#### (ii) Matters to note in budget execution

Substantial progress was made in the in implementation of the national roads development and maintenance programme. Targets for most of the ongoing projects were met. The challenge was with new projects because of procurement delays.

Procurement remains the major challenge because of the long lead term. Most of the periodic and term maintenance contracts have taken more than a year to conclude. The length of the procurement process has been increased by the new requirement for undertaking due diligence on all procurements and verifying all guarantees/ securities.

The new requirement for Tax Identification Numbers (TIN) affected the pace of land and property compensation as most of Project Affected Persons do not have these numbers.

## Table V1.3: High Unspent Balances and Over-Expenditure in the Domestic Budget (Ushs Bn)

(i) Major unpsent balances
Programs , Projects and Items
3.80Bn Shs Programme/Project: 01 Finance and Administration
Reason: Unspent balance was for gratuity due at the end of the FY.
Items
3.78Bn Shs Item: 211102 Contract Staff Salaries (Incl. Casuals, Temporary)
Reason: The unspent balance was staff suspended and staff not paid because similarities of names in the system
(ii) Expenditures in excess of the original approved budget

The rate of implementation of ongoing is higher than planned. As a result, the budget provisions are likely to be inadequate and a supplementary budget may be required during quarter 4 to maintain the same level of performance. The reintroduction of VAT on new contracts is likely to limit the amount of outputs because some of the money which would have been used for paying for works will be used to pay VAT. The net effect is accumulation of debts with resultant accrued interest which has to be paid. We request MoFPED to increase our tax allocation to meet the VAT requirements.
