#### **VOTE:** 004 Ministry of Defence

Quarter 3

#### Performance highlights for the Quarter

The general security situation in the Country remains calm. However, the traditional and non-traditional threats to National Security continue to manifest in form of terrorism, negative political activism, general and cross-border crime, as well as health and environmental challenges.

The National borders are secure, save for the spillover effects resulting from conflicts in Eastern Democratic Republic of Congo, South Sudan, Sudan and Somalia. These include influx of refugees and asylum seekers, illegal immigrants and proliferation of small arms and light weapons.

- (i) General Crime. The country continues to grapple with crime in form of robbery, mob-action, vandalism of critical infrastructure and violent land disputes, among others, especially in growing urban centers and conflicted border areas in the West, North and North Eastern parts of the country. The country also continues to contend with the inflow of illegal firearms which end up in the hands of criminals as well as drug and substance abuse, among others. National Security Agencies including Uganda Police Force (UPF), Internal Security Organization (ISO) supported by UPDF continue to fight crime to guarantee peace and stability in the country.
- (ii) Terrorism. Internally, terrorism continues to pose a significant threat to both the country and the broader region. This threat continues to be perpetrated by the ADF with bases in Eastern DRC, Al-Shabaab in Somalia, and other international terror groups allied to Islamic State and Al-Qaida. Joint Security Forces continue to conduct preventive and disruptive operations.
- (v) Karamoja Sub-region. The general security situation in Karamoja Sub-region has significantly improved despite pockets of criminality involved in livestock thefts and general crime internally and some incursions by the Pokot and Turkana from Kenya.

Variances and Challenges

#### VOTE: 004 Ministry of Defence

**Ouarter 3** 

1. The enduring challenges remain inadequate security roads in Karamoja sub region and porosity of the borders which facilitate easy entry of armed pastoral groups from Kenya and South Sudan, small arms proliferation from neighbouring countries, political interference by local leaders and exaggeration of livestock stolen which continues to complicate recovery efforts, as well as limited involvement of other Government Agencies in Karamoja Development Program.

- 2. The Joint Operations in Operation Shujaa continued to face existing environmental challenges, over stretched operation area, enemy mastery and employment of survival tactics, and the recent DRC/FARDC shift of focus from ADF operation to counter/halt M23 advance in North and South Kivu. The FARDC and UPDF continued to monitor the current ADF splinter groups marauding the area and maintain pursuit to prevent them from committing attacks to the population.
- 3. In implementing the food and feed programme, the Ministry encounters a number of challenges which include;
- (i) Machinery Limitations: A lack of advanced machinery and overreliance on casual labor have affected operational efficiency and productivity.
- (ii) High Equipment Costs: Hired machinery often sourced from Kenya is expensive and scarce during peak periods, resulting in delayed planting and crop vulnerability.
- (iii) Late Planting: Due to limited machinery availability, some crops were planted late, increasing exposure to drought and pests.
- 4. Despite the some of the achievements made, several challenges continue to affect the Ministry in the realization of the set targets such as low budgetary allocations medical services especially pharmaceutical supplies, high costs for referrals, accommodation for Officers and Militants and Price fluctuations of food items and Fuel among others.
