Performance highlights for the Quarter

PPDA issued 35 audit reports (11 performance audits and 9 compliance audit reports), 5 contract audits 158 contracts (22.35%) were high risk, 178 procurements were medium risk and 204 procurements were low risk while 167 procurements (23.62%) were satisfactory

PPDA undertook 21 bid preparatory audits aimed at ensuring that public procurement planning and requisition are conducted in a manner which promotes transparency, accountability and fairness and to establish whether the solicitation document issued to bidders is prepared in accordance with the provisions of the PPDA Act 2003.

PPDA completed 6 investigations into the mismanagement of procurement and disposal processes. The average investigation lead time was 31 working days.

PPDA handled 5 applications for accreditation of alternative procurement procedures.

PPDA completed 3 investigations into the suspension of providers. All the recommendations were closed for lack of information. 45 requests for suspension are still under investigation

PPDA commissioned a study on the factors affecting contract management in Uganda which revealed that the poor outcomes of contracts are a result of unrealistic cost estimates during procurement planning, inadequate or incomplete technical specifications, unrealistic high or low qualification criteria, unfair (corrupt) practices in evaluation, and inadequate due diligence.

1460 stakeholders were trained on different aspects of the public procurement process. The significant capacity-building activities include the induction of contracts committee members, Accounting Officers, providers, students, Procurement Department Units (PDUs) and User Departments (UD) for Central and Local Government Entities and CSOs. The capacity-building interventions have led to improved implementation of PPDA recommendations and improved compliance with the PPDA law.

60 change agents were trained and equipped with the knowledge to use the e-procurement system.

Variances and Challenges

1. Limited audit coverage. The Authority currently conducts audits on a sample and risk basis. The current audit coverage is only 35% and this position is continuously being worsened by the ever increasing number of both central and Local Government Entities and the poor releases from the consolidated fund.

2. Delays in amendments to the PPDA Regulations: The amendment process of the (PPDA) Regulations has not been completed despite the coming into force of the amended act which limits the implementation of the revised Act.

3. Old fleet of vehicles yet most of the PPDA activities are field based. This implies that the Authority is not able to send multiple teams to the field to implement the planned activities.
