Performance highlights for the Quarter

The utilisation and execution of the released funds was generally good achieving 18.2% out of the released 20.5% in Q1. The vote was able to achieve most of its planned targets. Under performance was noted in areas of outpatient, family planning due to stock out of the family planning methods. The unspent balances were due to the incomplete procurement processes and the transition of staff to Human Capital Management (HCM) from IPPS. The Blood Bank construction is on schedule at 87% completion. One motor vehicle was procured and delivered for Blood Bank. The evaluation process is on to procure a contractor for the construction of residential buildings for the Blood Bank.

Variations and Challenges

1. The Vote is still experiencing insufficient funds allocated to recurrent and development budget. This leads to accumulation of arrears and delayed service delivery, areas like water utilities, cleaning, maintenance of equipment, vehicle repairs are the most affected. Also the cost of operation has increased due to inflation like fuel prices.
2. The old water and sewage systems have increased water bills due to both under ground and above the ground leakages, this requires an increase in funds for maintenance (recurrent expenditure)
3. Some structures need renovation and face-lifting like Mental Unit, Orthopaedic unit and others.
3. Some medical equipment are old and non-functional requiring replacement. The insufficient budget funding has contributed to accumulation of domestic arrears in essential service areas like water, cleaning, maintenance of equipment, medical stationery, vehicle repairs etc.
4. The Vote kick started a capital development project in FY2022/23 where 1.15Bn was released for the project and the site for the project was cleared by demolishing the old dilapidated structures which were accommodating several wards leading to relocation to other small spaces. Unfortunately in the current FY no funds were released for the project progress. The Vote is currently grappling with space challenges to accommodate the increasing numbers of patients admitted yet space has reduced from 317 beds to 233 beds.
