### Matters to note in budget execution

UBTS collected 63,907 units of blood against the set target of 75,000 units giving a variance of 11,093 units of blood. This short fall has been associated to breakdown of 6 blood collection vehicles as staff could not undertake their daily blood collection sessions. Other reasons were long distances staff had to travel to scattered communities in search of blood donors and poor community response to blood donations. As regards laboratory service, UBTS was able to issue 62,153 units of safe blood against the target of 67,500 units giving a short fall of 5,347 units. This has been associated with high prevalence of TTIs and poor blood donor selection among others Other challenges experienced during execution include poor community response to blood donation; and inadequate manpower.

### Performance highlights for the Quarter

No. of routine monitoring activities done in Regions

UBTS collected 63,907 units of blood against target of 75,000 units from a pool of 106,512 potential blood donors that were mobilized using over 1000 Community Resource Persons.country wide. As regard laboratory services UBTS tested 63,907 units of the collected blood and issued 62,153 units of safe blood to 488 Health Care Units; And accredited 21 Health Care Units to carryout blood transfusion.
