V4: Vote Challenges for 2015/16 and the Medium Term

This section sets out the major challenges the vote faces in 2015/16 and the medium term which the vote has been unable to address in its spending plans.

1. PRISONS FARM PRODUCTION ENHANCEMENT

Farming & farm infrastructure development to enable prisons attain food self-sufficiency, Increase food production and generate efficiency budget saving of up to shs.45billion per annum, and reduce prisoners' long hours of work.

Prisons farm potential;

- a) Fertile arable land of approximately 45,000 acres
- b) ☐ A daily average of 18,000 convicted prisoners – labor potential
- c) 20 trained agricultural staff in prisons farms and on government pay roll
- d) ☐ Some agricultural infrastructure in place (buildings & machinery – required is expansion and upgrade

Farm Requirements for FY2015/2016

Farm Machinery; required is shs9.27bn, provided is shs.0.21bn, shortfall is shs9.06bn

Farm inputs; required is shs4.7bn, provided is shs.2.2bn, shortfall is shs2.5bn

In the medium term, the service requires;

- a) ☐ Capitalization of farms (one off) – shs75.9bn

Vote: 145 Uganda Prisons

Vote Summary

- b) Farm inputs (annually) – shs15.1bn
- c) □ Farm infrastructure (one off) – shs39.5
- d) □ Total amount required for investment – shs130.5bn
- e) □ Annual respected revenue from the above investment – shs.45.5bn

2. PRISONERS' FEEDING

Feeding of a daily average of 45,534 Prisoners at shs.3, 000 per prisoner per day requires shs.49.66bn. Provided is shs.21.44bn hence a shortfall of shs.28.26bn. At current level of investment, prison farm production is projected to produce food worth shs.8bn; the overall shortfall will be shs.20.26bn;

3. □ INADEQUATE STAFF UNIFORM, PRISONERS' UNIFORMS AND BEDDINGS

STAFF UNIFORMS:

Each staff is entitled to at least two pairs of uniforms with accessories and protective gear (Rain coats, gum boots, water bottles, shoes helmets, etc). Currently each staff is provided with only 1 pair of uniform that he has to wear on a daily basis. No protective gear is provided.

Non provision of uniform is not only an embarrassment to the State but also a source of insecurity on part of staff and the public. To dress all uniformed staff with 2 complete pairs of uniform, shs7.43bn is required. For FY 2015/2016 a provision of shs0.92bn has been made, hence a shortfall of shs6.51bn.

PRISONERS' UNIFORMS AND BEDDINGS

A prisoner is entitled to 2 pairs of uniform, a blanket, and a felt mattress. 80% of prisoners have no appropriate beddings and resources are not sufficient for providing 2 pairs of uniform per prisoner. In some prisons, prisoners have no beddings at all and sleep on the bare floor if they cannot provide for themselves.

For a daily average of 45,534 prisoners;

Shs1.548bn is required for adequate provision of prisoners' uniform, shs0.58bn has been provided leaving a shortfall of shs0.968bn; Shs2.669bn is required for provision of 2 blankets per prisoner, shs1.2bn has been provided, leaving a shortfall of shs1.469bn and shs2.278bn is required for provision of felt mattresses. No provision has been made. Non provision of these items is a human rights violation.

4. STAFF WELFARE

Staff accommodation:

About 6,500 out of 7,600 staff are not properly housed. They stay in improvised houses, uniports, Finamores, canteens, while others rent at their own cost. This may explain high staff attrition rate of over 250 staff per year. This also compromises security of the prison and the public at large.

To provide a two bed roomed house per staff for 500 staff per annum requires Shs.40bn (Shs.80million per housing unit) – phased over 10 years

5. LOW STAFF NUMBERS AND HIGH STAFF ATTRITION

Vote: 145 Uganda Prisons

Vote Summary

The current level of custodial staffing is 5,382 against the required 15,178 at the projected prisoners' population of 45,534 (more 9,796 staff required)
 Prisoners population has increased from a daily average of 39,278 prisoners in FY2012/134 to 41,616 (September, 2014), and is projected at 45,534 in (FY2014/2016);
 Custodial staff to prisoner ratio is 1:8 against 1:3 which is ideal.
 Annual average of over 250 staff leave the service due to poor conditions of work, among others
 Currently only 1,338 trainees are undergoing training at Prisons Training school. This will reduce the custodial staff prisoner ratio to only 1:7 against an ideal of 1:3. Management of a 3 shift system is difficult and staff are unable to take annual leave.

6. ACCESS TO JUSTICE

Misalignment of Courts and Prisons Location

This not only affects timely delivery of prisoners but also increases costs of service delivery (fuel and vehicle maintenance). Examples of misalignment are Bubukwanga to Bundibugyo 16km, Butiti to Kyenjojo 21km, Masafu to Busia 15km, Nebbi to Paidha 20km, Kotido to Kaabong 84km, Bubulo to Rwakhaka 14km, Namalu to Nakapiripirit 28km, Tororo to Malaba, 17km, Nebbi to Ragem 28km, Buhweju to Bushenyi 40km

Shs. 4.7bn is required to procure 10 buses, 10 trucks and 10 pick-ups against a provision of shs.1.29bn leaving a short fall of shs 3.41bn.

Transporting of prisoners to courts (a daily average of 1,527 prisoners to 213 courts and case backlog sessions) in terms of vehicle maintenance & Fuel requires shs3.9bn per year. Provided is shs1.03bn

7. OVERCROWDING AND ASSOCIATED CHALLENGES

The current prisons carrying capacity is for a daily average of 16,034 prisoners. Current Prisoners' population is 41,616 (September, 2014); exceeding the available capacity by 25,5852 inmates (occupancy level is 259.5%), with some prisons housing up to 8 times their designed holding capacities. The current prisoners' population growth of 9% is not matched with the 7.6% expansion of prisoners' accommodation capacity (from 14,898 to 16,034). This poses a challenge in separating different categories of offenders, to break the cyclic chain of crime and violence.

Constructing 5 low security prisons per annum at shs.3.8bn requires shs.19.0bn;

8. MAINTENANCE OF PRISONS BUILDINGS - INADEQUATE AND INAPPROPRIATE PHYSICAL INFRASTRUCTURE

Most of the Prison structures being used today were constructed before independence and have never been renovated. Some prison facilities are so dilapidated and not suitable for human habitation and have since been abandoned. Required annual maintenance budget for 242 prisons is shs1.23bn against the provision of only shs314million leaving a short fall of shs.0.916bn.

9. POOR WATER AND SANITATION SYSTEMS - "NIGHT SOIL BUCKET SYSTEM"

The infrastructure design in most prisons has no provisions for sanitary system. 58 (24%) out of 242 prisons still use "night soil" bucket system which is degrading and inhuman.

Vote: 145 Uganda Prisons

Vote Summary

Even in places where the waterborne toilets were constructed, sanitation facilities have been stretched beyond capacity and have collapsed especially in major prisons. In FY 2014/15, water borne toilets are being constructed at 40 prisons.

To phase out the bucket system in all prisons (58 that will remain) at approximately 30M per prison requires shs1.74bn against a provision of shs0.8bn and the overall shortfall is shs0.94bn.

10. OUTSTANDING UTILITY BILLS;

As at 30th September 2014, outstanding bills accumulated to;

Food - Shs6.8bn

Electricity – shs16.9bn

Water – shs2.1bn

No provision on food, water and electricity arrears has been made in FY2015/2016.

Annual budget requirement for water is shs.2.088bn, provided is shs1.262bn; shortfall is shs0.826.

Annual budget requirement for electricity is shs.7.760bn against a provision of shs3.754bn for electricity; shortfall is shs4.006bn.

11. □ LOW APPLICATION OF MODERN TECHNOLOGY IN DOCUMENTATION AND PRISONERS' PROFILING

There is absence of appropriate data management systems, appropriate software applications, and policy framework for technological development of prisons which compromises the safety and security of prisons. There is no application of technology in the identification, management and control of prisoners in terms of CCTV cameras and biometric technology.

The record keeping and management system is manual in all the 242 prisons and 15 prison regions.

Low ICT development, in terms of hardware, software, and training to facilitate prisoners' identification, classification, segregation, and control

Required for providing and sustaining the necessary infrastructure is shs.5.2billion

12. PRISONS HEALTH SERVICES

High TB prevalence of 654/100,000 (c/f to national rate of 300/100,000) and lack of TB isolation facilities.

Limited capacity for TB pre-entry screening services (is done in only 24 out of 242 prisons)

High HIV/AIDs prevalence of approximately 11% among inmates (national rate is 6.4%).

The coverage of HIV/AIDS services is limited to only 15% of the health units in UPS.

Low staffing of health facilities: 218 (50%) out of 436 posts.

To adequately provide health services in prisons requires an annual provision of shs.3.8bn against a provision of shs.1.05bn leaving a short fall of shs.2.75bn.

13. INADEQUATE REHABILITATION SERVICES

There are inadequate rehabilitation facilities and programs to enhance rehabilitation and reintegration of offenders; only 13 out of 242 prisons have industrial workshops but which are also not well equipped. The

existing rehabilitation facilities do not match with the current sentencing regime with many prisoners having sentences of 30 years and above. The existing facilities and the prevailing rehabilitation process are not tailored to handle such cases. Establishing, equipping and staffing rehabilitation/correctional centers (industrial workshops) per annum in at least 10 prisons require Shs.4.00bn. No provision has been made.

14. LAND SURVEYING.

176 pieces of land (72.7%) of all prisons land are not surveyed and the service faces challenges of protecting this land from illegal claimants and encroachers. Titling and surveying all 176 prisons land at a rate of shs10 million per piece of land requires shs1.76bn. Shs80million has been provided leaving a shortfall of shs1.68bn.

This section discusses how the vote's plans will address and respond to the cross-cutting policy, issues of gender and equity; HIV/AIDS; and the Environment, and other budgetary issues such as Arrears and NTR..

(i) Cross-cutting Policy Issues

(i) Gender and Equity

<p>Objective: Gender mainstreaming to attain equity and balance</p>
<p>Issue of Concern : There are several special categories of prisoners in custody including female prisoners (pregnant and breast feeding), foreigners, mentally disordered, the elderly, disabled and the sick that are given preferential treatment.</p>
<p>Proposed Interventions</p> <p>Each category of prisoners has preferential treatment. For example female prisoners are catered for through the provision of sanitary towels –shs99m (100% provision). Provision of special meals to children staying with their mothers in Prison -shs60m. Strengthened heifer cows project for milk for the children of prisoners. UPS' recruitment policy considers recruitment of female staff at all levels of administration.</p> <p>The design of all new constructions take into considerations the needs of the physically disabled in</p>

Vote Summary

terms of accessibility

Budget Allocations UGX billion 0.159

Performance Indicators Number prisoners catered for in each category.
 - Proportion of female staff recruited.
 - Existence of a documented gender policy
 - Number of babies staying with their mothers in prisons that are looked after

(ii) HIV/AIDS

Objective: To offer adequate care and appropriate treatment to HIV positive patients, Prevent new HIV infections in prisons through awareness programs

Issue of Concern : HIV/AIDS is one of the leading causes of morbidity and mortality in prisons and it's strongly associated with Tuberculosis (proportion of TB mortality 46.3%, HIV prevalence among TB patients is 64.7%).

Proposed Interventions

Shs.201million has been earmarked for HIV/AIDS patients (staff) for nutritional supplementation and drugs for opportunistic infections.

One of the interventions is improving health care by strengthening clinical laboratories, health promotion, regular HIV/AIDS voluntary counseling and testing, developing an HIV/AIDS prevention strategy and provision of treatment/drugs.

Budget Allocations UGX billion 0.201

Performance Indicators Proportion of HIV/AIDS patients supported with treatment and nutritional supplementation;
 HIV/AIDS prevalence rate

(iii) Environment

Objective: To mitigate high levels of firewood consumption for sustainable environment

Issue of Concern : Wood fuel is the major source of energy for preparation of prisoners food hence deforestation

Proposed Interventions

The management of UPS has made deliberate efforts to plant trees for firewood (over 1200acres have so far been planted), shs. 50million has been earmarked for planting 120 acres of land with trees

Budget Allocations UGX billion 0.05

Performance Indicators Number of acres planted per year
 - Number of energy saving stoves constructed

(ii) Payment Arrears

The table below shows all the payment arrears outstanding for the Vote:

Payee	Payment Due Date	Amount (US\$ Bn)
UMEME	30/09/2014	16.90
Salaries and wages	30/09/2014	0.42

The budgets for the affected financial years were approved with the shortfall for the respective arrears. Efforts have been made to bring it to the attention of the ministry of Finance to provide for Arrears.

(ii) Non Tax Revenue Collections

The table below shows Non-Tax Revenues that will be collected under the Vote:

Source of NTR	UShs Bn	2013/15 Actual	2014/15 Budget	2014/15 Actual by Sept	2015/16 Projected
Miscellaneous receipts/income		0.000	7.700		8.200
	Total:	0.000	7.700		8.200

The major source of NTR collection is from prisons farms. At the current level of investment in prisons farms, food worth shs8bn in NTR is expected.
