Glossary of Key Terms

Absorption: Funds spent by MDA's as a proportion of the funds released from Central Government.

Approved Budget: This is the appropriated budget by the Parliament of the Republic of Uganda, which is normally undertaken in May of the preceding Financial Year.

Budget Outputs: These are strategically important services delivered by the Vote which contribute directly to the Vote's and indirectly to the Programme objectives, e.g. E-Learning, and innovation services which contributes to increasing access to education and to the wider programme objective of increasing literacy and numeracy rates.

Chart of Accounts: Is a critical element of the Public Financial Management (PFM) framework for classifying, recording and reporting information on cost plans, transactions and events in a systematic and consistent way. It plays a key role in government fiscal planning, financial management, accountability and financial reporting frameworks.

Departments: These represent the results or sets of activities implemented by the Vote which contribute to the achievement of the Programme objectives. These are recurrent in nature, e.g. inspection of primary schools.

Expenditure: Actual spending by MDA's (recorded by EFT transfers) reported on the IFMS.

Grants and Subsidies (Outputs Funded): These are services funded by the Vote but delivered by another institution. They relate to expenditures on grants and transfers in the chart of accounts.

Investment (Capital Purchases): These relate to purchases of capital assets in the chart of accounts.

Item: This is the lowest operational level of the budget, and represents the resources necessary to carry out activities, e.g. staff salaries, travel inland, printing and stationery.

PIAP Output Indicators: These measure the performance of Budget Outputs, e.g. No. of classrooms constructed.

Non-Service delivery spending: This represents budget allocation and expenditure on outputs, usually recurrent in nature, which contribute indirectly to the provision of key public services, e.g. administration of payrolls enables the delivery of education services by teachers in schools.

Percentage of Budget Released: This is the percentage of the approved budget (excluding supplementary budgets appropriated in year) that is released by Central Government.

Percentage of Budget Spent: This is the percentage of the approved budget (excluding supplementary budgets appropriated in year) that is spent by MDAs through EFT transfers.

Projects: These represent the results or set of activities implemented by the Vote which contribute to the achievement of Programme objectives. They primarily involve capital purchases and may be financed by the Government of Uganda and/or Development Partners, e.g. Emergency Construction of Primary Schools Phase II.

Glossary of Key Terms

Release: Central Government transfer of funds to MDA's (including supplementary funds) from the consolidated fund.

Service delivery spending: This represents budget allocation and expenditure on outputs which deliver key public services on behalf of the Government, e.g. classroom construction which enables the delivery of education services.

Supplementary Budget: This is an in year addition to an MDAs' approved budget. This budget is also appropriated by Parliament during the course of the Financial Year.

Unspent balances: Funds that were released by Central Government but not spent by MDA's. This calculation does not include commitments (encumbrance) on the IFMS system.

Programmes: These are groups of related services and capital investments which contribute towards a common function e.g. Agro-industrialization.

Votes: These are institutions (Ministries, Departments, Agencies and Local Governments) which are the basis of the annual budget and appropriations made by Parliament, and the basis for accountability, e.g. Ministry of Education and Sports.

Executive Summary

INTRODUCTION

This Semi-Annual Budget Performance Report (SABPR) provides an analysis of Budget Execution during the first Half of FY 2023/24. It illustrates performance of resources and expenditures and provides an overview of Programme and Vote level physical achievements across Government. This report has been drafted in line with Section 18 (1) of the Public Finance Management (PFM) Act 2015.

FISCAL AND REVENUE PERFORMANCE

Overall Fiscal Performance for FY 2023/24

The fiscal policy for FY 2023/24 focused on promoting inclusive growth to increase household incomes and improve quality of life of Ugandans without compromising fiscal and debt sustainability.

The FY 2023/24 focus is on policy interventions to urgently complete key public investments with higher multiplier effects on the attainment of NDPIII targets and the NRM 2021 – 2026 Manifesto, enhanced revenue mobilization and collections and well as enhanced government efficiency and effectiveness through rationalization of public expenditure and payroll audit. As such, the theme for this year's budget is '*Full Monetization of the Ugandan Economy through Commercial Agriculture, Industrialization, Expanding and Broadening Services, Digital Transformation and Market Access*'.

The tax revenues at half year in FY 2023/24 stood at **Ushs 12,328.63 billion** against the URA target of **Ushs 13,142.15 billion**. This performance was mainly due to below par performance of taxes on international trade transactions and indirect domestic taxes.

Project Support Disbursements

Project Support in FY 2023/24 performed poorly at 33.1% mainly because of low absorption of project funds on account of some projects not being ready for execution. Total grants amounted to **Ushs 584.13 billion** which was lower than budget projection of **Ushs 1,794.65 billion**.

AGGREGATE EXPENDITURE PERFORMANCE

At an aggregate level, Ushs 14,079.569 billion of the GoU budget was released by the end of December 2023. This equates to 56.2% of the approved budget. Aggregate absorption (measured by expenditure as a proportion of releases) was 83.5%, which represents strong budget execution at Half Year.

Programme Level Expenditure Performance

Wage and Non-Wage Releases performed at 51.5% and 59.0% respectively while GoU Development releases at 56.5% of the approved Budget. Mineral Development, Sustainable Energy Development, Regional Balanced Development, Agro-Industrialization and Manufacturing Programmes had the lowest releases at 29.2%, 32.0%, 33.9%, 40.4% and 42.1% respectively. It should however be noted that External Financing performed at 34.5% only.

Spending on Contingencies Fund

There has been no disbursement from the contingencies fund for the first half of the Financial Year.

Virement report

In line with Section 18 (1) (e) of the Public Finance Management (PFM) Act 2015, a virements report has been prepared and is attached as Annex A1.6.

Executive Summary

PROGRAMME PERFORMANCE

AGRO-INDUSTRIALIZATION PROGRAMME

The Revised Budget for the FY 2023/24 stood at Ushs 1,892.296 billion, with Government of Uganda funding amounting to Ushs 885.104 billion and external financing contributing Ushs 1,007.192 billion. As of December 31st, 2023, a total of Ushs 710.669 billion, equivalent to 38% of the programme budget, had been released, of which Ushs 491.348 billion, representing 69% of the released amount, was expended. The Government of Uganda's half-year release and expenditure performance were assessed as very good, reaching 46% and good, reaching 78% respectively. Conversely, the performance of external financing in terms of release was at 38%, while expenditure performance was deemed fair at 69%.

Physical Performance

By December 31, 2023, the overall program performance demonstrated positivity, notwithstanding certain areas exhibiting lower-than-expected results. Notably, success was observed in the sustained execution of multi-year investments, particularly in agricultural research and breeding infrastructure and equipment, supported by off-budget and private sector collaboration. Moreover, enhanced agricultural financing through the Parish Development Model (PDM), coupled with the provision of quality inputs, water for production, and mechanization, facilitated increased access to superior agricultural technologies and markets. A substantial rise in the value of agricultural exports, notably in coffee, marked a significant achievement during this timeframe.

However, the alteration in the scope of approved donor-financed projects notably decelerated their implementation pace. The imposition of quarantine measures on the movement and sale of livestock products due to the prevalence of Foot and Mouth Disease (FMD) in the cattle corridor negatively impacted the dairy sector's performance. Additionally, land encroachment, human resource gaps and adverse weather conditions constrained research activities, while numerous value addition and processing equipment remained non-functional due to power shortages and raw material scarcity. Although the storage, agro-processing, and value addition sub-program displayed fair performance, several established facilities were either non-operational or operated below their designated capacity. Furthermore, the necessity for farmer contributions in water for production projects contributed to the sluggish pace of implementation.

Agricultural Production and Productivity

As of December 31, 2023, the National Agricultural Research Organisation (NARO) release six crop varieties that were drought, pest and disease resistant including fortified orange and purple sweet potatoes (2), maize (2), Lablab pasture (1) and rice (1). Additionally, starter cultures for milk fermentation, probiotics, improved coffee seedlings, and nutrient-rich bio-fertilizers were promoted. Research efforts focused on developing a rice variety. Progress was noted in the remodeling of the Anti-Tick Vaccine facility and the installation of equipment in the Alfasafe facility to control aflatoxins.

However, the expansion and renovation of the Semen Laboratory by the National Animal Genetic and Resource Centre and Data Bank (NAGRC&DB) were only at 20% completion, while the

Executive Summary

construction of the Gene Bank was lagging behind schedule. Despite the importation of 22 improved bulls from South Africa and Kenya, disease-related fatalities occurred.

Various administrative and breeding infrastructures at NAGRC&DB stations, such as hay barns and silage bunkers, were at different stages of completion. Progress on water infrastructure projects varied, with some, like the Acomai irrigation scheme, behind schedule. Rehabilitation efforts on old water production facilities showed mixed results, with some areas achieving full completion while others lagged significantly. Construction of solar-powered small-scale irrigation schemes faced challenges, resulting in poor performance due to constraints such as limited water sources, manpower, and land acquisition issues.

Storage, Agro-Processing and Value addition

Substantial advancements were made in establishing storage, processing, and value-addition facilities by several governmental bodies including MAAIF, NAADS, UCDA, UDC, and MoLG. Nonetheless, the full functionality of some of these facilities remained unrealized. UCDA notably distributed 25 wet mills and 50 hand pulpers acquired during FY2022/23.

Furthermore, 15 ordinary maize milling equipment were allocated to 15 farmer organizations, along with 23 milk coolers and accompanying implements with a capacity of 63,000 litres provided to farmers. Progress on construction and equipping of value addition facilities under the LEGS project varied, with some projects stalled and new contracts initiated. Additionally, construction of a warehouse at the Acomai Irrigation Scheme had reached 66.7% physical completion.

Agricultural Market Access and Competitiveness

Ongoing projects included the renovation of the sanitary and phytosanitary laboratory at Namalere, construction of a milk collection center at Nabiswera in Nakasongola district, and civil works for rehabilitating the Sanga Slaughter Facility in Kiruhura District. UCDA certified 1,296,319 coffee bags for export, while inspections were conducted on 1,396 milk handling premises, equipment, and consignments for compliance. Additionally, 2,444 milk and milk product samples were analyzed. The DDA provided training to 166 dairy stakeholders in milk value addition and quality assurance.

Agricultural Financing

During the review period, the Agricultural Credit Facility (ACF) disbursed loans totalling Ushs 41.091 billion to 368 farmers and firms, with a government contribution of Ushs 20.546 billion.

However, the northern and eastern regions of Uganda received a disproportionately low share of ACF loans, primarily due to communal land tenure systems in Northern Uganda, limited financial literacy among farmers, absence of collateral, and insufficient information on ACF in Participating Financial Institutions' (PFI) branches, hindering credit access in some areas in Eastern Uganda.

Furthermore, Uganda Development Corporation (UDC) continued its support for 10 agro-industrialization projects, with four investments generating USD 2,874,783 in export revenue as of September 30, 2023. The Soroti Fruit Factory processed oranges and mangoes but operated at a loss, attributed to inadequate financing for industrial packaging lines and low demand for concentrate. The Atiak Sugar Factory remained non-operational due to cane shortages. By September 30, 2023, UDC reported poor fund absorption, utilizing only 12.3% of available funds.

Executive Summary

Institutional Strengthening and Coordination

The MAAIF, in partnership with the Uganda National Farmers Federation (UNFFE), PDM Secretariat, and District Local Governments, continued nationwide campaigns to educate farmers and encourage their participation in the PDM program. They provided training to enterprise groups and distributed technical guidelines and manuals on priority and strategic enterprises. As of November 30th, 2023, a total of 56,375 enterprise groups across the country had been trained and received revolving funds. Parish Development Committees (PDCs) were established with seed capital of Ushs 500,000 for operational and logistical support.

However, some farmers diverted PDM funds for purposes other than those approved in their business plans. Additionally, conflicting information and guidelines from different Ministries, Departments, and Agencies (MDAs) continued to hinder the effective implementation of the PDM.

Challenges

1. Change in scope of planned interventions by MAAIF senior leadership and Parliament delayed implementation of approved donor financed projects as exemplified by the National Oil Seeds Project; and
2. Outbreak of zoonotic diseases in southern cattle corridor like Anthrax and FMD

Recommendations

1. Government should initiate projects only after ensuring a comprehensive financing agreement and feasibility study are in place to prevent delays in project commencement; and
2. Government should prioritize financing for vaccine procurement and ensure massive vaccination against FMD.

Executive Summary

MINERAL DEVELOPMENT PROGRAMME

The programme budget amounted to Ushs 57.33 billion, with Ushs 13.80 billion (29.2%) released and Ushs 8.31 billion (60.2%) spent by December 31st, 2023. The fair absorption rate was attributed to delays in concluding procurements for consultants tasked with conducting certain geothermal and geological activities.

Physical Performance

Mineral Exploration, Development and Value Addition

The MEMD was in the process of developing the Artisanal Small-Scale Mining (ASM) regulations as well as zoning of areas of ASM operations in order to operationalize the new Minerals and Mining Act 2022. The act aims to enhance the capacity and emphasis is on the formalization of the Artisanal Small-scale Miners (ASMs) who contribute to more than 75% of the country's mineral production.

Under mineral exploration, the Karamoja airborne survey progressed with phases one and two completed using the gravity, magnetic and radiometric techniques. Phase three data interpretation from the magnetic, radiometric and gravity surveys was at 70% progress. However, the survey was behind schedule having been negatively affected by the insecurity in the Karamoja sub region.

By half year, a total of 1,150 artisanal miners (750 males, 450 females) in the mining areas of Kassanda, Busia, Namayingo and Buhweju were sensitized and registered biometrically representing 28.8% of the target. The progress was slow due to poor funding which affected the procurement of additional biometric information equipment kits. Additionally, a total of 810 miners and mineral license holders were also sensitized.

During the first half of the FY, 174 mineral license applications were reviewed and due diligence was conducted on 43 Mineral Dealer's licence applications. A total of 450 stakeholders were also sensitized on licensing requirements.

The MEMD continued to engage partners for more mineral value addition. In that regard, the MEMD processed applications for mineral beneficiation licenses for goldsmith and mineral smelting. The license holder for Wagagai Gold Mine in Busia was also in the process of setting up a gold processing plant. Requests for proposals for the re-development of Kilembe copper mines have also been received and were under evaluation.

To improve on monitoring of mining activities and quicken mineral sample analysis, two mineral beneficiations regional centres had been established in Fort Portal and Ntungamo districts. However, the first phase for equipping these centers with staff and equipment had slow progress and therefore they were not yet operational. The Terms of Reference were developed and the recruitment process was initiated but was awaiting a No objection from the Public Service Commission. Additionally, land for the centres in Busia and Gulu districts was acquired.

In order to improve tracking of mineral production, six weigh bridges were acquired and the sites for their installation were identified in Sironko, Katakwi and Napak Districts. The geotechnical investigations were undertaken. However, installation works were awaiting conclusion of designs by Ministry of Works and Transport (MoWT) in partnership with MEMD. The MEMD and MoWT need to expedite the finalisation of the weighbridge designs so that weigh bridge construction works can

Executive Summary

commence. Twelve more sites earmarked for weighbridge installations were mapped and the lawful landowners across the country were identified to enable the land acquisition.

Challenges

1. Inadequate funding for the Mineral Development programme hampers essential activities like training, inspection, and equipment acquisition needed to effectively regulate the sector and conduct further minerals exploration.
2. The mining industry remains largely dominated by artisanal miners who operate with low production levels, primarily due to the utilization of unsafe manual and rudimentary mining techniques.

Recommendations

1. The MEMD should prioritize funding to the Mineral Development Programme so that the relevant departments are adequately equipped, staffed, trained and facilitated to undertake further mineral exploration and regulation.
2. The government should concentrate on attracting large-scale mining companies to stimulate increased investment in the sector. This strategy would generate more employment opportunities and boost revenue from the mining industry.

Executive Summary

SUSTAINABLE DEVELOPMENT OF PETROLEUM RESOURCES PROGRAMME

The semi-annual performance evaluation of the Sustainable Development of Petroleum Resources Programme for FY2023/24 indicated a fair outcome. The allocated budget for the program during this fiscal year amounted to Ushs 447.1 billion, of which Ushs 264.7 billion (59.2%) was released, and Ushs 226.8 billion (85.7%) was expended by December 31, 2023. Progress within the three sub-programmes targeting various aspects of the oil and gas value chain was notable, marking advancements toward achieving commercial oil production objectives.

Physical Performance

Upstream Sub-Programme

The Upstream sub-programme exhibited a fair performance. Preparatory oil exploration activities were underway, including data acquisition in the Kyoga basins, marked by sensitization meetings in the region. However, exploration work in the Moroto-Kadam basin faced hindrances due to insecurity in the Karamoja region, prompting engagement between the Ministry of Energy and Mineral Development (MEMD), security agencies, and local leadership to address the issue. Additionally, reconnaissance surveys for speculative companies' studies in explored regions were pending.

The conclusion of the second licensing round aimed to leverage Uganda's petroleum potential, with the Kasuruban and Turaco blocks awarded to Uganda National Oil Company (UNOC) and DGR Global Limited, respectively. MEMD was initiating workshops to launch a licensing strategy for the 3rd licensing round in additional prospective areas.

Efforts toward developing upstream facilities for the first oil production in Tilenga and Kingfisher areas showed promising progress. Civil works for enabling infrastructure, such as industrial area site preparation, access roads, well pads, camps, and construction support bases, were nearing completion. Three drilling rigs (one in Kingfisher and two in Tilenga) were operational, drilling a total of 24 wells (20 in Tilenga and 4 in Kingfisher) by December 31, 2023, in preparation for oil production. Resettlement Action Plans (RAPs) for production areas were at 97%, with 4,868 affected persons compensated and 189 of 201 resettlement houses constructed, indicating substantial progress in resettlement efforts.

Mid-Stream Sub-Programme

The Midstream sub-programme demonstrated a fair performance, with progress across various stages of midstream infrastructure development. In refinery development, the Refinery Project Framework Agreement expired, leading to the project transitioning into a Public Sector-led initiative. Efforts were underway to review agreements by relevant Ministries, supporting the government in seeking a development partner. The government allocated Ushs 97.69 billion for the Refinery equity as part of phased disbursements.

Regarding pipeline development, the East African Crude Oil Pipeline (EACOP) saw completion of the partners' 40% equity contribution, with efforts ongoing to secure a potential partner for debt financing. EACOP's cumulative progress reached 32.2%, with significant milestones such as the delivery of the first batch of pipelines and the completion of the coating plant in Tanga, Tanzania. Resettlement efforts for individuals affected by the EACOP pipeline were nearly complete at 98%, though progress on the product pipeline Resettlement Action Plan (RAP) lagged.

Executive Summary

Promotion of national participation in the oil and gas sector yielded positive outcomes, with 13,819 individuals employed, primarily Ugandans and residents from host communities. The majority of qualified companies were Ugandan, benefitting from contracts worth USD 23.5 million. Efforts were also underway to develop local content regulations to operationalize the Local Content Fund Act, aimed at supporting local firms in the sector.

Down Stream Sub-Programme

The downstream sub-programme displayed a fair performance, marked by significant legislative advancements such as the enactment of the Petroleum Supply Act, granting UNOC the sole mandate to import petroleum products for the country. Furthermore, the finalization of the Oil Marketing company sales and purchase agreement was achieved. However, as of December 31, 2023, UNOC managed to restock only 19.4 million liters (65%) of petroleum products, still falling short of the storage capacity of 30 million liters at the Jinja Storage Terminal (JST).

In regulating the downstream petroleum supply value chain, MEMD and UNBS monitored and inspected 534 fuel retail outlets, reaching 89% of the target in the Western and Eastern regions. Fuel compliance levels were high at 99.3%, with enforcement actions taken against 178 illegal retail facilities, including prosecutions in Masaka district. Additionally, 237 petroleum licenses for new outlets were issued during the period.

However, efforts to promote alternative clean cooking technologies, particularly through the procurement and distribution of Liquefied Petroleum Gas (LPG) cylinder kits to reduce biomass dependency, had not progressed by the end of December 2023. This delay was attributed to the lack of budget allocation to the LPG Supply and Infrastructure Project (project 1610) in the FY 2023/24.

Challenges

1. The sluggish progress in constructing midstream infrastructure poses a significant risk of further delaying the production of Uganda's first oil beyond the projected timeline of 2025.
2. The delayed compensation of project-affected persons associated with some oil sector infrastructure projects not only hampers project advancement but also raises concerns about negative publicity due to prolonged delays and the adverse effects on the livelihoods and social well-being of local communities.

Recommendations

1. The Government and Joint Venture Partners must accelerate the financial closure of the East African Crude Oil Pipeline (EACOP) debt financing by engaging alternative funders promptly. Additionally, the Ministry of Energy and Mineral Development (MEMD) should actively address negative publicity surrounding the project to mitigate any adverse impacts.
2. MEMD should prioritize funding for compensating project-affected persons associated with the product pipeline. Moreover, MEMD needs to enhance monitoring and supervision of the compensation process to ensure fairness and timeliness in addressing the concerns of affected individuals.

Executive Summary

NATURAL RESOURCE, ENVIRONMENT, CLIMATE CHANGE, LAND AND WATER RESOURCES MANAGEMENT (NRECCLWM) PROGRAMME

The approved programme budget for FY 2023/24 excluding arrears amounted to Ushs 426.647bn. By December 31st, 2023, Ushs 212.658 billion (49.8%) had been released, with Ushs 128.764 billion (60.6%) spent. Overall, this represented a fair performance in terms of both release and expenditure. However, poor expenditure was observed under OPM, with Ushs 1.767bn (17.1%) spent, and under NEMA, with Ushs 7.937 billion (38.5%) spent, both percentages relative to their respective releases.

Physical Performance

Environment and Natural Resources Management

Efforts to increase tree cover included establishing 510.2 hectares of commercial tree plantations by the National Forestry Authority (NFA) and other partners, with a 70% survival rate. Notable restorations occurred in various regions, such as 80 hectares in Kibego, 100 hectares in Muhangi, and 200 hectares in Itwara in the Muzizi Range.

Encroachment was addressed by freeing 3,154 hectares and restoring 2,946 hectares of degraded Central Forest Reserves (CFRs). The National Tree Seed Center supplied 863 kilograms of assorted seedlings, contributing to a total of 10,087,237 seedlings supplied nationwide.

Environmental compliance efforts involved inspections, prosecutions, and responses to pollution incidents, with actions taken in wetlands like Ndeija in Rwampala. Initiatives also included the establishment of the National Wetlands Information System and the National Climate Change Information System. Additionally, weather observation and forecasting services provided seasonal forecasts, aerodrome forecasts, METARs, and flight folders, with daily forecasts disseminated to media outlets and maintenance of radar and windshear operations at various stations.

Under Uganda National Meteorological Authority (UNMA), 75 ADCON stations, 32 Manual stations and 67 Rain gauges were maintained to produce weather data. One seasonal climate outlook (September-December) was issued for central, eastern, northern and western regions with advisories to particular climatological zones. 3 radio programs were held in Jinja, Mbale, and Soroti on the seasonal forecast and severe weather alerts. 552 Terminal Aerodrome Forecasts, 68 SIGMETs and 17,664 METARs and 4362 Flight folders issued for Entebbe and Soroti (operating 24hrs); Gulu, Arua, Kasese, Kajjansi, Kabaale, Jinja and Tororo (operating 12hours) Aerodromes. Daily forecasts were disseminated to 3 media houses of UBC TV, Star TV, Bukedde 1 T.V. The draft State of the Climate of Uganda Report 2023 was completed.

Land Administration and Management

Efforts to enhance the capacity of land management institutions, both state and non-state actors, included the review and approval of 26 District Land Board appointments, 15 public sensitization sessions on land matters across 10 districts, and strengthening the role of three traditional institutions in land administration in the Acholi subregion. For land security, 24,467 titles were processed and issued, generating Ushs 36.06 billion in revenue. Version 7.0 of the National Land Information System (NLIS) was developed and released, with 60 users from Management Zone Offices (MZOs) trained on its use.

Executive Summary

Additionally, 6 certificates of title were processed for Ministries, Departments, and Agencies, and 122 court cases were managed. Lease transactions processing yielded Ushs 3.277 billion from lessees nationwide. All 22 MZOs were operated and maintained, facilitating the resolution of 110 land disputes, processing and validating 19 Blue pages in Agago, approving 22,500 deed plans, and surveying and demarcating 30km of the international border between Uganda and Kenya. Furthermore, the Jinja city boundary was surveyed and updated, 8km of national boundaries in Kyaka were affirmed, and 18 topographic maps for Napak and Moroto districts were updated and disseminated. Additionally, 20 surveys and mapping data were rectified across MZOs, and 29,234 property valuations were conducted, with National Valuation Standards and Guidelines developed.

Water Resources Management

In the realm of National Water Quality Monitoring, 265 samples of drinking water and wastewater were collected and analyzed, yielding Ushs 212.85 million in Non-Tax Revenue. Compliance with Drinking Water Standards stood at 58.2% for rural sources and 78.4% for urban piped water systems.

A total of 1,756 water supplies and industries were monitored for adherence to national standards, with 63 permit holders scrutinized for compliance with permit conditions and 33 permit applications assessed and recommended for issuance. Efforts were made to address illegal water abstraction and wastewater discharge, including sensitization campaigns targeting offenders, such as the identification of 20 illegal abstractors in Albert Management Zones.

Water resource monitoring stations were operated and maintained, and restoration initiatives targeted degraded water catchments, resulting in the restoration of 28 hectares of degraded wetlands and 48 kilometers of degraded riverbank buffer zones. Construction activities included 25 small water harvesting structures and 71 kilometers of soil and water management structures.

Challenges

1. Negative interventions in natural resource activities can exacerbate the rate of encroachment and environmental degradation, leading to long-term consequences for ecosystems and communities.
2. Accumulated debts, particularly on certified works that remain unpaid, can escalate due to accruing interest, further straining financial resources and hindering future project implementation.

Recommendations

1. The Ministry of Water and Environment (MWE) must persist in advocating for strong political backing for environmental and natural resource initiatives to effectively combat degradation and address the adverse effects of climate change.

Executive Summary

PRIVATE SECTOR DEVELOPMENT PROGRAMME

Physical Performance

Enabling Environment

The Microfinance Support Centre (MSC) disbursed Ushs 5.42 billion to 271 Emyooga SACCOs as seed capital. Additionally, Ushs 2.193 billion financed 50 client projects, with half allocated to the agriculture sector. Membership of client institutions stood at 1,392,902, with significant representation from women, youth, and persons with disabilities.

Through the Small Business Recovery Fund (SBRF), Ushs 7.945 billion was disbursed to 560 beneficiaries, primarily in real estate and trade/commerce sectors. Despite this, uptake remained low due to limited information and land collateral requirements.

The Uganda National Bureau of Standards (UNBS) conducted 1,648 inspections and surveillance exercises, resulting in 235 product seizures. They developed 142 standards and calibrated 2,354 equipment.

Enterprise Uganda provided Business Development Services (BDS) training to 2,308 PDM beneficiaries, focusing on mindset change and entrepreneurship. Training of trainers and engagement with MSMEs were also conducted. However, the construction of the National Business Development Services Centre (NBDSC) in Butabika was behind schedule with the physical progress at 60%, time progress at 65% and financial progress at 28.31%.

The United States African Development Fund (USADF) extended grants to 13 new farmer organizations, sustaining 25,000 jobs, with a focus on female empowerment. The Uganda Free Zones Authority attracted investments and created jobs, but progress on infrastructure development at Kampala Industrial and Business Park (KIBP)-Namanve faced delays, posing a risk of cost overruns.

Private Sector Institutional and Organizational Capacity

The Competition Bill was passed by Parliament and awaits Presidential assent. Twenty-five MSMEs received training in business plan development, financial literacy, and resource mobilization. Under the Competitiveness and Enterprise Development Project (CEDP), the Meetings, Incentives, Conferences, and Events (MICE) Uganda Bureau was established.

Civil works for the additional 30-room floor at the Uganda Hotel and Tourism Training Institute (UHTTI) Jinja were at 95% completion for phase I, excluding furnishing, while phase II covering training facilities stood at 17.3%. The redevelopment of the Uganda Wildlife Education Centre (UWEC) in Entebbe reached 25% completion, behind the 40.7% targeted time progress. Civil works at the Uganda World Life Research and Training Institute (UWRTI) were at 26%, also behind schedule.

Procurement for refurbishing the Uganda Museum (UM) was at the tendering stage. However, all works started late, risking completion before the loan expiry without an extension.

Challenges

Executive Summary

1. The uptake of funds under the Small Business Recovery Fund (SBRF) showed slight improvement but remained low due to limited awareness.

Recommendations

1. The UIA, UFZA and CEDP should expedite the completion of works to avoid further delays and cost overruns.
2. The BoU and participating financial institution should popularise the SBRF to potential beneficiaries to increase uptake.

Executive Summary

SUSTAINABLE ENERGY DEVELOPMENT PROGRAMME

The approved budget for the programme amounted to Ushs 1,394.13 billion. However, only Ushs 426.52 billion was released by the halfway mark, with an expenditure of Ushs 307.604 billion. Notably, disbursements for externally funded projects were exceptionally low, with only Ushs 74.5 billion (8% of the total externally funded budget of Ushs 922 billion) spent by the halfway point, mainly due to delays in project execution.

Physical Performance

Generation

The Generation sub-programme demonstrated good performance, focusing on completing works at the Karuma Hydropower Plant (HPP) and constructing Nyagak III. Despite some pending works at Karuma HPP, overall progress was at 99.98%, with five out of six generation units commissioned by December 31, 2023, adding 500MW to the generation capacity. Issues with vandalized transmission infrastructure were resolved, and the 400kV Karuma-Kawanda transmission line was restored to service. While works at Nyagak III progressed well, the project's completion target was not met, leading to a revised completion date of June 29, 2024, with civil works at the power house and penstock reaching 95% completion.

Transmission and Distribution

The Transmission and Distribution sub-programme performance was deemed fair in the first half of FY2023/24, facing challenges such as Right of Way (RoW) issues, contractor cash flow problems, and delays in contract management. Despite these challenges, significant milestones were achieved, including the addition of transmission lines like the Gulu-Agago line and the renovation of the vandalized Karuma Interconnection project. However, delays affected other projects like the Gulu-Nebbi-Arua and Kabale-Mirama transmission segments.

The implementation of electricity grid extension projects progressed, with completion of defects liability monitoring in various regions and ongoing works on schemes under the Uganda Electricity Access Project (UREAP) and Energy for Rural Transformation (ERT III). Works on Lot 7 which was intended to connect Bugala Island to the national grid via a marine cable were completed. Testing of the marine cable and commissioning of the newly constructed grid network on the island were ongoing.

Notably, progress was made in bridging the demand-supply balance gap through the accelerated Rural Electrification Project, with significant kilometers of medium and low voltage lines completed along with distribution transformer installations across the country.

Renewable Energy Development

The Renewable Energy Development sub-programme, although fair in performance, faces severe underfunding. Its focus is on promoting new and renewable energy sources, with achievements including the installation of solar drying systems in the Busoga region, identification of sites for institutional biogas systems, and connection of the Busitema solar plant to electricity. However, challenges emerged with works on solar mini-grids in Isingiro and Rakai due to the departure of the previous developer, highlighting ongoing issues within the sub-programme.

Executive Summary

Energy Efficiency and Conservation

The Energy Efficiency and Conservation Sub-programme demonstrated fair performance during the reporting period. Its key interventions focused on promoting the adoption of energy-efficient equipment among industrial and residential consumers. Activities included the collection of preliminary electricity consumption data from both industrial and domestic consumers, alongside a survey to gather information on imported electric appliances to enforce Minimum Energy Performance Standards (MEPS). Furthermore, efforts were made to advance electric mobility by reviewing existing electric vehicle charging standards and formulating specifications to support this initiative.

Challenges

1. Financial constraints among contractors are emerging as a recurring issue within the sector, particularly affecting projects like Kabale-Mirama and Kole-Nebbi-Gulu-Arua, where contractors are experiencing financial strain, impeding progress.
2. Land acquisition challenges persistently delay transmission lines and rural electrification projects, notably affecting the ERT III-line works and sections of the Mirama-Kabale and Nebbi-Arua transmission segment.
3. Additionally, delays in project designs, stemming from insufficient technical investigations during feasibility studies, contribute significantly to project delays.

Recommendations

1. Enhanced due diligence is necessary in the procurement process to ensure that firms with adequate financial capacity are selected for projects before contracts are awarded.
2. Adequate funding for the land acquisition project under MEMD is crucial to initiate early land acquisition, enabling timely project financing negotiations.
3. Program implementing agencies should conduct comprehensive reviews of technical aspects during feasibility studies to anticipate and address design delays caused by unforeseen site conditions, including environmental, geological, and geotechnical factors.

Executive Summary

INTEGRATED TRANSPORT AND INFRASTRUCTURE SERVICES PROGRAMME

Physical Performance

Transport Infrastructure and Services Development

The construct and upgrade climate-proof strategic transport infrastructure intervention by UNRA under the National Roads Construction (NRC) showed poor performance.

While 21 road development projects were being upgraded to paved standards, only 93.68km were achieved out of the annual target of 315km. Some projects, such as Kapchorwa – Suam and Masindi Park Junction – Para-Buliisa, achieved substantial completion, but others like Luweero – Butalangu and Kibuye - Busega – Mpigi faced dismal progress due to delayed land acquisition and payment issues.

UNRA closed the half-year with significant arrears and interest due to delayed payments to service providers. Three bridge structures out of 20 ongoing were substantially completed, but progress on others averaged at 48%, hindered by payment delays, design finalization, and Right of Way acquisition issues.

Transport Regulation

The Transport Regulation Sub-programme had a fair performance (66%), with notable achievements in motor vehicle inspections, international accreditation, licensing of driving schools, road accident investigations, safety campaigns, and issuance of driving permits by the Ministry of Works and Transport (MoWT).

Land Use and Transport Planning

The Land Use and Transport Planning Sub-programme achieved a fair performance, which consequently impacted the targets of the Transport Infrastructure and Services Development Sub-programme. The Uganda National Roads Authority (UNRA) acquired the right of way for 71 projects, including road upgrades, rehabilitation, bridges, ferries/landing sites, and weigh stations, covering 27.3% of the annual target of 1,320.5 hectares. A total of 2,881 Project Affected Persons (PAPs) were compensated. The Ministry of Works and Transport acquired 51.6% (161.074 acres) of the planned 312 acres for the Right of Way for the Standard Gauge Railway.

Transport Asset Management

National roads rehabilitation by UNRA had a poor performance (37%), with only 30km rehabilitated against a target of 163km.

Rehabilitation of district roads using low-cost sealing technology had fair performance (67%), while the Community Roads Improvement Project (CRIP) had good performance (74%), both impacted by low disbursements.

Maintenance of national roads had good performance (70.8% for force account and 77% for contracts), but maintenance of District, Urban, and Community Access Roads (DUCAR) by LGs performed poorly (39.2%) due to various challenges.

Executive Summary

Construction of Bridges on the DUCAR network performed poorly (46%) due to insufficient funds, delays, and adverse weather conditions. In Western Uganda, three cable bridges in remote locations were largely finished, but several other bridge projects were still in progress and experiencing delays. The completed bridges are named Isandalla-Nyamitooma, Kisenyi-Kyangabukama, and Katookye.

Strict enforcement of axle load control by UNRA led to a 3.4% overload on national roads, meeting the target of 4%.

Challenges

1. Inadequate disbursement to implementing agencies, particularly the Ministry of Works and Transport and the Uganda National Roads Authority, has resulted in arrears and interest accruing on delayed payments to service providers.
2. Regional Mechanical Workshops, crucial for major equipment maintenance in Local Governments, suffer from underfunding despite their essential role.
3. Municipalities and newly created cities face a shortage of road maintenance equipment, hindering their ability to upkeep infrastructure.
4. Delayed disbursement of funds to force account implementing units exacerbates operational challenges and hampers timely execution of projects.

Recommendations

1. Implementing agencies must prioritize the settlement of arrears to service providers to mitigate the accumulation of debt and interest.
2. The Ministry of Works and Transport (MoWT), in collaboration with the Programme Working Group and the Ministry of Finance, Planning and Economic Development (MFPED), should augment funding allocations to the Regional Mechanical Workshops, guaranteeing they are adequately equipped to fulfill their critical maintenance responsibilities.

Executive Summary

SUSTAINABLE URBANIZATION AND HOUSING PROGRAMME

The programme revised budget for the FY 2023/24 amounted to Ushs 550.659 billion, with Ushs 65.605 billion funded by the Government of Uganda (GoU) and Ushs 485.055 billion funded externally. By the end of December 31st, 2023, Ushs 309.079 billion had been released to the program, equivalent to 58.9% of the budget, and Ushs 284.541 billion had been spent, reflecting an absorption rate of 92.1%.

Physical Performance

Physical Planning and Urbanization

As of December 31st, 2023, significant strides were made in various aspects of physical planning and land use compliance across multiple districts in Uganda. Physical planning guidelines and standards were effectively disseminated in 20 districts, spanning all regions from Mbale to Kabale. Moreover, the State of Land Use Compliance report for 2022 was successfully finalized, providing valuable insights into the current status of land use across the country.

In parallel efforts, the Land Use regulatory framework reached 16 Local Governments, including districts such as Mbale, Soroti, and Gulu, among others. Supervision and monitoring of the framework's implementation were diligently carried out in these districts. Additionally, a draft training manual for the inspection of land use compliance was developed, reflecting a commitment to enhancing enforcement capabilities.

Furthermore, attention was directed towards specific development plans, with monitoring and evaluation efforts focused on the Albertine physical development plan and Northern economic corridor plan in districts like Hoima, Kikuube, and Buliisa. Amendments to the Physical Planning Act 2010 were disseminated in Namisindwa, Manafwa, and Tororo districts, underscoring efforts to adapt legislative frameworks to evolving needs.

In urban settings, the National Urban Sector report found its way to 11 Urban Councils, including municipalities like Mukono and Wakiso, as well as municipalities such as Mpigi and Busia. Additionally, political leaders were sensitized on the importance of physical planning in municipalities like Iganga, Busia, and Kaphchorwa, fostering a deeper understanding of the complexities involved.

Lastly, public awareness campaigns aimed at highlighting the necessity of regulating land use were conducted in the 22 Urban Development Initiative for Municipal Infrastructure Development (USMID) implementing Municipal Local Governments, reinforcing the importance of community engagement in shaping sustainable urban development strategies.

Housing Development

Progress was made in various aspects of real estate legislation and promotion in Uganda. The draft Real Estate bill underwent internal review after submission to the First Parliamentary Council, signaling the beginning of stakeholder engagements to gather input and feedback. Furthermore, efforts to monitor and promote Condominium Property law and regulations were undertaken in Kotido and Moroto municipalities, aiming to ensure compliance and awareness in these areas.

Executive Summary

Additionally, in Moroto District, a housing needs assessment was conducted to inform future housing developments, demonstrating a commitment to addressing housing challenges in the region. Notably, an amount of Ushs. 1.285 billion in Non-Tax Revenue (NTR) was successfully collected and accounted for, reflecting efficient financial management practices in support of real estate initiatives.

Challenges

1. Procurement delays are occurring due to reported challenges in the timely submission of invoices from suppliers.
2. The implementation of the Electronic Government Procurement (eGP) system across government entities is facing delays, primarily due to system challenges. These obstacles underscore the need for comprehensive system testing and troubleshooting to address technical issues and expedite the adoption of the EGP system effectively.
3. Lengthy approval processes for activities under the Community Empowerment and Development Project (CEDP) are causing delays in project execution.

Recommendations

1. To mitigate delays and ensure efficient service delivery, it is imperative to expedite procurement processes. Swift action in procurement not only prevents project delays but also enhances the overall effectiveness of service delivery.

Executive Summary

DIGITAL TRANSFORMATION PROGRAMME

The approved budget for the Digital Transformation programme for the financial year 2023/24 was initially Ushs 243.32 billion, which was later revised upwards to Ushs 294.41 billion. Of this amount, Ushs 118.67 billion (48.8%) was released, and by December 31st, 2023, Ushs 98.09 billion (82.7% of the release) had been spent. Overall, the release and expenditure performance were deemed good.

However, the National Information Technology Authority - Uganda (NITA-U) had the lowest budget release, with only 17.7% of the total vote budget released. This was due to external funds under the Uganda Digital Acceleration Project (UDAP) not being released, pending effective disbursement approval from the World Bank.

Physical Performance

Enabling Environment

The MoICT&NG supported the development of several policies including Business Process Outsourcing (BPO), Communications, and National Guidance Policies. Additionally, equipment procurement for upgrading three transmission sites in Western Uganda was conducted to enhance redundancy and program stream provision.

NITA-U certified eighty-two new IT service providers and audited seven entities. Two standards were reviewed and submitted for approval to the national technical standards committee. The Uganda Institute of Information and Communications Technology (UICT) established an innovator coaching scheme in collaboration with industry experts and innovators affiliated with the National ICT Innovation Hub. This scheme aims to support students involved in research and innovation activities.

Research, Innovation and ICT Skills Development

The MoICT&NG reviewed Intellectual Property (IP) guidelines to align them with international standards and engaged key stakeholders in the review process. They initiated the compilation of an inventory of existing Business Process Outsourcing (BPO) international standards and best practices, along with a capacity skills gap report based on previous studies of the BPO industry in Uganda.

Progress was made in upgrading the Open Distance and e-Learning (ODEL) support system, reaching 40% completion, with detailed Terms of Reference (TORs) developed for procuring support expertise. An ICT Research and Innovation Ecosystem Monitoring and Evaluation Framework reached 80% progress. Two ICT/Engineering Hackathon programs were organized, resulting in the development of an animal tag prototype submitted for pre-incubation and commercialization. Eight applied research and innovation publications were generated, and 30 private innovators were hosted at the National ICT Innovation Hub. However, uptake of the meeting app "CAUCUS" remained low, primarily used by the Uganda Institute of Information and Communications Technology (UICT).

E-services

By December 31st, 2023, project implementation plans for e-waste management were developed, and a policy review on e-waste extended producer responsibility was initiated. Terms of Reference (ToRs) for additional modules on the Parish Development Model Information System (PDMIS) were

Executive Summary

developed, with four existing modules supported. Integration Application Interfaces (APIs) for PDMIS were developed, and PDM SACCO data was uploaded onto the system.

The Unified Messaging and Collaboration System (UMCS) was expanded to seven more Government entities, totalling 145 entities with 26,034 active users. A feasibility study report for a BPO and software development hub at Kampala Industrial and Business Park, Namanve, was presented. Nine entities were onboarded onto the Whole-of-Government integration and data sharing platform, totalling 126 entities. Additionally, two new websites were developed, and five were revamped. Twenty-five Computer Emergency Response Teams (CERT) advisories were issued to enhance cyber-attack defense. BSMART Technology Limited was onboarded to develop an IT/BPO park in Entebbe under a Public-Private Partnership (PPP), with bid evaluation initiated for the identified investor.

ICT Infrastructure

During the review period, draft standards for delivering e-services through Postal outlets were developed, and a draft information paper on the National Broadband Policy's implementation status was prepared. A final project concept was developed for the Interconnection and Digitization Programme for Persons with Disabilities (PWDs). An assessment of the Information and Communications Bill 2022 was conducted, with provisions established for developing regulations with input from relevant stakeholders.

The National Backbone Infrastructure (NBI) provided internet access to fifteen sites, including Entebbe International Airport, Speke Resort Munyonyo, and Uganda Airlines. Twenty-three new systems were hosted at the National Data Centre, and 20 Wi-Fi sites were maintained.

Surveys for relocating ten Optical Fibre Cables (OFC) were conducted to prevent damage due to road construction works. However, planned activities for extending ICT infrastructure countrywide and under the UDAP project were not executed due to the lack of released funds.

Challenges

1. Delayed funding for the Uganda Digital Acceleration Project (UDAP) which impacted the establishment of ICT infrastructure;
2. Insufficient staffing levels at both the National Information Technology Authority - Uganda (NITA-U) and the Uganda Institute of Information and Communications Technology (UICT); and
3. Furthermore, there is limited funding for research and innovation, and inadequate infrastructure to support specialized ICT training.

Recommendations

1. NITA-U should finalize the requirements for external financing to expedite the release of funds for infrastructure development under the Uganda Digital Acceleration Project (UDAP); and
2. Furthermore, the MoICT&NG should provide support to the UICT to establish necessary infrastructure, including lecture rooms and equipment, to facilitate specialized ICT training.

Executive Summary

HUMAN CAPITAL DEVELOPMENT PROGRAMME

Physical Performance

Education, Sports, and Skills Development

By December 31st, 2023, all 115 seed school sites were handed over to contractors, and construction commenced at most sites, progressing at various levels.

Renovation and upgrading of Mandela National Stadium-Namboole reached 75%, with the boundary wall completed.

The Education Service Commission (ESC) managed to recruit 347 individuals (208 males and 139 females) on a replacement basis.

The implementation of the LSC continued, with the first cohort of learners now in S.4 for the Academic Year 2024. The Uganda National Examination Board (UNEB) developed and pre-tested Continuous Assessment (CA) tools, which were being rolled out to teachers nationwide. In addition, distribution of educational materials for the Lower Secondary Curriculum (LSC) was finalized.

The rollout of TELA persisted, with the Directorate of Education Standards (DES) supporting over 3,000 schools and institutions across the country.

UNEB successfully conducted various examinations including the 2023 Primary Leaving Examinations (PLE), Uganda Certificate of Education (UCE), and Uganda Advanced Certificate of Education (UACE). Additionally, the Uganda Business and Technical Examinations Board (UBTEB) and the Nurses and Midwives Examination Board (UNMEB) conducted examinations and upgraded their examination systems.

Construction progress updates for various university projects are as follows:

- a) **Muni University:** The Multi-Purpose Health Science Laboratory Building reached 46% completion, while the Administration Block Annex reached 36%.
- b) **Makerere University:** Construction and restoration of the Main Administration Building reached 40% civil works progress, below the planned 60% progress. Construction of the School of Law Building and the perimeter fence each reached 95% completion, while renovation of Lumumba Hall reached 70%.
- c) **Lira University:** Construction progress for the Main Administration block reached 37%, and the Medical intern residence was completed and awaiting handover.
- d) **Mbarara University:** Civil works for the Faculty of Computing and Informatics (FCI) phase II at Kihumulo campus progressed to 95%. However, outstanding certificates of Ug shs 5.3 bn are pending.

Progress was made in establishing the National Institute of Teacher Education (UNITE), with the MoES developing strategic and master plans, policies, and curriculum frameworks.

The Research and Innovation Fund was extended to all public universities to enhance their research capacity and contribute to national development.

Executive Summary

Labor and Employment Services

Overall, the sub-programme's performance was deemed fair. Efforts were made to mitigate workplace injuries, accidents, and health hazards, including accident investigations, workplace registrations, and surveillance visits. However, the establishment of regional Occupational Safety and Health (OSH) management centers and an analytical laboratory was hindered by inadequate funds.

To establish a functional labor market, the sub-programme conducted workplace inspections, sensitized stakeholders on labor standards, and continued developing the Labor Market Information system. Collaboration with universities for graduate placement, internships, and apprenticeships was ongoing. Additionally, technical support supervision on labor laws and standards was provided to employers and employees in various districts.

In efforts to increase decent and productive employment, pre-departure training companies were accredited, and labor attaches were deployed to Saudi Arabia. Several labor complaints were registered and settled, and technical support supervision on Green Skills was provided to Small and Medium Enterprises across different local governments.

Population Health, Safety and Management

Progress updates on various healthcare and infrastructure projects are as follows:

- a) Infrastructure Development: Progress on staff houses at various hospitals including Mulago National Referral Hospital, Arua, Masaka, and Mbarara ranged from 38% to 70%. However, construction of the theater and oxygen plant at Kapchorwa General Hospital lagged behind with only 65% of targets achieved.
- b) Health Facilities: Construction progress varied across different health facilities. Some, like Busolwe General Hospital, reported 65% overall progress, while others, such as Gombe Hospital, completed staff houses but faced challenges with water supply. Renovation of old staff quarters resumed at 20%, and the upgrade of Health Centre IIs to Health Centre IIIs saw 239 out of 340 completed.
- c) Blood Transfusion Services: Despite recruiting over 184,000 blood donors and collecting 85,486 units of blood, blood transfusion facilities experienced stockouts of blood components at 83% of facilities due to ineffective collection mechanisms.
- d) Regional Centers of Excellence: Satellite regional centers for dialysis service provision were established in Lira, Mbale, Mbarara, and Hoima, reducing congestion at the National Referral Hospital. Construction of auxiliary buildings at the Uganda Cancer Institute and establishment of a modern Heart facility in Naguru were also progressing.
- e) Immunization: Immunization coverage for DPT-3 reached 90%, while measles-rubella and yellow fever campaigns achieved 93.8% and 71% coverage, respectively.
- f) Malaria, HIV/AIDS, TB Response: Procurement and distribution of mosquito nets and access to quality malaria treatment were reported. ART virally suppressed achieved 94% against a 95% target. Capacity building and mentorship programs for health workers in TB/Leprosy prevention were conducted.
- g) Availability of Essential Medicines: Overall availability of essential medicines and health supplies was estimated at 30%, attributed to delayed access to operational funds for distribution.

Gender and Social Protection

Executive Summary

Social protection initiatives were prioritized to expand the scope and coverage of care, support, and services for vulnerable groups and disaster-prone communities, aiming to empower them to meet their basic needs. Programs like the Social Assistance Grant for Empowerment (SAGE) and the Special Grant for People with Disabilities (PWDs) provided grants to vulnerable individuals.

Under SAGE, payments were made in 78 out of 136 districts, with a disbursement rate exceeding 100% due to arrears from previous quarters. Similarly, the Special Grant for PWDs allocated funds to 765 PWDs enterprises, benefiting over 4,000 individuals across various local governments.

Efforts were made to improve the welfare of children in conflict with the law, with provisions of food and non-food items in remand homes and rehabilitation centers. Additionally, street children were reintegrated into families and communities.

The Gender Based Violence (GBV) prevention and response system was strengthened, providing support to over 2,800 GBV victims, with operational helplines across the country.

Gender and equity certification and capacity building programs were implemented, resulting in improved compliance scores and performance by programs and MDAs in addressing gender and equity issues, along with better collection of gender-disaggregated data.

Challenges

1. **Inadequate Staffing in Education Sector:** The education sector, particularly public universities, faced staffing shortages due to insufficient allocation in the wage bill and an impending ban on new staff recruitment.
2. **Lengthy Administrative Protocols:** Administrative protocols and procedures, particularly within the Ministry of Education and Sports, were noted to be prolonged. This delay hindered the execution of externally funded projects such as the OPEC Fund for International Development (OFID) projects.
3. **Weak Institutional Coordination:** Within the education sector, there was observed weak institutional coordination. This lack of effective coordination led to inefficiencies and duplication of efforts, highlighting the need for improved coordination mechanisms.
4. **Delays in issuance of approvals or no objections from external funders such as World Bank.**
5. **Increasing number of children committing crimes and weak enforcement of existing laws to stamp out street begging.**

Recommendations

1. Ministry of Education and Sports should strengthen institutional capacity to enhance coordination within the education sector in Uganda;
2. The MGLSD should prioritize the sensitization of parents regarding their parenting roles; and
3. The MGLSD should accelerate the implementation of a national program focused on potential and vulnerable districts or communities. This program should integrate existing initiatives to effectively address factors that contribute to vulnerable situations.

Executive Summary

INNOVATION, TECHNOLOGY DEVELOPMENT AND TRANSFER PROGRAMME

The programme showed fair overall performance, with most activities successfully implemented. The approved budget for the ITDT Programme was initially Ushs 256.656 billion, later revised upwards to Ushs 456.616 billion. A significant portion of the budget, Ushs 229.121 billion (89.3%), was released, with Ushs 126.892 billion (55.4%) spent by December 31st, 2023. While the release of funds was commendable, expenditure was fair. Despite having the largest share of the annual budget (94%), Vote 167: Science, Technology and Innovation had the lowest absorption rate.

Physical Performance

Industrial Value Chain Development

The sub-programme focuses on enhancing the development, transfer, and adoption of appropriate technologies and innovations, along with building STI infrastructure. In the first half of FY 2023/24:

- a) A pilot study on Novel Adeno-vector vaccines showed promising safety results, with ongoing optimization of immuno-assays to gauge immune responses.
- b) The INVONAT program conducted sterility tests on samples, with 10 out of 16 passing, while cytotoxicity tests identified six products as toxic and unfit for efficacy studies.
- c) Preclinical evaluation of antidiabetic herbal prototypes (GLUCOKAT) at Busitema University progressed to optimizing plant combinations.
- d) Plans were underway to establish Good Manufacturing Practice (GMP) facilities at Uganda Virus Research Institute and Good Laboratory Practices (GLP) facilities at Busitema University.
- e) Sixty-five grantees received funding support, albeit delayed due to bureaucratic processes.
- f) Engineers were trained in Egypt to support Uganda's space science program, and a study on the aerospace industry was completed.
- g) Efforts to build capacity for the fourth industrial revolution were underway in collaboration with regional universities.
- h) Progress was reported in the coffee value chain analysis, construction of coffee processing facilities, and development of secondary hubs for coffee aggregation.
- i) The Kiira Vehicle Plant construction and bus assembly were ongoing, with training provided for e-bus operators.
- j) Construction of the National Science, Technology, Engineering, and Innovation Centre (NSTEIC) and Technology Innovation and Business Incubation Centre (TIBIC) was nearing completion, with equipment installation ongoing.
- k) Curriculum and operational guidelines were developed for NSTEIC and TIBIC, though resources for operations and maintenance were not earmarked.

STI Ecosystem Development

A Think Tank on Aeronautics and Space Science was established, alongside the initiation of a concept to study Uganda's ecosystem.

To facilitate skill development, Uganda National Council of Science and Technology (UNCST) recruited 25 Training of Trainers (ToTs) personnel for a 3-month training program in China.

Procurement of hardware infrastructure for NSTEIC and TIBIC progressed at different stages.

Executive Summary

Approval was obtained for a masterplan for an automotive park in Kayunga, and land identification for an STI park in Nakasongola, with ongoing development of park design.

Challenges

1. Procurement delays for equipment for NSTEIC and TIBIC hindered project completion.
2. Delays in authorizing fund use by grantees by the STI is causing demoralization among researchers and this delayed project implementation.
3. Absence of a Good Manufacturing Practice (GMP) facility impacted the completion of certain studies.
4. The STI took on numerous grantees despite inadequate resources, thereby limiting the funding available for some projects to achieve their intended objectives.

Recommendations

1. The STI Secretariat should accelerate the establishment of a central Good Manufacturing Practice (GMP) facility at a collaborating institution to ensure research objectives are met.
2. Timely authorization of grantees to undertake spending in a bid to facilitate the timely achievement of objectives.
3. The Uganda National Council of Science and Technology (UNCST) should expedite the procurement of necessary equipment and hardware for the NSTEI project and prioritize operation and maintenance of project outputs.
4. The STI Secretariat should review the supported portfolio, considering phasing, postponing, or terminating some studies due to fiscal limitations.

Executive Summary

PUBLIC SECTOR TRANSFORMATION PROGRAMME

The budget allocation for the Public Sector Transformation in FY2023/24 encompassed four sub-programmes, totaling Ushs 228.653 billion. Of this amount, Ushs 117.499 billion (51.4%) was released, and by December 31, 2023, Ushs 97.692 billion (83.1%) had been expended. This expenditure and release ratio were deemed fair, reflecting satisfactory absorption and utilization rates within the stipulated timeframe.

Physical Performance

Strengthening accountability for results across Government

The overall performance of the Public Sector Transformation initiatives in FY2023/24 was deemed fair, with two out of four interventions demonstrating fair performance. The Ministry of Public Service (MoPS) played a pivotal role in supporting the implementation of client charters and feedback mechanisms across various Ministries, Departments, and Agencies (MDAs) as well as Local Governments (LGs). However, the implementation of client charters in LGs remained minimal, lacking clear feedback mechanisms.

Efforts were made to develop and implement Service Delivery Standards (SDS) in MDAs and LGs, resulting in improved service delivery, enhanced accountability, and increased citizen satisfaction. The distribution of Costed Service Delivery Standards to local governments notably contributed to these positive outcomes.

The application of the Pearl of Africa Institutional Performance Assessment Scorecard (PAIPAS) aimed to promote responsiveness, transparency, and accountability in service delivery while fostering healthy competition between institutions. However, the application of PAIPAS fell short of the planned targets, with administrations in only three MDAs and 27 LGs.

The dissemination of results from the National Service Delivery Survey (NSDS) in selected District Local Governments (DLGs) facilitated informed decision-making and policy formulation. Meanwhile, the Inspectorate of Government (IG) worked on enforcing compliance with rules and regulations, concluding investigations into breaches of the leadership code and making recommendations for corrective actions.

Refresher training in performance management conducted by the Ministry of Public Service targeted all headquarter staff in MDAs and LGs, aiming to enhance performance and compliance with performance management initiatives.

Government Staffing Structures and Systems

The Government Staffing Structures and Systems Sub-programme saw comprehensive restructuring efforts in various MDAs (4 Ministries and 8 Agencies), aimed at optimizing staffing structures and improving efficiency. Additionally, staffing structures for seven Ministries, Departments, and Agencies (MDAs) underwent review and development for implementation. These included the Aircraft Accident and Incident Investigations Unit, Civil Aviation Appeals Tribunal, The East African Civil Aviation Academy – Soroti, Hoima School of Nursing and Midwifery, Markets' Structure for KCCA, and a draft report on the comprehensive restructuring of MoIA. Additionally, the process to restructure 23 Core Primary Teachers College began during the period under review.

Executive Summary

Furthermore, the uploading of approved structures and staff establishment data on the Integrated Personnel and Payroll System (IPPS) and Human Capital Management (HCM) platforms contributed to improved salary payment processes and enhanced organizational management. Despite challenges and areas of improvement, these initiatives collectively contributed to advancing public sector transformation objectives during the fiscal year.

Strategic Human Resource Management

Early life support was provided to 160 sites, focusing on payroll processing, module functionalities, data capture, and alignment, with weekly online webinars offering support and refresher training on Human Capital Management (HCM). Although 140 out of the 160 sites were migrated to HCM, challenges persist, such as some positions not being on the HCM structure and certain staff, particularly primary teachers, encountering difficulties accessing HCM due to payroll audit findings.

Despite support and supervision from the Ministry of Public Service (MoPS) to Local Governments, irregularities persist in payroll management across MDAs and LGs, including payments made using incorrect salary scales, potentially resulting in significant financial losses for the government. Recoveries on overpayments remain minimal in LGs.

Regarding salary arrears, pension, and gratuity, the Ministry of Finance released Ushs 10,665,507,282 and Ushs 49,244,808,134 respectively for FY 2023/24 for MDAs and LGs. While most LGs disbursed both salary arrears and gratuity, a few faced challenges in fund accountability due to beneficiaries not submitting bank details. Only a portion of the released funds was accounted for by select LGs, including Kabarole, Kapchorwa, Kyegegwa, and Lyantonde, with discrepancies noted in the allocation of funds to some districts.

Decentralization and Local Economic Development

Under the Parish Development Model (PDM), the majority of Local Governments and Cities successfully recruited Parish Chiefs, Principal Town Agents, and Parish Development Committees (PDCs), all of which are fully operational. Additionally, the formation of Enterprise groups and Parish Development Model Savings and Credit Cooperative Organizations (SACCOs) was completed in most LGs, with funds subsequently released to the respective Enterprise groups.

In terms of fiscal decentralization and self-reliance capacity building, there was a thorough scrutiny and evaluation of the Grants Allocation Formula, along with the seven program conditional grants, in alignment with sector policies. However, there remains a lack of clear planned outputs and targets in this area, warranting further attention and development for effective implementation.

Business Process Re-engineering and Information Management

The MoPS conducted a comprehensive sensitization program for 374 Senior and Middle Managers, including Permanent Secretaries, Executive Directors, Chief Administrative Officers (CAOs), and Town Clerks. The focus was on the establishment and operationalization of Service Uganda Centres.

Following these efforts, Service Uganda Centres have been successfully established and operationalized. Specifically, Regional Service Uganda Centres in Hoima and Kasese were

Executive Summary

established, launched, and are now fully operational under the guidance of the Ministry of Public Service (MoPS).

Challenges

1. Despite efforts, payroll irregularities persist in Local Governments (LGs), particularly concerning incorrect payments and delays in removing staff who have retired or passed away, especially within the health and education sectors. Irregular recruitments, particularly in primary and secondary schools, exacerbate these challenges.
2. Challenges in the rollout of Human Capital Management (HCM) system persist, with instances of staff being dropped from the system due to the lack of staffing structures, particularly evident in the health and education sectors.
3. The freeze on recruitments in LGs has adversely impacted service delivery at the District, City, and Municipal levels. Given an average staffing level at the district level of 57%, this freeze hampers effective operations and service provision.
4. The Ministry of Public Service (MoPS) has not conducted clear assessments on systems and policies to be reengineered or updated within the public sector, contributing to ongoing challenges and inefficiencies.
5. Political conflicts in certain LGs have resulted in delays in nominating members to District Service Commissions (DSCs), disrupting service delivery and hindering the implementation of recruitment plans and effective payroll management. Notable examples in LGs include Mukono, Masindi, Kikuube, and Nakasongola.

Recommendations

1. The MoPS and the MoFPED need to prioritize the swift rollout of Human Capital Management (HCM) systems to address persistent payroll irregularities within Government.
2. MoPS and the MoLG should establish a structured process for regular data verification and validation, ensuring alignment between staffing structures in the HCM system and actual staffing needs in the health and education sectors. This process may involve periodic audits and cross-referencing with official records to maintain accuracy.
3. MoPS should conduct a comprehensive review of strategic critical positions crucial for sustaining and enhancing service delivery at the District, City, and Municipal levels. Additionally, MoPS should conduct a mapping exercise of existing systems and HR policies, culminating in a clear report outlining recommendations for reengineered systems and updated policies.
4. The Ministry of Local Government should intervene in political disputes among district Local Governments that impede the nomination of District Service Commissions (DSCs). Such interventions are crucial for mitigating conflicts and ensuring uninterrupted service delivery.

Executive Summary

COMMUNITY MOBILISATION AND MINDSET CHANGE PROGRAMME

The programme budget for FY 2023/24 amounted to Ushs 36.264 billion of which Ushs 22.715 billion (61.6%) was released and Ushs 18.072 billion (79.2%) was spent by 31st December, 2023.

Physical Performance

Community Sensitization and Empowerment

The implementation of the 15 Household model for social-economic empowerment saw success in several areas, including organizing engagements like the Multi-Sectoral Nutrition Coordination Committee and developing learning programs for Community Learning Centers. The Jobs and Livelihood Refugee Integrated Plan positively impacted income levels in refugee settlements. However, budget constraints hindered the completion of tasks such as mapping NGOs and conducting bi-annual coordination meetings.

The comprehensive community mobilization strategy was reviewed and its implementation commenced aimed to enhance capacity building, technical support, and the dissemination of manuals and policies. While limited resources affected the capacity building initiative, successful technical support and monitoring were conducted in numerous local governments. Manuals and policies were developed and disseminated effectively.

A program to promote household engagement in culture and creative industries targeted various local governments. Monitoring and support were largely successful, as were mentoring efforts and the provision of monthly emoluments to cultural leaders. Studies and reports on strengthening cultural industries were undertaken, albeit with minor gaps in implementation.

Strengthening Institutional Support

The initiative aimed to strengthen Community Mobilization and Empowerment (CME) institutions involving central, local government, and non-state actors to facilitate integrated service delivery. Five sets of top management reports were prepared out of 12 and quarterly political monitoring was conducted for several programs including SAGE, National Special Grant for Persons with Disabilities, Joint UWEP/YLP programs, and Green Jobs programs.

The involvement of cultural, religious, and other non-state actors in community development initiatives was institutionalized. Communication and public relations services included various activities such as newspaper supplements, TV talk shows, radio talk shows, newspaper features, banners, infomercials, and social media campaigns.

Civic Education and Mindset Change

The sub programme aimed to promote household engagement in culture and creative industries for income generation. Planned outputs included finalizing and operationalizing the EOC Communications Strategy, addressing issues like sectarianism and marginalization, conducting awareness campaigns against harmful practices, developing systems for ethical standards, and promoting advocacy for community development.

Executive Summary

While the EOC Communications Strategy was not fully achieved, emergency responses to various issues were successfully conducted, along with numerous radio and TV talk shows and the dissemination of promotional materials. Financial support was provided to National Cultural Centers and Traditional Institutions, and monthly emoluments were enhanced to mobilize communities for development.

Efforts to enforce laws against harmful practices included supporting cultural institutions and conducting mass media campaigns. Public education and awareness campaigns were conducted in a portion of planned local governments, focusing on strengthening District Integrity Promotion Forums.

Additionally, a draft communication strategy for the Uganda Registration Service Bureau was developed, and mass media campaigns on marriages and intellectual property were carried out to raise awareness among citizens.

Challenges

Lack of a comprehensive needs assessment at both the central and local government levels led to disjointed planning and budgeting under the institutional strengthening sub-programme. This resulted in challenges in effectively determining the capacity requirements for institutions and organizations. Without a clear understanding of the needs, planning and budgeting efforts were not aligned, leading to inefficiencies and potentially ineffective allocation of resources.

Recommendations

The MoGLSD should carry out a thorough needs assessment at both the central and local government levels. This assessment will serve as a basis for capacity planning regarding the strengthening of institutions and organizations under the sub-programme. By conducting this comprehensive assessment, the MoGLSD can better understand the specific needs and requirements, thereby enabling more effective planning and allocation of resources to enhance institutional and organizational capacities.

Part 2: Overview of Expenditure Performance

2.1 Overall Fiscal Operations

FISCAL PERFORMANCE REPORT FY 2023/24

Overview

FY 2023/24 is the fourth year of implementation of the third National Development Plan (NDP III). It also marks the third year of the country's fiscal policy being underpinned by the Charter for Fiscal Responsibility (FY 2021/22-2025/26). The fiscal policy strategy for this financial year is to promote inclusive growth to increase household incomes and improve quality of life of Ugandans without compromising fiscal and debt sustainability. This will entail implementation of Domestic Revenue Mobilization Strategy (DRMS) to reduce the share of the budget that is financed through borrowing. The fiscal objectives stipulated in the charter over the medium term include a fiscal deficit including grants of no greater than 3 percent of GDP by FY 2025/26, and to maintain a gross public debt in net present value terms below 50 percent of GDP.

The FY 2023/24 budget was under the theme “*Full Monetization of the Ugandan Economy through Commercial Agriculture, Industrialization, Expanding and Broadening Services, Digital Transformation and Market Access*” which emphasised policy interventions to urgently complete key public investments with higher multiplier effects on the attainment of NDPIII targets and the NRM 2021 – 2026 Manifesto, enhanced revenue mobilization and collections and well as enhanced government efficiency and effectiveness through rationalization of public expenditure, payroll audit. This was to be done through the implementation of the Parish Development Model and emyooga initiative to bolster household incomes and micro-enterprises. Additionally, it encompassed support for agricultural research and farmer mobilization, as well as the introduction of large-scale mechanization to commercialize agriculture, thereby boosting production and productivity while enhancing the competitiveness of agricultural products. The plan also included the development of industrial parks, promotion of Small and Medium Enterprises (SMEs), and facilitation of tourism to foster private sector growth. Furthermore, efforts were directed towards improving access to healthcare and increasing national water coverage to ensure safe and clean water for human consumption, reflecting an investment in the well-being of the people of Uganda. Lastly, there was a focus on improving the stock and quality of infrastructure and expediting the implementation of strategic interventions in innovation, research, and development, including initiatives within the minerals, oil, and gas industry.

The planned overall fiscal deficit for the first half of FY 2023/24 was Ushs 3,901.92 billion. However, the overall deficit turned out to be Ushs 4,333.11 billion. The higher than anticipated fiscal deficit was mainly on account of shortfalls in revenues and grants coupled with the higher than planned recurrent and domestically financed development expenditure.

Revenue and grants

Revenues and grants in FY 2023/24 amounted to Ushs 13,964.68 billion, which was a performance of 87.0% of the annual budget of Ushs 15,964.11 billion. Domestic revenue collections were Ushs 13,301.55 billion, lower than the budget target of Ushs 14,169.46 billion.

The performance of domestic revenue during the half year led to a shortfall of Ushs 867.91 billion. Of which tax revenues registered a shortfall of Ushs 813.52 billion while NTR (collected by both URA and other MDAs) registered a shortfall of Ushs 54.39 billion. In spite of the shortfalls, total domestic revenue collections during

Part 2: Overview of Expenditure Performance

the first half of FY 2023/24 represented a growth of 12.9% compared to the same period of last financial year. This is higher than the average growth of 10% registered for the last four Financial Years.

Total development assistance received by Government in form of grants amounted to Ushs 584.13 billion against the projected Ushs 1,794.65 billion. All the funding received was either for specific projects or tied to supporting particular initiatives. The performance of project support grants was at 33.1%, mainly because of low absorption of project funds because of some projects not being ready for execution.

Table 1 below portrays the details of fiscal operations in the first half of FY 2023/24:

Tax revenue

During the first half of FY 2023/24, tax revenue collections amounted to Ushs 12,328.63 billion against a target of Ushs 13,142.15 billion, translating into a shortfall of Ushs 813.52 billion mainly due to below par performance of taxes on international trade transactions and indirect domestic taxes.

Part 2: Overview of Expenditure Performance

In comparison with the set target of Ushs. 4,591.67 billion, direct domestic taxes performed at Ushs. 4,747.93 billion, 3.4% above the target for the period. This was mainly due to higher than anticipated collections of pay as you earn, presumptive tax, rental income tax, tax on bank interest and treasury bills and bonds (BoU) (higher than target by Ushs 228.53 billion, Ushs 0.59 billion, Ushs 14.36 billion, Ushs 5.21 billion and Ushs 13.91 billion respectively). In particular, the collections through pay-as-you-earn were impacted by the rise in private sector hiring, reflecting the ongoing improvement in economic activity levels.

Government had projected to collect Ushs 5,302.9 billion from international trade transactions in the first half of the financial year. However, only Ushs 4,646.4 billion was collected in that period, culminating into a deficit of Ushs 656.5 billion. Shortfalls are mainly attributed to underperformance of value added tax on imports (lower by Ushs 391.7 billion), excise duty on imports (lower by Ushs 58.1 billion), temporary road licences (lower by Ushs 47.2 billion) and Withholding tax on imports (lower by Ushs 41.7 billion).

Indirect domestic taxes registered a shortfall of Ushs 304.73 billion against a target of Ushs 3,499.4 billion for FY 2023/24. The shortfall is attributed to low collections of Local Excise duty and Value Added Tax (VAT) resulting mainly from manufacturing sector as well as wholesale and retail trade sector. In addition, the low performance of excise duty was due to challenges related to administration.

Table 2 below shows the breakdown of domestic revenues in the first half of FY 2023/24:

Part 2: Overview of Expenditure Performance

Non Tax Revenue

Government collected **Ushs 972.92 billion** in form of NTR during the first six months of the Financial Year 2023/24. This is against the target of **Ushs 1,027.31 billion**, implying a shortfall **Ushs 54.39 billion** (5.3% of the target).

Grants

Project support grants performed below the program of **Ushs 1,762.67 billion** by **Ushs 1,178.54 billion**, as a result of low absorption of project funds because of some projects not being ready for execution.

Budget support of **Ushs 31.98 billion** was projected during the first half of FY 2023/24. However, nothing was received as at the end of the first half of the financial year.

Financing

External financing net amounted to Ushs 192.33 billion which was lower than programmed by Ushs. 2,560.58 billion due to failure of some key projects in the budget to meet conditions required for disbursement by the development partners.

During the first half of FY 2023/24, Ushs. 3,161.7 billion was raised from the domestic market which is higher than the planned target of Ushs 1,341.34 billion by Ushs 1,820.36 billion.

This was higher than what had been programmed for this period as there was need to cover part of the financing gap left by non-disbursement of external budget support loans as well as the shortfall in domestic revenues.

In addition, during the first half of FY 2023/24, Government received loan disbursements worth Ushs 1,415.0 billion most of which was concessional in nature to fund various development projects.

Compliance with the Charter for Fiscal Responsibility

The Charter for Fiscal Responsibility (CFR) presents Government's strategy for operating a fiscal policy which is consistent with sustainable fiscal balances and the maintenance of prudent and sustainable levels of public debt over the medium term. In addition, a new unique feature of this Charter is that it also takes into consideration the start of commercial oil production in FY 2024/25 and is mindful of the existence of petroleum revenues in the medium-term fiscal framework, hence provides a sustainable mechanism for the spending and saving of these revenues.

FY 2023/24 is the third year of implementation of the five-year Charter for Fiscal Responsibility (CFR). The Charter aims to achieve an overall fiscal deficit including grants of no more than 3% of GDP and net present value of government debt below 50 percent by FY 2025/26. In addition, a maximum of Oil revenue worth 0.8 percent of the preceding year's estimated non-oil GDP outturn shall be transferred to the Consolidated Fund for budget operations. The balance shall be transferred to the Petroleum Revenue Investment Reserve (PRIR).

Petroleum Fund

Part 2: Overview of Expenditure Performance

The Petroleum fund had a balance of Ushs 246.7 billion at the start of FY 2023/24. This increased to Ushs 345.7 billion as at end of December 2023. The increase in the fund position was mainly from revenue collections during the period. There were no withdrawals from the fund as no appropriation was made to that effect for this financial year.

2.2 Highlights of Overall Expenditure Performance

This section reports on Budget performance of the Government expenditures in terms of Budget Releases against the approved GoU Budget for the first half of FY 2023/24, and the expenditures based on EFT transfers centrally from the Treasury and reported on by MDA's.

Excl. Interest Payments

At an aggregate level, Ushs 14,079.569 billion of the GoU budget was released by the end of December 2023. This equates to 56.2% of the approved budget. Aggregate absorption (measured by expenditure as a proportion of releases) was 83.5%, which represents strong budget execution at Half Year.

Wage

Total wage releases performed at Ushs 3,757.699 billion (51.5%) of the Approved Budget and of this, Ushs 3,543.998 billion was spent which represents an absorption rate of 94.3%.

Non-Wage Recurrent

Part 2: Overview of Expenditure Performance

Non-wage recurrent releases were recorded at Ushs 6,870.726 billion which equates to 59.0% of the approved budget and absorption was at 77.1%.

Domestic Development

Releases for the domestic development budget performed at Ushs 3,451.124 bn which equates to 56.5% of the Approved Budget. Ushs 2,918.168bn of this amount was spent, which represents absorption of 84.4%.

External Financing

The Releases for External Financing budget performed only at 34.5% and 51.1% absorption was realised.

Variations and Challenges

Inadequate funds to effectively and efficiently monitor Cabinet Decisions. The Office cannot measure the level of performance for most Cabinet Decisions and therefore, the impact of most Cabinet Decisions is never assessed.

Inadequate funds for the purchase of medals and conduct of other chancery activities.

Inadequate Office space for the RDCs to undertake their duties. This has resulted into office renting which expenses are becoming unsustainable.

Dilapidated and inadequate infrastructure at NALI whereby some infrastructure is no longer habitable. The training facilities do not match up to the number of trainees the Institute receives annually.

Inadequate funds for Operation Wealth Creation (OWC) for undertaking the oversight function of the Parish Development Model (PDM).

Performance highlights for the Quarter

The necessary logistical support for the efficient operations, welfare and security of H.E the President and Vice President and their immediate families was provided. Consequently, 637 internal and external Presidency programmes were facilitated.

H.E the President and Vice President mobilized leaders and masses across the Country for poverty reduction, peace and development urging them to put emphasis on ensuring that the people they lead embrace income-generating activities in order to fight poverty, improve their livelihoods.

Promotion of regional and international relations continued through attendance of regional and international meetings, hosting Heads of State and receiving credentials from various envoys. In these engagements, H.E the President discussed bilateral and regional issues with his counterparts.

The Principals undertook promotion of trade, tourism and investment through mobilization of investors, commissioning of new investments as well as attending trade related meetings. 21 new investments were commissioned in Tororo, Moroto, Mbale, Lugazi, Nakasongola and Kampala.

School fees for 1,818 State House sponsored students were paid.

Performance of the Presidential Initiatives in on course. 24 model villages were supported with agricultural inputs and training. 3,890 households have benefited.

16,797 youth were graduated at the 4th graduation ceremony of the Presidential Initiative of Skilling the Girl and Boy Child.

08 major projects among which include the Entebbe International, Airport; Lubowa International Specialized Hospital (ISHU), Isimba and Karuma Hydro Power Plants (HPPs) and the Ugandan Embassy in Washington;

42 Health facilities in 5 districts (Kitagwenda, Manafwa, Mukono, Nwoya and Manafwa). Key among the achievements was the cleaning up of the pay rolls leading to the removal of ghost health cost centers from the IPPS.

The Anti Corruption Unit received 853 actionable complaints from 79 districts. Of these 75 were sent to DPP

Variations and Challenges

The percentage of the budget released for the first half of the year was at 92.9% due to a supplementary budget on classified expenditure owing to emerging issues of classified nature as well as the preparations of the NAM and G77 summits.

On the other hand, the percentage of release spent was 87.5% due to a number of ongoing procurements especially with the development budget.

Performance highlights for the Quarter

The Vote played her coordination role through the Institutional Coordination Framework structure (TICC, ICSC & PCC) that held 464 inter-ministerial coordination meetings in which issues affecting service delivery were handled. On the leadership of government business, the vote coordinated legislative agenda which resulted into passing of 16 Bills, making of 52 Ministerial statements, adoption of 23 Committee reports, responding to 170 urgent questions during Prime Minister's time.

The Office of the Prime Minister conducted Annual Government performance assessment, the National Annual Performance Report (NAPR) FY2022/23 which was discussed during the retreat of Government and fast-tracked the implementation of the performance of Externally Funded Projects (Loans & Grants). The Vote conducted End-line evaluation of the Dairy Market Access and Valuation Project to document lessons learnt.

The Vote prepared the Draft Principles for the National Disaster Preparedness & Management Bill; conducted 33 preparedness assessments, early warning awareness & dissemination; trained 17 districts & 8 trainings for 4 DDMCs to enhanced rapid Emergency and disaster response; supported 9 districts to develop DCPs; supported 32,578 households with relief food & non-food items across the country.

The Vote Received & settled 68,906 Refugees on land (33,075 Male & 35,831 Female), assessed 18,926 asylum seeker applications (14,889 granted asylum, 4,624 rejected & 510 deferred) & registered 1,577,502 Refugees. The OPM also supported 177 subprojects in Refugee hosting communities. By the end of Q2, OPM supported 126 livelihood enterprises in Northern Uganda; 80 micro-projects of vulnerable groups for support towards income generation activities & livelihood enhancement; procured 19,468 iron sheets and 52,746 Hoes; supported 180 progressive farmers in Olives, Grapes and Dates pilot farming & 72 civilian veterans. The Karamoja portfolio held 1 Community peacebuilding meeting in Napak DLG.

Variations and Challenges

As at end of second Quarter, Vote 003: Office of the Prime Minister had received UGX 87.92Bn (38%) out of approved Budget UGX 230.45Bn for FY 2023/24. The overall absorption was at 69%. The GoU component of the budget performed at 52% (UGX 56.69Bn) out of the annual approved GoU component UGX 109.21Bn and 52% of the funds released was spent. The External financing performed at 26% (UGX 31.22Bn) of the annual approved external financing budget of UGX 121.22Bn. The absorption of the External Financing was at 100% of the funds released. All the funds appropriated for development budget was released e.g. only UGX 2.67Bn (14%) and UGX 28.56Bn (52%) for DINU and DRDIP respectively yet the projects closed in December 2023. Additionally, UGX 47.6Bn for NUSAF IV was not released since the project did not take off. Budgetary constraints also affected the implementation of the Vote service delivery programmes.

Performance highlights for the Quarter

By half year FY2023/24, the Ministry had made strides in the following areas;

- a. Contained the Security Situation in the Country despite, spill-over effects resulting from conflicts in Eastern Democratic Republic of Congo (E/DRC) and South Sudan.
- b. Continued to enhance capabilities to ensure efficient and effective counter, deter and combat any prevalent and emerging military threats within and around the territorial boundaries of Uganda.
- c. Enhanced training in a bid to professionalise and modernise UPDF personnel and address capacity gaps in operations.
- d. Continued to provide logistical support to UPDF which enhanced the operational capacity, tempo and morale of the troops.
- e. Continued to improve the welfare of Officers, Militants and their families through the provision of Healthcare Services, Education and DSF(U)L Services
- f. The Ministry continued to undertake the construction, renovation and upgrade of UPDF infrastructure to provide a conducive working and living environment for Officers and Militants
- g. Continued to support Defence production arms namely; NEC, UACC, and CPW to contribute to national socio-economic development and sustain the needs of the Force.

Variations and Challenges

The biggest challenge that the ministry is facing is under funding

Variations and Challenges

i. Delayed release of funds by MoFPED:

The Ministry experienced a setback due to the delayed release of funds by MoFPED. The allocated funds, expected in the first quarter as per the planned schedule, were not disbursed on time. This delay in fund release disrupted the execution of planned activities, preventing them from being implemented according to the initially scheduled timeline.

ii. Delayed clearance for some of the Ministry interventions:

Initiatives like the establishment of the National Emoluments Review Board required clearance from the Cabinet Secretariat to proceed to the next stage. Unfortunately, this clearance was not obtained in a timely manner, hindering the timely implementation of planned activities.

iii. Inadequate vehicles:

The Ministry had inadequate vehicles for support supervision, directly impacting the timely implementation of activities. This inadequacy hindered the Ministry's ability to conduct effective and timely support supervision for various initiatives.

iv. Delays in procurement process:

The Ministry encountered delays in procurement processes attributed to system challenges, particularly related to the Electronic Government Procurement (E-GP). These issues hindered the seamless and timely acquisition of goods and services, impacting various aspects of the Ministry's operations.

The Ministry exists to provide legal advice and legal services to Government, its Allied Institutions and the general public and to support the machinery that provides the legal framework for good governance.

In the second Quarter of FY 2023/24, the Ministry cumulatively received UGX 108.537 (52.8%) of the approved budget (205.777Bn) of which Wage was UGX 8.060Bn (50.0%), Non-Wage Recurrent UGX 85.477Bn (50.0%), Development UGX 15.000Bn (75%) of the approved budget respectively and 0% of the Arrears budget was released. The funds were used to carry out the following activities:

Continued with the construction of the JLOS House that is now at 71% complete. Its completion would save Government approximately UGX 30Bn.

Represented Government in 2,526 cases in Courts, Tribunals and Commissions (of which 76 Constitutional Petitions, Appeals and Applications defended, and 7 EACJ cases). Of these, 153 were concluded; of which 112 cases worth UGX 1.278 Trillion were won while 41 cases worth UGX. 11.990Bn were lost. Relatedly, 192 negotiations, mediation, conciliation and Arbitrations were handled. Reviewed and Cleared 2,369 contracts , rendered 446 Legal Opinions, reviewed and cleared 248 MoUs.

2,969 new files were opened, 55 scheduled court cases attended, handled 764 family arbitrations and mediations, inspected 257 estates, wound up and renounced 15 estates, 3 Letters of Administration Granted by Court, inspected 13 Trust Causes, issued 21 land transfers and 1,721 Certificates of No Objection.

11 Law Council and 11 ordinary Disciplinary Committee meetings were held in which 141 disciplinary cases were handled, 17 were disposed off), and inspected 339 Advocates chambers.

15 (100%) of received requests from MDAs for drafting Bills and 35 requested Statutory Instruments (66%) were drafted and submitted to respective MDAs, 8 Ordinances, 54 (100%) Signed Statutory Instruments, 16 (100%) Signed Legal Notices and 1 By-law were authorised for publication.

Variations and Challenges

During the Quarter, the Ministry faced the following Challenges:

Limited transport facilitates to support technical Officers in Court Attendances and other official matters that is limiting service delivery. Some Regions like Fortportal have upto 5 High Court Circuits and over 25 Districts to attend with only 1 sound vehicle. Secondly the inadequate State Attorneys in the Ministry as a result of implementing the old staff structure. For example, the Judiciary has recently operationalised Kitgum, Kiboga and Bushenyi High Court Circuits; making the total 23 and there are already 83 Chief Magistrate Areas. The number of Courts i.e. GI, Chief Magistrate and High Court is far too more than the number of staff in MoJCA, and yet there are other functions to be handled like review of contracts drafting of Legislation etc..

We also had had a zero allocation for Court Award Arrears and as a result, the Court Award Arrears will accumulate Interest. Currently the Court Award Arrears are UGX 228.22Bn.

The Ministry was given a responsibility by Cabinet to Host the Apaa Land Dispute Commission. This did not have a corresponding budget yet the activity was crucial and urgent and whereas we requested for supplementary funding from the Ministry of Finance Planning and Economic Development, it was advised to consider utilizing release for third Quarter. This is likely to lead to the late start of work; by the Commission.

Cattle compensations (phased compensation)- Whereas it is a phased compensation, out of the budgeted amount of UGX 80Bn, only UGX 34Bn has been provided for this; and yet the verified amount is now UGX 463.221Bn.

Some MDAs still make incomplete submissions making it impossible to complete review of the contract without referring it back to the MDA for additional Documents. This does not only make it a lengthy process but also wastes resources to review the same document twice or more times.

Variations and Challenges

Revenue performance has been influenced by both positive and negative factors as mentioned below;

1. Positive factors

i. There was a surplus of Shs. 228.53 billion registered under taxes on employment income on account of;

- Increased recruitment in private sector, especially in the manufacturing sector, banking and oil & gas. This led to an additional Shs 301.77 billion in PAYE revenues compared to FY 2022/23.

Delays in submission of reports by various MDAs

Variations and Challenges

Variations in budget performance;

-The Ministry recorded the highest absorption in non-wage (97.1%) followed by wage (90.1%) and the least under development budget category.

The unspent balances under wage was due to unpaid salary for some staff who hadn't yet been captured on HCM

-The unspent balances under development were as a result of delays in the procurement process during the transition to EGP across Government.

Challenges;

-Implementation of the EGP system across government delayed the finalization of some procurements due to system downtime, slow adoption and usage by service providers

Performance highlights for the Quarter

Procurement of 200 tractors and matching implements and 200 units of Single Axle tractors and implements is ongoing;
Operationalization and equipping of Buwama and Aqwata Zonal Agriculture Mechanisation Centres is at 90%;
Construction of the Nabuin Zonal Agriculture Mechanisation Centre has commenced and Mbale Zonal Agric Mechanisation Centre is at 65%;
Construction of Acomai irrigation scheme is ongoing and progress is at 61%;
40 water facilities (valley tanks, dams) in Karamoja Sub region were constructed; 20 fish ponds were constructed in Katakwi, Pallisa and Serere;
Procurement of 1m doses of Foot and Mouth Disease vaccines, 2m doses of PPR vaccines, 1m doses of LSD and 7,000 liters of Eprinomectin for management of resistant tick is ongoing;
Procurement of 1,000 manual and motorized spray pumps for pests and disease control was completed;
60 pieces of pharmaceutical fridges and freezers and matching accessories and assorted laboratory reagents, consumables, equipment and supplies acquired;
Construction of fish ponds covering 20 acres of land in Kyembogo, Kiboga district is ongoing, works are at 75%;
Enforcement operations along the five major water bodies undertaken and 3,800 fishing vessels and 5,800 fishers licensed;
Construction of one fertilizer store and one office Block in Buvuma and Mayuge districts is ongoing at 10% level of completion;
256 Value Addition equipment were installed across the country. Construction of 340 storage facilities has been completed with a total storage capacity of 82,225 MT
Construction of the National Metrology Laboratory at UNBS was completed awaiting handover;
The overall progress of the works for the 1,118.7 Km of road chokes in various DLGs is at 85%; Consultant for design and construction of Nshara regional animal disease control procured;
Construction of two irrigation schemes at Kamenyamigo and Ikulwe commenced, works are at 50%;
400 Agricultural value chain actors trained on pest and disease control and data collection

Variations and Challenges

- i. Fewer technical staff compared to the tasks to perform for effective programme implementation at national and Local Government levels. While the extension staffing levels have been increased from 994 to 4,444 this is still below the target of 5,355 extension workers across the country.
- ii. In addition, conditional grants to support delivery of extension services are released late which disrupts routine service delivery to the farmers.
- iii. Increased emergence of pests, vectors, and diseases continue to affect the production and productivity of agricultural enterprises especially Foot and Mouth Disease.

Performance highlights for the Quarter

The Ministry of Local Government has showcased notable achievements across its departments, emphasizing a holistic approach to governance and development. Highlights include the successful rehabilitation of 13 Agro-Processing Facilities, extensive training programs benefiting thousands, and strategic initiatives such as disseminating Public-Private Partnerships Guidelines and developing Local Government LED Strategies. Urban Administration excelled in wetland preservation and staff payment, while the Human Resource Department focused on HIV mainstreaming, Balanced Scorecard training, and HR policy support. District Administration provided crucial support to technical planning committees, conducted data verification, and facilitated statutory bodies. Finance and Administration demonstrated effective asset management, conducted Participatory District Monitoring, and ensured timely financial disbursements. Other noteworthy efforts involved conflict resolution, political leader induction, and dissemination of rules of procedure. The Local Economic Growth Support Project significantly contributed to infrastructure development, including agro-processing facilities and irrigation schemes. The Ministry's dedication to transparency and development is evident in its successful initiatives and collaborative projects across various regions.

Variances and Challenges

The Ministry of Local Government in Q2 FY2023/24 faced significant challenges that impacted its performance. Financial limitations emerged as a pervasive issue, hindering the execution of critical activities such as HIV/AIDS mainstreaming and training initiatives due to insufficient funds. The Ministry's capacity-building efforts and training programs were constrained by these financial challenges, affecting the enhancement of knowledge and skills among its personnel. Project delays and oversight issues were evident. Resource limitations contributed to these delays, revealing challenges in project supervision and monitoring. Additionally, operational difficulties hindered the successful implementation of programs, particularly the Parish Development Model, across various Local governments. Inadequate operational Resources further impeded planned activities, emphasizing the need for improved operational support and resource allocation. Addressing these challenges is crucial for the Ministry to effectively fulfill its objectives and achieve successful program outcomes.

Variations and Challenges

The overall budget performance by end of Q2 stands at 62.0 % with an absorption rate of 67.2 %

- i. The unspent funds under non-wage recurrent were due to ongoing procurements and delayed submission of relevant invoices from service providers.
- ii. The unspent balances under wage was due to unpaid salary for some staff who hadn't yet been captured on HCM. The low wage utilization is a result of pending recruitment process for officers that retired towards close of the FY 2022/23 who haven't yet been replaced.
- iii. Implementation of the EGP system across government is still delaying the finalization of some procurements due to system downtime.
- iv. Lengthy approval process of activities under CEDP as most of the activities were submitted to the Bank and awaiting clearance.

Variations and Challenges

The Ministry received Ushs.215.62bn (32%) inclusive of External Financing of which Ush.126.25bn (35%) for Government of Uganda Financing. This took the performance of components such as Wage, pension, and gratuity to 50%. In addition, some components such as Development, Subventions and Arrears have received allocations which incorporated the unreleased budget for the first quarter. The over performance on the Non-Wage PAF component was due to the frontload for instructional materials in the first quarter which performed at 83%. The excess provision was accommodated on the Non-PAF component which is cumulatively performing at 31%. In addition, a supplementary budget of Ushs.5,190,000,000 was received against the Development budget as a reinstatement. A cash limit of Ushs.1,730,000,000 has been embedded in the expenditure limit for Development.

Performance highlights for the Quarter

1. MoH distributed a total of 116 new ambulances to 100 constituencies, 10 regional referral hospitals and 6 for command centres.
2. Progress on construction of Regional Blood Banks stands as follows: Hoima at 94%, Arua at 88% and Soroti at 90%.
3. A total of 1901 medical interns and 862 SHOs have been deployed across the training institutions in the country.
4. Measles rubella campaign coverage at national level achieved 93.8% representing 6.6 million children and yellow fever campaign achieved 9.4 million representing 71%.
5. A revised Cabinet memo on National Health Insurance Scheme Bill, 2023 has been submitted to Cabinet.
6. A total of 24,825,948 long lasting insecticide treated mosquito nets (LLINS) have so far been procured and distributed countrywide for malaria prevention.
7. Fourteen (14) CT scans and One (1) MRI supplied, commissioned, installed and are functional.
8. Rehabilitation works are ongoing in Busolwe, Kapchorwa and Kambuga General Hospitals.
9. Under the upgrade of HC IIs to HC IIIs Under UgIFT, 239 out of 340 Health Centre IIIs had been completed.
10. There were no new upgrades in FY2023/24. However, the focus is on completion of the abandoned/incomplete projects in the previous years.

Variations and Challenges

1. Wage absorption was at 87.5%. The shortfall in wage utilization is a result of pending recruitment process for officers that retired towards close of the previous financial year.
2. The absorption of Non-Wage Recurrent stood at 79.8%. The shortfall was mainly due to the halt on payments of non-verified gratuity and pension until the verification exercise under the Auditor General's Office has been completed.
3. The expenditures under GOU development stood at 81.7% as a result of subventions to Ministry of Defence and Veteran Affairs/UPDF Engineering Brigade). The shortfall is largely due to the Certificate for Busolwe GH which shall be paid in Q3 and the delayed procurement under the Italian project.
4. The absorption under external financing stood at 21.4% due to the lengthy procurement process.
5. The overall performance was at 30.2% due to poor absorption of the external resources.

1. Industrial monitoring field visits conducted in 41 industries in the districts of Kampala, Luweero, Nakasongola and Nwoya.
2. Africa Industrialisation day duly commemorated in step with the rest of the continent.
3. 400 cooperatives registered in all regions of the country, 4 cooperatives inspected and 14 cooperatives audited.
4. Conducted an assessment of production and potential on cotton, textiles, and garments value chain in the districts of Koboko, Arua, and Nebbi.
5. Tobacco inputs (seeds imported, fertilizers etc) inspected to ascertain their level of investment vis-a-vis their crop projections for the 2024 Crop Season for the 3 Companies that expressed interest to grow tobacco in the 2024 crop season.
6. 30 MSMEs Offered coaching, mentoring, and advisory services to managers on modern business management skills, and good corporate governance principles for effective business growth.
7. 70 MSMEs guided on making business plans, and trained on financial literacy, resource mobilization, and business registration.
8. The Draft Packaging and Branding strategy finalized.
9. The 125 Ugandan MSMEs were facilitated to attend the 23rd EAC MSMEs Trade Fair in Bujumbura Burundi.
10. Impact evaluation study on Kalangala Infrastructure Services (KIS) done.
11. 1,200 participants trained in Job Creation Awareness.
12. Enrolled 50 female students under MTAC-in collaboration with, KAFOC, love a friend, Sisters of hope, SOHI, partnerships to vocation courses.
13. Construction of MTAC Ntungamo Centre now at 75% completion level.
14. Capacity building (Training, mentorship and backstopping) provided to district core teams and District Commercial Officers) to conduct internal audit mentorship of cooperatives.
15. Facilitated 40% of exporters to attend trade exhibitions in Johannesburg, South Africa.

Variations and Challenges

1. Inadequate transport facilities to carry out activities on time. This was mitigated using multisectoral approach by utilising vehicles inter-departmentally, and no vehicle was attached to a particular department.
2. Inadequate office space due to the on-going renovations therefore, coordination made hard. Provision of laptops to enable officers work from other premises.
3. Delayed procurement was another challenge faced in the quarter. Making use of eGP to ease procurement.
4. Poor appreciation of the reporting tool. In response to this, members were trained on the PBS with support from Ministry Finance officials.

Programme:02 Mineral Development			
SubProgramme:01 Mineral exploration, development and value addition			
Sub SubProgramme:01 Mineral Exploration, Development & Value Addition			
Department:001 Geological Survey Department			
Budget Output: 060003 Mineral exploration and development			
PIAP Output: 02020301 Mineral reserves established			
Programme Intervention: 020203 Undertake a detailed exploration and quantification of minerals and geothermal resources in the country			
PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
Quantity of known mineral reserves	Number	3.5	2
Budget Output: 060004 Mineral Laboratories and Research			
PIAP Output: 02040901 Increased private sector investment along minerals value chain			
Programme Intervention: 020409 Undertake PPPs to invest in mineral value addition;			
PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
Percentage change in the value	Percentage	5%	0
Department:003 Mines Department			
Budget Output: 060006 Mining Management			
PIAP Output: 02050201 Good governance and best practices applied in the mining industry.			
Programme Intervention: 020502 Domesticate appropriate regional and international treaties, conventions, agreements, protocols which support good governance in the mining industry			
PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
Number of treaties, conventions, agreements, protocols domesticated	Number	4	1
Project:1542 Airborne Geophysical Survey and Geological Mapping of Karamoja			
Budget Output: 060003 Mineral exploration and development			
PIAP Output: 02020301 Mineral reserves established			
Programme Intervention: 020203 Undertake a detailed exploration and quantification of minerals and geothermal resources in the country			
PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
Quantity of known mineral reserves	Number	10	
Project:1773 Mineral Regulation Infrastructure Project			
Budget Output: 060006 Mining Management			
PIAP Output: 02050901 Safe working conditions in the mining industry and a protected environment			
Programme Intervention: 020509 Strengthen capacity to monitor, inspect and enforce health, safety and environmental provisions;			
PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
Percentage of mining sites having safe working conditions and clean/protected environment	Percentage	50%	48

Programme:03 Sustainable Petroleum Development

SubProgramme:01 Upstream

Sub SubProgramme:04 Petroleum Exploration, Development, Production, Value Addition and Distribution and Petroleum Products

Department:002 Petroleum Exploration, Development and Production (Upstream) Department

Budget Output: 000039 Policies, Regulations and Standards

PIAP Output: 03060501 Conflicting policies, laws and regulations harmonized**Programme Intervention: 030605 Review, update relevant policies, and harmonize conflicting laws and regulations;**

PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
Number of laws and regulations enacted	Number	2	0

PIAP Output: 03060601 EITI Medium term workplan implemented**Programme Intervention: 030606 Strengthen governance and transparency in the oil and gas Sector.**

PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
%age progress of implementation	Percentage	40%	

Budget Output: 000057 Social and security safeguards

PIAP Output: 03020601 QHSSE systems and standards developed and implemented**Programme Intervention: 030206 Establish QHSSE governance and assurance framework;**

PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
Number of QHSSE standards in place.	Number	40	0
Number of Quality Management systems in Place	Number	1	0
Number of standards on Climate Change developed	Number	10	0

Project:1611 Petroleum Exploration and Promotion of Frontier Basins

Budget Output: 080001 Exploration and development

PIAP Output: 03030501 New exploration activities undertaken**Programme Intervention: 030305 Undertake further exploration and ventures of the Albertine Graben**

PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
Volume of additional petroleum resources (Billion barrels STOIP)	Number	0	0

Budget Output: 080003 Production and processing facilities development

PIAP Output: 03010401 Financing strategy developed and implemented**Programme Intervention: 030104 Provide SMEs both technical (training) and financial support to enhance their participation in tendering and of delivery of contracts. (Direct and indirect participants in the oil and gas value chain)**

PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
No. of Financing Agreements secured	Number	8	1
Number of investors in oil and gas attracted.	Number	4	2

PIAP Output: 03030201 Upstream facilities for Tilenga and Kingfisher projects constructed**Programme Intervention: 030302 Construct the Central Processing Facilities (CPFs) for Tilenga and Kingfisher projects;**

PIAP Output Indicators	Indicator Measure	Planned 2023/24	Actuals By END Dec
%age completion of the facilities for Tilenga and Kingfisher projects	Percentage	50%

Performance highlights for the Quarter

MEMD has continued to deliver services to the population through multiple approaches that include; purely public provision, purely private provision, and; public and private provision. These service delivery mechanisms have led to increased investments into the; mining and petroleum development activities, and various energy investments. Electricity reliability, petroleum supply reliability and investor confidence are building up locally and internally. Below are some of the overarching achievements and high impact initiatives progress.

Sustainable Energy Development Programme

- i) Unlocking suppressed demand through achievement of effectiveness of the EASP and resumption of the ECP Activities.
- ii) Generation Capacity has been increased to 1,878.1MW following the synchronization of 500MW (5units) out of 600MW of Karuma into the main grid.

Sustainable Petroleum Programme

- i) Continued the drilling activities at both the kingfisher and Tilenga Development Areas.
- ii) Progressed the Local content participation in the oil and gas. As of December 2023; 94% of the jobs are occupied by Ugandans and 24% of the contract value is to the Ugandan based companies.
- iii) Petroleum supply remained consistent in the country throughout the year.

Sustainable Mineral Development Programme

- i) Commenced data analysis after the completion of the Karamoja aeromagnetic surveys.
- ii) Commenced the evaluation of the expressions of interest from potential investors in Geothermal energy generation.

Variations and Challenges

The key challenges faced by all the three programmes led by the Ministry include:

- i) Land acquisition for government projects that is taking a long time and a considerable budget. The major constraints have been contestation of valuation rates approved by Chief Government Valuer by project affected persons and limited funding for compensation. The Ministry continues to implement its Grievance Handling Mechanisms under the different projects and also sensitization of affected persons.
- ii) Vandalism on the transmission lines and other installations. This causes financial and social losses to government hence affecting manufacturers, the health system and education system, among others. An Inter-Ministerial Committee has been set up to address the issues of vandalism. An operation plan has been developed and is being implemented. Ministry of Trade and Industry has been engaged to ensure strict regulation of the scrap industry.
- iii) Illegal mining activities and operations affecting the environment and revenues generated from mining operations. The Mining and Minerals bill that was passed by Parliament, once assented to, will foster efficient regulation of the mineral sub-sector. The Ministry will continue to work with the Ministry of Public Service to recruit additional inspectors to ensure proper monitoring and supervision of the mining operations.
- iv) Inability to meet investment requirements in energy and minerals due to limited funding. These investments range from generation, transmission, and electricity distribution; Affordable Clean energy alternatives, mining investments among others. Given that supplementary budgets should be avoided as much as possible and only cater for unforeseen and unavoidable expenditure, this Ministry has reviewed its priorities and identified a number of foreseeable obligations, commitments and critical activities that require financing far above the budget ceiling provided.

Performance highlights for the Quarter

The overall Budget of the Ministry under GoU funding for FY2023/2024 is Shs.210.591 Billion. By the 2nd Quarter, the Ministry realized a total release of Shs115.192 Billion representing 54.7% of its Budget. Further, the Ministry spent a total Shs.109.816Billion by the second Quarter of FY 2023/2024 representing 95.3% of its Q2 releases.

Additionally, the key performance achieved in Q1 are as follows:

- i. 302,820 senior citizens benefitted from the SAGE Programme of which 188,406 females and 114,414 males across the country;
- ii. 765 Persons with Disabilities Enterprises funded under NSG benefiting 4,377 Persons with Disabilities of which 2,240 male and 2,137 female in 75 LGs;
- iii. 307 Older Persons Groups funded under SEGOP reaching 1,874 Older Persons of which 927 males and 947 females in 63 LGs.
- iv. Capacity building of 220 youth in vocational skills to enhance self employment and wealth creation conducted in Ntawo and Kobulin Youth Skills Centres.
- v. 64 Jua-kali groups provided with business start up toolkits and equipment in 17 LGs.
- vi. Technical support supervision and joint monitoring of the Community Development Functions conducted in 63 LGs.
- vii. National Parenting Guidelines disseminated in 26 LGs.
- viii. 14 Cultural Leaders supported with monthly emoluments to mobilize communities for uptake of government programmes, such as PDM
- ix. 368 workplaces inspected for compliance with OSH standards
- x. 327 statutory equipment inspected and certified.
- xi. Capacity building on Human Rights Based Approach to Programming involving 120 participants conducted
- xii. Improved access to basic rights of 1,813 children in conflict with the law through the provision of food and non-food items to the Ministry institutions.
- xiii. 264 youth enterprises funded benefitting 2,229 youth across the country
- xiv. 516 women enterprise groups funded benefitting 3,542 women across the country

Variations and Challenges

The Ministry notwithstanding the key achievements is experiencing a number of challenges

1. Scattered and uncoordinated Community mobilization interventions across MDAs,
2. Unilateral/Blanket Policy on Budget cuts and suppression of seemingly consumptive items,
3. No clearly defined criteria of allocation of funds to Institutions under the Programme,
4. Funding shortfalls that make it difficult to realize planned interventions.
5. Dilapidated Community infrastructure and Equipment (rural training centers, community learning centers, and obsolete broadcasting equipment) to support the sensitization, empowerment and training of citizens for increased demand and uptake of government services
6. The demand for services provided by MGLSD is increasing in spite of the dwindling financing levels.

Performance highlights for the Quarter

Rural Water Supply and Sanitation

1 GFS constructed to 97 percent completion while 2 large water supply systems constructed to various completion levels as indicated in the detailed section

14 Production wells were drilled and sited while 29 solar powered water supply systems were constructed to 50 percent completion.

Urban Water Supply and Sanitation

Completed construction in 16 water supply schemes while 65 schemes are ongoing and 46 towns were rehabilitated.

Completed construction of 2 sanitation facilities, 9 are ongoing and 8 treatment plants were renovated.

2,565 New connections installed in respective regional umbrellas and 199.98 km of pipeline extension laid.

Water for production

Completed constructed 17 Valley Tanks and construction of 12 multi-purpose reservoirs is ongoing

Completed construction of 1 irrigation demonstration site in while 2 are ongoing

Construction of 2 earth dams, 1 large scale and 2 medium scale irrigation schemes is ongoing

Water Resources Management

National Water Quality Reference Laboratory (NWQRL) has been Constructed to 35%

Surface water stations have been constructed to 45%, Ground water to 55% and Automatic weather to 20% level of completion

Catchment management measures implemented in 4 sub catchments to 54%

27 water sources have been rehabilitated, 576.12 Ha of Soil and Water conservation constructed,

10 apiaries each with 25 KTB beehives established, 1548 cook stoves constructed and 3 fishponds constructed and stocked with 13,500 fingerlings

Natural resources

8,354.80ha of degraded wetlands were restored while 155km of wetland boundaries were demarcated

Distributed approximately 1,629,843 m tree seedlings.

Demarcated a total of 201.5 km of river bank protected areas and profiled hilly and mountainous areas

A National Digital Vulnerability Map was finalized and Finalized the development of sector-specific climate vulnerability indices.

Variations and Challenges

Inadequate release of counterpart funds for donor funded projects

Protracted procurement processes due to no objection requirements and delays in the approval process

Misalignment of output indicators to various project outputs

increased construction costs due to the current global challenges

The report shows that there are over expenditures, however when we navigate the system, there are zero over expenditures

Performance highlights for the Quarter

DATA NETWORKS ENGINEERING

1. Ten new administrative units in Eastern and Northern Uganda postcodes updated namely; Mbale city, Gulu city, Lira city, Arua city, Jinja city, and the municipalities of Iganga, Bugiri, Kumi, Ngora and Soroti
2. Developed a zero draft of standards for e-service delivery through postal infrastructure produced
3. Monitored the existing infrastructure of UTCL in 18 districts. Namely Mpigi, Mityana, Kampala, Luwero, Wakiso, Mbale, Jinja, Iganga, Soroti, Gulu, Arua, Lira, Masaka, Mbarara, Kabale, Fort portal, Mubende, Masindi

E-SERVICES

1. Drafted a zero draft RIA for National ICT policy
2. Provided Capacity building on cybersecurity among 90 officials from various MDAs and LGs
3. Training of Trainers on AWS(Amazon Web Services) for officers provided
4. Integrations between 13 commercial banks and the FIS module ongoing with 9 participating banks at the API verification stage of this process to enable automated disbursement of the funds to the beneficiaries
5. Integration with NIRA through the UG-Hub for a verification layer for the beneficiaries Bio date before accessing the Parish Revolving Fund on the Financial Inclusion System

ICT INFRASTRUCTURE DEVELOPMENT

1. ICT infrastructure needs assessments for broadband connectivity conducted and recommendations for a suitable pilot developed in the districts of Gulu, and Nwoya
2. Zero draft of project profile for an Interconnection and Digitization Programme for PWDs developed

COMMUNICATION AND INFORMATION DISSEMINATION AND NATIONAL GUIDANCE

1. Conducted cadre ship development training course for Omoro district leaders on mindset, attitude change and constitutionalism- duties of citizens for social economic transformation.

Variations and Challenges

1. Lack of adequate equipment maintenance, departmental logistical support and transportation resources
2. Poor or slow internet speeds occasioned by infrastructure bottlenecks resulting in poor quality of service.
3. Low appreciation of government programs leading to low uptake of government programs.
4. Automation of government systems or processes is still slow.
5. Existence of many stand-alone systems in Government which don't work in sync.
6. Low levels of civic consciousness/responsibility/responsiveness to spur effective participation in the political socio-economic transformation. This calls for increased synergies among the different actors in promoting national guidance.

Performance highlights for the Quarter

Performance highlights for the Quarter

By close of Quarter two of FY 2023/24, MEACA received UGX 30.750 Bn of which UGX 643M was wage, UGX 29.999 Bn was Non-wage and UGX 108M for development. This was 80.2% of the approved Budget.

Out of the released Budget, only 94.5% of the released budget was spent thereby creating a variance of 6.5% of the released funds absorbed by the close of Q2.

The variations are mainly observed in wage, non wage and development.

Wage: Out of the released Wage funds UGX 643M from the Wage approved for Q2, Only UGX 499M was absorbed; this was as a result of the delayed recruitment & changes in systems.

Non Wage: This is mainly attributed to under absorption of pension and Gratuity as a result of delayed verification of the beneficiaries.

Development: Non absorption is a result of the delays in the procurement processes.

By close of Quarter Two, the ministry implemented the following;-Coordinated and participated in;-The different regional engagements including but not limited to EAC Sectoral Council, Council of Ministers, Finance and administration, Summit, Extra ordinary council, EALA, EAC Sectoral Council for Agriculture and Food Security etc. Coordinated National preparatory meetings to inform regional meetings, coordinated the Uganda-Congo JPC, Coordinated the commemoration of the Kiswahiri Day celebrations, remitted EAC Contributions to EAC Secretariat, institutions and organs, Held Bilateral engagements with Kenya, RSS & URT, Coordinated Uganda's participation in the technical meeting to constitute the EAC Sanitary and Phytosanitary Task force, Conducted a sensitization Campaign on the removal of NTBs, Conducted two small scale border engagements at Cyanika & Bunagana, Reviewed the Action Plan on Implementation of EAC Gender Policy, Participated in Regional Workshop on harmonization of EAC Excise Tax, Participated in radio & TV talk show

Variations and Challenges

Variations

By close of Quarter two of FY 2023/24, MEACA received UGX 30.750 Bn of which UGX 643M was wage, UGX 29.999 Bn was Non-wage and UGX 108M for development. This was 80.2% of the approved Budget.

Out of the released Budget, only 94.5% was spent thereby creating a variance of 5.5% of the released funds un-absorbed by the close of Q2.

The variations are mainly observed in wage, non wage and development.

Challenges:

1. Delayed recruitment Process & changes in systems from IPPS to HCM. This has led to under absorption of the wage fund
2. Failure by some Old pension beneficiaries to present Life certificates. This has led to under absorption of pension since such cases are deleted from the payroll.
3. Delays in the procurement processes resulting into un absorption of the development funds.
4. Under release of funds especially development funds in Q2. ONLY 50% was released.

Variations and Challenges

Ushs 110.983 billion of the approved budget was realized in the first quarter of the FY 2023-24 representing 50.1% of the total budget. Of this amount, Ushs 50.700 billion was Non-Tax Revenue generated by UWA and spent at source in line with the approved budget while Ushs 60.755 billion was released from the consolidated fund.

Ushs. 23.920 billion (50.0%) of the approved development budget was released.

Tourism sites received more than the projected number of tourists. The Tour and travel industry is recovering at a faster-than projected-rate. The tourism mobilization and promotional efforts done by Government and several other actors are paying off.

Challenges.

1. Human Wildlife Conflicts, Invasive species, encroachment in conservation areas and increased intensity of problem animals.
2. Invasive Species: A number of areas are clogged with invasive species such as dichrostachys cineria that require conscious effort to manage.
3. Land conflicts and encroachment of the cultural heritage sites such as Nyero, Bweyorere Capital site, Ntusi and Kasonko.
4. Political instabilities within the neighboring countries.

- b) Construction of the High Courts is as follows: Soroti is at 40% completion, Rukungiri is at 80%
- c) The contractor for the construction of Tororo High Court is at the mobilization stage.
- d) Construction of Chief Magistrates Courts is as follows: Alebtong is at 60% completion, Budaka is at 90% completion and Lyantonde is at 70% completion
- e) Construction of the Magistrate Grade 1 Courts is as follows: Abim is at 40% completion, Patongo is at 95% completion and Karenga is at 90% completion.

Variations and Challenges

- a) The performance for wage is at 79.2% due to the pending recruitment of staff and salary enhancement for non-Judicial officers. Cabinet only approved the structure and establishment but did not approve the salary enhancement for the non-judicial officers;
- b) The performance for Non-wage is at 89.9 % because of pending payments;
- c) The performance for the Development budget is 50.2% due to the ongoing procurement processes and submission of the certificates of completion for the ongoing constructions

Variations and Challenges

In the period under review, the total budget release was 100.735 bn representing 67.7 %of the total budget. Out of this 18.854 was for wage and 80.021 was for non-wage.

For wage, 50% was released and 48% was spent. There was variance because some positions were vacant and the Commission lost some staff due to death

Non-wage, 74% was released, out which 59.1% was spent. There was under expenditure due to a number of reasons and this include the lengthy procurement process , some activities cut across quarters whereas some requisitions were still being verified before payments could be effected.

1.860 bn was released for development representing 50% of total releases. No expenditure was incurred because of the lengthy procurement process. This caused delays in award of the final contract

The main challenges the commission faced in the quarter was the inadequate releases, which affected a number of planned activities such as the election of women committees and councils countrywide.

Performance highlights for the Quarter

1. In Q2 FY 2023/24, the IG received 573 complaints at Headquarters (288) and Regional Offices (285) categorized as follows; - Corruption complaints (287); Ombudsman (177); Leadership Code (48), and others (61). These complaints were received from 386 Males, 63 Females, 06 Groups, and 118 anonymous sources.
2. Of the above complaints, 512 were sanctioned for investigations, 16 referred to other Agencies for appropriate action, and 02 did not merit into investigable cases. Decisions were yet to be made on 43 complaints.
3. From the sanctioned cases, IG investigated 12 high profile cases from which recovery of funds amounting to UGX 1,250,241,281 from 58 officials was recommended, and another loss of UGX. 3,900,000,000 was saved as a result of IG interventions.
4. Investigated 244 other corruption cases resulting into 200 public officers being recommended for administrative action, and UGX 3,962,960,603 recommended for recovery.
5. Concluded 123 investigations of Ombudsman complaints in MDAs (29) and LGs (99). As a result, 19 Citizens were able to directly access services, and a total of UGX. 202,997,865/=, in form of unpaid employment benefits was subsequently paid to individual complainants.
6. Concluded 35 Investigations into the breaches of the leadership code, from which various recommendations were made including a refund of shs. 36,976,825/=.
7. Conducted verifications of 360 declarations of leaders' Incomes, Assets and Liabilities (Physical verifications 70, and E- verification 290).
8. Prosecuted 04 corruption cases at the Anti-Corruption Division of high court resulting into 02 Convictions, 01 Acquittal, and 01 Withdrawal. The convicted persons were ordered to refund UGX 393,640,000.
9. Prosecuted 09 cases on breaches of the Leadership Code at the Leadership Code Tribunal. All the cases resulted into convictions and payment of UGX 10,700,000 in fines.
10. Recovered UGX. 1,543,839,812 from IG/Court orders, through the IG recovery account.

Variations and Challenges

1. IG approved budget for FY 2023/24 amounts to UGX. 86.472 bn disaggregated as follows; - Wage 27.953bn, Non-wage 35.122bn, and Development budget 23.397bn.
2. By the end of the reporting quarter (Q2), the Institution had received UGX. 43.813bn of its approved budget; comprising of Wage UGX.13.977bn (50%), Non-Wage UGX.18.138bn (52%), and Development expenditure UGX. 11.698bn (50%).
3. From the releases, UGX. 14.425bn remained unspent.
4. The biggest percentage (68.19%) of the unspent balance, UGX. 9.836bn was on development expenditure which had already been committed for payment of certificates submitted by the contractor. The payment processing was ongoing.
5. The other part of unspent balance included UGX.0.866bn (6.00%) on Wage and UGX 3.723 (25.81%) on Non-Wage recurrent.
6. The balance on wage was meant to have been paid to staff who left the Institution and are yet to be replaced. The recruitment exercise for replacements was still ongoing.
7. As well, the unspent funds under non-wage recurrent were due to ongoing procurements and delayed submission of relevant invoices from service providers.

Performance highlights for the Quarter

The 11th Parliament commenced business for the 3rd Session in June, 2023 immediately after delivery of the State of the Nation address and the Budget Speech by H.E the President. This was followed by designation of members to Sectoral Committees in accordance with Rule 187(1) of the Rules of Procedure of Parliament of Uganda.

In view of the above, the following were activities delivered during the second st quarter of the FY 2023/24. The performance information explained below was attained in line with the mandate and programme objectives of the legislature

- i) A total of 52 against the annual planned 109 plenary sittings were held by the end of quarter two to handle the legislative and oversight business before Parliament.
- ii) Fifteen Bills (15) bills were passed against the planned 35 Bills for the FY 2023/24
- iii) Four Constitutional reports debated and adopted.
- iv) 752 committee meetings which are open to the public were held against the annual planned of 1,660 meetings
- v) 26 Committee reports were debated and adopted by the House against the planned annual of 60 reports
- vi) 73 Committee oversight field visits were carried out against the annual planned of 150
- v) 272 questions were responded to by the Executive to address the concerns of the citizenry against the planned 530 in the FY 2023/24
- vi) 43 Ministerial and other Statements on various sectoral issues were presented and debated by Parliament against 80 planned for the year and
- vii) 45 resolutions on various motions passed by the House against the planned 80 for the year
- viii) At regional and international levels, Parliament participated at the second Russia-Africa Economic summit in Moscow, and attended, 18th conference of Speakers and presiding officers of the commonwealth African Region.
- ix) Although the works are behind schedule, the Commission has achieved up to 41% progress of the Project
- x) The Parliament of Uganda effectively Participated in the East African Parliamentary Games held in Kigali-Rwanda

Variations and Challenges

- i) Inadequate Committee and Office Space for Members of Parliament as a result of slow progress of the Construction project of the new Chamber
- ii) Delayed and/or inadequate responses from the cabinet/MDAs to the Questions and concerns raised by Members during plenary and Committee meetings.
- iii) Lack of developed integrated data generation systems which caused delays in production of performance reports
- iv) Low response of the public during bill consultation process
- v) Inadequate ICT equipment and services to effectively and efficiently support business processing in Parliament and ease access to information by various stakeholders
- vi) Lack of integrated ICT tool to ease Monitoring and Evaluation processes

Performance highlights for the Quarter

The following are the major achievements during the quarter:

75 ADCON stations, 32 Manual stations and 67 Rain gauges were maintained to produce weather data.

One seasonal climate outlook (September-December) was issued on for central, eastern, northern and western regions with advisories to particular climatological zones.

3 radio programs held in Jinja, Mbale, and Soroti on the seasonal forecast and severe weather alerts.

552 Terminal Aerodrome Forecasts, 68 SIGMETs and 17,664 METARs and 4362 Flight folders issued for Entebbe and Soroti (operating 24hrs); Gulu, Arua, Kasese, Kajjasi, Kabaale, Jinja and Tororo (operating 12hours) Aerodromes.

Daily forecasts disseminated to 3 media houses of UBC TV, Star TV, Bukedde 1 T.V after the newscasts in Luganda, Swahili and English

Draft of the State of the Climate of Uganda Report 2023 completed. Final report expected by the end of Q3.

Variations and Challenges

The Terminal Aerodrome Forecasts and METAR figures look the same because the observations are routinely scheduled with-in specific periods, apart from the flight folders. The SIGMETs increased in number due to the rainy season that dominated our flight information region (Uganda air space).

Performance highlights for the Quarter

Financial Performance: By end of Q2, the vote received UGX. 11.69Bnn representing 50% of the approved annual budget of UGX.23.3Bn. O/w UGX. 4.3Bn was wage, UGX. 5.4Bn was NWR and UGX. 1.54Bn was capital development. During the period, the Centre spent UGX. 11.75 billion representing 88.4% of budget released.

Key Achievements: (i) developed and edited four (4) Junior certificate courses for (agriculture, cosmetology, body therapy, welding and metal fabrication and plumbing), (ii) developed the ECCE Curriculum Framework, Daily Routine Guide, Assessment and Implementation Guidelines for Baby, Middle and Top classes and (iii) oriented 59 instructors on the reviewed Learning Framework, the Daily Routine Guide, the Implementation Guidelines, Assessment Guidelines, and the ECCE Curriculum Framework.

Variations and Challenges

The vote projected to receive UGX. 13,290,472,170 by the end of Q2, however, UGX. 11,691,627,170 representing 88% of expected funding received. As result, the vote could not complete the Schemes of work and lessons for the entire Lower Secondary Curriculum (LSC). The Centre had planned to use the schemes of work and lesson plans to provide practical level support to Teaching in the proper interpretation of the LSC.

Performance highlights for the Quarter

A) Performance highlights during Quarter 2 FY 2023/24

- Upgrading of 21 road development projects covering a total distance of 1,201.3km continued
- Road Upgrading: 43.05 km equivalents were upgraded to paved standards
- Road Rehabilitation: 14.92 Km equivalents were rehabilitated
- Bridges and Structures: Osu bridge on Arua-Biliafe-Otrevu road was substantially completed
- Land Acquisition: 64.41 hectares of land were acquired for the right of way
- The following road upgrading works contracts were awarded
 - o Namagumba-Budadiri-Nalugugu Road(39km)
 - o Kisubi-Nakawuka-Nateete(27km), Nakawuka-Kasanje-Mpigi(22km), Nakawuka-Mawagulu-Nanziga-Maya(11km), Kasanje-Buwaya(9km) and Entebbe-Nakiwogo(3.5km)
 - o Rehabilitation of Matugga-Semutto-Kapeeka(41km) and upgrading of Town Roads

B) Q2 cumulative Performance highlights during FY 2023/24

- Upgrading of 21 road development projects covering a total distance of 1,201.3km continued
- Road Upgrading: 93.68 km equivalents were upgraded to paved standards
- Road Rehabilitation: 30.30 Km equivalents were rehabilitated
- Bridges and Structures: Osu bridge on Arua-Biliafe-Otrevu road, Lugogo Swamp Crossing along Kyamukonda-Kasozi-Ngoma Road, and Khamitsaru Bridge on Kufu-Lwakhakha Road were substantially completed
- Land Acquisition: 84.489 hectares of land were acquired for the right of way
- 25.8% by value of signed contracts worth UGX 2.6 trillion were awarded to local providers
- The following road works contracts were awarded
 - o Kabale-Lake Bunyonyi and Kisoro-Mgahinga Roads(33.2km)
 - o Luku-Kalangala-Mulabana Road(65.3km) & 7No. Town Roads(10.67km)
 - o Access Road to Kabale International Airport from Kabaale Kizirafumbi
 - o Namagumba-Budadiri-Nalugugu Road(39km)
 - o Kisubi-Nakawuka-Nateete(27km), Nakawuka-Kasanje-Mpigi(22km), Nakawuka-Mawagulu-Nanziga-Maya(11km),Kasanje-Buwaya(9km) and Entebbe-Nakiwogo(3.5km)
 - o rehabilitation of Matuuga-Semutto-Kapeeka Road(41km) and upgrading of Town Roads

Variations and Challenges

1. Recurrent Wage

Only 4% (UGX 1.412Bn) of the cumulative recurrent wage bill (UGX 35.553Bn) released was unspent by close of the second quarter (Q2) of FY 2023-24. UNRA did not absorb 100% of the releases because of increased staff exists and no replacements have been made.

2. Recurrent Non-Wage.

17.7% (UGX 3.416Bn) of the cumulative recurrent non-wage budget (UGX 19.263Bn) released was unspent by close of the second quarter (Q2) of FY 2023-24.

3. Development Budget

3.1 Performance of Development - GoU Financed Budget

6.3% (UGX 32.61Bn) of the cumulative GoU Development budget (494.707Bn) released was unspent by the close of the second quarter (Q2) of FY 2023-24. Note that the released budget represents 51.6% of the appropriated Budget released.

3.2 Performance of Development - Externally Financed Budget

60% of the released Development External budget amounting to UGX 634.348Bn was spent by end of the second quarter. The cash limit amounting to UGX 634.34Bn represents 45% of the approved annual External Financing budget released.

Half year Financial Challenge

- a) Inadequate funding. UNRA has closed the half year with debt amounting to UGX 871.497Bn of which UGX 307.278Bn relates to land acquisition. This debt has been outstanding for long time and is currently accruing interest at UGX 211,224,486 per day. A number of contractors have threatened to abandon works and pursue other legal means to recover the outstanding sums. It would be disastrous if the contractors indeed stop works and demobilize.
- b) Interest payment. Due to budget suppression that has caused delay in payment to contractors, UNRA has paid UGX 8.38Bn in interest payments between July to December 2023 while UGX 16.05Bn remains interest unpaid by end of the second quarter.

Performance highlights for the Quarter

Construction of the auxiliary building was on schedule with the contractor having completed the shell for the building. Completion is thus envisaged to be in a phased manner, floor by floor. Modification of the first floor was ongoing to facilitate installation of the Nuclear medicine/PET project equipment like the hot labs.

The designs for the PET Center were completed. They include the isotopes production facility, cold radio pharmaceutical facility and the vivarium for animal research.

Variances and Challenges

Recruitment of staff was behind schedule owing to the injunction by the office of the IGG on staff recruitment. However the injunction was since lifted and the vacant positions for Northern Uganda regional center and the main campus were since advertised.

Delays in completion of the multipurpose building impacted installation of the MRI and ICT equipment in the multipurpose building. This was attributed to inadequate funding to complete the building. This was addressed through additional funding to allow for completion of the multipurpose building

Performance highlights for the Quarter

- The availability of funds enabled implementation of most of the planned activities.
- The recruitment process of more staff on temporary contracts is still ongoing expected to be concluded by February 2024.
- The UHI Infrastructure Project Launch workshop was concluded in December 2023. The prequalification process for a contractor will commence in Q3.

Variances and Challenges

- Variation in performance of open heart surgeries was caused by the power surge which further led to damage of equipment such as the heat exchanger.
- The delays in declaration of project effectiveness also led to delays in implementation of planned project activities.
- Research activities are ongoing as we await change in work plan to accommodate a research agenda and research dissemination. Funds for research activities to be mostly spent in Q3 & Q4.

Performance highlights for the Quarter

NMS received Shs. 393.9 bn and spent Shs 268.3 billion by the end of Quarter 2 of the FY 2023 24 representing 68.1 percent overall performance.

The release and expenditure was in accordance to levels of care i.e. Health centre II 10.67 bn, Health centre III 29.38 bn, Health centre IV 8.85 bn, General hospitals 19.5 bn, Regional Referrals 5.5 bn, National Referral hospitals 4 bn, Anti TB drugs 1.63 bn, Specialized units 112.88 bn, Emergency and donated items 1.98 bn, Laboratory items 31.98 bn, 9.69 bn and 31.05 bn for Administrative support and Corporate services respectively.

The expenditure on Essential Medicines and Health Supplies was 66 percent of the released funds, 86.9 percent for other corporate support services and 19.6 percent on development.

Shs 9.2 bn was spent on reproductive health items, family planning and safe delivery kits MAMA KITS, to all women during child birth spread across the entire Country including the hard to reach and hard to stay in places like Kaabong, Abim, Ntoroko, Zombo and the Islands of Kalangala, Buvuma and Namayingo.

Shs. 83.59 bn was spent on ARVs that were equitably distributed to all government treatment centres spread across the entire Country ranging from Health Centre IIs, IIIs, and IVs up to the National Referral hospitals. These were accessible to all categories of the population including women, men, girls, boys, persons with disabilities, the poor, orphans, prisoners and ethnic minorities like the Batwa and Bamba in Bwindi and Ntoroko.

Shs. 1.9 bn worth of anti malarial medicines and supplies were equitably delivered to all public health facilities spread across the entire Country including the hard to reach, hard to stay in places and the rural residents.

Shs 5.9 bn was spent on vaccines and Immunization supplies meant for children below 5 years against the published list of killer diseases, girls above 10 years for prevention of cervical cancer, women of child bearing ages for prevention against transmission.

Variations and Challenges

Lack of funding from Government to finance warehousing and distribution costs of donated medicines and supplies hence constraining operations.

Delayed release of operational funds by MoFPED which affects timely delivery of EMHSs to health facilities resulting into complaints.

Increased expiries especially of the Covid-19 vaccines as a result of slow uptake by the public with no funding for retrieval and destruction of the expired vaccines.

No substantial and proportionate increase in the funding for Medicines and Health Supplies despite increase in the population and reduction/withdrawal of some Partner support.

The increase in the number and cases of Non communicable Diseases infections especially among the elderly has not been matched with an increase in funding.

The Appropriations Act restricts expenditure of a vote to funds appropriated for the year. Whereas NMS is mandated to procure, store and distribute Essential Medicines and Health Supplies EMHSs on behalf of Government, funds for procurement of EMHSs are sometimes appropriated to the other votes posing challenges of implementation and accountability.

Access challenges to some of the Islands like Kalangala, Buvuma and Namayingo and other hard to reach areas like Kisoro and Buvuma islands especially during the rainy seasons which causes delays in delivery of the essential medicines and health supplies.

Performance highlights for the Quarter

In Q2 the Fund received UGX150.190bn (less URF Secretariat and development expenditure) earmarked for routine and periodic maintenance of public roads in designated agencies. Out of the release received, UNRA was allocated UGX115.364bn (39.22%), DUCAR(District, Urban and Community Access Roads) maintenance was allocated UGX31.939bn (21%), KCCA UGX2.0bn and cities 0.887bn. of the Q2 IPF.

This has enabled road maintenance program to progress on schedule except for those areas that were heavily affected by rain like eastern and some parts of Western region

Variances and Challenges

The cash limit for Q2 FY2023/24 cumulatively reflected 52.8% of URF annual roads maintenance budget of UGX434.952bn for FY 2023/24 a This has enabled road maintenance program to progress on schedule except for those areas that were heavily affected by rain like eastern and some parts of Western region

Performance highlights for the Quarter

Budget Performance:

a) Expenditure on Wage: UGX 0.564bn in wages remained unspent at end of the quarter due to vacant positions that still exist including common cadre staff in accounts and procurement; equally, not all the immigration Officers recently recruited have accessed the payroll.

b) Expenditure on Non- Wage Recurrent: UGX 73.471bn remained unspent as a result of uncompleted procurements and supplies that have not been made e.g e-passport books.

c) Development budget: UGX 1.907bn also remained unspent under the development budget since most of the capital works were ongoing by end of Q2.

d) Non-Tax Revenue (NTR): The NTR projection for the FY 2023/24 is UGX 477.95bn (by MoFPED). At the end of Q2, UGX170.287bn in NTR was generated; this is only 35.6% of the annual projection.

e) Other Physical Performance:

i) 2,655 immigrants investigated, 62 of them regularized their stay, 302 irregular immigrants were removed from the country.

ii) 110 immigration suspects were arraigned before court and 85 of them were convicted and fined. 17 cases are still on-going.

iii) 71 appeal cases were verified/investigated and processed for the attention of the Minister

iv) 100% clearance of all travelers at all gazette border entry points (a total of 2,343,741) travelers comprised of 1,156,306 arrivals & 1,187,435 departures.

v) As part of border clearance, a total of 10,490 travelers were labour migrants to the Middle East; 3 cases of suspected victims of TIP intercepted, a total of 59 inadmissibles were managed due to adverse records.

vi) 100% of applicants for immigration facilities processed for issuance. (Work permits-6,937, Dependent passes-3,565, Student passes-6,846; Certificate of residence-67 granted and 130,471 visas issued).

vii) 93% of eligible applicants issued passports (159,935 passport applications received of which 100% were processed while 147,665(92.3%) were issued.

viii) 1,308 applications for Certificate of identity were issued for emergency travels

Variations and Challenges

Introduction:

1. The implementation of the budget during the second quarter was overall good despite experiencing some challenges. The second quarter cash limit was this time sufficient to allow preparation of a comprehensive call off order for supply of passport booklets. However, there were delays on the part of the supplier to make the deliveries within the quarter as planned.

2. Our business process improvements have facilitated an effective and efficient passport service delivery; resulting in reduced turnaround time for issuance of passports from an average of 8 days to 5 days now for ordinary passports and 2 days for express passports.

3. Regarding human capital development, the Directorate concluded training of the 57 newly recruited immigration officers and were commissioned and passed out from the Police Training Academy in Kabalye (Masindi district).

4. On enhancing access to immigration services, we have fully operationalized all the 7 e-passport enrollment centers at Uganda Missions abroad as per the joint venture agreement. The e-immigration system is also deployed at 22 Uganda missions abroad. However, we have only deployed immigration attaches at 7 missions abroad where we have the e-passport enrollment centers.

The challenges are language difficulties in some countries, vast areas of coverage for Ugandans in diaspora, and no mobile kits for registration of citizens in distant areas.

5. Limited staffing continues to impose service delivery challenges especially in areas of regional inspections and surveillance. The recruitment of the 57 immigration officers is a drop in the ocean.

6. Poor staff welfare continues to remain an impediment to efficient and effective service delivery, staff are prone to risks e.g. no insurance policy while on maritime operations, patrols and exposure to pandemic and infectious diseases.

7. The insecurity in Karamoja region, the DRC/Uganda borderline continues to hamper immigration surveillance and patrols.

Performance highlights for the Quarter

DAIRY EXPORT PERFORMANCE

During Quarter two FY: 2023/24, the dairy industry registered a total export value of UGX.85.98 Billion compared to UGX.41.59 Billion recorded in Q1, this represents a 106.7% increase. Dairy imports reduced from UGX.9.59 Billion to UGX.8.12Billion in the same period. The increase in exports and reduction in imports was due to Q2 being a rainy season which has the greatest impact on milk production in the country.

KEY OUTPUT PERFORMANCE HIGHLIGHTS:

- 1,361 dairy farmers (Male-983, Female-378, Youths-152 ,PWDs- 21) trained in good dairy farming practices such as pasture establishment and conservation, animal health management, group dynamics and strengthening, clean milk production, milk quality assurance, testing and handling practices in all the milksheds in the country.
- Conducted five (05) dairy farm visits to provide onsite relevant applicable technical advice to dairy farmers. Relevant statistics were collected on the farms such as milk production, herd size, breed types and relevant technical advice given to farmers.
- Revitalized the dairy stakeholder platforms in all the six milksheds to involve private sector actors in decision making. The plat forms consist of different stakeholders along the dairy value chain in all the milk sheds up to the national level.
- Inspected a total of 558 milk handling premises involving equipment, processing plants, Freezers/retail outlets, Road Tankers/transporters, MCCs/ Coolers import and export consignment for compliance with quality standards.
- A total of sixteen (18) quality enforcement operations and nine (11) market surveillance activities were conducted during the quarter to promote adherence to quality standards .
- Registered and licensed a total of 90 dairy business/premises across different milksheds.
- Collected and analyzed a total of 2,124 milk and dairy product samples at regional laboratories and National Dairy Laboratory at Lugogo.

Variations and Challenges

The biggest challenge in budget execution in the half-year is the low absorption of the budget released to the Vote. This is mainly due to the limited vehicle fleet and its old state with frequent break down. Also the Q2 funds were released a bit late and this affected timely initiation of some of the procurements.

Cumulatively over the budget execution period, the vote received a sum of UGX.9.586 Billion at the end of the quarter representing 51.3 per cent annual budget revenue performance. The cumulative budget expenditure performance was 32.2 per cent while the release expenditure performance stood at 62.7 per cent only.

The quarterly revenue release performed well against the budget, this was due to the compensation for the poor release in the first quarter. The cumulative release performance for each budget component was as follows, wage (50%). , Non wage recurrent (53%). and Development(50%).

The poor revenue performance for Q1 especially for development funds(0%) delayed the initiation of procurements for critical planned economic investments in the dairy industry , especially the rehabilitation and equipping of the Mbale Milk processing factory and other Milk Collection Centers.
