Matters to note in budget execution

There were delays in completion of the construction of the multipurpose building attributed to covid-19 spill-over effects and the inability of the contractor to complete the project on time due to a number of reasons including cash-flow stress. This has in effect affected the disbursement rate (80% instead of 100%) and installation of furniture and laboratory equipment

Performance highlights for the Quarter

Vote: 114 Uganda Cancer Institute

QUARTER 4: Highlights of Vote Performance

Cumulatively the UCI has vaccinated 6,833 people

The STC block was renovated and handed over. The LINAC and mammogram are now fully operational. Radiotherapy bunkers were handed over under the defects liability period. The UCI acquired additional funding in form of a supplementary allocation which facilitated increased availability of medical supplies and reagents, procurement of medical equipment for the radiotherapy bunkers and the Phase one of Molecular imaging & therapy unit
