Reasons for Variation in performance

- A number of companies were found closed due to the effects of the COVID-19 pandemic while some operational companies did not qualify for a license due to the lack of the necessary documentation (URA &URSB).
- UTB partnered with the Ministry of Local Government authorities in the western, eastern and northern regions of Uganda to which the tourism officers, community development officers and public health inspectors were trained in the SOP and inspection procedures
- Misinterpretation of the inspection exercise as an intention to raise government taxes. This results in denial of access to information
- The classification exercise was not implemented due to travel restrictions that affected the trainers, coming from outside Uganda, from undertaking the first activity of training assessors. The lockdown did not allow for the exercise to be undertaken.
