Matters to note in budget execution

### **QUARTER 2: Highlights of Vote Performance**

1. Inadequate number of staff to deploy in Regional Laboratories. The regional laboratories are grossly understaffed and this affects the laboratory analysis and exhibit collection at the regional laboratories. Currently only 56 positions are filled in the structure with 68 positions remaining vacant. Staffing is key in the promise of 100% clearance of backlog and without the 68 vacant positions filled, this target will be difficult to achieve. Positions which were cleared by Ministry of Public Service were submitted to Public Service Commission for recruitment and the process is ongoing. A recruitment plan is in place and has been submitted to Public Service with the staffing levels to be filled in the FY 2020/21.

2. Salary enhancement of the scientists to implement the Presidential directive to review and consider the salary enhancement of DGAL staff in line with other institutions doing similar work. There is an urgent need to attract, retain and motivate the staff given the increasing demand for such skills in the market. UGX 8.385Bn is needed for salary enhancement.

3. The laboratories at DGAL headquarters lack adequate office space since the laboratory space is used for both laboratory analysis and as office space. This creates an unconducive work environment whereby the staff inhale the chemicals and fumes in the laboratory since the laboratory space doubles as the office space. There is need for more office space for forensic scientists.

4. Inadequate capacity (equipment and training) for analysis of hydrocarbons. This limits DGAL's capacity in the analysis of these samples and this gap needs to be addressed by acquiring the necessary and appropriate equipment for analysis of oils and fuels.

#### **Reasons for Variation in performance**

There was no variation

Implementation of the DGAL Case backlog strategy.

Improved funding for and timely delivery of the laboratory chemicals, reagents and consumables.

Implementation of the DGAL Case backlog strategy.

The samples are yet to be delivered to DGAL.

There were delays in the delivery of the LIMS Software system which also delayed the installation. The activity will be completed in Q3 The envisaged activity was interrupted by the outbreak of the COVID-19 Pandemic as the service providers could not fly-in into the country. There was no variation

#### Reasons for Variation in performance

There was no variation

Implementation of the DGAL Case backlog strategy.

Improved funding for and timely delivery of the laboratory chemicals, reagents and consumables.

Implementation of the DGAL Case backlog strategy.

The samples are yet to be delivered to DGAL.

There were delays in the delivery of the LIMS Software system which also delayed the installation. The activity will be completed in Q3 The envisaged activity was interrupted by the outbreak of the COVID-19 Pandemic as the service providers could not fly-in into the country. There was no variation

#### Reasons for Variation in performance

There was no variation

The envisaged activity was interrupted by the outbreak of the COVID-19 Pandemic as the trainers could not fly-in into the country. Awaiting service providers who have to travel into the country to service the equipment
