#### V1: Vote Overview

#### I. Vote Mission Statement

"To ensure reliable, adequate and sustainable exploitation, management and utilization of energy and mineral resources for the inclusion and benefit of all people in Uganda"

### II. Strategic Objective

- a. To meet the energy needs of Uganda's population for social and economic development in an environmentally sustainable manner
- b. To use the country's oil and gas resources to contribute to early achievement of poverty eradication and create lasting value to society
- c. To develop the mineral sector for it to contribute significantly to sustainable national economic and social growth

### III. Major Achievements in 2019/20

By December 2019 (half year end) of FY2019/20, power generation capacity has continued to increase from 1,182MW in June 2019 to about 1,254MW. This was due to the additional generation capacity from Achwa 42MW, Siiti II (16.5MW), Kyambura 7.6MW and Ndugutu 5.9MW. There has been delayed completion of Karuma Hydropower Project (600MW) whose construction works have progressed up to 97.3%. Under the Isimba project, (now under defects liability), overall project progress for component I (Power Plant and Transmission Line) was 99% while component II (Public Bridge and the access road) was about 34%. Uganda National Roads Authority (UNRA) and the Ministry of Works Transport (MoWT) is on site supervising the works. Implementation of snags under Isimba was at about 90%.

Power Transmission Infrastructure Expansion Programs through the construction of the transmission lines and the substation projects are progressing well. Some of the Transmission Lines progress was as follows: Namanve South-Namanve North, 5km -67% complete, Namanve South-Luzira-15km 10% complete, Mukono T-off, 5km-100% complete, Iganga T-off, 10km-75% complete. Substations progress: Luzira-99% complete Iganga -99% complete, Namanve South-99% complete. Mukono-100% complete. However due to land acquisition challenges, some projects under implementation had gone beyond their initial closure periods. These include:Tororo-Lira; Lira-Gulu-Nebbi; Achwa-Gulu; Masaka-Mbarara; Bujagali-Tororo; Opuyo-Moroto; Mutundwe-Entebbe; Mirama-Kabale; 4 Industrial Parks of Luzira, Mukono, Iganga, Namanve; and the Karuma Interconnection.

Under the Energy Management, The Energy & Minerals Exhibition 2019 was conducted at KCCA grounds on September 23-29, 2019 and a Power Forum 2019 held on September 25, 2019 at Pearl of Africa Hotel. There was exponential awareness campaigns (Road drives) conducted in the five divisions of KCCA on September 18-23, 2019

In the Renewable energy, manufacturing of the 4MW solar project equipment for Busitema University was completed by the Egyptian Government and already shipped to Mombasa. Procurement of the transportation and clearing company completed. Site fencing of the 7.5 hectares at Busitema University completed. In addition, Government received 394solar units from the Peoples Republic of China that are being distributed to rural and upcountry institutions (schools and health centres), especially in the hard to reach areas as a way gender and equity reaching out to all Ugandans. By December 2019, the districts of Amudat, Nakapiripirit, Bukwo and Kween had received the units. Roll out still ongoing.

The national electrification rate still stood at 28% since Government commenced the implementation of a new electricity connections policy. Rural electrification of the remaining 545 sub-counties is in progress to accelerate increased access and all efforts are under way to connect the remaining districts headquarters of Kotido, Kaabong, and Buvuma for regional equity and national coverage

Under the Nuclear Energy development, an Inter-Governmental Agreement (IGA) between Uganda and Russia on peaceful Use of nuclear energy was signed on 17th September 2019 in Vienna, Austria. Procurement process of land for weather stations and for siting the nuclear power plant was ongoing.

#### Upstream Petroleum sector

Government acquired 90 line- km of geophysical data plus geological and geochemical mapping of 120 sq. km in Kadam-

Moroto basin. Progressed the implementation of the licensing strategy and plan for the Second Licensing Round and successfully held three (3) promotional road shows in London, Houston and Dubai during the first half of FY2019/20. By December 2019, six (06) prospective companies had expressed interest to participate in the 2nd licensing round, while five (05) submitted their applications. Continued to monitor the land acquisition and ESIA activities for the Tilenga and Kingfisher Development projects. M/s Total E&P and Tullow Uganda Pty Ltd submitted revised Field Development Plans for EA 1&2 over Ngiri and Kasamene-Wahirindi, Jobi-Rii, Nsoga, Kigogole-Ngara and Gunya for production licenses.

#### Midstream

Under land acquisition for refinery development (Resettlement Infrastructure), Government concluded the construction and handover of the two churches, namely; Wambabya Anglican Church and St. Francis Catholic Church-Nyakasinini. Construction of a Police post at Kyakaboga was at about 65% complete and four boreholes were drilled for the PAPs and wider community for use. The Front-End Engineering Design (FEED) commenced was at about 60% as at the end of Q2. That will inform the Final Investment Decision (FID) of the Refinery Project.

Development of Kabaale international airport, overall progress was about 36% with the runway expected to be ready for testing on 20th June 2022 and other works are expected to be completed in 2023.

On the East African Crude oil export pipeline (EACOP) negotiations of the Host Government Agreement (HGA) between Government of Uganda and the Joint Venture Partners were progressing. The land acquisition process for the refined products pipeline corridor commenced with development of a Resettlement Action Plan (RAP) study through a consultative process. The ESIA for EACOP was completed and submitted to NEMA and PAU for approval.

#### Downstream:

The Petroleum Supply and Distribution (Downstream) has been closely monitored through the National Petroleum Information System (NPIS) and 99.3% outlets complied with fuel quality specifications. A total of 160 petroleum facilities monitored and inspected in districts of West Nile and Northern Uganda of Amuru, Packwach, Nebbi, Zombo, Arua, Maracha, Koboko, Yumbe, Moyo, Adjumani, Gulu, Omoro, Nwoya, Oyam, Apac, Kwania, Lira, Dokolo, Alebtong, Kitgum and Pader In addition, 157 Petroleum enforced on Western Region districts of Kyankwanzi, Kyenjojo, Kikuube, Hoima, Kagadi, Kabarole, Ntoroko, Bundibujjo, Isingiro, Kamwenge, Kampala, Wakiso and Mityana. Supply of petroleum products was normal throughout the country. Jinja Storage Reserves monitored and current stock at end of Qtr 1-2019/20 was 877,570litres of petroleum products. Developments at Bugiri-Bukasa ports monitored and supervised

Supply of petroleum products were normal throughout the half-year in the supply of Diesel, Petrol and Kerosene in the first and second Quarter 2019/20. In addition the Inception Feasibility Study Report on the need to promote the usage of the Liquefied Petroleum Gas (LPG) was submitted, reviewed and recommendations made for financing.

#### MINERALS SECTOR

Consultations on the draft Mining and Mineral Bill, 2019 was held on 9th August, 2019 in Kampala and other regional consultative workshops on mining legislation in Mbarara on 22/08/2019, Moroto on 05/09/2019 and Mubende on 27/09/2019. In addition, the Parliamentary committee on Environment and Natural resources was briefed on the proposed draft Mining and Mineral Bill 2019 through workshop held at Mbale Resort Hotel. The Ministry launched the e-registration of all applicants for mining licenses including the Artisanal and Small scale Miners (ASM)on the mining cadaster for easy of monitoring. Meetings on the management of ASM with district officials and miners at Kikagati in Isingiro, Mwerasandu in Ntungamo and Katenga in Buhweju. Inspections and monitoring of mine development projects in Busia (Wagagai Gold), Tororo (Sukulu), Mubende (AUC), and 25 mineral exploration programs in western, southwestern, central, eastern and northern Uganda was conducted. By December 2019, there was a total of 512 active mineral licenses. Illegal mining activities were found in Kitomi Forest and Katenga in Buhweju and enforcements conducted through the mineral police protection unit.

Sensitization of stakeholders in vulnerable communities in the areas affected by lightning and other geo-hazards such as earthquakes in North Eastern Uganda was done.

Under the Airborne surveys for Karamoja, we carried out training of staff on the technologies to be used in ground geological, geochemical, and geophysical mapping follow up for mining investments Gravity Surveys Gravity Data quality control component. Sensitivity analysis in preparation for a full scale implementation for the project. Engaged all the stakeholders in project and finalized the external financing arrangements from Spain and of the procurement of the firm to carry out the airborne surveys.

The Draft Geothermal Policy 2019 was finalized together with the accompanying documents; the Draft Cabinet Memo and the Regulatory Impact Assessment (RIA). A map showing geothermal areas overlain on geology map was prepared. Procurement of a contractor to drill Temperature Gradient Wells (TGW) at Kibiro and Panyimur was concluded and contract signed. Drilling of the TGW at Kibiro commenced. Specialized Equipment such as the MT equipment was shipped to Canada for upgrade. Procurement of high end computers, LiDAR images, leapfrog software, kuster tool, orsat gas analyser, and temperature data

logger was initiated.

Formalization of Artisanal and Small Scale Mining: Training, Sensitization and Registration of Artisanal and Small-scale Mining (ASM) operations was undertaken to address environmental, social, gender; safety and best mining practices in the key active mining areas.

Regional Training of Trainers on Environment, Community, Health and Safety in the Mining Sector was undertaken in Entebbe, Mbale, Gulu and Fort Portal resulting in 160 trained ASMs (40 per region) who will be supported to undertake similar trainings at their respective mine sites.

Equipment for the Laboratory Information Management System (LIMS) designed under consultancy for design, installation, implementation, and maintenance and support services for LIMS were delivered and is already installed on the main DGSM server and is accessible by system users.

#### IV. Medium Term Plans

- 1) Increase affordable power generation and expand power transmission and distribution infrastructure for the benefit of all Ugandans both in rural areas and urban areas, and the hard to reach for equity.
- 2) Increase access to affordable modern energy services by all Ugandans (the aged, women, vulnerable and disabled) through rural electrification and renewable energy development.
- 3) Promote and monitor petroleum exploration and development in order to increase the reserve base and achieve local production for the elimination of poverty, employment creation and social development.
- 4) Develop petroleum refining, pipeline transportation and bulk storage infrastructure for export and increase in the national revenue.
- 5) To streamline petroleum supply and distribution.
- 6) Promote and regulate mineral exploration, development, production and value addition in an environmentally and sustainable manner with gender equity.
- 7) Promote efficient utilization of energy to avoid wastage.
- 8) Monitor geotectonic disturbances and radioactive emissions for the safety of all Ugandans.

### V. Summary of Past Performance and Medium Term Budget Allocations

### VIII. Programme Performance and Medium Term Plans

### Table V8.1: Programme Outcome and Outcome Indicators (Only applicable for FY 2020/21)

Programme: 01 Energy Planning,Management & Infrastructure Dev't

Programme Objective To promote adequate and reliable energy to achieve increased levels of access to modern energy services

**Responsible Officer:** Eng. Cecilia Menya ,Ag.Director Energy Resources Directorate

Programme Outcome: Increased generation capacity, transmission and access to affordable modern energy for social and

economic development

Sector Outcomes contributed to by the Programme Outcome

### 1. Increased energy generation for economic development

03 Petroleum Exploration, Development, Production, Value Addition and Distribution and Petrolleum Programme:

Products

Programme Objective Ensure efficiency and effectiveness in the management of Uganda's oil and gas resource potential, value

addition, distribution and access to petroleum products for social and economic development

Responsible Officer: Malinga Honey

Programme Outcome: Ensure efficiency and effectiveness in the management of the country's oil and gas resource

potential, value addition and distribution of petroleum products.

Sector Outcomes contributed to by the Programme Outcome

### 1. Increased amount of revenue from Oil and Gas production

Development Project: 1505 Minerals Laboratories Equipping & Systems Development

#### Output: 03 05 72 Government Buildings and Administrative Infrastructure

Design of proposed new laboratory building to house all minerals laboratories in Entebbe and additional laboratories prepared

Laboratory building modified to accommodate newly acquired equipment

1) Procurement was initiated for the design of the proposed Strategic Minerals Research Facility (SMRF) at DGSM in Entebbe to accommodate analytical and metallurgical test techniques for strategic minerals such as Rare Earth Elements (REEs), Uranium and Development Minerals, among others, which the currently available laboratory space is not enough to accommodate. The new facility is to also accommodate all currently existing laboratories at DGSM for effective spatial utilization of the DGSM campus since currently the laboratories structures are scattered all over and occupy a larger portion of it. The designs are to inform the solicitation of funding for the construction of the proposed facility. 2) Expressions of Interest (EOIs) were evaluated for the design of the proposed

DGSM in Entebbe.
1) 1) Contract was awarded for minimal electrical installation works to improve earthing and lightning protection and right power supply cable at laboratory points in which newly acquired ICP-OES, Planetary Ball Mill and bench-top oven are to be installed.

Strategic Minerals Research Facility (SMRF) at

- 2) The refurbishment of laboratory building to house the fire assay unit which commenced in May 2019 is nearing completion with the construction works at about ninety five percent (95%)
- 3) Procurement was initiated and is underway for the procurement of an electrical and mechanical works contractor to rewire and install standard electrical installations in laboratory and office blocks of DGSM in Entebbe.
- 4) Procurement was initiated for tiling and painting of the Petrology, Mineralogy and Gemology Laboratory and for painting of Chemical and Environment Laboratory and Mineral Dressing Laboratory.
- 5) Minimal electrical installation works to improve earthing and lightning protection and right power supply cable at laboratory points in which newly acquired ICP-OES.
- 6) The refurbishment of laboratory building to house the fire assay unit which commenced in May 2019 was completed and equipment installation is underway.
- Contract was awarded for electrical and mechanical works contractor to rewire and install standard electrical installations in laboratory and office blocks of DGSM in Entebbe.

Complete design of proposed Strategic Minerals Research Facility (SMRF) to house all minerals laboratories in Entebbe prepared Laboratory building modified to accommodate newly acquired equipment

| Total Output Cost(Ushs Thousand) | 600,000 | 4,065 | 550,000 |
|----------------------------------|---------|-------|---------|

### X. Vote Challenges and Plans To Improve Performance

#### **Vote Challenges**

- i. Lengthy and Protracted negotiations on taking the Final Investment Decisions for projects.
- ii. Lengthy processes in the harmonization of the legal and regulatory framework
- iii. Limited wage bill and high attrition of staff following the creation of the new institutions
- iv. Limited counterpart (GoU) funding to match the disbursement of the external financing
- v. Land acquisition challenges that lead to delay in the implementation of the energy and mineral projects where some PAPs have continued disputing the compensation values approved by the Chief Government Valuer.
- vi. Vandalism on the transmission lines and other installations

#### Plans to improve Vote Performance

- 1) Securing additional funds from both the Government of Uganda and Development Partners for implementation of project activities.
- 2) Intensify geological and geophysical surveys across the country for effective resource benefits to Ugandans
- 3) Urgent need to recruit and retain experienced staff through enhancement of existing retention allowance to avoid further

manpower flight as the new institutions continue to recruit. In addition, there is need for provision of refresher training in specialized areas to the available staff.

- 4) Enhance sensitization, promotion mechanisms through exhibitions and presentation of promotional materials for all across the country.
- 5) Continue with the efforts to improve in gender mainstreaming, engaged development partners to continue with corporate social responsibilities, promotion of equity among other initiatives.
- 6) Intensify on engagements with the Project Affected Persons (PAPs) for equity and benefits to all for acceptance of projects and to avoid vandalism
- 7) Introduce new legal regimes and regulations, amendment of the existing ones for law enforcement through Local Councils, Police and courts of Law to stop power thefts and vandalism

### XI Off Budget Support

Issue of Concern:

Planned Interventions:

**Budget Allocation (Billion):** 0.700

### XII. Vote Cross Cutting Policy And Other Budgetary Issues

#### **Table 12.1: Cross- Cutting Policy Issues**

| Issue Type:                         | HIV/AIDS   |
|-------------------------------------|--|
| Objective :                         | HIV/AIDS work place policy implemented   |
| Issue of Concern:                   | To ensure zero infections by staff   |
| Planned Interventions:              | Reviewing and printing HIV/AIDS workplace Policy, Undertaking free HIV Counseling and Testing, medical checkups, Monitoring and Support Supervision for Sectoral HIV/AIDS Projects and Programmes. |
| <b>Budget Allocation (Billion):</b> | 0.300  |
| Performance Indicators:             | -Zero Infections<br>-120 staff counselled and tested   |
| Issue Type:                         | Gender   |
| Objective :                         | Gender mainstreaming undertaken.   |
| Issue of Concern:                   | To have the Ministry Activities engendered   |
| Planned Interventions:              | Finalise Developing and printing Ministry Gender Policy ,Organizing workshops to train staff on Gender mainstreaming in Ministry.  |
| <b>Budget Allocation (Billion):</b> | 0.750  |
| Performance Indicators:             | 30 stafff trained in Gender and Equity<br>4 staff Training workshops held<br>4 Focal point persons trained   |
| Issue Type:                         | Enviroment   |
| Objective :                         | To mainstream Health Safety Environment and Climate Change in Ministry projects and programs   |

To ensure Climate change is mainstreamed in the projects and programs

and enhanced monitoring and training of staff, provision of PPEs to staff

Harmonisation of the Ministry HSE issues with the National programs, Sensitization of all staff

**Performance Indicators:** 4 staff members Trained,

4 Quartrely ESIA reports Prepared

8 ESIA reviews conducted
