(ii) Matters to note in budget execution

Lack of adequate staff in the accounting section made the reporting and submission deadlines delay.

For support services more staff needed in the accounting and records section of the hospital. For the technical services more medical officers and specialists are needed.

Under capital development, as a result of unforeseen construction obligation; the renovations for Paediatric ward and Maternity ward have variations that will require more funding. By third quarter all the planned works will have been completed however the variations require urgent funding.

Under Medicines and Health supplies; the delivery of tracers for drugs, sundries, equipments, linen, infection control supplies and medical stationary is still a challenge. Allocation of more funds for such items would bridge the gaps.

Clients are giving more preference to coming to health facilities for immunization as seen in the hospital mobilization which resulted in turn up for immunization.

For report compilations, the hospital needs more records personnel and accounts and improved I.T system.
