#### (ii) Matters to note in budget execution

The major variances in budget execution were observed in an over expenditure with regard to remittance of Uganda's annual contributions to the EAC Secretariat. A supplementary funding amounting to UGX 2 billion was approved and appropriated during the FY 2014/15.

All budget components i.e. Wage Recurrent and Non wage recurrent performed well with a budget absorption rate of 89.9% and 99.4% respectively.

The performance challenges for the Financial Year 2014/15 include;

(i) Funds released under the GoU Development component still being utilized to finalize the procurement of the planned outputs, and therefore, the planned project outputs are to be realized in the fourth quarter of the financial year under review.

(ii) Funds released by half year, for Uganda's contribution to the EAC Secretariat insufficient to raise the required amount in US Dollars for this activity. This was caused by fluctuations in the UGX-USD market exchange rates. It is for this reason that a supplementary funding amounting to UGX 2 billion was appropriated.

In order to improve quality of budget report production, staffs of planning units who are responsible for preparation of these budget reports need to have access to the IFMS. This will ease the extraction of financial outturn data for use in preparation of the necessary budget reports. In addition, there is need to expedite the finalization of the online web based OBT and its interface with the IFMS so that importation and exportation of release and outturn financial data is improved.

The OBT needs to be programmed to be able to output Quarterly budgeted allocations (by Vote Function, by programme, by Output, by item), inline with the quarterly work plans and quarterly procurement plans.
