VI. VOTE NARRATIVE

Vote Challenges

The entity continues to experience challenges of inadequate resources both financial and manpower, overwhelming workload, inadequate patient space, continuous stock out of medicines and sundries due to inadequate funding and data collection gaps

Low staffing level especially for the specialist. The available specialists are 6 out of 25.

Limited staff accommodation in the hospital is associated with low staff retention and attraction including poor attendance to emergencies and night calls. There is lack of accommodation both in the hospital and town for rent.

Old and dilapidated infrastructure demotivated the practitioners

Low health seeking behavior of the community leading to Low utilization

Under performance of the lower health facilities leading to lower referrals

Insecurity in the region and Hospital contributes to low attraction and retention and service delivery.

Unreliable Water supply coupled with prolonged drought

IICS remains a challenge in data capture, use and reporting hence hindering data driven decision making and planning

Plans to improve Vote Performance

VOTE: 415 Moroto Regional Referral Hospital

Strengthening diagnostic and healthcare services at the decentralized level to improve prescription, minimize medicine wastage and improve patient treatment outcomes and reduce utility costs.

The hospital is committed to working within the provisions of the approved budget and service delivery targets with emphasis on quality improvement (Improved Stock management, proper accountability for medicines, and reduction of stock-outs).

Lobby Infrastructure development including construction of residential and non residential houses, renovations, and civil works on the dilapidated structures.

Stakeholders mobilization, sensitization and involvement including the local communities, media, and partners for integrated service delivery through integrated planning, reviews, and feedback meetings.

Recruit and fill critical staff positions in the acquisition of critical staff for quality service delivery.

Strengthen mentorships and support supervision to the lower facilities to build capacity to deliver improved services, functionalize theatres, management of emergencies and referrals (especially pregnant mothers and very sick children) to reduce maternal and child mortality in the region.

Supporting community interventions (integrated Specialized outreaches, surgical camps, and media engagements) for social mobilization and sensitization on disease preventions, especially to the most remote, vulnerable, and needy people.

Construct an underground water harvesting reservoir.

Beef up security in the hospital through increasing CCTV coverage and hire of security personnel,

Adopt a more robust and resilient EMR system
