- 1. As you are aware, COVID-19, has had a negative shock on the Ugandan economy, with key sectors such as tourism, exports, imports, remittances and the monetary sector among others, expected to be hit hardest.
- 2. This has necessitated that Government takes action in order to mitigate the negative Social Economic Impact of COVID-19, and to also ensure that the Economy remains resilient.

Government took a decision to fund a number of interventions by Innovators categorized into four thematic areas of: Devices (ventilators, 3D printed face shields like masks); Diagnostics and Vaccines, Therapeutics and Hygiene; and Personal Protective Equipment (PPE), in the fight against COVID-19. This requires UShs 17.18 billion to support all the Scientists and Innovators engaged in COVID-19 interventions.
