# VOTE: 108 National Planning Authority (NPA)

Quarter 3

## Performance highlights for the Quarter

- i. Produced the draft 10-year long-term perspective
- ii. Supported thirteen (13) feasibility studies, of which, six (06) feasibility studies completed, three (03) at draft feasibility and four (04) at inception.
- iii. Produced the Certificates of Compliance for Annual Budget to NDP and physical planning
- iv. Developed a draft report assessing the extent of BRMS implementation in schools
- v. Finalized and launched the State of Uganda Population Report (SUPRE) 2025 under the theme “Mental Health: A Silent Emergency”.
- vi. NPA finalized reports that provide empirical evidence on population and development. These reports are; Re-modeling Uganda’s population profile and establishing growth targets that will lead to the realization of Vision 2040, National Transfer Accounts to inform policies that enable effective harnessing of the DD, and Modelling a cohort analysis of population trends from 1991 to 2024 to evaluate Uganda’s progress in leveraging the DD
- vii. NPA developed the 2026 Government of Uganda (GoU)/UNFPA work plan and coordinated with outcome leads to prepare their respective outcome-level work plans. These plans are aligned with the 10th GoU/UNFPA Country Programme, approved by UNFPA in New York in February.
- viii. Finalized a PEC paper on Neonatal Health in Uganda and Diagnostic Study of the Cultural and Creative Industries in Uganda’
- ix. Reviewed and cleared a loan proposal to Borrow up to USD 187.02 million from CITI bank for the upgrading of Hamurwa-Kerere-Kanungu (47km) and Kanyantorogo-Butogota-Buhoma road (32km) to paved Standard
- x. Handled four (04) Physical Planning appeals and complaints and determined the three (03) Applications for Change of Land Use
- xi. Disseminated the Authority Charter and Annual Authority Board Report
- xii. Prepared NPA Ministerial Policy Statement for FY 2026/27
- xiii. Achieved 6% level of completion of the Planning House

## Variances and Challenges

- i. Limited staffing specifically under the department of Physical Planning resulting into limited man power to implement the planned outputs
- ii. Increasing cost of maintenance and servicing of NPA old fleet following suspension on car purchase by MDAs
- iii. The ongoing attempts to amend the Physical Planning (Amendment) Act 2024 following the Cabinet Subcommittee Resolutions to harmonize physical planning functions between MLHUD, NPA and MoLG. This affects budget execution

| 1. Consultations and validation of the draft carbon farming strategic plan         | 1. A draft carbon farming strategy with an input from the Technical advisor Green Public Investment and Carbon Market.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Implemented as planned               |
| 1. Prefeasibility study report prepared                                            | 1. Supported the technical review of the Feasibility study on the Resilient Value Chain Project, project concept note of the Bee Value Chain project and project profiles for two projects under MWE for submission to the DC. The projects are; (i) Multipurpose Water Infrastructure and (ii) Storage Project (MWISP) and Multipurpose Water for Climate Resilience and Irrigation Development Project<br>2. A fisheries paper to support the NDPIV agro-industrialization value addition agenda was developed<br>3. Finalized coordination between MAAIF and MWE on the harmonization of the Water for Production component. | Implemented as planned               |

| 1. Feasibility study report for tea value addition facility<br>2. Capacity built for three (03) staff in the project preparation<br>3. Two (02) coordination reports on the implementation of the agro-industrialization programme prepared | 1. Private sector and other non-state actor engagement on reporting AGI achievements meeting held<br>2. A technical brief on the justification for not turning current NAGRC&DB ranches into Industrial parks was prepared<br>3. A concept note was developed for a technical paper to undertake a value chain study of the six priority commodity value chains<br>4. A technical paper on tea & vegetable oil value chain and fisheries was developed<br>5. A study was conducted to identify the critical challenges and policies required to catalyze the implementation of the Agro-industrialization Programme<br>6. Supported the technical review of the Feasibility study for the Resilient Value Chain Project, project concept note of the Bee Value Chain project and project profiles for two projects under MWE for submission to the DC.<br>7. Finalized coordination between MAAIF and MWE on the harmonization of the Water for Production component. |                                               |

| PIAP Output: 04111101 Improved infrastructure in industrial parks and free zone                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                               |
| Programme Intervention: 041111 Develop and maintain infrastructure in free zones and industrial parks                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                               |
| One (01) Field report produced on electricity accessibility and reliability, water accessibility and waste management and high-speed internet connectivity in industrial parks and free zones                                                                | 1. Visited and assessed three (03) free zones and industrial parks of Buikwe, Jinja-Masese and Tororo to assess the state of Electricity supply and number of KM of roads constructed and maintained, availability of speed internet connectivity and water and waste management systems and their preparedness for green financing and export readiness<br>2. Visited Tembo Steels with NPA board and NPA top management to ascertain works and challenges in the steel industry<br>3. A concept note for a study to assess critical infrastructure in industrial parks was developed. |                                               |
| 1. Revised the productivity concept and strategy to target the priority value chains under manufacturing and guidelines to enhance productivity in manufacturing industries undertaken<br>2. Two studies on energy efficiency and urban mobility undertaken. | 1. Produced a draft study report on the Uganda Iron and Steel Manufacturer’s Association (UGISMA) on productivity and energy efficiency for validation<br>2. The productivity concept was developed and presented to OWC<br>3. Studied and responded to all received correspondences on the Works and Transport and Energy issues                                                                                                                                                                                                                                                       |                                               |

| 1. Evidence-based research on population issues, document demographic trends including fertility mortality, urbanization, and migration conducted<br>2. M&E framework for the population policy developed                                                          |  | 1. An evidence-based study was conducted on population issues, documenting demographic trends—including fertility, mortality, urbanization, and migration—and their implications on the socio-economic development.<br>2. Two studies(2) were initiated: one on re-modelling Uganda’s population profile and setting growth targets, including fertility rates, to support the realization of Vision 2040; and another on National Transfer Accounts (NTA) for the Human Capital Development (HCD) life-cycle approach to inform policies for effectively harnessing the demographic dividend. Data collection is ongoing.<br>3. Re-modelled Uganda’s population profile and established growth targets to support the realization of Vision 2040. This informed the development of the M&E framework for the population policy. |               |
