Matters to note in budget execution

Matters to Note

¹⁾ Prisoners' population is the major cost driver of prisons budget. It exerts pressure on housing, sanitation, Medicare, feeding, uniforms, staff numbers and delivery of prisoners to courts. Prisoners' population increased by a daily average of 4,571 prisoners from a daily average of 59,280 in June 2019 to a daily average of 63,851 prisoners by the end of June 2020. For example, the budget for feeding at shs.84.77bn was to cater for only 55,303 prisoners; and therefore was approved with a shortfall of shs.9.043bn. The current warder to prisoner ratio is 1:7. The ideal is 1:3

QUARTER 4: Highlights of Vote Performance

- 2) Delay in administration of Justice: The proportion of remands has increased from 48.3% to 48.6%.
- 3) Use of commitment control system amidst inadequate budget provision for basic necessities like food utilities and clothing whose consumption cannot be postponed hence over commitment
- 4) Provision of utilities on prepaid system amidst the inadequate budget allocation leading to requests for post paid hence accumulation of arrears of shs.3.413bn on water and shs.9.542bn on electricity
- 5) Management of the outbreak of Conora Virus disease from March 2020 affected the operations of prisons including closure of all prison establishments from the public, establishment of isolation and quarantine centers, increased Prison congestion as there are no Court releases/convictions, contraction of prisons production activities, cancellation of the planned activities for COVID-19 pandemic activities, suspension of prison visitations, adjustment of staff deployment from the normal three (3) shift system to main shift with selected staff being cut-off from their families and the public, and unrest among prisoners due to the high risk and congestion. This further affected the already constrained UPS budget.

Major Performance Highlights

- 1) Increased holding capacity by 2,522 prisoners (9,079.2M2) from 17,304 prisoners (62,294.4M2) to 19,826 (71,373.6M2) prisoners through completion of construction of prisons at Kyenjojo, Sheema, Nwoya and a mini-max security prison at Kitalya
- 2) 40.6% of staff are housed in permanent houses; completed construction of 220 staff housing units with sanitation facilities at Kitalya, Ragem, Amita, Mukuju and Bulaula:
- 3) Produced 1,209MT of maize seed from 1,254 acres at Amita, Ruimi, Lugore, Ragem, Loro, Kitalya and Orom Tikau
- 4) Produced 7,141 bales of cotton from 8,456 acres
- 5) Produced 13,535MT of maize from 9,435 acres towards prisoners feeding requirements
- 6) Uganda Prisons Industries strengthened its partnerships with government Agencies Non Tax Revenue worth shs.2.145billion generated through production of furniture
- 7) Recidivism rate reduced from 16% to 15.1%
- 8) Escape rate reduced from 3.3/1,000 to 2.71/1,000 of the daily average population

Vote Performance Challenges During the Financial Year

- 1. Prisoner Population Growth: Increasing prisoner population growth rate of 8.0% per year compared to 3.0% of national population growth rate (a major cost driver of prisons budget)
- 2. Inadequate & inappropriate physical infrastructure to enhance safety & security of offenders, staff & public; undertake rehabilitation programmes; promote the rights of prisoners and separate different categories of offenders
- 3. Prison Congestion: Current prisons carrying capacity is for a daily average of 19,826 prisoners while the population is 63,851 (June 2020) exceeding the holding capacity by 44,025 inmates occupancy is 322%
- 4. Staff Accommodation: 7,519 staff are not properly housed They stay in improvised houses, Unipots, Fin mores, canteens & others rent at their own cost. This may explain high staff attrition rate of 154 staff in FY2019/20.
- 5. Misalignment of Criminal Justice Agencies long distances to court leading to;
 - a) Walking long distances staff & prisoners
 - b) High costs of fuel & vehicle maintenance
 - c) Delayed production of prisoners to court

Vote: 145 Uganda Prisons

QUARTER 4: Highlights of Vote Performance

6. Security: Changing profiles of offenders with global increase in terrorism; Change in sentencing regime -imprisonment for life; 60 years & above sentences - Need for prison security enhancement

- 7. Drought & Absence of Irrigation Infrastructure: UPS is generally dependent of rainfall for agricultural production Rainfall patterns are unreliable hence low production
- 8. Overstay on Remand: Capital offenders an average of 18 months; Petty offenders average of 2.4 months: Committals to High Court 24 months; pending Ministers Order 139 months

Reduce length of stay on remand 4 capital offenders from 19.3 to 18 months	Paralegal advisory services and pro bono activities coordinated - linked 23,410 inmates (21,517 males and 1,893 females) to actors in the Criminal Justice System.		
	Remand population increased from 48.3% to 48.6%.		
	The average length of stay on remand reduced from 19.8 months to 18 months for capital offenders and from 2.5 to 2.4 months for petty offenders		

Reasons for Variation in performance

The number of prisoners delivered to court and high remand population was due to slow down in court activities as a result of COVID-19 outbreak. Courts were only remanding prisoners but not hearing cases
