# VOTE: 126 National Information Technologies Authority

Quarter 4

## Performance highlights for the Quarter

### ICT INFRASTRUCTURE

1. During the FY2024/25, 4,387 km of OFC were maintained, covering 57 Districts across the country, representing 42 percent of the 135 districts in the country.
2. An additional ten sites were connected to the NBI, bringing the cumulative number of MDAs/ DLGs and other target user group sites connected to 1,577
3. Three additional new applications were hosted in the National Data Centre, cumulatively bringing the total number of applications hosted in the NDC to three hundred eight.

### E-SERVICES

1. UMCS was further rolled out to five additional entities, bringing the total number of entities enrolled to one hundred fifty-seven. This eases streamlined information sharing.
2. Eight additional websites for government entities were developed, and thirty-seven revamped, easing access to Government services provided online.
3. Eighteen public and private entities were integrated onto the platform, bringing the cumulative number of entities onboarded to one hundred fifty-seven. This contributes to seamless data sharing and eliminates duplication of services across government.

### INFORMATION SECURITY

1. To improve the information security hygiene in the public, twenty-three information awareness sessions were conducted both in the private and public entities.
2. Through routine cybersecurity monitoring of shared e-services, thirty cyber threat advisories were issued as a proactive measure to reduce cyber risk exposure for the targeted audience.
3. Furthermore, one (01) training on threat actor communication was successfully conducted.

### DATA PROTECTION AND PRIVACY

1. Conducted regional compliance clinics inspecting 44 entities, carried out nine onsite audits, and responded to 100% of 73 legal and regulatory advice requests.
2. To build capacity, ten (10) capacity-building webinars were held for data protection officers.
3. The registration of data processors and controllers increased by 2,966, bringing the total to 6,418.

## Variances and Challenges

1. For some of the MDA, systems to be integrated into the Integration and Data sharing Platform (UgHub) do not have Applications Programming Interfaces (APIs) developed, which has hindered the rollout of the platform. However, NITA-U continues to engage MDAs to plan for the Application Programming Interfaces (APIs) for their respective systems for ease of integration onto the platform to share data.
2. Inadequate budget to fully operationalize the Personal Data Protection Office. However, the Authority continued to engage the MoFPED through MoICT&NG to secure funding for the operationalization of the Office.
3. Delay in obtaining the no-objections from the World Bank and the technical committees, which stalls the implementation of the NITA-U infrastructure projects.

Global IAC training scheduled to take place from 30th June 2025                                                               | The BPO centre wasn't established due to delays in obtaining the investor.                                                                                               |
| PIAP Output: 11050105 A data sharing and integration platform developed to enhance the delivery of services in government and private sector and operationalized |                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                          |
| Programme Intervention: 110105 Mainstream ICT in all sectors of the economy and digitize service delivery                                                        |                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                          |
| Change management, stakeholder workshops                                                                                                                         | No stakeholder workshops were conducted due to limited GoU funds released. However, the World Bank approved an upgrade of the Interoperability Framework and Enterprise Architecture to cater to emerging technologies and the needs of MDAs                                                       | Limited funds were available during the FY.                                                                                                                              |
| 1. Business requirements documented from the stakeholder entities to be onboarded.                                                                               | Two private entities have been engaged and are in the testing phase, that is to say Compulynx Ltd, and ARMADA CRB                                                                                                                                                                                  | Target delayed due to ongoing efforts to upgrade the platform.                                                                                                           |
| 1. Stakeholders for mobile ID engaged. 2. Provide digital signatures to entities                                                                                 | Four entities (2 public, 2 private) have been engaged (ERB, Tucksee, I&M Bank, MOFA). These entities approximate the total number of users to 100,000.                                                                                                                                             | Target achieved                                                                                                                                                          |
| 1. development of sector specific e-services. 2. Change management/Stakeholder workshops                                                                         | Three e-services identified requirements documents developed. These include;<br>1. E-license for Animal tracking<br>2. E-license for Aqua-culture<br>3. E-provision for Airwaves and TV services for UBC<br>However, the change management of workshops were not conducted due to limited funding. | The identified e-services for Jlos and UIA were not developed, due to limited funding; however, alternative e-services were identified from the Ministry of Agriculture. |
| Microsoft Licenses acquired and issued to the 10 entities upon application.                                                                                      | Two entities were issued with the Microsoft Licenses i.e; DPF, and EC, and payment was completed.                                                                                                                                                                                                  | Target not achieved due to existing Microsoft licenses already in use by the entities.                                                                                   |
| All developed Websites secured                                                                                                                                   | All developed websites have been secured. Additionally, payment has been completed for 26 domains, each of which has been issued a wildcard SSL certificate.                                                                                                                                       | Target achieved.                                                                                                                                                         |
| Five (5) inclusive DLG Websites designed to support the access to information and services to the public developed and hosted                                    | Two websites were revamped that is; NITA-U, and UPPC. Through revamping these two websites, entities continued to provide up-to-date information, thus providing uninterrupted online services to the public.                                                                                      | There has been no variation, as all DLGs were developed for websites during Q2 of the financial year.                                                                    |

| Promote the utilization of Five e-services i.e Ughub, UMCS, e-doc, IT certification, NBI services Conduct Stakeholder engagements on the uptake of e-services. Hold annual e-government awards to increase uptake and awareness on e-services. | A total of 27 stakeholder engagements were conducted across 24+ MDAs, with a strategic focus on Priority Sectors including Health, Education, JLOS, Energy, Trade, and Tourism. Notably, 16 of these engagements specifically addressed IT Advisory Services to provide technical guidance to MDAs on aligning IT strategies with sectoral goals. These engagements yielded tangible results, including increased MDA adoption of NITA-U services like UGHub and eDoc, enhanced collaboration on sector-specific IT roadmaps, and targeted capacity building. | Target achieved.                                 |
| Expenditures incurred in the Quarter to deliver outputs                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | UShs Thousand                                    |

| Project:1615 Government Network (GOVNET) Project                                                                                                                                                                                                                                                          |                                                                                                                                                                                                               |                                               |
| PIAP Output: 11030301 "i). Government service delivery units (schools, hospitals, post offices, tourism sites, police, LGs etc) connected to the NBI.                                                                                                                                                     |                                                                                                                                                                                                               |                                               |
| Programme Intervention: 110303 Extend broadband ICT infrastructure coverage countrywide in partnership with the private sector and all Government entities and implement last mile connectivity to key areas (Districts, sub-counties, schools, hospitals, post offices, tourism sites, police, LGs etc.) |                                                                                                                                                                                                               |                                               |
| Four (4) policies developed i.e. Data Sharing and Governance Policy, Open Data Policy, National Critical Information Infrastructure Policy and Spectrum Management Policy                                                                                                                                 | This is still ongoing due to dependency on the regulatory Impact Assessment (RIA).                                                                                                                            |                                               |
| One (1) Policy framework for coordination of public and private infrastructure deployment developed.                                                                                                                                                                                                      | This is still ongoing and is dependent on the regulatory Impact Assessment (RIA).                                                                                                                             |                                               |
| Three (3) Cyber laws reviewed i.e. the Electronic Signatures Act (2011), Electronic Transactions Act, Computer Misuse Act (2011)                                                                                                                                                                          | Dependent on the regulatory Impact Assessment (RIA).                                                                                                                                                          |                                               |
| Procurement of equipment i.e fiber cables, switches, wi-fi APs, ethanoate cables, splicing machines, and contractor for the last mile connectivity project commenced.                                                                                                                                     | Awaiting final decision from restructuring of the project.                                                                                                                                                    |                                               |
| Data Protection and Privacy audit and inspection manual developed.                                                                                                                                                                                                                                        | The contract was signed and is under implementation.                                                                                                                                                          |                                               |
| Four (4) MDAs i.e. NIRA, URSB, MoH, Ministry of education and sports audited using the approved audit and inspection manual to assess their compliance levels in line with the Data protection and privacy Act and regulations.                                                                           | An awareness and sensitization plan were developed and implemented in three (03) agencies including; Uganda Police Force (UPF), National Building Review Board (NBRB), and Makerere University Kampala (MUK). |                                               |
| Initiatives of the data protection and privacy capacity building program implemented.                                                                                                                                                                                                                     | This wasn't conducted due to the restructuring of the project that is ongoing.                                                                                                                                |                                               |
| PDPO office premised acquired                                                                                                                                                                                                                                                                             | PDPO Office premises acquired and are fully operational.                                                                                                                                                      |                                               |
| An evaluation and audit framework for audits of infrastructure, systems, and processes developed to ensure compliance with the NISF and auditors trained.                                                                                                                                                 | The contract was signed and is this is under implementation.                                                                                                                                                  |                                               |
| Enhanced capacity building programs implemented for the National CERT/ SOC                                                                                                                                                                                                                                | The concept note was developed and approved by TC and is pending submission to IDA for review.                                                                                                                |                                               |
| Threat intelligence, response and threat sharing enabled for Key Critical Infrastructure and sub sector CERTs                                                                                                                                                                                             | The contract was signed on March 28, 2025, and this output is under implementation.                                                                                                                           |                                               |
| National CERT Forensics Lab enhanced                                                                                                                                                                                                                                                                      | A concept note developed and approved by TC and pending submission to IDA for review.                                                                                                                         |                                               |
| PIAP Output: 11010513 Enhancement of usage of National Data Centre (NDC)                                                                                                                                                                                                                                  |                                                                                                                                                                                                               |                                               |
| Programme Intervention: 110301 Establish and enhance national common core infrastructure (data centres, high power computing centres, specialized labs)                                                                                                                                                   |                                                                                                                                                                                                               |                                               |
| Existing National Data Centre and disaster recovery site Infrastructure Upgraded with Systems (Co-Collation, OSC, UMCS, GCIC, MDA Websites, Iaas, PaaS, Baas etc)                                                                                                                                         | Three (03) additional new applications were hosted in the National Data Centre (NDC), cumulatively bringing the total number of applications hosted in the NDC to three hundred eight (308)                   |                                               |

| Interoperability Framework and Enterprise Architecture operationalized                                                                                                                                                                                    |  | No stakeholder workshops were conducted due to limited GoU funds released. However, the World Bank approved an upgrade of the Interoperability Framework and Enterprise Architecture to cater to emerging technologies and the needs of MDAs                                                                                                                                                                                                                                                                                                                  |               |
| Whole-of-Government Integration and data-sharing platform rolled out to additional ten entities.                                                                                                                                                          |  | Two private entities have been engaged and are in the testing phase, that is to say Compulynx Ltd, and ARMADA CRB                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |
| Digital authentication and mobile ID solution rolled out to 100,000 users in public entities.                                                                                                                                                             |  | Four entities (2 public, 2 private) have been engaged (ERB, Tucksee, I&M Bank, MOFA). These entities approximate the total number of users to 100,000.                                                                                                                                                                                                                                                                                                                                                                                                        |               |
| Two (2) identified e-services for Jlos and UIA developed and deployed/rolled out.                                                                                                                                                                         |  | Three e-services identified requirements documents developed. These include;<br>1. E-license for Animal tracking<br>2. E-license for Aqua-culture<br>3. E-provision for Airwaves and TV services for UBC<br>However, the change management of workshops were not conducted due to limited funding.                                                                                                                                                                                                                                                            |               |
| Microsoft licenses and oracle licenses acquired for ten unique entities.                                                                                                                                                                                  |  | Two entities were issued with the Microsoft Licenses i.e; DPF, and EC, and payment was completed.                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |
| All developed 479 Government websites securely maintained. i.e. ACU Case Management website, NFA Tree Planting and Licensing website, Integrated Building Management Information website (NBRB)                                                           |  | All developed websites have been secured. Additionally, payment has been completed for 26 domains, each of which has been issued a wildcard SSL certificate.                                                                                                                                                                                                                                                                                                                                                                                                  |               |
| Update and maintain twenty 20 MDA & LG websites i.e. UZIMA Website, National Council for People with Disabilities, National Council for People with Disabilities, State House Anti Corruption Unit Website, Ministry of Foreign Affairs Website Template. |  | Two websites were revamped that is; NITA-U, and UPPC. Through revamping these two websites, entities continued to provide up-to-date information, thus providing uninterrupted online services to the public.                                                                                                                                                                                                                                                                                                                                                 |               |
| Uptake and utilization of at least five (5) e-services i.e. Ug-hub, UMCS, Ug-pass, e-doc, and sms gateway enhanced.                                                                                                                                       |  | A total of 27 stakeholder engagements were conducted across 24+ MDAs, with a strategic focus on Priority Sectors including Health, Education, JLOS, Energy, Trade, and Tourism. Notably, 16 of these engagements specifically addressed IT Advisory Services to provide technical guidance to MDAs on aligning IT strategies with sectoral goals. These engagements yielded tangible results, including increased MDA adoption of NITA-U services like UGHub and eDoc, enhanced collaboration on sector-specific IT roadmaps, and targeted capacity building. |               |

| Programme Intervention: 110502 Review and develop appropriate policies, strategies, standards and regulations that respond to industry needs |                                                                                                                                                                                                                                                                                                            |                                               |
| HIV/AIDs prevalence within missing links and last-mile project implementation regions mitigated                                              | The NITA-U HIV/AIDs policy for staff was reviewed to be aligned with the national ICT policy. This was tailored to ensure uniformity in the implementation of ICT interventions across the country. Additionally, all bidding contractors were required to submit HIV policies as part of the evaluations. |                                               |

|                              |                                                                                                                                                                                                                                                                                                                                                                      |
|------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Objective:                   | Increase connectivity in the underserved regions of the country i.e Northern region, parts of Eastern region, western and central region to increase access to Government services for all categories of people.                                                                                                                                                     |
| Issue of Concern:            | 1. Limited National coverage of the NBI leaving out some parts of the country, especially the rural areas, local governments and towns.<br>2. Limited connectivity to internet services in schools and tertiary institutions limiting delivery of e-education.                                                                                                       |
| Planned Interventions:       | Extend broadband ICT infrastructure coverage countrywide in partnership with the private sector and all Government entities to implement last-mile connectivity to key areas (Districts, sub-counties, schools, hospitals, post offices, tourism sites, police)                                                                                                      |
| Budget Allocation (Billion): | 4.396                                                                                                                                                                                                                                                                                                                                                                |
| Performance Indicators:      | 1. Number of entity sites connected on the NBI - Fifty (50) entity sites connected on the NBI in underserved.<br>2. Number of Wi-fi hotspots maintained - Ten (10) wi-fi hotspots maintained in rural areas, market centers, schools, and tertiary institutions.                                                                                                     |
| Actual Expenditure By End Q4 | 4.396                                                                                                                                                                                                                                                                                                                                                                |
| Performance as of End of Q4  | During the FY2024/25, 4,387Kms of OFC were maintained covering 57 Districts across the country representing 42% of the 135 districts in the country. Of the 57 districts covered by the NBI, 53 of them have their district headquarters connected. Additionally, all the 300 wi-fi hotspots were maintained in a functional state for ease of access to e-services. |
| Reasons for Variations       | Target achieved                                                                                                                                                                                                                                                                                                                                                      |
| Objective:                   | Enhance and promote inclusive usage of ICT in National Development and service delivery                                                                                                                                                                                                                                                                              |
| Issue of Concern:            | 1. Limited ICT skills by technical personnel in various Government sectors especially LGs affecting e-services delivery.<br>2. Limited usage and access to e-services by special interest groups in the different regions of the country.                                                                                                                            |
| Planned Interventions:       | Mainstream ICT in all sectors of the economy and digitize service delivery                                                                                                                                                                                                                                                                                           |
| Budget Allocation (Billion): | 0.012                                                                                                                                                                                                                                                                                                                                                                |
| Performance Indicators:      | 1. Number of inclusive capacity building training conducted for the LGs - two (2)                                                                                                                                                                                                                                                                                    |
| Actual Expenditure By End Q4 | 0.012                                                                                                                                                                                                                                                                                                                                                                |
| Performance as of End of Q4  | Eight local governments were trained on the utilization of websites to ensure gender inclusive information would be uploaded and cases of gender based violence are captured through the websites.                                                                                                                                                                   |
| Reasons for Variations       | Target achieved                                                                                                                                                                                                                                                                                                                                                      |

ii) HIV/AIDS

|                              |                                                                                                                                                                                                                                                                  |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Objective:                   | Address HIV/AIDs prevalence within ICT infrastructure project implementation regions.                                                                                                                                                                            |
| Issue of Concern:            | HIV/AIDs prevalence with in ICT infrastructure project implementation regions.                                                                                                                                                                                   |
| Planned Interventions:       | 1. Create and maintain both local and international partnerships to increase awareness on HIV/AIDs.<br>2. Develop and disseminate standard operational guidelines to all project implementation teams in the regions where fiber installation works are ongoing. |
| Budget Allocation (Billion): | 0.026                                                                                                                                                                                                                                                            |
| Performance Indicators:      | Number of awareness campaigns conducted on HIV/AIDs - Two (2) inclusive awareness campaigns targeting both the public and private sectors.                                                                                                                       |
| Actual Expenditure By End Q4 | 0.026                                                                                                                                                                                                                                                            |

Quarter 4

|                             |                                                                                                                                                                                                                                                 |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Performance as of End of Q4 | Quarterly health awareness campaigns were conducted to increase staff awareness on the health dangers and hazards related to HIV at work place. Additionally, the institutional HIV policy was reviewed to align it to the National strategies. |
| Reasons for Variations      | Performance on track.                                                                                                                                                                                                                           |

iii) Environment

|                              |                                                                                                                                                                                                                                        |
|------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Objective:                   | Ensure environmental conservation and preservation in regions where ICT infrastructure projects are being implemented.                                                                                                                 |
| Issue of Concern:            | Persistent environmental degradation in areas where ICT infrastructure projects are being implemented.                                                                                                                                 |
| Planned Interventions:       | 1. Manage grievance redress mechanism for all NITA-U infrastructure implementation project.<br>2. Conduct stakeholder engagements focusing on environmental issues.<br>3. Review the environmental management policy for ICT projects. |
| Budget Allocation (Billion): | 0.068                                                                                                                                                                                                                                  |
| Performance Indicators:      | Number of stakeholder engagements on environment preservation conducted - Two (2)                                                                                                                                                      |
| Actual Expenditure By End Q4 | 0.068                                                                                                                                                                                                                                  |
| Performance as of End of Q4  | During the financial year four grievance redress engagements were conducted by the EHS team in the areas scoped for deployment of the NBI.                                                                                             |
| Reasons for Variations       | Target achieved                                                                                                                                                                                                                        |
