#### (ii) Vote Strategic Objective

a. To meet the energy needs of Uganda's population for social and economic development in an environmentally sustainable manner

b. To use the country's oil and gas resources to contribute to early achievement of poverty eradication and create lasting value to society c. To develop the mineral sector for it to contribute significantly to sustainable national economic and social growth

### V2: Past Vote Performance and Medium Term Plans

#### Performance for Previous Year FY 2016/17

#### ENERGY PLANNING MANAGEMENT AND INFRASTRUCTURE DEVELOPMENT

Government continues to register further positive developments in improving electricity generation, transmission and supply to support industrialization as well as ensuring universal access to affordable, reliable and modern energy services.

#### i) POLICY AND REGULATION

Electricity Amendment Bill: Cabinet approved principles to be embodied in the Bill and a draft has been prepared. The target is to table the Bill in Parliament within the FY 2017/18.

Energy Policy 2002 Review: The Ministry embarked on consolidating the gains of the Energy policy 2002 and the different subpolicies into one overarching policy document. Presently, consultations with various stakeholders are being undertaken.

#### ii) POWER GENERATION, TRANSMISSION AND DISTRIBUTION INFRASTRUCTURE

#### **Electricity Generation Capacity:**

The total installed power generation capacity currently stands at 947MW. A total of 32.7MW of power generation capacity was added in the FY2016/17 from the Soroti solar plant-10MW; Mvumbe 6.5MW, Siti I 6.2MW; Tororo Solar PV 10MW.

A total of 3,744.38 GWh were generated in 2016 with 88.3% from hydro power plants. The country imported 40.731 GWh and exported 165.003 GWh resulting into a surplus electricity trade balance of 124.272 Gwh..

Construction works is progressing in various areas to increase the generation capacity as follows:

Karuma HPP (600MW) was 59% complete as at end of June 2017 and scheduled for completion December 2018 Isimba HPP (183MW) was at 61.38% complete as at end of June 2017 and scheduled for completion August 2018.

Agago – Achwa 42MW was 60% complete in June 2017 and scheduled for completion December 2018.

#### **Electricity Transmission Projects**

Transmission projects completed in FY2016/17 are; Bujagali Switch yard; Queensway Substation upgrade; Kawanda Substation Upgrade and Fort portal Substation. Transmission projects to be completed and commissioned by the end of the FY2017/18: Bujagali-Tororo-Lessos 220kV, 127km line; Mbarara – Mirama – Birembo 220kV, 66km line; Tororo - Opuyo - Lira 132kV, 260 km line; Mbarara - Nkenda 132kV, 160km line; Kawanda - Masaka 220kV, 137km line and Nkenda - Fort Portal-Hoima 220kV, 226km line.

### NUCLEAR POWER DEVELOPMENT

- Preliminary survey of potential sites for nuclear power development was conducted in Buyende, Mubende, Nakasongola, Kiruhura and Lamwo Districts.
- IAEA expert mission on Site and External Events Design (SEED) was received to review the siting process for nuclear power plants in Uganda.
- Policy, legal and institutional frameworks were reviewed and consultation on the draft Nuclear Energy Policy is ongoing

#### RENEWABLE ENERGY PROMOTION

#### **Biogas Technology Promotion and Dissemination**

- National Bio gas standards for domestic systems were finalized
- One demonstration bio latrine system was constructed at St. Barnabas Secondary School Karujanga, Kabale district
- Three (3) sites identified for electricity generation from Biogas namely: Jesa Dairy Farm, Busunju; NITCO Farm, Masindi and Kigwengwe Dairy farm, Kabarole District
- Construction of 10kW biogas system for electricity generation in Apac. Preliminary studies for sustainable feedstock supply were concluded and a draft MoU developed between the MEMD, Apac DLG and CEPA for the operation and maintenance of the Kayei Biogas plant.
- One Institutional cook stove was constructed in at Namisindwa Technical Institute.
- Final Draft National Standards for Household biomass stoves developed;
- A certification scheme for household cook stove manufacturers developed

#### OIL AND GAS SUB-SECTOR

#### UPSTREAM

#### Legislation

The ministry together with the NEMA reviewed and/or developed the National Environment Act and the attendant Regulations required for regulation of environmental aspects of the oil and gas sector.

#### Licensing

- Eight (8) Production Licenses were granted on 30th August 2016. Five (5) to Tullow Uganda Operations Pty Limited and three to Total E&P Uganda B.V. (Total). The ministry is currently evaluating three additional applications for production licenses. Thirteen (13) Field Development Plans have been approved..
- Government issued one (1) new exploration license in FY 2016/17

#### Geological and geophysical surveys: The ministry commenced intensive community sensitization in the in Kadam-Moroto prior to resumption of the surveys due to hostile reception in the earlier surveys.

#### MIDSTREAM

#### **Refinery Development**

Government is engaging the other Investors and Land acquisition is at 98% (the remaining 2% are court cases) and resettlement of PAPS completed.

#### **Development of Crude Oil Pipelines**

- The Front-End Engineering Design (FEED) study for the Hoima Tanga East Africa Crude Oil Pipeline (1445km) was launched in January 2017, with a target of FID in December 2017. Inter-government Agreements have been signed by Governments of Uganda and Tanzania.
- The Hoima-Kampala refined petroleum products pipeline detailed routing of the corridor, together with the Environmental Baseline Survey studies was completed in September 2016. The land acquisition process for the infrastructure corridor commenced with development of a Resettlement Action Plan (RAP) study.

#### DOWNSTREAM

Storage and Transportation of Petroleum Products: The 30 million liter Jinja Storage facility is operational under a PPP.

#### NATIONAL CONTENT FOR THE PETROLEUM SECTOR

The National Content Policy together with the Strategy and Plan for National Content Development and Capacity building for the oil and gas sector was resubmitted to Cabinet for approval.

**National Suppliers' Database and a National Talent Register** is being developed to ensure that first priority for employment and supply of goods and services is given to Ugandans. Government is working with the licensees, development partners and the private sector to fill the necessary capacity gaps identified.

#### MINERAL SUB-SECTOR

#### Policy and Legislation:

- A draft amended Mining Policy and Mining Act are ready to be presented to Cabinet this FY 2017/18.
- A draft geothermal policy has also been prepared and consultations with key stakeholders is ongoing.
- The bill for certification of mineral rights was passed by parliament in May 2017.

#### **Geological Surveys and mineral appraisals**

- More minerals targets of gold, Iron ore, bentonite and Uranium were identified. Three uranium priority potential targets with anomalies; 48.2ppm in Kiboga district, 904ppm of uranium in Buhweju district and 450.6 ppm in Kyambogo Ssembabule district were mapped. Radioactive anomalies with equivalent Uranium Concentration upto 4500 ppm were discovered in Buhweju.
- 1,253,331 tonnes of Bentonite at Kaiso Tonya, Hoima district and 30 million tonnes of iron ore in Rutenga were established.

#### Licensing and inspection

- A computerized Mining Cadaster and Registry System was developed to allow for online transactions to reduce bureaucracy in licensing process.
- The value of minerals reduced from Shs. 101Bn in 2015 to 99Bn in 2016 due to global economic recession and lack
  of mineral certification.

#### **Geothermal Resources development**

Surveys were conducted in Hoima, Bundibugyo, Kasese and Nebbi districts. Findings at Buranga and Kibiro indicated subsurface temperatures suitable for electricity, agriculture and spas in hotels.

#### **Flagship projects**

MEMD continued to monitor flagship projects within its mandate i.e. the Sukulu phosphates project which is expected to start production by 2018 while Kilembe mines was issued with a notice of termination of agreement due to under performance.

#### **Mineral laboratory**

During the period under review, 57 gold samples and 35 other geological materials were analyzed for purposes of assessing royalties and facilitating mineral trade. The laboratory also undertook analysis of geothermal samples for characterization of geothermal fluids

#### **Earthquake Monitoring**

The Ministry installed additional nine (9) seismic stations in North-East Uganda and continued monitoring geo-tectonic activities.

#### Performance as of BFP FY 2017/18 (Performance as of BFP)

#### LARGE HYDROPOWER GENERATION PROJECTS

**Development of Karuma Hydropower project (600 MW):** As at 31st October 2017, the physical progress was at 67.2%. RAP implementation for the evacuation lines with the corridor acquisition for Karuma-Kawanda was at 68%; and acquisition for Karuma-Olwiyo was at 70%.

**Isimba 183MW hydropower project:** As at 31 October 2017, the physical progress was at 74.8%. RAP Implementation for the Dam site was at 98.9%; the Reservoir Area was at 93.7% and the transmission line was at 89.3%.

**Nyagak III (5.5MW):** The Plant layout and optimization report were finalized. Additional land was also identified and the process acquisition was initiated. The project basic design is being undertaken.

**Muzizi (44.5MW):** Additional geotechnical studies have been completed and the tunnel solution for the headrace was agreed upon. The EPC tendering is to commence this second quarter of FY 2017/18.

Achwa (83 MW): The project is being developed by a private developer, ARPE Ltd as a Public Private Partnership in two phases 41MW Achwa 1 and 42MW Achwa 2. Achwa 2 is currently under construction of which 60% of the works at the intake have been completed. The powerhouse construction activities are progressing as per schedule. The weir and reinforcement of the structure at the rubber dam is being undertaken. The construction of the plant is scheduled to be commissioned in October 2018.

#### Transmission Infrastructure

The progress for the transmission lines as at end of October 2017 is as follows; Tororo-Opuyo-Lira 132kV was at 74%, Mbarara-Nkenda 132kV was at 82%, Bujagali-Tororo-Lessos 220kV was at 75%, Mbarara-Mirama 220kV was at 90%, Nkenda-FortPortal - Hoima 220kV was at 70%, Kawanda-Masaka 220kV was at 85%, Karuma – Kawanda 400kV, Karuma-Lira 132kV, Karuma – Olwiyo 132kV was at 10%, Electrification of Industrial Parks (Namanve South, Luzira, Iganga and Mukono) was at 5%, Bujagali – Isimba 132kV was at 60%.

#### PROMOTION OF RENEWABLE ENERGY SYSTEMS (Solar, Wind and Pico hydro Resources)

- Installation of two hybrid solar/wind systems for electricity generation in kacheri, Kotido and lokopo, Napak was at 90% implementation.
- Uprade of seven wind turbine systems to hybrid solar/wind systems was at 90% completion
- Installed one solar drying system for agriculture post-harvest in kangulimira, kayunga district.
- Commenced feasibility studies for the development of a 50 KW community power project in Kasese district.

#### **ENERGY MANAGEMENT**

Comprehensive Energy Audits continued in the five (5) High Energy Consuming Industries and Energy Audits in two (2) industries are being undertaken namely; Agroways (U) Ltd and UGACOF (U) Ltd.

**Draft Energy Efficiency and Conservation Bill:** The technical stakeholder workshop was held on 29th September 2017. Additional Input and comments were received for incorporation and the next stage is submission to Cabinet.

Energy Week 2017 was held from 11th to 16th September 2017.

Consultancy to develop SE4All district Action Agendas (energy assessments for gaps and opportunities) for Kitgum and Pader was procured under the UNDP's Inclusive Green Growth Programme. Duration for this exercise is 3 months, from July to September 2017.

#### **BIOMASS ENERGY RESOURCE MANAGEMENT**

#### **Biogas Technology Promotion and Dissemination**

 The procurement process of 5 bio latrine systems is in progress. ToRs, specifications, pre-selection of sites was accomplished.

#### **Gasification technology**

• 55 institutions have been selected for demonstration of thermal gasifiers and the procurement process of the contractor is ongoing.

#### **Briquetting technology**

• Training in business skills development including marketing and entrepreneurship is being conducted for 12 charcoal producer groups that received briquetting equipment.

#### **Improved Charcoal production**

 Training in business skills development and entrepreneurship is being conducted for charcoal producer groups in the project pilot districts of Mubende, Kiboga, Nakaseke and Kiryandongo.

#### OIL AND GAS

#### **Upstream Petroleum**

#### Promotion of the Country's Petroleum Potential

The ministry has developed preliminary basin models for the sub-basins in the Albertine Graben, namely; Lake Edward-George, Semliki, Southern Lake Albert, Northern Lake Albert, Pakwach and Rhino-Camp Basins as a first step towards the estimation of undiscovered oil and gas resources. Play and Prospect assessment will be undertaken during FY 2017/18 to complete the resource estimation.

The 22nd World Petroleum conference was held in Istanbul from the 9th - 13th July 2017 and Uganda participated in this conference.

#### Implementation of the Communication Strategy for the Oil and Gas

During the months of July and September 2017, the Ministry participated in talk shows in local radio stations in the sub-regions of Bunyoro, Ankole, West Nile, Acholi/Lango, Karamoja/Teso, Busoga, Bugisu and Buganda.

#### **Midstream Petroleum**

**Refinery Development**As at the end of Q1 FY 2017/18, 98.5% of PAPs in the refinery area who opted for cash compensation have been fully paid. the remaining 1.5% are dispute cases which are being handled using the due process and resettlement houses for relocation are 100% complete.

The process of selecting of the Lead Investor is still progressing and the negotiations are ongoing between Government and the selected investor. The process is expected to be completed in FY 2017/2018. There after FEED and ESIA for refinery development will be undertaken with the Lead Investor on board.

#### **Pipeline Development**

- The FEED for EACOP is ongoing and is expected to be completed by the end of 2017.
- ESIA study for EACOP is ongoing and the scoping study report for Uganda section was completed and consequently submitted to NEMA for approval.
- The process of securing a consultant to undertake RAP Study for the Uganda section is ongoing and is expected to be completed during this FY 2017/18.
- The consultant is currently demarcating the corridor for refined products pipeline route from Hoima to a terminal near Kampala required for pipeline. valuation of the property for project affected persons will follow thereafter.

#### Downstream

#### Promotion of Alternative Route through Lake Victoria

- · Study on Petroleum Lake Transport was commissioned and is ongoing
- Petroleum Lake Transport system development groundbraking was carried out by H.E. The President at Bukasa.

#### **Restocking of Jinja Storage Tanks**

JST restocking operations, management and maintainance was transferred to UNOC

• **Developmnt oef Buloba Multi-user products terminal: The** Master plan study was completed with requisite recommendations and is ready to be implemented

#### **Promotion of Liquefied Petroleum Gas**

· LPG Baseline study Interim Report submitted

#### **National Petroleum Information System**

National Petroleum Information System (NPIS) integration with Electronic Single Window progressing well.

#### MINERALS

Policy and Legislation: the Mining Policy and Law; the Geothermal Policy and the Bill for Mineral certification are being prepared and ready for presentation.

#### Inspections and Monitoring of mining and exploration operations

The ministry undertook inspection of Kirwa Wolfram Mine, Nyarubuye Sub-county, Kisoro.

#### Formalization and Regulation of Artisanal Smallscale Miners

- In collaboration with Police, the Ministry is in cleaning up all illegal mining operations with aim of organizing and regulating operations of the ASMs.
- Police Mineral Protection Unit was established August 7th 2017 to support the Ministry in eradication of illegal mining activities in the country.

#### **Geothermal Development**

- Procurement of a drilling contractor has been initiated for Kibiro inititiated.
- Procurement of a consultant to undertake Environmental and Social Impact Assessment (ESIA) has been initiated for Pnayimur and Buranga initiated.

#### FY 2018/19 Planned Outputs

#### Karuma 600MW HPP:

- Complete the installation of all units and commission the Hydro power plant by April 2019.
- Complete the preparation of a comprehensive Human Resource Plan for the Operation and Maintenance of the Karuma Hydropower Plant.
- Complete 100% payment of PAPs.
- Complete 70% implementation of the Community Development Action Plan

#### Isimba 183MW HPP:

- Complete the installation of all units and commission the Hydropower plant by February 2019
- Complete the preparation of a comprehensive Human Resource Plan for the Operation and Maintainace of the Isimba Hydropower Plant.
- Complete 100% payment of PAPs
- Complete 70% implementation of the Community Development Action Plan

#### Transmission projects;

- Bujagali-Tororo-Lessos 220kV, Mbarara-Mirama 220kV, Tororo-Opuyo-Lira 132kV, Mbarara-Nkenda 132kV, Nkenda-FortPortal-Hoima 220kV, Kawanda-Masaka 220kV, Electrification of Industrial Parks 132kV, Bujagali-Isimba 132kV, Karuma Interconnection 400/132kV, Mutundwe-Entebbe, Opuyo substation upgrade, Kawanda 220kV bays to be completed 100%
- 80% completion of Opuyo-Moroto 132kV

#### **OIL AND GAS**

#### Promotion of the Country's petroleum potential and licensing;

- Complete Study of pipeline from Tanzania to Uganda for iron ore smelting and other uses; and Complete phase-3 construction of the National Petroleum Data Repository, Laboratories and Offices in Entebbe
- Promote the development and licensing of the Refinery;
- Promote and develop the Crude Oil Export Pipeline;

#### MINERALS SUB-SECTOR

- Put in place a new legal, fiscal and regulatory framework to govern the mining industry by end of 2018/19.
- Establish and operate a mineral certification system in Entebbe to increase mineral products trade in the great lakes region and to gain global competitiveness.
- Mapping, registration and organization of artisanal and small scale miners country wide (70% completed).
- Extend National Seismological Network by at least 2 stations per year and strengthen earthquake research facility and monitoring network station in Entebbe.
- Carry out follow up exploration on one anomaly for Uranium and one for REE in Uganda.
- Evaluate one iron ore prospect in SW Uganda and one glass sand deposit around L. Victoria.
- Construct at least one mineral beneficiation pilot center to provide services closer to the people and strengthen institutional research capacity in geosciences, mining and promote mineral value addition.
- Equip and improve mineral laboratories for value addition tests.
- Upgrade and maintain two information management systems i.e. (i) Mining Cadastre and Registry System upgraded to include an e-Government system for online and electronic transactions and (ii) Integrated geodata information systems for effective data management and dissemination. Design, construct and install two Infrasound stations in Uganda.
- Undertake sensitization and vulnerability assessment of communities to lightening risks.
- Develop a national strategy on adaptation and mitigation against geohazard risks, such as; lightening and earthquakes.
- Drill Temperature Gradient Wells at either Panyimur or Buranga, and locate sites for three (3) deep exploration wells and draw plans for deep drilling.
- Carry out Environmental and Social Impact Assessment (ESIA) for drilling in two (2) selected prospects and plan for its continuous upgrade.
- Market surveys, Business and Financial models for at least three (3) geothermal areas to guide geothermal exploration, development and utilization.
- Put in place and implement a comprehensive communication strategy for the mineral sector.
- Continue to promote and market the country's mineral investment potential.
- Continue to build capacity of staff and stakeholders of the mineral sector.

#### **Medium Term Plans**

Over the medium term, the sector will continue to implement the following priority areas:

- i). increase electricity generation capacity and expansion of the transmission and distribution networks;
- ii). increase access to modern energy services through rural electrification and renewable energy development;
- iii). promote and monitor petroleum exploration and development in order to increase the reserve base;
- iv). develop petroleum refining, pipeline transportation, and bulk storage infrastructure.
- v). streamline petroleum supply and distribution;
- vi). promote and regulate mineral exploration, development, production and value addition; and;
- vii). inspect and regulate exploration and mining operations.

Other priorities include: -

- i) promotion of efficient utilisation of energy; and
- ii) Monitoring geo-tectonic disturbances and radioactive emissions.

#### **Efficiency of Vote Budget Allocations**

Focus has been made on Capital investments, minimization of arrears and keeping budgetary provisions on consumptive items at the level of FY 2017/18.

#### **Vote Investment Plans**

The major capital investments have been made towards the construction of the large hydro power Infrastructure projects, Transmission Infrastructure development and the implementation of the Resettlement Action Plan, Mineral Wealth exploration and Laboratory Infrastructure.

#### Major Expenditure Allocations in the Vote for FY 2018/19

The major budgetary allocations have been made to the development of the large hydro power Infrastructure projects, Transmission Infrastructure development and the implementation of the Resettlement Action Plan of the Transmission lines, Mineral Wealth exploration and Laboratory Infrastructure.

#### **V3: PROGRAMME OUTCOMES, OUTCOME INDICATORS AND PROPOSED BUDGET ALLOCATION**

#### **Table V3.1: Programme Outcome and Outcome Indicators**

| Vote Controller :           |                                                                                                         |
|-----------------------------|---------------------------------------------------------------------------------------------------------|
| Programme :                 | 01 Energy Planning, Management & Infrastructure Dev't                                                   |
| Programme Objective :       | To promote adequate and reliable energy to achieve increased levels of access to modern energy services |
| <b>Responsible Officer:</b> | James Baanabe Isingoma, Director Energy Resources Directorate                                           |
| Programme Outcome:          | Increased energy infrastructure capacity, in Generation of electricity                                  |

### V5: VOTE CHALLENGES FOR 2018/19 AND ADDITIONAL FUNDING REQUESTS

Vote Challenges for FY 2018/19

Land Acquisition for government projects. This has significantly increased project costs and in some cases led to delays in project implementation. In this regard, there is need to revise the Laws on land acquisition. In a meantime, the Attorney General guided us to proceed as follows:

Create utility corridors to cater for several infrastructure projects to eradicate multiple compensations. Gazette identified corridors for infrastructure projects as soon as Resettlement Action Plan studies are completed; and Pay the Project Affected Persons at rates recommended by the Chief Government Valuer. In case of disputes, have the money deposited in courts of law and allow projects to progress.

Inadequate counterpart funding for compensation which delays disbursements by other funding partners. There is therefore a need to ring-fence and promptly avail counterpart funds for the projects. In addition, there is urgent need to capitalize the Energy Fund.

Procurement Bottlenecks including lengthy bidding processes that require no-objections from the external financiers at each stage of execution. There is need for PPDA to revise guidelines for procurements relating to flagship projects. In addition, the following measures need to be considered:

Implementing agencies be allowed to negotiate for advance procurement once project funding is identified such that by time financing agreements are signed, project is almost ready to kick off. PPDA should reduce the administrative review timelines that sometimes stall progress

Need to waive requirement of No Objection from the external financiers at every stage of execution.

Strong punitive measures for Bidders who derail procurement processes.

Low access of Rural Electrification. Expanding electricity coverage to realize the required transformation in rural areas of Uganda in reasonable time poses unique challenges. First, rural areas are characterized by low population densities due to dispersed settlements. Second, a significant number of households are poor and find it difficult to connect and pay for electricity services. Therefore, despite the heavy investment in the construction of the rural electrification infrastructure which is capital intensive, the connection rates have remained very low.

Management of the Uganda Electricity Board (UEB) successor companies (e.g. UETCL, UEGCL and UEDCL). Under the present arrangement, these companies are managed by Ministry of Finance, Planning and Economic Development. This makes it difficult to achieve operational efficiency. It is therefore important that the Successor Companies in the Power Sector should be supervised directly by the parent ministry instead of Ministry of Finance Planning and Economic Development. This will allow close supervision to achieve operational efficiencies and also to periodically restructure the Agencies (e.g. UETCL, UEGCL and UEDCL) to respond to the new Portfolio of Projects.

#### **Table V5.1: Additional Funding Requests**

| Additional requirements for funding and outputs in 2018/19                                                                | Justification of requirement for additional outputs and funding                     |  |
