building Substance Bill, which aims to regulate miners of building substances on a large scale, was gazetted and operationalised. The final draft of the Mineral Markets regulations and zero draft of the National Content Regulations were prepared, and review with the key stakeholders was ongoing.

Challenges

i. Construction delays facing the Tilenga Central Processing Facility (CPF) are actively jeopardizing Uganda's official commercial oil timeline. This upstream facility is required to process raw crude before any regional transport can occur, which postpones vital national oil revenues required by the economy;
ii. Inadequate and late budgetary releases have severely restricted the programme from executing essential regulatory infrastructure installations, like mineral weighbridges and deployment of inspectors to conduct routine compliance checks. This is creating a large potential source of revenue leakage; and
iii. The mineral department is understaffed, which is hindering operational effectiveness. The current staffing levels cannot undertake the time-consuming and labor-intensive mineral exploration work, and at the same time monitor compliance of the existing license holders.

Recommendations

i. The Joint Venture Partners should mobilise additional technical and financial resources to shrink the schedules and fast-track customs clearances for critical machinery that is not yet delivered to the site; and
ii. The MEMD must prioritise and ring-fence funding explicitly for the essential mineral regulatory infrastructure such as the weighbridges and regional mineral centres.

CHAPTER 4: STRUCTURE OF DETAILED VOTE FINANCIAL AND PHYSICAL PERFORMANCE

This section provides an overview of programme budget performance, setting out overall programme releases and expenditures, and providing highlights of outlays to sub-sub-programmes and expenditure items.

It firstly provides an overview of programme expenditures and releases. It then provides highlights of Central Government expenditure performance by vote function and output and a summary of Local Government grant release performance (for programmes where applicable). *Detailed Programme Financial and Physical Performance*

This section provides an overview of Programme budget performance, setting out overall programme releases and expenditures, and providing highlights of outlays to sub-sub-programmes and expenditure items.

It firstly provides an overview of programme expenditures and releases. It then provides highlights of Central Government expenditure performance by Vote Function and output and a summary of Local Government grant release performance (for programmes where applicable).

Performance highlights for the Quarter

A prefeasibility study Report for the development of the Government Office Campus was prepared by the Technical Team and discussed internally on 30th June 2026 before the same is presented to the Project Implementation Team for approval to inform the preparation of the Cabinet Memorandum.
The Office coordinated implementation of the ITMS where a Nationwide monitoring exercise to assess the implementation status, operational performance and compliance of the ITMS was undertaken and a Report produced.
Prepared and coordinated the Swearing-in and Inauguration Ceremonies of the President Elect 2026 held on 12th May 2026 and a Report produced.
Produced 02 Inclusive Service Delivery Review Reports from two stakeholders' meetings held in Rwenzori and Bunyoro Sub regions.
Produced 01 Inclusive Consolidated Annual RDC Oversight Monitoring Report on Government Programmes.
Conducted 01 performance monitoring exercise on RDCs and their Deputies on service delivery in all the districts in of Acholi Sub region from 4th to 19th June 2026.
Held 01 mobilisation Barazas on uptake of government programs and projects by the citizenry in the 09 districts of Karamoja Sub region from the 18th to 29th May 2026.
Held 02 Capacity Building Workshops for RDCs teams and DISOs in Buganda excluding Greater Masaka and Bugisu Sub-Region from 10th to 12th June 2026 and from 24th to 26th June 2026 respectively.
Conducted 02 physical field monitoring and validation exercises to assess progress in the implementation of the Manifesto (2021–2026) in Eastern, Teso and Central Sub-regions.
Procured the e-cabinet system development was procured and deployed; and 342 Cabinet decisions were input in the Database.
07 Bills were considered by Cabinet i.e. Local Content Development Fund for the Oil and Gas Industry Bill 2025 and the Public Funeral Management Bill, 2026.
Produced 01 Policy Brief on the Status of Children's Rights in Uganda: A Review of the National Child Policy 2020 produced

Variances and Challenges

Inadequate monitoring of Cabinet decisions – The Office has insufficient resources to monitor, evaluate, and follow up on the implementation of Cabinet decisions, resulting in delays and some decisions remaining unimplemented for long periods.

Inadequate office accommodation for Resident District Commissioners (RDCs) – Limited office space and infrastructure for RDCs continues to affect the RDC ability to coordinate government programs and provide services effectively.

Insufficient training and accommodation facilities at NALI where the demand for leadership training has increased beyond the Institute's available infrastructure.
Existing facilities cannot adequately accommodate the growing number of participants attending leadership and ideological training programs.

Growing operational demands arising from an expanding mandate without corresponding increases in resources.

Quarter 4: Outputs and Expenditure in the Quarter

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Programme:16 Governance and Security		
Vote Function:01 Cabinet Support and Policy Development		
Departments		
Department:001 Cabinet Administrative Services		
Key Service Area:460016 Cabinet support		
PIAP Output: 16211101 Policies developed for national socio-economic transformation		
Programme Intervention: 162111 Strengthen coordination of the policy and legislative-making processes		
13 Agendas for Cabinet Meetings produced and issued to Members of Cabinet.	4 sets of Agenda issued to Members of Cabinet.	The number of Cabinet Meetings held were affected by a number of factors which included Presidential and Parliamentary elections; Public holidays which fell on Mondays as well as the conclusion of the 2021–2026 elective term of Government which disrupted the regular scheduling of Cabinet Meetings and consequently reduced the number of Agenda for Cabinet Meetings.
3 sets of Permanent Secretaries' records produced and submitted to Permanent Secretaries.	Three (3) sets of Permanent Secretaries records produced and submitted to Permanent Secretaries.	One (1) meeting was not held because the Permanent Secretaries' were attending a one (1) week Retreat that was held at Brovad Sands Hotel in Kalangala District from 30th November to 5th December, 2025.

VOTE: 001 Office of the President

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 16211101 Policies developed for national socio-economic transformation		
Programme Intervention: 162111 Strengthen coordination of the policy and legislative-making processes		
	Sorting of Cabinet Records for the period of April- June 2026 was concluded and records were uploaded on to the database. Records for Calendar Years 1975-1980 were scanned and stored in digital format.	
Capacity of 6 Cabinet Secretarait staff built to support Cabinet in executing its mandate.	12 Members of Staff were trained to support Cabinet in executing its mandate.	
3 Cabinet Sub-Committee reports produced and submitted to Cabinet.		Formation of Cabinet Sub-Committees is based on the decisions of Cabinet that may require consultations from stakeholders before recommendations can be finalized.
8 Bills placed on the Cabinet Agenda for consideration by Cabinet		Projection for Bills is based on the legislative program; however, Ministries have been falling behind schedule.

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 18412105 Annual Manifesto performance Report		
Programme Intervention: 184121 Strengthen the oversight function across government		
One report on alignment of the new Manifesto commitments to the NDP IV Programmmes produced.	One initial report on the alignment of the new Manifesto commitments with the NDP IV programmes was produced. In addition, the development of the Manifesto Implementation Strategy, which articulates this alignment, is ongoing. The process is expected to be completed in July 2026, during the FY 2026/2027.	
	A comprehensive performance evaluation of the NRM Manifesto (2021–2026) Report were printed and dissemination is ongoing. The Report on the Final Validation Exercise indicated that 54% of the Manifesto commitments had been achieved, 36% were ongoing, and 10% had not yet commenced.	
Capacity of 01 staff built in the monitoring analysis and evaluation of the Manifesto	Capacity of 03 staff built in the Leadership, Administration, monitoring analysis and evaluation of the Manifesto.	
	One (1) Manifesto performance report was produced, popularized, and disseminated to the public. Manifesto commitments and achievements were further publicized through two (2) print media articles, documentary features on implementation progress, ten (10) TV and radio talk shows, and two (2) online publications. In addition, one (1) district-level sensitization campaign on the Manifesto was conducted.	
	Twenty (20) Manifesto Focal Persons were trained on the use of the Manifesto Reporting Framework during sessions conducted from 27th - 29th May 2026. The training equipped participants with the requisite skills and competencies to effectively apply the framework, which was developed by the Office of the President to support MDAs in submitting accurate and timely data on the implementation of manifesto commitments within their mandates. This intervention enhanced the timeliness of reporting and strengthened collaboration and coordination between MDA

Quarter 4

Performance highlights for the Quarter

The vote facilitated the effective execution of the Presidency's obligations by providing comprehensive logistical and technical support. The security and welfare of the President, the Vice President, their families and guests was also ensured.

The Principals mobilized citizens across the 05 regions of the country to promote peace, socio-economic transformation, and development. H.E the President and VP urged Ugandans to combat poverty and create wealth by enbracing Government initiatives such as the Parish Development Model (PDM), Emyooga and the 4-acre model.

The Presidency strengthened Uganda's regional and international relations through active participation in high-level engagements. Notably, was H.E's attendance of the 25th EAC Heads of State Summit, where H.E. the President assumed the Chairmanship. The Presidency also hosted visiting Heads of State and received credentials from foreign envoys especially during the President’s swearing in ceremony providing opportunities for bilateral and regional dialogue.

To advance trade, tourism, and investment, the Principals engaged both local and international investors and commissioned 11 key investment projects, including Hoima City Stadium and and the Joshua Cheptegei Hotel among others.

Under the Presidential Initiatives, support was extended to 38 model villages through the provision of agricultural inputs and training, benefiting 5,168 households.

16,374 youth completed training from the Kampala and 19 zonal skilling centres; 75,634 citizens were trained in patriotism and ideological orientation; School fees for 2,537 students were paid.

Kawumu Leather Industry remained operational and made annual sales worth Ugx 1,488,310,235/= from 361,077 Square feet of Leather.

In addition, 36 infrastructure projects were inspected, health service delivery was monitored in 90 health facilities, and 160 corruption-related cases were investigated and submitted to the DPP.

Variances and Challenges

In the year under review, the Vote had a budget release of 271.1% due to the followinng:
1. Emerging issues of classified nature
2. Staff recruitments upon the directive of H.E the President.
The above issues led to a supplementary budget on wage, staff gratuity and classified expenditure.

The overall performance was also affected by the heighted activity especially in the second and third quarter.

VOTE: 003 Office of the Prime Minister

Quarter 4

Performance highlights for the Quarter

The Office of the Prime Minister through the Institutional Coordination Framework structure (TICC & PCC) handled 40 issues affecting service delivery e.g. coordinated National coffee Committee, sanitation on landing sites along lakes in Uganda etc. The Vote coordinated the government business in Parliament which passed 26 Bills, made 180 Ministerial statements and adopted 85 Committee reports etc., presented & passed 89 motions. The Rt. Hon. Prime Minister responded to 487 Questions during Prime Ministers time. OPM conducted Government performance assessment and produced 2 Draft NAPR2024/25 report and the highlights were presented at the National Budget Conference 2026/27, 1 Rapid assessment of the state of service delivery in the Health Sector. The vote conducted 8 Barazas, training for M&E Officers (new cadre) from 59 MDAs and were also trained on reporting through the NDP M&E System. The Vote revised the Principles for the National Disaster Preparedness & Management Bill; conducted 62 preparedness & needs assessments. Resettled one hundred and sixty-three (163) households through cash transfer modality and a total of four 417 households were relocated to Giriki, Kween District. OPM also supported 11,814 households (59,071 people) with food and non-food items across the country comprising of 193,900kgs of beans and 478,850kgs of maize flour to disaster victims across the country. The Vote received, registered & settled (64,715) new refugees and asylum seekers. The OPM supported 50 groups engaged in nursery bed farming, supported 47 Micro Projects of youth, women and vulnerable Programs engage in income generating activities and Nursery Bed farming. Supported 126 Associations of youth, women and vulnerable who are prepared to engage in income generating activities, supported the Construction of 17 classroom blocks, 4 residential houses for needy; Procured 28240 iron sheets; held 33 Security and peace meetings during the Karamoja cultural gala for Elders.

Variances and Challenges

As at end of fourth Quarter FY2025/26, Vote 003: Office of the Prime Minister had received UGX 135.80Bn (87.3 %%) out of approved Budget UGX 157.122Bn of FY 2025/26. The overall absorption was at 98.3 % (UGX 133.901Bn). The shortfall in the release of funds affected the implementation of some planned activities.

VOTE: 004 Ministry of Defence

Quarter 4

Performance highlights for the Quarter

The UPDF fulfilled its function to Defend and protect the sovereignty and territorial integrity of Uganda, ensuring non-violability of peoples and individual rights, the rule of law and good governance.

a) General Security Situation
The overall security situation in Uganda remained peaceful and stable delivering the most successful elections in Uganda.

The key security concerns recorded during the period included terrorism, transnational crime, aggravated criminality, cybersecurity threats, negative political activism, livestock thefts, border insecurity, health-related emergencies, climate-induced disasters, and spillover effects from regional instability. Despite these challenges, the Security Forces sustained effective control of the internal security situation and prevented major disruptions to public order.

b) Border Security and Regional Situation
Instability in neighbouring countries, particularly Eastern Democratic Republic of Congo (DRC), South Sudan, Sudan, and Somalia, continued to pose security challenges during the period. These situations generated spillover effects such as illegal cross-border movements, arms proliferation, infiltration, smuggling, and refugee influxes. The influx exerted pressure on host communities and national resources, with attendant socio-economic and security implications. Unresolved border demarcation issues, particularly along the Uganda-South Sudan border, continued to affect cross-border trade, movement of people, and security coordination.

c) Internal Security Situation – Karamoja Sub-region
The security situation in the Karamoja sub-region continued to improve during the period as a result of sustained joint operations by the UPDF and the Police Anti-Stock Theft Unit (ASTU). Under these operations, 100 firearms, 151 rounds of ammunition and 3,458 livestock were recovered. Recovered livestock were handed over to the rightful owners following verification.

Variances and Challenges

VOTE: 004 Ministry of Defence

Quarter 4

Despite the growth in appropriation, the budget was significantly below the actual requirement r, indicating a persistent funding gap. In addition, the releases of AUSSOM fell short of the appropriation.

Consequently, the Ministry did not fully execute some of the planned interventions such as Barracks infrastructure development, salary enhancement, acquisition of equipment, training to replenish the Force and clearing of pension backlog among others.

Therefore the challenges included among others,
a. Inadequate budget to fund the Ministry’s critical priorities especially Housing accommodation, salary enhancement and Pension backlog,
b. Delayed release of AUSSOM funds.
c. Macro-economic challenges such as inflation.
d. Geopolitical instability in the Middle East and Eastern Europe etc.
e. Inadequate housing accommodation for UPDF personnel
f. Lack of a duty free status for the DFSUL and limited capitalization.

The Ministry will continue seeking support concerning the identified challenges

Quarter 4: Outputs and Expenditure in the Quarter

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Programme:16 Governance and Security		
Vote Function:01 National Defence (UPDF)		
Departments		
Department:002 UPDF Airforce		
Key Service Area:460137 Air Defence Capability services		
PIAP Output: 16111101 Technical Capability enhanced		
Programme Intervention: 161111 Maintain modern and formidable security sector agencies, for security and emergencies		
(i). Assorted Aircrafts and ground assets maintained (ii) Spare parts provided (iii). 1.2m litres of fuel provided (iv). Food for AIr Force personnel worth Shs. 0.25bn provided	(i) Aircraft serviceability was maintained at 43%, GBAD assets serviceability sustained at approximately 78%, Ground support equipment maintained at 60%. and Simulators were repaired and maintained across air wings at 40%. (ii). Assorted spare parts were provided to ensure maintenance. (iii). Fuel was provided for training and operations	There is no variation, the Airforces' maintenence plan within the available resources was implemented accordingly. There is still a huge backlog on the overall maintenence plan, however, this will be addressed over phases and as and when funds are availed
PIAP Output: 16111102 Capacity of Security Personnel Enhanced		
Programme Intervention: 161111 Maintain modern and formidable security sector agencies, for security and emergencies		
1. Capacity of 1,600 Airforce personnel built	The Ministry trained 600 Uganda People’s Defence Air Force personnel in various local and international Airforce Training Schools. Of these, 543 were trained locally, and 57 abroad. The training included Engineering, Command, Night Flying, Captainship, Pilot Instructors, Human Security, Aviation Technical Stores, Safety Management, Squadron Officers, Windows Server Management, and Technical Type Rating courses.	The UPDAF training plan for FY 25/26 was implemented inline with the Airforce needs assessment. Whereas some courses were completed during the FY, others are still ongoing and will cross over into next FY 26/27.

PIAP Output: 16090106 Cross cutting issues mainstreamed		
Programme Intervention: 160901 Strenghthen programme institutions for effective and efficient service delivery		
	1. Implemented HIV and AIDS prevention, care and support interventions; a) Antiretroviral Therapy (ART) services are currently operational in 31 UPDF health facilities, representing 52% coverage against an annual target of 60% across the UPDF health system. b) Prevention of Mother-to-Child Transmission (PMTCT) services and cervical cancer screening were implemented 2. Malaria Control. As an Infection Prevention Control (IPC) measure, fumigation chemicals and equipment were distributed to various units and formations in Entebbe, Bombo, Mbuya, Nakasongola, and Muhooti. 70% of Units and Formations were fumigated against an annual target of 100%. 3. Gender and equity The Ministry continued to mainstream gender and equity considerations in planning, operations and service delivery. Efforts focused on promoting equal participation of men and women in defence activities, protecting vulnerable groups, and ensuring compliance with national gender and equity policy frameworks.	There was no variation

Quarter 4

Performance highlights for the Quarter

Below is the performance and highlights of the Ministry;
1. Service Delivery Standards developed and documented in 93 MDAs
2. Disseminated SDS in Local languages to 25 DLGs
3. Carried out Compliance inspection in 24 LGs and 8 Agencies
4. Rolled out the E-inspection tool rolled in 4 MDAs
5. Set up Records management systems in 2 MDA & 8 LGs
6. Streamlined Records management system in 9 MDAs and 18 LGs
7. Installed EDRMS in 20 MDAs and 30LGs
8. Documented Compendiums of Service delivery systems for 6 MDAs
9. Developed an Online Productivity Measurement Framework tool and piloted in 12 MDAs
10. Reviewed, approved and communicated for implementation structures for 9 Ministries, 26 Agencies and 62 LGs
11. Provided technical support to develop BSC provided to 31 MDAs, 46 LGs and 34 Institutions.
12. Developed Score Cards for 5 NDPIV programmes
13. Held 4 Quarterly committee meeting for the Research Management Committee.
14. Carried out a study on the impact of pay on service delivery in the public service
15. Carried out Sensitization to CAOs, T/Cs and Heads of HR of Northern, Western, Eastern, and Central Regions on PSPF.
16. Developed and printed IEC Materials on PSPF.
17. Cleaned and uploaded data to the PSPF database
18. Developed and handed over structures for PSPF.
19. Board of Trustees for PSPF appointed and inducted
20. Capacity building and technical support were provided to Professional Development Committees (PDCs)
21. Built Capacity of 220 Human Resource Officers in Succession Planning and Talent Management
22. Held Four Heads of HR meetings.
23. Assessed and Validated 10 Hard to reach LGS
24. Held 3 Public service Negotiating committees PSNCC meetings
25.HCM rolled out to 13 Government Entities
26. 160 HR practitioners from 26 institutions trained and certified on HCM
27. Carried out An Assessment on the Efficacy of 4 Service Uganda Centres.
28. Supported PSTP

Variances and Challenges

VOTE: 005 Ministry of Public Service

Quarter 4

Variances

In accordance with the Appropriation Act 2019, Parliament revised the Ministry budget to a total of UGX 47.914 billion. The Revised Budget comprises UGX 6.348 billion for wage, UGX 30.075 billion for non-wage, UGX 0.912 billion for Arrears and UGX 10.579 billion for Development. As of 30th June 2026. The revised budget marginally increased to UGX 47.914 billion from 47.828 billion, mainly due to a slight increase in the development budget from UGX 10.494 billion to UGX 10.579 billion, while the wage, non-wage, and arrears budgets remained unchanged. By the end of the financial year, the Ministry had received UGX 43.227 billion, representing 90.4% of the revised budget. Wage and non-wage budgets were fully released (100%), while only 56.7% of the development budget was released, indicating that development activities were constrained by lower funding. Arrears received 90% of the planned allocation.

Challenges

The main challenge affecting budget performance and Ministry of Public Service is the partial release of funds, particularly for the Institutional Development, which received only 57% of its revised allocation despite fully utilizing the resources made available. This has greatly affected Operations of the Kampala Service Uganda Center as earlier planned due lack of Furniture and ICT related supplies.

VOTE: 006 Ministry of Foreign Affairs

Quarter 4

Performance highlights for the Quarter

In Quarter 4, the Ministry registered the following achievements:

a. Protocol and Public Diplomacy
i. Provided consular assistance to over 800 distressed Ugandans
ii. Repatriated 33 deceased Ugandans
iii. Facilitated 3,497 Government officials with diplomatic notes
iv. Certified 3,713 documents
v. Processed 160 international scholarship offers
vi. Hosted 1 Head of State
vii. Facilitated 26 high-level foreign dignitaries
viii. Handled 1,384 requests on privileges and immunities
ix. Issued 308 diplomatic identity cards
x. Strengthened public diplomacy through digital campaigns, media engagements and publication of 3 Diplomatic Notes newsletters.

b. Regional and International Economic Affairs
i. Held JPCs and bilateral economic engagements with Rwanda
ii. Coordinated 10 investment promotion engagements, business forums, trade exhibitions and investment missions, which generated new investment leads.
iii. Coordinated implementation and evaluation of ECD
iv. Conducted 4 cross-border trade surveys
v. Promoted diaspora engagement through diaspora conventions, mapping exercises, and outreach programmes
vi. Advanced regional infrastructure cooperation through participation in the NCIPs

c. Regional and International Political Affairs
i. Authenticated 1,249 legal documents
ii. Processed 31 Mutual Legal Assistance requests
iii. Negotiated 71 Agreements and MoUs
iv. Signed 4 Host Country Agreements.
v. Recommended registration of 3 international NGOs
vi. Coordinated participation of Uganda in regional and multilateral political processes, including the AU, UN, IGAD, ICGLR, EAC and WHO
vii. Coordinated over 80 bilateral mutual support arrangements for the candidature of Uganda and its Partners

d. Policy, Planning and Support Service
i. Paid UGX 3.1 billion towards land acquisition for the Ministry Headquarters expansion.
ii. Advanced digital transformation through rollout of the IFAS
iii. Trained Grade VI Foreign Service Officers

Variances and Challenges

VOTE: 006 Ministry of Foreign Affairs

Quarter 4

There was no major variance between the planned and actual activities for Quarter 4. Most planned outputs and activities were implemented as scheduled. However, the Ministry did not procure the planned motor vehicle because the Ministry of Finance, Planning and Economic Development released only UGX 73 million against the required UGX 400 million. The released funds were insufficient to undertake the procurement and were therefore returned to the Consolidated Fund without expenditure.

Challenges Encountered During Quarter 4

During the quarter, the Ministry encountered the following challenges:

i. Increasing demand for consular and emergency assistance arising from labour externalisation, regional conflicts and geopolitical tensions, resulting in growing cases of distressed Ugandans abroad, trafficking in persons and repatriation requests.

ii. Global geopolitical uncertainties and regional security challenges, which continued to affect the scheduling and implementation of bilateral and multilateral engagements, as well as international trade and investment promotion initiatives.

iii. Persistent Non-Tariff Barriers (NTBs), customs bottlenecks and inadequate cross-border infrastructure, which constrained regional trade, increased the cost of doing business and slowed implementation of regional integration commitments.

iv. Continued sanitary and phytosanitary (SPS) compliance constraints and other market access requirements, limiting Uganda's competitiveness and access to strategic export markets.

v. Delayed implementation of regional integration commitments under the EAC and other regional frameworks, particularly in customs harmonisation, trade facilitation and elimination of NTBs.

vi. Inadequate funding for subscriptions to international organisations has resulted in Uganda accumulating over UGX 92 billion in arrears, which has limited effective participation in the activities and governance of these organisations.

One (01) private sector linkage with international potential counterparts in attracting appropriate technology targeting vulnerable coordinated	Coordinated 03 private sector linkages with international potential counterparts in attracting appropriate technology: a) Launch of Pilot Diaspora and Innovative Health Financing in Uganda that aims to create a sustainable funding mechanism for cancer. More than 50 international organisations, philanthropists, and business managers have signed up for this initiative. Unfortunately, due to the Ebola situation, the launch was postponed to Oct 2026 b) World Urban Forum, 17- 22 May 2026, Baku, to position housing and urbanisation as a bankable sector and secure investment leads for secondary cities. Uganda was registered in the Finance Dialogue, where “scaled housing finance” was endorsed as a 2026-2036 accelerator, thus tapping into AfDB blended finance facilities and de-risking tools. c) The establishment of the Emirate Specialty Hospital in Entebbe. Groundbreaking was held on 12th May 2026 in Entebbe, a flagship Uganda-UAE health care investment project.	More Linkages were coordinated than anticipated

Quarter 4

Performance highlights for the Quarter

The Ministry of Justice and Constitutional Affairs (MOJCA) is mandated to provide legal advice and legal services while supporting the legal framework for good governance. In FY 2025/26, the Ministry operated on a revised budget of UGX 210.11 billion, with cumulative releases of UGX 198.897 billion (98.4%), comprising UGX 16.57 billion for wage, UGX 89.323 billion for non-wage recurrent, UGX 12.985 billion for development, and UGX 80.127 billion for arrears.

Under the First Parliamentary Counsel, the Ministry reviewed and drafted 18 Bills, including constitutional and electoral reform legislation, reviewed 18 Ordinances and 3 Byelaws, and drafted 43 subsidiary legislations.

The Administrator General opened 4,292 new estate files for deceased persons, missing persons, and persons of unsound mind, inspected 305 estates, conducted 1,258 family mediation and arbitration sessions, registered 19 trust causes for minor children, issued 4,225 Certificates of No Objection, carried out 202 land-related transactions (searches, caveats, and transfers), and represented the office in 129 court cases.

Under Legal Advisory Services, the Ministry reviewed 8,394 contracts to ensure legality and enforceability, rendered 825 legal opinions, participated in 625 Contracts Committee meetings, and represented Uganda in 32 regional and international meetings.

In Civil Litigation, MOJCA defended 1,340 cases involving Ministries, Departments and Agencies, 27 East African Court of Justice cases, 246 constitutional petitions, and 226 human rights cases. The Ministry won 231 cases, saving Government UGX 57.49 billion, while 52 cases were lost with a liability of UGX 17.20 billion.

Under the Regulation of the Legal Profession, the Law Council approved 1,630 law chambers, inspected 1,928 advocates' chambers, approved 57 legal aid service providers, conducted 33 disciplinary committee sittings, and handled 547 disciplinary cases, of which 74 were concluded by the end of the financial year.

Variances and Challenges

Motor vehicles: We have a challenge of transport equipment where on average each Regional Office has one sound car to traverse many High Court circuits (in some instances 5). We need transport equipment of at least 48 motor vehicles over the next 2 Financial Years to support operations of Regional offices in court attendance and supporting the function of Administration of Estates of the deceased people and inspection function of the Law Council.The current fleet of vehicles is insufficient, old and unreliable to traverse long distances to various courts with high maintenance costs currently in a range of UGX 1Bn annually; and the Auditor General has already raised a query on the use of old vehicles that should have been disposed of. Inadequate human resource in terms of Attorneys to handle the work load in regional offices.

Performance highlights for the Quarter

21,729 MSMEs and Cooperatives supported with Business Development Services on entrepreneurship, business and mindset training, follow-up and mentorship for households, MSMEs to boost growth, formalisation and competitiveness

BDS training for PDM beneficiaries conducted, reaching a total of 5,675 participants

116 grant agreements under INVITE worth Ushs 2,669,951,024 signed in the four country regions at Ushs 25,161,933 per firm to undertake export related BDS. 38 Firms completed their activities, and were reimbursed with Ushs 968,936, 10,589 PDM SACCOs supported with allocation of Ushs 100 million each for capitalization

Ushs 23,409.39 billion was raised through the capital markets against a target of Ushs 200 billion, while CIS accounts grew to 835,423 against a target of 157,876

Updated the Project Monitoring module of the IBP with 12 Monitoring and Evaluation reports

Annual Medium-Term Debt Management Strategy FY 2026/27 produced, and laid before Parliament, alongside the Budget for FY 2026/27

32 Donor funded projects/programmes have been monitored throughout the Financial Year and signed over 8 External Financing Agreements

OIAG Audit management Software Resolver rolled out and re-implemented to 26 Trainers of Trainers

Medium Term Fiscal framework for the Budget Framework paper for FY 2026/27 to 20230/31 produced to facilitate the budget process

Economic Growth Forum held and the Economic Growth Strategy for FY 2026/27 developed

Annual revenue collections amounted to Ushs 36,522.76 billion against a projection of Ushs 37,626.16 billion registering a deficit of Ushs 1,103.40 billion. Despite the deficit, this represents a 13.0 percent growth of Ushs 4,226.63 billion compared to the same period in the previous year

Developed a strategy for all interfaces including PBS, URA, e-Registration, AIMS, IRAS, and NSSF and supported the EFRIS-IFMS Integration

Disseminated the amended PPDA Act and Regulations,2023 to 273 Participants

Variances and Challenges

CIS Assets Under Management stood at UGX 7,053.11 billion, compared to UGX 4,584.90 billion recorded in June 2025, representing a 53.8% year-on-year increase. The sustained growth demonstrates increasing investor participation, growing confidence in regulated investment products, and the continued expansion of Uganda's collective investment sector

Registered a deficit in the revenue collections of Ushs. 1,103.40 billion. This was as a result of compliance gaps, disruptions in fuel supply and slower economic activity in specific domestic business sectors from broad levies including VAT

Project:1778 Enhancing Growth and Productivity Opportunities for Women Enterprises		
PIAP Output: 07030102 National BDS Framework Operationalized		
Programme Intervention: 070301 Roll out business development services (BDS) to support MSMEs.		
12000 jobs created 1315 GROW loan borrowers 14 Participating Financial Institutions retained	Fourteen participating Financial Institutions including six commercial Banks (Centenary Bank, DFCU, Equity Bank, Finance Trust Bank, Pearl Bank, Stanbic Bank), three Micro deposit taking institutions (Opportunity Bank, Pride Bank Ugafode Bank), Arova, CBS Pewosa Kyaddondo, Ebo, Koch Goma and Koboko SACCOs offered the GROW Loan in all the regions and districts of Uganda. Reached 1802 women entrepreneurs borrowers in 125 districts of Uganda; including 81 refugees and 206 women in refugee hosting districts. The GROW Loan outcome assessment revealed an average of 1.2 jobs were created per enterprise, indicating 7901 jobs were created. Profits of women borrowers increased by 20%, notably among the level two and level three of the loan financing tickets. Whereas level 2 and 3 recipients earned more money, the size of their profits was lower. Regarding whether GROW loan helped businesses that already had some staff grow, 75% reported stayed with the same number of employees.	None; still in due diligence process of some participating financial institutions; total expected to exceed the annual target.

PIAP Output: 07111201 Long-term financing for the private sector enhanced through government financial institutions		
Programme Intervention: 071112 Capitalize and strengthen UDB, UDC and other public banks to provide low interest loans		
Facilitate the quarterly disbursement of Government capitalization of GoU owned financial institutions and schemes	During Q4, efforts were undertaken to assess capitalization requirements, coordinate with beneficiary institutions, and process and track the release of Government funds to ensure timely and appropriate disbursements. Support was provided to institutions such as Pearl Bank and Uganda Development Bank (UDB), as well as Government-supported initiatives including the Agricultural Credit Facility (ACF) and insurance schemes, to strengthen their capacity to deliver targeted financial interventions. Government subscriptions and capital contributions to strategic international and regional financial institutions, including the World Bank, TDB, IDB, AFD, and other development partners, were also facilitated to maintain Uganda's commitments and access to development financing. Regular engagements, verification of funding requirements, and monitoring of disbursement processes were undertaken to ensure efficient utilization of capitalization resources in line with approved Government priorities.

Introduction of sustainable financing products in the capital markets	No sustainable financing products were introduced during Q4. However, substantial preparatory work was undertaken, including the development of draft guidelines to support the introduction and regulation of sustainable financing products within Uganda's capital markets. The draft guidelines remained under review at the close of the quarter.	The output was not achieved during FY2025/26, as the draft Guidelines were still under development and had not been finalized by the end of the financial year. Consequently, the introduction of sustainable financing products could not proceed within the reporting period. The guidelines are expected to be finalized in FY2026/27, providing the regulatory foundation for the introduction of sustainable financing products and supporting the development of Uganda's sustainable finance market.

PIAP Output: 07111101 Growth in Capital markets assets		
Programme Intervention: 071111 Increase access and affordability of financial services		
Public awareness activities through radio and TV programs, webinars, physical meetings with prospective investors and issuers of securities	During the quarter, the Authority sustained its investor awareness drive through six radio talk shows on Kampala-based stations reaching 1,573,000 listeners, 2 television programmes on NTV and Spark TV offering guidance on safe engagement with regulated capital markets, and a series of webinars and physical engagements with prospective investors and issuers of securities, notably the Business Founders Training Workshop held in partnership with FSD Uganda and the Uganda Securities Exchange to equip entrepreneurs with knowledge on accessing capital markets as a source of financing. These efforts supported continued growth in market participation, with 241,288 CIS accounts registered within the quarter and UGX 4,999.59 billion rmobilized through the capital markets during the quarter, reflecting sustained investor confidence and issuer engagement with Uganda's capital markets.	The output significantly exceeded the annual targets, with the value of funds raised through the capital markets reaching UGX 23,409.39 billion against a target of UGX 200 billion, while CIS accounts increased to 835,423 against the target of 157,876 accounts. The strong performance was driven by sustained investor education and awareness initiatives through radio and television programmes, digital platforms, IEC materials, webinars, and stakeholder engagements, which increased public awareness, investor confidence, and participation in regulated investment products. These interventions, together with continued market confidence, supported increased capital mobilization and growth in the investor base, resulting in performance well above the annual targets.

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
PIAP Output: 07111101 Growth in Capital markets assets		
Programme Intervention: 071111 Increase access and affordability of financial services		
	During Q4, Collective Investment Schemes (CIS) Assets Under Management (AUM) increased by UGX 791.10 billion, rising from UGX 6,262.0 billion in March 2026 to UGX 7,053.11 billion by the end of June 2026. This represents a 12.6% quarter-on-quarter growth, reflecting continued expansion in the collective investment industry.	By the end of Q4, Collective Investment Schemes (CIS) Assets Under Management reached UGX 7,053.11 billion, surpassing the FY2025/26 annual target of UGX 4,713 billion by UGX 2,340.11 billion (approximately 49.7% above target). The strong performance was driven by sustained net inflows into collective investment schemes, increased investor participation, growing financial awareness and continued confidence in regulated investment vehicles. This performance reflects the continued expansion of Uganda's collective investment industry and its increasing contribution to domestic savings mobilization and capital market deepening.

Project:1521 Resource Enhancement and Accountability Programme (REAP)		
Key Service Area:000083 Uganda PIMPLUS Program for Results		
PIAP Output: 18113101 Bankable projects for the NDP developed and implemented		
Programme Intervention: 181131 Strengthening the PIMS framework to improve efficiency of public investments		
	The Second Domestic Revenue Mobilization Strategy (DRMS II) 2025/26–2029/30 was finalized and approved by Top Technical Management. DRMS II provides a strategic roadmap for expanding the domestic revenue base, strengthening public trust in the tax system, and supporting sustainable and equitable financing of national development priorities in line with Uganda Vision 2040, NDP IV, and the Ten-Fold Growth Strategy.	
Rollout of upgraded IBP	The contract to design the system has been signed and implementation is to commence 1st quarter of FY 2026/27	
Rollout	Received Approval from solister General, pending final contract signature	This is a multi year contract.
ESS updated PIM frameworks disseminated		
Final BPR report of the TAT case management process for Tax Disputes	A five-day BPR exercise was successfully conducted, bringing together 20 stakeholders from TAT, MoFPED, URA, NITA-U, ULS, ICPAU, KACITA, PSFU and the ICRTS Technical Working Group to review and redesign Tribunal business processes. Redesigned digital workflows were developed to support online filing, electronic document management, automated notifications, digital hearings, mediation management and workflow tracking. Preliminary business and functional requirements were identified to guide preparation of the Functional Requirements Document (FRD), including system modules, reporting, analytics, security, user roles and integration requirements. Key operational challenges documented included reliance on manual processes, weak case tracking, limited accessibility, inadequate reporting and analytics, and poor communication mechanisms.Stakeholders reached consensus on the proposed operational redesign and the strategic direction for digitizing Tribunal operations.

	A one-year Bloomberg license was acquired for functioning of Bloomberg terminals that support financial market analysis and debt management. The license is valid until August 2027	
Project okusevinga rolled out and maintained	The pilot phase of the Okusevinga Unit Trust Scheme was successfully launched with a limited number of whitelisted participants. Preparations for the full rollout of the Scheme were completed, with implementation scheduled for Q1 FY 2026/27. In addition, awareness materials, the campaign strategy, and the media plan were finalized to support the nationwide rollout.	
	10 MDAs were trained, including MoFPED, the Uganda Police Force, Parliamentary Commission, UBOS, MOW&E, MOH, MOE&S, Vote 130, MEMD and MOW&T.	
	Development of the platform for remote opening of Central Securities Depository (CSD) accounts progressed with the finalization of the system requirements and the acquisition of approvals from the NITA-U and the Ministry of ICT. The procurement process is currently being finalized to facilitate implementation. Preparations for the rollout of infrastructure bonds progressed with the identification of a Lead Arranger and the completion of key pre-issuance activities, including investor roadshows. The proposed Sukuk Bond is expected to finance 15% of the Standard Gauge Railway (SGR) construction cost, equivalent to EUR 405 million, as part of efforts to diversify financing sources and mobilize lower-cost borrowing.

Project:1521 Resource Enhancement and Accountability Programme (REAP)		
PIAP Output: 18211101 Increased Domestic revenue		
Programme Intervention: 182111 Enhance domestic revenue mobilisation through sustainable tax revenue policy and administration		
Ten (10) Staff trained in tax policy and URA in tax policy formulation and tax administration and management		The capacity-building engagement to strengthen capacity for tax policy development and tax and fiscal policy advisory for the political leadership was planned through participation in a high-level African Tax Conference/Symposium in Morocco in June 2026. However, the participation could not proceed as the conference dates coincided with the Hon. Minister's new ministerial appointment
	The Tax Policy Department, in collaboration with URA, developed a Tax Administrative Process Management Document to operationalize the management of tax expenditures by outlining the administrative processes, procedures, and timelines for their implementation.	
	URA conducted workshops to strengthen its transition towards a data-driven revenue administration. These included the development of a Data Analytics Training Curriculum to institutionalize data literacy and analytical capabilities, a Data Governance Workshop to establish frameworks for effective management of data assets across systems, including the eTax platform and Data Lakehouse, and training on Artificial Intelligence, Machine Learning, and Data Science to enhance staff capacity in advanced analytics. These initiatives laid the foundation for improved data governance, evidence-based decision-making, taxpayer risk profiling, fraud detection, revenue forecasting, and enhanced utilization of the eTax system in tax administration.

Project:1521 Resource Enhancement and Accountability Programme (REAP)		
PIAP Output: 18312203 Integrated Public Financial Management (PFM) systems across government		
Programme Intervention: 183122 Strengthen reporting and accountability systems across government		
Twenty (25) institutions rolled on HCM	25 Institutions rolled on HCM. Training of Trainers (ToTs) and HCM certification were conducted for 320 HR officers from MDAs and LGs, including staff from 25 additional agencies earmarked for HCM rollout. Readiness assessments for 24 target agencies were completed to support onboarding, while Go-Live processes are ongoing. In addition, 25 Motadata service management licenses were acquired and activated to strengthen user support during HCM implementation.	
eGP rolled out to 40 procurement disposing entities (PDEs)	Development of key e-GP system functionalities was completed, including provider registration, user management, procurement planning, requisition, solicitation, and PDE management. User Acceptance Testing (UAT) commenced for these modules ahead of deployment to the production environment. In addition, System Integration Testing was completed for 7 of the 12 planned system integrations delivered during FY 2025/26.	Preliminary work, including User Acceptance Testing (UAT), is underway, with system rollout planned for FY 2026/27.
	Quarterly engagements with votes were held during the financial year.	
Simplified computing and reporting tool (SCART) rolled out to 10 LLGs	Rolled out the SCART system in 66 sites, exceeding the annual target of 60 sites. Of the 66 sites, 48 were supported under the REAP Programme, while 18 additional sites were supported by the MoH and the Clinton Health Access Initiative (CHAI).

PIAP Output: 21040701 Extractives Industry Transparency Initiative (EITI) requirements adhered to		
Programme Intervention: 210407 Strengthen governance and accountability systems in the extractives industry		
EITI recommendations produced and followed up with actions to strengthen governance and management in the Petroleum sector.	The EITI report recommendations were published in the 5th Uganda EITI Report highlighting key areas for improvement of extractive sector governance.	Achieved as planned.
Stakeholder Engagement Reports & Policy Proposals produced for purposes of strengthening management of the petroleum resources.	During the reporting period, the Secretariat strengthened engagement by convening the 41st and 42nd Multi-Stakeholder Group meetings to guide preparation of the 5th UGEITI Report, review progress towards Uganda's EITI Validation, and adopt recommendations to improve transparency in the extractive sector, including the gold value chain.	Achieved as planned.
Stakeholder Engagement Reports & Policy Proposals by the Multi-Stakeholder Group members to Uganda Extractive Industries Transparency Initiative	The Secretariat supported stakeholder engagements on Uganda's energy transition, methane emissions, petroleum revenue management, and oil and gas governance with partners including the Natural Resource Governance Institute (NRGI), the Civil Society Coalition on Oil and Gas (CSCO), REPower Uganda, ActionAid International Uganda, and the Bank of Uganda. The Secretariat also engaged the National Mining Company to strengthen its understanding of EITI reporting requirements as a State-Owned Enterprise.	Achieved as planned.

Quarter 4

Performance highlights for the Quarter

Policy, Planning & Support Services: The Ministry prepared and submitted the quarter three Policy report to Office of the President.

Peace Building: The Ministry contributed to peace building efforts & coexistence through establishing 2 District Peace Committee in Mpigi District and 25 Stakeholders from Mityana were trained in CPMR skills.

Demobilized 51 reporters, provided reinsertion support to 100 reporters & trained 385 reporters & victims.

Internal Security, Coordination& Advisory Services: The Ministry coordinated internal security efforts through conducting 6 alert Inspections in KMP areas, conducted 3 security assessments and 1 Inspection of Commercial Explosives magazines & Quarries in 4 regions, 30 Blaster Certificates Processed out of 38 Applicants received and 53 Licenses Processed.

Directorate of Community Service: The Ministry contributed to reduction in congestion in prisons by diverting 972 offenders to non-custodial sentence .

NGO Regulation: The Ministry regulated the NGO Sector through monitoring 52NGOs onsite & 229 offsite, inspecting 10NGOs. Issued 189 NGOcertificates,304 NGOs permits & updated 7599 NGOs on the NGO database Combat Trafficking in Persons:

Ministry contributed to Combat Trafficking in Persons efforts through supporting 231 victims of trafficking & coordinating the return of 1 victim of trafficking from Malaysia

Variances and Challenges

Variances and Challenges
Variances in budget performance; The Ministry recorded 99.9% absorption in non-wage and 100% wage absorption. The development budget was also absorbed 100%.

Challenges:
The continued low allocation & release against the development budget has continued to limit the Ministry’s retooling efforts.

V2: Performance Highlights

Table V2.1: PIAP outputs and output Indicators

Programme:01 Agro-Industrialization			
Vote Function:01 Agriculture Extension Services			
Department:001 Agriculture Extension and Skills Management			
Key Service Area: 010038 Agricultural extension co-ordination			
PIAP Output: 01116102 Capacity of extension workers enhanced			
Programme Intervention: 011161 Strengthen the agricultural extension system			
PIAP Output Indicators	**Indicator Measure**	**Planned 2025/26**	**Actuals By END Q 4**
Number of Agricultural extension staff trained	Number	4000	4039
Number of farmer groups trained	Number	45	46
Number of LGs facilitated	Number	145	145
Department:002 Agriculture Investment and Enterprise Development			
Key Service Area: 000014 Administrative and Support Services			
PIAP Output: 01114101 Functionality and sustainability of farmer groups, MSMEs and cooperatives improved			
Programme Intervention: 011141 Strengthen farmer organizations and cooperatives ecosystems			
PIAP Output Indicators	**Indicator Measure**	**Planned 2025/26**	**Actuals By END Q 4**
No. of farmer groups, MSME, Cooperatives trained	Number	25000	25001
Key Service Area: 000034 Education and Skills Development			
PIAP Output: 01020401 Agro-processing and value addition standards developed and adhered to			
Programme Intervention: 010204 Establish and ensure compliance to requisite standards			
PIAP Output Indicators	**Indicator Measure**	**Planned 2025/26**	**Actuals By END Q 4**
Number of processors trained in adherence to standards	Number	40	65
Number of LGs facilitated	Number	145	145
Key Service Area: 010014 Support to Farm Level production			
PIAP Output: 01111104 Quality seed and agricultural inputs accessed			
Programme Intervention: 011111 Produce, multiply and distribute quality seed and inputs (particularly for priority commodities)			
PIAP Output Indicators	**Indicator Measure**	**Planned 2025/26**	**Actuals By END Q 4**
No. of farming households supported with critical agricultural inputs for strategic priority crops	Number	200	12922
Number of Agricultural tradeshows organised	Number	1	2

VOTE: 010 Ministry of Agriculture, Animal Industry and Fisheries

Programme:01 Agro-Industrialization

Vote Function:01 Agriculture Extension Services

Project:1444 Agriculture Value Chain Development

Key Service Area: 000014 Administrative and Support services

PIAP Output: 01612104 Cross cutting issues mainstreamed in agro-industry

Programme Intervention: 016121 Improve policy, legal and institutional framework in agro-industry

PIAP Output Indicators	Indicator Measure	Planned 2025/26	Actuals By END Q 4
Number of benefiaciries reached	Number	2000	2000

Key Service Area: 000017 Infrastructure Development and Management

PIAP Output: 01113102 On-farm water for production infrastructure established

Programme Intervention: 011131 Increase access to and use of water for agricultural production

PIAP Output Indicators	Indicator Measure	Planned 2025/26	Actuals By END Q 4
Completion status of the gravity flow irrigation schemes	Status	100%	100%
Number of solar powered small-scale irrigation systems constructed	Number	0	0

PIAP Output: 01115103 Pest, vector and disease diagnosis and control infrastructure established

Programme Intervention: 011151 Strengthen pest, vector, disease management and control

PIAP Output Indicators	Indicator Measure	Planned 2025/26	Actuals By END Q 4
Completion status of the Laboratory infrastructure (percentage)	Status	25%	40%

Key Service Area: 000073 Marketing and Value addition

PIAP Output: 01421101 Marketing infrastructure established and maintained

Programme Intervention: 014211 Establish and maintain appropriate market infrastructure

PIAP Output Indicators	Indicator Measure	Planned 2025/26	Actuals By END Q 4
National Dairy Laboratory accredited	Status	complete	No
Completion status of the National Agricultural Food Safety Laboratory & Support Centre	Status	10%	5%

Key Service Area: 010049 Crop production technology promotion

PIAP Output: 01211102 Value chain actors supported with post-harvest handling equipment

Programme Intervention: 012111 Establish and operationalise appropriate post-harvest handling and storage facilities and infrastructure

PIAP Output Indicators	Indicator Measure	Planned 2025/26	Actuals By END Q 4
Profile of existing storage facilities	Status	complete	No

Quarter 4

Performance highlights for the Quarter

Coffee

Government distributed 127.6 million coffee seedlings to 224,413 farmers across all coffee growing Districts in Uganda". NARO developed and promoted 3 new coffee wilt disease resistant varieties (CWDR- 8,9,10) with a yield potential of up to 3.9 tons per hectare. Yield per Coffee tree averaged 0.93kgs of FAQ (Robusta at 1.1 kgs per tree and Arabica at 0.75 per tree).

Mechanization

375 4-wheel tractors and implements cumulating to 880 given out. Distributed 750units of Single Axle tractors or power tillers with all accessories. The machines support value addition, irrigation and transportation of farm stuff. Deployed 1,200 tractor operators and technicians. 2,589 of 2,000 acres opened and 212 of 200 km constructed.

Irrigation

Atari Irrigation scheme now at 74% against 77% of contract time on Bulambuli side and at 38.43% for the Contractor on Kween side. Acomai Irrigation scheme was commissioned by the President of Uganda on 5th November 2025. 08 Irrigation systems were given to 8 large scale coffee farmers (1 Ntungamo, 2 Sembabule, 2 Kamuli, 1 Rakai, 1 Kassanda and 1 Omoro).

Certification

Inspected and certified 1.1m MT of agricultural exports and 7.6m MT of agricultural imports. 69,535 phytosanitary certificates issued. 724 agrochemical and fertilizer dealers, 18 fumigators and 218 agricultural chemical products were registered. Managed 21 border posts and kept 24hr regulatory controls at 13 major posts, thus issuance of 69,535 phytosanitary certificates. Certified 1,007 Coffee Nursery operators for provision of quality planting materials.

Fertilizer subsidy,

Total of 348,017 bags of fertilizers procured and distributed to the beneficiaries from Intracom fertilizer factory and Dei Biopharma increase production and productivity. MAAIF procured 323 Mt of fertilizer from UGCEA for women & youth of which 153,333 Bags were distributed to 20,804 cotton farmers (16905M, 3899F). 68,888 bags of fertilizer were distributed to coffee farmers in 120 DLGs.

Variances and Challenges

VOTE: 010 Ministry of Agriculture, Animal Industry and Fisheries

Quarter 4

ðØ CHALLENGES

Limited Staff capacity. Some positions are not filled. We initiated the process of recruitment and next week we are interviewing to fill the posts.

Weak coordination among the value chain actors. We are Strengthening coordination among value chain actors through facilitating commodity platforms forexample the National Cocoa platform, National Avocado Platform and National Vanilla platform

Inadequate critical facilities including analytical and diagnostic laboratories.

Declining productivity as a result of decreasing soil fertility and changing weather conditions.

Lack of a special/ emergency crop pests and disease control strategy which leads to delayed responses. We have drafted an emergency crop pests and disease control strategy which leads to delayed responses.

The department continues to face challenges related to inadequate availability and accessibility of vaccines during disease outbreaks despite ongoing government interventions.

The department continues to grapple with limited cold chain coverage. 60% of the districts (93 districts) are still not covered by containerized vaccine cold chain systems and other adequate vaccine storage facilities.

The district veterinary departments continue to face inadequate staffing levels at district and sub-county levels, which affects disease surveillance, early detection, outbreak investigation, and rapid response.

Financial resources allocated to the sub-sector are insufficient to address the intended development needs in the Fisheries and Aquaculture Policy Implementation Strategy and Plan.

Staffing Constraints: The staffing level at MAAIF is 58% while in District fisheries services it is much lower and has led to Weak farmer support leading to slow pace of transitioning from subsistence to commercial aquaculture;

Excessive fishing capacity on water bodies: There has been so much fishing effort, in addition to use of illegal fishing gears and methods, undermining sustainable fisheri

PIAP Output: 01612104 Cross cutting issues mainstreamed in agro-industry		
Programme Intervention: 016121 Improve policy, legal and institutional framework in agro-industry		
Agricultural data collection and value chain data analysis for the priority commodities undertaken.	Carried out monitoring and supervision of the project infrastructure sites to assess progress of the construction works	The planned activity was agricultural data collection and value-chain analysis, while Q4 focused on monitoring and supervision of infrastructure sites. Cumulatively, data were collected on AI breeding outputs in 17 districts and rice production from new varieties at Acomai. The variation arose from prioritization of infrastructure monitoring in Q4 while commodity-specific data collection was undertaken during the year.

Programme Intervention: 011131 Increase access to and use of water for agricultural production		
Not planned	The contract was submitted to Solicitor General, awaiting clearance	The environmental audit was not completed by year end because the procurement and contracting process was still under statutory review. Financial evaluation and contract negotiations were completed, but implementation awaited Solicitor General clearance.
Seed release & seed policy activities to facilitate market and trade facilitation supported.	Established 13 Wheat National participatory trials in Wakiso,Napak,Lira,Luwero,Soroti districts for research purposes.	Implementation focused on preparatory research and testing required for seed release, including 13 national participatory wheat trials, 7 adaptive trials and DUS trials at Namalere. The variation reflects the phased varietal testing and evaluation process preceding formal seed release and policy actions.
3 Zonal and 1regional Animal disease control centres constructed and supervised (Nakaseke, Soroti, Rubona Sanga)	Completed construction of Nakaseke Animal Zona Centre, Western Uganda regional disease control Centre progressed to 80% physical , while Soroti and Rubona zonal centres are at 70% physical progress	The four planned centres progressed at different rates: Nakaseke was completed, the Western Uganda Regional Disease Control Centre reached 80%, while Soroti and Rubona reached 70%. The shortfall from full completion was due to differing rates of contractor progress and outstanding works at the three incomplete facilities.

Commissioning of Acomai irrigation scheme undertaken.	1,650 acres of rice gardens were established as part of tests on completion in the scheme	The Acomai Irrigation Scheme was completed and commissioned, with 1,650 acres of rice established for completion testing. However, formal technical handover remained pending. The variation therefore relates to pending technical and administrative closure rather than incomplete core construction.
Supervision of the construction of Acomai irrigation scheme in Bukedea and Bulambuli districts undertaken to ensure quality works.	Operationalization of the scheme is on going Activities proceeding concurrently with contractor’s progress milestones	Supervision and operationalization continued concurrently with contractor progress milestones. The variation reflects the phased completion, operationalization and technical handover process, with supervision continuing until all contractual milestones are concluded.

Rehabilitation and supervision of NAGRC&DB Semen lab to enhance production and productivity. Rehabilitation of NAGRC&DB training centre. Rehabilitation the department of Crop Inspection and Certification to support seed/ crop regulation and certification	The construction / rehabilitation stage was duly concluded in accordance with contract provisions, and the facilities have entered operational status.	No significant negative variation was recorded. Construction and rehabilitation works were concluded in accordance with contractual provisions and the facilities entered operational status, indicating substantial achievement of the planned output.
The catchment management plan within Acomai irrigation scheme implemented to protect the environment.	The plan was finalized, and implementation began with planting activities along the Sironko river bank.	The catchment management plan was finalized, but implementation had only commenced through planting activities along the Sironko River bank. The variation reflects phased implementation of environmental restoration and catchment protection measures.

Seed release & seed policy activities to facilitate market and trade facIliatation supported.	Laboratory operationalization is ongoing in line with project implementation, marked by installation of the second batch of equipment.	Laboratory operationalization remained ongoing, including installation of the second batch of equipment. The variation reflects phased procurement, delivery, installation and commissioning of equipment required before full operationalization.
Support to UNBS. Supervision and equipping of the National metrology lab at UNBS to ensure food safety.	Department of Dairy Development received a accreditation certificate for the Analytical laboratory in lugogo-kampala .	The accreditation process progressed through engagement of an accreditation consultant/ body, assessment and recommendation for accreditation. Final completion remained dependent on the external accreditation process and issuance of the accreditation certificate.

Project:1444 Agriculture Value Chain Development		
PIAP Output: 01421101 Marketing infrastructure established and maintained		
Programme Intervention: 014211 Establish and maintain appropriate market infrastructure		
Support to improve Food Safety and Quality Management Systems in milk and dairy sector provided. Rehabilitation of milk collection centres, Accreditation of National Dairy Analytical Laboratory at Lugogo and procurement of Mobile Van.	A total of 480 animals were inseminated under Artificial Insemination in the districts of Sheema, Mitooma,Mbarara,Mpigi ,Luwero,Wakiso and Nakasongola A total of 7,380 semen straws were produced to cover major dairy and beef breeds to assist in the consistent supply of high-qulity semen aligned with farmer breeding preference both for dairy improvement and beef breed enhancement .	The achievements reported under this activity mainly relate to livestock breeding and productivity support including AI services, semen production, mineral supplements and AI specialist training rather than the stated food safety and dairy quality-management output. The variation therefore reflects a mismatch between the planned output and reported achievements, which should be reconciled with the appropriate AVCP workplan activity.
Land for the Acomai Irrigation Scheme in Bukedea and bulambuli acquired.	All the project affected persons have since been compensated.	No significant variation was recorded. All Project Affected Persons were compensated, indicating completion of the planned land acquisition and compensation requirements for the Acomai Irrigation Scheme.

Support NAGRC&DB activities to enhance availability of improved dairy and cattle germplasm.	Activity ,awaiting for completion of the Animal control centre	The activity was not fully implemented because it was awaiting completion of the relevant animal control centre. The variation was therefore caused by delayed readiness of supporting infrastructure required for implementation of the planned NAGRC&DB germplasm activities.
Meat Processing Equipment procured to enable livestock farmers earn more income	The procurement process for the assorted meat processing equipment initiated and contract was issued to the supplier. MAAIF awaiting delivery of the meat processing equipment	Procurement was initiated and the contract awarded, but the meat-processing equipment had not been delivered by year end. The variation was due to the supplier delivery lead time following contract award.
Tsetse control surveillance activities supported in tsetse hot spot districts.	Tsetse control surveillance activities supported as planned.	No Q4 actual achievement or cumulative performance was reported for tsetse-control surveillance. The variation therefore reflects either non-implementation or incomplete performance reporting during the financial year and requires confirmation by the responsible technical unit.

Monitoring and supervision of civil works on Acomai , Atari irrigation schemes as well as small/micro-scale irrigation schemes under the UGiFT undertaken to ensure quality works	Monitoring and supervision of civil works on Acomai and Atari irrigation schemes and selected small/micro-scale irrigation schemes under UGiFT were undertaken. Technical guidance was provided and implementation progress, quality of works and outstanding issues were assessed.	Activity was substantially implemented as planned. However, coverage of all intended sites was affected by limited operational funds and the large geographical distribution of the schemes.
2 Labour saving Agriculture Mechanisation Equipment tested, certified and Promoted in all regions ensuring that both men and women benefit	Two labour-saving agricultural mechanisation technologies/ equipment were tested and assessed during Q4.	The Q4 and annual targets were achieved as planned. Testing and promotion were undertaken in accordance with the availability of equipment and scheduled field demonstrations.
Five sets of heavy earth moving equipment serviced and maintained to serve both men and women	Five sets of heavy earth-moving equipment were serviced and maintained during Q4 to support continued delivery of mechanisation and water-for-production services.	Activity was substantially undertaken as planned. However, maintenance of some equipment was affected by inadequate funding, delayed procurement of specialised spare parts and the age and condition of some machinery.

PIAP Output: 01113102 On-farm water for production infrastructure established

Programme Intervention: 011131 Increase access to and use of water for agricultural production

Construction of Atari irrigation scheme undertaken to provide water for all year crop production	-Physical Progress made from 45% and time progress of 65.8% at the beginning of Q4 to 67.4% and time of 77.1% by the end of Q4 -Partial refund of work permit fees to Japanese nationals working on the Project undertaken to a tune of 15.2 million. -Taxes worth 531.1 million to URA (PAYE) for Japanese nationals working on the Atari Project paid.	-Design modification at the headworks foundation due to lower than anticipated soil bearing capacity -Challenges of underperformance by earlier sub-contractors.
Monitoring and supervision of preliminary construction works for the Atari Irrigation Scheme undertaken	-6 routine works monitoring, construction supervision and quality assessment field visits worth 31.056 million undertaken at Atari irrigation scheme site.	Done as programmed.
Land compensation for all the remaining Atari Project Affected person undertaken	-Compensation of 27 properties for 17 Project Affected Persons (PAPs) to a tune of 63 million undertaken -Assessment and resolution of grievances raised by PAPs to do with Atari land acquisition and downstream flooding threats undertaken (8.7 million)	-Properties for 3 PAPs to a tune of 111 million not undertaken because one case is still being heard in courts of law; another hasn't consented to the rates as valued and the other is a big extended family who are taking long to agree on the parties to be compensated on behalf of the rest.

Project:1357 Improving Access and Use of Agricultural Equipment and Mechanisation through the use of labour saving technologies

Key Service Area:000017 Infrastructure Development and Management

PIAP Output: 01113102 On-farm water for production infrastructure established

Programme Intervention: 011131 Increase access to and use of water for agricultural production

Farmers supported to clear/open 500 acres of land bush, and 50 km of farm access and market linkage roads opened up/ Rehabilitated ensuring women and youth benefit	By the end of Q4, 2,589 acres had been bush-cleared/ ploughed and 212 km of farm-access and community roads had been opened or rehabilitated in various districts.	Targets were exceeded because mechanisation equipment was deployed to several sites and communities across the country, enabling implementation of additional farmer and community requests. Some works remained ongoing at Maruzi, Migyera, Kapeeka, Lutunku and Kakooge.

VOTE: 010 Ministry of Agriculture, Animal Industry and Fisheries

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1357 Improving Access and Use of Agricultural Equipment and Mechanisation through the use of labour saving technologies		
PIAP Output: 01113102 On-farm water for production infrastructure established		
Programme Intervention: 011131 Increase access to and use of water for agricultural production		
Construction 120 water harvesting infrastructure in water stressed areas; (Valley tanks, dams and on farm water Harvesting) of capacity between (10000-30000)m3 for livestock watering and irrigation equitably across regions completed	Construction or rehabilitation of water-harvesting facilities continued at various sites. By the end of Q4, 67 facilities, comprising valley dams, valley tanks and associated structures, with a combined reported capacity of approximately 5.88 million m^3, had been constructed or were under construction.	The target was partially achieved because several large and small water facilities were still under construction or completion at the end of the year, including Kosike, Sinat, Okula, Ogalai, Bihogo, Migyera and Namasale.
10 Farmer groups trained in the operation and maintenance of microscale irrigation systems to enhance all year round production ensuring participation of women and youth.	No specific farmer-group training output was reported in the submitted FY2025/26 output schedule.	Training records will be reported in the 2026/2027 FY since selection of farmer groups was done but training is to be carried out in Quarter 1

PIAP Output: 01112201 Agricultural mechanisation services improved		
Programme Intervention: 011122 Increase access to appropriate agricultural mechanization and farm power		
Quarterly supervision and technical consultancies of civil works for construction of water facilities undertaken to ensure quality works.	Technical monitoring and supervision of water facilities, irrigation schemes, canals, roads, fish ponds and agricultural mechanisation centres were undertaken during implementation (3).	Carried out as scheduled on a monthly basis
Procurement of 100 tractors and implements completed and units delivered and distributed equitably across all regions	Procurement of the 100 tractors and matching implements done.	Payment for the procured tractors will be done in Q1 of FY 2026/2027
Aquaculture center established and equipped to demonstrate new fish technology	43 fish ponds were constructed or were under completion at different project sites.	The updated information on establishment or equipping of the planned aquaculture centre is to be compiled.
Fifty(50) sets of single axle tractors delivered and distributed equitably across regions ensuring women and youth benefit	Procurement achievement for the 300 sets of single-axle tractors was done.	Demand so high so procurement was upgraded

Initiation of works to establish 48 district based satellite centers	Assessment for the 48 district satellite centres was completed. The report has been prepared to enable development of the ESMPs and initiation of procurement works.	The variation is attributed to the requirement for preparation of Environmental and Social Management Plans (ESMPs) were prerequisite activities before commencement of procurement and construction works.
Community-based animal breeding programs and contract mating schemes implemented ensuring that they benefit all livestock farmers	This has not been implemented. Community-based animal breeding programs and contract mating schemes implemented ensuring that they benefit all livestock farmers	Implementation was deferred pending procurement of Artificial Insemination (AI) kits and completion of training for AI technicians required to operationalize the programme.
Initiation of works to rehabilitate the Aquaculture Research and development center ongoing	Engineering designs and specifications for the rehabilitation of the Aquaculture research and development Centre (Kajjansi) developed and approved, Procurement was initiated. The procurement was approved in the World Bank STEP system	The variation resulted from the need to obtain management guidance on the linkage between the proposed infrastructure investment and the broader sector development strategy before commencement of procurement.

VOTE: 010 Ministry of Agriculture, Animal Industry and Fisheries

Quarter 4

Outputs Planned in Quarter	Actual Outputs Achieved in Quarter	Reasons for Variation in performance
Project:1786 Uganda Climate Smart Agricultural Trnasformation Project (UCSATP)		
PIAP Output: 01113102 On-farm water for production infrastructure established		
Programme Intervention: 011131 Increase access to and use of water for agricultural production		
Rehabilitation works of national bullstud and semen collection Centre ongoing. Progress at 40%	The contract for the Rehabilitation works of national bullstud and semen collection Centre was submitted to solicitor general for clearance	The variation is attributed to delays in approval of the environment and social management plan
Construction works to revamp and restock Two (2) Animal Genetic Resources Centers (AnGRCs) at Rubona and Maruzi and One (1) National Animal Livestock Centre in Serere ongoing	The Engineering designs for revamp/develop Infrastructure for Animal Technology Multiplication at Rubona and Maruzi and NaSARRI were completed. The procurement of silage bankers, hay bans, paddocks were completed. Procurement has been initiated.	The variation is attributed to delays in approval of the Environmental and Social Management Plan (ESMP), which was a prerequisite for contract execution.
Construction works on the regional crop disease and pest diagnostic laboratories initiated	The activity was not approved pending completion of the clearance and no objectipon by the bank because it was not initaially approved in the Project Appraisal Document.	The activity was not originally included in the approved Project Appraisal Document (PAD) and therefore required World Bank clearance and a formal no-objection before implementation could proceed.
Irrigation facilities established and Maintained in the nine(9) ZARDIs to support off-season seed production.	Designs and Engineeering works for Small scale irrigation systems constructed in the 9 ZARDIS was completed. The ESMPs were completed pending approval by the World bank for revision Detailed engineering designing of the Sanga, Nwoya, Namalere and Agwata mechanization centers including physical layout and infrastructure of the centers were developed and approved.	The variation arose from the time required to complete, review and approve the detailed engineering designs before procurement could commence. The variation is attributed to the phased implementation strategy, where completion and approval of engineering designs are prerequisite activities before commencement of construction works

VOTE: 010 Ministry of Agriculture, Animal Industry and Fisheries

Programme Intervention: 011131 Increase access to and use of water for agricultural production		
The construction of the National Agricultural Data Centre in Wandegeya ongoing.	The designs were completed. Construction has not commenced.	Construction did not commence because the available project resources were insufficient to finance the investment, necessitating mobilization of additional co-financing arrangements
Road chokes on 397 kms of farm to market access roads rehabilitated.	625km of road chokes in 69 project districts were advertised and are under bidding stage. All the roads' chokes were identified in project areas and engineering designs for rehabilitation developed	No significant variation. The activity exceeded the planned output, with engineering designs completed and 625 km of road choke points advertised for procurement compared to the initial annual target of 397 km.
Initiation of works on the rehabilitation of central fish markets	Assessments for Structural designs and specifications for rehabilitation and equipping of Central Fish Markets in different project districts have been de	The variation is attributed to the phased implementation approach, where completion of site assessments and development of engineering designs preceded procurement and construction activities
Distribution of motorized Irrigation Pumps fitted with irrigation kits to boost off season sweet potato vine multiplication undertaken	This activity was not implemented. Identification of land for setting up the block farms in order to put irrigation systems.	Implementation was deferred pending identification and confirmation of suitable block farm sites required for installation of the irrigation systems.
Farmers supported to acquire clean energy equipment, machinery and infrastructure for post-harvest management and value addition	This activity was not implanted pending approval of the matching grants manual for post harvest handling	The variation is attributed to completion of the post harvest manual
