#### Performance highlights for the Quarter

The major constraint during the period under review was the limited budget ceiling which affected implementation of some key activities i.e. procurement of vehicles to replace the aging fleet for RDCs and adequately facilitating them to intensify mobilization and monitoring activities in the districts; out of one hundred and forty four field vehicles required, only five were procured. In addition, new districts coming into operation in FY 2018/19 also require sound vehicles; enhancement of intelligence collection; purchase of classified equipment and payment of domestic, gratuity and leave arrears for ISO staff; improvement of infrastructure at NALI including lecture rooms and residential accommodation; facilitation of Presidential Advisors some of whom were appointed on Ministerial terms and conditions; facilitation of the Manifesto Unit to monitor implementation of the Manifesto; purchasing of medals; facilitating the medalists and payment of outstanding utility arrears at the new office block.
