#### Matters to note in budget execution

- 1 .Gratuity absorption was low compared to target due to high budget allocation which resulted into a surplus of about one billion Uganda shillings.
- 2. Medicines and related supplies- One order worth UGX 200,000,000/= was made during this period; However during the same period two deliveries amounting to UGX 335,096,833.63/= were received. To note is that during the quarter, there was Low supply of examination gloves leading prolonged stock outs; Low supply of hand sanitizer; Low supply of face masks especially the N95 required in the CTU and in wards when handling suspected COVID 19 cases.
- 3. JICA Project: Construction of OPD/Causality/ Labor ward by JICA was partially closed in February 2020 following the outbreak of COVID 19 at which time the JICA team returned to Japan. The construction project however resumed in February 2021 upon return of Japanese team and is 75% complete. The project is expected to end December 2021.

### Performance highlights for the Quarter

#### INPATIENT SERVICES

Performance for inpatients was relatively low as shown below due to COVID 19 movement restrictions:

- 5565 admissions against the quarterly target of 7299.
- Bed occupancy was 80% against the quarterly target of 85%;

### **QUARTER 4: Highlights of Vote Performance**

- Average Length of stay was 5 days against the target of 4 days
- 899 Major operations against the quarterly target of 2557.
- 1094 Deliveries

#### **OUTPATIENT SERVICES:**

Performance for outpatients was not realized as shown below due to lack of specialists to run the clinics on one hand and due to COVID 19 movement restrictions on the other.Below are highlights;

- 32,649 specialized outpatients against the quarterly target of 55,751.

#### Reasons for Variation in performance

- Specialized Outpatients services were below target due to lack of specialists to run the specialist clinics.
- Low performance is further attributed to movement restrictions as result of intensified COVID 19 pandemic.
- Relatedly, the low performance is attributed to lack of space due to closure of OPD in Psychiatry unit, worsened by the stoppage of services by the University specialists;

#### Reasons for Variation in performance

- Target for ANC, FP was not realized because the hospital encourages mothers to access services from their nearest health units so that the hospital can concentrate on providing more specialized services as its mandate;
- Additionally the low numbers are attributed to existence of similar service providers within the region;
- Also, the low performance was attributed to lack of space following relocation of OPD services.

#### Reasons for Variation in performance

- The low immunization target was partially attributed to movement restrictions caused by intensified COVID 19 Pandemic.
- Target for immunization was not realized because the hospital encourages mothers to access services from their nearest health units so that the hospital can concentrate on proving more specialized services as its mandate.
- Additionally the low numbers are attributed to existence of similar service providers within the region.

#### Reasons for Variation in performance

- Specialized Outpatients services were below target due to lack of specialists to run the specialist clinics.
- Low performance is further attributed to movement restrictions as result of intensified COVID 19 pandemic.
- Relatedly, the low performance is attributed to lack of space due to closure of OPD in Psychiatry unit, worsened by the stoppage of services by the University specialists;

#### Reasons for Variation in performance

- Target for ANC, FP was not realized because the hospital encourages mothers to access services from their nearest health units so that the hospital can concentrate on providing more specialized services as its mandate;
- · Additionally the low numbers are attributed to existence of similar service providers within the region;
- · Also, the low performance was attributed to lack of space following relocation of OPD services.

|  | Medical waste incinerator house was constructed and completed and commissioned.  |  |                  |

#### Reasons for Variation in performance

Delay to complete the fencing works was attributed to delay in completion of OPD/Causality construction works.

No works were done on the incinerator but are expected to be done during FY 2021/22.

Delay to commence construction of the MCH shelter was attributed to delay in completion of OPD/Causality construction works.

Delay to commence was attributed to delay in completion of construction works for the labor ward, however its to be undertaken by after completion of the construction project.

Works delayed by 8 months from April 2020 to February 2021 due to the departure of the Japanese team following the intensified COVID 19 Pandemic but resumed in February 2021.

The commission's could not be done because construction works were delayed by 8 months during the intensified COVID 19 pandemic.
