Matters to note in budget execution

Matters to Note

a) Prisoners' population is the major cost driver of prisons budget. It exerts pressure on housing, sanitation, Medicare, feeding, uniforms, staff

QUARTER 4: Highlights of Vote Performance

numbers and delivery of prisoners to courts.

- b) Delay in administration of Justice: The proportion of remands has increased from 50.6% to 52.2%.
- c) Use of commitment control system amidst inadequate budget provision for basic necessities like food utilities and clothing whose consumption cannot be postponed hence over commitment
- d) Provision of utilities on prepaid system amidst the inadequate budget allocation leading to requests for postpaid hence accumulation of arrears of shs.4.128bn on water and shs.8.199bn on electricity

Major Performance Highlights

- a) 46.9% of staff are housed in permanent houses; Construction of 124 staff houses with toilets and bathrooms at Nakasongola and Loro is ongoing; Roofing 30 units, Ring beam 60 units, Walling (Window level) 10 units, and Foundation 24 double units
- b) 1,087.5 acres of seed maize planted and managed 1,144.04MT expected output
- c) 377.714MT of seed processed, treated and distributed to farmers
- d) 9,581 acres of cotton planted and managed expected output is 8,162.6bales with 3,750.64bales already harvested.
- e) 14,664 acres of maize grain planted and managed 15,669.8MT is expected output.
- f) Uganda Prisons Industries strengthened its partnerships with government Agencies Non Tax Revenue worth shs. 1.744bn generated through production of furniture
- g) Strengthened the COVID -19 surveillance system which provided sample collection services across all prisons countrywide operating 83 isolation centers and 6 COVID -19 treatment centers at Kitalya, Kampala Remand, Mbarara, Gulu, Jinja and Moroto
- h) Provided the necessary COVID -19 supplies including protective equipment to facilitate the response and protect self

Vote Performance Challenges During the Financial Year

- a) Prisoner Population Growth: Increasing prisoner population growth from 61,614 prisoners in FY 2020/21 to 67,289 in FY 2021/22 at a rate of 9.2% compared to 3.0% of national population growth rate (a major cost driver of prisons budget)
- b) Inadequate & inappropriate physical infrastructure to enhance safety & security of offenders, staff & public; undertake rehabilitation programs; promote the rights of prisoners and separate different categories of offenders
- c) Prison Congestion: Current prisons carrying capacity is for a daily average of 19,986 prisoners while the population is 70,119 inmates at the end of Q4 exceeding the holding capacity by 50,133 inmates occupancy is 350.8%
- d) Staff Accommodation: 6,691 staff are not properly housed. They stay in improvised houses. This not only explains the high staff attrition rate of over 283 staff per year but also compromises security of prisons and the public at large
- e) Misalignment of Criminal Justice Agencies long distances to court leading to;
- i. Walking long distances staff & prisoners
- ii. High costs of fuel & vehicle maintenance
- iii. Delayed production of prisoners to court
- f) Security: Changing profiles of offenders with global increase in terrorism; Change in sentencing regime -imprisonment for life; 60 years & above sentences Need for prison security enhancement
- g) Drought & Absence of Irrigation Infrastructure: UPS is generally dependent of rainfall for agricultural production. Rainfall patterns are unreliable hence low production
- h) Overstay on Remand: Capital offenders an average of 19.9 months; Petty offenders average of 3.3 months: Committals to High Court 26.7 months; pending Ministers Order 166.7 months

QUARTER 4: Highlights of Vote Performance

Table V1.3: High Unspent Balances and Over-Expenditure in the Domestic Budget (Ushs Bn)

QUARTER 4: Cumulative Outputs and Expenditure by End of Quarter

civic training manuals and 1,200 copies of voter education manuals.

1,087.5 acres of seed maize planted and managed – 1,144.04MT expected output

377.714MT of seed processed, treated and distributed to farmers

1,142 acres of Soya bean planted and managed – 207.5MT expected output

Planted and maintained 575 acres of sunflower planted in season 2022A as an alternate crop to seed production – Expected output is 460MT

9,581 acres of cotton planted and managed – expected output is 8,162.6bales with 3,750.64bales already harvested.

12 quality assurance visits conducted on all seed producing stations by NARO, MAAIF and UPS

Land surveys carried out on 10 parcels of prisons land at Rubirizi, Budaka, Sheema, Ntwetwe, Kitgum, Otuke, Rubanda, Kyenojo, Luzira and Kasanje Prisons, boundary opening done at 3 prisons of Loro, Apac and Budaka

30 tractors and accessories, 1 bull dozer and other assorted farm machinery maintained

Reasons for Variation in performance

Sunflower and Soya bean are planted as alternate crop to seed to avoid cross pollination.

The low performance on prison farms was due to early drought across most farms countrywide, in addition to inadequate inputs due to an increase in farm input prices.

maintained

Reasons for Variation in performance

Sunflower and Soya bean are planted as alternate crop to seed to avoid cross pollination.

The low performance on prison farms was due to early drought across most farms countrywide, in addition to inadequate inputs due to an increase in farm input prices.
